CHAMBER BANQUET IS TUESDAY EVENING

KENNETH WYATT TO ADDRESS GROUP

The Wheeler Chamber of Commerce will hold their annual Installation Banquet Tuesday, February 27 in the school cafeteria. Speaker for the evening will be Kenneth Wyatt, noted area artist and speaker.

The 1973 Chamber of Commerce officers and directors will be installed. Kent Sims, local attorney will be installed as Chamber President.

Two vice-presidents will be inducted into office; they are Charlie Wagner and Delbert Thomas, first and second vice-president respectively.

M. Kent Sims, Wheeler attorney was elected to serve the organization as president. Elected to serve in the position of first and second vice-president were Charlie Wagner and Delbert Thomas respectively.

Sims opened his law office in Wheeler in June of 1972 and is presently serving as the City Attorney.

Sims is a life long resident of Wheeler having graduated from Wheeler High School and completing his education at Texas Tech. In addition to his Law Degree, Sims also holds a degree in Engineering.

He is a member of the Wheeler Kiwanis Club and a member of the First Methodist Church.

Charlie Wagner is the manager of Pritchard's Thriftway and has been a resident of Wheeler for 17

months. He owns several of Wyatt's paintings. Two of Wyatt's paintings hang in the office of the First National Bank.

Recognition will be given outstanding citizens of Wheeler. Plaques will be presented to the outstanding man, woman, teenager and farmer and/or rancher.

Officers retiring from office are Charlie Brown, president, and Louis Stas, Vice president.

Kent Sims and Delbert Thomas were placed on the board of directors to replace retiring directors, John C. Vise and Tom Puryear.

Rites Are Read For Bob Ramsey

Final rites for Robert L. Ramsey, a Wheeler County resident since 1920 were held at 3 p.m. Sunday in the Wheeler Church of Christ with Marlon McWilliams, minister, officiating.

Burial was in the Wheeler Cemetery by Richerson Funeral Home of Shamrock. Mr. Ramsey died Thursday in Veterans Administration Hospital in Fayetteville, Arkansas.

He moved to Wheeler from Mangum, Okla. He was a member of the church of Christ and a veteran of World War I.

Serving as pall bearers for the funeral were Bill Owen, Vernon Sivage, Tom Helton, Levi Reid, Milton Finsterwald and Farmer Hefley.

Survivors include his wife, Bernice; a daughter, Mrs. Jim Briting of Amarillo; two sons, Ralph L. of Prairie Grove, Ark. and Doyle Ramsey of Wheeler; a sister, Miss Bessie Ramsey of Wheeler and a brother, Fred N. of Dallas.

Wheeler Band Students In All-Region Band

The All-Region Band of class A & AA performed their 1972-73 concert in Dalhart on Jan. 13, 1973. The All-Region Band is made up of the best band students in this A-1 Region. Try-outs for this honor band are held the first Saturday of Dec. of every year and then the members are chosen for the All-Region Band which performs the second Saturday of January of every year.

The Wheeler High School Band was very fortunate to have four students with the

ability and time to play in the All-Region Band. Martha Gunter (Sophomore) received 5th chair flute out of a field of 18 clarinets that are in the All-Region Band. Lee Ann Coates (Sophomore) received 5th chair flute out of a field of 10 flute players. Steve Alexander (Freshman) received 12th chair cornet out of a field of 12 players. Lou Montgomery (Sophomore) received alternate in the flute section. These four students tried-out against 30 to 40 students of other bands in this region to receive these chairs. So congratulations are in order for these four Wheeler Band students.

MOBETTIE STUDENTS TO SHOW CALVES: These Mobettie students will be showing calves in the County Calf Show at the Wheeler Rodeo Arena Friday, Feb. 23 at 1:00 p.m. Pictures front row (l. to r.) are Cendie Shelton, Gail Hodges, Bettye Seitz (FFA Sweetheart), Kim Hathaway, and Corse and Dean Hathaway. In the back row are Corse, Lix Ann Allen, David Wright and Shannon Atton.

