MUSTANGS

The Mustangs got five touchdowns on the ground and four in the air against Higgins and Ford caught two of the scoring aeri- als and the first one was for 66 yards, still in the first quarter, to up the Mustangs count to 21-0.

Clay Doyle caught the Mustangs warming their hands or something and broke loose for 22 yards on a draw play to put Higgins on the scoreboard at 1:53 of the first period.

Ford returned the Higgins kickoff 28 yards to the Wheeler 44 and here came Brown again.

This time it took the senior tailback six trips to get into the end zone and he scored on the first play of the second quarter on a 14 yard run and Verden's kick made it 28-6.

Less than 2 minutes remained in the first half when the Mus-

tangs took over on their 37 and started the last scoring drive of the half.

Carrying six times, Brown got yards in big chunks and the Mustangs were on the Higgins 15 with second and seven facing them.

An ineligible receiver penalty wiped out a touchdown pass but the Mustangs weren't to be denied and Brown passed to Ford for 27 yards and six points with just 14 seconds on the clock.

Brown ran the two points and left the frigid field with a 36-6 lead.

Jim Verden bulled his way 35 yards down the sideline with the second half kickoff and the big tackle was finally brought down on the Coyote 20 by sheer weight of numbers.

Four plays later, Guthrie passed to Tony Hefley from four yards out and Wheeler upped their margin to 44-6 when Guthrie ran for the two extra points.

City Council Has November Meet

The Wheeler City Council met Monday evening, November 15. The meeting opened with a prayer and the reading of the minutes from the September and October meeting.

The bills were review and passed for payment.

The voted to table the taking of bids for a new fire truck until a later date.

Jerry Hefley met with the council and reported on the activities of the water and sewer department.

The December meeting of the council will be moved forward on week. The council will meet Monday, December 13.

Richard Wallace presented and explained the financial statement.

At 7:30 the council opened the bids for the project to lay additional water lines. The project calls for the laying of an 8" line from the well site west of town to the underground storage tank. 6" lines will be run down South Mobeetie and North Canadian Streets; the line on Mobeetie will loop on 19th and again on Cemetery road.

Six bids were received by the council. The low bid was submitted by H. J. Jordon of Amarillo in the amount of \$78,897.35. The completion of the project will take 120 days. The accepting of the bid is subject to the approval of HUD: the \$98,000 HUD grant is being used for the project.

Following the opening of the bids, the meeting adjourned.

Trapping & Wildlife Management

LUBBOCK—Because of reduced habitat, controlling wildlife populations is of increasing importance and trapping provides the only logical means of controlling certain species of wildlife if carried out in accordance with Texas regulations.

Each spring the natural reproductive capacities of animals listed as fur-bearers in Texas such as badger, beaver, fox, mink, muskrat, opossum, otter, raccoon, ring-tailed cat, skunk (polecat) and wild civet produce surpluses that ensure winter survival of the species.

For instance, muskrat have the natural capacity to reproduce at a rate exceeding 50 to 80 percent annually. This means that for every 100 animals before breeding season, there will be 150-180 by the end of the season.

Left to her own devices, nature will take her own harvest, far more devastating and complete than the most skilled trapper, and inflicting more pain, prolonged suffering and misery than the most devout anti-trapper would care to witness.

While hunting is the best method of controlling deer and other large animals, it is extremely inefficient for controlling smaller animals such muskrat

and beaver.

All sorts of problems arise from over-crowded fur-bearing animals including destruction of grain crops, trees and shrubs, earthen dams, and the possibility of a wildlife disease that could wipe out the entire population.

One of the diseases that is transmittable to man is rabies, but there are numerous diseases that do not effect man including mange, distemper, and parasites. These maladies not only kill fur-bearers but reduce the value of the hide.

To understand trapping, it is important to realize that it is an integral part of our North American heritage. Texas sportsmen can trap by purchasing a resident trapping license for \$5. This permits the license holder to take for the purpose of sale or barter any or all of the listed fur-bearing animals.

A non-resident trapper can participate for \$200 in Texas for the same purpose of sale or barter.

The trapping season for mink is November 15-January 15; muskrat, November 15-March 15; and all other fur-bearing animals, December 1-January 31, 1977.

The coyote and bobcat are not

listed as fur-bearers in Texas and therefore, only a Texas hunting license is required of those 17 through 65 years of age when out of their county of resident. The coyote pelts are bringing from \$15 to \$17 and bobcat from \$25 to \$50 with a good market forecast for winter.

