KELTON SCHOOL TO BUILD NEW GYMNASIUM

The Board of Trustees of Kelton Independent School District sold \$400,000 in recently voted bonds to American National Bank of Amarillo at an interest rate of 3.70% — the proceeds to be used for the construction of a new gymnasium

and cafeteria, and other improvements to the school plant. The Kelton District received an "AA" rating from Moody's Investors Service of New York City—and according to Financial Advisor Bob Davis of Underwood, Neuhaus & Company, is next to the highest rating available, and one that is usually accorded to much larger districts such as Amarillo, Dallas, Lubbock, Odessa and Midland.

According to Dean Johnson, Superintendent of Schools, the architects are in the process of preparing the plans and specifications for the new construction, and it is anticipated that the new facilities will be ready for use by the 1977/78 school term.

Estate Planning Meeting Called

An Estate Planning meeting is being sponsored by the Wheeler County Program Building Committee for Monday, November 8th at 7:30 p.m. in the Wheeler School Auditorium. The public is invited to attend this free meeting.

Dr. Ray Sammons, Area Economist-Management Specialist, with Texas Agriculture Extension Service in Amarillo will discuss changes brought about by the new law on inheritance taxes, ways to reduce tax consequences and the need for life insurance. He will also talk about wills and what happens to your estate in the absence of a will.

This program will not only be of interest to farm and ranch families, but persons from various business interests. Young couples are especially urged to attend.

There will also be an income tax meeting Monday, December 6th. The time and place have not been determined yet, but will probably take place in Shamrock.

This meeting will cover ways to reduce taxes and changes brought about by the new tax law. Types of farm records needed for tax purposes will also be discussed. Dr. Ray Sammons will be in charge of this meeting as well.

Make plans to attend the Estate Planning Meeting, Monday, November 8th and the Income Tax Meeting, December 6th.

Donations For Rescue Equip.

The members of the Wheeler Fire Department are taking donations for the purchase of a Rescue Saw. Among other things, the saw can be used for removal of persons from wrecked vehicles. \$385 of the \$760 needed for the equipment has been raised.

The following people have donated toward the purchase of the rescue saw:

Fat Childress, Dean Johnson, Mary Wofford, Danny Mitchell

KIWANIS PROGRAM FOR THE YEAR

The Kiwanis Club of Wheeler will commence a new community service program called "Safeguard Against Crime" according to Lowell Lasley, president of the club. The purpose of the program, he said, will be to bring to the attention of the public the dramatic increase in crime a-

gainst persons and property; and to describe many of the ways in which individuals, themselves, can prevent such crimes.

He said that specifically the program will attack the problems of crimes against children, crimes against businesses and offices,

and crimes against senior citizens. He said the program will accomplish this by conducting basic attitude programs aimed at encouraging understanding of and respect for the law, and dependence upon and respect for law enforcement officials.

In developing the program, Kiwanis International has enjoyed the complete support of the Federal Bureau of Investigation in the United States, and the Royal Canadian Mounted Police in Canada. Both Director Clarence M. Kelley of the FBI and Commissioner Maurice J. Nadon of the RCMP have personally pledged the cooperation of their agencies with Kiwanis International and Kiwanis clubs in carrying out the Safeguard Against Crime program.

In many communities the Kiwanis president said, the local authorities will cooperate in Safeguard Against Crime programs which are primarily educational in nature. Groups reached, he said, will include householders, merchants, older citizens, young children and civic, church and professional organizations.

The McLean Tigers became the third team to score on the Wheeler Mustangs in the '76 season and ran 27 more plays than their visitors but the extra offensive snaps brought zilch as the Mustangs buried the Tigers 48-6 last Friday night in McLean.

It was a chilly night in McLean but the Mustangs were hot and had their hosts down by 34 points after getting their hands on the football five times.

Midway through the second period Coach Smith started clearing his bench whenever the Mustangs had the ball and Brett Mosley, the Mustangs No. 2 fullback, finished the game as the leading ball carrier with 111 yards on 15 carries.

Don Brown broke the second half kickoff for 90 yards to up the Mustangs margin to 41-6 with just 11 seconds gone in the final half and there really is no telling how many points the Mustangs could have scored if they had wanted to.

The ever improving Mustangs got one touchdown from their defensive unit when Mike Lee read his keys perfectly and intercepted a Tiger pass back to the weak side on the Tiger 30.

Nothing was going to stop the 175 lb. sophomore line-backer on his journey to the end zone and his TD ran the score to 34-0 with 10:03 to play in the second quarter. Only 7 seconds remained in the first half when the Tigers got on the scoreboard and this was via a 45 yard pass and run from Mike Smith to Dale Killham.

