By T. E. JORDAN

## 7 Acre Lease With \$900,000 Value in Deal

### Record Price Paid For 137 Acre Property

George Henshaw Buys Interest of McGinley and Sigler in 137 Acre Tract

Value Of \$900,000

George Henshaw Buys Interest of McGinley and Sigler in 137 Acre Tract

By S. F. BALENTINE  
NEW DRUMRIGHT, Glasscock County, Texas, Sept. 13.—It is reported here today by Lonnie Glasscock that George Henshaw has purchased the McGinley Sigler interest in the 137 acres on which the Henshaw discovery well in the western area, was drilled for a reported valuation of \$900,000 for the property. This is a record price for an oil property in the Howard-Glasscock field, being about \$7000 an acre.

The geography of this property is: the west 100 acres of the northwest quarter and the west 37 acres of the northeast quarter of section 6, block 32-2 South, Section 6 in a short section. Between the 100 acre tract on which the well is located and the 37 acre tract is a 20 acre strip owned by Dave Smith of Midland.

George Henshaw was the original owner and had drilled the well to a depth of 1906 feet when shut down last year. He later sold a nineteen-thirty second interest to McGinley and Sigler. The deal Henshaw made with McGinley and Sigler required them to complete the well to 3200 feet or commercial production. On the morning of August 4 the well came in from a pay found at a depth of 2206-10 ft. and the first 12 hours the production gauged 860 barrels flowing naturally. This was the first producer of the gusher type found in the Howard-Glasscock area and it created a great deal of excitement.

Henshaw Owners 30-33  
Before the purchase last evening of the McGinley Sigler interest by Henshaw the ownership of the property was divided as follows: George Henshaw 10-32, McGinley-Sigler 19-32 and 3-32 owned by other interests. On a valuation of \$900,000 on which the deal was reported made, places a valuation of about \$30,000 on a 1-32 interest.

The lime was found higher in this well than any that has been drilled in the field. The surface elevation is reported as 2707 feet and the lime topped at 1950 feet. The geologists are carrying the dolomite lime at 2001 feet from a sample. This test had a showing of oil at 1200 feet and another at 1800 feet, with the producing horizon topped at 2208 feet. The oil is better than 32 gravity with very little sulphur.

High Prices Paid  
The Henshaw test extended the field three miles west in the time pay and on the strength of its showing several important lease transactions were made. The California Company paid \$800 an acre for the northwest quarter of section 3 same block half cash and half oil payment. The Louisiana Oil and Refining Company paid the same price for the northeast quarter of the same section of which half was reported cash with an immediate drilling obligation. The Taylor-Link Oil Company of San Angelo paid \$1250 an acre for 80 acres joining the Henshaw tract on the north of which \$1,000 an acre was in cash and the balance in oil payment. The Taylor-Link people are now drilling below 1000 feet on their test. Several important royalty deals were made ranging as high as \$400 an acre base.

The 37 acres now owned by Henshaw was given as a bonus by the Texas Oil and Land Company to have the well completed from the depth of 1906 feet at which depth the well shut down last year after failing to find commercial production in the shallow horizons. The finding of this production in the Henshaw has added several million dollars of potential value to the Texas holdings.

It Pays To Advertise  
One citizen who tried a four line want ad in the Daily Herald is willing to admit it pays to advertise in the daily. Within a short time after the paper was out he had fourteen answers to his ad.

Mrs. C. E. Talbot is on the slow list this week.

### Seeking Greater Water Supply

While Big Spring has a water supply and a source of supply adequate to meet the needs of a city double the present size of Big Spring, the City Commissioners are making out plans for a much greater supply. Every dependable source of supply in a radius of fifty miles is being investigated.

The city of Big Spring and the T. and P. Ry. each have a crew of men conducting a joint survey, near Moss Springs for the purpose of determining the feasibility of damming up Moss Springs for a permanent city water supply. The rapid growth of the city of Big Spring has increased the demand for water and the city is looking forward to a surface lake as a solution to its future water needs.

### Gets One Year On Whiskey Charge

Homer H. Shaw tried in district court Wednesday on a charge of possession and transportation of intoxicating liquor was found guilty by a jury and his sentence placed at one year in the penitentiary.

Shaw is alleged to have been the owner of the Cadillac car loaded with alcohol and whiskey captured by Sheriff House and deputies after a twelve mile race.

### Negro Bootlegger Jury Is Unable To Agree

In the trial of Cleve Blair, negro charged with selling intoxicating liquor on trial in District Court Wednesday, the jury was unable to agree upon a verdict and was dismissed.

### Airplane 'Columbia' In Air Race

TULSA Okla. Sept. 13. (AP)—Charles Levine's monoplane the "Columbia" flew over Tulsa this morning in the non-stop Trans-Continental air race.

Levine was undecided up to the last minute as to whether or not he would enter the "Columbia."

### The Meriwether Test

They are drilling near the 3865 foot mark in the Meriwether oil test on the McDowell ranch, 20 miles south of Big Spring. The formation is very hard and so far no favorable indications have been picked up the past few days.

### Andrew County Test

The Deep Rock test in section 12, block A 46 public school land in Andrews County is shut down awaiting engine repairs. The oil was increasing the deeper they drilled when a shutdown was necessary.

Mike Michaelopolos of San Angelo was looking things over here today and was predicting that the old town was due to make a continued growth.

Big Spring is taking some real strides toward becoming a real city. More White Way street lights will be installed; five new traffic lights are to be purchased; a time parking law will be put into effect on September 20. More paving is being laid, a sanitary officer will work in Big Spring. A public health nurse is here giving her services to our community—these are the things that make us believe that Big Spring is taking on a real city.

### RAIL WAGE PARLEY WILL BE RESUMED

By United Press.  
CHICAGO, Sept. 12.—Representatives of the Order of Railway Conductors and the Brotherhood of Railway Trainmen, announced their wage parley with operators of 55 Western roads, would be renewed today.

The contesting parties had failed to reach an agreement late yesterday. The 70,000 trainmen affected by the meeting have voted to strike if mediation efforts fail.

Mrs. John Clarke returned last night from a month's visit with relatives and friends in Austin, Dallas and Frederickburg.

Herald want ads get results.

### Four Planes May Complete Non-Stop Race

ROOSEVELT FIELD, N. Y., Sept. 13 (AP)—Four airplanes of the nine which roared into the air at the start of the 2500 mile non-stop coast to coast air race are believed to be still winging their way toward Los Angeles this afternoon. Four of the nine planes were forced down and the fifth returned to Roosevelt Field.

Nick Mamer of Spokane, Wash., who was forced down near Rawlins, Wyo. this morning sent a message to his wife that he was uninjured.

### Public Health Nurse Inspects Co. School

Thirty Seven Pupils Inspected; 23 Found To Have One Defect Or More; 10 Are Underweight

The Midway School was the first school in the county to be inspected by the public health nurse, Miss Iva Jane Lytle of the State Department of Health.

Thirty-seven pupils of the school were inspected and twenty-three were found to have one or more defects.

Defects were as follows: 10 pupils or 10 per cent or more were found to be underweight. 5 pupils with defective vision. 8 with enlarged tonsils. 9 mouth breathers. 9 with one or more decayed teeth. 6 with poor posture. 4 with infected eyelids. 1 with enlarged glands of the neck.

A comparative study of the physical defects will be given when the other schools are inspected. There is an evident need of corrections being made. A county school will be inspected each week during the month.

The interest shown by the teachers is splendid and it is hoped that a definite health program will be carried on in each school.

### Seven Persons Killed 1 Injured in Wreck

GARY, Ind., Sept. 13. (AP)—Seven persons were killed and another injured, probably fatally, when a Grand Trunk freight train struck their automobile at a grade crossing here today. The party was enroute to Flint, Mich.

### Dies Upon Return From Meet in Dallas

SULPHUR SPRINGS, Tex., Sept. 13 (AP)—Within fifteen minutes after his return from a meeting of presiding elders in Dallas last night, Rev. H. M. Timmons, died at his home here, presumably from acute indigestion.

### Bomb Explodes Wrecks Apartment

CHICAGO, Ill., Sept. 13. (AP)—A bomb exploded here today near Rogers Park, wrecking the rear of an apartment building and jarring many persons from their beds. No one was seriously injured from the jolt. Rent troubles, tenants said, might have furnished the motive for the bombing.

### RECONCILIATION

NEW YORK, Sept. 13 (AP)—The Daily News in a copyrighted article today said that Clarence Mackay, Postal Telegraph head and his daughter, Mrs. Irving Berlin, wife of the song writer, have been reconciled. The reconciliation, the Daily News says, came beside the bier of Mrs. Marie Louise Hungerford Mackay, mother of Mr. Mackay at the Mackay home at Roslyn, Long Island, and was a fulfillment of Mrs. Mackay's deathbed wish.

### AMERICAN IS HELD BY MEXICAN THUGS

WASHINGTON, SEPT. 12. (AP)—American Consul Lowry at Guadalajara, Mexico, telegraphed the state department today that E. J. Bumsted of Los Angeles, manager of the Humboldt mine, captured and held for ransom by Mexican bandits Aug. 27, was alive on Sunday according to information received there.

Lowry said the bandits still were holding out for the full ransom, \$20,000 sent to Ixtian Del Rio, Nayarit, yesterday, and it was expected Bumsted's release would be secured soon.

### Three Youths Held Without Bail for Murder

EASTLAND, Texas Sept. 13 (AP)—Two charges of murder, two charges of burglary and one of theft over fifty dollars, one charge of robbery with firearms stand today against each of three youths arrested yesterday in connection with the slaying of Lucius and Leon Shook near Leray last Friday.

Their cases will be submitted to the grand jury. The trio held in the county jail here without bond are Clyde Thomson aged eighteen, Thomas Davis, aged seventeen and Woodrow Wilson Davis aged twelve. Normal charges were filed against them at Cisco last night.

### P. T. A. Executive Board Holds Meeting

The new president of the Central Ward P. T. A., Mrs. J. M. Fisher, proved her efficiency and forethought by calling a meeting of her executive board on Wednesday afternoon at 3 o'clock. The work for the coming year was discussed and planned with special emphasis being placed on the membership, it being the desire to have every patron of the school to enroll as a member.