C of C Banquet Tickets on Sale

Tickets to the annual Chamber of Commerce Installation Banquet are on sale at the First National Bank, John C. Vise Agency, Pritchard's Thriftway and The Wheeler Times.

The sale of advance tickets will make possible an estimate of the number of people to expect at the banquet.

In anticipation of an entertaining evening, ticket sales are progressing. If you have not been contacted for a ticket, you are asked to contact any of the above members. Tickets to the banquet are \$3.50 each.

Wheeler Co. 4-H FFA Calf Show

The Wheeler Rodeo Arena will be the site for the 3 Wheeler Co. Calf Show day, Feb. 23rd. Twenty five 4-H & FFA members from Wheeler Co. will compete in the judging.

Following is a list of those entered in the Calf Show: Mobettie 4-H - Zana Corse, Leslie Harrison, Steve Corse, Shannon Batton, Cendie Shelton, Kimberly Hathaway, Dean Hathaway, Gail Hodges; Kelton 4-H - Janice Lister and Jerry Palmer; Shamrock 4-H - Craig Brooks and David White; Mobettie FFA - Liz Ann Allen and David Wright; Allison 4-H - Andy Reed and Sherlyn Reed; Allison FFA - Steve Dollar, Clifton Miller and Donna Miller; Shamrock FFA - Junior Davenport and Wheeler FFA - Robert Willis and Tommy Weaver.

The Wheeler County Farm Show will present ribbons, fettes and trophies to winners including the Showship and Champion Pen Three awards.

General Telephone Presents Counter Proposal to Council

Representatives of General Telephone Co. met with the Wheeler City Council Monday, February 19, for a further discussion on the requested rate increase in telephone rates for Wheeler.

In the meeting with the Council in January, General was offered a 14% increase in overall service revenue. The company requested an increase which would mean a 28% increase in revenue.

Monday evening, the council was informed of General's offer to settle for a 20% increase. Of this amount, only a 10% increase would be realized by the company; approximately 50% of any increase will go for taxes.

After much discussion on the needed improvements in service, the council voted to retain the offer made in January. The telephone company did not agree to the increase.

General Telephone began observing all calls out of Wheeler Wednesday in an effort to correct the difficulty in completing long distance

calls experienced by many in Wheeler.

Second street in front of the school is still a problem for the city. The street was marked as a one-way and the drivers continue to travel the wrong way. The council agreed to construct a marker on Canadian street which would not be too easily removed.

Bids are to be obtained on the cleaning of the sewer plant and the seal coating of the streets.

Bills for the month were reviewed and paid by the council.

Revenue Sharing Check Received

The City of Wheeler has received the second Revenue Sharing check for the year of 1972. This check was for \$4,389.00 bringing the total amount of Revenue Sharing to \$8,962.00. The Council has earmarked part of this money for the purpose of improving some of the City's sewer lines. Work is almost completed on improving a section on North Alan L. Bean Blvd. Also the Council is studying plans to have part of our recent paving seal-coated and upgrading of performance of the waste disposal plant.

SAFETY DEVICE FOR DRILLING RIG PATENTED, 2 BUILT IN WHEELER

Albert "Bert" Childress has spent much of his spare time for the past 18 months work-

ing out the details for a cover for the rotary table and bushing. The patent on this piece of drilling equipment is presently applied and pending.

To the average person, this means very little, but to the roughneck in the oil field or any other person working on the platform of a drilling rig, it could mean his life.

UNCOVERED: The rotary table and bushing are here as they appear on the floor of most rigs. The table rotates constantly while the well is being drilled and it is very easy for a rope, chain or tool get caught in the bushing. This picture was taken Allison on the Elmore No. 1 Parker Rig No. 71 is drilling the well for Kerr McGee.

Historical Society To Meet Mar. 1

The Wheeler County Historical Society will meet March 1st at 7:00 p.m. in the Commissioner's Court Room.

The members of the Shamrock Baptist Church will give a brief history of their church.

