Hospital For North Part Of County Is Needed

Visions of one of the most vitally needed facilities, a modern hospital for North Wheeler County may still be a far distant dream but steps have been taken by interested persons from Allison, Mobeetie, Eriscoe, Kelton and Wheeler to make the needed institution a reality.

Recently a group of local men met with residents of each of the neighboring communities and explained that they should meet within their community and elect a committee of three with an alternate member to represent their community. It is the committee's duty to present any problems, ideas, or suggestions (pro or con) during the planning stages of the project.

Thursday night a group of men elected as representatives from their respective communities met to express their desires, hopes and beliefs that the hospital can be added as a necessary part of the progress of this area.

After much careful study of the Constitutional Amendment passed during the past session of the Legislature the prospects are very encouraging for a Hospital District to be located in Precincts 1 and 2 in (north) Wheeler County.

The primary purpose of the meeting Thursday night was not only to determine if there was enough interest in the outlying communities to help support a hospital but also to prepare information for a suggested legislative bill. The results were most gratifying.

It is an accepted fact that Wheeler alone cannot support a hospital. It will take the interest, aspirations and support of the communities in north Wheeler County to make it available for everyone.

If and when the necessary legislation has created a Hospital District in Precincts 1 and 2 the qualified voters in these precincts will have to ratify the district as designated and leaders for the district, to be known as members of the Board of Directors, will be elected by the qualified voters in the precincts.

One director will be elected from each school district lying within the designated hospital district with a total of five directors. The next step would be to vote bonds to finance the project. No exact amount has been determined at this time, but they have the approximate figure.

Below is a list of the men selected to represent the different communities: Allison: Bruce Harrison, Rex Miller and R. P. Grayson; Kelton: Leonard Rathjen, Joe Henderson and David Britt; Mobeetie: N. J. Tyson, Grady Harris, Woodford Williams and Charles Uzzle, Alternate; Eriscoe: Clarence Zybach, Grady Dodd, Herbert Finsterwald and Lee Barry, Alternate;

Wheeler: Hyland Weaver, A. L. Hibler, T. J. Daughtry.
Tom Britt was selected as chairman for the group and presided at the Thursday night meeting.

Funny how a rumor will get to blowing around all over the place. Just a few days ago a feller told me of a friend that had passed away and I ask him if he wuz positive of it and he assured me he wuz. I struck out for the Barber Shop and spread the rumor and nearly everybody I met mentioned the rumor. Two or three days later I heard different and went to the friends family and apologized for spreain the untruth.

Since the problem happened the other day I have made special point of tryin to know what I wuz talkin about fore I spouted off and you know what I have a devil of a lot less to talk about. Next time you hear some gossip try and find out wheer it come from and I bet you a tumble weed that half you hear is just an untrue Rumor.

Happy 1963 to everybody.

planning to do some more terracing in the near future. Also a terrace system was completed on the G. B. Sloss farm east of Shamrock.

Construction has been started on terraces for H. B. Krug. When these are complete his entire terrace system will be installed. Terraces were staked on the P. M. Skaggs farm north west of Mobeetie.

This is the time of year that farmers need to start doing their engineering type conservation practices such as terracing, diversions, etc. The crops are all just about completed and it is a good time to install these practices.

Mr. and Mrs. W. M. Green of Houston visited her parents, Mr. and Mrs. R. T. Watts during the Christmas holidays.

Mr. and Mrs. Floyd Rowell of Amherst visited her brother Mr. and Mrs. R. T. Watts over the weekend.

Income tax filing time is fast approaching again regardless of whether we are ready or not. Even though record keeping is a never ending process, there is no substitute for an adequately kept set of records when a tax return is filed.

Thirty-seven Wheeler County residents attended the income tax school that was held in December in the courthouse. James Murphy, Area Farm Management Specialist for the extension service, presided at the meeting, and he did a fine job of explaining the new tax changes. He was also able to answer the many questions that the ones in attendance asked.

