## Jones Crusade

Bob Galutia, Jimmy Cole, and Jim Montgomery are the Co-chairmen for the Larry Jones crusade coming February 17-22. Months of planning have gone into this crusade. These men have done most of the local organizational work. All of the other committees involved in the preparations function under their counsel.

The crusade is set to begin Tuesday, February 17 at 7:30 p.m. in the High School Auditorium. Wanda Jackson will be the featured singer on the first night (Tuesday). On one night of the crusade, local talent will be on the program. There will be singing prior to the actual service on various nights. The Royalheirs will be here for the last several nights of the meeting.

Make your plans to participate in this crusade. Invite people from this area as well as friends and relatives, etc. from other towns. Larry Jones is seen on several TV stations around the country. Consequently, many times during his crusades people will drive many miles to hear him in person. So, spread the word. Do your part to make this a blessed week in Wheeler. The goal of all involved in the organization and planning is to bring people under the sound of the gospel that they may be born again. Some are having home prayer meetings. Some are fasting and praying one or more days a week. Some are engaging in Bible study to prepare themselves better to help people who come to the crusade with a spiritual need.

Watch this paper the next two weeks leading up to the crusade. More information concerning other activities connected to the crusade will be shared with the readers.

## Tax Statements

By Charles Buzzard  
Many essential services such as fire and police protection, street construction and repair, utilities, and public schools are provided for the benefit of the community and must be paid for by its citizens. All government bodies collect taxes to pay for these and other services.

The property or ad valorem tax is the primary source of local government revenue in Texas. The property tax is the only tax which is locally controlled, locally generated and locally collected. Therefore, the property tax is the one form of taxation over which you have the most direct control.

Yet property taxes are confusing to many citizens. They become even more confusing in cases where individuals receive three or four tax bills on the same property, all from different taxing units. In Texas, more than 2000 governmental jurisdictions collect property taxes.

It is very important that you understand your responsibilities regarding taxes on your property. While you as the Taxpayer have certain rights in the tax process, these rights go hand and hand with certain obligations. You may waive or lose the rights by not fulfilling your responsibilities. There are four basic stages in the property tax process that takes about 13 months to complete. In the following weeks, I will go through these stages to help you understand your rights and responsibilities.

### SPECIAL THANK YOU

Though it's been a number of weeks since Hazel Parl's death, we, her brother Gordon Roper and Lurene, her niece Elva Wood and Fred, feel that our home town community is due an extra special thank you for all the love and concern expressed in so many ways during her last two weeks in the hospital prior to her death. First our ambulance service is to be commended, the driver and attendants gave Hazel such careful attention. Thank you so much Dr. Barbour for all you've tried to do for her these past years. We appreciate our other doctors too. And where else could she have had such kind loving care as our own Parkview Clinic and Hospital group, the sweet nurses with everyone included. A special thanks to Bro. Ernie and the other pastors who cooperated so beautifully; to all the faithful volunteers who so graciously answered Leola Farris's S.O.S. calls to sit in three hour shifts day and night for one whole week. And the nights were cold.

So much gratitude goes to her dear neighbors and friends who have done so much to help make her last few years brighter and more able to bear.

May the good Lord continue to bless the efforts of our small town community in helping out another in times of need.

Gordon and Lurene Roper  
Elva and Fred Wood  
CARD OF THANKS

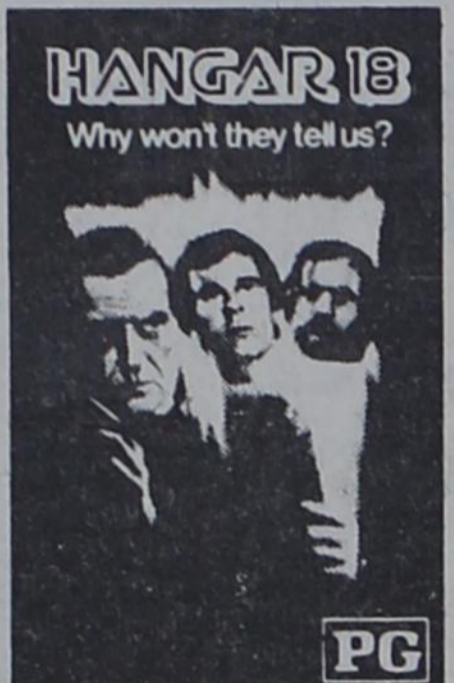

We wish to express our deepest appreciation and heartfelt thanks to everyone that brought food or sent flowers and comfort, and a special thanks to the Baptist Church for their help in the music and the minister.

May the Lord bless all of you.

IT'S TIME TO BUNDLE UP

Winter is here and time to bundle up to be warmer and more efficient with the energy you use.

Here are some tips that will help you wrap up your home to use energy more efficiently.  
\* Add an extra blanket of insulation in the attic. \* Secure ductwork joints with screws and wrap with tape to stop air loss. \* Feel warmer by installing storm doors and windows.  
\* Change the heating unit air filter when dirty. \* Caulk and weatherstrip air leaks and infiltration around all doors and windows.  
That about wraps it up for the basics. It's good to know there are some things you can do and depend on to be more comfortable this winter.

## NUMB ARMS, LEGS Danger Signals

There may be misalignment of vertebrae in the spine causing pressure on nerves, yet the patient experiences no pain in the back. Instead, a variety of sensations may be felt in other parts of the body. These include tingling, tightness, hot spots, cold spots, crawling sensations, electric shock sensations, stinging, burning, and others.

