Nazarene Church Plans Winter Revival Feb. 4-10

The Church of the Nazarene in Wheeler would like to extend a cordial invitation to every one in Wheeler and the surrounding area to their winter revival. The meeting is scheduled for Feb. 4-10, beginning at 7:30 p.m. each night and 10:00 a.m. on Sunday morning. The church is located at 8th and Alan Bean Blvd.

Bob Ferguson, a very dedicated Nazarene Evangelist from Tahoka, Texas, is slated to hold the revival. The Bob Ferguson Evangelistic Association was formed in June of 1979 for the sole purpose of reaching souls for the Kingdom of God. A growing conviction of the need of real revivals in churches of all denominations across America led to the formation of the association.

Bob Ferguson, himself, was reared in the West Texas area. He was saved and sanctified at the age of 18 and was called to preach a few months later. He preached his first revival in June of 1954 in Floydada, TX. Since then he has traveled across the U.S.A. and into Mexico doing evangelistic work.

In addition to his evangelistic

work he has pastored churches in Ranger, Spur, and Higgins in the West Texas area. For the past 14 years he has pastored churches in the Houston area.

Mr. Ferguson has served as a prison chaplain and has worked extensively with the courts in juvenile work.

We are praying for many decisions to be reached during this revival in the form of salvation, rededication, healing, sanctification, or whatever God's will is to be.

Thursday night will be designated as Young Adult Night, and there will be a fellowship for married couples in the church basement following the service. Saturday night will be dedicated to the teenagers, and refreshments will be served to the teens immediately after the service that night.

Come and worship with us Feb. 4-10 at the Church of the Nazarene. If you can't attend, please pray for the services that God's word will be heard and obeyed.

A nursery will be provided for each service.

Kent Sims Announces For County Attorney Position

M. Kent Sims, a lifelong resident of Wheeler County, has announced his candidacy for reelection to the office of County Attorney, subject to the primary in May. Sims, the son of Mr. and Mrs. Lyndon H. Sims, received a Bachelor of Science Degree in Civil Engineering from Texas Tech University in 1969 and Doctor of Jurisprudence Degree from Tech in May 1972. He set up his law practice in Wheeler in June 1972 as a sole practitioner. Lowell Lasley from Tulia, Texas became his partner to form the general law partnership of Sims & Lasley. Sims and Lasley then joined with Joe Hayes of Canadian, Texas in October of 1976 to form the partnership of Sims, Hayes & Lasley. During 1978 and 1979 two associates were hired by the firm and at present the firm has five attorneys with offices in Wheeler and Canadian.

Mr. Sims is active in civic and church activities having served as President of the Wheeler Chamber of Commerce in 1974, President of the Wheeler Kiwanis Club in 1974-75, and has served as a member of the Administrative Board and as Director of the United Methodist Youth of the Wheeler First United Methodist Church.

Sims was appointed by the Commissioners Court to serve as County Attorney upon the resignation of Preston Stevens in April 1977 and was elected to the unexpired term in 1978 and is presently serving in this capacity. Mr. Sims feels that being a member of a firm gives him the flexibility needed to meet the demands of the job and allows time away from private practice to do the job when and as

needed.

Sims is a member of the Texas County and District Attorney's Association and has attended various seminars in order to stay abreast of the many changes in our state laws. During his tenure as County Attorney the laws concerning hot check collections have been changed and our system to deal with this problem has been revised to provide better service for Wheeler County businesses. Sims has been able to work closely with the Commissioners Court, law enforcement officers and other officials in Wheeler County in providing guidance and legal counsel in the performance of their duties.

In his announcement, Sims emphasized his desire to continue to serve the people of Wheeler county as County Attorney.

BASKETBALL TRIVIA: By Coach Simpson

THEN AND NOW

How many times have the Wheeler boys and girls won a district championship in the history of the school? Who coached those teams? Can you name members of those championship teams. What does this have to do

with the present day Mustangs and Mustangettes?

On January 22, 1980 the Wheeler Mustangs and Mustangettes found themselves in a very precarious situation. Both teams ended the first round of district play with perfect 4-0 records.

This brings a question, "have the boys and girls ever won a district championship together?" The answer is yes, back in 1957.

This is not to say that 1957 was that long ago, but to today's Mustangs and Mustangettes that must have been at least 50 years ago.

Both boys and girls have won district only three times in the history of the school. The girls won in 1955, 1957, and 1959. The boys won in 1957, 1977 and 1978.

