

LEFORS PIRATES NEXT FOE ON MUSTANGS' LIST

Back in competition after dropping their football program in high school for two years, the Lefors Pirates host the Mustangs Friday night at 7:30 in the '82 season's second district game.

Coming off their big win over Phillips last week, the Mustangs know that each game is a new challenge in their quest for the coveted championship and each game has to be treated as a possible

pitfall and Friday night will be no exception. The Pirates are winless in four games and bring a 0-3-1 record into the game and lost last week to the Follett Panthers 27-14 while the Wheeler

Mustangs have fashioned a 3-1-1 record. "Lefors has several real good football players and our kids have got to get it early and show that we can have a consistent, good football

team", Coach Preston Smith said. "Everybody will be gunning for the Mustangs now and we have to be prepared to meet the challenge," Smith added.

The Pirates run from the wishbone on offense and because so few teams use the triple option offense now, it makes it difficult to prepare a defense. The Pirates are guided in the wishbone by quarterback Cody Allison who is a

gifted athlete according to the Mustangs scouts. Defensively the Pirates use a five man front with two linebackers and a rover and the Pirates are blessed with good size both on offense and defense. In assessing his team to date, Coach Smith said, "We are showing improvement and have some momentum going for us and it is important to keep both of these things from week to week".

Chat With The Editor

Roy Robertson of Ft. Worth, co-owner of Wheeler Care Center was in Wheeler Friday afternoon and part of Saturday. Rick Nelson of Burleson, accompanied Mr. Robertson on the trip to bring some furniture for the nursing home and check on the progress in the construction of the facility. Robertson reports the project is ahead of schedule and completion is now moved ahead one month; they hope to begin accepting residents on December 1. Nelson is a nursing home administrator and is helping with the planning and purchasing of equipment.

The men were given a chance to enjoy Wheeler hospitality and good food when they attended the casserole supper prior to the game with Phillips. They then attended the game.

The Editor and Allen Hix were given a guided tour of the building, Wheeler Care Center Friday afternoon. That is a lot of building and will certainly be something else in which Wheeler citizens can take pride.

Charlie Hix returned from Austin Friday evening; he had been on a business trip to assure the "certificate of need" for the addition at Parkview Hospital. Approval was given for the certificate and the plans for the building are being drawn.

On Tuesday evening, September 21, Bobby Wells of Kelton was involved in a pickup-motorcycle accident one mile south of Kelton. Bobby was critically injured; he was picked up by Wheeler's ambulance, taken to Shamrock General Hospital and immediately transferred to St. Anthony's in Amarillo. Bobby was wearing a helmet but received numerous facial fractures, a broken right leg and broken left wrist; he was taken immediately to surgery at St. Anthony's to begin repair of the facial bones.

Bobby is recovering, but he has a long way to go. He is in Room 502.

Having been on the ambulance runs and having stopped in to see Bobby last week, I would like to say, Bobby's folks can certainly be proud of the way this 14-year-old "young man" is handling his situation.

Once again, the Kids Day Parade was quite an affair. The pictures do not do justice to the costumes and/or decorations. This annual event/represents a lot of work on the part of the parents and members of the sponsoring sorority.

The judges for the parade certainly had their work cut out. "Spud's Watermelons" consisted of Spud Moore's grandchildren in costume; Dillon Miller represented Spud (complete with silver hair) and each of the others were dressed in Watermelon costumes. This was just one of many unique ideas in the parade.

These sorority members planned and carried through with a full day of activities for the youth of the community who wished to participate. Thank You, ladies.

The victory for the Mustangs in the district opener for the two-season picks for the championship puts Wheeler in the enviable position of being on top of the heap and the rest of the district chasing them.

Wright spun off 196 yards on 30 efforts and scored two touchdowns and for his play

POLITICAL AD:

Texas government operates -- and operates very well -- under a Constitutional requirement for a balanced budget, as do almost half of the other states.

This would be an excellent requirement on the national level. Those who oppose it there say that a pay-as-you-go program would hamstring the Federal Government.

Fifty years with deficit spending certainly should be proof enough that a balanced budget is just what the Feds need, worse than anything.

If I am your State Representative, be assured that I will work seriously to limit needless spending, to guarantee that the Texas budget stays balanced and healthy. You elect a Representative for this purpose, not to arrange for a personal pension at the expense of the budget and taxpayer.