Here are nine critical symptoms involving back pain or strange sensations which are usually the forerunners of more serious conditions. Any one of these usually spells back trouble.

(1) Paresthesias (see above) (2) Headaches (3) Painful joints (4) Numbness in the arms or hands (5) Loss of sleep (6) Stiffness in the neck (7) Pain between the shoulders (8) Stiffness or pain in lower back (9) Numbness or pain in the legs.

These signals indicate that your body is being robbed of normal nerve function. Until this function is restored, you will, in some degree, be incapacitated. The longer you wait to seek help, the worse the condition will become. Don't wait! Should you experience any of these danger signals... call for in depth consultation in Layman's terms.

#### NOTICE OF CHANGE IN FREE & REDUCED PRICE LUNCHEONS IN THE WHEELER SCHOOL DISTRICT

Recently enacted Federal legislation made some changes in the income scale used at the beginning of the school year to determine students eligible for free and reduced-price meals. The new law requires that each application be examined and determination made regarding eligibility for free and reduced price meals, based upon the new income scale.

If your income has changed since you filed your application at the beginning of the school year, and if you believe your children would be eligible under the new income scale for free or reduced-priced meals, contact the Wheeler School for an application form.

#### NATIONAL HEALTH QUIZ

Answer sheets for the public to use during the upcoming nationally televised National Health Quiz are available at the County Extension Office, Box 505, 2nd floor of County Courthouse, Wheeler, Texas, 826-5243.

Viewers who participate will test their general medical knowledge and special risk factors. During the test it isn't absolutely necessary to use the

answer sheets, but they do help make the scoring easier.

Cheryl Tiegs, a "cover girl" and a health and beauty reporter, will co-host the National Health Quiz with actor Peter Graves on Sunday, Feb. 15 at 9:00 p.m. CST on most public broadcasting stations.

Check your local listings for any differences in broadcast times.

National Health Quiz developers explain that the quiz

will try to help viewers detect any risk factors they may have concerning the four leading causes of death: heart disease, cancer, stroke and auto accidents.

Although the test cannot tell viewers if or when they might be victims of these causes of death, the test can alert viewers to ways they can reduce the risks of early death from them.

Part of the test will include tabulating your "body age," which may be more or less than your actual age depending upon your physical condition, medical history and behavior patterns.

For example, a man age 41 might have a "body age" of 46-maybe because he is overweight, has high blood pressure or smokes cigarettes. On the other hand, that same man could lower his "body age" to 38 if he changed his behavior.

It's important to take the National Health Quiz, because with the results, each viewer can identify their own risks and change them to extend their use-ful expectancy.

Remember the only way you can fail the health quiz is by not taking it!

Test will be Feb. 15

Our weather is rather monotonous isn't it? The same old sun coming up every morning, the same sharp wind characteristic of our locality, windy day—but a wise man said "Nothing is to be more highly prized than the value of each day." That's it. How could we live a lifetime without doing it a day at a time. No matter what the weather each day we can find something interesting or worthwhile to do.

Ida Farmer spent last weekend with her son, Glen, and family in Canyon and had a check-up with her doctor in Amarillo, before returning on Tuesday.

Frances Sellers and Doris Schoeter of Almodora, N.M. and El Paso, Texas, returned to their homes last Wednesday after finishing their business of disposing of their property here in Wheeler. I shall miss their visits as they want have the necessary of returning now and then.

Mary Wofford drove to Olney on the weekend and picked up her aunt who lives there and then went on to Ft. Worth where she helped celebrate another aunt's 90th birthday.

Evonne (Sandifer) Peavy of Cross Plains visited here with her aunt, Ruby Lee Sandifer, last week. She attended so some business and visited with friends, as she is really a native of Wheeler.

Louis, Barbara and Jennifer Stas went to Hinton Thursday evening. Barbara and Jennifer stayed for Barbara to attend the funeral of her uncle. Louis went back after them Sunday morning, after attending a paramedic refresher course on Saturday in Amarillo.

I had such a pleasant time last week, my sisters-in-law, Lilly Edmondson of Tipton, Oklahoma, Georgia Guthrie of Hollis came on Thursday morning and stayed until the next day. Three women—all related—what a chatter went on. In the evening Ed and Patricia Forrester and Mary Wofford dropped in for a visit.

We celebrated my granddaughters' birthday last Sunday. My little one has grown into a teenager. (Only yesterday (?) I bathed her in a small plastic tub and put her to bed in the crib.) Her birthday is today, February 3, but with school kids we have to schedule weekend affairs. Steve and Joe sneaked in on me during the night Friday, Melinda and her mother, Lydia came on Saturday. A friend, DeeAnn Jolly spent the night Saturday. On Sunday Earl Jolly was a guest. We had a good time and I'm so glad to be the grandmother.

Claudine Finsterwald and Patricia Forrester used Monday afternoon in Pampa to pick up some supplies for Claudine's girl scouts.

So good to greet Cecil and Lottie Eva Denson again. It hasn't been too many years since we lived next-door neighbors. Not too much time elapsed between the time we got home from our business (movie) that the Densons were getting up to get to their business (grocery). We hardly ever got to see each other except when we went after groceries. They worked at night, staying open Saturday night until people at the movie came by and picked up their groceries.

Maybe we will have a story of the reception later.
