LEADERS OF FOUR POWERS TO CONFER TOMORROW IN CRUCIAL EFFORT TO FORESTALL EUROPEAN WAR

HITLER'S AIDE SAYS AMICABLE SOLUTION IS IN PROSPECT

Propaganda Minister Sounds A Note Of Peace As Berliners Cheer
BERLIN, Sept. 28 (AP)—Reichsfuehrer Hitler is planning a dramatic meeting with his ally, Premier Mussolini, at the historic Brenner Pass before the Munich conference tomorrow, reliable sources said tonight.

BERLIN, Sept. 28 (AP)—Germany's propaganda minister, Paul Joseph Goebbels, told a throng of Berliners today he foresaw an amicable solution of the German-Czechoslovak dispute "within a few days."
Goebbels, usually a fire-eater, sounded a note of peace as he spoke amid deafening "heils" in historic Lustgarten. He did not mention tomorrow's conference at Munich to be attended by Reichsfuehrer Hitler, Prime Minister Chamberlain, Premier Mussolini and Premier Daladier, but he declared:
"I, as a man in the know of things, can tell you we neither can nor want to retreat, as the fuehrer has pledged his word to support the Sudetens, but the solution is imminent."
It was believed, however, he was referring to the Munich conference when he said:
"Herr Benes (president of Czechoslovakia) now will be forced to stick to his promise."
The fuehrer is on guard for peace in these critical days when the center of European politics has shifted to Germany, he asserted.

Czechs' War Preparation Continued

Premier Syrovky Due To Make Radio Address Today

PRAQUE, Sept. 28 (AP)—Czechoslovakia rushed final preparations for war and prayed for peace today, awaiting a radio address by Premier Jan Syrovky.
The cabinet decided last night that the premier would speak to the nation today, the name day of Bohemia's patron saint, St. Wenceslas, but the exact time of his address was not stated.
While troop trains carried additional defenders to the frontiers and Czechoslovakia was blacked out as a precaution against possible air raids, Cardinal Archbishop Kasper appealed to all Catholics to pray that war might be averted.
The cabinet meeting was held behind darkened windows. Ministers studied reports of large-scale war preparations and of Prime Minister Chamberlain's radio address last night, which a foreign office spokesman said was considered "the last effort to maintain peace."
The spokesman said the British premier "went to the extreme limit to which man can go."
Fear of impending disaster brought most political dissenters, outside the Sudeten Germans themselves, into a united front behind the government.
It was indicated President Benes would send a new message to Poland today on the question of the Polish minority population in Czechoslovakia.
A special courier arrived by airplane Tuesday with Poland's answer to a Czechoslovak note suggesting negotiation of the minority issue.

1. He's the only amateur of seven golfing brothers, but he's the national champion. Who is he?
2. What presidential secretary underwent a serious operation?
3. In the area of Czechoslovakia most nearly comparable to that of (a) Bohemia, (b) Silesia, or (c) Texas?
4. Where is Hells Bells, former king of Mississippi?
5. A strike vote was ordered for what nationwide industry? Why?

THE LINEUP FOR WHAT MAY BE REAL WAR GAME

With Chancellor Hitler's announcement to the world that he will not give up his claims in Czechoslovakia, and with the Czechs renewed "no" to his demands, the lineup of nations in event of war began to form. This map shows the probable allies. Countries with diagonal lines go with Germany; those with dots go against her. Poland demands a part of the Czech nation, but so far has joined no alliance. Countries so far neutral in the quarrel are shown in white, and the center of the trouble—Czechoslovakia—in black.

City Sets Date For Bond Sale After Water Issue Approved By 4-1 Ratio

WASHINGTON, Sept. 28 (AP)—White House attaches announced today that President Roosevelt had sent a personal message to Premier Mussolini "in the interest of preserving world peace."
The announcement was made, in response to inquiries, by Stephen Early, presidential secretary, who said the message was dispatched yesterday.
Early asserted that because the communication was personal, it would not be made public textually.
He added, however, that the note dealt with preserving world peace. White House spokesmen hailed as "very encouraging" the summoning by Adolf Hitler of representatives of England, France and Italy to a conference in Munich tomorrow.
Early told this to newsmen, advising them simultaneously that President Roosevelt's cable to the German chancellor last night probably would be the chief executive's final word in the European crisis.
The president urged Hitler to avoid plunging Europe into war. Unlike his earlier plea for peace which went to Czechoslovakia, Great Britain and France as well as Germany, the president directed his last message only to Hitler, thereby indicating he believed the reichsfuehrer would be responsible if negotiations to avert war broke down now.
"Present negotiations still stand open," he said. "They can be continued if you will give the word."
He had made his pleas for peace, he said, because:
"The conscience and the impelling desire of the people of my country demand that the voice of their government be raised, again and yet again to avert and to avoid war."
The state questioned about attitude toward the death penalty, and the defense counsel stressed the right of self-defense.
Jury commissioners were in session Thursday to pick jurors for the November term. The grand jury will not meet again.

Vote 483 For, 116 Against
Summer Irrigation Rate Extended For A Month
Big Spring Tuesday voted, by a 4 to 1 margin, an unprecedented bond issue in the face of unprecedented need, approving a bonded obligation of \$275,000 for the city's share of a half million dollar water development program.
The vote, canvassed by the city commission in regular session following the polls close, was 483 for the bonds and 116 opposed.
News of the passage brought relief to the water outlook and the city immediately announced that the summer irrigation water rate would be extended an extra month until Oct. 20.
Commissioners fixed Oct. 11 as the date when bids for the bonds will be opened.
Owner of one of three prospective dam sites near here advised city officials Wednesday morning of a willingness to cooperate, both from the point of community spirit and of protecting investments in the town.
Improvements anticipated, already made clear, will include a nearby dam, pipeline, filtration plant, additional small wells, elevated storage tank, revamping of the distribution system and covering of the reservoirs.
The tax rate and tax roll for 1938 were fixed by the city commission in the meeting Tuesday evening, but the rate remained at \$1.30 since the 40 cent hike due to the bonds will not take effect until 1939. The rolls totaled \$6,172,115 and showed a levy of \$90,237.50.
Increase of \$107,480 was noted over the 1937 roll due to new construction and increased stocks of merchandise during the year. The assessed values were divided as follows: Real property, \$4,467,564, and personal property \$1,704,551.
The levy for the year showed 60 cents on each \$100 valuation for interest and sinking fund purposes and 70 cents on the \$100 valuation of general fund revenues.

JAPAN ASKED TO JOIN IN PEACE PLEA
TOKYO, Sept. 28 (AP)—United States Ambassador Joseph C. Grew today asked Japan to send a peace appeal to Adolf Hitler and President Eduard Benes of Czechoslovakia.
Grew made his proposal in a half-hour conference with General Kaushige Ugaki, foreign minister.
He called Ugaki's attention to President Roosevelt's first appeal to Hitler and Benes and suggested that Japan send a similar message.
The foreign office announced that Ugaki replied Japan "will give the American proposal serious consideration from her own standpoint and take appropriate measures in this connection."

FDR's Peace Appeal To Hitler Followed By One To Il Duce

WASHINGTON, Sept. 28 (AP)—White House attaches announced today that President Roosevelt had sent a personal message to Premier Mussolini "in the interest of preserving world peace."

Mexican Gets 10-Year Term

With one murder trial out of the way, the 70th district court turned to a second Wednesday morning.
Gregorio Cepeda, 41-year-old Mexican, was given 10 years Tuesday evening for the slaying of his daughter's baby.
Wednesday the court was busy about securing a jury from a special venire of 150 men to hear the murder trial of Leonardo Gonzales, Mexican beer tavern operator. Gonzales is charged with fatally shooting a Mexican sheepherder following a brawl at his place.
At noon only four men had been chosen for jury service.
The state questioned about attitude toward the death penalty, and the defense counsel stressed the right of self-defense.
Jury commissioners were in session Thursday to pick jurors for the November term. The grand jury will not meet again.