SOME INSURANCE AGENTS ARE LOCKED INTO ONE COMPANY.

NOT (YOUR INSURANCE AGENCY'S NAME GOES HERE)
There are 2 ways to buy insurance. You can buy your insurance from a one-company agent. But he's locked into only those policies that his company sells. So his hands are tied.
Or you can buy your insurance from an Independent Insurance Agent...the more-than-one-company agent. You see, your Big "I" Independent Agent doesn't work for one company. We represent several. So we're free to give you an impartial, independent opinion and help advise you on the best coverage at the best price.

Briscoe News

Vetola Parker
Monday morning Oct. 4, nice cool fall day. We received rain last Tuesday night around 1 inch. On Friday it showered off and on all day. Made us damp cool ideal weather, good on the wheat up and good on what's planted so we have a lot to be thankful for.
Happy belated birthday to Michelle Parker Oct. 3rd, Eddie Bates, Christine Ady-lotte, so sorry to have let these run over.
Cecil and Emma Jean Meadows visited Mrs. Allen Meadows in Abraham Rest home in Canadian Saturday night. She is doing pretty good Emma Jean said.

All of Cecil and Emma Jean children were home over the weekend.
Mary Hudson visited Mrs. Elgia Welch last Wednesday afternoon.
Mary said they received 1 1/2 inches of rain Thursday and Friday.
Oden and Lois Hudson are at Truth or Consequence, New Mexico. They are coming the 20th for a check-up with the doctor. Ray and Pat Hudson are living in Oden and Lois' house now. Oden is doing better out there.
Leroy and Jeff Parker came Thursday night. They worked on our porch Friday and Saturday. Leroy had to go home and work Sunday at his

job, the Arsoco, Copper Plant. C.P. and Linda Bates visited us Sunday afternoon.
Mary Hudson said the new Briscoe store up on the highway, opened last Monday. It was really nice and stocked good. The same people run it that was running the Briscoe store, the Mike Bells.
Travis and Rosalee Keelin took a little trip over the weekend. They went to East Texas as far as Athens. They went to Montalba to visit a sister. They really enjoyed the trip and saw a lot of country. They went to a flea market at Canton. Now I went to one. They are something.
Talked to Addie Swift, she said Wayne Childress' baby,

Amanda was doing just fine. But they were to go back to the Doctors in this month for more test to try to do away with this tube they feed her with and try to fix it where she can eat and swallow it naturally. It would be so much better on all. We are hoping they can.
Addie went to Okla. City last week with Fat and Wanda Childress, Scott and Kay Luttrell, Clyde Jr and Jane Dukes to a chili cookoff. There were teams. Jane and Kay were a team, Scott and Clyde, Jr. a team. Jane and Kay won 3rd, Scott and Clyde, Jr. won 8th. Now that was good cooking. They also attended the Fair.
Found a note in our house Sunday night saying Arland and a friend were hunting here, but we never saw them. Wish we had been home.
Didn't get around and gather much news this week, and very few called in news.
Visitors at Claude and Mable Parkers over the weekend were Cliff and Dorothy Ogle, James and Ben Ogle and girls, Kevin and June Schaffele, C.P. and Linda Bates, Larry and Brock Parker and a friend.
Addie said they had a lunch counter and a game room in the Bells' new store, how nice. They also sell gasoline.
Mr. and Mrs. Paul Luttrell of Amarillo visited the K.D. Douthits on Friday and Saturday. Other visitors were Deb and Bob Kinnaman, Joe Bob, Corey and Tressa.
Amy and Laura Meadows visited grandparents Roy and Lois Saturday and Sunday. They all went in to visit Greatgrandmother Meadows at the Rest Home in Canadian Saturday night. Other Sunday dinner guests at Roy's were Eddie Meadows and Dale and Debbie Stinnett and Christian, Cassidy and Cuyler.
Bob Ratliff is recovering nicely from surgery Tuesday at Shattuck. His gall-bladder was removed and a hernia repaired. He was coming home Monday. Some who visited him were Sue Ratliff and children, Allen Hale and family, and Chuck and Phoebe Hartline. Keith Ratliff spent two days with Roy and Lois Meadows. Mandy Ratliff spent two days with Evelyn Meek. Kaleb Meek also visited Evelyn.

visited Gageby Church Sunday morning and visited Willis and Verna Fillingim.
Ray and Pat Hudson and Rodney and Cheryl attended homecoming at their church in Stinnett Sunday.

