dent; Darrell Moore, vice-president; and Lyndon Lloyd, secretary. Serving on the board of directors are Charles Moore, Larry Finsterwald, Charlie Brown, Fat Jones and Delbert Thomas.

MOVIE CHATTER

"The Cross and the Switchblade"

Cinematographer Julian C. Townsend has focused his cameras on the haunts of teen-age gangs, panning along the crowded streets of Brooklyn, moving through trash-littered, kid-dotted sidewalks of Harlem, aiming them down narrow steps leading to foul-aired passageways and into filthy, cramped quarters that have been the only homes many a slum youngster has ever known. It is a place of vicious teen-age gang fights for which any weapon

respect the bow and arrow and the proper use of it. Each boy got to try his luck at hitting the target several times. Some got pretty good.

After this the boys were taken on a nature hike where they noticed the plant life and wild life of the area and talked about the importance of each.

Last came the knot tying. They learned to tie four different knots. They made it look so simple but when the Den Mother tried it it was a different story.

The evening council fires were held at which time each boy received a Cub Day patch to wear on their uniform.

As they returned home the boys were tired but happy and all seemed to have a very good day and each was looking forward to next year when they could spend a week at camp - Thank heavens Den mothers don't have to stay all week - Don't believe they would make it.

Contract Let For Hwy. Const.

A contract for highway construction in the Childress district has been awarded by the Texas Highway Commission.

The work will be under the supervision of District Engineer V.J. McGee, and will be in Wheeler Co.

Cooper and Woodruff, Inc. of Amarillo was awarded a contract for rest area comfort stations, septic system, water system, arbor units and illumination on Interstate Highway 40 in Wheeler County. Low bid was \$253,146.66

The project is located 13.0 miles west of Shamrock. O. V. Johnson of Wellington is the Highway Department engineer in charge of the project which will take an estimated 120 working days.

from iron chains to switchblades might be used, fights sometimes ending in violent deaths. These fights, too, are a part of the young drug addict scene because within the murderous gangs are those addicted to heroin as well as users of a softer narcotic, marijuana.

The crowded streets, the rows of grimy tenement houses, now on the short side of total decay, and their basement quarters, and the park in Brooklyn are just some of the authentic sites producer Dick Ross chose for his film version of Rev. David Wilkerson's best-selling "The Cross and the Switchblade," which is showing at the Rogue Theatre this weekend.

The book is the former Pennsylvania minister's account of his inroads against teen-age crime in New York, his first work among the tremendously disadvantaged young Puerto Ricans and Blacks, many of whom still seek escape from life's realities and a sense of rejection by regularly turning to heroin, pot, excessive drinking and experimentation with sex.

The genesis of Rev. Wilkerson's book is found in the senseless, cold-blooded murder of a helpless teen-age cripple by a gang of young thrill-seeking terrorists.

The eventual trial of the suspects found emphasis in a weekly news magazine (Life), which caught the minister's eye late one night in his Philadelphia parish house. He could not forget it. He had a horde of questions going through his mind - Is there no chance for, no hope for, no way of helping these boys, and others living in the slum neighborhoods? He eventually left Pennsylvania and went to New York to see if he could not help them.

David Britt On Dean's List

David Britt, freshman History major at Texas Tech University has qualified for the dean's honor list for the 1972 spring semester, according to Dean Lawrence L. Graves.

To qualify for the honor list, a student must be enrolled in 12 semester hours of courses, excluding pass-fail courses, and have at least a 3.0 grade point average. Texas Tech uses a 4.0 grading system.

He never got to see the boys and in fact, was given rough treatment by the security officers at the trial which caught publicity in the newspapers which eventually helped to gain his entrance into the gangs where he could do his work.

But for that failure he has made up in countless ways, and attesting to his work among the young hoodlums in New York's slum areas--most notably with Nicky Cruz, one of the most hardened of the hard, an admitted narcotic addict and savage street fighter who once threatened to kill the minister -- are 35 Teen Challenge Centers in the United States and abroad.

Here, help is given those hooked on narcotics, those once bent upon crime to get money for the heroin habit which frequently cost as much as \$50 a day.

"The Cross and the Switchblade," as it unfolds on the screen, pictures Pat Boone as the young, vigorous, crusading minister and his experiences among the unfortunate in these slums.