Duce Leaves For Munich

ROME, Sept. 28 (AP)—Premier Mussolini, suddenly became the central figure of Europe's efforts to avert war, left Rome at 8 p. m. tonight for Munich, where he is to meet tomorrow with Prime Minister Chamberlain, Chancellor Hitler and Premier Daladier.
Il Duce was accompanied by his foreign minister and son-in-law, Count Galeazzo Ciano, on his special train.
A vast crowd, evidently relieved at the momentary lifting of the war clouds, gave Mussolini an uproarious sendoff as he departed to assume the role of mediator in the German-Czechoslovak crisis.
He accepted the responsibility, informed sources said, at the request of Great Britain in a desperate effort to avert war. A personal message from President Roosevelt, received at the crucial moment, may also have influenced his acceptance.
After receiving a personal message from Prime Minister Chamberlain of Great Britain, Il Duce immediately got in touch with Reichsfuehrer Hitler, presumably by telephone.
Subsequently, it was announced that Mussolini, Hitler, Chamberlain and Premier Daladier of France would meet in Munich tomorrow morning.

STOCKS STAGE SHARP RALLY

NEW YORK, Sept. 28 (AP)—Wall Street today greeted news of the Munich conference of leading European government heads with a rousing uprising in the stock exchange, one of the sharpest of recent years.
Stocks had slumped \$1 to \$3 a share in the first few minutes of trading in response to extreme nervousness of European markets, but buyers swarmed into the market at the end of the first half hour.
Losses were quickly recovered, many stocks jumped \$1 to \$4 above yesterday's final prices, and the volume of trading sent the ticker in arrears. The British pound sterling recovered in foreign exchange dealings.
But if he makes too many concessions in their favor at Munich, where Hitler began his march to world power 15 years ago, he will risk a storm of opposition at home.
Powerful sections of England, although eager for peace, do not want to pay too high a price for it.
Among those who heard Chamberlain's words to parliament were Queen Mother Mary and diplomats of every country who could find space in the diplomatic gallery of the house of commons.
The invitation from Hitler for the Munich meeting came even as Chamberlain was telling a tense parliament of his apparently hopeless efforts to avert war.
He revealed that the Fuehrer's invitation followed his own appeal to Mussolini to restrain the German leader and Il Duce's telephone communication to Berlin.
Chamberlain said that Hitler had agreed to postpone mobilization of the German army for 24 hours to permit the fateful Munich conference of the premiers to be held.
While he talked the British fleet was mobilizing, millions of men were under arms in Britain, Germany, France, Italy and Czechoslovakia.

ASSERTS NAZI BUND HAS A SPY SYSTEM IN READINESS IN U. S.

WASHINGTON, Sept. 28 (AP)—John C. Metcalfe, an investigator for the Dies committee on un-American activities, testified today the German-American bund has laid the groundwork for a "sabotage machine and spy net to be put in operation in the event that the United States should go to war with Germany."
Metcalfe told the house committee, headed by Chairman Dies (D-Tex) that the bund intended to staff the system with members of its force of "storm troops."
Metcalfe charged the bund officials "have already shipped 100 U. S. navy yards, where they have obtained employment and secured access to building plans, and placed them in direct possession of secret plans for construction of U. S. navy battleships of the 'Montford' type."
Metcalfe said that "secret troops" in New York, Los Angeles and Milwaukee boasted that they had engaged in "open fighting" and that "the most spectacular of these took place in the coliseum and on the streets of Los Angeles."
Metcalfe charged the bund officials "have already shipped 100 U. S. navy yards, where they have obtained employment and secured access to building plans, and placed them in direct possession of secret plans for construction of U. S. navy battleships of the 'Montford' type."

THE SPORTS PARADE

By HANK HART

The recent "trouble" on the Big Spring high school football team that was causing more "corner leaguing" here than Europe's double dribbling is over and it is hoped that every thing happened for the best.

Naturally some of the Longhorns' promising athletes were lost and, although discussion had been denied, there was plainly something wrong with the situation as it stood.

Those boys who walked out voluntarily agreed to do so, jeopardizing, probably, their good standing but their action is certainly no discredit to their reputations. Rather it is a case of a series of misunderstandings and their withdrawal without statement plainly showed that they were willing to do their part in bringing about a settlement.

The Eastern New Mexico Junior college Greyhounds and the Hardin-Simmons freshmen griders battled to a scoreless tie last weekend in Abilene in a game in which four Big Spring boys saw plenty of action. Louie Madison, Steve Baker and Six Wood performed for the Fortales crew while H. C. Burrus was used by the Abileneans.

Burrus, who performed at end here in 1936 but who was moved to guard last fall, is back at end.

In The Groove

The Irene, Tex., boy, Tony York, a cousin of Mrs. R. E. Blount of this city, seems to be quite the thing in the American Association playoff between Kansas City and St. Paul.

Tony, with the Saints, is leading the hitters of both teams as the series goes into the sixth game with St. Paul leading, three games to two. Tony came up with four hits in as many trips Saturday night, enjoyed another perfect day Sunday and last night, as the Saints fought a losing battle, succeeded in connecting safely his first two trips.

Provided the Saints win they will meet the winner of the Newark-Buffalo International league playoff which ordinarily can have but one ending.

Newark, it appears, has too many guns. Trailing three games to one in their Governor's Cup first round playoff with Rochester the Bears came back to sweep three in a row and come out on top.

Hugh Brown, a lightweight, tells us that he's capable of taking the Golden Gloves title in the 175-pound division provided the tournament is staged here again next January. Brown especially wants to tangle with E. P. Lawson, Midland, who won the crown last time.

According to the Rice publicity department, headed by no less an authority than Bill Wallace, a total of 8,500 season tickets were sold for the Rice home grid games this fall which should set a conference record of some kind.

The new field of the Owls, which will seat about 32,000, is said to be a dilly. The old grounds are being used as a practice field.

Changing Offense For Austin-High Battle; Mentors Work For Speed

Scrimmage Is On Schedule For Today

Way To Stop Swisher And Spitzer Problem In Local Camp

Convinced that it will have to match speed with speed if they expect to progress against this week's opponent the local coaching combination plunged into serious work for the Austin high school battle in El Paso this weekend with a long scrimmage session at Steer stadium Tuesday afternoon.

Mentor W. J. Miller's Panther crew certainly is no larger than the two opponents this season but rumors drift in from the border city that the secret of the outfit's success is speed and more speed plus a better than average passing game plus a quick breaking offense.

Coaches Murphy and Brandon tend to fight the kind of attack with hard charging ends, alert backs and a different attack of their own.

Alton Bostick was idle in Tuesday's drills although in uniform. He is still bothered with an injured ankle but it is not expected to bother him to any degree in the Saturday night battle.

The present lineup will find Check Smith back at left end with Bobby Savage at the other terminal, Durwood Dearing and James Wheat at tackles, Clyde Smith and Hal Battle at guards; Paul Kaech at center, Bostick at quarter, D. R. Gartman and Ross Callahan at the half back posts and Lefty Bethell at full.

The Austin secondary is led by the 165-pound Bob Swisher and Jerry Spitzer, who tips in at 175 pounds. They are aided by Manuel Ornelas, veteran of last year's squad, and Sammy Klunk, 135-pound quarter.

The local crew will return to the stadium this afternoon for another body contacting drill. They are expected to embark Friday at noon by bus for El Paso, will probably spend the night in Van Horn.