A Tiger blocker took out Dell Ford and Don Brown on a block at the 30 and Killham was loose.

Brown and Ford had put the Mustangs ahead for good on the Mustangs second play from scrimmage as Brown passed to the Wheeler split back and the well covered Ford made a great catch about the 15 and waltzed over.

Jim Verden booted the extra point and the rout was on.

Brown had handled the ball on the Mustangs first two plays and Wheeler had six and then carried the three times on their next possession — and Wheeler was ahead by 14 after Verden's second PAT.

Taking over on the Tiger 30 after a short McLean punt, the Mustangs called on Brown at left tackle and he responded for 21 yards and a first down on the 9.

An offside moved the ball back five but Brown got the 14 yards in two trips with the score coming off a 5 yard smash at left tackle.

Ford got back into the scoring act on the horses third touchdown on a 9 yard run on a trap play. The extra point try never got off the ground and the Mustangs led 20-0 at 0:29 in the first quarter.

Going to the spread formation after Ford's second touchdown, McLean had the ball for only one play. Verden racked up Smith on a pass attempt and separated

Dubbs Relatives Visit

Ancsters of Emanuel Dubbs, first judge of Wheeler County visited Wheeler, Mobeetie and the ranch owned by Dubbs which was purchased prior to the organization of Wheeler County. Mrs. Paul Lantz of Syracuse, Ind. contacted Ester Sorensen by mail and arranged for the October 17 visit by her and her daughter.

Mrs. Lantz is a great niece of

Emanuel Dubbs wanted to visit the area and take pictures to show her mother and aunt. Mrs. Lantz's mother is 85 and had moved from Wheeler County at the age of 6; her aunt is 91 and was 12 years old at the time of the move.

Miss Sorensen asked Sallie Harris to assist in giving the visitors as much of the history of this area as possible. The tour included a tour of "Old Mobeetie", "New Mobeetie", and the "Old Jail".

The afternoon was devoted to a tour of the place which once belonged to Emanuel Dubbs. The estimated 1000 acres was purchased by Dubbs from a squatter, Joe Craig in 1878. Dubbs and his wife, newly wed in 1871, concluded to follow Horace Greelie's advice and move west: they first moved to Kansas where he hunted buffalo until 1874 at which time they moved to the Texas Adobe Walls area and continued hunting buffalo.

One year after settling down on his ranch, Wheeler County was organized and Emanuel Dubbs was elected the first judge. Dubbs presided over what is presently a 26 county area.

Dubbs built their home out of limestone found on the place. Lumber at the time cost from \$255 to \$250 per 1000ft.

The place owned by Dubbs was sold in December of 1906 to P. J. Sorensen. The Sorensen family moved in January in 1907 to the ranch located 8 miles east of Mobeetie on the north bank of Sweetwater Creek. Some member of the Sorensen family operated the ranch for 66 years.

Esther Sorensen managed the operation for 12 years before moving to Wheeler.

Mrs. Lantz and her daughter, Mrs. Linda Connolly of San Antonio were returning to Indiana at the time for their visit.

EAGLE SCOUT: Miles Farnsworth was presented scouting's highest award, the Eagle Scout Award, in a Court of Honor Tuesday, October 26. Farnsworth, a member of Troop 272, began scouting in 1972; has earned Boy Scouts of America merit badges and is a member of the Brotherhood—Order of the Arrow. Farnsworth is the 15-year-old son of Mrs. Charlie Brown of Wheeler and Johnny Farnsworth of Memphis. Approximately 30 people were in attendance. The court was held in the Fellowship Hall of the Methodist Church in Wheeler.

50th Anniver.

The children of Mr. and Mrs. L. D. McCauley will honor their parents with a reception for their 50th Wedding Anniversary Sunday, October 31, 1976 in First United Methodist Church Fellowship Hall in Miami, Texas. The receiving hours will be from 2:00 until 5:00 p.m. L. D. McCauley and Mary Golda Pace were united in marriage October 28, 1926 in College Heights Baptist Church in Abilene, Texas.

All of their friends and relatives are invited to attend.

BLOOD PRESSURE CLINIC

There will be a free Blood Pressure Clinic for all Wheeler County residents regardless of age, Thursday, November 4th. It will take place in the south end of the old Nicholson Memorial Hospital on Canadian Street from 9:30-12:00 a.m.

This clinic is sponsored by the Retired Senior Volunteer Program and the Texas Agriculture Extension Service.

Those needing a ride can call Inez Wright at 826-3239.