First Day of School

NORMAN ROCKWELL PAINTING ON DISPLAY AT CANADIAN

The first public showing of a recently discovered "lost" oil painting by America's best-known and best-loved artist, Norman Rockwell, is planned at the First State Bank in Canadian Monday, Tuesday and Wednesday, July 10, 11 and 12.

The 24" by 27" painting titled "First Day of School" was painted by Rockwell, the artist believes, in 1915 when Rockwell, then 20 years old, was struggling to sell his first works.

It apparently was never published, although Artist Rockwell recalls that it was sold to a magazine... probably not to The Saturday Evening Post, which later bought and published many of his paintings as Post covers and made Rockwell's art America's favorite.

The painting came to light recently in New York when a New York City dealer bought a collection of paintings which had been stored for many years in an attic, and discovered the Rockwell painting among them. It was purchased from the Bernard Dannenberg Gallery by Dr. Malouf Abraham, Jr. of Canadian,

Ridgeway Gets Scholarship

Carla Sue Ridgeway, of Mobeetie, has been named recipient of a \$600 King Foundation scholarship by the University of Texas Interscholastic League Foundation.

Approximately \$180,000 in scholarships ranging from \$500 for one year to \$4,000 for four years has been distributed by the foundation for the 1972-73 academic year.

According to Dr. Rhea H. Williams, director of the Interscholastic League, in order to be eligible for the scholarships, the students had to have graduated during the current academic year, have competed in State Meet literary or academic contests and must have submitted College Entrance Examination Board scores or the equivalent.

For reservations and information Phone 352-2782, or write Diamond Horseshoe Dinner Theatre, Amarillo.

who had the painting renovated and restored by New York craftsmen and placed in a specially hand-made frame, to replace the simple wooden one which had been the original frame.

Dr. Abraham will give the painting its first-ever public showing in the lobby of the First State Bank before lending it for an exhibit of Rockwell's paintings which will be featured at the Marion Koogler McNey Art Museum in San Antonio during August, and later at the M.H. DeYoung Memorial Museum in San Francisco where a six-weeks Rockwell show is planned.

The painting will also be featured, according to current plans in the fall issue of the new Saturday Evening Post.

A letter from artist Rockwell to Dr. Abraham confirms the authenticity of the painting and identifies the boy model in "The First Day of School" as Billy Paine, who was also the model for the first of the famous Norman Rockwell Saturday Evening Post covers which was published in May 1916, and for a number of other Post covers in those early years.

Rockwell, now 78 years old, lives in Stockbridge, Mass., where he still paints a few pictures each year on a commission basis. There are only about 250 of Rockwell's original oil paintings in existence, most of them in private collections.

"First Day of School" was in the possession of the head engraver for the now-defunct Collier's Magazine, and after his death was found by his heirs in the attic of his home, covered with the dust and grime of many years but un-damaged. Careful cleaning by expert craftsmen has restored the work to its original brilliance.

Panhandle-area art lovers...and Rockwell fans are invited to view the painting during its public showing at the First State Bank. Visitors will be welcomed, Bank President Ed Daugherty says.

'Bank of Machines' Group's Goal

An area-wide campaign to collect S&H green stamps to purchase artificial kidney machines has been launched by the Kidney Foundation of the Texas Panhandle at its regular monthly meeting in the St. Anthony Hospital Auditorium.

John Rogers, president of the Foundation, said the group hopes to collect enough stamps to provide a "Loan Closet" of machines so that they will be available at no cost to area victims of kidney disease.

Approximately 1,500 books of stamps will be necessary for each machine, the cost of which is \$2,965.

Mrs. Roy Cutrell, 4206 E. 13th, chairman of the campaign, said full or partly-filled books or loose stamps could be contributed.

Mrs. Cutrell said the stamps can be mailed to the Kidney Foundation at P.O. Box 9234 or can be collected by an organization member.

"All members of the local Foundation will be involved in the stamp campaign, but volunteers are needed to help sort, count and package the stamps received," Mrs. Cutrell said.

Rogers said 2,500 persons in Texas died in 1971 because of lack of funds for dialysis or artificial kidney machines or for life-giving transplants.

A second project adopted at the meeting was the Organ Donor Program which is currently conducting a nationwide program to get the public interested in leaving vital organs such

as the kidney to be used after death.