Darrell Rodenberg ate supper with Willis and Verna Fillingim Monday night. He was going to Kansas Friday to visit and bring Dusten back to stay with him.

Hazel Helton and daughter Doris and Edward Weil from Plainview and Hale Center visited Mattie Jackson, Alice and E.O. Kelley, Ed Helton, and Effie Renfro a few days last week.

Congratulations to Mike and Barbara Bell on their new Bell Mart Convenience Store located just south of the overpass on Joe Lee's land.

Glenn Lester and Lucille Pettit were married August 18 at Plainview at the Assembly of God Parsonage. We wish for them a long and happy life together.

A group of young folks from the Assembly Church at Briscoe visited the Lesters Sunday night for hamburgers and fellowship.

Lucille and her first husband pastored the Assembly of God Church in Canyon several years before his death.

Charles and LaJo Crown-over and Boyce, Jodie, Londa and Terry and Willa Fillingim, Vea Fillingim, Helen Singleton and Andy and Randy all went to Claremore, Oklahoma over the weekend to a family reunion and gathered pecans at the Rex Hardadge home. Others there were Laurel and Ed Hershman from Indiana, Eda Bynum and Gay Andler from Alabama, and Virgil and Esther Rose from Midwest City, Oklahoma. Made 6 of Willas' brothers and sisters together besides neices and nephews.

Mrs. Joe Flowers probably us. Joe got up the other morning. Said he was too fat and we needed to start walking. Round the section makes a nice walk. Most of our neighbors have dogs to speed us on our way. If you see some skinny, tired folk with a hunk bit out of their leg, it is

down the road while coons, turkeys, and quail scratch in the underbrush. There are signs of illegal hunting shotgun shells in the roadway.

Met one of our neighbors, Norma Zellman, and her Stratford guests, Jackie Jamison, Yolanda Lopez, Stacy and Charley. We walked and visited thru the sandbed.

Had over a half inch of rain. Y.C. Fuchs had his drill going. The Leroy Dunlaps were out hauling hay.

Sunday guests of the Ernest Procks were Mr. and Mrs. Leldon Reed of Vici, Mr. and Mrs. Jim Anderson, and Kenny and Pam Reed. Pam says there were over 200 at the open house of the school.

Mrs. Viola Benton has been visiting the Ray Sites family.

Our neighbors on the hill were dismayed to come home and find their mailbox knocked down and someone had stolen some things from their house.

Experts say Rome fell because lead poisoning from their plumbing caused mental retardation. Seems they used lead pipe. Now they say 800,000 American children are affected to varying degrees by lead poison. Some from paint, but mostly from the lead in gasoline that pollutes the air. Latest advice is not to let children play or eat fancy wrapping paper because it contains lead.

One of our oil wells was really cutting up last night. Shook the house so I thought it was an earthquake. Understand we've got gas in these wells that they haven't found a market for yet.

I haven't understood why the Western Farmers Co-op built a \$396,000,000 coal powered plant when they were in the heart of the Anadarko basin with gas on all sides. The electric bill is up around 40% so consumers can pay for the plant.

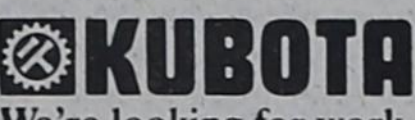

We went to see E.T. The theater was full even tho it was a week night. No vulgar language, explicit sex, or bloody crime. Just a heart warming story of a little alien who wanted to go home.

are attractive as well as being designed to help maintain body warmth. Some coat designs—such as those with elbow-length sleeves or a clutch-close front that can't be fastened—do not rate very high in maintaining warmth.

If you want a warm coat, look for these special features: An attached hood that fits closely around the head.

Long, narrow sleeves that cover the wrists and have inside cuffs.

A neckline that fastens securely under the chin—perhaps with a turn-up collar that closes.

Secure front closures, such as buttons or zippers with protective flaps, that extend all the way down the front.

Full length—or at least enough length to cover the torso.

Extra capes, scarves or shawls that provide insulation around the head and shoulders.

Deep pockets—large enough to hold the entire hand. Belts at the waist to keep out the wind.

