WIERD: A storm passed over Wheeler at 2:45 Thursday morning; judging from the damage it appears to have been a tornado. A window was popped out of the showroom at Ware Chevrolet at the corner of Canadian and Highway 152. N.D. Ware is shown here holding a curtain which was pulled between the wall and the window frame at Denise's School of Dance. None of the plate glass windows were broken in the studio and the wall was not damaged. The storm then passed over the ASCS office and slamed a swing set and tree limbs into the windows at the Ted Boedeker home before traveling on to the concession stand at the school approximately two

blocks from the Boedeker home. The Boedeker family reportedly awoke to hear a **Mobeetie City**

Council Meeting

Jimmy Selby, City Mayor, opened the regular monthly meeting of the Mobeetie City Council, listening to the minutes of the previous meeting which was approved as read.

The City Council heard Gene Barbor, of Merriman and Barbor, Civil Engineers of Pampa, discuss the feisability of installing a new water system complete in New Mobeetie and extending a six inch water line across highway 152, Tuesday evening, Oct. 7, 1980. The Mobeetie Water Works have been advised that a chlorene system is necessary to be installed at the earliest possible date. With Robert Hogan making the motion and Don Moore seconding the vote was unanimus to hire Mr. Barbor and his associates for the project.

Present at the meeting were Mayor Jimmy Selby, Council members: Robert Hogan, Bobby Maddox, Kay Hamilton, Roy Stribling, Don Moore and city secretary Wilber

Benny Baker slammed into the end zone from five yards out and Russell Gaines calmly kicked the extra point with 10 seconds to play in the third quarter and the Wheeler Mustangs won their first district game of the year with a narrow 7-6 win over the Wellington Skyrockets last Friday night at Nicholson Field.

The explosive Skyrockets got on the scoreboard first in the second quarter when Tim Anderson broke free on a trap play and raced 80 yards to paydirt but Baker stormed up the middle and blocked the extra point kick which would later prove to be the margin in the game.

OK, America, we've got your Winteralls!

Warm winterweight pantyhose with their own little panties knit right in. So there's never a pantyline or goose bump or bulge to show through your clothes.

Who goes out of this world for you?

We do... General Telephone.

This is one of our earth stations. It beams 18,000 phone calls at a clip to a satellite hovering more than 20,000 miles above the equator. It gathers in the same number of calls, and sends them out over our regular telephone network.

It's part of the incredibly complex system that's just about the world's most efficient communications system.

And it has reliability built in, whether

it's an earth station talking

to outer space, or a cute

how important it is to keep you in touch with your world. We spend hundreds of millions of dollars every year, making sure that when you pick up your phone...

We keep you talking.

ATTENTION....Senior Citizens!

We, at the Reagan-Bush Headquarters, are terribly disappointed in President Carter and Vice President Mondale in that they are resorting to SCARE TACTICS... saying that, if elected, Reagan would cut off the Social Security checks.

Those kind of tactics are an insult to the intelligence of our Senior Citizens. A President does not have that kind of authority in the first place.

It is the House and Senate that have that kind of authority

Don't be surprised if he comes out with some more of those kind of tricks as we know he is running scared and is getting desperate.

SURVIVAL

Even though your smoke detector should provide an early fire warning, and your escape plan a simple escape routine, you must be ready for the unexpected.

In an actual fire, your survival may depend upon how well you and your family have learned the escape plan and the dangers to look for. You must be prepared to react without panic in a calm and deliberate manner. It's not

You have just awakened to the sound of your smoke detector. You are still groggy. Perhaps you are already inhaling small quantities of toxic gases from a fire downstairs.

You know the escape plan. You may need to use some additional survival tips. Your escape plan and behavior HELP YOU accomplish the

same purpose: getting out. Explain these survival tips as the family discussed EDITH.

1. REMEMBER, SLEEP WITH THE BEDROOM DOORS CLOSED.

The closed door offers protection from heat and smoke. Even a lightweight hollow core door may provide you with extra time to escape by slowing a fire's progress. As you proceed through your escape route, you should close every door behind you.

2. BE SURE EVERYONE RECOGNIZES THE SOUND OF THE SMOKE DETECTOR AND KNOWS THAT MEANS GET OUT NOW!

If you've had a fire drill, this is the moment to set your escape plan in motion. If you haven't yet held a drill, you must be certain that all family members recognize the sound of the smoke detector. Just in case, call a warning, such as "Fire! Everyone Outside!"