Methods of trapping vary from the Panhandle-South Plains to the piney woods of east Texas, but basically there are two types of traps—those that kill the trapped animal and those that restrain the animal.

"Killer" traps include the snares, deadfalls, and the conibear-type traps. The first two are holdovers from the past and are seldom used today. The conibear traps consist of two square, metal frames connected by a spring. These type traps are most effective when used for smaller animals such as the muskrat, skunk, and etc.

The "live" trap most widely used is the leg-hold trap since it can be used in many ways for both short and long-legged animals and gives the trapper the option of releasing, usually without permanent damage, an animal he does not to kill.

Leg-hold traps can be set on land or in water and when set properly in water, they can be used as a "killer" trap, for the animal is quickly drowned. On

land, they can be set near a predator's known target such as hen house, sheep pen, or an animal trails.

The banning of the leg-hold traps and trapping in general would actually increase the in-

humanity to animals by aggravating their starvation and disease problems caused by a shrinking habitat.

Neither wildlife, agriculture, nor human health interests of Texas can afford such folly.

GI Bill Education Benefits

The President signed a new G. I. Bill on October 15, 1976 which terminates the existing education benefits for individuals recruited into the military service after December 31, 1976.

Persons currently serving on active duty or who join the Navy or enlist in the Navy's Delayed Entry Program before January 1, 1977 are considered eligible for the present G. I. Bill.

Individuals who are interested in volunteering now for one of the Navy's officer or enlisted programs and want to take advantage of the current education benefits are encouraged to contact the local Navy Recruiter at 115 N. Cuyler, Pampa, Texas or call Don Taylor collect-665-5932 to determine whether they qualify.

Persons recruited into the military service after December 31, 1976 will be eligible for education aid if they elect to participate voluntarily in contributory program. Service members would contribute between

\$50 and \$75 a month up to a total of \$2700. These funds would be matched by the Veteran's Administration on a two to one basis.

The Navy offers professional training for job skill in several programs which lead to commissioning as a Naval officer, plus more than sixty enlisted career fields including the Nuclear Field, the Advanced Electronics Field, and the Advanced Technical Field.

To learn more details about provisions of the new G. I. Bill and the Navy's entrance requirements, contact the closest Navy Recruiter at 115 N. Cuyler, Pampa, Texas or call Don Taylor collect at 665-5932 or call toll free 800-841-8000.

"You never know what is enough until you know what is more than enough."
William Blake

MR. AND MRS. JACK JOLLY

MR. & MRS. JACK JOLLY HONORED AT RECEPTION

Mr. and Mrs. Jack Jolly were honored Sunday, November 14, with a reception in observance of their 50th Wedding Anniversary.

The reception was hosted by the couples sons and daughter-in-laws: Mr. and Mrs. Bailey Jolly of Moore, Oklahoma, Mr. and Mrs. Wayne Jolly of Pampa, Texas, Mr. and Mrs. Earl Jolly of Wheeler, Mr. and Mrs. Charles Harris of Pampa, Texas, and the grandchildren, Brenda, Myron, and DeeAnn Jolly of Wheeler, Fina and Danny Jolly of Moore, Oklahoma, Vicki Ralmer of Boley, Oklahoma, and Andy and Lisa Harris of Pampa.

The reception was held at the Church of Christ in Shamrock, Sunday, November 14, 1976.

The table was decorated with a bouquet of bronze spider mums and assortments of other bronze flowers and greenery. The four tier cake with four swing out cakes was done in white with gold trim. The cake was topped with a special chosen 50th symbol signifying the occasion. Gold candles and a silver punch bowl and crystal accented the table.

Residing at the table were Brenda Jolly and Gina Jolly granddaughters of the couple. Dee Ann Jolly and Lisa Harris registered the guests. The small table, was decorated with a small bouquet of bronze flowers and the couples wedding picture.

The couple was married in Wheeler, Texas on November 14, 1926. Jack is a retired farmer and the couple remained in Wheeler County after they married Jack and Valle are members of the Church of Christ in Shamrock.

A luncheon was held in honor of the celebration at the Maverick Restaurant in Shamrock and 61

Homecoming Is Canceled

Due to the severe weather and the traveling hazards during the weekend the Mobeetie School was forced to cancel Homecoming activities which included a reception honoring Mrs. Elsie Scribner who was a teacher of Commercial Subjects for 30 years in the Mobeetie System. Also called off was the basketball games between Lakeview and Mobeetie and the sock hop to follow the game.