A wide overlap, or double-breasted styling, to make the coat less likely to flip open.

An easy fit so the coat can go over sweaters or suits.

While you may not be able to find all these features in a coat, a warm coat should include many of them.

Educational programs conducted by the Texas Agricultural Extension Service serve people of all ages regardless of socio-economic level, race, color, sex, religion or national origin.

Visiting Emma Perry Sunday were Mr. and Mrs. Odell Perry and Zana of Wheeler, Mr. and Mrs. Gene Perry and Colin of Sayre, Debra Hill and Parisha, Anna and Keith Dunlap, Junior and Louise Perry.

What are they going to do with all these 1982 cars they claim they can't sell?

The Sweetwater Baptist Church had the devotional services at the Erick Home. Had a good crowd.

Mr. and Mrs. Howard Dickcy visited Sunday afternoon with George and Elsie Kerr in Erick.

Our mail carrier E.L. Fowler tells me they have a new grandson. Little Trampas Dalton Fowler weighed in at Elk City at 8lb. 12oz. Grandparents are E.L. and Wilma and Mr. and Mrs. George Bales of Sayre. Parents are Doug and Gaye.

Funeral services were Bobby Coots, 19 yr. old, were held at the Assembly of God Church Tuesday. Burial was at Dempsey. He was shot accidentally while cleaning his gun.

Ethel Cardin and Iva Thompson spent a few days at Sanford visiting Frances Thompson and Mozelle Weston.

Our government has queer rules. Saw where a man killed 13 people including his kids. They guarded him 24 hours a day to prevent suicide. Might have been more to the point to handed him a rope and turned their backs. He'll be on the streets in less than a year.

Mr. and Mrs. Rhome Nix and the Olen Nabors spent a few days fishing at Texoma.

Frankie Sutton is home from the Shattuck hospital and Ed Logan from an OKC hospital. Both are doing fine.

The Durwood Yorks are brick veneering their home. Don Stewart and his crew are doing the work.

Gertie Coffey tells me her brother and wife Mr. and Mrs. Orville Bartz of Corona, CA have been visiting the Edsel Nations and others.

Went down to buy a sidewalk Saturday. Saw Lennie Anderson, Thurston Coffey, Lola French, Grace Roberts, Alva and Marie Butler.

A good way to do so is by making your own coat, since it is one of the most expensive clothing items for winter wear.

Among the easiest types of coats to make are those with the following characteristics:

A simple design with few tailoring techniques.

Very loose and requires minimum fitting.

Simple—yet smart—kimono, raglan or dropped sleeves.

May be collarless.

Have in-seam pockets.

Are unlined (but you may want to line the sleeves for easy-on, easy-off.)

Fasten with ties, toggles or wrap with a belt.

Choose Coat for Intended Use

Whether you decide to make or buy the outerwear garment, your choice of coat should depend on its intended use.

A coat is satisfactory when it contributes to the conservation of human energy and keeps its wearer warm. Many types of fabrics and insulations are on the market. Design features, construction techniques and styles also vary.

Before making a choice for a coat, ask yourself these questions:

To what types of activities will I wear it?

In what temperature range will I most often wear this garment?

Will I give the garment rugged, active use?

Will I be exposed to frequent wet and windy conditions?

How will I care for the garment?

The Key to Keeping Warm

While no one fabric, finish, insulation or construction alone will give you complete warmth, the key to keeping warm is how the fabric, insulation, finish, construction, garment design and fit all combine to trap "still air" next to the body. This trapped or "dead air" space provides the necessary thermal insulation to keep you warm.

Many new fabrics—along with the more traditional ones—are used to make outerwear garments.

Fabric finishes also affect a garment's performance and your personal comfort.

Body warmth is best maintained by a protective fabric layer, a layer of insulative fabric, and a "breathing" fabric layer. Regular daytime garments worn under coats serve as the breathing layer—and provide comfort to the wearer.

With coats, the main concern is the protective and insulative layers. In the past,

When heat and air make the difference

A crowd gathered in the country square, curious to see the large, strange-looking contraption of paper and cloth. The on-lookers laughed at Joseph and Etienne Montgolfier as the two men ignited the pile of straw and rags beneath their invention.

The unbelieving crowd gasped as heated air began to fill out the paper and cloth of the world's first hot-air balloon as it climbed steadily to the then-astounding altitude of about six thousand feet.