They will meet in Shamrock at 701 S. Wall St. for their April 5th meeting.

ting shimmering bows into a net pillow and being delighted that their fledglings were being so well taken care of. No doubt that finding a place for everything in the new nest is lasting well into this week.

The hostesses for this occasion were Mesdames W.D. Mitchell, Pete Burton, Fred Wood, Harvey Davis, Charles Brown, Jim Porter, Harrison Hall, Marge Porter, R.J. Holt, Jr., J.T. Johnson, Ebb Farmer and Wayne Hogue.

Mr. and Mrs. Adrian Risner spent the weekend with her sister, the Grady Ackers at Stamford.

Mr. and Mrs. Ronnie Watts and children of Sunray spent Sunday night with her sister, the Corky Guthries.

Mr. and Mrs. Larry Tracy have had as their guest for several days, his mother from Woodward, Okla.

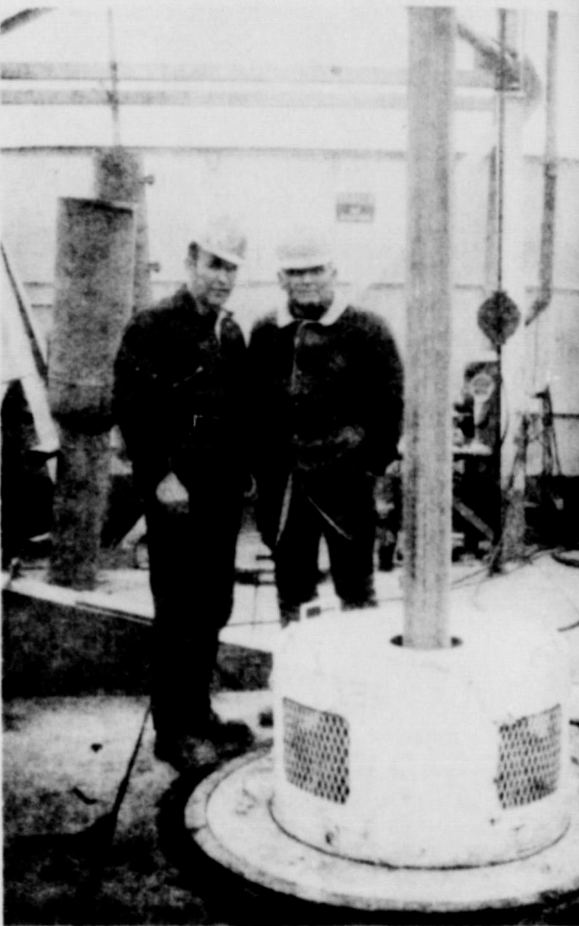

Another pair of newly weds could be seen around Wheeler last Wednesday and Thursday. Mr. and Mrs. Frank Walker, Sr. were in town getting things in order. Mr. Walker and his new bride, Mary, were married Feb. 10th in Amarillo.

Bert, who has spent thirty years of his life in the oil field well knows the dangers involved when working around the rotary table and bushing. The table is constantly turning; should a cable, chain or water hose on the deck get caught in the bushing, it would mangle or kill anyone unfortunate enough to be standing in the way. If the rig is shut down quick enough, the victim may just be mangled.

Realizing the need for a cover, Childress devised a method of covering the bushing and table. He then proceeded to check to see if a similar piece of equipment had ever been built; discovering his was the first, Johnson began proceeding to patent his invention.

The first rotary table cover was put to use on the Helmaric Payne Rig No. 43 in June 1972 another is on Parker Rig No. 112 which is presently located southeast of Sweetwater. Parker Drilling Co. had realized the need for a cover, but had not figured out a method which would work. The price is reasonable compared to other equipment needed to drill a well. A small cover will sell for \$500 and the large unit will cost \$750. Childress was working the Reid well northeast of Wheeler as a tool pusher at the time the patent was applied. He has drilled three wells in Wheeler County--the Reid, the Carville and the Lee. His home address is 701 N. Anita, Oklahoma City.

Two of the units were built in Wheeler. A&K Welding has built two of the Rotary Table covers. Most needed in the construction of the equipment is the ability to weld.