There was open house for those who wished to meet and visit at the school during the afternoon.

The 1976-77 Seniors were sponsors with the Senior mothers to furnish the dutch treat meal.

Homecoming honorees for the year were graduates in 1931-41-51-61 and 71.

SNOW RECEIVED

Wheeler received its first measureable snow Friday evening and Saturday morning. The snow began falling Friday evening at 10:00 p.m. A total of 2 1/2 to 3 inches was measured.

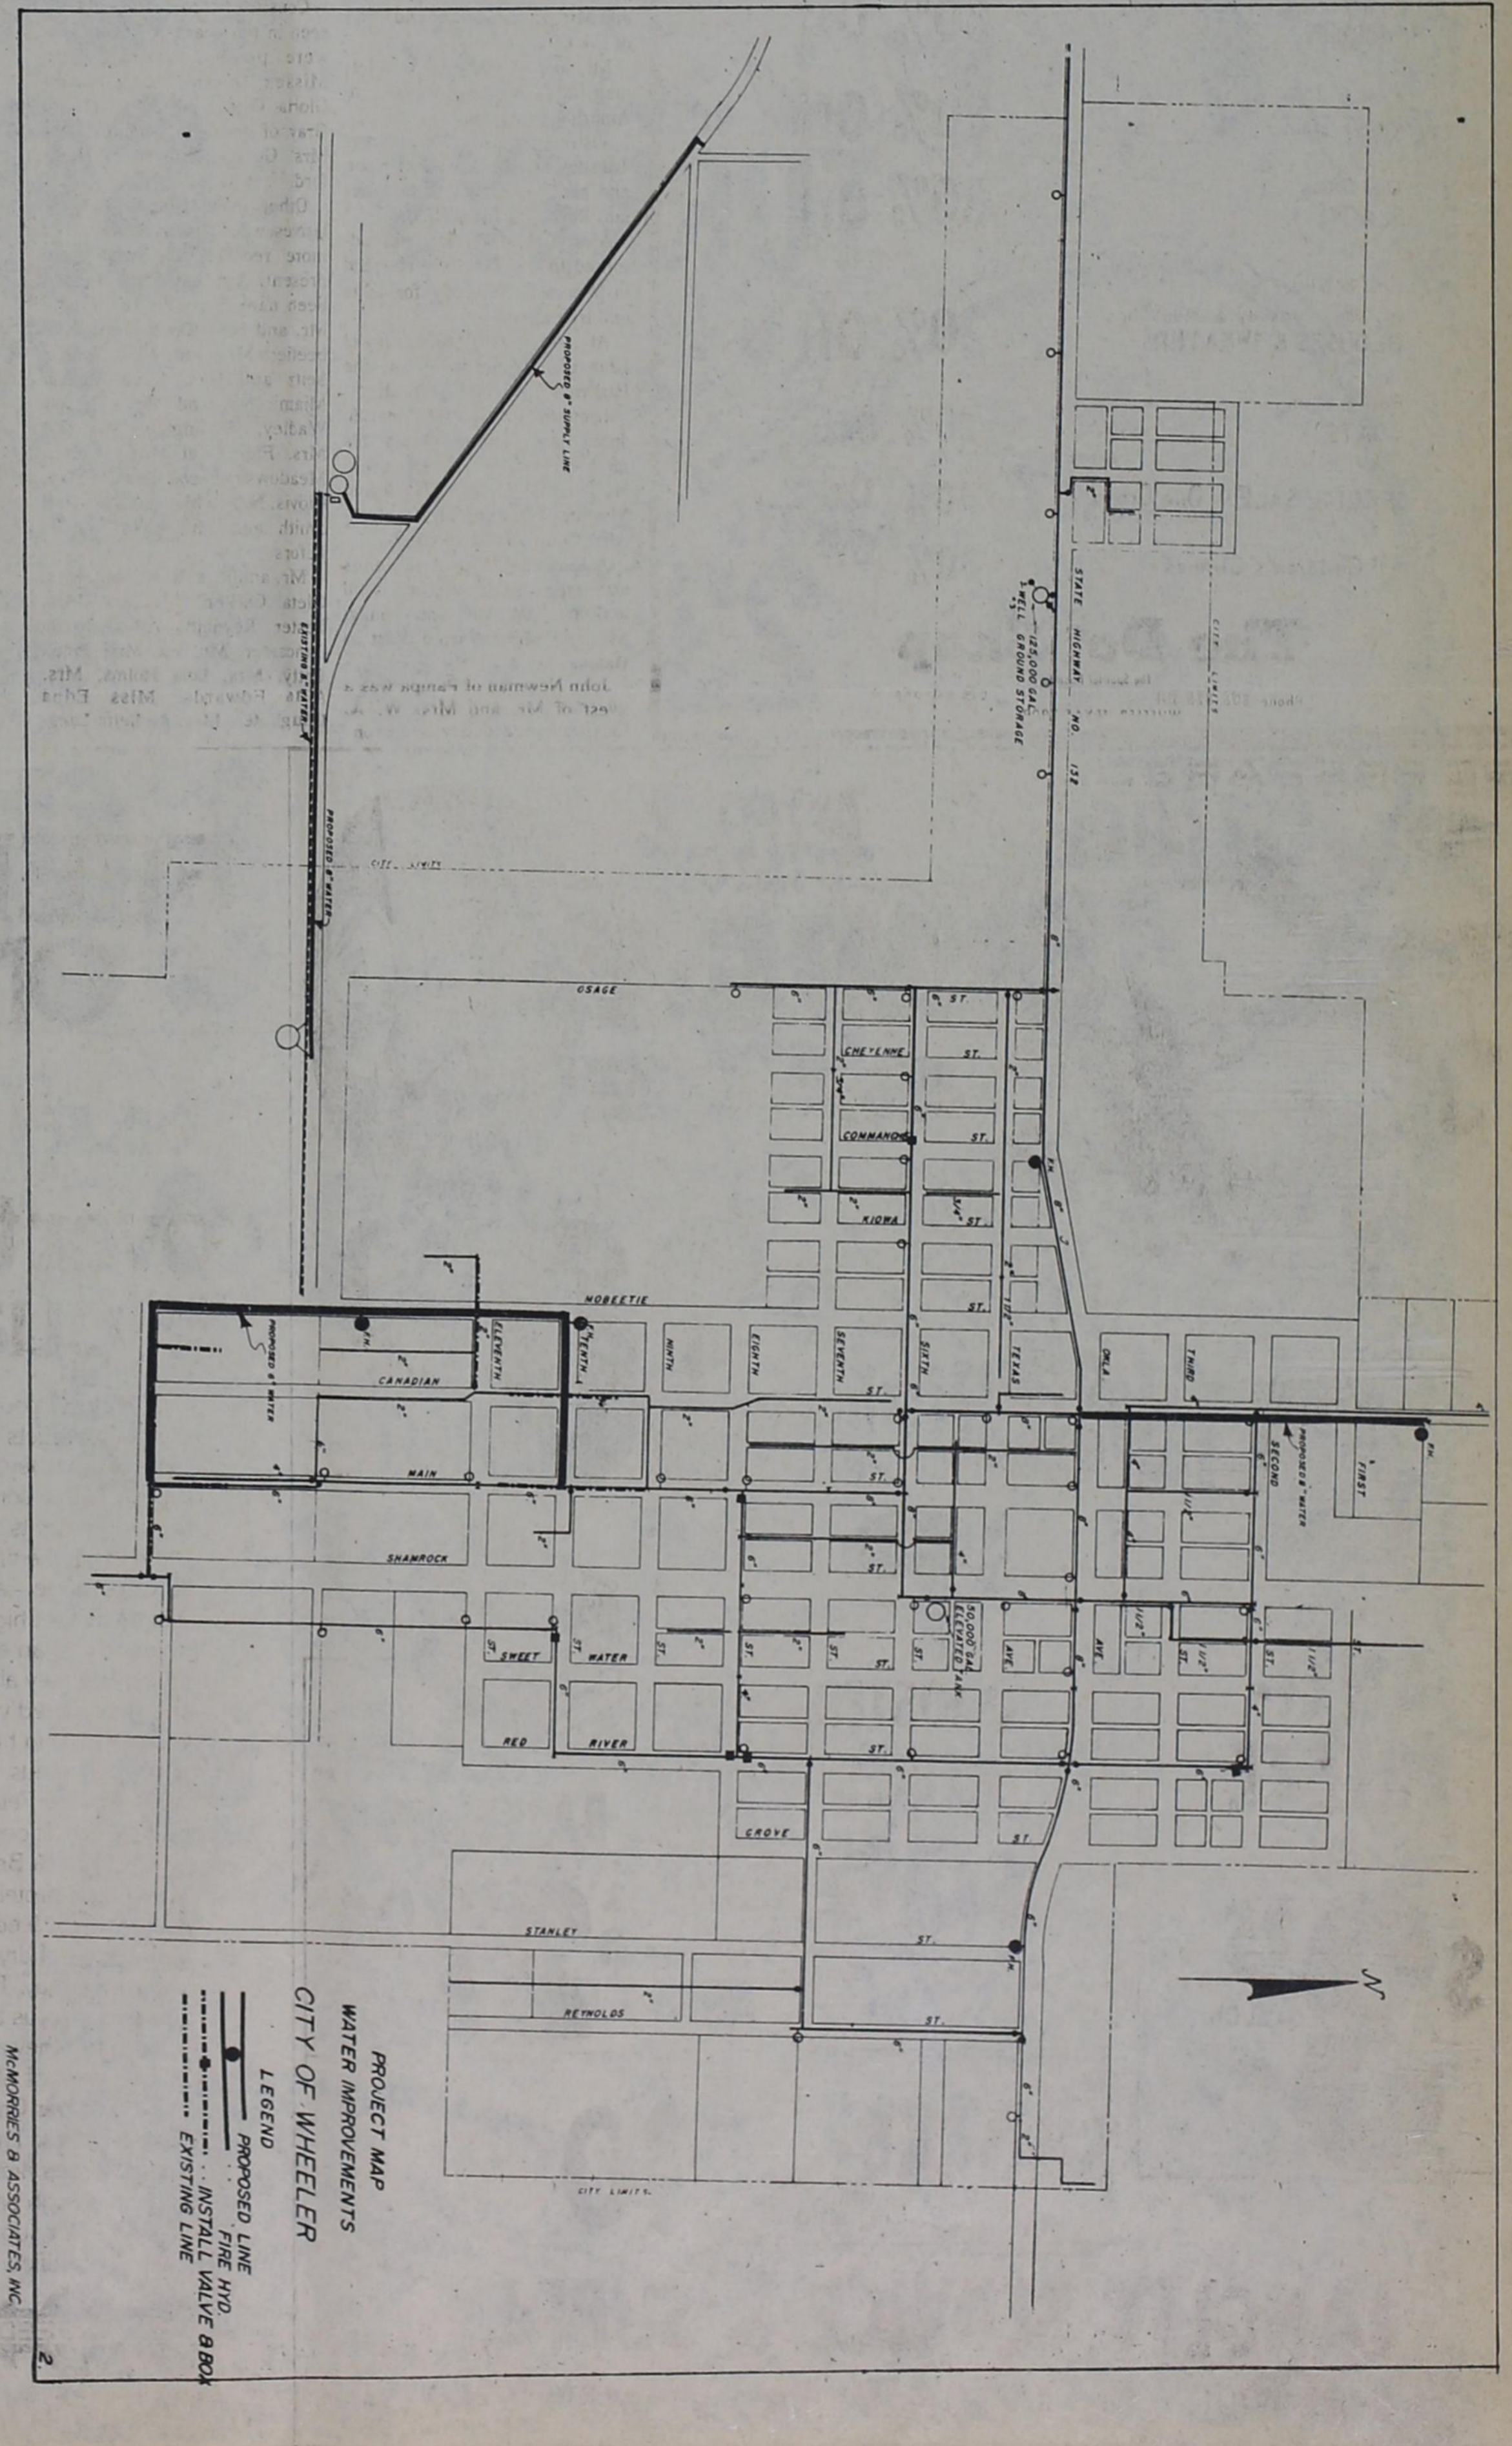

The snow produced .32 inches of moisture.

OPEN HOUSE

You are invited to come to open house of Belva Dorman, 701 N. Walnut at McLean November 21, 1976 from 1:00-5:00 P.M.

This is the former home and music studio of Mrs. Willie Boyett. It has been completely remodeled and made into a 16 room home and is furnished with antiques.

The first pole vaulter to clear the bar at 15 feet was Cornelius Warmerdam on April 13, 1940, in Berkeley, California.
