#### **NEW BEEF RECIPE WEB SITE** TURNS 'BYTES' INTO 'BITES'

Know how to change those computer bytes into delicious dinner bites? Visit the Texas Beef Council's searchable recipe web site at www.txbeef org. It's the Internet surfer's stop that transforms cooking dilemmas into meal solutions.

TBC launched its new web site especially for working mothers who arrive home after a hard day's grind and still have to feed a hungry family quickly and nutritiously.

According to the U.S. Census Bureau, approximately 43 million adults use the Internet on a regular basis. The vast majority of these adults - 28 million persons - access the Internet from their homes for information. So TBC decided to provide digital access to hundreds of beef recipes that can help solve the nightly meal dilemma for America's working moms.

Each recipe on TBC's web site offers a meal solution that combines flavor and ease of preparation. It's a way working mothers can use the digital age to get entrees on the table with the same confidence their grandmothers had with printed cookbooks.

To access the TBC recipes, all you need to do is click on the web site's "Recipe Book" section. From there, you can browse until you find the right meal idea.

Or you can type in a particular cut, cooking method, or dish. In seconds you have a list of recipes, each with ingredients, instructions, and time of preparation.

For those who like variety but don't

## Nat'l History & Government Award Winner

The United States Achievement Academy is proud to announce that Taryn Harmon of Clyde, Texas has won three prestigious awards. She has been named an All-American Scholar and has received the United States National Award in History and Government. She has also received the United States National Award in Science.

These awards are a very prestigious honor very few students can ever hope to attain. The Academy recognizes fewer than 10% of all American students. The Academy selects USAA winners upon the exclusive recommendation of teachers, coaches, counselors, and other qualified sponsors and upon the Standards of Selection set forth by the Academy. The criteria for selection are a student's academic performance, interest and aptitude, leadership qualities, responsibility, enthusiasm, motivation to learn and improve. ditizenship, attitude and cooperative

Lorena g. Males So many things happen in the spring to make us come alive with joy. One thing that turns on my battery is all the newspaper stories of graduation achievement that come from the Little Red School House—U.S.A. We read the honor roll—list of those receiving scholarships—graduation announcements begin to arrive scads of honors!

But what jarred my feelings was a story of a good-looking Junior High boy, an honor student, who, when asked what he wanted to be or do, answered, "A nuclear engineer, physicist or an astronaut."

Glory be! What high ambition some

spirit, dependability, and recommendation from a teacher or director.

Taryn is an officer in the Jr. Beta Club and concert band. She is on the varsity basketball team; serving as team captain and on the All-Stars Team. She earned sixteen first places medals and six second place medals her seventh grade year in track and thirteen first place medals and nine second places medals her eighth grade year in track. She has been the track team captain both years. She participates in the gifted and talented program. She is very active in church and community activities. Tarvn is an eighth grade honor student in the advanced program at Clyde Jr. High. She maintains a 4.17 GPA and is currently ranked second in a class of 163. In her spare time, she enjoys water skiing and spending time with friends.

Taryn is the daughter of Matthew and Teresa Harmon of Clyde, Texas. Grandparents are Billy and Mary Harmon of Rising Star, Texas and Lavon and Wanda Williams of Wheeler, Texas. Taryn attended school in Wheeler K-4th.

Administrator's Report: (1) Mr. Robertson gave an update on the Physician Recruitment. He stated that Dr. Wayne Porter from Corning, Arkansas, who had been to Wheeler with his family to meet with the Board, is showing interest in coming to Wheeler to establish a practice. It was suggested by the Board of Directors that Mr. Robertson follow up on this and visit with Dr. Porter for more information. (2) Mr. Robertson stated that the Chemistry analyzer in the Laboratory is now over 7 years old, and the expected life of these machines is usually 5 years. We are now experiencing difficulty in keeping the machine in operating order. The hospital had quotes from Infolab, Inc. for an Ortho Clinical Diagnostic Vitros 250 Chemistry Analyzer. This machine is one of the latest in Chemistry Analyzer machines, in that it would perform additional tests that our present machine will not perform that we are now having to send out to our reference laboratory. The Board instructed Mr. Robertson to check out the possibilities of obtaining this machine, either through lease or purchase. Also consider the maintenance agreement expense and report to the Board immediately as to the findings pertaining to this. Meeting adjourned at 9:00 P.M.

Mac and Mary K. made the mistake of letting me know they were going to Elk City Tuesday. I had something for them to do, while they were there. Thanks. But, this was not the first time I had imposed on them.

-cwe-Evidently the making of the cap for the courthouse column is taking more times than expected. The lift was put to good use trimming the trees and pruning dead branches. The lift is gone and the new cap is not in place. -cwe-

Mr. Bar-B-Q did his usual excellent job catering the banquet Monday evening.

Our trip to Oklahoma over the weekend included the usual stops with end of school activities keeping everyone hopping. Jennifer and Brice had graduations to attend at Weatherford.

We had both Bens at cards Monday evening. Mike called to say Ben was here and I was thinking of Ben Sword. It was not until 6:00 p.m. that I found out he was talking about Ben Growe.

-cwe-I was informed after the banquet that I had a winning night at cards by proxy. We drew for places at the table and I played three hands of the first game before I had to go. My partners, Mike and Dwight went on to win all three games. Barbara and Benny were on hand for the whole bad situation.