Forsan, Westbrook And Garner Out To Protect PSAA Records Friday

Buff-Lion Game May Be One Of Closest

Garner and Forsan are strongly favored to cop their weekend PSAA grid battles and continue as the association leaders while the Westbrook-Sterling City battle at Sterling City will allow the new member to be seen under pressure its first time out. Westbrook is the only team in the loop to chalk up two victories and will form a rugged test for the Sterling City outfit.

Garner surprised by trouncing the Courtney crew last week in a game played at Courtney and should triumph without too much trouble over Herabell Wheeler's inexperienced Bearkats. Wheeler's crew is going to be dangerous after it develops.

Forsan stamped themselves as heavy favorites to take the league coronation in its only start two weeks ago, stopping the Bearkats, 44-0, but the Lions will form plenty of opposition. Nolan Bennett's crew lost only after a struggle to Garner last Friday, 19-8. The Billies succeeded in making only one first down against the Lions.

MIZE AND CAVARRETTA MAY BE HEADED FOR NY GIANTS

By SID FEDER
NEW YORK, Sept. 26 (AP) — The Yankees figure the Cubs'll come through in the dizzy National league race. . . . But that may be only what they're hoping. . . . Because the box office (and the players' cut) will be lots sweeter in Wrigley Field than Bill Benavenger's ballyard. . . . Things we'd like to see: Jimmy Wilson managing those Dodgers, with a bankroll big enough to cash in on those baseball wins. . . . Well, folks, that 185 g's can't all be written off as loss for the Cubs after the way old Dix came through yesterday. . . . And howabout an assist for Louisiana Bill Lee coming in cold to fan Al Todd in the ninth, after tossing a full nine innings against the Cards the day before.

It's none other than your old pal Bolly Grimes scouting the Yankees for the Pirates. There'll be no War Admiral-Benavenger get-together at Belmont this trip. . . . The Biscuit's already been shipped to Delaware. . . . The grapevine says Bill Terry has his eyes on Johnny Mize and Phil Cavarretta for the winter trading. . . . But you can definitely write off the Joe DiMaggio-for-Hank Greenberg talk. . . . John Henry Lewis will train out near Pittsburgh for his Oct. 21 title go with Al Garner at New Haven.

DIMAG OVERSHADOWS PITT OR CHICAGO OUTFIELDERS

(This is the first of three stories comparing the prospective opponents in the world series. First: the outfielders.)

BY GAYLE TALBOT
NEW YORK, Sept. 26 (AP)—In lining up the outfielders that will clash in the first world series game next Wednesday—whether the Yankees play the Pittsburgh Pirates or the Chicago Cubs—the most logical first move is to take Joe DiMaggio, who is receiving \$25,000 for playing centerfield with the Yanks this season.

You might take Joe for about \$200,000, cash, if Owner Jack Ruppert happened to be mad at him. But you would be lucky to get him at that price, and if either the Pirates or Cubs goes through the big series without having Joe bust up a couple of games, they will be lucky, too.

Joe, the leading slugger of a club feared for distance hitting, has a batting average of .328 and 31 home runs to his credit, and gives the Yankee biescher patrol an obvious edge over either National league trio in a short series.

Constant-Threat
A right-handed hitter with lots of "wrist" in his swing, DiMaggio will be a distinct threat. So, to a slightly lesser degree, will be Tommy Henrich (.269) who plays right field for the Yanks and has poled 28 homers, George Selkirk (.253), who divides his field duties with Myril Hoag (.281), has hit 10.

Over the season, the Pittsburgh outfield of Johnny Rizzo, Lloyd Waner and Paul Waner has been a sweet one to have around. Any baseball man would rather have it than the Cub combination of Angie Galan, Frank Demaree and Carl Reynolds. Yet the Pirate trio seldom knocks balls out of sight.

Rizzo, the nearest the Pirates have to a game wrecker, has hit 20 home runs and has an average of .297. Also, he has knocked across 104 runs, which is excellent. But Lloyd Waner, who heads the club in hitting with a mark of .311, and his brother Paul, with .283, are strictly spot hitters.

Spearshead of Offense
This outfield, though, is the spearhead of the Pittsburgh offense. Lloyd is supposed to reach first, Paul is expected to advance him a base or two, and then it is up to either Rizzo or Floyd Vaughan to bring him around. If that doesn't work, they wait an inning or two and try it again.

The Yankee system calls for Henrich to hit a homer and for DiMaggio to shake hands with him as he crosses the plate. Or for Gehrig to hit it and Selkirk do the greeting.

Reynolds, the veteran centerfielder, leads the Chicago gardeners with a hitting average of .299, followed by Galan, .284, and Demaree, the clean-up slugger, with .270. Galan, however, twisted a knee in yesterday's game with the Pirates and may not be available if the Cubs win the pennant. Phil Cavarretta, a .240 hitter, is taking Galan's place.

There is little to choose between the three outfielders in fielding skill. They're all good.

Hill Defeats Daniel, One Up

Ben Daniel was edged out by George Hill, one up on the 20th hole, Tuesday afternoon in a battle for a second round second flight slot in the Fall golf tournament at the Municipal course. It is the only match of that flight to be played this far this week.

Frog-Hog Go Is Expected To Be Aerial War

New Record May Be Tacked Up; Others Drive Hard

By the Associated Press
If what's transpiring in the horns of the Texas Christian Horned Frogs and Arkansas university Razorbacks means what everybody thinks some kind of record is due Saturday when these two teams clash at Fort Worth in the opening Southwest conference championship game.

The Christians and Razorbacks are hammering hard on what can be done with passes and past records show these two teams are not a bit timid about throwing the pigskin around the lot. At Fort Worth they were predicting a record number of passes for a single game would be pitched.

Other squads drove hard preparing for important inter-sectional games.

The Baylor Bears got a tough scrimmage but there were no injuries. Odell Griffin, star sophomore guard, returned to the squad but a knee injury received last week against Southwestern may keep him out of the lineup against Oklahoma A. and M. at Wichita Falls Friday night.

Sill Handicapped
Southern Methodist had Roy Holbrook and George Sanders nursing heavy colds and Jack Sanders, slated for first string tackle, who missed the opener because of a foot injury, was back but could not drive well off the leg.

Scrimmage sessions may have to be dispensed with at Rice Institute this week because of the prevalence of injuries. Paul Hancock, blocking back, was not expected to be able to play against Oklahoma university Saturday because of a shoulder hurt and several other Owls nursed bruises.

The Texas Aggies worked against a Tulsa defense prepared on information supplied by scouts. The University of Texas drilled long and hard on defense for the game with Louisiana State. Texas scouts reported the Tigers were caught napping in their surprise defeat at the hands of Ole Miss last week and warned the Longhorns they would meet a team that was probably better than the one that downed Texas last year.

Williams was fouled by the Feralan and Ref. Ray Clements ruled that Ben All was ineligible for further consideration.

