## COMMENCEMENT SET FOR FRIDAY, MAY 23

Commencement for the 1980 High School will be Friday, May 23 at 8:00 p.m. in the High School Auditoriaum. Forty students receive their diplomas.

## **Wheeler Names Honor Students**

Mr. Bob Wills, Wheeler High School Principal, recently announced the 1980 Valedictorian and Salutatorian. Rich Brown, the 18 year old son of Mr. and Mrs. Richard Brown, was named Valedictorian with a four year average of 96.25. Lynette Gaines, 18 year old daughter of Mr. and Mrs. Richard Gaines earned the position of Salutatorian with a four year average of 92.22.

Rich has been an all around student at Wheeler High School. This year, he served as President of the Student Council. He has been active in the Key Club, FFA, Band, and a member of the Annual Staff. Rich also qualified for the regional UIL contests in three of the past four years.

In athletics, Rich was a member of the state champion football team where he received recognition as All-State Quarterback. He was a member of the basketball, track, and tennis teams, all of which earned district championships this year.

Upon graduation, Rich will attend Oklahoma State University where he plans to major in business.

Lynette has also been an all around student. She has been a class officer, class favorite, National Honor Society member, and FHA officer. She has participated in choir, band, pep club, annual staff, and served as 1st Lt. in the Flag Corps.

Lynette has been a member of the basketball and track teams for four years. As a senior, she played on the district championship basketball team and was regional qualifier in track.

Her plans for the future are uncertain.

## **Mobeetie Closing Exercises Friday**

Whether you're lost in a strange neighborhood, or just going to be late for dinner, a telephone booth is a welcome sight. That's why it's important that we keep them in working order. In my job, I do more than collect the change from the coin box. I also make sure that the instrument is working correctly. If it needs minor repairs I do them on the spot. That way, we make sure that you get a working phone when you need it. That's one reason I'm proud to be one of the people General Telephone is talking about when they say 'We keep you talking."

#### May 73 percent of the family members (parents and teenagers) felt that mental health would be improved

The beautiful month of May is if people were more concerned In a national survey of families, about others and less concerned

about their own problems. Dr. Karl Menninger, the famous psychiatrist, once gave a lecture on mental health and was answering questions from the audience. "What would you advise a person to do," asked one man, "if that person felt a nervous breakdown coming on?" Most people expected him to reply, "Consult your psychi-(8/5)-327-H O atrist." To their astonishment he replied, "Lock up your house, go or Toll Esse 1-(800)-251-2468 across the railway tracks, find

> thing to help that person." Although few, if any, of us may be on the verge of a nervous breakdown and still fewer can even find failway tracks to cross, Menninger's advice still rings

someone in need and do some-

Much human energy is being spent worrying about how inflation or the energy crisis or the rising food prices are affecting families. When worry engulfs a person, it is easy to forget about the human concerns of those in the family. Children, regardless of the country's economics, still need parents. They need parents who somehow can find the time and energy to be concerned about them.

Children need their parents to help them understand life, the changes that are occurring within their bodies and among their friends. Children, at least most of the, need a parent who listens to their concerns and help them interpret what is happening. As we worry about what this summer will bring or what the next paycheck won't bring, maybe we can remember Menninger's ad-

Lock up the worry and go find your child and do something to help him or her.

## A Tribute

A humble tribute to a friend, Mr. "Son", Marion Leon Denham deceased.

I count myself fortunate to have been a friend to "Son", for a period of 26 years. He was a simple man with simple needs, he never asked for the tangibles of this world, nor had a desire for the pursuit of wealth, that he was contented with just a small, meager, survival.

To my way of thinking he was a totally successful man, for he died as he lived, quiet, untroubled, serene at last.

Sleep well, you have earned as due you that "Mansion Just Over the Hill-Top", "Son"

tion Service (APHIS) and the and the Texas Department of Texas Department of Agriculture Agriculture. (TDA) will tell what kind of infestation is expected and explain the control program that is available to landowners.

Based on adult counts last summer, APHIS has estimated 300,000 acres will be infested with rates of 8 grasshopper per square yard or more.

A decision on whether to go with the control program will be made at this meeting. There is a minimum of 10,000 acres per block to qualify for the program.

#### Crop and Livestock Reports From Farmers and Ranchers Needed

During late May and June, many Texas farmers and ranchers will receive a crop or livestock questionnaire from the Texas Crop and Livestock Reporting Service or will be personally interviewed by the Service's field staff. The information gathered throught he questionnaires and interviews provides the basis for determining the acreage devoted to the various crops and mid-year livestock numbers for the state of Texas for each county.

Crop and livestock reports provide a dependable, unbiased picture of Texas' most important inductry-agriculture. The estimates in these reports are tools to help farmers and ranchers work out their planting, breedng, feeding, storing, producing and marketing plans.

Farm organizations and legislatures use them in planning programs. The estimates are also used in establishing the various government program acreage and payment levels to farmers for the state and county. Extension economists and pri-

vate farm and ranch management consultants use them as a basis for advising farmers and ranchers.

Exporters use them in planning and promoting the sale of agricultural products abroad.

Prompt and accurate completion of the survey forms provides for more reliable estimates and helps to reduce survey costs. All individual farm and ranch