The opening meeting of the Central Ward P. T. A. will be held at the Central Ward School Friday morning, September 21st. After a brief business session, there will be a social and get-together hour at which time parents and teachers may meet each other and start an acquaintanceship which it is hoped will grow into friendship and cooperation.

### Kill Guard At New York Hospital

NEW YORK, Sept. 13 (AP)—An unidentified man armed with a sawed off shot gun today shot and killed patrolman Jeremiah Brosnan, who had been detailed as a guard in the prison ward of Fordham hospital. The slayer was accompanied by two other men escaped to the street. The lone prisoner in the ward did not escape.

### Big Spring To Have New Weekly Paper

Publication of the West Texas, a weekly newspaper in Big Spring will be started next Thursday, according to Vinson Ervin who is to be associated with the new paper. Ervin is the son of the late W. V. Ervin, pioneer newspaper man of West Texas, who for more than 20 years published the Big Spring Enterprise. He is experienced in both daily and weekly newspaper work, and also has a reputation as a writer of more than ordinary ability.

We understand that the paper is to be printed in Stanton—Abilene News-Reporter.

### Can You Furnish A Car Tomorrow

The football boys are coming home from camp tomorrow. Can you furnish a car and go up and bring some of them back to Big Spring? Several cars are needed, and to date only one person has offered to go to Post and get some of the football players. Who will be next?

The boys are up there and have to get home. It would cast a pretty bad reflection upon the public spiritedness of the Big Spring citizens for our boys to have to hit the highway and bum rides back home. From the way things look now, that is exactly what they are going to be forced to do unless some one offers to go up and get them tomorrow.

Phone Dr. W. B. Hardy at 281 or Alfred Collins at Collins Bros. Drugs that you will take your car. Your cooperation in this instance will certainly be appreciated.

### SWEETWATER OIL AND REFINING CO. SUELED BY STATE

AUSTIN, Sept. 12. (AP)—The state has brought suit in district court here against the Sweetwater Oil and Refining corporation to recover gasoline taxes amounting to more than \$5,000 David J. Pickle, assistant attorney general, said today.

### BIG SPRING DELPHIAN WILL MEET TOMORROW A. P. T.

The Big Spring Delphian chapter will meet in the home of Mrs. LeVie Dahme tomorrow afternoon at 4 o'clock, in a business and social meeting.

Al LeMond of Hall Center nephew of Mrs. N. W. McCleskey spent the night in this city last night, enroute to Austin where he is planning to enter State University.

F. H. Meskimen of the Radford Grocery Co. had gone to Pecos, where he will be connected with the Radford Grocery Company at that place.

### State Highway Officials Coming To Talk Roads

Judge W. R. Ely of Abilene member of the State Highway Commission will be in Big Spring tomorrow to discuss with the citizenship a plan for a connected system of paved highways in Howard County.

The meeting has been planned for the noon hour and from 75 to 100 citizens are expected to be present.

### \$155,000 Damage Fire Destroys Store

LAMPASAS, Tex., Sept. 13. (AP)—One of the most costly fires in the history of Lampasas occurred last night. Fire destroyed the store of Higdon Senterfitt & Andrews Company, one of the largest wholesale and retail grocery and dry goods stores in this section. The loss is estimated as \$155,000.

### Oil Man Falls 55 Stories; Dies

OKLAHOMA CITY, Sept. 13 (AP)—Carl Clark well known Tulsa oil operator was killed by a fall from the fifth story window of an Oklahoma City hotel today.

Walter Benson, coroner, who held the inquest said the fall was accidental.

### Dr. C. C. Seelman To Preach Sunday

Dr. C. C. Seelman, president of Southern Methodist University of Dallas will fill the pulpit at the First Methodist Church in this city at the 11 o'clock hour of worship Sunday morning, September 16.

Dr. Seelman is a preacher with a message that strikes at the heart strings and he has a fine sermon for the Big Spring Methodists Sunday morning.

It is hoped that a large audience will attend these services. A warm welcome awaits all.

### Piggly Wiggly No. 2 To Be Opened Soon

Frank Pool and Associates Secure Location For Store No. 2 In The North Part Of City

### Big Opening Planned

Fixtures For New Store Received And Will Be Ready For Business Within Ten Days

The Piggly Wiggly method of enabling folks to purchase high class groceries for less money has proved so popular with the citizens of Howard county that Frank Pool has made arrangements to open a Piggly Wiggly Store No. 2.

A building on the East side of the Big Spring-Lamesa highway, just opposite Rueckart Bros. garage, in the north part of the city, has been secured and is now being remodeled to make a neat and attractive home for Piggly Wiggly No. 2.

The fixtures were unloaded here Wednesday, so all arrangements should be completed for the opening of this store within the next ten days.

Watch for the announcement of the big opening event which will appear in the daily and weekly Herald.

### Funeral Services For R. E. Lee Held This Morning

Funeral services for Robert Earl, "Bud" Lee, 25 years, who was claimed by death at 12:40 o'clock Wednesday morning, were held at 10:30 o'clock this morning at the First Methodist church. Rev. W. G. Bailey, pastor, officiating. The remains were laid to rest in the Mt. Olive cemetery.

### Rev Bailey Entertains Stewards

One of the most thoroughly delightful and beautifully planned affairs of the week was extended by Rev. W. G. Bailey pastor of the First Methodist church to the Board of Stewards of the First Methodist Church and their wives last evening in the parlors of the church.

A real banquet was given by Rev. and Mrs. Bailey, and it was a feast fit for kings. The main course consisted of turkey and dressing and all the other good things that go with it, topped off with a delicious ice course.

Following the banquet the stewards held their meeting. Each one turned in his report. Reverend Bailey promised to give the steward a present who had collected the most money for this semester. C. T. Watson won the premium, which was a handsome clock. Mrs. Bailey, in a few well chosen words presented the clock to Mr. Watson.

The meeting was a most enthusiastic one and was attended by thirty people.

It was decided that after this year's conference which will be held in Lubbock the week of November 21st, the stewards will formulate some plan whereby all of the money can be raised at one time to pay off the indebtedness of the church.

All of the stewards attended this delightful banquet except C. E. Talbot who absented himself on account of the illness of Mrs. Talbot.

### EXPLOSION KILLS 5 ON STEAMER

SOUTHPORT, N. C. Sept. 12. AP—Five seamen were killed and four others injured in an explosion at sea today on the tank steamer Shreveport, bound from Philadelphia to Gulf Ports, off Frying Pan shoals near here. Twenty nine survivors were rescued by the Spanish steamer Aldecoa and brought to the quarantine station here.

The two sons of Mr. and Mrs. Russell Harris who underwent operations for the removal of their adenoids and tonsils this morning are reported to be getting along nicely.

Mrs. Grace Sullivan Moore left this morning to visit friends in San Angelo.

Herald want ads get results.

### Youth Admits Killing 2 Near Breckenridge

EASTLAND, Sept. 12.—Clyde Thompson, 17, who resides in the community where the bodies of Lucion and Leon Shook, brothers, were found dead early Tuesday, was spirited out of Eastland today to escape possible mob violence after he had signed a complete statement in which he admitted shooting the two young men and beating them over the head with a pistol.

Young Thompson declared that after inducing Woodrow and Thomas Davis, aged 14 and 18 years, to accompany him to the hut of Lucion Shook on a lonely oil lease near Leray he was surprised to find the two in the house. The elder Shook told Thompson to accompany him to Thompson's father's place and recover for him a banjo and shotgun which Thompson admitted having stolen from the Shook hut, said the statement.

When the three had walked a short distance from the hut Thompson shot both brothers with a pistol he had taken from the Davis boy's father's home he said.

### Another Airplane Forced Down In Non-Stop Race

DECATUR, Ind., Sept. 13 (AP)—Colonel William Thaw and Captain John Morris of Pittsburg piloting a plane in the non-stop Trans-Continental Air Race were forced down near here at 12:30 o'clock this morning by a broken oil line.

Col. Thaw suffered a dislocated hip and both were badly bruised. They were unable to stomp and and laid in the wreckage until found by rescuers at 8 o'clock this morning.

### Work Of H. W. Caylor Local Artist Exhibited

Several works of art of H. W. Caylor, local artist will be on exhibition at the West Texas Fair in Abilene, Texas during the week of September 24, according to an announcement appearing in today's Abilene Reporter News. Following is the clipping.

Four exhibit loans of unusual value and beauty are to be found in the art department during the West Texas Fair, according to an announcement made Wednesday by Mrs. Lawrence A. Wall chairman of the department.

The work of the four artists H. W. Caylor of Big Spring, Grace Foster of Greenville, Adele Brunet of Dallas and New York and of Mrs. A. E. Poole of Abilene, will not be in the group competing for prizes.

Miss Foster, who has studied in Nashville and with other Southern teachers of note, is to visit a sister in Abilene and will personally be in charge of her group of paintings.

Mrs. A. E. Poole who has just returned from Santa Fe, New Mexico, where she has devoted the summer to study and work in an artist's colony near there, will complete paintings of New Mexico scenes in time to exhibit them at the fair.

H. W. Caylor of Big Spring, nationally known as a painter of ranch and West Texas scenes, will also be at the fair, and will have several of his new paintings on exhibit.

Another interesting group will include the work of Miss Brunet, who specializes in still life and portraiture.

### Fast Train Runs Thru Open Switch

DETROIT, Sept. 13 (AP)—Scores of passengers were badly shaken up and fireman John R. Baker of Toledo was severely injured today when the "Red Arrow" crack Pennsylvania passenger train enroute from New York to Detroit, ran through an open switch at Lincoln Park and crashed into a string of loaded freight cars.

Officials of the railroad said they were seeking the switchman, who had disappeared, as the man responsible for the crash.

Mrs. Grace Sullivan Moore left this morning to visit friends in San Angelo.

Herald want ads get results.

