Just as an engine can't run without fuel, your body can't work efficiently without a good breakfast. This is especially true for rapidly growing youngsters. Over five week periods, late morning tests at Iowa University showed that in every instance when students ate no breakfast, they took longer to make decisions, were less steady, and able to do less work. Earlier tests with adults showed that when they ate adequate breakfasts they had quicker reactions, did better work, and felt 'more alive'.

### Editorial

Would someone please explain why people are allowed to carry on a dangerous habit on campus! Wheeler High School is one of the only schools around which allows their students to smoke cigarettes. Something should be done about it.

If a person were to walk down the hall he would surely bump into someone who reeked of tobacco smoke. When someone opens the smokers door, the smoke bombers through the halls.

An example of this would be at basketball games. People are allowed to smoke in the foyer of the gym. The smoke drifts onto the court and is detrimental to the players. People who want to smoke during a game should be forced to go outside. Yet, students are still allowed to carry on these dangerous, harmful habits while other non-harmful practices are prohibited. Smoking on the school grounds should be prohibited. This writer challenges anyone to find a person who has died of long hair and he will show you a couple of thousand people who have died because of cigarette smoking!

Coach Hester said: Cindy is perhaps the most improved player on the team. Having missed most of her last 2 years due to injuries, she was lacking in experience and confidence, and as result has not seen a great deal of action. However against McLean during the Wheeler Tourney, she played very well and could get to play more and more as the season progresses.

Anne McIlhany is the daughter of Mr. and Mrs. Grainger McIlhany. Anne is five feet six inches tall. She plays on the Varsity Basketball team as a senior forward. Coach Hester said: Anne is our leading scorer this year averaging about sixteen points per game. Anne has spent a lot of extra time on her shooting and it looks like it will pay off for her. She is definitely in the running for all district honors.

Anne is a leader off the court as well, being actively involved in several church, school, and social activities.

## HERE AND THERE

By Laura Guthrie  
 "Tis the Season to be Merry..." Well, shouldn't we? Good health, plenty of food, firm friends, fine families.

But what about those that might not be fortunate enough to have these things? Really there is a deeper meaning to Christmas than fable, folk and feasting. May we all find that meaning.

As for me, the season started beautifully last Sunday when Mae Nash invited several of her friends to her house for lunch. The house glowed with Holiday sparkle, the linen, crystal and silver twinkled on the tables, the food was superb. Husband Harold was there to ask the blessing and to eat. Then he took off for a quieter zone to watch the ball game. We guests stayed for a lot of chatter. We were also presented small, charming gifts from the hostess.

The Methodist and Baptist combined choirs are rounding out their rehearsals of the Christmas Cantata. We are all looking forward to enjoying it on Sunday evening.

It so happens that I have some sprained (or strained) muscles in my arm and fingers. I am handicapped with my typing and writing.

So, have a Happy Christmas!

PHEASANT POPULATIONS DOUBLT

LUBBOCK—The ringnecked pheasant population in the Panhandle regulatory district has shown another significant increase according to survey figures compiled by Texas Parks and Wildlife Department field personnel.

"A 58 percent increase was noted in the 33 counties that will be hosting this popular hunt," said David Dvorak, wildlife project biologist.

"Another indication of a good season is the excellent ratio of one male bird to every female bird going into the winter and with the expected harvest of surplus cocks, we will again have an excellent population for the 1977 nesting season," Dvorak continued.

Continued grain production such as corn and maize along with irrigation and a mild winter last year has insured a good carry-over with good hatches expected next spring.

The season opens Dec. 11 and continues through Dec. 26, 1976, with a daily bag limit of two cock birds and a possession limit of four cock birds after the first day.

Counties that will host this upland hunt include: Armstrong, Bailey, Briscoe, Carson, Castro, Childress, Collingsworth, Cottle, Dallam, Deaf Smith, Donley, Floyd, Gray, Hale, Hall, Hansford, Hardeman, Hartley, Hemphill, Hutchinson, Lamb, Lipscomb, Moore, Motley, Ocklee, Oldham, Parmer, Potter, Randall, Roberts, Sherman, Swisher, and Wheeler.

Sportsmen will find a huntable population of pheasant in all of these counties but the largest concentrations will be near grain fields and heavy cover such as playa beds, weed patches or fencerows.

Sportsmen are reminded to leave the heads and feet attached to the pheasant until the birds are delivered at their final destination. This allows law enforcement officers to inspect the insure legally bagged birds.

Failure to identify pheasant as they bust out of the heavy cover has always been a problem especially in early morning light or on cloudy days. The shooting of hens is a game violation and hunters checked with hens in their possession will be issued a citation. Large groups of hunters should plan to identify and tell other members of the party when a hen flies among the group.

Hunters have been very successful in bagging wounded birds by the use of retriever dogs. Many times, the limit of two roosters is reached after the canine helper runs the bird down and brings him back to the hunter.