Co. Represented At Stock Show

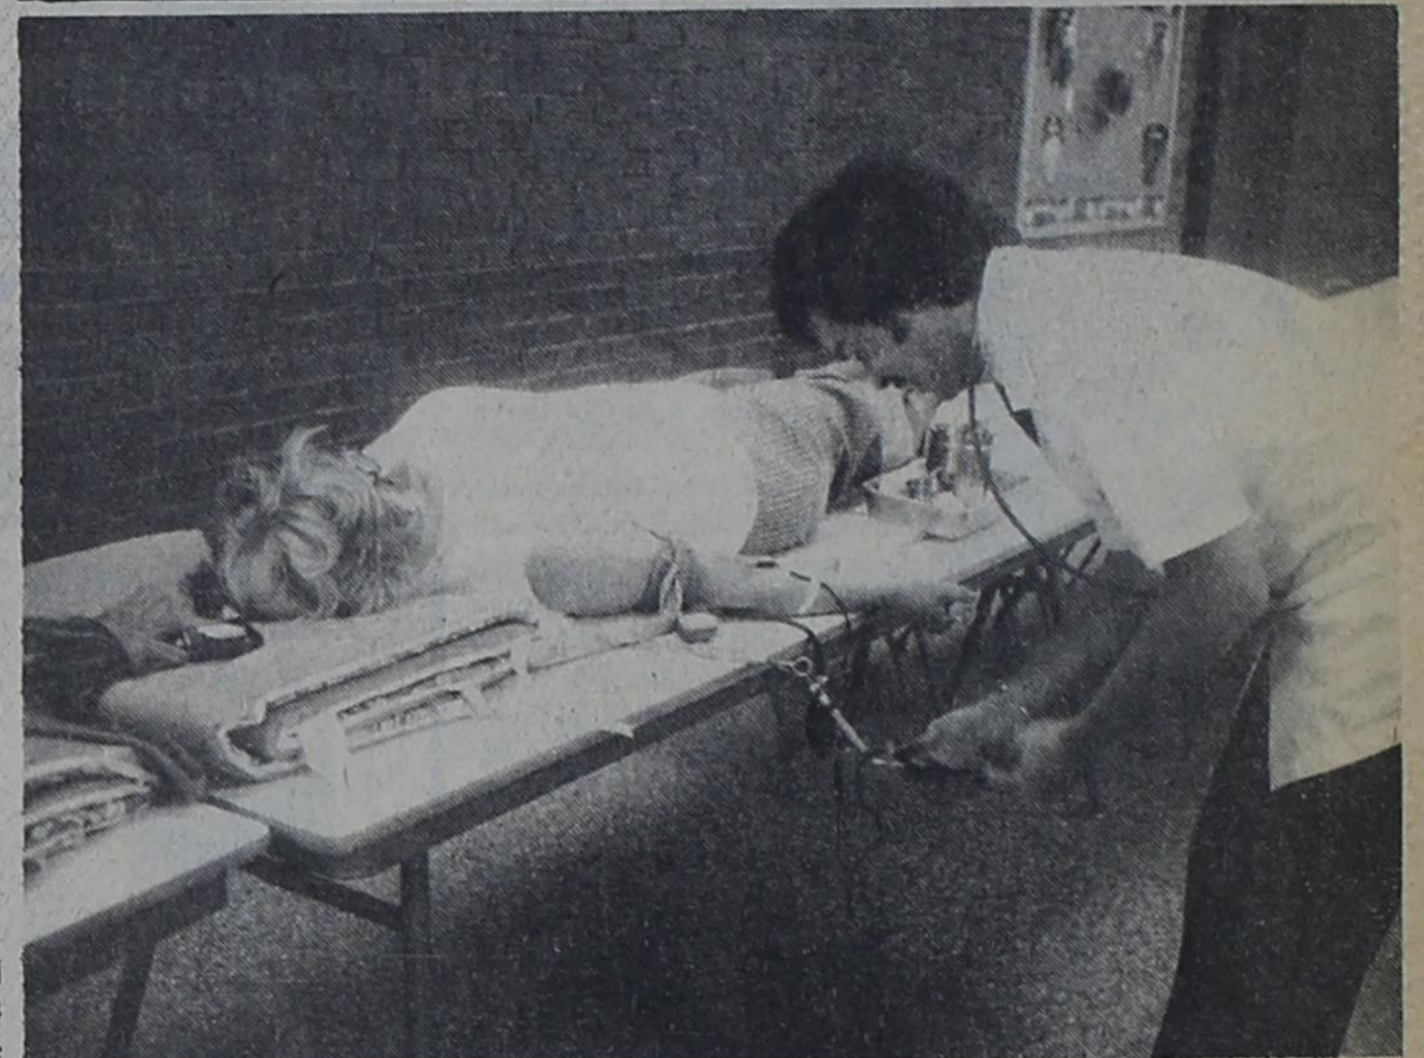

Eight Wheeler County 4-H members exhibited six heifers, three steers and ten barrows in the State Fair of Texas, October 18-23 in Dallas.