### Contract Block First Street

Dan Moody Is For Al Smith

Governor Comes Out Unsurprised for Ticket of Party... DALLAS, Sept. 12. (AP)—Governor Moody placed himself on record tonight as unequivocally in favor of the presidential candidacy of Governor Smith and the Democratic party's national and state tickets.

"I never intend to backstep on prohibition," Moody said. "I opposed the nomination of Smith before the national convention, but I accept the decision of the majority and feel it my duty to vote for Smith."

"The record of the Democratic party has been one of service. The record of the Republican party has been one of corruption in high places. Hope of enforcement of the prohibition laws lies with the Democratic party, not outside of it, and I hold it in my duty to support the nominees of that party."

Mr. Moody made his "loyalty" declaration in accepting formally the nomination for re-election before the state Democratic convention, in session here.

Loud and prolonged applause followed. The ostensible purpose of this, the second party convention in the state this year, was to adopt a platform.

Sanitary Officer To Be Employed By The City

In order to safeguard the health of the citizens and insure the observance of sanitary measures, the city has decided to employ a full-time sanitary officer.

This officer will give particular attention to the enforcement of a milk ordinance and the inspection of all meats offered for sale.

All restaurants, confectioneries and other places handling food will be inspected regularly to see that all state sanitary laws are being complied with.

Building Side Tracks For Refineries

More side-tracks are being erected three miles east of Big Spring to accommodate the three refineries to be erected and the fuel farm of the Texas and Pacific railroad.

Dist. Home Dem. Agent Visits Here

Miss Helen E. Swift, district home demonstration agent, from the Extension Department at College Station was a business visitor in the city today.

Football Squad Is More Like College Team

Heavy Tonnage For Big Spring High 11; Well Trained Muscles Brains Power, Experience

Eleven Old Men

Coach Bill Stevens Yet To Choose Quarterback Squad Will Return Friday

TWO DRAWS, September 11.—The average for the squad this year will be between 185 and 190 pounds which sounds like a college squad instead of a High School squad. It is seriously doubted that very few high schools in the state will be able to boast of so much tonnage, some where in the neighborhood of a ton of muscle and brains will be on the field every time that Big Spring is seen in action this season and a ton of perfectly trained fighting boys is not a thing to scoff at in the least, coupled with this ton of beef is a lot of brain power and experience.

Pugilist, last year's full back, will probably see service on the line this season, due primarily to his weight and speed and ability to diagnose the other side plays. He will be very valuable here as he will be associated with some real line men, men whose ability has been tried and proved, in Griffith's last year line men, Stephens is seeing wonderful possibilities, as every one knows he comes from football stock.

All four years and especially in '22 when Max Angelo was defeated here by a line lead by Griffith. Well, the kid seems to be following in his big brother's footsteps and if he will make another Hayden that's all we will ask, and from present indications that is exactly what will happen. Griffith states they are not getting enough to eat this season encouraging, at least in this respect, it is akin to his famous brother, because Hayden's appetite was always a thing to marvel at.

Stephens is experiencing a little difficulty in finding some one to lead the attack at quarterbacks berth. It is always difficult to find a real quarter but Stephens is fortunate in one respect in that he has considerable available material that can be used for this purpose and the fans are not in the least uneasy because every one feels confident that the right man will be worked into place. If there ever was a coach capable of picking men it is Stephens and when the whistle blows for the Brownfield encounter the right man will be barking signals.

The squad will return Friday so far they are short about four cars. Now is the time for the real fan to get into action and furnish one of those cars, there is a good road leading via Lamesa and Tahoka. It will be a nice drive and these cars should not be difficult to secure, the bunch wants to leave the camp directly after school. If you can run up it will certainly be appreciated and a good dinner will be served you, and you will be able to leisurely drive home long before dusk. If it will be possible for you to do this for the boys call Alfred Collins at Collins Bros. Drug Store, or Dr. Hardy at 281 and tell them this favor will certainly be appreciated.

This column wishes to stand corrected on a statement that appeared in yesterday's paper. The squad did not work out against Post Sunday, but did Monday instead. Sunday was observed in camp as a day of rest. Every member of the squad was given a good health dose of Rippon Salts instead of the usual work out on the field. Several members insisted that they had rather take their work out on the field, but Coach insisted and they drank the bitter dose like good boys.

Bob Humble appears to be the best open field tackler on the squad at present. It is certainly snagging them down in the open, great things are expected of him. Red Cook, Ed Magual and Oz Johnson had to take an extra lap around the field today, which will all stand them in good stead later on.

Big Spring's new and more pep than they ever had, seems to be growing on him. Well, they do that way when football actually begins to get into their blood. The boys who get stronger all the time are the ones that the coach always can depend upon for that extra punch.

While Howard county has the best feed crop ever known in this section, no one about the poorest crop of cotton ever seen here. The bollworms are doing a fearful amount of damage to the cotton crop.

Traffic Lights To Be Placed At Five Points

City Commission Has Authorized City Manager To Have Installation Made

Will Prevent Accidents

These Lights Will Aid In The Enforcement Of Traffic Regulations

The City Commissioners took a progressive step when they authorized the City Manager to have automatic signal traffic lights installed at five busy street intersections as a safety measure and to aid in the enforcement of traffic regulations.

One light will be placed at each of the following intersections: Third and Scurry Streets; Third and Main Streets; Third and Runnels Streets; Second and Main Streets; Second and Runnels St.

It will be all of thirty days or more before these signal lights can be secured, so it will be about November before they are installed and ready for operation.

The citizenship will certainly appreciate this move on the part of the City Commission to make the streets safer for the autoist and pedestrian.

More Street Lights To Be Installed Here

According to City Manager Mont Big Spring is going to be brightened up considerably within a short time. Arrangements have been made and completed whereby the White Way lighting system in the business section is to be extended and street lights are to be placed throughout the new residential sections in the South part of the city.

Few things add more to the attractiveness of a city than well lighted streets and there will be cities in Texas which can boast of more street lights than Big Spring will have when this new lighting program is completed.

BOLL WEEVILS INCREASING; BOLLWORMS AND LEAFWORMS DO DAMAGE ON SOUTH PLAINS COLLEGE STATION, Tex. Sept. 7.

The most significant thing in the report of this week is the occurrence of cotton leafworms on the South Plains. In many sections the boll weevil infestation is now complete, which means that small bolls are being injured, according to reports reaching the Texas Agricultural Experiment Station and released by Dr. F. L. Thomas, State Entomologist, as follows:

Castro County, Aug. 27.—The boll weevil infestation in fields not poisoned average 43 per cent. Where calcium arsenate has been applied the infestation is 27 per cent. Very little fresh bollworm injury was found.

Collin County, Sept. 1.—Practically all squares are punctured and 25 per cent of the bolls are injured by weevils.

Dallas County, Sept. 1.—Practically all square punctured by weevils in northern part of the county. The fourth generation of cotton bollworm moths have been laying large numbers of eggs.

Hunt County, Aug. 31.—A complete infestation exists in the fields examined and the weevils are now damaging small bolls.

Progress Of Pink Bollworm Control Work

All agencies in the newly regulated pink bollworm zone in West Texas have been active in making the necessary arrangements for the handling of the 1928 cotton crop.

Regulations governing the handling of cotton in the regulated zones make it necessary to sterilize all cottonseed at the gin with equipment that meets the approval of the state entomologist.

The installation of sterilizing equipment has been in progress for some time and there is every indication that all gins will be ready to operate as soon as the new crop starts to move.

Inspectors representing the State Entomologist or the Plant Quarantine and Control Administration, United States Department of Agriculture, will visit every gin daily to assist the ginners in keeping the seed sterilized operating at highest efficiency.

Seed that have been sterilized will be permitted to move to a number of oil mills that have met the requirements of the state entomologist and have been designated by him to handle seed from the pink bollworm regulated zone.

All line cotton produced in the regulated zone must be fumigated under vacuum before it can be shipped out. Fumigation plants have been installed and are now ready for operation at Big Spring and Lamesa.

G. C. Bond with headquarters at Big Spring representing the Plant Quarantine and Control Administration, United States Department of Agriculture, and M. E. Currie with headquarters at Lamesa representing the Texas State Department of Agriculture, will have charge of this pink bollworm regulatory work in the new territory in West Texas where infestation was discovered this past winter.

Theo Ferguson left Sunday night for El Paso where he will attend the School of Mines the coming term.

Graves Family Move To Big Spring

G. C. Graves and family left Wednesday morning for Big Spring where they will make their home.

Mr. Graves will have a general merchandise store and we predict that he will continue as successful as he was here.

The family will be greatly missed from our town where they have lived the past nine years. Both the parents and children have been active in all branches of church work.

Mr. Graves served as a steward in the Methodist church almost from the time he came here until now and Mrs. Graves had been first Vice President of the Methodist Missionary Society. Not only in the church were they active but also in lodges and clubs.

Mrs. Graves had served as worthy matron of the Eastern Star Chapter, being one of the few members holding "A" certificates for several years. She also held various offices in the "21" Study Club.

While we regret to lose the Graves family we wish them success and commend them to the people of Big Spring.—Desdemona Advertiser.

Many Attend School Exercises

C. T. Watson and Garland A. Woodward report a royal time at the opening exercises of the Grade City schools yesterday.

A large number of visitors attended the exercises. An especially fine dinner was served at the noon hour. True West Texas hospitality marked this gathering, according to the Big Spring visitors.

P. F. Cantrell Has Second Bale

The second bale of cotton of this season's crop was brought in Monday night by P. F. Cantrell and ginned by the Planters Gin Company. This bale weighed 380 lbs. It brought 17 1-2c per pound.

Mr. Cantrell will be awarded the \$40 premium offered by the business men.

Post Office Patrons Need Protection "When Winter comes" Uncle Sam may take pity on the patrons of the Big Spring post office and provide some sort of shelter for the long file of folks who have to wait in line out on the sidewalk in order to get mail at the General Delivery windows. Folks who wish to gain entrance to the post office building have to force their way through these waiting lines, causing quite an inconvenience to all concerned. If the lease man continues to postpone action in arranging for adequate quarters here we are going to have a real jam at the postoffice the coming months, the busiest of the year.

