Baritone And Pianist To Be Presented Soon

Concert Begins At 8 o'Clock Monday Evening

First concert to be presented by the Music Study club is that of William Hales, J. baritone, and Dorothy Ellen Ford, pianist, Monday evening at 8 o'clock at the high school auditorium.

The young baritone, a native of Oklahoma, came to Hollywood two years ago to study with the world famous de Segura. He has a voice of unusual quality and range and scored fine successes in his concerts on the Pacific coast last season.

Dorothy Ellen Ford has appeared before the public since early childhood in Chicago. She gave a series of melologues with Louis Victor Saar, noted composer and pianist.

Those not possessing season tickets may buy single tickets at the door the evening of the concert.

Second Achievement Tour Made To Clubs

Coahoma And Center Point Clubs Visited

Bedroom and poultry demonstrators of the Coahoma and Center Point home demonstration clubs were visited Wednesday on the second achievement tour of a series being conducted by Lora Farnsworth, home demonstration agent.

Actual visits to the projects revealed many worthwhile things being done in the way of bedroom improvement and profitable poultry raising. The frame garden of Mrs. W. J. Jackson in the Coahoma community was also visited by the delegation. Mrs. Jackson said since building the garden she had been able to have some sort of green vegetable growing the year around and at the present time five vegetables are thriving in the garden while the rest of the garden is killed by the frost.

First place visited was that of Mrs. Aubrey Cranfill, Coahoma bedroom demonstrator. She has completely remodeled her bedroom and decorated it in pink and cream.

Coahoma poultry demonstrator, Mrs. J. M. Wilson, gave an interesting report on her flock this year. She made a profit of \$140 on her chickens and still has 78 hens and 20 pullets in the barnyard.

After supper, games were played under the direction of Dr. Will C. House and after a sing-song the benediction was pronounced.

The Center Point club presented a program of songs and talks at the home of Mrs. A. A. McKinney, bedroom demonstrator. She had remodeled a boy's room, selecting appropriate pictures, and transformed an old-style phonograph into a compartment for hats.

As an example of what can be done with poultry when handled properly, Mrs. Glenn Cantrell, demonstrator of Center Point, reported the sale of \$129 worth of eggs alone during the month of August, September and October with a clear profit of \$157.02.

The next tour is to be conducted Nov. 17 to the Knott, Hiway and Fairview communities.

Attending the tour were Mrs. W. J. Jackson, Mrs. A. H. Bennett, Mrs. Aubrey Cranfill, Mrs. Leroy Echols, Mrs. A. D. Martin, Mrs. Duke Lipscomb, Mrs. J. M. Wilson, Lora Farnsworth, Mrs. W. F. Heck-

Want to Know Why You're Constipated?

Would you give a million to shake off that dull, dopey, played-out feeling that often comes with common constipation? Then stop a minute and think.

What have you had to eat this week? Just meat, bread, eggs, potatoes? Probably the reason you're constipated is you don't get enough "bulk." And "bulk" doesn't mean how much you eat. It means a kind of food that isn't entirely digested, but leaves a soft, bulky mass in the intestines which helps a bowel movement.

What to do? Eat some Kellogg's All-Bran for breakfast every day. This crunchy toasted cereal is not only rich in "bulk"—it also contains both the intestinal tonic vitamin B, and iron.

Eat All-Bran every day and drink plenty of water. See if you don't get off your heels and on your toes! Kellogg's All-Bran is sold by every grocer.

# AFOL Hoping For Change In Wagner Act

## Federation Thinks Election Results Weaken CIO

WASHINGTON, Nov. 10 (AP)—The American Federation of Labor counted today on the sharp rise in republican congressional strength to help bring about major amendments in the Wagner labor act.

Federation officials interpreted many of the democratic casualties in senate and house as weakening the position of the C.I.O., which has insisted that no amendments to labor's "magna charta" are necessary.

The AFL has contended that the National Labor Relations Board, which administers the law, is biased in favor of the C.I.O. Recently the federation initiated a campaign against senate confirmation of the nomination of Donald W. Smith, board member, for a five-year term.

William Green, A.F.L. president, said at night the election proved the nation was "sick and tired of the C.I.O.'s philosophy and tactics."

The C.I.O. and its political dummy, Labor's Non-Partisan league, were routed on all fronts, he declared. The voters turned against every candidate who gave aid or comfort to the C.I.O. leadership, even in states where the C.I.O. concentrated its campaign.

The C.I.O. supported democratic candidates in Pennsylvania, Ohio and Michigan where it has organized many industrial workers. Republicans won the major offices in all three states.

However, the John L. Lewis organization supported an "effluent senator" and national candidates in New York and California.

# TEXAS PROFESSOR WINS HONORS

AUSTIN, Nov. 10 (AP)—For distinguished service to education in France and foreign countries, Dr. Aaron Schaffer, professor of romance languages at the University of Texas, has been named an officer of the French Academy by the minister of national education of the French republic.