Members exhibiting livestock included Dewayne Selby-3 barrows, 1 steer and 2 heifers; Shonda Quarles-3 barrows and 1 steer; Donna Quarles-2 barrows and 1 steer; Dale Hathaway-1 barrow; Wade Hathaway-1 barrow; Ronald Gudget-1 heifer; Shannon Batton-2 heifers and Jamee Batton-1 heifer.

The group did very well with their entries. In the heifer show Shannon Batton had a first place spring yearling Hereford heifer and 9th place senior Polled Hereford heifer; Jamee Batton had a third place spring yearling and Dewayne Selby had a second and 10 place Angus heifers. Dewayne's Angus steer placed 8th in the lightweight class.

There were 626 heifers and 600 steers in the show.

There were more than 900 barrows entered in the State Fair. Dale Hathaway had a 5th place Duroc; Donna Quarles had a 13th place Duroc; Shonda Quarles a 6th place Berkshire, 22nd space spotted Poland China and 11 place Yorkshire and Dewayne Selby had 13 place Duroc and 6th and 13th place Spotted Poland China.

BLOOD DONATIONS: The Thursday Review Club sponsored a blood drive Tuesday, October 26 at the high school cafeteria. The Coffee Memorial Blood

Center provided the services necessary for the drive. The Center also provides blood and blood components to Parkview Hospital. A total of 57 pints of

blood was collected as compared to 47 pints last year. The Thursday Review Club expresses their thanks to those who participated.

Rested Warriors Next Foe For Mustangs

As the old saying goes, "the party's over", and it certainly applies to the Wheeler Mustangs at this stage of their championship chase.

After two breathers the past two weeks, the Mustangs must now face the well rested, talented Miami Warriors Friday at Miami.

Miami needs a win Friday night just as badly as do the Mustangs as they both are virtually tied for the district lead

with only one loss each.

The Warriors led the Groom Tigers until late in the game and two interceptions proved to be their downfall in that game. No one has been able to get a lot of offense going against the Warriors 5-3 defense.

"Miami has a real good football team and they will be a test for our young men but these Mustangs have a lot of character and know that they can be at

least co-champions by winning these last three games and the first one is Friday night," Coach Smith said this week.

Kirk Flowers, 175 lb. halfback has been the Warriors big gun this season but has been hampered by an injury but will probably see action Friday against the Mustangs as the Warriors have had two successive open dates which does wonders for injuries.

Two research doctors, studying the effect of smoking on body reflexes found the reflexes reduced by as much as two-thirds within four minutes after healthy young men began smoking high-nicotine cigarettes. The reflexes usually were not back to normal until 20 minutes after smoking ceased. The obvious conclusion from these U of Michigan tests is that mental and physical reactions are hampered by cigarette smoking. It is good to note that teenage smoking has greatly reduced during recent years.

Child Abuse Is Study Club Topic

The Wednesday Study Club met last week in the home of Esther Sorensen with Mrs. M McIlhane as co-hostess. The very timely program was "Hands Up"—prevention of child abuse.

Mrs. McIlhane directed the program and introduced Mrs. Max Wiley, our local Home-making Instructor. Mrs. Wiley in turn introduced two of her students, Ann McIlhane and Cory Callaway. Ann presented the problems: "Lift a Finger", a film strip by Panhandle Educational Service. Ann prefaced her film by saying, "This film should alert viewers to capabilities within themselves to be child abusers and to seek help before this occurs." She concluded her talk by reading the poem "Heart of a Child". Cory presented a film by J. C. Penney Educational Service on the possible solution: "Parenting: Fathers, Mothers, and Others". Cory said, "Parenting can be described as a relationship between two human beings, whatever their age on relationship—a relationship that influences physical and emotional health."

Mrs. Wiley conducted a group discussion.

Present were: Mrs. Charles Brown, and Mrs. Grainger McIlhane guests and members other than hostesses, Mesdames, R. W. Brown, J. R. Clark, W. A. Finsterwald, Lee Guthrie, Harold Hill, Hoy Hunter, Harold Nash, Harry Wofford, and Lewis Wright. Attractive refreshments of cookies and sherbert, reflecting autumn colors was served.

TODAY'S CHRISTIAN

Lee Henry

One of the most profound problems wrestled with in the Bible is how to reconcile belief in a good God with life's inequities. Psalm 73 carries us on a pilgrimage from faith—into the darkness of doubt and skepticism—and back to faith. "Why is it," the psalmist questions, "that the wicked thrive and the faithful suffer?"