Ranchmen say if it were not for the brush and mesquite trees and stumps in their pastures they could now a big hay crop right now. Old timers say they can't remember the time their pastures were in such fine shape as they are this season.

RELIGIOUS PREJUDICE

That most of the opposition to Governor Alfred E. Smith is in the South, however disguised it may appear, has a background of religious prejudice, is the opinion of Senator T. H. Caraway of Arkansas, one of the active field campaigners for the Democratic national candidates, who was in Washington this week.

Senator Caraway's attention recently was called to the peculiar fitness of the Bryan speech to conditions in the South in the present campaign, and refreshed his mind by re-reading it.

He thinks it remarkable that the speech of the eloquent leader of the party for two decades should have been overlooked when in his judgment it constitutes a most convincing argument for tolerance.

The portion of the address by Col. Bryan which Senator Caraway is quoting is as follows:

"In this country it is not necessary to protect any church. I have such confidence in the Catholic church which was for 1500 years my mother church as was yours that I deny it needs political aid. It was the Catholic church that took our religion from its founders and preserved it—it was the only custodian—for over fifteen centuries.

"The Jews do not need this resolution. They have Moses, they Elija and they have also Elisha, who drew back the curtain and revealed upon the mountain tops an invisible host greater than a thousand Ku Klux Klans.

"I am not willing to bring discord into my party. The Democratic party is united on all the economic issues. We have never been so united since I have known politics, and nobody has had more reason than I to regret past discord.

"The Democratic party has never taken the side of one church against the other; the Democratic party must remain true to its traditions; it cannot surrender its rights to exist; it cannot be false to the mission that it had in the days of Jefferson, to which it remained true in the days of Jackson and to which it was still loyal in the days of Woodrow Wilson.

"My last objection is that I am not willing to divide the Christian church, because if it is destroyed there is nothing to take its place. We must stand together to fight our battles of religion against materialism.

"There is only One who can bring peace to the world, and that is the Prince of Peace—the One of Whose coming the angels sang: 'On earth peace, good will to ward men.'"

IN TROUBLE

A young fellow from South Texas went away off up in Oregon or Washington and got mighty homesick, as Texans usually do. He was broke and couldn't raise the price of a return ticket. So he concocted a story about killing a man in Texas in order to get free transportation back to the scene of his supposed crime.

Well, it worked; but it worked too well for the young fellow's good. It seems that a man actually was murdered about the same time this young fellow said he had done his killing; so the grand jury got busy and indicted him for murder, also for stealing an automobile used in his getaway.

Now he has repudiated his confession, saying he told the story just to get back to Texas. But juries are reluctant to believe such fairy tales, and it may be the young fellow is in for sure-enough trouble, though he may be as innocent as he now claims to be.

Nine-tenths of all our troubles are brought on us by our tongues. If we could learn to hold our tongues, we'd seldom ever get into a jackpot.—Abilene Reporter-News.

We have had a man seeking for a location for a broom factory. He ought to be encouraged. His coming would boost the growing of broom-corn in our county. Quite a few could make more money planting broom corn to supply this factory than they are now making raising cotton.

KEEP THE CROOKS ON THE RUN

"Philadelphia is developing the same crime situation that cost hundreds of lives in Chicago's gang, gunmen and beer wars," says the Philadelphia Public Ledger. "The cowardly shoot-and-run type of murderer is increasing here. So-called 'gang shootings' are increasing. The frequency of these outbreaks, the growing use of machineguns, sawed-off shotguns and pistols and the comparatively rarity of the arrest and punishment of the human rats who do the shooting demand imperative and drastic action on the part of the police."

"Closer control over the sale of firearms will not wholly meet the emergency. Firearms can be 'bootlegged' as easily as liquor. The underworld cannot be easily or wholly disarmed. Ending these 'gang wars' is a police job. It can be done by keeping the known 'gangster' continually 'on the run.'"

As the Public Ledger says, the underworld cannot be disarmed, and it is a fact that laws restricting the sale of small arms are observed only by the good citizen and act to his advantage.

GIVE THE LAD A CHANCE

In plain colloquial American, let's lay off of John Coolidge for a while. Let's give the lad a chance.

He has his first job. He punches the clock and all the other hired hands stops everything to watch him do it, just as if he were a clown escaped from a circus or a movie actress in search of a headline. The photographers are there. The sob sisters describe his hose and his tie and his blush. He is bedeviled about his sweetheart, his salary, his wedding—his everything. In no time we will be regaled with accounts of his favorite dentrifice and whether he has in-growing toenails.

There's nothing American about all this. There is nothing natural about it. It isn't even fair. John Coolidge is working because that is his ideal of manhood. We all profess to feel the same way about it. A man, we say, must be his own man. Then why in the name of neighborliness and adult discretion can't we let John be his own man?

If we must play the fool about somebody, let's pick on somebody who can sell the notoriety to the cigarette advertisers and make something out of it for himself. Let's forget this Prince of Wales business and give John a chance. Even a President's son has some rights.

CONSERVATION OF "WOMAN POWER"

Foreign critics who find fault with American waste and extravagance overlook one department of social economy in which we lead the world. There is no other country where so much has been done to release women from household drudgery.

Addressing an audience of women recently, Leod D. Becker, Managing Director of the Oil Heating Institute, declared that economists are only beginning to recognize the importance of this factor in our national progress. The emancipation of women from monotonous hand labor through the wider use of automatic heating devices, washing machines, vacuum cleaners, improved plumbing, and other household mechanical improvements should double the potentials of the American people within the present generation.

In the nation's pioneer days hours of the housewife's time were necessarily devoted to keeping the home fires burning. Men cut and piled the wood, but there their work ended. It was the women of the family who built the fires and kept them supplied with fuel. The utilization of coal lightened this task, but in many homes the woman is still the furnace tender, running up and down stairs a dozen times a day to shovel on coal, agitate the grate and regulate drafts.

From the standpoint of the American housewife, the perfection of the automatic oil burner and gas heating systems are as important as the invention of the sewing machine.

THE INCREASING NON-VOTING CLASS

Organizations on political party lines called "get-out-the-vote" clubs, are being pushed for the November election.

In six states the last chance to register is already past and in 37 states registry rights expire 30 days before election.

In a few states there is permanent registration for property owners whose taxes are paid—Indiana has repealed its registration laws.

In many states registered voters lose their rights if they omit voting a certain number of times in each biennial period.

The enormous volume of state and federal laws relating to naturalization, registration, primaries and elections proper, have all tended to increase the non-voting class.

Doing away with manhood suffrage and increasing the obstacles, difficulties and voting requirements cause uncertainty and chaos with the result that in many instances a minority of voters control election results.

MOTOR BUMS

A motorist stopped in front of a Louisville welfare agency supported by the community chest as a charity institution. He went in not to contribute money for the aid of his less fortunate fellows but to beg enough gasoline to see him to the next charity station. He admitted that when questioned he was just motoring around the country at the expense of social agencies. This bureau reported an average of three such cases a day. Every beggar was urged to sell his car and pay his way home, but all indignantly refused. Sell the car!

Charitable Louisville rebelled. But not before it collected enough motor bum car histories to show that people today rate their cars with their shoes. Few people will sell their only shoes to buy bread. They find another way. And now it's a car and shoes—Colliers.

RAILWAY WOULD CHARGE SHIPPERS FOR CAR CLEANING

AUSTIN, Sept. 12 (AP).—Dayton Moses, general attorney and A. H. Priest traffic manager of the Texas and Southwestern Cattle Raisers Association, were here today to represent Texas cattlemen in a protest of the petition of the Texas Mexican Railway to establish a charge on shippers for cleaning and disinfecting livestock cars.

The case was on the railroad commission's ticket, hearing of which opened today. The Mexican line is the first railroad to attempt to place this expense on the shipper. The attorney said that other lines would ask that privilege if the railroad commission granted this application. The Texas Mexican Railway would have established a minimum charge of \$11 each for cleaning

and disinfecting livestock cars and also a charge of 15 cents a mile for transporting empty livestock cars to the disinfecting plant. Five other propositions were included on today's docket.

Misses Dorothy Jordan and Jeanette Pickle plan to leave tomorrow for Denton, where they will resume their work at the College of Industrial Arts. They are members of the graduating class this year.

Fred W. Davis and Mr. Alford of the State Department of Agriculture are here today inspecting bonded warehouses. While here Mr. Davis was the guest of Mr. and Mrs. Frank R. King.

Edward Smith left Monday night for Austin, where he will enter State University this fall.

45 ARRESTS TO DATE

During the first seven days of September forty-five arrests have been made in Howard county, or rather this number have been placed in jail.

Other arrests where bond was furnished or fine paid before prisoner was taken to jail are not included in this total.

ARREST MAN ON COLD CHECK CHARGE

Deputy Sheriff S. Layne arrested C. R. Robinson on the Highway East of town Friday on a dry checking charge.

It is said that Robinson is wanted at Midland, Sweetwater and other points on a similar charge.

Weidon Burns left Tuesday morning for College Station, where he will attend the A. & M. College this fall.

NOTES FROM SALEM

The four days meeting at R-Bar school house conducted by Rev. M. E. Robinson of Lamesa, and Rev. J. P. Aslin of Klondike came to a close Sunday night with very much interest manifested.

Mr. and Mrs. W. H. Robinson, accompanied by Miss Eva Miller left Wednesday morning for Glen Rose, Texas, where Mrs. Robinson and Miss Miller will stay a few weeks under the care and treatment of skilled physicians.

Mr. and Mrs. Allen Rogers of Coahoma visited with Mr. and Mrs. S. L. Newsom Saturday night and Sunday.

Mother Edens of Big Spring, is spending the week with her daughter, Mrs. Ruth Martin while Ed Martin is attending court.

A goodly number from our community attended the baptizing and singing at Prairie View Sunday afternoon.

Mr. and Mrs. J. W. Fryar and family of Highway, spent Sunday with Mr. and Mrs. A. J. Wilson.

Mr. and Mrs. J. L. Rogers of Fairview, Rev. M. E. Robinson and family, and Rev. J. P. Aslin ate supper with Mr. and Mrs. W. H. Robinson Friday evening.