ROTARY TABLE COVER IN PLACE: Albert Childress is shown here with Bob Wenniger, evening driller on the Parker Rig 112 near Sweetwater. The cover in place, there is no moving parts exposed other than the drill stem, thus eliminating most of the danger.

The above article ran in the "Times" last week with the last name of the inventor incorrect. The correction has been made and "Times" offers its apologies.

Here and There

3Y: Laura Guthrie
 Frankie Rogers, son of Mr. and Mrs. L.W. Rogers has recently returned from a six-week vacation in Scotland, England, and France. While in Ainess, Scotland, he visited with his fiancée, Kathy Cannon who is with her parents for a few months. She is a student at Texas Tech at Lubbock and will return here in April. Frankie's trip was a graduation gift from his parents. He enjoyed the experience but is glad to be back in the U.S.A. On the return trip he visited with Kathy's father in New York City for a few hours. Frankie is now employed in Dallas.

Something that we missed last week was a note that Pete and Gay Burton had a wedding anniversary. Along about the 10th, I think it was, the above mentioned couple, with Mr. and Mrs. Fred Wood and Mr. and Mrs. W.D. Mitchell motored to Pampa and had dinner to celebrate the twenty-first anniversary. Congratulations. Pete and Gay.

We were delighted to have a short visit with our old friends, Glenn and Thelma Hibbits on Sunday afternoon. These good people were our very reliable help back in the days when movie business was good. They now live in Arlington, Tex.

Lavell Stephens and Janis and Darrell Marr visited with the girls parents, Ollie and Mari Jaco on the weekend.

Bridal showers are delightful things. We love the atmosphere of gracious hostesses, candlelight, lovely table settings, frothy punch and dainty cakes. Such was the conditions at the W.D. Mitchell home last week when the newly weds, Bobby and Sue Fischer Vanpool were honored. The lovely little bride was agog with a deluge of things for setting up housekeeping. The honorees' mothers were busy helping with the unwrapping, stuff-

NEW UNIFORMS ARE DESIGNED FOR BROWNIE

It's hard to beat the appeal of a 7 or 8-year-old girl smiling her toothiest grin--and all dressed up in her Brownie Girl Scout uniform. But the Brownie of the future will be even more appealing--in 24 different ways.

On March 3--just in time for Girl Scout Week--the new Brownie Girl Scout uniform will be introduced, a uniform so versatile that it will allow each girl a choice of 24 different ways to wear it.

Brownies will no longer look alike. They will have five separates to mix 'n' match--an A-line jumper, blouse and tie, pants, shorts, and rib-knit top, all in permanent press with soil-release finishes. With these, each girl can express her own individuality--and still be in official uniform. The jumper can be worn alone as a dress,

or combined with the blouse, pants, shirt, or top to get any one of the 12 different effects. An optional belt increases these possible combinations to 24 different looks.

More important, the new uniform's amazing versatility makes it easily adaptable to every Brownie Girl Scout activity -- from running, jumping, exploring, camping and hiking to dressing up for church or synagogue in Girl Scout Week.

The new uniform is alive with color. Its bright tangerine knit top goes well with the brown pinpoint check of the new jumper and pants color. The tie is also in tangerine. And the perky white blouse has brown veriegated stripes of a stylized Girl Scout trefoil design.

In the early days of Scouting only size distinguished Brownies from their

older sisters. They wore the same uniform. But in 1926, the Brownie Scouts had her own brown complete with pecker "Pixie" hat and matching bloomers.

In 1933, the uniform came a brown cotton with short raglan sleeves and round collar, and brown woolen beret decorated with the pecker. In 1941, the uniform was a one-piece dress of cotton chambray, and brown felt beanie was introduced.

It wasn't until 1950--last Brownie uniform introduced. This was the first of a tangerine and a gerine embroidered emblem on the beanie. beanie is still part of the new uniform.

Now is the time to order trees to be set out this spring. If you plan to plant trees this spring, now is the time to be deciding what trees are needed and where to purchase them.