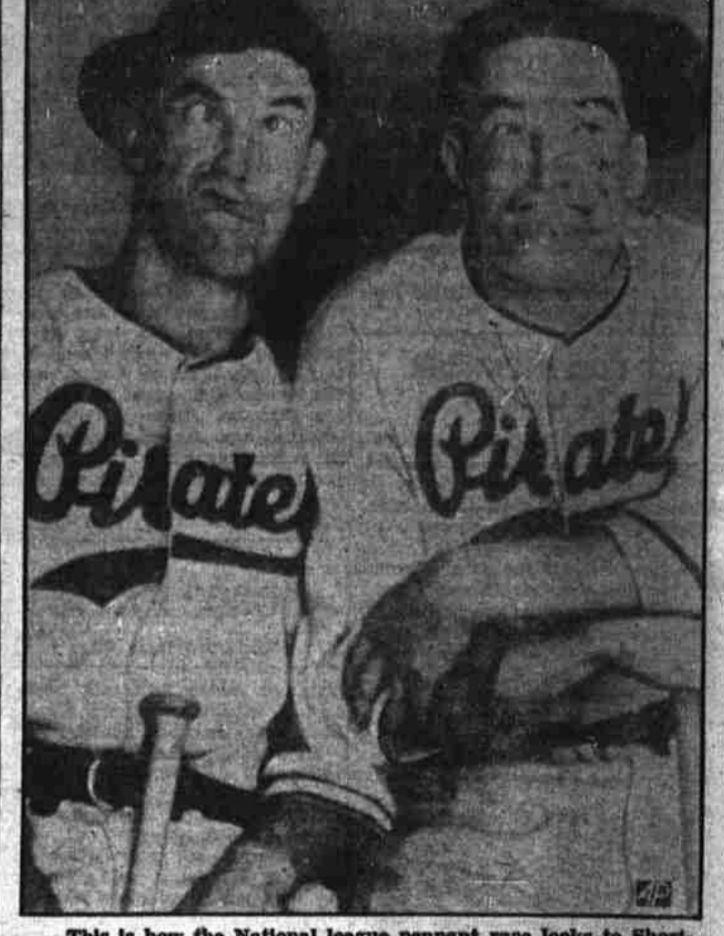

Scotty's advantage during the time he took to get the first fall was clean-cut. He permitted a variety of illegal holds that Mar-Allah used, then went to work with a fist attack that in the end left the bearded one pinned to the mat.

Cub Win Would Change Lead

Diz Dean Contributes Nobly In Opener; Clay Bryant Up Today

CHICAGO, Sept. 26 (AP) — Those rampaging Chicago Cubs, noted in baseball history as great stretch runners, went after the Pittsburgh Pirates and the National league leadership today. In one of the most furious pennant drives in recent years, the

This is how the National league pennant race looks to shortstop Arky Vaughan (left) and First Baseman Gus Suhr these days. With only a few games left Vaughan and Suhr turned on these dugout faces and insisted there was nothing to worry about, much — except games with the Reds and the Cubs.

Cubs battled the Bucs in the second of a three game series at Wrigley Field—with victory meaning an edge which would climax a dramatic uphill battle for a position nine games back little more than a month ago.

One half a game separated the teams as they squared away, the Cub's thrill-packed 5 to 1 victory yesterday having clipped a full game off the lead held by the Bucs since early July.

It was on the young shoulders of Clay Bryant, already winner of 19 games, that the Cubs placed their hopes of another victory and bright chances to duplicate the great pennant winning rush of 1935.

The league leaders, still confident they hold the whip hand, will depend on Bob Klinger, victorious in 12 games while losing five.

cramp in Stratton's leg muscle gave Joe Kopecky the semi-final nod after Walt had held the advantage most of the way.

In the opener Gust Johnson and Johnny Nemanic went 20 minutes to a draw in an interesting set.

Wallace Asked To Go Out To The Farm

Advised He Can Get A Better Idea Of Situation There

AUSTIN, Sept. 26 (AP)—An invitation for Secretary of Agriculture Henry A. Wallace to visit Texas cotton farmers "in the field" to get a true picture of what they think of the administration's farm program sped to the cabinet officer today.

From Ralph W. Moore of Granger, master of the Texas Grange and critic of the farm program, it was sent to Fort Worth where Wallace will speak at an interstate farm meeting Sept. 30.

In an open letter Moore told Wallace: "I do not believe you will

get this picture in the largest hotels and metropolitan centers of the cotton sections. The groups who will attend your meetings in such places will be only the farmers who endorse your program."

Meanwhile J. E. McDonald, Texas agriculture commissioner who has sharply criticized the administration program planned additional speeches in behalf of the domestic allotment plan for cotton production. The proposal would provide a federal subsidy on cotton grown for domestic consumption and authorize unlimited production for sale at world prices as against the present plan of restricted acreage with rewards for compliance and penalties for non-compliance.

McDonald said he would speak at Nacogdoches and Carthage Oct. 8, Clarksville Oct. 10, Corsicana Oct. 11 and Bellville Oct. 12.

Crop Control Act Would Be Continued Even During War

WASHINGTON, Sept. 26 (AP)—A high agriculture department official said today the administration intended to continue in effect its present crop control legislation even if a European war brought a huge export demand for American farm products.

This official said Secretary Wallace would reassert the administration's faith in the existing legislation in speeches to be made this week in the wheat and cotton belts. He will speak at Hutchinson, Kas., Thursday, and at Fort Worth, Texas, Friday.

The secretary was described as believing the present law contained ample provisions for any expansion of production that might be required, and that the legislation would be needed to prevent over-expansion and to bring about an orderly curtailment of production at the conclusion of hostilities when war demand ended.

Officials emphasized that the administration has given no consideration thus far to possible expansion of agricultural production. They said the matter would not be taken up unless war actually developed.

Tiger Sacker Needs 3 Home Runs In Race

Clouted Out Pair Off Browns' Bill Cox In Twin Bill's Second

By RUGG S. FULLERTON, JR., Associated Press Sports Writer

The rest of the baseball world may be hanging on the outcome of the Pittsburgh-Chicago series, but what excites the Detroit Tigers, and most of the American League, is whether Hank Greenberg can sock three more homers between now and Sunday.

Big Hank hit his 57th and 58th circuit blows of the season yesterday in a short-second game as the Tigers trimmed the St. Louis Browns, 5-4 and 10-2. That broke a record in itself for it was the eleventh time he had hit two or more in a game this season. But the question is whether he can equal or top Babe Ruth's major league record of 60, established back in 1927.

Greenberg had five games to go if rain doesn't interfere. That gives him a good chance, for when he finds the range he usually makes his wallops in bunches. But he also has had several long stretches when he couldn't knock one out of the lot.

Ahead of '27, Ruth had only 56 homers, but he made four in three days, belting No. 60 in the semi-final game of the season.

Greenberg was the only one who managed to give 14 other clubs a look-in while the Cubs and Pirates battled in the series that means the National League pennant. Chicago's 2-1 victory, earned through a magnificent mound performance by sore-armed Dizzy Dean, reduced the Buccaners lead to a half game.

Another victory today would put the Cubs on top, but they'd still have to win the final tomorrow to hold the lead.

For the rest of the clubs, yesterday's games were hardly more than just playing out the schedule. The Boston Red Sox walloped the Athletics 11-1; the Indians downed the Chicago White Sox 6-1 and the champion Yankees finally made it two straight, beating Washington 5-2.

Faul Dean, Dizzy's comebacking brother, took a pasting at St. Louis when the Cincinnati Reds belted him out in five innings and beat the Cards 3-1. The Boston Bees swept a doubleheader, 2-1 and 4-1. The Giants and Dodgers broke even in their final engagement, New York taking the first game 5-3 and Brooklyn the six-inning nightcap, 5-1.

At this stage in '27, Ruth had only 56 homers, but he made four in three days, belting No. 60 in the semi-final game of the season.

Snead Eight Over Par In Winning \$5,000 Open

WHITE PLAINS, N. Y., Sept. 26 (AP)—Sam Snead, who ended a promising career as the best soda-jerker in Hot Springs, W. Va., to turn to golf, had five thousand added reasons today for rejecting about that change of careers.

The reasons were written on the \$5,000 check which Sluggin' Sam received yesterday after winning the 108-hole Westchester Open golf tournament with a score of 490, only ten strokes over par. The "only" is used advisedly, since the best golfers in the country cracked par just eight times in some 710 clubs of the tough Fenway golf club course.