Vincent and R-Zar played baseball Friday evening, the scores stood 7 and 8 in R-Bar's favor.

Mr. E. F. Miller returned from Cleburne, Texas, where he was called to the bedside of his brother who was quite ill, he left his brother very much improved.

There will be singing at Salem church Sunday afternoon at 3:30. September 16th, everybody is invited to come and any class wishing to bring their books and sing special songs will be very much appreciated and enjoyed. Come lets make this event a religious song festival.

Mr. and Mrs. S. E. Earley of this city returned from Brownwood Monday where they have been with their daughters, Ruth and Audrey Earley, through operations for the removal of their tonsils and adenoids. The operations were performed at the Central Texas Hospital by Dr. Daugherty of that city. Ruth and Audrey both plan to attend school here this fall.

Rowland Wins

SAN DIEGO, Calif. Sept. 10 (AP)—Earl Rowland, Wichita, Kansas, arrived at Rockwell field at 8:25 a. m. today in his Cessna monoplane from Yuma, Ariz. He left Yuma at 7 a. m. He was the first of the New York-Los Angeles air racers to arrive at their western goal.

Miss Mildred Rogers has returned to Itabena, Miss., where she teaches in the college at that place. Miss Rogers spent the summer in this city with her parents, Mr. and Mrs. R. L. Rogers.

No. 440 THE STATE OF TEXAS TO THE SHERIFF OR ANY CONSTABLE OF HOWARD COUNTY. GREETING:

You Are Hereby Commanded to cause to be published once each week for a period of ten days exclusive of the first day of publication before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Howard county, a copy of the following notice:

THE STATE OF TEXAS

To All Persons Interested in the Welfare of Anna E. MacIntyre, Gertrude MacIntyre, has filed in the County Court of Howard county, an application for Letters of guardianship upon the estate of said Anna E. MacIntyre which said application will be heard at the next term of said Court, commencing on the 1st Monday in October A. D. 1928 the same being the 1st day of October A. D. 1928, at the Court House thereof, in Anna E. MacIntyre, at which time all persons interested in the welfare of said Minor, may appear and contest said application, if they see proper to do so.

Herein Fall Not, but have you before said Court, on the said first day of the next term thereof, this Writ, with your return thereon, showing how you have executed the same.

Given under my hand and the seal of said Court, at office in Big Spring this the 8th day of September, A. D. 1928.

J. I. PRICHARD, Clerk. County Court, Howard County, Texas

(If the appraised value of the estate is under \$1,000.00 this notice may be given by posting copies of same in three public places in the county for ten days. Citation for posting is A1193%. Poster is A1193.) 52-2t

No. 445 NOTICE IN PROBATE THE STATE OF TEXAS

To the Sheriff or any Constable of Howard County, Greeting:

You Are Hereby Commanded to cause to be published each week for a period of ten days before the return day hereof, in a newspaper of general circulation, which has been continuously and regularly published for a period of not less than one year in said Howard County, a copy of the following notice:

THE STATE OF TEXAS:

To All Persons Interested in the welfare of Harry L. Wheeler, unsound mind, Ella C. Neill has filed an application in the county court of Howard County, on the 13th day of September, 1928, for letters of guardianship of the estate of said Harry L. Wheeler, unsound mind, which said application will be heard by said Court on the 1st day of October, 1928, at the Court House of said County, in Big Spring, at which time all persons interested in said welfare are required to appear and answer said application, should they desire to do so.

Herein Fall Not, but have you before said Court, on the first day of the next term thereof, this writ, with your return thereon, showing how you have executed the same.

Witness my hand and official seal at Big Spring, Texas, this 12th day of September, 1928.

J. I. PRICHARD, Clerk. County Court, Howard County 52-2t.

No. 367 NOTICE

THE STATE OF TEXAS COUNTY OF HOWARD

TO ALL PERSONS interested in the welfare and estate of Eleanor Caldwell Saunders, a minor:

Notice is hereby given by publication thereof in one issue of a newspaper published in Howard county, Texas, that on the 22nd day of September, A. D. 1928, there will be presented to and heard by, the County Judge of Howard county, Texas, an application by the undersigned, to make an oil and gas lease and a mineral deed to said oil and gas lease being for a period of 10 years, and said mineral deed being for a one-fourth interest, upon the minor's interest in and to the following described property, situated in Howard county, Texas, to-wit:

South 200 acres of North 400 acres of Section No. 40, in Block No. 31, Township 1 North, containing 200 acres more or less.

The application filed in the County Court of Howard County, Texas, on the 12th day of September, A. D. 1928, is herewith referred for other and further information.

MAY WESTFALL, Guardian of the estate of Eleanor Caldwell Saunders, a minor. 52-1t.

WHY THE SMILE

Young's Stomach Powder has removed my pimples, headaches, sour stomach, constipation, rheumatism. You can smile if you use it. Druggists return money if it fails.—Cunningham and Phillips.

The government cotton ginning sharks have succeeded in swatting the South another hard blow in their estimate of the 1928 crop. The boys in Washington are the only ones who can see a big cotton crop this year, and the better it looks to them the harder the blow to the

BIG SPRING HERALD TO HAVE BIRTHDAY

This issue of the Big Spring Herald, marks the close of the twenty-fourth year of service in Big Spring territory. With our next issue of the weekly Herald, we begin upon our twenty-fifth year of publication of a weekly newspaper in Howard county.

Through all of these years, we have had the very finest cooperation of our readers, and friends, and it was through their loyalty, that we have been able to prosper and to grow, year by year.

The newspaper is merely the voice of the people of a community—it is what they make it. We have put our best efforts into our work, and have always tried to give you a newspaper of which you would be proud, one that would stand for the best in our community. We have tried to boost Big Spring and Howard county along, in good times, and under diverse conditions, and now that it seems prosperity is smiling on us, we are going to continue to pull for the best interests of our town and county. When a man puts twenty-five years of his life into an enterprise, it is a pretty good sign that he likes his business, has a warm feeling in his heart for the people with whom and for whom he is laboring.

We are going to continue to give you all of the news, in an interesting, fair and impartial manner—and want to give you one of the best newspapers that can be found in the state of Texas.

Now that we are editing a daily paper, and the size of our weekly has been reduced, we are going to reduce the subscription price. Weekly Herald's will be \$1.50 in the county, and \$2.00 outside of the county per year. We are glad to take new subscriptions or renewals as anniversary gifts. Come in and subscribe today.

Mrs. A. M. Fisher spent Tuesday in Midland with friends. Mrs. Fisher was a guest at a beautifully appointed bridge breakfast given at the Scarborough Hotel, Tuesday morning at 9:30 o'clock, given by Mrs. Leon Goodman.

Mr. and Mrs. W. M. Sheppard have returned from Mississippi to again make their home in this city. Mr. Sheppard has practiced the carpenter's trade in Big Spring for many years, where he is well known.

When a fellow can turn down \$1,000 an acre for an oil lease without stuttering—it is pretty good evidence that he has faith in the Big Spring oil field. We had citizens turn down such an offer here today.

Quite a few peace officers the State Rangers have ousted from other oil field towns have been endeavoring to secure a place under Sheriff House, but he has to know a man's reputation as a real peace officer before he gives a man a commission.

Work on the Big Spring Laundry Company's new building at the corner of Main and Ninth St. is going forward.

John Louis Biles left Tuesday morning for College Station, where he will attend A. & M. College this year.

T. S. Currie, Robert Currie and Miss Agnes Currie left Saturday night for a few days visit in Dallas. From there Miss Agnes will go to St. Charles, Mo., where she will resume her studies in Lindenwood College. Miss Currie is a member of the Senior Class at Lindenwood this year and will receive her degree in June.

The oil development in the counties to the West of us add materially to the prosperity of Big Spring. More rail workers, pipe line workers are given employment as a result of the big business occasioned by oil development.

W. G. Murray and daughter Miss Virginia enroute to a visit in San Angelo to their home in Lubbock visited relatives in the city Saturday morning.

W. T. Strange of the firm of Peters, Haynes and Strange architects, left Saturday morning on a business trip to Lubbock.

Cotton growers do not get a square deal out of this government cotton ginning production. The cotton gamblers are the only ones to reap the benefit. About one time out of a dozen will the price move upward following one of these government estimates.

The new Allen business block at the corner of East Third and Runnels is going to boost appearances in that portion of our city.

WORLD HAS A NEW AND FINER MOTOR CAR

**Nash "400" Sedan**

Buy this Twin-Ignition-Motored, Salon Body "400" Sedan, fully equipped

More Nash cars were sold in August than in any month during the entire 12 years of Nash success!

The new Nash "400" is the car of the year—everybody says so—comparison with the other new cars offered convinces everyone who compares.

Study the big Nash "400" Special Six Sedan illustrated here. You'll never find so satisfactory a car at anything like its completely equipped, delivered price.

It has the new Twin Ignition, high compression motor, the new Nash Body. It is the easiest steering car the motor car industry ever has produced. And one of the easiest riding, with a full 116-inch wheelbase and Lovejoy hydraulic shock absorbers, front and rear.

And every single accessory, even to bumpers front and rear, and a spare tire is included in the price, delivered to you, right here.

Don't think of deciding on your new car until you have seen this new Nash "400," and tried its remarkable new Twin Ignition performance.

**NASH "400"**  
Leads the World in Motor Car Value

**IMPORTANT FEATURES—NO OTHER CAR HAS THEM ALL**

Twin-ignition motor	High compression	Salon Bodies	Short turning radius
Aircraft type spark plugs	New double-drop frame	One-piece Salon fenders	Vanity case and smoking set, leather mounted
Aluminum alloy pistons (Lovejoy Six)	116-inch wheelbase	Body, rubber insulated from frame	Nash Special Design front and rear bumpers
7-bearing crankshaft (bolster crank pin)			

Big Spring Nash Company

# CLAIMS versus FACTS

You hear all sorts of claims for tires:

More mileage, more rubber, more comfort. Interesting—if true.