As the inventive partners had managed the dynamics of heat and air to give flight to their idea, you and SPS and the High-Efficiency Add-On Heat Pump can make a difference with the everyday management of heat, air and electricity in your home.

When you install a High-Efficiency Add-On Heat Pump you increase the heating efficiency of your existing furnace, and add cooling efficiency next summer. You also qualify for a special electric rate from SPS for seven months of the year. Call us to see what your savings could be.

TOOK URNS & FLOWERS AT MOBEETIE CEMETERY

Someone took urns and flowers from the graves of Hollis B. George and Ross Hooser last year. This made me real sad. Would whoever it was that did it please bring them back.

Mrs. Ruth George

A brief look into the nature of the 4-H program and what it has to offer youth and their families can provide the answers to these questions.

First of all, 4-H is fun. 4-H'ers take part in a wide variety of enjoyable activities—club meeting, recreation, camps, learning laboratories and project work. Meanwhile, their families have the joy of working together on projects, participating in fun days, and enjoying a host of other opportunities.

Secondly, 4-H offers educational experiences. Youngsters learn that learning can be fun. 4-H learning takes place in small group work, in individual work on projects, and in conjunction with adult volunteers and family members. They learn at fairs and project shows of various sorts in a variety of other "non-classroom" environments.

In a sense, 4-H education involves youngsters in a "learn to do by doing" atmosphere where useful and practical skills and facts are learned.

Finally, 4-H is for everyone—young and old, rural or city, male or female, regardless of race or ethnic group. Furthermore, 4-H requires no membership fee or dues. It is sponsored by the Texas Agricultural Extension Service which is a part of Texas A&M University System and by local, state and national donors.

The Texas Agricultural Extension Service is open to all persons regardless of socio-economic level, race, color, sex, religion or national origin. So, become a part of 4-H. You and your family will have fun, meet new people, and take part in many new and interesting activities.

Find out all about 4-H by contacting Extension office at P.O. Box 505, Wheeler, TX or call 826-5243.

Fashion From Page 1

new this year are shorter pant length and flat shoes. Once the eye gets use to the look it is fresh and interesting. Best of all are the very rich and exciting fall and winter colors.

She continued, Separates are a good way to stretch your fashion dollar. By selective shopping and using what one already has in the closet you can achieve new looks which will give longer life to still good clothing.

In day wear this fall the two biggest looks are the Santa Fe dress and the ethnic print. This next group of dresses will show you what we mean.

Lingerie is always important. During the Fall we begin to think of the holidays and special gifts. There are several new looks this year in lingerie too.

For special evenings or dressy daytime occasions we are always looking for the special dress. Many times we need a dress that will be worn for several different occasions because we simply cannot afford to wear a dress just one time. We would like to offer these suggestions.

Mrs. Hill concluded, Now we will have the girls come back for one last look at our party dresses and I'm sure that you will agree that Wheeler will be a bright place during the holidays this year.

Models for the occasion were: Louise Hogue, Becky Hardcastle, Renee Baize, Rhonda Morgan, Donna Walser, Chandra Crockett, Jeanna Stephens.

From Page 1

Wade Wills booted the first of three extra points and the Mustangs were on the road to victory.

Phillips only threat in the first half died at the Mustangs 7 when a fourth pass completion was six yards shy of a first down.

The Blackhawks came out and took the second half kickoff and appeared to be on the way of possibly tying up the game as they drove to the Wheeler 13 where they lost the ball on downs.

Two plays later, Wright broke loose and just outran the pursuit for an 86 yards and the Mustangs quickly upped their margin to 14-0.

Phillips didn't lay down after Wright's scamper and roared back with the aid of a face mask fine against Wheeler and a big 37 yard pass play to set up shop on the Wheeler 13.

Mike McKee rammed over from the 1 and Kyle Lynch booted the Blackhawks to a TD deficit.

From that point on, the Blackhawks were throttled by the Mustangs and Wheeler added another 7 points for their final margin.

Snapp capped a 51 yard drive in just five plays with 7 yard scoring pass to Wayne Benefield. The big play in the drive was a 39 yard run by Snapp down to the Phillips 9.

Here & There

Laura Guthrie
I'm pretty busy today, so I haven't taken time to think up comments or details on any subject. So I'll just tell you all I happen to know about my friends and neighbors.