3. NEVER WASTE TIME GETTING DRESSED OR GATHERING VALUABLES.

You don't have time to waste. You can borrow clothing later. No valuables are worth risking your life and the lives of your family.

4. FEEL EVERY DOOR BEFORE YOU OPEN IT. If the door is hot or if

smoke is coming through the bottom or sides of the door, don't open it. Get out by an alternate exit.

Even if the door is cool, you must be careful when you open it. If the door is cool and there is no smoke, brace yourself against the door, turn your face away and open it carefully. Be ready to slam the door shut if the slightest trace of heat or smoke enters the room. A fire that has died down for lack of oxygen could flare up once the door is open. If any smoke or heat does enter the room, slam the foor and latch it tight.

If nothing happens when you open the door, go ahead and use your primary escape route. Remember to close every door behind you. This keeps the fire from spreading.

Now everyone may know this but me. I just heard this mean you are needing the latest on fire fighting for me is there are 2 crews one crew goes in fighting fires one Tuesday afternoon a bug of crew goes in rescueing and some kind hit me, I had a sore salvaging things, they push throat, eye ball headache, and stack everything out in fever, aches all over and one center of the rooms, then they last swollen gland on neck if it through a tarp over it that will had been little higher you not burn or let heat through if would said mumps. Little Bill they don't save all the house was so sick Saturday and they save most all furniture, Sunday here guess where I got they have this method in it. My first in 10 years like Canyon. I have been told. If that. they had had a salvage crew in Dumas when Gary had his fire I am sure they could saved most of their furniture.

T.V. says if parents and grandparents suffer with high blood pressure, their children should be tested and cut down on their salt. Some time as low as 3 years old, all the salt kept out of all babys food.

Dennis Doughterty hurt his knee some 6 weeks ago, playing football, he is to have surgery this week. I think 16th. I don't like football to many boys get hurt for life.

Addie Swift went with Kay Luttrell to Elk City to the eye doctor last Tuesday.

Bob and Gena Zybach went to Dennis came through the Mt Vernon, Mo. came home on Monday they attended a Maine Anjou cattle sale, they sold some cattle in this sale, this is a new breed of cattle. I had never heard of it. Gena said was dry there like here. they went through Bentonville, Ft. Smith, Fayetteville. They spent the night in Roger. Ark., attended church there at the Methodist and everyone in hotel and church were real friendly. On highway 71 near Sunday Nelson and Gaye the border line of Mo. and Ark., they saw on a mail box Turman Scott, we don't know if this was our Truman Scott or not. At Mt. Vernon on Sunday was apple butter day, they made and sold it on the square with other things, quilts etc, their apples were not so good due to the dry weather, they really enjoyed their trip and saw a lot. WHY I CHOOSE TO VOTE FOR REAGAN

POSITIONS OF JIMMY CARTER

ON FAITH

(From Wall Street Journal on April 12, 1976) "I hope my decisions as President would be guided by the religious principles in which I believe." (From Liberty Magazine in Sept., 1976) "I've never let my religious convictions orient my decisions on a political matter."

ON ABORTION

(From Associated Press, Feb.7, 1976) "I think abortion's wrong. (But) I don't think government ought to do anything to end abortion." (In November, 1976, Mr. Carter was quoted as saying --) "The Supreme Court ruling suits me all right."

ON ERA

(From Issue Desk, Carter Campaign, 1976) "I strongly support the Equal Rights Amendment. I have campaigned extensively in all 50 states. In every state, I have consistently and unhesitatingly advocated passage of the Amendment." (From Women's Day, March 15, 1976) "As President, I will use the influence of the office both to see that the amendment becomes law, and to set a style of leadership that clearly and unmistakenly makes equal rights and equal opportunity national

ON RUSSIA

(From 1979 Political Profiles, Inc.) "SALT is a process in which we hope to continue the limitation of strategic arms which is in our national interest."

NOTE: 2000 retired military officers from all the services have petitioned Congress and the President NOT to sign SALT II as compared to 4 retired officers in favor of it. ALSO NOTE: Lenin said, "The capitalists of the entire world and their governments in order to capture the Soviet markets will close their eyes to realities ... and will provide us with essentially needed materials and technology which will restore our military industries essential for our future attacks on our suppliers."