Justice seems to demand the failure of the wicked and the success of the righteous. But it isn't that way. The wicked have no pangs, no struggles, complains the psalmist. Their bodies are sound and sleek. Pride is their necklace; violence their garment. They scoff and speak with malice. Their hearts overflow with follies. Their eyes glisten as they scheme and take advantage of unfortunate persons. He paints their portrait of arrogance: "They set their mouths against the heavens and their tongue struts through the earth." They are indifferent to morality, reflecting a calloused indifference to god. They live as if there is no god: "How can God know?" they ask. "Is there knowledge in the Mst High?"

And what does this get them? If God struck them dead; if the

Progressive Club Opens New Year

The 1976-77 meetings of the Progressive Study Club began with a salad supper in the home of the President, Novella Vampool, on the evening of September 9th. Following the meal the president presented the Club's theme, "Dream Deep—Every Dream Precedes the Goal", which correlates with General Federation, State Federation and Top of Texas District themes. She stressed Emerson's quote "Coming together is beginning; Keeping together is progress" to be guideline for our year of study. She also presided in a business meeting. Opal Armstrong was elected to club membership.

Roll call was answered with—Highlights of the Summer Vacation.

Ruby Lee Sandifer gave a review of the Yearbook. "Our World-Progress Through Vision" is the subject of the year's course of study.

Thirteen members were present.

Brittany Club Sets Field Trials

Trials for Registered Brittany's only will be, Open All Age, Open Derby, Open Limited All Age, Amateur All Age, and Open Puppy.

Entry applications for the Field Trials should be mailed to Mrs. Sara Leverich, 1824 Christine Street, Pampa, Texas. Entries close promptly Wednesday, October 27 at 8 p.m. with drawings immediately following in the Leverich home.

The Judges for the Trial are: Harold Davis, Arlington, Texas, Frank Hanwright, Belen, New Mexico, George Miller, Amarillo and Joe Knittle, Amarillo.

The Field Trial Committee includes, Jim Leverich, Chairman, Sara Leverich, Frank Roach, Dee Nix, T. M. Cox Jr., Dr. Jack Zachery, R. R. Jordan, Hershel Robertson and Bud Higginbotham. Field Trial Marshals will be Dr. Jack Zachery, Bill Hunt, Dee Nix, Sharon Nix and Bud Higginbotham.

Headquarters for the Trial will be the Coronado Inn in Pampa, Texas. Bud Higginbotham is president of the club.

Visitors are welcome to attend the Trial.

Incandescent light bulbs work because an electric current causes a wire to become so hot that it glows.

stock market took a plunge and brought them to poverty; if they were convicted in courts for bribery; if they were reduced to misery—then we could understand. But, instead, these wicked men "are always at ease" and they "increase in riches." They treachery has paid off and the righteous man has been left holding the short end of the stick.

Life is filled with inconsistencies which make no sense when viewed by themselves. But our writer got beyond that. When he met God in the sanctuary he understood.

Truth is perceived when man lifts up his eyes beyond himself to God. It is God alone who sets a man on firm ground. The trials may continue, but the psalmist sees something which gives certainty. "Whom have I in heaven beside thee?" he cries. "There is nothing upon earth that I desire beside thee. My flesh and my heart may fail, but God is the strength of my heart and my portion forever."

Fellowship with God in whose company he has lived, and in whose love all his longings have found their rest, cannot be taken away. Ultimate security is found in a relationship to God.

"For lo, those who are far from thee shall perish; thou dost put an end to those who are false to thee. But for me it is good to be near God; I have made the Lord God my refuge, that I may tell of all thy works" (ps. 73:27-28).

The 4 Big Reasons

Let's Not Send President Ford To Washington Short-Handed. Let's Send More Conservatives With Him.

Out of the 435 Congressmen, 303 are considered Liberal and only 132 are Conservatives. In the Senate it is even worse...73 to 27.

The Liberals are forever trying to pass the "Give-Away Programs," causing President Ford to veto bills. The 14 that were over-ridden will cost the taxpayers billions of dollars. Imagine how much the other 44 would have cost us. Carter said he wouldn't veto.

The eight years Bob Price was in Congress he was considered a staunch conservative with a 92 rating. His opponent is rated a Liberal with a 50 rating.

We have plenty of examples of a one-party system in Europe and other parts of the world. Let's keep a two-party system alive in America by voting for Jerry Ford for President, Alan Steelman for the Senate, and Bob Price for Congress.