Adrian and Dorothy Risner have recently returned from a two week vacation in Wyoming and Utah. In Wyoming they visited their daughter Darla Childress, her husband Punk and grandchildren Wade and Kari. Of course there must have been a bit of golf for Adrian, as Punk also follows the game. In Utah they visited Betty Risner Collins and her husband Stan. But to get home is always good. Adrian at the Bank and Dorothy at A.S.C.S. are finding plenty to do.

Doyle Hanks is with his mother, Roxie Hanks, for a while reoperating from an apparent heart attack. Roxie is glad to have him around. I almost had a head on collision with a fellow as we rounded the corner of the grocery store Saturday afternoon. I lifted my eyes soon enough to see someone that seemed familiar. He never looked up. But I stopped and watched him walking on. Then I called softly "Waylon". He stopped and looked around. Sure enough it was Waylon Pollard, another one of our boys grown up. He worked at the Theatre for us about forty years ago. He did his stint in the Army, and then worked at

SENIOR CITIZENS
Senior citizens met for their regular meeting Monday Oct. 4. A delicious covered dish dinner was served at 6:00. The business meeting was then called to order by the President, Betty McNeil. Ida Farmer read the minutes. They were approved. The new business: A new door is to be installed on the south side of the building. The old business: The old refrigerator is to be given to the library. The business meeting adjourned. A very interesting program was presented by five members of the Wednesday Study Club. "Super Moms", Vida Brown, Elva Wood, Inez Wright, Bernice Hall and Laura Guthrie. We had twenty one regular members present, and four guests. Vida Brown, Opal Hefley, Bernice Hall, and Geneva Wilson from Wichita Falls.

Some of the programs we sponsor at Senior citizens are: The Social Security program, The First Monday of the month, 1:00. The blood pressure clinic the first Thursday of the month which will be the 7th of Oct. On Thursday of each week we quilt so bring your needle and join us. Every one is invited to attend.

WINNERS: Brenda Childress received a TV as the "door prize" from Loyd's Radio and TV Service which recently held its grand opening. Billfold calculators were given to Linda Atwood, Mimi Boedicker, Vicky Nelson, Rosemary Dodd, and Joe Don King. Small calculators were given to Bill Wiggins, Kim Goad, David Bradstreet, and Randy Wilson.

one of our family theatres in Oklahoma. That did it. He has stayed in Oklahoma all these years—except when he would come home to do repair work on his mothers property. This weekend he was here to "do a little painting." He has retired from the Telephone Company. He had open heart surgery in the spring. He hasn't decided to live in Wheeler again. I was glad to see him.

On the weekend Peggy Ford, her mother Grace Weatherly, Opal Davidson and Anna Green went over to Red River New Mexico, just to see the beauty of the world. It was so they reported, such a lovely

trip. But two days of driving made them glad to be in their own beds on Sunday night. Geneva and Clarence Wilson of Wichita Falls are with Genevas sister, Mary Finsterwald again this week. They like it here, and Clarence is helping his nephew, John C. Vise with some of his work. I think it would be nice if they would just move to Wheeler.

Mrs. Fannie Bradstreet, Mrs. Jewel Hollaman, and Mrs. Evelyn Meek drove to Amarillo Monday on business. Mrs. Inez Wright and her daughter-in-law, Sharon Wright, were in Abilene on Sunday and Monday. Sharon's mother is there and Inez had once lived there, so they had a lot of visiting to do. Such a good time!

1983 wheat and feed grain program:
You can sign up to participate in these programs. Producer may request an advance payment on Deficiency and Diversion. Assume a 100 acre base and you will receive these advance payments:

Wheat—100 acre base x 20% = 20.0 acre reduction and leaves 80.0 ac for harvest.
Deficiency = 32.5 cents x 18 bu. = \$5.85 per ac x 80.0 ac = \$468.00 advance.
Diversion = 5% of 100.0 ac. = 5 ac x 18 bu. = x \$1.35 per bu. = \$121.50 advance.

Grain Sorghum—100 ac base x 20% = 20.0 ac reduction and 80.0 acres for harvest.
Deficiency = .10 cents x 30 bu. yield = \$3.00 x 80.0 ac = \$240.00.
Diversion = 10% of 100 acres = 10.0 acres x 30 bu. = 300 bu. x .75 cents = \$225.00 advance.

