A 1963 Chev rolet driven by Jimmy Don Cook of Shamrock was traveling north on Shamrock St. Carl Bolton of Grant, Neb., was driver of a 1963 Chevelle traveling south. The Cook car slid into the south bound lane and struck the Bolton auto. The two Bolton children 8 and 12 years of age, were taken to Parkview Hospital where they were treated and released after a short stay in the hospital. Patrolman Henson estimated the damage to the vehicles at \$700 each. The accident happened at 9:50 p.m. Wednesday, Dec. 28.

ley has announced the apppointment of the Wheeler County Historical Survey Committee which is in charge of the Historical Marking and Preservation program in the county. The new committee will also cooperate with the State Program of Recordation, Appreciation, Marking, Preservation and Surveys (RAMPS) of Texas History. This is a two-year term which begins January 1st.

Chairman of the Committee is Mrs. Grady W. Harris of Wheeler

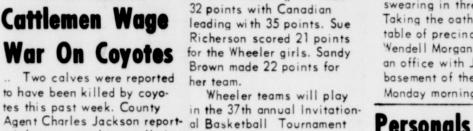

The RAMPS program of work is spearheaded by the Texas State Historical Survey Committee, a state agency, with the cooperation and implementation of all of the County Committees

"The Committee has been appointed at this time to prepare their plans for the coming two years although their terms will not become effective until the first of the year," said Judge Hefley.

Judge Hefley pointed out that the over-all objective Tillman last Friday were two of the committee's work is the development of the county's history as a tourist attraction by working with the Commissioners Court and Mr. and Mrs. Olen Pendle- local tourist-related organizations and for the preservation of this history for future

One of the brighter hopes emerging at year-end, Weatherford said, was that the noney market may be easing lightly. "The last interest ate we paid, for bonds sold on December 20, was 5.95 percent."

One of the most serious effects of the current money shortage is that farmers have een unable to borrow as much noney as they needed for achinery and equipment. That has been particularly amaging in areas where

At the end of 1966, there were approximately 14 fewer forms in the Association's district, which comprises Collingsworth and Wheeler Counties, than at the beginning of the year and about 220 acres were taken out of agricultural production for roads, housing developments, etc. The use of technology increased significantly here during the year, Mr. Corn

said. Despite tight money, farmers in the area invested and estimated \$325,000.00 in new farm machinery and equipment during the year, and spent a record \$2,400,000 for fertilizers, herbicides and pesticides.