But a man buying a tire wants Facts, not claims. There's one fact about tires which stands out so strongly it cannot be overlooked:

## MORE PEOPLE RIDE ON GOODYEAR TIRES THAN ON ANY OTHER KIND

Goodyear makes more tires every year than any other manufacturer.

Goodyear uses one-seventh of all the crude rubber produced annually on the earth—almost 50 per cent more than any other manufacturer.

Goodyear makes "The World's Greatest Tire"—the powerful, tractive, long-wearing new-type All-Weather Tread, with its extra-durable, extra-elastic body of SUPERTWIST.

Goodyear Tires are backed by standard Goodyear Service—the kind that insures you all the mileage built into them at the factory—the kind of service we give you here.

Ours is the standard Goodyear service that has been approved by a hundred million tire-buyers.

Buy your Goodyear Tires from us. Get your tire service from us

### The Auto Supply Co.

Phone 196 Main Street Big Spring, Texas

### Post Office Dept. Needs Waking Up To Our Needs

Patience and long suffering may be wonderful virtues, but they will not buy you a thing in the way of forwarding Uncle Sam to get the city of Big Spring a postoffice building sufficient to meet the needs of a city the size of ours.

It's a joke, the way the department has been side-stepping, promising and doing nothing.

The citizenship ought to start a telegraphic bombardment on every member of the Postoffice Department from the Postmaster General on down to the inspectors of this district—if they have any on the job—until we get some action.

They may not know we need a postoffice here—and possibly we don't—but they should at least provide a tent so folks would not be compelled to be exposed to the elements while waiting for an opportunity to reach the general delivery window.

Send a few messages to the Postmaster General and maybe he will be able to tell us if he has anyone in authority to see that we secure adequate postal facilities.

We are never going to get anything but promises, as long as we meekly sit back and wait for Uncle Sam's "red tape crew" to hand us anything.

### Adult Health Club To Be Organized

All women over 18 years of age interested in becoming a member of the Adult Health Club, are requested to meet in the community clubhouse auditorium tomorrow afternoon at 3 o'clock. Miss Iva Jane Lytle, public health nurse, will perfect this organization and all women interested are urged to be present.

Just take a glance at the streets of Big Spring any Saturday now and it will remind you of Christmas shoppers on their Christmas eve shopping tour.

### A. W. Daughtery Has Pretty Flower Garden

A. W. Daughtery who claims to be one of Howard County's biggest boosters, believes that West Texas can be converted in a garden spot if the citizens will take time and interest to beautify it.

He gives as example for this belief his home place at East Sixth and State Streets. Mr. Daughtery after traveling through nine of the northwestern states, returned to Big Spring to make his home. He arrived here the early part of the year and began work on his place.

He states that he did not touch a thing there until the second week in January, and since that time, he has converted a barren spot into a beautiful garden. He claims to have one of the prettiest flower gardens in Big Spring. Besides having all kinds of pretty flowers in bloom, Mr. Daughtery has a fine garden.

He has copied his garden spot after the scenery and landscaping plans of Oregon and is most satisfied with the results. Wonderful results can be noted in just a short time, according to Mr. Daughtery if the people will only take the time to beautify their surroundings.

### Cattle Highest Since World War

KANSAS CITY, Sept. 11. (AP)—Cattle prices reached a high record price for peace times here Tuesday when mixed yearlings and heifers sold at \$17.50 Yearling steers reached a new top at \$17.40. Tuesday's quotations on mixed yearlings and heifers was the highest on this market since the World War. Seventeen head, averaging 904 pounds, sold at the top price.

Some day an oil field is going to be developed near the northwestern corner of Howard county or else most of the oil men are away off in their calculations. According to geology, torsion balance and other devices an oil pool should be found in that area.

### Limited Parking Ordinance To Be Put In Force

City Commission Passed Ordinance Relative To Time Limit Parking On Certain Streets

Effective Sept. 20th

No Parking On The Streets Allowed Between Midnight and 6 A. M.

In compliance with the petitions from citizens to pass a time limit parking ordinance on certain streets in the business district the City Commission at their regular session last night passed such an ordinance which is to become effective about September 20th.

A one hour parking limit is to be enforced on the following streets from 7 a. m. to 7 p. m.

On Main Street, between First and Third Streets.

On Second Street between Scurry and Runnels.

North Side Third between Scurry and Main.

Third Street between Runnels and Johnson Street.

South Side Third Street between Scurry and Main.

A 16 foot parking space has been reserved in front of the post office.

Parking on any of the paved section in the business district is prohibited between the hours of midnight and 6 a. m.

In front of each space on the streets affected, a sign giving notice of the time for that street will be stenciled.

The ordinance is not passed to punish but rather to benefit our citizens and all should heartily cooperate.

### Adult Health Club

The Adult Health Club is organized for the purpose of teaching home care of the sick and hygiene. The course is outlined for women over 18 years of age. Each lesson brings out the value of prevention also the need of periodic examinations of our 'human machine.' Its purpose is to teach the daily practice of health habits. Emphasize the fact that children imitate the parents and learn more from example than from theoretical instruction.

The course consists of 12 lessons given once weekly. State Department of Health awards a certificate to those who successfully pass the examinations.

The lessons are in personal hygiene and health; infant care and feeding; temperature pulse and respiration; bed bath and bed-side care; home nursing in communicable diseases; sanitation, home and school emergency treatments and diet.

Class for organizing will be held on Thursday, 3 p. m.

### MEETING OF FOOTBALL REPRESENTATIVES SAT.

Football representatives from Big Spring, Colorado, Roscoe, Lorraine, Snyder and Sweetwater, will meet Saturday, September 13 for the purpose of thrashing out all problems confronting officials in Class B football for the coming season.

We have been having fine cotton weather the past few days but the lice, worms and fleas seem to like the warm weather for they are appearing busier than ever. Every day the outlook for a cotton crop appears to grow slimmer.

A large number of folks are now flocking to Big Spring from other oil field towns. There is no special activity here at this time to attract them, but they seem to be of the opinion that big things are due to take place here.

Pert Prichard left Sunday for San Antonio, where he will attend school the coming year.

### Mrs. Carrie Stone Claimed By Death

MRS. CARRIE STONE

One of Howard County's pioneer settlers was claimed by death at 7:10 o'clock Tuesday evening, September 11, in the passing of Mrs. Parnella Caroline Stone, 92. Funeral services for Mrs. Stone were held from the residence of her daughter, Mrs. Clara Eddins, 411 Runnels St. this afternoon at 4 o'clock and the remains were laid to rest in the Masonic cemetery. Claude Wingo, minister of the First Christian Church officiated.

"Mother" Stone as she was familiarly called by all who knew her, was born on February 3, 1843. She was a kindly Christian woman and lived a consistent Christian life through these many years. Mrs. Stone became a member of the Christian Church when she was 12 years of age, and always took much active part in its work. Mrs. Stone knew some of the earliest men of the Christian Church, followers of Arthur Campbell, from whom the name, "Campbellites" was derived. She was a charter member of the First Christian Church in Big Spring.

For the past six years, Mrs. Stone has been in failing health, and has been confined to an invalid chair. In spite of her many years and frailty, she was always of cheerful nature and could see the bright side of everything. She has made her home in this city with her daughter, Mrs. Clara Eddins for forty years.

Mrs. Stone is survived by a son and daughter, S. B. Stone and Mrs. Clara Eddins of this city. Her husband, three sons and two daughters have preceded her to that Heavenly Home on High. Three grandchildren also survive, L. R. Stone and Maxwell Stone of this city and Eld Stone of Shreveport, La. Other relatives in Shreveport and Mansfield, La., also survive.

Heartfelt sympathy is extended to the bereaved ones in this sad hour.

### Meriwether Co. Has Showing McDowell No. 1

A Showing of Oil and Gas Said To Have Been Picked Up Between 3,780 to 3,795 Feet

### Chances Look Better

Further Drilling Necessary To Determine Whether the Showing Means a Commercial Well Is Due

Those interested in the Meriwether Oil Company's test well on the McDowell ranch, twenty miles south of this city, who have been rather blue since the bit picked up sulphur water, just above the point where the oil was expected to be encountered, feel more optimistic since the report has been received that an oil showing has been picked up. The showing was picked up last night between the 3,780 and 3,795 foot depth. A showing of gas was also in evidence.

With such a great quantity of water in the hole it is impossible to determine just what value to place on the showings which have been picked up.

The drill will be sent on down to test out the formation, and if it continues to show favorable, the casing will be lowered to cut off the water so the well can be brought in if it is there in commercial quantity.

All will be pleased to learn of the finding of the oil showing in this test well and hope it can be brought in a commercial well.

The Meriwether Oil Company officials have certainly been on the job and have carried out every promise and we would like to see their efforts rewarded with success.

### Attempted Burglary

Deputy Sheriff Lee Castle brought in two young fellows who are charged with attempting to burglarize a house in the Knott community Sunday.

Max Merriek has gone to Austin where he will resume his work in State University.

### R. E. 'Tud' Lee, 25 Succumbs to Illness

Robert Earl Lee, 25 years, was claimed by death at 12:40 o'clock this morning, following an illness of ten days. All that medical skill and loving hands could do proved to no avail when the Grim Reaper took the upper hand.

Funeral services will be conducted at the First Methodist church in this city at 10:40 o'clock tomorrow morning, by Rev. W. G. Bailey, pastor, and the remains will be laid to rest in the Mt. Olive cemetery.

"Tud" as he was familiarly called by his many friends was born and reared on the "Bee L-Bar" ranch near Aspermont, Texas. He was the son of the late J. M. Lee, prominent ranchman of that section of the country. Mr. Lee came to Big Spring several years ago, and made his home in the Elbow community where he was engaged in the farming industry. For the past few months he has been in the employ of the J. & W. Fisher store.

Mr. Lee was a member of the Methodist church, South, at Garden City, having been converted to the faith some two years ago. He was a likable young man, with a heart as big as the whole out-of-doors, always cheerful and friendly, and he leaves a place in the hearts of his many friends that will be hard to fill.