PHILADELPHIA, Sept. 26 (AP)—J. Smith Ferebee, young Chicago broker and marathon golfer, arrived here today on the last lap of his transcontinental golf tour.

He played into darkness at Chicago last night to complete 72 holes before boarding his plane which brought him to Camden, N. J., across the Delaware river from Philadelphia.

Ferebee's goal is 600 holes of golf in four days in eight cities. He started his cross-country marathon Sunday at Los Angeles. He'll reach his goal if he completes 72-hole rounds today at Philadelphia and New York.

WASHINGTON, Sept. 26 (AP)—The bureau of mines reported today stocks of domestic and foreign crude petroleum at the close of the week ended Sept. 17 totaled 280,945,000 barrels, a net decrease of 1,512,000 barrels compared with the previous week. Stocks of domestic oil decreased 1,734,000 barrels for the week and foreign crude increased 222,000 barrels.

Daily average production for the week was 3,260,000 barrels or an increase of 35,000 barrels compared with the previous week's level. Runs to still averaged 3,260,000 barrels daily, compared with 3,250,000 barrels for the preceding week. Daily average imports were 95,000 barrels.

NEW YORK, Sept. 26 (AP)—Defiant trucking firms today threatened a court fight to stop the use of city sanitation trucks to smash a strike deadlock that has tied up New York City's freight transportation.

Signs of a break appeared in the opposition to a compromise settlement proposed by Mayor LaGuardia, however, when a number of individual truck operators signed contracts embodying the mayor's peace terms.

Undaunted by the threat of court action made by Hugh E. Sheridan, chairman of the joint board of truck owners, LaGuardia ordered a fleet of 600 city-owned trucks to continue delivery of perishable foodstuffs and emergency relief shipments of materials for hurricane-stricken Long Island and New England.

GALVESTON, Sept. 26 (AP)—The National Association of Hotel Men today settled down to the last sessions of their annual convention before starting a long trek to Mexico City tomorrow.

The 500 delegates some time during the day will ballot on their officers for the ensuing year, hear a few more speeches and then frolic to the wide beach of this island for an afternoon of fun.

Clayton Rand of Gulfport, Miss., in a convention address, predicted America would find a stable middle course to offset what he termed its "present uneconomic trends."

HATESVILLE, Ark., Sept. 26 (AP)—Waiving preliminary hearing, E. F. Nesley, 35, Little Rock powder salesman headquartered at Joplin, Mo., was held for grand jury action on first degree murder charges yesterday in the death of Marion Jordan, 37, Hatesville plumber. He pleaded innocent and obtained his freedom under \$5,000 bond. The grand jury meets October 11.

Depputy Prosecutor Preston W. Grace said Nesley was accused of striking the plumber over the head with a bottle during a roadside altercation.

PERRY BIDS FOR NATL. PRO TITLE

CHICAGO, Sept. 26 (AP)—Fred Perry, England's No. 1 ranking tennis amateur until he turned professional, returns to tournament competition tonight seeking his first national professional singles crown.

A field of 25 others including Bruce Barnes, Berkeley, Calif., George Lott Jr., Vincent Richards, Walter Senior and Richard Skeen will compete in the tournament, which opened over two courts at the Chicago arena today. The event will run through Sunday.

Blues, Led By Walt Judnick, Pull Back Into Playoff Fight

KANSAS CITY, Sept. 26 (AP)—Walter Judnick's home run bat sent Kansas City and St. Paul back to Minnesota today to resume their battle for the American Association championship and a chance to meet the International League winner in the little world series.

Judnick clubbed two homers and two singles, drove in five runs and scored three as Kansas City won here last night 7-6. The victory was the Blues' second in the final playoff series.

St. Paul, with three wins in the best of seven setto, can clinch the title by winning tonight.

NEW YORK, Sept. 26 (AP)—The board of directors of Kansas City Southern Railway today approved unification of that line with Louisiana & Arkansas Railway.

To be effective, the plan must be approved by the Interstate Commerce Commission, by a stockholder meeting of the K.C.S., and by the controlling group of L. & A. The last named has already informally approved.

The plan has been pressed for the past three years by Harvey C. Couch, Pine Bluff, Ark., utility magnate. Couch is chairman of the board of K.C.S., and a substantial stockholder in that road, and is head of the group which has controlling interest in L. & A.

The proposal, if effective, unites in one system a direct route from Kansas City to Fort Arthur, Texas, and other Sabine ports, crossed by a line between Dallas, Texas, and New Orleans, with connections to most other roads serving the Southwest.

Couch said it would provide ship-owners with a more direct route from Kansas City to New Orleans than that of any other one railroad.

Court Ruling Is Handed Down On Drilling Permits

AUSTIN, Sept. 26 (AP)—The third court of civil appeals held today the railroad commission has authority to issue a permit to the record title holder for drilling an oil well in exception to the general spacing rule even though there may be a bona fide dispute over title to the tract.

It affirmed a Travis county district court's ruling sustaining a permit granted R. M. Wood to drill a one-acre tract in Gregg county.

The Shell Petroleum corporation and Rowan and Nichols, Fort Worth operators, appealed from the commission's order claiming it was unjust and unreasonable because there was a bona fide dispute to Wood's title when the order was issued. They did not seek adjudication of the title, merely presenting the contention to show they claimed before the commission the title was in dispute and the commission therefore had no authority to issue a permit.

The appellate court said it knew of no rule which would require one holding a record title and in actual possession of the property to bring suit to establish his title against bare claims to the property.

Administration officials expressed the opinion today that almost the whole of the western hemisphere would follow the United States in any action it might have to take because of war in Europe.

They pointed to the cordial readiness with which the presidents of the principal Latin American states followed the example of President Roosevelt in appealing for peace in cables to Adolf Hitler and President Benes.

The presidents of Argentina, Brazil, Chile and Peru already have cabled. Some of the presidents also have cabled Mr. Roosevelt their hearty appreciation of his effort.

Officials said this widespread support from Latin-America was on the initiative of the presidents of the American republics and was not requested by the state department.

To Discuss Revision Of Interstate Oil Compact At Session

TULSA, Okla., Sept. 26 (AP)—The question of whether interstate oil compact should be devised materially to give force to the agreement appeared likely to come up during the session of the interstate oil compact commission, convening here today for a two-day meeting.

Oil men were reported in general to be favorable to the continuation of the compact which will expire in 1939 unless congress passes a bill to extend it again for two years.

Kansas is known to be in favor of revisions and re-drafting of the compact before it is re-extended.

Both Gov. James V. Alfred of Oklahoma and Gov. E. W. Marland of Illinois to an agreement for orderly production of their oil resources to prevent waste.

Yes, see America for what it really is—better than a promised land.

To our forefathers it was just a plain land of promise with no trimmings. The merciless frontier drove hard bargains... demanded privations and daring in exchange for day-to-day existence. But they were thankful and confident.

Today vast oceans still guard our freedom. We have the Earth's greatest storehouse of natural resources. Comforts and conveniences abound. Best of all, we see every promise of a future more generous still. For America? Yes! But especially for all those with the spirit of America's pioneers.

FOR SAFETY ON THE HIGHWAYS

Recent injuries and deaths caused by collisions of wagons and automobiles on the highway at night have led some peace officers and highway patrolmen to give notice that the law requiring lights or adequate reflectors on wagons or other animal drawn vehicles will be enforced...

The campaign for greater safety on the highways cannot go too far, and it ought to go farther. The law requiring two headlights on automobiles as well as at least one rear light. Yet thousands of automobiles are operated on the roads and the streets every night with one headlight or no headlight and sometimes no rear light.

