Wheeler Kindergarten Packets Can Be Picked Up

Wheeler I.S.D. Kindergarten Registration Packets are available.

Any child, who will be 5 years old on or before Sept. 1, of this year is eligible to attend Kindergarten.

Registration packets for children, who will be attending Wheeler I.S.D. Kindergarten during this school year are available and may be picked up in the hall outside the superintendent's office on business days.

The required forms included in the packets are: 1. Registration Form; 2. Student Health information (A two page questionaire); 3. Home Language Survey. The parent/quardian must provide all the requested information, including full legal names and the child's social security number, as well as, copies of the child's official birth certificate (state copy-not hospital copy) and immunization records (authorized by doctor or official clinic), before his/her child can be enrolled in

The estimated length of time needed to finish these documents is from 15 to 30 minutes; some of the information required (for example, the date of the last dental exam or the phone number of your preferred hospital) is generally kept with other personal records at home or may even require a call to your family doctor.

Because of these factors, coupled with the usual, unavoidable registration "traffic jam" of waiting in line to complete the enrollment process, school personnel believed some parents might prefer the option of completing these documents in the quiet and privacy of their own homes. Parents who prefer to wait until registration day are welcome to do so. Special Attention!!!

Registration Day . . . For Kindergarten . . . will be Monday, Aug. 14, 8:30 A.M. in the cafeteria. You will register your child then take your child home. This will count as his first day

The first full day of class for kindergarten will be August 15, a Tuesday. Kindergarten attendance hours for the first 2 weeks are 8:30 - 1:30.

POSSIBLE COMMUNITY CENTER: Work is underway to return this presently vacated building back in to use. The American Legion Building was once the sight of many activities, including county fair. A proposal has been made to restore this structure to be used for a community building. The school cafeteria is presently used for community banquets and is in some cases too small; the main room of the legion is almost twice the size of the cafeteria.

Harrison Hall Proposes Restoration Of Legion for Community Building

Harrison Hall was in attendance at the monthly meeting of the Wheeler Chamber of Commerce Tuesday, August 8. Topic of discussion was the possible renovation of the American Legion Building at the north edge of Wheeler.

The building, built in the late 40's-early 50's was sold to the Wheeler School system for their use. The building was used for a weight room for a period of time and then abandoned with the construction of the new weight room west of the fieldhouse.

At a recent meeting of the Wheeler Board of Trustees the board agreed to take bids for the building with the intentions of an individual tearing the structure down for the materials salvaged. With the opening of the bids, it was going to cost the school in the neighborhood of \$17,000 to have the building removed.

Harrison Hall met with the board and proposed renovation of the building for it to be used for a community building. The board agreed to table any further action on the building until January, 2001. This would give Harrison an opportunity to further investigate possibilities of the building's

Harrison reported to the Chamber of his work on the project. He has taken people to see the building and verify the structural soundness.

The building has been measured and estimates made on the cost of renovation. The area of the building is 4300 square feet. (This is approximately twice the size of the school cafeteria, which is presently used for

the annual Chamber of Commerce banquet and other activities.) The following estimates were presented: Metal Roof, Heating and Air Conditioning, Drop Ceiling, Metal Trim, and Lighting (each \$10,000)-\$40,000; 12" Insulation-40c per ft.; Windows (tempered & insulated) and new doors-\$3,500; new bathroom fixtures-\$3,500; paint-\$5,000. The total cost would be in the neighborhood of \$78,000 for a very nice useable facility.

In addition to the 4300 square feet, there is a basement and one upstairs

The question is: "how to finance" and "who would own and maintain the building".

Harrison is scheduled to meet with the Wheeler City Council on Monday, August 21.

If you are interested in the pursuit of this project, feel free to contact Harrison Hall.

Checking will be done into the possibility of grant money being available for the project.

They call the dancing Country-Western.

That says it all. Nothing highfaluting!

People feel comfortable in anything they wish to wear. Some dress like they're going to a wedding, men in jeans wear western hats. Full skirts are pretty as the lady twirls in matching high heels. Shorts are stylish. When a couple wishes to show they're sweet on each other; they wear matching cowboy shirts.

The clock points to 7:30 P.M. When Raymond Snider picks up his bow and his son, Carl, starts to sing, "Waltz Across Texas With You," the light of the singers light up, accompanied by the five piece string

The men choose their favorite partners for the first dance.

The dances vary: a two-step, jig, schottische, New Shoe, Skip To Ma Lou, Miller Boy, Rye Waltz and polka.

Many of these folk dances were brought to the Cheyenne-Arapaho Country in a covered wagon by the forebears of the dancers. The dancers learned these dances as children. There'd be a neighborhood dance in a pioneer home and the furniture would be set out in the yard to make room in the house for the fun.

The dancers are determined that these old dances, ties to the past, shall not be forgotten. Young children dance with parents and friends to keep the dances alive.

Young fiddlers practice to learn "Turkey in the Straw".

This notice concerns 2000 property tax rates for PARKVIEW HOSPITAL #1. It presents information about three tax rates.

Last year's tax rate is the actual rate the taxing unit used to determine property taxes last year. This year's effective tax rate

would impose the same total taxes as last year if you compare properties taxed in both years. This year's rollback tax rate is

the highest tax rate the taxing unit can set before taxpayers can start tax rollback procedures. In each case these rates are found

by dividing the total amount of taxes by the tax base (the total value of taxable property) with adjustments as required by state

Carrie Zumstein has been visiting her grandparents in Washington State and was to fly in to Amarillo Friday night. Carrie plans to attend college at Baylor in Waco to study journalism.

Nice to see Wesley and Sharon (Peetree) Crosier at Furrs. Wesley's parents, Neal and Viola Crosier, ran the County Line Store for a time, buying it from Ruth and Ross Hoosier. Wesley and sister, Wilma, attended Briscoe School.

From The Minister's Desk:

Ann Landers, the newspaper columnist, recently published an article in her column that needs to be read by many parents and children. This article was entitled, "Ten Rules Kids Won't Learn In School" and it said: -

1. Life is not fair. Get used to it. 2. The real world won't care as much about your self-esteem as your school does.

3. Sorry, you won't make \$40,000 a year as soon as you get out of high school. And you won't be a vice president and have a car phone, either. You may even have to wear a uniform that doesn't have a designer label. 4. If you think your teacher is