One of the most important changes that most people will be interested in is the legislation that was passed during the last session of Congress concerning depreciation and tax credit on certain types of assets used in farm and ranch operations as well as other businesses.

The investment credit provision is a tax credit of 7 percent, computed on the purchase or investment in depreciable, personal property during 1962 and thereafter. Livestock, including race horses, are excluded from the list of eligible items. The credit is given only for the tax-year in which the business asset is acquired and includes such items as tractors, combines, trucks, cotton harvesters and new fences.

Here is an example of how the investment credit provision works.

Assume a tractor is purchased in November 1962 for \$5,000 with no trade-in. The useful life of the asset determines the amount of tax credit allowed. If the tractor is set up on a life of 8 years, a full 7 percent of the purchase price of \$350 is credited on the tax due from a taxpayer for 1962 business operations. If the asset has a determined life of 5 years, only a third of this amount is allowed as a tax credit. Assets having 6 or 7 year life entitle the purchaser to two-thirds of the \$350 tax credit.

Used equipment items get the tax credit, too, but are reported separate from new assets. In case of 'trade-ins', the portion of the purchase price eligible for tax credit is compulsory differently on new and used equipment.

Because this provision is new some taxpayers may overlook the requirement that the tax credit is compulsory on eligible assets. The basis or remaining cost for depreciation purposes must be reduced by the credit taken. If the taxpayer fails to take the credit for items purchased in 1962, he simply loses the amount involved and it cannot be recovered in future years. All farmers are urged to get a copy of the 1963 Farmers Tax Guide at the office of county agents or Internal Revenue when it is available. We have been notified that the new guide will be late this year, but I will notify Wheeler County residents as soon as the guide is received in the county agent's office.

NEWS & VIEWS

By J. Loyd Rice

Whew! WHAT A HANGOVER, we have been living in fairyland atmosphere for about a month, now we come face to face with taxes. Where did all the money go? Now we have income taxes. Then there is Social Security, gasoline, excise, property, and Texas Sales Tax.

Besides taxes there is the little matter of some bills to be paid. HOW? The light bill, the gas bill, the water bill, the sewage bill, the garbage bill, the gasoline bill, the drug bill and some drygoods and groceries. I nearly forgot the feed bill for the horses and cows. WHEW!

Reminds me of Edgar Allen Poe's poem about THE BELLS. Why don't I write a poem about bills? The chorus would be bills, bills, bills, bills.

The holiday season is over. We have had our fun and our fling. Now it is back to the salt mines, whatever that is. It may be office, shop or school, but it is all work.

What of this New Year?

Now it is time for each one of us to get a picture clearly in mind as to what we want to do and be this year. Once the picture is there keep it clear and strong constantly. Have an unshaken faith that it will come to pass in life, by the grace of God.

Mr. and Mrs. Bill Rives and boys of Shreveport, La., visited with Thurman Rives and family over the weekend.

BIG DIPPER

This dipper, big as a two-car garage, is the business end of the world's largest mechanical shovel designed to uncover coal deposits in western Kentucky at the rate of 9,000 tons a day—enough to heat 7,500 homes for a month! Made possible by modern high-strength steels in critical parts, this 20-story monster, built by Bucyrus-Erie for the Peabody Coal Company, stands 90 feet higher than the Statue of Liberty. It is the largest mobile land vehicle ever built and has a capacity twice that of the 77 mechanical shovels used to excavate the Panama Canal.

MOVIE REVIEW

By Laura Guthrie

GREETINGS to every one who might be interested enough to read this Column. Best wishes to You. "FEUDIN' FUSSIN' AND FIGHTIN'" opens our new year of movie presentations. But it's all in fun. Any show that carries names like Marjorie Main, Donald O'Connor and Percy Kilbride must be one that is good for everybody. And as a New Year's favor to every citizen of North Wheeler County I would like to recommend that you spend about 105 minutes of Saturday evening at the local Movie House. 'Twould be an excellent way to start the New Year.