ADVANCED AWARDS: Wheeler Troop 272, Boy Scouts of America, held a Court of honor Tuesday evening, October 26. Advanced awards were given to six boys of Troop 272. Receiving Second Class Scout award was Mark Wright. Life awards were presented to Rich Brown, Jeff Christner, Greg Christner and David Wright. Miles Farnsworth was presented the Eagle Scout Award. Pictured above are (l to r): Greg Christner, Rich Brown, Jeff Christner, Mark Wright and David Wright.

Here and There

Laura Guthrie
 Well, we certainly have a lot of fans for the Chicago Bears. Or is it loyalty to a home town boy? I rather suspect it is the latter. Anyway something like 200 Wheeler people drove to Dallas on the weekend to see the Bears and the Cowboys clash. Sorry, though, it seems the Bears were the under dogs.

I've been in Wheeler 46 years. The Ben Trout family has lived on a farm east of town longer than that. But last week was the first time I have had the pleasure of visiting that farm. I, along with about 20 other people were invited out by Ola Underwood, who is, Ben's niece, and makes her home there, to come out for an evening meal. What a meal! Garden's and vegetables, exotic foods like ripe cucumber pickles, green salad which used among other things, raw green peas, cornbread, all topped off with a luscious banana-coconut cake. Ola would want me to make it plain that some of this food was prepared by some of the guests. A four of the house revealed what can be done with a medium sized cottage, tied in with few originally unattached small buildings, a lot of imagination, a carpenter and few nails. The house is rambling and interesting—every person—Ben, his sister, Pet, and Ola, all having their own quarters in the same house, yet all free to use the whole house. We finally settled down to play 88. (A few sneaking to the TV occasionally to check on the base ball game.) It was a great evening for all of us.

Janice Marrs and son of Moore, Oklahoma spent a few days last week with her mother, Ollie Jaco. Lavelle Stevens, another daughter had been her all week. Ollie was released from the hospital and they all attended the dinner spoken of above.

I was delighted to have Morea Bowles, her daughter Kelly Wilcox and son Jeff, visit with me on Sunday afternoon. Morea and Jeff had spent Friday and Saturday with Clara Jaynes. Kelly came for them Sunday. Kelly is manager of the Cut-rote Shoe Store in Pampa. On Sunday night Helen Holloway of Amarillo drove down so as to be in the vicinity for business Monday.

Mrs. Irene Wright has recently returned from an extended trip to visit relatives. Friends, the Shorty Sechrist, took Mrs. Wright to Childress where she took the bus. From there she visited her brother, Elbert Smith in Dallas, her son Tom and Lynda Smith in Houston, a cousin, Mrs. Fayola Romick in Corpus Christi and another brother and wife, R. L. Smith in Many, Louisiana. She was gone six weeks.

Mr. and Mrs. L. S. Ivey have returned from a weeks trip through Tennessee where they visited his relatives.

Drive around town. See what beauty spots you can find. These winter winds will soon destroy them.

Watch the time, or you will be late or early to church next Sunday.

Remember to vote next Tuesday.

Can we afford four more years without effective leadership?

There is a critical decision to be made on November 2nd. It goes far beyond the question of which Presidential candidate can govern with integrity and honesty. We must determine which candidate has the ability and strength to lead our country out of economic chaos, and the vision to see that all Americans—not just the powerful and influential—have a better future.

During the past two years, the middle class has paid far too dear a price for a President lacking that ability. Since Gerald Ford took office, the unemployment rate has risen 50%, from 5.5% or 5 million people, to 7.9% or 7-1/2 million jobless Americans. Today's inflation rate of 6% is higher than it was at any time between the

Korean War and the inauguration of Richard Nixon. The 1968 food dollar is now worth 57c.

Mr. Ford's budget will account for the largest single deficit and more than 1/3 of the public debt incurred during our entire 200-year history. Real GNP has actually declined during each of Gerald Ford's two years in office.

And who is most affected by these distressing statistics? Not the Washington establishment, or the economic elite courted by the Republicans. The burden falls on the person who can least afford it: the average American. Jimmy Carter means to change all that. As President, he will make government responsive to your needs.

Tax Reform: "The average family in this country actually pays a higher proportion of their income in taxes than the average family that makes more than a million dollars a year. That's disgraceful. We need to move toward a truly progressive and simplified tax system, with reduced tax rates for the average American."
Economy: "We'll never have a balanced budget nor an end to the inflationary problems as long as we have 7-1/2 million people out of work. Employment needs to be the major thrust of the whole domestic policy of our government."
Efficiency in Government: "We now have in the

federal government the most bloated, confused, wasteful bureaucracy ever created. There's no way to get an answer out of Washington and no way to understand what's going on there. We need to reorganize completely the executive branch of government, making it fair, efficient, effective, and responsive to our people's needs."
Housing: "No government that cared about our neighborhoods would stack the tax deck against them. A landlord can let a building run down and make a good living on tax breaks. But when a home owner spends a little hard-earned money fixing up his home, the assessor raises his taxes. And the FHA no longer

cares about families getting started in their own homes. I intend to restore the FHA to the time when, for a down payment, a family could get a mortgage which the government would insure."
Health Care: "We need a nationwide health care delivery system which will make adequate health care a right for all people."