A fund to defray medical expenses for Amarillo kidney patient Mary Lee 403 Osage, has been set up by friends at the First National Bank of Amarillo. Donations may be sent to the bank, the Foundation or to Mrs. Shirley Hays, 529 W. Colorado.

Meetings of the Kidney Foundation are held at 8:00 p.m. on the third day of each month at St. Anthony Hospital Auditorium and are open to the public.

PAT'S PARAGRAPHS

BY: Patricia Palmer, CHDA

Heard that some of you are doing some canning and freezing. A productive garden is really nice to have. (Also calls for a lot of work too, doesn't it?)

If you're not sure about the accuracy of your canner, it might be wise to test it. Here in my office, there is a device for testing canners. You may come by my office,

check it out, take it home and use it, then return it to me. It's very simple to use. All you have to be able to do is read a thermometer!

Also you might like to have copies of the home canning and freezing pamphlets that we have.

Sometimes ladies wonder why jars do not seal. There may be several reasons. One is the use of make-shift supplies; off-standard jars which lids and screw bands do not accurately fit. Other reasons may be: using screw bands that have dents, rusty spots or pried up edges; not screwing band

tight against sealing edge before processing; using jars with nicks or cracks on sealing surface, or have sharp sealing edge; failure to wipe sealing edge clean (particles of food left on can permit air to seep back into jar); food, seeds, or grease lodged between lid of jar when liquid is lost during processing.

Outdoor cooking is, of course, the summer thing. It's the sauce that makes the barbecue and there are many different kinds. If your family likes a barbecue sauce with a sweet, mellow taste, they'll love this one.

BARBECUE SAUCE
2 tsp. brown sugar
1 tsp. salt
1/4 tsp. chili powder

3 tbsp. cooking oil
1 cup tomato juice
1/4 cup vinegar
1 tsp. paprika
1 tsp. dry mustard
few grains cayenne pepper
2 tbsp. worcestershire sauce
1/4 cup catsup
1/2 cup chopped onion
Combine ingredients and heat slowly 15 minutes. Especially good to baste chicken (but would also be good on other meats).

Recently we received further results from the State 4-H Food Show. The following results show how close the competition was within each food group division. Kathy Meek's dish and exhibit tied with three other girl's exhibits for second place. Congratulations Kathy! Kathy is from Briscoe and her par-

ents are Mr. and Mrs. Jack Meek. Her recipe HAM SALAD MOLD is really good!

Melia Platt from Anderson County won first place in the meat division. This is her recipe.

The Soil Conservation Service can help landowners develop recreation facilities and enterprises. There are several types of recreation enterprises suited to the Wheeler County Soil and Water Conservation District. Some of these are hunting and fishing areas, camping areas, picnic and sports areas and farm vacation or rest homes. If you would like to develop one of these facilities for profit or pleasure, contact Bill Brooks, or one of the Conservationists at the Wheeler Work Unit office. It is located at 112 West Oklahoma in Wheeler.

Thomas was an assistant to Graham at the state office until he moved to Nashville in 1971. position at Harlingen, he moved to Temple as assistant state conservationist in 1968. Thomas is a 1954 graduate of Texas A&M University where he was a member of the track team. He is also a graduate of Vernon High School and served as an Army officer in Korea from 1954 to 1956. He is a member of the T Association of Texas A&M, the Soil Conservation Society of America, and the American Society of Range Management. TROOP 72 ATTENDS SUMMER CAMP

Troop 72 went to summer camp at the M.K. Brown Scout Camp from Sunday, July 25th thru Sat. July 29th. Boy Scouts going were: Earle, Ricky Markham, Bobby Guthrie, Ray Martin, Greg Christner, Tim Hefley, and Will Ford. Scoutmaster Frank Martin stayed with the boys during the week. Greg Davis spent two nights camping with the troop. Harvey stayed with the older boys on Tuesday night. Frank Martin went on the scouts on the Mobeetie hike. Forty-five scouts and 4 staff members went on the hike. They spent Tuesday night at the Mobeetie jail. Younger boys from Wheeler on the hike were: Tim Hefley, Greg Christner and Gary Ford and Dell Ford. Two staff members lost their way in the way back to camp. They eventually found their way back however.