Barley—100 acre base x 20% reduction leaves 80.0 acres for harvest.
Deficiency: 7.5 cents x 24 bu. = \$1.80 per ac x 80 = \$144.00.
Diversion: 10% x 100.0 acres x 24 bu. = 240 bu. x .50 cents = \$120.00.

Oats: 100 acre base x 20% reduction leaves 80.0 acres for harvest. No deficiency payment.
Diversion = 10% of 100.0 = 10.0 acres x 36 bu. = 360 bu x 37.5 cents = \$135.00.

Cotton: 2 options
1. 100.0 acre base x 20% minimum Diversion = 80.0 acres for harvest. Deficiency 6.4 cents x 320 lbx. = \$20.48 per ac x 80 ac = \$1638.40.
2. 100.0 acre base x 25% plus 5% vol. div.) = 75.0 acres for harvest.
Deficiency 6.4 cents x 320 lbx. = \$20.48 per ac x 75 acres = \$1638.40
Vol Diversion 5% x 100.0 acres = 5 ac. x 320 lbx 12.5 cents = \$200.00.

On that occasion and others following his resurrection our Lord, Jesus Christ, outlined his campaign for the establishment of his kingdom, which is the church, and the salvation of men's soul through the preaching of the gospel among men. From that time to this, wherever the gospel has gone, the good news that through Him we can receive forgiveness of our sins, become children of God, and have hope of everlasting life because he died for us has been proclaimed. And in every real proclamation of the gospel the Lord's conditions

whereby we can receive those blessings must also be set forth.
Beginning this coming Sunday, the Church of Christ in Wheeler will be engaged in a special effort to proclaim this pure and simple gospel to this community. We call it a gospel meetings. Bill Morrison, a gospel preacher from Lamesa, Texas, will be here from Sunday through Thursday to preach a series of gospel sermons. There will be a morning service at 10:55 on Sunday morning and a service at 6:00 p.m. There will be services at 9:30 a.m. and 7:30 p.m. each day, Monday through Thursday.
Everyone in the Wheeler community and surrounding area are cordially invited to attend those services and hear these gospel messages.

Edgar Lesters Observe Sixtieth

Their daughter Wilma Wyatt from Lubbock and their son Doyle from Bakersfield called to wish them happy anniversary.
The Lesters were married on Sept. 1922 in Paducah, Texas. They lived in Mobeetie until their health got so bad they moved to Borger to be with their 3 sons.

THE BIBLE SPEAKS
And he said unto them, Thus it is written, that the Christ should suffer, and rise again from the dead the third day; and that repentance and remission of sins should be preached in his name unto all the nations beginning from Jerusalem. (LK. 24:46-47)

THE JUDGEMENT OF GOD
The Bible teaches the judgment of God. Sin and wickedness must be judged. The judgment of God is very severe. Jonah (the fellow swallowed by a whale) was sent to a city to pronounce God's judgment on that place. Jesus Christ has sent me to this community with a different message.
2 Corinthians 5:18 says He has given us the ministry of reconciliation. Mark 16:15 says to preach the gospel to the world. This is the part of the world where God has sent me. I am not just sent to a church to be the pastor of that congregation. I have been sent by God to announce to sinners that your sins have been nailed to the cross with Jesus. You have been reconciled to God. God was in Christ Jesus reconciling the world Himself, not imputing their trespasses unto them. God has instructed me to give this community this message. The price has been paid for all your sins. There is nothing due on your account. All you have to do is receive Jesus into your life, confess Him as the Lord, and believe that

God raised Him from the dead. The Bible says if you will do that you will be saved. You will not go to hell for your sins. Jesus did. He paid the total price. The reason people go to hell is because they don't believe in Jesus; therefore, they reject Him and His substitutionary sacrifice for our sins. So, people go to hell for refusing Jesus, not because of their sins. As I stated in the first paragraph, judgment has to come for sin and wickedness. That is what happened to your sins. They have already been judged. The judgment for your sins fell on Jesus. It was a serious, horrible judgment. And so now that the price has been paid in full, its not your sins that will cause you to go to hell. It is your rejection of Jesus. So, receive Him. My message is the gospel—"good news". Instead of saying, like Jonah, judgment has already fallen on your sins on the cross. Since your sins had already been remitted, why not receive Jesus today and be saved? That's good news.