With the aid of the school annuals the coaches and names of the players can be brought forth to the modern ages. The hair styles and the clothing styles have changed a bit but the basketball is still round.

"Would you believe that boys use to cut off all the hair which allowed their ears to show and the girls wore dresses that hung all the way to their ankles, with a half a dozen can-cans underneath." "Can-cans, what are they?"

The following names are those

SMOKE DETECTORS

Smoke detectors are lifesavers and are the most important investment you can make to protect your family from fire. These electronic "seeing" or "sniffing" devices monitor the air in your home and sound an alarm at the first sign of trouble, giving occupants a chance to escape unharmed. The national Safety Council recommends that EVERY home, apartment or mobile home have at least one of them. They range in price from less than \$10 to more than \$100, depending on the type and installation cost.

Two types of smoke detectors have been developed to warn families of fires in the early stages. One utilized a small amount of radioactive material and the other operates on the principal of an electric eye. However, both will provide sufficient warning. A smoke detector warns you of the first trace of smoke from a fire that may not even be in the immediate area.

Old Mobeetie Association Meets

On Thursday evening January 10, 1980 at 7:00 p.m. the Old Mobeetie Association met for the first meeting of this new year at the Jail Museum. Those present, Mr. and Mrs. Bill Ridgeway, Henry Johnston, Jap Bailey, Ernest Gordon, Larry Johnston, Pierce Walker, Austin and Bernice Caldwell were welcomed by president Sallie Harris.

Minutes were read by Austin Caldwell and same approved. The treasurer, Bernice Caldwell reported all bills paid and a nice balance in the Account. There was much enthusiasm expressed concerning our new projects of putting cattle brands on the stair way walls and having engraved plated attached to two different plaques in the entranceway. One for memorials and one for donations. We are getting good response from persons contacted, our thanks to each one who have given already.

Bill Ridgeway agreed to acquire a fire extinguisher for the Museum, and Jap Bailey and Pierce Walker will be working on repairing the Barber shop and place to put brands on the stairway. We will notify you when the place is ready to place brand on the wall.

We would like to announce that we still have bi-centennial coins of antique silver for sale at the museum and also at the home of Sallie Harris in Wheeler. There are plenty of those good cookbooks available now at Sallie Harris's, Mobeetie Grocery and Mobeetie Beauty Shop and at the Flower shop in Canadian.

The meeting was adjourned and closed with a prayer by the president.

Make Knit Seams That Stretch.
Make seams that stretch when sewing with knits.
Since knit fabrics have built-in stretch, seams must also have stretch. This stretch will prevent threads from breaking when the seam is put under stress.
The type of seam used depends first on the capabilities of the sewing machine and then on the type of knit and garment.
Here's how to make a knit seam with any kind of machine.

Straight-Stitch Machine
With a straight-stitch machine, straight stitch along the seamline, stretching the fabric as you sew. The amount of stretching will depend on the fabric.
Don't stretch the seam out of shape.
Stretching may make the stitches look slightly loose. This slack helps the seam stretch without breaking the thread.
The seam allowance width may become slightly less when the

fabric is stretched.
For example, an 1/8 inch (1.27 cm) wide stretched seam will end up closer to 5/8 inch (1.5 cm) when relaxed.
Use a 5/8 to one inch (1.5 - 2.5 cm) seam allowance with most Double knits. This seam can be

pressed open, and no finish is required. Use this for skirts and slacks when possible to give a smooth line and for ease in altering.
Some knits do not press well, and therefore, do not stay pressed open. The edges roll up,

creating ridges along the seamline.
Solve this problem by stitching the seam and making a second row of straight stitches, 1/8 to 1/4 inch (3-6 mm) to the right of the seamline. Trim away the extra seam allowance.

A row of straight stitches along the seam allowance edge may prevent rolling if a wide seam allowance is preferred.
Zigzag Machine
With a zigzag machine, stitch along the seamline with a straight or narrow zigzag stitch. If a 1/4 inch (6mm) seam allowance is cut, close the seam with a wide zigzag stitch.
If a 5/8 inch (1.5 cm) seam allowance is cut, zigzag close to the first line of stitching, then trim away the extra seam allowance.

leave it wide with each allowance stitched individually.
If the machine has an over-edge stretch-stitch (a straight-stitch plus an overedge stitch), use it at the seamline. This type of stitch closes the seam and finishes the edges in one operation.
Stretch-stitches are hard to rip out so make sure the seam is in the proper place before stitching.