LINDA HORTON — CEA

Christmas time at home brings memories of good cooking and family visits—and good cooking starts with planning and preparing the feast.

An educational publication, "Christmas Time at Home", covers everything from food gifts to puddings and beverages to main dishes. Compiled by foods and nutrition specialists with the Texas Agricultural Extension Service, The Texas A&M University System, it features more than 30 pages of recipes and suggestions.

It's available from Agricultural Communications, College Station, Texas 77843 for 35 cents. Title of this publication is "Christmas Time at Home", B-254. It can be obtained through the local county Extension office also.

For a sample of the recipes in the pamphlet, try Party Cheese Ball.

### Party Cheese Ball

- 2 8-ounce packages cream cheese
- 1 tablespoon chopped pimiento
- 1 teaspoon finely chopped onion
- 2 teaspoons Worcestershire sauce
- Dash of salt
- 1 8-ounce package cheddar cheese, grated
- 1 tablespoon chopped green pepper
- 1 teaspoon lemon juice
- Dash of cayenne pepper

Pecans, finely chopped

Cream the cream cheese, add the grated cheese and mix until well blended. Add other ingredients and mix well. Shape into a ball; roll into finely chopped pecans. Wrap and chill for 24 hours in refrigerator.

Flavor and aroma of home-made yeast bread fills the house with holiday spirits.

Yeast breads don't have to be complicated and time consuming.

An educational publication, "Yeast Breads," offers a variety of simple yeast breads recipes compiled by foods and nutrition specialists, with the Texas Agricultural Extension Service, The Texas A&M University System.

"Learn the basics about mixing, kneading and baking, plus receive tested recipes for sweet, plain and herb breads and buns. There are even recipes for making main dish pies in a yeast crust," she said.

"Yeast Breads", B-863, can be obtained through the local county Extension office.

The following recipe is one found in "Yeast Breads":

### Raisin buns

- 1 package or cake yeast
- 1/4 cup lukewarm water
- 1 cup milk
- 1/4 cup melted shortening
- 1 teaspoon salt
- 1/4 cup sugar
- 4 cups flour
- 2 eggs, beaten
- 1 cup seedless raisins

Soften yeast in water. Scald milk. Add salt and sugar. Cool to lukewarm. Add two cups flour and beat well. Stir in softened yeast. Let rise in warm place until doubled, about one hour. Stir down. Add eggs, shortening and raisins. Add remaining

season, evergreens may be preserved to their becoming brittle. This applies also to table-top size Christmas trees, but will not work for large trees.

Crush the stems and place in a solution of four tablespoons micronized iron plant food, two cups of light corn syrup and four teaspoons chlorinated household bleach.

While atmospheric conditions and the age of the foliage will influence the finished product, you will soon have the basis for

many beautiful arrangements, with a small investment of time and money.

## City Council

From page 1

Mayor Pete Burton presented a copy of the by-laws of the Wheeler Volunteer Fire Department for the approval of the Council. They were approved.

Richard Wallace, of Baldwin, Rucker and Co., presented the financial statement for the month of November and explained the same.

The council discussed applying for a community block grant. The grant would be used for the continued improvement of the water system.

The resignation of patrolman Jerry Kelley was read and accepted.

The council decided to change the size of the main water line into the city from 8" to 10" as designated on the contract.

## Donations, Labor Help With Old Jail Project

The Mobeettie Vocational Agriculture teacher, Mr. James Moffett, with his class of boys including, Ronald Gudel, Bryan McCurley, Philip Kysar, Kelley Mickey, Bonnie Dyson, Dean Seitz, Steve Knoll and Greg Estes spent part of one day, on Tuesday, November 15, working at the Mobeettie rock jail removing some old ceiling the nails and cleaning up the mess it made. This job they did saved much work and time for the carpenters and saved a lot of expense needed to restore the old jail that is rapidly progressing, when the weather permits. We want to thank Superintendent Mickey, Mr. Moffett and each of the young men for the work they did toward our restoration project.

The Shamrock Lumber Company donated new flooring to the amount of \$14.40 which was greatly appreciated. Other recent donations have been, \$50 given by Esther Sorensen, and May Arrington Grimes, of Claude sent a \$50 check. Mr. R. J. Pasley of Shamrock is donating part of his time and expense of sandblasting the inside of the jail upstairs. Thank you Mr. Pasley.

The restoration job, that is a Wheeler County project, is taking more time and expense than was expected, even though laborers and merchants are giving a reduction on materials and working time, we still need more funds to complete what we have started and any amount, that anyone who loves to see history preserved, wishes to donate will be greatly appreciated, and as a non-profit organization your gifts can be tax deductible. Send your contributions to Berniece Caldwell, Mobeettie or Sallie Harris Wheeler, Texas.