Deceased is survived by his devoted wife, who was Miss Dorothy Wilcox, before her marriage, and six sisters and three brothers named, Mrs. Richard Nowell of Aspermont, Mrs. T. E. Cook, Mrs. Jack Combs of Houston, Mrs. E. H. Huntman of Winster, Misses Mabel and Thelma Lee of Houston, and W. E. Lee, J. E. Lee and Sam Lee all of the Elbow community, all of whom will be here to attend the funeral services, except the two sisters from Houston, Texas, who on account of illness are unable to come.

Other out-of-town relatives here to attend the funeral are: Mr. and Mrs. Annie H. Robertson of Aspermont, Mrs. Cora Wilcox of Abilene and Mrs. Gene Mayfield of Aspermont.

Deepest sympathy is extended to the bereaved ones in this sad hour.

### Send in Names Of College Boys, Girls

Every outgoing train within the next week is so well being taking away some boy or girl to college. The Herald would like to have the name of every college student, the school they are going to attend and the date they plan to leave. Won't you please in this information to your earliest convenience. Thank you.

Are you often ashamed when at the end of a hard day's work you look back and see how little you have accomplished?

### Building Foundation For Twelve 55,000 Bbl. Tanks

Cement and gravel for building the foundation for twelve, 55,000 barrel storage tanks near the refinery, also three miles east of Big Spring have been placed on the ground and work on these foundations is now underway.

A large force of expert steel workers will be brought here to erect the tanks when the foundations have been completed.

### Our Former Football Stars Now At College

Several of the high school boys who made history while attending the Big Spring High school on the local gridiron, are now attending different colleges, where they are making a fine showing.

Frank Segell and Henry James Covert, two stars, former members of the Big Spring Steer squad, are attending McMurry College at Abilene this year. The boys have been in training camp there since the first of the month, and according to all reports, great things are expected of these two players this season. Segell and Covert attended Wesley College the past year, where they starred. Even greater things are expected of them this year. Their many friends in this city will watch their progress with much interest.

The Knous and Harold Harwood are attending the School of Mines at El Paso, and they too are making a good showing on the football team of that school. Both were valuable men in the Steer lineup during their high school career, and they will prove valuable to the college with whom they are playing. Knous played with Wesley College at Greenville the last year, and received his training under Coach Joe Ward.

### 5 New Houses Under Construction

E. H. Jowey, builder of "The Jowey Homes," has five new houses under construction in this city. The new houses are a two-story affair, built on the College Hill. The houses are being built on the same floor plan as the "Jowey Homes" five houses, and all built-in features will be for sale when completed. Mr. Jowey also has plans for the erection of two more apartments under construction on the west part of town, in addition. The apartments will be built for Clarence Harwood, man Meekins and J. H. men.

### District Court

Jury cases are now to be tried in District Court of the State of Texas. Jurget, charged with automobile, was heard. The jury returned a verdict with the defendant guilty and assessed a sentence with the fine that the sentence be \$100.00.

The case of State of Owen on a charge of on trial this afternoon.

The fifth house under construction is being built by Mrs. W. R. Bell. It is in the Settles Addition. Mr. Jowey also has plans to add another pair of Mr. and Mrs. Bell's south Scurry street.

### Well On City Property Is Started

There Has Been Lively Scramble For Leases Around Our City As Result

### City May Be Taxless

Here's One Test of Which All Our Citizens Have an Interest Without Buying Stock

If you have a rabbit's foot better put it in commission, because it is going to mean so much to so many people if the well now being drilled on land, in which the city owns an interest, comes in a big producer.

Worth B. Andrews and George McCamey, independent oil operators, in conjunction with a number of the big oil companies are to make this test. The well was spudded in yesterday afternoon and two towers will be in force to drill this well in quick time. A National drilling machine is being used, and the test is to be drilled to a depth of 2500 feet unless the pay is found at a shallower depth. Location is on the northeast corner of section 17, block 32 1 South and it is just about one mile from the South limits of the city of Big Spring.

Since this test has been contemplated, many oil men have expressed the view that there is a mighty favorable chance of securing a commercial well on the property.

Anyway this is one test we are going to watch with deep interest, and it is one we are all going to live in hopes of seeing it come in a gusher.

A mighty nice price is being offered for oil leases near this well and surrounding the city of Big Spring since Andrews and McCamey started operations here.

### WITHERSPON OIL CO. BUYS 40 ACRE TRACT

WITHERSPON Oil Company of San Antonio concluded a deal here today whereby they purchased from Fox Stripling and B. Reagan a forty acre tract of land out of section 3 block 32, 2 south near the McKinley Henshaw producer south of Big Spring.

In addition to a cash consideration Messrs. Stripling and Reagan retain a one-sixteenth overriding royalty in the tract. Stripling and Reagan also own a thirty-eight acre lease in section 2.

### ARANDON GLASSCOCK COUNTY TEST

Rozana Petroleum Corporation's No. 1 Boston in section 30, block 34, township 4, south, T. and P. Ry. Co. survey in Glasscock County, which got sulphur water at 3,530-35 feet, abandoned at total depth of 3,875 feet.

### The Health of Mothers is of Great Importance

Houston, Texas—Dr. Pierce's Favorite Prescription was a great benefit to me during middle life.

"My daughter was wonderfully benefited by taking a few bottles of the 'Prescription.' It is a priceless remedy for functional disturbances."

Write Dr. Pierce, President Invalide Hotel, Buffalo, N. Y., for free medical advice.

### Suffering With SICK HEADACHES

Mr. Charles F. Todd, of Esteburg near Waynesburg, Ky., says:

"I was suffering with nervous headaches. About once a week I would have these headaches, and have to quit work, and go to bed for about twenty-four hours. I would have pains in my neck, and right behind my right ear."

"A merchant at Esteburg told me to try taking Black-Draught, which I did."

"It relieved me. From that time on, I would take Black-Draught as soon as I felt like I was going to have one of those headaches—and they wouldn't come on."

"Every few weeks, I take three or four doses of Black-Draught, and I feel so well, and do my work, and don't lose any more time with headache."

Get a package today.

### Daily Production Increased 6,000 Barrels Per Day

Inside Development Said To Be More Active Than Ever Before In History of the Field. Two Producers From Deep Pay Given 24-Hour Test

### Pay \$12,000 for Lease

Rieker & Dodson of San Angelo Buy Lease of 80 Acres At \$150 Considered Very Favorable for Production by Many Geologists

BY S. F. BALENTINE NEW DRUMRIGHT, Glasscock County, Texas, Sept. 8.—Nothing of a spectacular nature happened in the Howard-Glasscock field during the past week. Inside development is more active than at any time in the history of the field. Six tests were completed for production from the 3,000 foot horizon during the week, which will add approximately 6,000 barrels daily to the field's potential when they go on test.

The completions registered are: the Evans Oil Company, Mike Glasscock, 300 barrels daily from 3019 to 3055 feet, in the northwest corner of the east 50 acres of the north half of the southeast of section 157.

Schermerhorn Oil Company, No. 2 Roberts in the northeast corner of the north half of the northeast quarter of section 157, 2,000 barrels from 2947 to 3,000 feet; Sprague Oil Company offset to the Schermerhorn on the east is estimated at 1500 barrels from 2957 to 3012 feet; Cosden & Company, No. 2 Roberts, in the southwest corner of section 129, estimated at 200 barrels from 3112 to 3121 feet.

Magnolia's No. 4 Roberts, in the northwest corner of section 157, 2,000 barrels, from 3,000 to 3,036 feet—same company's No. 3 Roberts, offsetting the Sun's No. 2 Settles, on the east is estimated as being better than a 2,000 barrel well.

During the week two producers from the deep pay were given the 24-hour production test for propagation. The test drilled by Lockhart & Company, now the property of Cosden & Company, produced 1,543 barrels on this test; Owen & Sloan and Cosden's No. 6 Roberts produced 2,075 barrels on the 24-hour test.

On Thursday Rieker & Dodson of San Angelo bought a lease on the west half of the northwest quarter of section 23, block 33, 2-south, from the Baker heirs for \$12,000.00 or \$150.00 an acre for the 80 acres. This gives Rieker & Dodson 180 acres, as they had previously leased the east half of this quarter from Hart Phillips at \$100 an acre. This area two miles west of Drumright, is considered very favorable for production, by many of the geologists.

The four key tests going down at this time that will add extension territory to the field is that of W. W. Donley's test on the Clay, in the southwest corner of the northeast quarter of section 127, block 29. This well is drilling at a depth of 2,700 feet. The Greene Oil Company's test in the center of the south line of the east half of the southeast quarter of section 127, will extend the field northeast more than a mile.

On the west extension area the test of Taylor-Link Oil Company in the southeast corner of the southwest quarter of section 3, block 32-3-south is of particular interest to the oil fraternity. The Louisiana Oil & Refining Company's test in the southwest corner of the northeast quarter of the same section has the derrick up and will be drilling before September 15th.

### Jim May Stop Famous Forum

AUSTIN, Sept. 7. (AP)—Former Governor James E. Ferguson, announced the probable suspension of publication of the Ferguson Forum, said to have been issued for the past eleven years, in the current number of the publication.

Lack of an adequate number of subscribers was given as the cause. Final decision on permanent discontinuance will be made between now and October 1, Ferguson said. He added he would like to "keep going" at least two more years.

The main thing the Forum would be to pull the 'I told you so' on the present highway commission when the next legislature gets a real investigation under way," he said.

R. W. Sandifer returned Friday from eastern markets where he spent the past week buying new fall and winter ready to wear for his store in this city. Mrs. Sandifer of Plano, accompanied Mr. Sandifer to Big Spring for a month's stay, and will make her home in Big Spring if some suitable house or apartment can be obtained by them within the next two or three weeks.

### Postal Dept. Appealed To For Relief

Promises Are All We Have Had From The Post Office Department To Date

### Demand Larger Bldg.

If Relief Is Not Forthcoming Soon We Can Expect Poor Service From Inadequate Equipment

While the business of the Big Spring post office entitles us to a service and accommodations usually provided by offices of the First Class we have a building which would not be a credit to a fourth class post office.