Tonja Atherton Wins State Honors.

A Pampa freshman at Abilene Christian University heads for California next month to compete in national "Make It With Wool" contest.

Tonja Atherton, who has sewn most other wardrobe since junior high, recently took top honors on district and state levels with her entry, a two-piece fully lined wool suit.

In San Diego next month, she again will model her suit, a tiny-checked wool garment in muted tones of dark green, gray and beige.

The straight skirt features a side kick pleat. Both the skirt and the matching shawl-collared jacket are lined with polyester fabric.

Tonja, daughter of Mr. and Mrs. Jim Atherton, also made a beige polyester blouse with a string tie to complement the outfit. A narrow beige belt accents the jacket; she wears matching heels to complete the look.

Winner of a Gray County 4-H dress review in her younger days, Tonja first contemplated entering the "Make It With

Wool" contest after reading about it in a magazine.

"I always enjoyed 4-H competition and I just wanted to try it," says the young woman, who began sewing when she was in fourth grade.

"She had a knack for sewing," says her mother. "She started young and just kept at it."

Tonja focused her junior and senior high school studies in that area, taking various homemaking courses. She's majoring in the same area at ACU and hopes to teach after she earns a degree.

One requirement of the wool competition, sponsored by the American Sheep Producers Association, is that the garment be made within the last year. Tonja made her outfit last summer sandwiching her sewing time between hours at her job in a local fabric store.

District competition was in Lubbock, where the 1979 Pampa High School graduate earned a chance to go to San Angelo and state competition.

There, the nine district winners modeled their outfits during a fashion show at a San Angelo

mall. The judges later inspected each contestant's outfit wrong-side-out.

Tonja, who says the judges stressed fashion as well as construction, received a \$300 educational scholarship, a lamb pendant, and a \$25 U.S. Savings Bond, along with the state title.

National competition is Jan. 17-21 in San Diego. The expense-paid event includes a contestants party, the judging, a side trip — which Tonja says is supposed to be a "surprise" — and a style show.

"When I get to San Diego, I can't even talk to my state coordinator," says the petite blonde. "The judges aren't supposed to talk to you or to any of your family."

But rest assured part of the Atherton family will be in the audience, silently cheering her as she vies for national honors.

Tonja placed 12th in the National Contest in San Diego. She plans to enter next years contest.

She is the granddaughter of Mr. and Mrs. Holdeman and Mr. and Mrs. Albert Chapman and the great granddaughter of Mrs. Floyd Atherton all of Wheeler.

MORE ABOUT BOOKS, Etc.

Wheeler Public Library
Wanda King, Librarian

A great big "Thank you" is in order to Dr. and Mrs. Louis Mendiola for donating their \$25.00 prize to the Wheeler Public Library. They own first prize for having the most beautifully decorated home during the Christmas holidays. The award was presented to the Library at the Wheeler Chamber of Commerce Banquet last Saturday night.

DID YOU KNOW THAT you can walk into any one of eighteen public libraries in the Panhandle and borrow books free of charge? **DID YOU KNOW THAT** users of the WHEELER PUBLIC LIBRARY have borrowed several books free of charge from other Panhandle libraries since last September?

In order for a person to borrow materials from a public library other than his own, he usually has to pay what is called a non-resident fee. But in the top 25 counties of Texas, a special program sponsored by the Texas Panhandle Library System—headquartered at the Amarillo Public Library—makes it possible for library users to borrow books free of charge from seventeen other libraries. This program, which has been in operation since 1973, is called Reciprocal Borrowing.

Governing bodies of the eighteen participating libraries have signed formal agreements to loan books to one another's patrons. Those libraries which loan more than an average number of books during a year are reimbursed for the use of their collections by persons other than local taxpayers.

Borrowers are expected to return the books to the library from which they were borrowed. They are also expected to abide by the rules of the lending library.

The libraries which participate in the Reciprocal Borrowing program are: Amarillo Public Library, Canyon Public Library, Carson County Public Library (Panhandle, White Deer, Groom and Skellytown), Deaf Smith County Library (Hereford), Friona Public Library, Gabe Betts Burton Memorial Library (Clarendon) serving Donley County, Hansford County Library (Spearman), Hemphill County Library (Canadian), Hutchinson County Library (Borger, Stinnett, Fritch) Killgore Memorial Library (Dumas and Sunray) serving Moore County, Lovett Memorial Library (McLean), Lovett Memorial Library (Pampa, Perry Memorial Library (Perryton) serving Ochiltree County, Rhoads Memorial Library (Dimmitt) serving Castro County, Shamrock Public Library, Sherman County Library (Stratford), Swisher County Library (Tulia) and Wheeler Public Library.