Jimmy Carter has the strength to take charge of our government. If you are tired of paying the high price of Republican ineffectiveness, you have only one choice on November 2nd, and that choice is for change.

Vote for JIMMY CARTER. A leader, for a change.

WE ACCEPT FOOD COUPONS

LET'S FACE IT!

These facts and figures may shock you. But when you add them up, they sure help explain the trouble this country is in.

Since 1969, the last seven Republican Administration years, we have been governed by:

A President and a Vice President who were forced to resign;
One appointed President and Two appointed Vice Presidents;

Six Attorneys General; Four Secretaries of Labor;
Five Secretaries of Commerce; Four Secretaries of HEW;
Four Secretaries of Defense; Four Secretaries of Interior;
Four Secretaries of the Treasury; Three Secretaries of HUD;

Add to this, Three C.I.A. Directors; Three F.B.I. Chiefs; Four Directors of the Office of Management and Budget; Four Directors of Energy policy; and we don't know how many top White House aides. More than 50 major changes at the highest levels of our government!

Is it any wonder that we have had wrong policies and more often no policies to deal with our national problems?

Is it any wonder then that we continue in deep recession, high unemployment and record inflation with no end in sight?

Is it any wonder that many people have lost faith in government, feel let down and ripped off?

Perhaps the real wonder is that we have survived at all.

If this nation is to recover from the blows of Richard Nixon and Gerald Ford, and start moving forward again, the instability and mismanagement of two successive Republican administrations must be ended... and a Democratic victory in November is the only sure way.

LINES FROM LINDA

LINDA HORTON—CEA

Children and pets can be best friends, but only if the two friends are suited to each other. Watching pets and caring for them give children a chance to learn more about animals, how they eat, how they sleep and even how they are reproduced. Children are curious beings and can observe and discuss many of the facts of life as they relate to animals and human beings alike. Children are interested in most living things. They enjoy watching growth and changes. In fact, this is the means by which children learn about biology and is the beginning of science study. They also learn that animals and pets have many of the characteristics that they have. What kind of pets are suitable for children? Most preschoolers enjoy watching fish, playing with small warm animals and feeding those that live in water, in a cage or free to run. Children learn from watching birds fly; they learn about swimming by watching ducks and other water fowl; or they learn about slow moving objects such as the turtle. They learn about change and the changes growth brings by

study tadpoles and watching their growth and development. A baby chick, too, makes very rapid changes and teaches a child how to handle small pets that can be held in the palm of the hand. Why do children want pets? Many parents are puzzled about the constant requests of most children for a dog, cat or small animal. By having a pet or being a pet owner, he enjoys the companionship. Children learn to care for the health needs of an animal, such as feeding or changing the environment to a clean environment. When children have a pet, parents should be aware of the necessities that must be provided for caring properly for small animals. A proper shelter, pens that can be cleaned easily and thoroughly, and animals that are sized to fit the needs of the child's age are to be considered. Very young children should observe a small animal from a distance, because they are not mature enough to handle it properly. Children who are four and five years old can better manage a small animal properly. Parents should be alert to the tameness of the animal before giving it to a small child or preschooler. Pets that scratch, bite or claw are harmful to children and may instill a fear of animals in the child. Also, forcing a pet on a child does little for either the child or the pet. Children should have help selecting their pet and be given the responsibility for caring for the pet. Pets are a positive experience when parents use discretion in selecting them.

TOM LORANCE

**Write-In
Tom Lorange
Candidate For
Texas Supreme
Court**

Tom Lorange, Texas Supreme Court "write-in" candidate is the only man in the race who is not playing the "Name Game."

Lorange said: "The real issue is qualification; not a trick name, nor Democrat or Republican, nor conservative or liberal, nor economics or politics."

Lorange was the first to enter the race for the Texas Supreme Court in opposition to Don Yarbrough, the Democratic nominee and only name to appear on the November 2 ballot. Then later, Sam Houston of Denton announced his write-in candidacy. This is when the race became even more of a "Name Game."