Here they come again—Doris Day and Cary Grant, I mean—in just about the gayest junket that ever sailed to Bermuda. (The Island's Chamber of Commerce should pay for the scenes that are on the screen) THAT TOUCH OF MINK has unconditional approval of everybody that wants a real evening of fun. It is about the most hilarious bit of motion picture that can be found. It probably top "Pillow Talk", "Operation Petticoat" and all the other Doris Day vehicles. This movie has icing on it, added by those funny people, Gig Young and Aubrey Meadows. Rating: Excellent.

Mr. and Mrs. Clyde Johnson spent Monday night in Miami with their children, The Calvin Wainwrights.

Black & Gold Diary

Hooray! School has started once again. I had a wonderful vacation, but am glad to be back in the harness.

Sorry to hear of Bobby Ely's illness. Hope he is back in school soon.

Connie Farmer and Bill Pierce were ill during the holidays.

Kelley looks very attractive with her new glasses. Her watch from Santa is a beaut, too.

Richard Parks may have sustained a lifelong wrist injury when he slipped and fell in the shower. Sounds suspicious to me.

Valois Blevins is moving. Regret to see her leave dear old WHS.

Carol Lamb was seen with her Santa Claus who doubles as a student at Texas University—charming couple.

Mr. and Mrs. E. D. Greenhill of Shamrock, Mr. and Mrs. Jerry Mounce and Teresa of McLean and Mrs. F. R. Hopkins, Debbie and Ken of Fort Worth spent New Year's Day with Mr. and Mrs. W. E. Burke.

Mr. and Mrs. W. E. Burke spent Monday in Pampa also visited Mr. and Mrs. George Higgins.

Mr. and Mrs. J. B. Oglesby went to Amarillo Friday to take their granddaughter home.

Wayne Hill, Bill Green, James Williams, Kenneth Farris, Nancy Whitener, Marshall Watson, G. C. Baker, Kenneth McCasland, Kitty Hiller, Larry Levitt, and Richard Hampton are some of the college students I "howled" with during the holidays. It is always nice to have former students back again.

Wheeler can be proud of its college representation.

Heard rumors of "Husa Day" which sounds like loads of fun.

Hope everyone joins and has a ball.

Seniors are having a theatre party at Pampa tonight. Have fun, kids and think of the underclassmen at home doing home work.

And speaking of homework, the teachers unload on us, so guess I let'er get with it.

So goodnight,

Christmas Eve was a happy time in the Jim Selby home where relatives gathered for a buffet supper and gift exchange from the Christmas tree.

Those present were: Mrs. Susan L. Murrell, Mrs. Ethel Herd, Mr. and Mrs. Johnny Murrell, Judy Nancy and Johnny Carl of Pampa, Tex., Mr. and Mrs. Jimmy Selby and Kathleen of Mobeetie.

Laura and Corky Guthrie spent the Christmas holidays visiting relatives at Ruidosa, N.M.

ALL ABOUT YOUR SCHOOL

By Arling Cordell
Wheeler Schools

One of the best things about holidays is getting back to work. We are looking forward to a happy and prosperous New Year for everyone.

Mid-term tests will be given Jan. 17-18. Students will need to use every resource at their command in order to make good marks. Intensive reviews are in order and this takes much time. It should not be done on a "crash" basis, but over a long period of time. Each pupil needs to set aside at least two hours per day for study.

Our teams are in the Canadian tournament this week and we are expecting some fine games.

It was good to see and visit with so many of our young college men and women that were home for the holidays. It seems to me that they are having difficulties in one main area, English. This is not only their trouble, but is a national problem.

The ability to read, to write, to speak, and to listen—these are the fundamentals of everything that we do and can never be made easy for our youth.

Only by hard intense effort can our pupils learn the Language Arts. It is only when we—pupils, parents and teachers—realize that this complex subject requires the very best that we can give in time energy and cooperation that this area can be improved.

Parents, keep a close contact with your children's progress. Help us to help them to do their very best.

Fore! Er...that is 3/2