To find out if you are eligible for this service, go to the Wheeler Public Library and ask about Reciprocal Borrowing.

"The greater a man's understanding, the further does he remove himself from quarrels." Hasidic Saying

WHERE SICKNESS COMES FROM

Acts 10:38 says Jesus went about doing good and healing all that were OPPRESSED OF THE DEVIL. The Bible calls sickness satanic oppression.

IF YOU WANT TO BE HEALED, THERE ARE SEVERAL THINGS YOU SHOULD KNOW ABOUT HEALING. One of these things appeared in this column last week—namely, "Healing is in God's Plan for you". Secondly, you should know "It is God's will to heal you because sickness comes from satan, not from God".

Luke 13:16 said that a certain woman who had been stooped over for eighteen years and could not straighten up was BOUND BY SATAN.

Sickness is not a blessing in disguise from God.

It has its source in satan and sin. Job was afflicted by satan, not God (Job 2:7. 1 John 3:8 declares that Jesus came for the purpose of destroying the works of the devil. Read Matthew, Mark, Luke, and John and you can see many times that Jesus occupied Himself in healing sick folks. In other words, the thing He was destroying (sicknesses) was the works of the devil. He spent more than half of His ministry destroying sickness. When we realize where sickness comes from (who is behind it), then we'll resist it instead of yielding to it, thinking we are afflicted by God wanting to teach us something. What God wants to teach us is that He is the Healer, He wants to heal you, sickness is from the devil, and you can live above it. Praise the Lord.

(WATCH PTL CLUB OF CHANNEL 3 DAILY AT 11 a.m. and 8 p.m. — cold weather gives us problems at the present time. We'll be back on when it warms up.)

NOTE: The name of satan in this column is not capitalized purposely. We have no reverence or respect for that snake at all. He is a loser and we like to rub it in and make fun of him.

REMINDER TO VOTE

Cattlemen in Wheeler county are reminded to vote in the upcoming referendum on the Federal Beef Research and Information Order, if passed, would:
 —Permit the deduction of up to 2/10 of 1 percent from the sales price of cattle for the first two years of the program. After that, the deduction could be raised up to 1/2 of 1 percent without another referendum of producers.
 —Require purchasers of cattle to make the deduction. Failure to comply would make the purchaser subject to a \$1000 fine.
 —Require the deduction at each point of sale. The buyer would pay the purchase price minus the amount of the checkoff to each seller of cattle. The check-off money would be paid to the administering agency at the point of slaughter.
 —Exempt from assessment breeding cattle and cattle used for commercial milk production.
 —Raise about \$40 million annually at the 2/10 of 1 percent assessment, and some \$100 million annually at the 1/2 of 1 percent figure.
 —Provide for refund of assessment if demand is made within 60 days after the end of the month in which the transaction was made.
 —Establish a Beef Board (a quasi-governmental agency) composed of not more than 68 producers to administer the program.
 —Provide for appointment to the Beef Board by Secretary of Agriculture of up to five non-voting consumer advisors whose expenses would be paid by assessment funds.
 —Authorize the U.S. Department of Agriculture to hire new employees to monitor the check-off program. All such expenses would be paid out of assessment funds.
 The county Farm Bureau leader said that, for the Order to be approved, ballots must be cast by at least 50 percent of producers registered to vote in the referendum, and a majority of those voting must favor or approve the issuance of the Order. 3t

LETTER to the EDITOR

Please allow me enough of your time and place in your paper to say a word of appreciation for our City Council in getting the trash containers implemented into taking care of the city trash. True some are setting in front of our homes, I have one in front of mine, but to me it is better than seeing unsightly garbage all over the front lawn after a dog has torn a plastic bag. True the container will smell when wet garbage is thrown in it. But here again it will be my fault if I place wet garbage in it. I plan to see that all of my wet garbage is placed into plastic bags before I put it in the container. Also if and when the container gets to smelling I plan to wash it out and try to correct the problem. Also loose trash and paper should not be put into the containers without being in a plastic bag because they will blow all over town when the wind blows the lid up. I believe if everyone would take this course of action our trash collecting will be much improved.
 While I am saying a "thank you" to the Council I want to add one for the street improvements. Here again if each one of us will keep just that portion of street in front of our homes neat and tidy our streets will be nice looking for a long time. True the City has equipment and men to do this job, but that cost money and that money is part of my tax dollar so I plan to help make it go a long way.
 Thanks again, Council for trying to improve our town and making it a place we are proud to live.
 Yours truly,
 A Greatful Citizen