Yarbrough's candidacy has been assailed as a result of 17 civil lawsuits against him only one of which has been tried. In that trial a jury found him to have engaged in civil fraud and legal malpractice in a 1975 bank deal. In addition, a State Bar Grievance Committee is presently considering numerous charges against Yarbrough that could result in action from disciplinary measures to disbarment. All of Yarbrough's dealings surfaced shortly after he won the primary election in May, and, when three months went by without anyone stepping forward to oppose him, Lorange decided to conduct a write-in campaign as an independent.

Lorange, senior partner in the law firm of Lorange, Thompson & Wittig, 609 Fannin, Houston, said other attorneys and friends convinced him to run "because I am qualified and someone has to stop Yarbrough."

Sam Houston is a 1966 law graduate of S. M. U and served several years as mayor of Lewisville before being appointed to the district bench in Denton about two years ago. Lorange pointed out that Houston has never appeared before the Texas Supreme Court and has little or no appellate experience to qualify him for the Supreme Court post.

Lorange graduated from the University of Texas Law School in 1949, with honors. For twenty-seven years he has engaged in general trial and appellate law practice before District and Appellate Courts with repeated presentations to our Texas Supreme Court representing Appellants and Appellees, Petitioners and Respondents, in Mandamus matters and as Amicus Curiae. He says he is fully conversant before the Supreme Court and has personal knowledge of the workings of the Court and its function. Lorange said: "I have a personal love for the law and I am an excellent student of the law."

Lorange was born in Vernon, Texas, June 1, 1923 and graduated from high school there, with honors, in 1941. Following this he was a fighter pilot with the United States Air Force in Europe during World War II where he was decorated for valor six times with additional commendations. He attended the University of Texas, both pre-law and law school from 1945 to 1949 on the GI Bill, became Assistant District Attorney in Dallas during 1949 and 1950 following which he has been engaged in the general practice of law throughout the State Texas. His wife is June and they have three grown children and four grandchildren ("all loved and cherished," Lorange says).

Lorange's father was foreman Glen Porter Ranch in the early '50's and has been an acquaintance of the Porters for a number of years.

Marvin Grimes found a huge hole at left guard and went over standing up and then tacked on two more points at the same spot. Leading by the big 34-0 margin, the Mustangs had the expected letdown and this helped McLean to carve out the 88 yard scoring drive as the half drew to a close.

"It is awfully hard to play with a lot of intensity with a lead as big as we had early in the game but I think the kids understand now that you can't let up at all in a game or you will get burned," Coach Smith said.

Grimes sped 36 yards to the end zone, after a clearing block by Kevin Lasley, for Wheeler's final tally and it made no difference to Verden that the Mustangs drew a 15 yard penalty on his first try, he calmly booted it high and far from the 24. Grimes touchdown came at 4:54 in the third period.

NEW ARRIVAL

Highway Improvement Planned

AUSTIN—Bids for two highway improvement projects in Briscoe and Wheeler Counties were to be received at the October 13-14 letting of the State Department of Highways and Public Transportation.

One project includes the widening of a portion of State Highway 86, between the Wheeler County line and the western city limits of Silverton in Briscoe County, from its present 22-foot width to 24 feet with 4-foot paved shoulders.

The project, under the general supervision of District Engineer Lewis H. White of Childress and project engineer Everett H. Monroe of Clarendon, will improve safety standards, and providing a smoother ride for motorists.

The second project calls for the removal of the present inadequate bridge structure at Gageby Creek on US 83 in Wheeler County and replacement with a new bridge at the same location. The project includes new roadway approaches to the bridge.

O. V. Johnson, supervising resident engineer of Wellington, is the department's engineer in charge of the bridge project.

MANAGEMENT TECHNIQUES

We have taken grass for granted for many years. Few early-day stockmen had time to look at their grass and think about its needs. We need to remember that grass is a renewable resource. Grass will respond to a combination of management techniques to help restore lost production. This grass management is more important today than at any other time. This is true because of zooming costs and increase demands on our grass resources.

Ranchers over the last 100 years have managed to remove a large percentage of the best

grass plants. Due to either a lack of understanding or a low priority given grass management, ranges degenerated far below maximum production. Today we must realize the backward trends in our grasslands. We can increase production using the basics of grass management. We need to apply these basics toward a goal of measurable improvements.

The Soil Conservation Service working through the Wheeler County Soil and Water Conservation District will be glad to assist in areas of grass management. Please call or come by the office in Wheeler.

MIAMI from Page 1

Miami uses the wishbone T and a split backfield on offense but run the wishbone somewhat differently than most teams in that there is no triple option.

Wheeler is in good shape for this crucial game with no injuries reported.

Only 32 points have been scored against Miami this year and this compares quite favorably with the 28 points that the Mustangs have given up.

In 70 years, the human heart beats 2 1/2 billion times!