Today And Tomorrow By Walter Lippmann

(Mr. Lippmann's column is published as an informational and news feature. His views are personal and are not to be construed as necessarily reflecting the editorial opinion of The Herald-Editor's Note.)

THE BURNING OF THE BRIDGES

A week or so before the Nuremberg congress, a highly placed neutral diplomat came out of Berlin saying there would be no war. From his long association with the responsible officials on both sides, he was confident that Hitler had had such perfect control of German opinion and action that he could bring Europe to the verge of war, could obtain by threat...

Lippmann touting concessions, and could then stop to enjoy a bloodless triumph. Knowing that in both England and France the governing classes were willing to pay almost any price for peace, the diplomat's prophecy seemed plausible to many who heard it. Yet it looks now as if the prophecy had been fundamentally wrong—not as regards the willingness of the Western powers to concede more than Hitler or the Sudeten Nazis had ever demanded—but wrong in supposing that Hitler could stop when he had won a diplomatic victory. To understand why Hitler could not stop when he had won the diplomatic victory of September 21 one must realize that he is not the chief of a normal state, but the leader of a revolutionary movement which has no choice but to advance because it burns all its bridges behind it.

Thus Hitler knows that a negotiated settlement with the Czechs has become unworkable and that is why he was compelled to increase his demands the moment Mr. Chamberlain offered him such embarrassing concessions. Hitler knows that a negotiated settlement is unworkable because all responsible Czechs have been convinced that, once they put themselves in his power they will either be killed or put in a concentration camp and tortured or driven into exile. He has convinced them of that by the merciless way he has dealt with the Austrians. President Benes and the Czech leaders know exactly what happened to Dr. Schusnigg, to the Austrian monarchists, to Austrians of all shades of opinion. As a result the Czechs are like soldiers who know that they can expect no quarter if they surrender.

Hitler is, therefore, quite right in thinking that he cannot come to terms with the Czechs until he has disarmed them and destroyed their power of resistance. The demonstration of what happens to those who surrender to Hitler has made it impossible for the Czechs to surrender. Realizing this, Hitler on the other hand can be satisfied with nothing less than total surrender. For he has turned the Czechs into absolutely desperate men, he has earned their implacable enmity. And an implacable enemy has to be destroyed. By this means, that is by the policy of utter mercilessness to all opposition, Hitler has burned the bridges behind him. And when a revolution changes its policy, it changes its men. And the way a revolution changes its men is by exterminating them.

Hitler's successes have all been won by overriding the advice of the older leaders of the German nation. At each step—the occupation of the Rhineland, the annexation of Austria, the attack on Czechoslovakia—Hitler has acted against the advice of the army leaders, the professional diplomats, the industrialists and financiers. In each case they were shown to be wrong, and having been wrong, the political power of it in opposition, of the radical Nazis, has grown.

The radical Nazis have acted with great arrogance towards the Germans who dared to disagree with them. And these radical Nazis realize quite well that if ever the moment comes when they are weak, they personally are lost. They have burned their bridges in Germany so completely that their only safety is to go on with the effort to crush all opposition at home and abroad.

The German revolution has reached a point where it must either conquer Europe or undergo a profound internal purge. When the Russian revolution reached that point, Stalin found that the communist conquest of Europe was impossible. He had, therefore, to exterminate the communist leaders in order that Soviet Russia could isolate itself from the foreign entanglements in which all revolutionary movements

NEW YORK—Personal notes off a New Yorker's cuff: It is estimated that New York will have 11,000,000 people by 1965...

Dorothy Hall, before she became an actress, was an interior decorator. Bartenders will rarely stage a cocktail or a highball to customers—they must announce their wants themselves...

Hollywood Sights And Sounds

HOLLYWOOD—Some people don't appreciate how remarkable they are. And Samuel Kayzer is one of them. That young man—he's 85—thinks it's bad business to let the folks know that he is, as age is figured, an old man...

Well, I didn't answer that, and I can't skip the age because I like to write about remarkable things and Samuel Kayzer is remarkable. There are lots of dramatic coaches in this town but I've never met any other who is 85 years old, looks a sturdy 60, and talks an aggressive 30.

Constitutionally, I dislike recipes for longevity. Like diets and cures for the blues, they are individual matters. Samuel Kayzer dismisses it with, "I just don't FEEL old."

WALTERS FACES NEW CHARGES

DALLAS, Sept. 28 (AP)—Ted Walters, southwestern desperado already facing a 25-year prison term for robbery with firearms, went on trial again today on similar charges.

At one time, back in New York, Kayzer was soliciting and coaching a group of more or less famous people that included Dorothy Gately, Fred Bickel, Lila Lee, Milton Sills, Agnes Ayres, Thomas Meighan, the writer Rex Beach, the songwriter Irving Berlin, and Beanie Lister. Miss Gately became Ann Harding, Mr. Bickel became Fredrick March, and Miss Lee, remaining Lila Lee, became famous. Incidentally, she's back under the Kayzer wing to try a comeback.

DON'T MARRY THE MAN

Chapter Two MARRY THE MAN? There wasn't much Kathleen wouldn't do for this beloved uncle; anything to show the others she preferred his gentle kindness to the domineering members who despised him.

She accepted the letter and started to read, and as she read her shoulders lifted, her chin lifted and her brows became angry arcs. The letterhead told her the mislabeled came from the office of The Sitbonn Boy. The signature told her it was written by the last of the MacDonalds, one Donald MacDonald.

But it was the content which sent her temper flaming until her cheeks rivaled the color of her hair. Angry she read: "I wouldn't allow the shaft of the Golden Girl to contaminate my property. I wouldn't allow a damned Gregory on my land to discuss the matter. I wouldn't allow a hypocritical, effete, deteriorating offspring of a conniving, double-crossing Gregory within speaking distance."

Why don't you come out and see what your remote control is doing to this country? Why don't you take some interest in your miners as man? Why don't you give them a few extra pennies for decent shelter instead of spending every cent you can squeeze out of your mine on that rapid, silly flapper of yours?

I got so sick of seeing her smirking from the rotogravures of magazines that I've quit taking them. So far I haven't strained my eyes with good luck, but some day when I'm ready to go off the deep end over the way the Gregory side is handled, I'll pin one of her dental displays on the wall and...oh, what's the use.

My answer is to every favor you've asked, and that is final. Kathleen was tapping her slipper on the polished floor. As she tapped, increased in fervor and tempo, the clan relaxed. When the heel came down with a stomp they smiled. They even laughed, but softly, when she trode back across the room and started pounding on her father's desk.

"I'm going out there and make that black-browed son of a MacDonald eat out of my hand. I'm going to make him eat every word in this letter. I'm going to cram it down his throat until he chokes on it. Silly, rapid flapper, an I'll won't strain his eyes? Well here's where he starts chumming with an occultist. When I get through with that Donald MacDonald he'll be so blind he'll sign away his right-of-way and his freedom with the same stroke of the pen."

"Kathleen," cried Mrs. Gregory in alarm, "don't marry the man!" Kathleen looked up and her eyes seemed flecked with the red flame of her hair. "Marry the man!" she repeated. "That's an idea..."

No Forty Piece Band Angus Gregory brought order into his office by sending all the immediate family on their way. Kathleen had listened, unmoved, to the admonitions, warnings and advice of the clan. Her brown eyes were dark with thought. The nucleus of a plan was forming in her mind; a very pleasing plan encompassing conditions of which she ad dreamed for the last four years.

Silence restored she turned to her father. "When do I start?" she asked. "Immediately," answered Gregory. "That is, as soon as I can arrange to have your car coupled on a Green River City, then the car will be transferred to a short line. At Green River I'll arrange for a work train on the mine spur to take over..."