POSITIONS OF RONALD REAGAN

ON/FAITH

(From George Otis interview, High Adventures TV series) "Those institutions of freedom which became famous worldwide were forged in the fires of spiritual belief; yet today many of these institutions are in jeopardy. The time has come to turn back to God and reassert our trust in Him for the healing of America. This means that all of us who acknowledge a belief in our Judeo-Christian heritage must reaffirm that belief and join forces to reclaim those great principles embodied in that Judeo-Christian tradition and in ancient Scripture. Without such a joining of forces, tha materialist QUANTITY of life in our country may increase for a time, but the QUALITY of life will continue to decrease. As a Christian I commit myself to do my share in this joint venture. Our country is in need of and ready for a spiritual renewal. Such a renewal is based on spiritual reconciliation -- man with God, and then man with man.... One lesson should be that as a nation it's 'IN GOD WE TRUST'."

ON ABORTION

(From a TV broadcast June 1, 1976) "You cannot interrupt a pregnancy without taking a human life."

NOTE: Mr. Reagan supports a Human Life Amendment to the U.S. Constitution to protect unborn babies.

ON ERA

(From 1980 Political Profiles, Inc.) "Like many others, I do not believe that an amendment, the Equal Rights Amendment, is the answer to the problem. It opens a Pandora's box and could, in fact, militate against the very things for which women are asking. The amendment reserves all interpretations and enforcement to the federal courts. ERA, once in the Constitution can by strict interpretation by those courts, be used to deny women many of the advantages they now have.

Carpet Funds Continues

Xi Upsilon Eta is still collecting donations and memorials to buy carpet for the childrens pool in Wheeler. \$600.00 has been donated by other clubs and individuals and Xi Upsilon Eta has donated \$200.00 for a total of \$800.00. This sum will remain in a special savings account until spring when the carpet is to be layed. Several hundred dollars is still needed to meet the price that has ben estimated to us, so anyone who is interested in making a donation or memorial is urged to contact Debra Hiltbrunner, 826-5685 or Nina 826-5733.

YHT would like, once again, to remind the young women of the community that we would like to extend an invitation to any one who would like to come to our meetings. Monthly meetings are held on the third Monday each month at 7:00 in the Homemaking Department.

Oct. 9 Meeting

Fourteen members of the

Thursday Review Club met October 9, at the Production Credit Association Hospitality Room with Evangeline Wills serving as hostess. Dick De-Arment, guest speaker, presented a slide presentation of the Eastern Panhandle of Texas' flora & fauna. He pointed out many interesting facts concerning the importance of natures' ecosystem, the preservation of its delicate balance, and the value of the areas vegetation and wildlife, whether weed or preditor. A very tall Texas Tale was told by Rhonda Blanchard before the meeting was adjourned by club president, Carol DeArment.

The Bible

The Importance of Making an Honest and Intelligent Investigation of the Bible

I suppose that all will admit that it is man's duty, as well as his privilege, to study the Bible. This obligation is a personal one. It is based on the principal of individual responsibility to God. Given the Ability to understand the Bible, you can no more shift the responsibility of making a close study of it, than you can shift the responsibility of believing in christ. Intelligent Study

Our efforts to understand the Bible should be both honest and intelligent. If a person does not know how to study the Bible, it does not matter how honest he may be, he will never understand the truth. A person may be just as honest as can be, but if he does not know how to study the Bible, it does not matter how honest he may be, he will never understand the truth. A person may be just as honest as can be, but if he does not know the difference between the Law of Moses and the Gospel of Christ, he will never learn the truth. A lack of intelligent study of the Bible has caused many honest people to think they could be saved like the thief on the cross; it has caused them to think that the publican justifies the mourner's bench. It is a failure to make an intelligent study of the Bible that causes many to think that instrumental music is right in Christian worship just because David used it. Thus, you can see that it is not enough that we make an honest study of the Bible,

but our study must be an intelligent one. We msut rightly divide the Bible if we study it intelligently.

THREE YEARS OF CARTER'S

In his campaign of 1976 Carter made 786 promises including a promise that "I keep my promises".

It is often difficult to pin this down as he is a past master of taking a position that encourages both sides of a question to believe that he is on their side.

HOWEVER LOOK AT THESE

PROMISE: "If you elect me, "President", Carter said, " before this term is over we're going to have a balanced budget in Washington, and you can depend on that!

FACT: 1980 DEFICIT IS OVER 65 BILLION DOLLARS

PROMISE: "There will be no new programs implemented under my administration unless we can be sure that the cost is compatible with my goal of having a balanced budget before the end of my term."

FACT: Department of Energy and Department of Education created with MULTI-BILLION DOLLAR BUDGETS

PROMISE: "I am not going to add a tax burden on working families and medium income categories."

> FACT: The average family of four in the U.S. is PAYING \$1,399 more in Federal Taxes in 1980 than it did in 1976.