HERE & THERE
 by Laura Guthrie
 Winter has really arrived. How many times I hear, "It's sure good weather to stay indoors." I'll agree. But sometimes I think it is necessary for me to get out. Then a friend comes along and says "Don't get out in this. I'll get your mail. I'll go to the grocery store, and bring you a book to read." Well, all the time I really didn't want to get out. So I take the spoiling. Age and rheumatism do have their compensations.
 Lilly and I keep busy. We crochet and sew and discuss politics (statements on TV seem to need ironing out by us.), and haven't been lonesome at all. In fact I'm getting a lot of work done that I wouldn't have by myself. So let the snow blow.
 Recently Melvin Pettit, from Canada came to visit his brother Shelby. Their sister, Gladys Reeves came from Duncan, Okla. to visit with them. She is still here. Also Grace's and Shelby's sons Carroll and Maurice from Borger and Pampa came. So the Pettit had a good time of family visiting.
 Mona Guinn spent a day last week visiting with her mother, Nettie Luttrell who is now living in Canadian.
 Mary Finsterwald is enjoying a visit with her sister, Geneva Wilson. Geneva's husband Clarence, brought her late last week and returned home. I know the women are enjoying this "stay at home weather" and are getting caught up with their family talk. Recently Mary's brother, John Cook and wife were here from New Mexico, were here, as was another brother, J.F. and wife Alma, and two sisters, Tommy Cummings of Borger, and Lolete and Elmer Byers of Pampa.
 Mae and Harold Nash attended the funeral of Ruth Anderson, in Clairmore, Oklahoma the first of the week. Mrs. Anderson was Mae's sister. Mae had just returned from an extended stay with her when she had word that she had passed away.
 Gerald Bryant of Kenai, Alaska is spending some time in this part of the U.S.A. He has spent a week with his mother Rozena Horn, is now visiting his brother at San Juan, New Mexico, but will be here to see his mother again before returning to Alaska.
 Rev. Herman Martinez of Dalhart was a guest in the home of Mr. and Mrs. Bob Lane Thursday afternoon. He was en route to Pampa to attend a meeting, where he is on the board of Directors Top of Texas, Dept. of human Relations on Childrens Development Center. Formerly Chairman of the Board on Child Development in Dalhart.
 Odell and Helen Perry and daughter were visiting in Wheeler last week and also visited in Canadian. The couple lives in Aztec, N. M. They would prefer to live in Wheeler, but reside in New Mexico to be near her father who is ill.

who played on that 1955 girls team. The annual did not have the names on the team picture and this is what I came up with: Janice Jacob, Francin Barber, Sandra Richardson, Paula Green, Juanita Sanders, AnnRose McCormick, Bonnie Moore, Katie Pierce, Glenda Richardson, and Phylus Richardson. Others were in the picture but I could not match their face to a name. Coach Killingsworth coached the '55 team.

"Black Magic" Is 5-0 In District

Wheeler played one of their most discipline games of the season against Allison last Tuesday as the Mustangs took a 76-47 victory.

The game was never in doubt as the Mustangs controlled all aspects of the game, especially the offensive end. The movement of the ball and hitting the man inside for a high percentage shot was our biggest improvement to date. Russell Gaines and Benny Baker played an excellent game inside. Their timing on the cuts and going up for a shot is just now coming around and with a little more playing time, they will give our opponents all they want.

Of course the inside game cannot work without good passing from the outside and our wing and point men did an excellent job hitting the post.

Up to this point in the season our outside game was over strongest pursuit but with the improvement of our inside game people may find it hard to stop the "Black Magic".

Russell Gaines was high point with 21 points followed by Benny Baker and John Harris each with 10 points. Vic Bradford and Kevin Andis were high rebounders with 9 rebounds each.

The Mustangs play a very crucial district game tomorrow night against Samnorwood. Samnorwood has only one defeat in district and that was at the hands of the Mustangs. If the Mustangs were to drop this game the two teams would then be tied for district.

The games start at 7:00 p.m. tomorrow night in the Wheeler gym.