"You do this and I don't go," Kathleen interrupted. "I'm the one who has to face the music and I'm not going down there with a forty piece band playing the theme of 'Oh Golden Girl.' This head of red hair is going to be handicapped enough. If I go in as Kathleen Gregory, I'm defeated before I start."

"She's right," affirmed Beatrice. "Now this is the way I'll manage it. Kathleen and I will drive down from Salt Lake City, as tourists—" "Oh no we won't," checked Kathleen. "This is my expedition and I'm choosing my expedition." "There won't be any Gregorys included. If you trust me enough to ask me to do this favor for the clan, then you're going to have to trust me enough to let me handle it my way, no questions asked."

"I told you how she'd act," cried Beatrice with an air of washing her hands of the whole affair. "You have a plan, daughter?" quizzed Angus. Kathleen nodded. "The beginning of one. This I know: Donald MacDonald is just as much prejudiced against the Gregorys as we are against him. I want a chance to meet him and have him know me as an individual before he associates me with his enemies. I don't want to divulge my plan to anyone save Uncle Douglas. If you'll feel better about things I'll take him with me to some nearby point—" "Take Care Of Yourself!"

"Douglas," spat Beatrice, "he hasn't a brain in his head." "His brains are in his heart," Kathleen snapped back. "And his tongue isn't hinged in the middle and wagging at both ends. How about it, Dad?" Angus paused a moment. "Kathleen," he murmured, "I think you're smarter than the lot of us put together. All I ask is that you take care of yourself."

"See you at home," Kathleen cried in triumph, stooped to kiss her mother, patted her Uncle Douglas and whirled out of the room. "Bridget!" She caught the surprised secretary in her arms. "Hurry out of here. I want to talk business to you where no one can hear us. Honey, you and I are going out to that spot you are looking for. And believe me, we're going to find gold in 'them that hills'."

"Bridget backed away, amazed." "Does it occur to you that I don't want to go anywhere with a Gregory?" "Ah," jeered Kathleen, "something more we have in common. Suppose I'm no longer a Gregory?" "But I won't be a party to this plan. I'm surprised that you, with your spirit, could so demean—" "Damsel, my eye," interposed Kathleen blithely. "Come on, for the bonnet. Dan's bringing my cat around in five minutes. And I'll get the Golden Girl against your picture of golden hills, that once I've talked to you, you'll be rarin' to go."

"That," stated Bridget, ruefully "is exactly what I fear, therefore the answer is no, in advance." (Copyright, 1938, Joanne Bowman Tomorrow: Making plans.)

Business Improves In August Check

AUSTIN, Sept. 28 (AP)—Texas industry and business improved nearly 11 points in August due chiefly to increased department store sales and runs of crude oil to stills. The bureau of business research of the University of Texas reported the August composite index at 34.02 compared with 33.14 in July. There remained, however, a substantial margin of decline from August last year when the index was 103.13.

Hospital 'Insurance' Called Best Method Against Federal Control

DALLAS, Sept. 26 (AP)—Non-profit hospital service plans are the voluntary hospitals' best defense against proposed government control, delegates to the American Hospital Association's convention here were warned today.

Dr. Emil C. Acland, chairman of the American Hospital Association's committee on hospital service, said:

"There is no hump in hospital insurance and it is not a platform for politicians or demagogues. It combines recovery of hospital status with reform of hospital methods. It is the anti-toxin of political ills."

"Little vision is needed to forecast the end of the voluntary hospital in this country unless, on a voluntary basis, costs of hospital care are better distributed. Today too many self-respecting people still are faced unexpectedly with hospital bills far beyond their means."

"By pooling resources on a per-

Continue Search For Woman's Body

SAN ANTONIO, Sept. 26 (AP)—Officers from Bexar and San Patricio counties resumed their search in the sand dunes of the beach near Ingleside today for the body of a woman, believed to be Minnie Gehardt, who Clifford Wheeler, negro, said he saw slain a year and a half ago.

The search was instigated following the suicide of Jos. D. Ball, tavern operator at Elmhurst and employee of the woman.

The officers failed to uncover the body yesterday but found the dunes, under which Wheeler said the woman was buried, was about 17 feet deep and that it would require at least two days to remove the sand before reaching the solid ground. Wheeler said the body was three or four feet under the soil.

Ball shot himself to death while he was being questioned about the disappearance of another employee, Hazel Brown, whose dismembered body was found in brushy rangeland two miles from Ball's beer tavern.

Time Changed On Radio Programs

The change of the Mutual Broadcasting System from daylight to standard time and the resulting shift of commercial programs brings changes in two popular programs on KBST.

The Pinto Pete program heard at 7:15 each Friday evening for the past six months, will be changed from Thursday evening instead of Friday, effective tomorrow. It will be broadcast at the same time as in the past—7:15 p. m.

The Monday Pinto Pete program is unaffected by the change, as also is the Country Church of Hollywood program at 7:15 Wednesday. The change from Friday to Thursday was made necessary by the scheduling of the hour-long "All-

Texas Football Roundup" from 7 to 8 p. m. Fridays by the Texas State Network.

Football also brings a change in the time of the "Say It With Music" program, heard in the past at 6:30 each week-day. The program now is scheduled each evening at 6:15. The time change was made necessary that the public might be supplied with football results from 6:15 to 7 each Saturday, presented by Zack Hunt, sports supervisor of the Texas Network.

As Mutual continues revamping its program schedule as a result of the changes back to standard time, several popular programs on KBST likely will be switched to new time slots on the station log.

HOMER HOOPEE

THE GREAT DAY IS AT HAND. AFTER MONTHS OF PLANNING AND PREPARATION, HOMER IS IN BOSTON READY FOR THE BIG EFFORT TO WIN HELEN BACK. HE IS JUST LEAVING HIS HOTEL ROOM.

THE FIRST THING IS TO GET HER SOME FLOWERS! I'LL TAKE HER TO DINNER TO THE SWELLEST PLACE IN TOWN, AND AFTER I'VE ASKED HER TO DANCE I'LL TALK TO HER UNDER THE SPELL OF SOFT LIGHTS AND MUSIC!!

ASIDE FROM THE FACT THAT I'M TAKING HER ORCHIDS, I FEEL LIKE I DID THE DAY I ASKED HER TO BE MY WIFE

THIS IS THE PLACE! I'M AS NERVOUS AS A KID CALLING ON HIS FIRST GIRL!!

Pope's Broadcast For Peace Begins At 11:30 Thursday

VATICAN CITY, Sept. 28 (AP)—Pope Pius is to broadcast a pastoral message for peace tomorrow from the Vatican radio station. The broadcast is to start at 6:30 p. m. Rome time (11:30 a. m. Thursday C.S.T.) on 19.84 meters for American reception. The message in Italian and of five-minute length will be translated and re-broadcast in foreign languages.

'Gypsy's' Experience Becoming Problem For Buffalo's Police

BUFFALO, N. Y., Sept. 28 (AP)—Thirty times a runaway in less than a year, pretty four-year-old Ruth Wheeler became a major problem today to this city's 1,000 policemen. At the age of three, Ruth's runaways were comparatively simple. She just came downstairs and window-shopped until police found her. Three weeks ago she stowed away on a bus and wound up in Niagara Falls. Two weeks ago she stowed away on the Fort Erie-Buffalo ferry and was finally found in Canada. Last night she rode a bus to Batavia.

Her parents said they had tried locking her in her room, spankings, coaxing and "long walks" with escorts without success. She would return from a long walk only to slip away on a walk on her own—often at night. Tucked into bed last night after her Batavia jaunt, she sleepily yawned: "It must be the gypsy in me."