Investigations, recommendations and promises have been plentiful but the Post Office Department must give us something besides promises, if we are to secure any kind of service. Conditions have been anything but satisfactory in the past years and they certainly are not getting any better with our city making such a steady growth. The patrons cannot crowd into the office now in order to secure their mail, buy stamps, etc., and by the time the full business sets in the post office will be jammed from daylight to dawn and people who have business to transact therein will be compelled to put up with many inconveniences and much loss of time.

In an effort to get some action in our needed post office building the Chamber of Commerce has sent the following telegram to another official of the Post Office Department.

Mr. John H. Bartlett, Asst. Post Master General Washington, D. C.

For more than twelve months Big Spring has had a congested condition in her Post Office. We have called it to your attention many times but as yet the situation has not been relieved but continues to grow worse. Can we expect any relief.

### Baptists, Please Take Notice

The Big Spring Baptist Association will meet in annual session on October 10, at 10 a. m. with the church at Coahoma. Let every church get ready for this meeting. It will be appreciated by the clerk, Rev. Geo. F. Brown of Midland if all the churches will send church letter to him a few days before the meeting of the Association. This will assist him in having a more complete report to give us at the association.

We have a debt which we are anxious to pay before the meeting of the Association. Will all the churches to help out this that we may meet at Coahoma free of debt. Send money to J. C. Douglas, Big Spring.

We also urge that each church have special prayer for this session of our Association.

### Modern 2 Story Building Erected By Ed Carroll

A modern, two-story business building is being erected at 805 East Third street by Ed Carroll and splendid progress is being made on this structure.

This building will have a face brick front, tile walls and heavy concrete piers to support the beams. The lower story will be divided into two business spaces; the front having been leased by the Gates Auto Supply Company of Ft. Worth, and the rear part of the building will be used for auto storage. The upper part of the building will be arranged for a rooming house, and will contain twelve rooms, a roomy lobby and two bath rooms and hot and cold water, gas to provide automatic hot water, etc., will be provided.

The building which is 25x34 feet, will cost approximately \$11,950. The building will be ready for occupancy the first of October.

This makes the second fine business structure Mr. Carroll has erected on East Third street the past year.

### APPEAL TO TEXAS BAPTISTS TO MAKE OFFERING

Dallas, Sept. 8. (AP)—An appeal to Texas Baptists to make a special offering today to replenish the Home Mission Funds which are one million dollars short on account of the alleged defalcation of the treasurer. This appeal is being broadcast to four million Baptists in the South.

### Will Organize Health Clubs Among Women

Meeting Of Howard County Public Health Association Held In Clubhouse Saturday Afternoon

### Appoint Committees

Miss Lytle Plans To Begin Work In Big Spring This Week By Organizing Health Clubs

A meeting of the Howard County Health Association was held in the Community Clubhouse Saturday afternoon at 3 o'clock, at which time, Miss Iva Jane Lytle, itinerant nurse of the State Department of Health, and Miss Katherine Hagquist of Austin, advisory nurse of the State Department of Health met with them. Mrs. J. C. Douglas, chairman of the Howard County Health Association, presided at the meeting, and introduced Miss Lytle, who is to give a demonstration of what public health work is in Big Spring the next month or so. Mrs. Douglas also introduced Miss Hagquist, who made a most interesting talk.

Miss Hagquist in giving the reasons for sending a public health nurse to Big Spring, stated that in recognition of the support of some of the people in the county to secure a full time service of a public nurse, the State Department sent out the itinerant nurse to give a demonstration of the work of a county health nurse. The nurse is "loaned" to the community for a short time, from four to six weeks, and there are some handicaps in such a short health program, Miss Hagquist stated, but much good can be done, with the cooperation of the citizens.

It takes some time in organizing the work, and the results of health education can only be recognized after a long period of time, to get the most out of this short program of health now, Miss Hagquist went on to say. "The citizens must cooperate with the public health nurse in every way possible."

Miss Hagquist explained very fully, the ways of financing a full time nurse. The State Department of Health will appropriate \$1500 to be matched by an even \$1500 by the city and county to be used for support of a public health nurse. This money provides for the salary of a nurse, a car for transportation, an office and equipment, and materials for demonstrations.

Miss Hagquist closed her remarks with a general talk on the program of the public health nurse. She said:

"The nurse is first and last a health educator. The ultimate aim of all health work is to arouse in each individual a health conscience so that each person will practice daily health habits, and to awaken a community health conscience, so that safeguards for better health conditions will be properly looked after by those placed in charge of the management of the cities and county and finally that the state and nation will provide in some way for some means of bringing this education to the individual."

C. T. Watson, secretary of the Chamber of Commerce, made a brief talk, in which he assured the members of the Howard County Health Association of his hearty cooperation in this health program for Howard county. He stated that he felt it a most worthwhile investment.

Dr. M. H. Bennett, city health officer, also attended the meeting, and he too assured the committee his cooperation. Dr. Bennett emphasized the necessity of better sanitary conditions in the city. "In order to bring up healthy children," Dr. Bennett said, "those in charge should see that they have food that is handled only under sanitary conditions. Grown-ups should see to it that food is made safe for their children."

Dr. Bennett stated that he saw a great need for a milk ordinance to be passed in Big Spring.

Miss Lytle talked with the different committees and gave them some idea of what their work would consist of. Plans for the week's work were also made.

Miss Lytle plans to organize an Adult Health Club, next Thursday afternoon. A meeting will be held at the Community Clubhouse at 3 o'clock, and all women over 18 years of age are urged to attend.

The following committees were appointed: Education, Mrs. B. Reagan; Infant and Pre-School, Mrs. J. M. Fisher, Mrs. T. E. Paylor, Mrs. J. J. Thoop; Adult, Mrs. J. M. Fisher; School Program, W. C. Blankenship, city superintendent, Miss Pauline Cantrell, county superintendent.

### New Drumright Now Beginning Make Progress

Oil Field Road Is Now Being Constructed To Connect With Highways

### New Firms Coming

Second Town To Be Established In Glasscock County And Due To Make Steady Growth

NEW DRUMRIGHT, Glasscock County, Tex., Sept. 12.—Grading started yesterday on the road being built by Glasscock County which, when completed, will run from the heart of the oil field near the Blue Goose Cafe to the Garden City-Big Spring highway, intersecting highway No. 9 at Drumright. Sam Childress, Commissioner for this precinct, announces that the road from Drumright into the field will be open within the next ten days. A grader and scraper with caterpillar power are at work. This will be the first county road from the Big Spring San Angelo highway built into the oil field and will be welcomed by the oil fraternity. Several of the companies have signified their willingness to donate oil so that the new road may be oiled.

I. Schinopaki, representing the Famous Clothing Company, who have a store at Borger and at Wink, have bought lot 14, block 40 and will build a store building at once and carry a complete line of clothing, boots and shoes adapted to the oil field trade.

Lot 15 block 40 was sold to Herman Gersh of Odessa and Fyote and who now have a cafe at Louann, Ark. Mr. Gersh announces that he will build a 24 by 60 foot building and open a cafe here at once.

Lots 2, 3 and 4 block 40 have been sold to Bob McClain and Sebe Gouquet who operate the Monarch string of theatres thru the southern part of the state. They will have an air-dome opened within the next 30 days and announce that they will build a 24 by 120 foot theatre building.

A telephone pay station will be put in the townsite office the end of this week, the San Angelo Telephone Company announces. They are placing higher telephone poles through the town and setting them

### 36,722 Barrels Daily Production Of Our Field

By S. F. BALENTINE NEW DRUMRIGHT, Glasscock County, Texas, Sept. 12.—Three wells completed the 24 hour production test for proration purposes under the direction of umpire E. E. Andrews. The daily potential production was increased by 7700 barrels, bringing the field's total to 36,725 barrels daily from 19 producers.

Those completed yesterday are: Schermerhorn Oil Company's No. 2 Roberts which tested 4430 barrels by swabbing; the Sun Company's No. 1 Settles which swabbed 2160 barrels from the 2500 foot pay; Sprague Oil Company's No. 1 Roberts which pumped 1248 barrels. These figures are not official from the umpire but are approximately correct on the three wells tested yesterday.

Cosden and Company's No. 1 Roberts was put on test Tuesday and at the end of 20 hours had placed 2206 barrels in the tanks when the boiler broke down and the test was abandoned. A new test has been started which should be completed late this evening.

The Taylor-Link test located in the southeast corner of the southwest quarter of section 3, block 32-2 South was drilling at 945 feet in red bed last evening.

**MORE OFFICERS NEEDED** Sheriff Frank House has employed another deputy recently to aid in law enforcement in Howard county and is petitioning the Commissioners' Court to employ another deputy to help curb crime. It is apparent that crooks who follow the oil field camps are now headed to the Howard County oil fields in ever increasing numbers.

Archie Clayton left Tuesday morning for College Station, where he will attend A. & M. College this fall.

back off the street right of way.

New Drumright is the second town to be established in Glasscock County and promises to develop into a good size substantial oil field city. The oil play, owing to Henshaw et al west extension well, indicates a big play on the western area.

**SELLING ADDITION AT PECOS** Martin and Miller of this city are to conduct a sale of lots in their second subdivision to the town of Pecos tomorrow. Martin and Miller made a big success in the sale of lots in "College Addition" in Pecos not long since. All lots are to be sold at auction. Herald want ads get results.

**Greatly Reduced Prices**

WE have a tire for every purse and pocket—new low prices—the famous Gum-Dipped—the tire supreme, holding all world's records for safety, endurance and mileage.

Oldfield Tires—which for many years were Oldfield distributors and dealers at higher prices than any other high grade standard tire. Now selling for LESS THAN ANY OTHER STANDARD.

Courier Tires and Tubes—built in the great Firestone Factories—provide car owners with tires, with tough non-skid tread and rugged walls at prices below many unknown, untried.

Airway Tires—the great Firestone-built tires—selling at the industry's lowest price level.

These new low prices are made possible by a victorious fight against the foreign monopoly resulting in the removal of all restrictions on rubber supply. All Firestone prices have been below those of other tires of equal quality. These tires are built in the world's greatest efficient factories where Firestone engineers build the machines which build the tires.

Other Sizes at Proportionately Low Prices