Prayer that Shook the House

by Charles Whited TALLAHASSEE — It is traditional to open sessions of the Legislature with a prayer by a visiting preacher. Then, dutifully, it is printed in the journal.

Seldom, in the long history of lawmaking on Capitol Hill, have preachers raised political hellfire from the rostrum or exceeded a couple of minutes of time. But this week, Mr. John Butler Book, an eloquent, blackhaired minister of the North Side Church of Christ in Maitland, Fla., prayed a prayer that shook the House of Representatives. Here is part of that famous prayer:

Our Heavenly Father, As this governing body gathers and convenes here today we ask that your guiding hand will rest upon the Governor, each Senator, and each representative and that they will be guided by truth for it is the truth that shall make us free.

May we understand that unless the Lord build the houses we labor in vain that built it; except the Lord keep the city the watchman waiteth, but in vain. It is more than obvious, Lord, with crime spiralling at an astronomical rate, with the drug problem threatening the lives of our youth, and the moral degeneracy that is taking place on every hand that the Lord is no longer the master builder.

May we understand that America will be great as long as she is good and will only remain great and good as long as we look to you, our God. We sometimes wonder if the inscription on our currency, "In God We Trust", is not becoming nothing more than a meaningless cliché. Dear God, may these men realize that the answer to the countless problems and perplexities that we face today cannot and will not be found in government alone, but in God.

Prayer that Shook the House

realize that the answer to the countless problems and perplexities that we face today cannot and will not be found in government alone, but in God.

We know that the problem of capital punishment could be solved by reading your divine ultimatum for it is commanded in both old and new testaments. We know that many of our judges, as well as some elected leaders, are encouraging courts to coddle criminals. Many of our representatives have seemingly lost their stomach and the intestinal fortitude for doing what must be done if we are to survive the war of crime that is taking place on the streets of our major cities where criminals burn, loot, and steal; rob, rape, and murder with little fear of reprisal and now law-abiding citizens are ensnatched in the slave-chains of self survival.

We ask that this governing body become concerned enough about the drug problem that they will see how important it is not to lower the drinking age to 18 and allow this kind of corruption to enter into

Prayer that Shook the House

the schools of our state with governmental endorsement. May these men realize that the passing of a law cannot confer instant maturity on those who are mentally, socially, and philosophically, as well as spiritually immature. Only time, which must incorporate knowledge and experience, can do this. If alcohol is the number 1 drug problem then may we have the intelligence to take steps in restricting rather than broadening its use.

We ask, our heavenly Father, that the Governor and these men will have a better understanding of your Word for if this were the case they could see clearly that parents have been commanded, authorized and ordained by Almighty God to bring up their children in a way they should go; not HEW, not the NAACP, not the government Education Association, nor any court that will disregard the law of the land in an effort to bring about judicial tyranny. Tyranny that must be stopped unless all of our freedoms be destroyed. Our children are to be loved and taught and given a strong spiritual foundation, but we know our schools are more concerned with indoctrination than education where reading, writing, and arithmetic have been replaced with romance, reproduction, and revolution. Where little children are being treated as guinea pigs in what amounts to test tube education and brainwashed and turned into robots to be controlled by the almighty state!

We humbly ask that these men will understand that freedom does not come from government, but from you, our God, and that freedom is not free and that free men are not equal and that you are a God of equity and not equality save for the cross and the shed blood of your Son, our Saviour, which we find in baptism for if we are immersed in Christ we can put on Christ. We also understand that this is where the equality stops. Otherwise we must place a ceiling over everyone's head and a floor under everyone's feet and lower the ceiling so that the tallest man in the room must stoop until he is no longer taller than the shortest. It means robbing a 10 talent man so that he has no more than the man with 1. It entails distributing the wealth by force that will bring about the ungodly form of government of socialism.

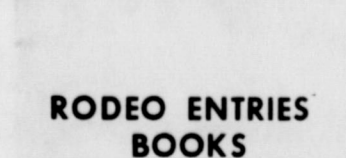

May we realize that if God's people which are called by His name will humble themselves and pray and seek God's face and turn from their wicked ways, then will God hear from heaven and heal our land for we know our God will supply all our needs according to His riches in glory for if we be for God, God will be for us and if God be for us who can be against us.

We ask that all that we do and say be in keeping with your will.

In Jesus name Amen