CHINESE REPORT NIPPON COLUMN IS CUT OFF

SHANGHAI, Sept. 28 (AP)—Chinese reported today that a Japanese column had been cut off while attempting to advance from Juichang through hills southwest of the Yangtze river on the Central China front.

In a nine-hour battle Chinese were said to have inflicted 1,700 casualties and captured a quantity of munitions, including four mountain guns.

Hoover Says "John Jones" US Internal Question Mark

KANSAS CITY, Sept. 28 (AP)—Former President Herbert Hoover, brushing aside all questions on the United States' position in the international crisis, said today the nation's greatest internal question mark is not the big business man but "John Jones who hesitates to buy a house."

Hoover, here to address a republican rally tonight, said in an interview that the only period of "genuine recovery" since President Roosevelt succeeded him in office was between the time the supreme court invalidated such New Deal acts as the N.R.A. and the A.A.A. and the time "Mr. Roosevelt began his attacks on the supreme court."

Secretary Roper Predicts Upswing

Ring Lardner's Son Reported Taken By Spain's Leftists

BARCELONA, Sept. 28 (AP)—James P. Lardner, 24-year-old son of the late Ring Lardner, was disclosed today to have been captured by Spanish insurgents during the night of September 22 in the last action of the International Brigade fighting with the Spanish government.

Visitors to the Lincoln-Washington battalion of Americans, who now are back to the east of the Ebro river awaiting evacuation from Spain, said Lardner was the last loss of the unit.

Lardner joined the International Brigade last April after entering Spain as a reporter for the Paris edition of the New York Herald-Tribune. He was wounded July 27 in the government's Ebro river drive near Gandesa. Following his recovery he returned to the front lines September 6.

AFL Meeting At Houston Closes

HOUSTON, Sept. 28 (AP)—The American Federation of Labor Metal Trades unions closed their annual meeting today with demands for revisions in New Deal labor legislation and the strengthening of the country's national defenses.

The delegates adopted committee reports calling for changes in the Washington and regional personnel of the National Labor Relations board, and amendment of the labor relations act making it mandatory for the labor board to poll the crafts or classes of workers in industries before designating bargaining units.

The convention endorsed the views of John P. Frey, metal trades department chief, that the wage-hour law placed virtual "communist control" over workers in the hands of the administrator, and recommended that the full A. F. of L. convention next week be asked to act on proposed amendments to the law.

The delegates also adopted resolutions calling for the completion of the naval building program as soon as possible for national defense.

TRIAL CONTINUED

COLUMBUS, Sept. 28 (AP)—The trial of Hylon Carroll, charged with the murder of Horace E. Hunt, was continued today at the request of defense counsel. The illness of a witness was cited.

SETS FOREST FIRES TO DRAW ATTENTION

HOT SPRINGS, Ark., Sept. 28 (AP)—Ranger Kurt Lunnum reported today about 50 acres in the Ouachita national forest were burned as result of an elderly man's attempts to find his way out after being lost six days.

A crew battling two blazes was greeted by Edward J. McKay, 77, yesterday. Lunnum said McKay told him he set the fires to attract attention. McKay was taken to a CCC camp for treatment. He apparently had suffered no serious effects.

DAY OF PRAYER FOR WORLD PEACE ASKED

FORT WORTH, Sept. 28 (AP)—President Roosevelt will receive a telegraphic appeal from the state Baptist laymen's conference and the Baptist Women's Missionary Union urging that he designate a national day of prayer for world peace.

At its closing session here last night, the laymen's conference voted to join the woman's union in sending the appeal to the president. The organizations represent 350,000 Texas church members.

Waco bid for the next meeting of the conference but no decision was announced.

INSURGENTS RESUME EBRO BATTERINGS

HENDAYE, France (AP)—The Spanish Frontiers Sept. 28 (AP)—Spanish insurgents pressed their offensive against government positions on the Ebro river front of eastern Spain with renewed vigor today after days of rain had halted operations.

Government advisers agreed with insurgent officials' reports that insurgents had captured several positions and held them against counter-attacks.

'Grandma Travels' Proving A Popular Radio Drama Serial

Increasing popularity is evidenced on every hand for "Grandma Travels", the delightful dramatic serial heard Mondays through Fridays at 10 a. m. on KDBT.

One reason for this increasing

LES TREMAYNE

popularity undoubtedly is the fact that the cast includes Les Tremayne, star of First Nighter, who plays the leading male role in "Grandma Travels". Mr. Tremayne formerly played the part of Bob in the "Betty and Bob" programs, and is rated one of radio's first ranking leading men.

Current episodes deal with the problem of Terry Donovan and Deborah Kane — two youngsters who want to get married but can't because of Terry's slim pay check. Deborah's idea is that they can get married if Terry will let her work afterwards. Terry's pride won't let him. Then an uncle leaves Terry a farm—and things happen, with Grandma to the rescue.

Building Improvement Is Up To Private Enterprise, Labor Told

HOUSTON, Sept. 28 (AP)—A solution for the unemployment problem in the building and construction industry, suffering from a 15-year decline, must come from private enterprise, not the government, Joseph A. McInerney, president of the A. F. of L. building trades department, said today.

In a report prepared for a convention of A. F. of L. building trades delegates, McInerney called for "reasonable profit rather than speculative gain" in private building.

"Financial interests," he added, "have exploited the building industry."

The insurance of mortgages by the Federal Housing administration, McInerney asserted, did not produce any building boom, although he noted an increase during last June, July, and August.

"Millions of dollars of residential mortgages have been accepted for appraisal under the federal insurance plan," he said, "have been too often mistaken to represent actual construction business."

BARGAINING AGENCY FOR LABOR NAMED

WASHINGTON, Sept. 28 (AP)—The National Labor Relations Board certified today the Brotherhood of Railway and Steamship Clerks, Freight Handlers, Express and Station Employees as the bargaining agency for operating department employees at the Galveston terminal of the Southern Pacific Steamship Lines.

The board said its action was based on comparison of union membership cards with company pay rolls in May which showed that 29 of the 85 employees designated the union, affiliated with the American Federation of Labor, as their representative.

The first shots were heard at about 4 a. m. and Marion L. Ogg, 83, caretaker at the hotel, came into the hall to discover the reason for the disturbance, he was struck in the neck and chest by a blast from a gun coming from Day's room. It was more than an hour before police were able to drag Ogg from the line of fire. He died shortly afterward.

O. L. Cole, Kansas City, Mo., cement salesman, wrapped himself in bed clothing and huddled in it corners for two hours before police could remove him safely. A wall in Cole's room, which was next to that of Day's was pierced by a shot, leaving a hole four feet from where Cole's head had been.

The guest, who registered as C. V. Day of Hot Springs, Ark., was finally captured when Sheriff H. S. Nelson shot the lock off the door to the man's room and then shot him in the forehead with a .38 caliber pistol.

Sheriff Nelson was protected by a steel bullet shield, while Day, who answered the sheriff's first command to "come out" with a shot and dare to "come in and get me" was wrapped in the bed clothing.

W. L. Oliver, hotel manager, said Day registered at the hotel at about 2 a. m. and explained the shotgun in his luggage as part of his hunting equipment.

One Dead, One Wounded In Gun Fight

Man Finally Routed From Barricaded Hotel Room

BRIDGE, Kas., Sept. 28 (AP)—One man was killed and another probably fatally wounded here today in a four-hour gun battle at the Arlington hotel in which county officers and hurriedly summoned Chanute policemen used tear gas bombs to rout a barricaded guest.

The guest, who registered as C. V. Day of Hot Springs, Ark., was finally captured when Sheriff H. S. Nelson shot the lock off the door to the man's room and then shot him in the forehead with a .38 caliber pistol.