Trees to be planted for landscaping may be obtained at local nurseries. When purchasing trees for windbreaks or wildlife plantings

in quantity, these will need to be ordered from a nursery capable of handling large orders at a reasonable cost.

Trees should be ordered early enough to receive for planting from February thru April. More information on tree plantings contact the Soil Conservation Service office in Wheeler.

CARD OF THANKS
 Many thanks to all the wonderful people for words of kindness, prayers, cards, food and flowers during the time and loss of loved one.

A special thanks to the nurses at the Park Hospital and to Dr. May God Bless you.

Across the Fence

BY: Max Hatter, CEA
The cotton harvest remains
in full swing. Some cattle
herds are having a rough
time. Looks like we'll have
to feed more and it'll cost
us more than in previous
winters.

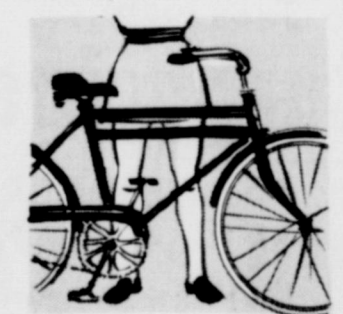

Well said, worth repeating!
The Grain Producers News
recently carried an article
entitled "The Neglected
Opportunity". In the article
a story was related concern-
ing certain Brazilian shep-
herds who once organized a
party to go to California to
dig gold and took along a
handful of translucent peb-
bles with which to play
checkers on the voyage.
After arriving in San Fran-
cisco and after they had
thrown most of the pebbles
away, they discovered that
they were diamonds. They
hastened back to Brazil,
only to find that the fields
from which the pebbles had
been gathered had been taken
up by others and sold to the
government.

The article went on to say
that the majority of us have
yet to learn that "our grand
business is not to see what
lies dimly at a distance but
to do what lies clearly at
hand." The Panhandle
Economic Program (PEP) is
planning a tour of livestock
operations in East Texas.
Some of the preliminary pub-
licity indicated that an oper-
ation would be visited where
the man stocked a cow to the
acres. One of the county
farmers who started working
with us on pasture manage-
ment research demonstration
about six years ago, came by
to comment about the pro-
posed tour. He said, "Heck,
they can see that sort of
thing right here in Wheeler

THE FAMILY LAWYER

Bias in Bicycles?

To help its employees get
around the premises, a large com-
pany kept a supply of bicycles
available at all times. But all the
bicycles were men's. Women
workers finally went to the Equal
Employment Opportunity Com-
mission with a charge of "dis-
crimination on the basis of sex."
At the hearing, they pointed
out that men's bicycles were just
not suitable for them, especially
since they were also forbidden to
wear slacks. This impressed the
Commission, which duly upheld
their complaint.

The bicycle case is typical of the
wide variety of issues that have
arisen under famed Title Seven
of the Civil Rights Act of 1964.
Women have also complained
— about hiring practices, dress
codes, height requirements, smok-
ing privileges, hours of work, and
seniority rules.

"Title Seven," said one court,
"rejects the notion of romantic
paternalism toward women and
seeks to place them on an equal
footing with men."

In fact, men too have won vic-
tories under the same law. For
example, the Commission found
sex discrimination in another
company that gave half-hour
lunch periods to its women em-
ployees but only 20 minutes to
men.

Nevertheless, Title Seven does
not apply to hardship situations
that are not based on discrimina-
tion between the sexes. Take this
case:

A saleswoman accused her de-
partment manager of violating
Title Seven by deliberately mak-
ing her life miserable. She said
he made fun of her, gave her hard
assignments, and bawled her out
viciously.

It turned out, however, that her
fellow men in the same depart-
ment had the same tale of woe.
Since male and female employ-
ees were being treated with equal
harshness, the Commission decid-
ed to turn down the woman's
complaint.

The Commission said she had
not proven a violation of Title
Seven, but merely that the de-
partment manager was a very
nasty fellow.

