BRADSTREETS HONORED ON ANNIVERSARY The children of Mr. and Mrs. M. N. Bradstreet honored their parents with open

The golden wedding motif was featured in the table appointments and floral arrangements. The table was covered with a lace cloth underlaid with gold colored taffeta, and had for a center-piece a floral arrangement of bronze mums with pompoms flanking a fiftieth anniversary plate which was inscribed with the names of the couple's nine children. A mineature bride and groom and a golden fiftieth emblem topped the four-tiered cake. Gold colored tapers burned in the double crystal holders and a crystal punch bowl and silver

TV ANTENNAS

A sign of social prestige once was a television antenna towering above the

That was in the early day of television, when an ante nna on the roof meant a TV set in the living room.

But the modern miracle of technological development has reversed the prestige

The unblemished silhouette of a house now is a sign that the residents are "on the cable. "

In Wheeler the cable is Jack McCellan of McLean supplied by TV Cable System and the city is one of about 1,000 communities throughout the U.S. served by Community Antenna TV systems.

Cable TV is a way of giving Wheeler residents (who are among the 31/2 million Americans who are on CATV systems) better television reception from coaxial cables strung throughout the community,

Being "on the cable" means Wheeler residents have their choice of the wide range of programs offered on the ABC, CBS and NBC networks through 4 channels and through channel 8, Elk City, Okla.

Once in Wheeler the signals are amplified, filtered and sent by coaxial cable into the homes. The advantages are many:

* Better television reception and clear pictures. *More channels and full network coverage of ABC,

CBS and NBC. * End of rooftop antenna

maintenance problems and expense. * Greatly increased home safety through elimination of

the dangers of rooftop antennas. * Low cost monthly service for well- rounded programs

selection.
Basically, a CATV system such as Wheeler TV Cable is a means of distributing superior television reception in a fringe area by means of el-

ectronic amplification and

cable distribution.

A Chat

This issue marks the begin-ing of a new era in the print-ing of the Wheeler Times. Wth this issue we are introducing Offset.

Many of you have seen our job work and most of you have seen some of the jobs we have printed on this press. Our press is limited to an 11x17 sheet, therefore in order to produce the newspaper offect, it will be printed at Hereford, Texas.

Why offset? The reproduc-tion of advertisements and pictures is amazing. As my photography improves and as we learn the many tricks of the trade in ad lay-out you will

understand why !This column is being set on the linotype which is the old method of setting the copy You have noticed elsewhere the larger type for easier reading. This is the type that will be used in the future. The reason this column is on the linotype is that I have not learned to use the Vari-typer and it is as quick for me to set down here and set the column as it is for me to type it and hand it to my new employee and operator of

the Varityper to copy.
Mrs. Frank Walker Jr. will be setting our straight matter or stories and we would appreciate receiving all news of your company and club meetings by Monday. This will have to be the policy of the Times in order for us to meet deadlines.

We are sure there will be fewer mistakes in the stories in the future. Not trying to excures the errors, but in the past it has been my duty to set the news, ads, and talk to salesmen. Now, Mrs. Walker will set nothing but stories with no other duties except minding the of-fice when I am out.

We invite you to come in and see the new equipment and watch it operate.

I will be able to sell the ads and show proofs as soon as we get lined out. We urge you to ing in those personals which make your local news paper and we hope you can see an improvment in our paper.

NEW CHEVELLE!

BY CHEVROLET

The kind of go-6 or V8-you'd expect from one of Chevy's great highway performers. Come on down and drive it.

Now-Chevy spirit in a new kind of car!

built this one to do more than just stand around ing beautiful. Held its weight down in the 3,000and range. Then built four lusty engines—two sixes two V8's—with output all the way up to 220 horses*! And if that makes you think this is one frisky car,

ve got the right idea. ou've also got a roomy car here. Yet its 115-inch eelbase keeps it highly maneuverable in

he and very easy to park. With its Full Coil suspension, it's got a ride CHEVROLET reminds you of the Jet-smooth kind the

way it muffles noise and cushions bumps. And the fine hand of Body by Fisher craftsmen shows up beneath this one's suave good looks, too.

Sound good? There's more. Like the fact that Chevelle comes in three series with eleven models-convertibles, sport coupes, sedans, wagons, even Super Sport models with front bucket seats. Like the fact that (and see if this isn't one of the nicest surprises of all) the

new Chevelle comes at an easy-to-take price! Like to hear more? The listening's wonderful at your Chevrolet dealer's-and so's the driving.

* five entirely different kinds of cars at your Chevrolet Showroom—CHEVROLET, CHEVELLE, CHEVY II, CORVAIR & CORVETTE