Dr. Schaffer spent several years in the Sorbonne and the National Library in Paris and published a number of books and articles on 19th century French literature.

Fighting accidents on all fronts, the American Red Cross last year advised 15,000,000 householders how to eliminate accident hazards in the home, and at the same time is maintaining 2,265 emergency first aid stations along the nation's principal highways. # Capital Sets Germ Detectives On The Trail Of Dish Washers

By JACK THOMPSON  
AP Feature Service Writer  
WASHINGTON—Germ-men are on the trail of greasy spoons and dirty glasses. They're packing test tubes, swabs and jars into little black bags and scouting District of Columbia restaurants for disease bugs on china and silverware.

It's the first time any city has ever turned bacteriologists loose on restaurant inspection, says the health department.

Until a year ago, Washington, like other cities, left the job to inspectors who simply picked up a glass and looked at it to see if it was clean.

Experts Chase The Bugs  
Then with increased congressional appropriations the District health department hired four young men with degrees as bacteriologists. They were given the equipment and told to go to it. The pictures at right show the inspectors at work.

In their first sampling of 65 restaurants they found an average of 520,000 bacteria on each glass they tested. They found the trench mouth bug, pneumonia bug, and the B-coll germ, an intestinal bacterium.

In one year the bacteriologists have brought the germ count down to less than 500 per glass on 90 per cent of the glasses they inspect and less than 300 on each silverware utensil—ample margins of safety. Many of their tests show absolute sterility.

Classes In Cleanliness  
When the bacteriologists run into a high germ count in one of Washington's 1,850 restaurants they call in the proprietor to the District health center for a class in cleanliness. They may even invite him in for instruction a second time. But a third warning makes him subject to a fine of \$25 to \$50 and the Department has not yet lost a case in court.

Director of Food Inspection Dr. R. R. Ashworth says the Washington Restaurant association has given close cooperation.

# YOUTH FACES CHARGE OF ARMED ROBBERY

ALBUQUERQUE, N. M., Nov. 10 (AP)—Thomas Arthur Naylor, Jr., Sherman, Texas, youth who led police a mad chase act as New Mexico last week, was scheduled to be arraigned here today on charges of armed robbery, District Attorney Owen B. Marron said.

The young man is charged with commandeering an automobile at pistol point, near Cuba, N. M., after he and a companion, Jimmy Valentine, wrecked another machine in which they engaged in a gunfight with Arizona port officers at Lupton, Ariz. Valentine is still at large. Naylor is recovering from a bullet wound in the back.

Thomas Arthur Naylor, Sr., of Sherman, arrived here today. He told police his son was 17 years old.

## HOW THE GERM-MEN CHECK UP

1. A District of Columbia cafe inspector swabs germ samples from the rim of a coffee mug. He also takes samples from silverware; tests dishwasher. A cafe employe watches.

2. To the laboratory go the swabbings. An expert bacteriologist prepares to look for "bugs." Thus dishwashing goes under the microscope.

3. Inspectors' samples are transferred to bacteria incubators. This incubator has many germ colonies. Numbers identify the restaurant.

# Rayon Cord Tire Hailed As Safety Development

The ever-increasing demands of a safety-conscious motoring public have resulted in the development of an entirely new type of passenger car tire, which is constructed of rayon cord and is expected to relegate blowout dangers to an absolute minimum. Ever since the invention of the pneumatic tire, cotton, in cord or fabric form, has been the basic material used in the construction of the tire carcass.

PAUL SOUTHERN

The changeover to rayon cord (10 per cent cotton base) makes possible the building of a tire with a higher safety factor and a resistance to blowouts beyond anything ever achieved before.

E. M. Conley, manager of the local Montgomery Ward store where this new rayon cord tire is now in display, has this to say about the use of rayon in tire-building: "Rayon's principle advantage over cotton is its ability to withstand heat, the greatest enemy of tire mileage. For example: consider a cotton cord containing normal atmospheric moisture that has a tensile breaking strength of 26 pounds. When this cord dries out its strength drops to approximately 16 pounds. Rayon is exactly the opposite, when dry its strength is 23 per cent greater than when it contains moisture. Now the real significance of this is lost unless you remember that when a tire is in service it heats up. The tougher the service, the more it heats, and naturally the heat dries up the moisture in the cord, causing it to get weaker if it is cotton, at once, if it's rayon. Nothing could be more fundamental or logical than that."

# URGS PERMANENT ARMISTICE ON CAR CRASHES

AUSTIN, Nov. 10 (AP)—A permanent armistice on street and highway crashes was urged today by Homer Garrison, Jr., Texas public safety director.

Forewarning of increased vigilance by state patrolmen against reckless and drunken driving, Garrison ordered closing of driver's license stations November 11 and 24 so that 75 officers assigned to them will be available for patrol duty.

"They will work overtime during the two holiday periods to curb menaces who are destroying innocent people," he said.
