In "Return to Thelbes", Allen Drury concludes the story, "A God Against the Gods", about the all-powerful but illfated eighteenth dynesty with the deaths of Akhenaten and Nefertiti at the hand of the vengeful priest hood of the god Amon, aided by members of Akhenaten's own family; the coming to power of Tutankhamon, his brief and poignant rein violently ended when he too sought to place Akhenaten's "Sole God", the Aten, above Amon; the reign of their aged uncle Aze; and, finally, the reign of the ambitious and pragmatic Horemheb, Azc's son and last Pharoh of the Eighteenth great day is a must for every Dynasty.

County Wildlife Hearing Tuesday

LUBBOCK-Proposed changes in Texas hunting and fishing regulations will be listed and discussed during the regulatory hearings scheduled across Texas March 13-16.

Individuals interested in these proposed changes or who want to propose change of their own should attend the meeting in the courthouse in Wheeler at 2 p.m. on March 14, 1978.

These annual hearings are his Midnight Cowboys. A dance held every spring for the purpose of gathering information and comments from Texas citizens concerning hunting, fishing, and trapping regulations in Texas.

As a result of the Texas Legislature, the Texas Parks and Wildlife Commission is slated to act on the proposed changes in seasons, bag limits, and methods and means of harvesting wildlife resources at their April 13-14 meeting in Austin.

Each county hearing will include a hearing officer and a law enforcement officer, and game or fish biologist if a change in fish or game regulations are proposed for that county.

All comments made at the hearing by both P&WD personnel and the public will be recorded and presented to the PW&D Commission for their consideration prior to the April hearing.

Proposed changes recommended by the P&WD will include no protection of spike bucks; closing of whitetail deer in Andrews county; increasing the Panhandle antelope season; separate mule deer and whitetail deer regulations; make quail seasons more uniform throughout the state.

Biological justifications for each proposed change will be discussed as increases or decreases of game and fish populations are monitored.

If these proposals meet with the approval of the public and the PW&D CSommission, they will become law and will be listed in new 1978-79 hunting, fishing, Mrs. C. A. Holdeman, owner of and trapping regulations issued prior to the fall seasons.

Interested persons are urged to attend the hearing in their county and make their opinions known. If the person cannot attend the hearing, a proposed change can be presented at the' April 14-15 hearing in Austin.

More information is available by contacting the nearest Texas game warden of P&WD office.

Likely starters at guard for the Crusaders will be 5-6 freshmen Cindy Light and Tracy Zinn. Light is averaging 14.1 points per game, while Zinn is scoring 11.4 points per game average. Cover also leads the Evangel team with 13.5 rebounds per contest. The high scoring center is hitting 41 percent of her field goal efforts.

At forward will be 5-10 junior Marica Campbell and with 5-8 freshman Teresa Banes or 6-0 junior Linda Kelly. Campbell has begun to get a hot shooting hand and is currently scoring 6.9 points per game, while grabbing 7.1 rebounds per outing. Banes has moved herself into several starting lineups this year and is averaging 5.1 points and 5.8 rebounds per contest. Facts from a pro on driving to survive.

Q. My brother-in-law just bought some oversized tires for his car. He claims they'll give it better stability and handling. Is this true? -D.S., Port Arthur

A. Not necessarily. Increasing the area of the tire that contacts the road will usually give you better traction on dry roads, but might reduce traction on wet roads. Why? Because making the contact patch larger reduces the weight per square inch on the road and can cause hydroplaning at lower speeds. This happens when water builds up in front of a tire until the tire is actually riding on top of it, like a water ski. Unless the tread design allows better water drainage, wider tires may force you to slow to a crawl in wet weather.

Q. I've just moved to Texas. What does the law say about turning headlights on in the evening and having them on after daybreak? - E.W., Garland

A. Texas law says to turn them on no later than half an hour after sunset and turn them off no earlier than half an hour before sunrise. The law also says to turn on your lights any time vehicles or persons are not clearly visible at a distance of 1,000 feet.

Lights not only help you see, they help other drivers see you. Motorcycle riders often ride with their lights on during clear daylight just to improve their visibility to other traffic. You'll see truckers running with their lights on anytime near sunset, particularly if the sun is behind them. If you have trouble seeing other vehicles that are running without lights, your car is probably pretty hard to see, too. When other vehicles are easily visible, with lights on or not, it's probably safe to turn