County, and it's less than
100 miles from Amarillo!"
It is true that we have de-
veloped pasture-management
systems that work for us.
We now have 13 head of 350
lb. heifers grazing on 10
acres of Elbon rye over-
seeded on lovegrass sod.
It's regrowing and looks

like it'll work well in a
rotational grazing sequence.
In just a few years, it'll be
hard for anyone in the United
States to compete with us in
the cattle business if we
can continue to receive a
fair price for our beef.
On the PEP sponsored
tour of East Texas, I might
add the following: The tour
is March 12-15, 1973. The
cost is approximately \$75
and is open to all producers

and wives and other inter-
ested persons. Some of the
tour stops will include an
intensified grazing manage-
ment demonstration of 30
cows on 30 acres of Coastal
Bermuda grass overseeded
with Gulfcoast ryegrass and
Crimson clover. This is at
Emory. At Mineola (Wood
Co.), an intensified cow-
calf demonstration of 30
cows on 30 acres will be
seen. At Mt. Pleasant in
Titus Co., folks will tour
the Stephens ranch of 500
acres and the McKellers Red Brahman
Ranch with crossbreeding
involving brahman, English
and exotic breeds. We have
toured the Stephens Ranch
before. They were utilizing
artificial insemination 7-8
years ago. The ranch has
an outstanding pasture pro-
gram. Some of the side trips
will include: A stop at Lake
of the Pines, a stop at the
Tyler Rose gardens and a
tour through Jefferson, an
antebellum river town. We
have other details and re-
servation information for

livestock producers who
wish to attend.

The fact that spring is
only about six weeks away
should make most people
take note, especially if
they're considering plant-
ing fruit and pecan trees.
We advise homeowners
to order or purchase needed
trees as soon as possible
to get the best pick of avail-
able supplies.
It's also important to
select varieties that are
adapted to your particular
locality. The county Exten-
sion office can provide in-
formation on which vari-
eties perform best in a given
area. For peach and plum
select year-old plants. In
Amarillo are three to five feet
Apple and pear trees should
be four to six feet tall. In
trees that are five to six
feet tall are best. Such
trees will transplant easily
will become established
quickly. Excessively bare-
rooted trees should be
trees is wasteful since re-
commend pruning off half
of the top anyway.
When buying fruit and
pecan trees, always inspec-
t on disease-free stock.
Trees perform best on sites
that are well drained and
have good penetration of
roots, water and air, so
give special attention to
planting site.

More and more people are wising up to the low cost of electric heat

More SPS customers switched to electric heat last year because they found out, through a free estimate, they could operate an electric heating system for little more than they were spending already. Do you think they made a wise decision? Ask any of them. They're our most convincing salesmen. And, ask us for an operating cost estimate. It's free. It's accurate. It's a real eye-opener.

Cotton Harvest Nearing End

"Cotton harvest is near completion in the Memphis, Texas area," said W.E. Cain, in charge of the AMS, Cotton Classing Office in Memphis, Texas. The Memphis Classing Office closed February 16, 1973. The Memphis, Texas Classing Office graded 450 samples this week to bring the season total to 213,400. This compares 144,350 for the season a year ago.

The predominant grade classed this week was Strict Low Middling Light Spotted (42) with 36 percent followed by Strict Low Middling Spotted (43) with 18 percent and Middling Light Spotted (32) with 11 percent. Micronaire, or fineness, and maturity, readings showed 46 percent miked to 4.9. The 3.3 to 3.4 range accounted for 17 percent and the 3.0 to 3.2 range counted for 27 percent.

Pressley, or strength, tests showed 87 percent tested 75,000 psi or higher. The average for the week was 80,000 psi.

The cotton market in Memphis, Texas area continued active and the demand strong. Prices were steady until midweek, then gained slightly to close 25 to 50 points over last week's quotations on all qualities. A good demand continued at lower mikes, 3.0 to 3.4 cottons. Some average prices paid were: Strict Low Middling, staple 32, 29.00 cents per pound; and Strict Low Middling Light Spotted, staple 32, 28.00 cents per pound. This was for cotton miked 3.5 to 4.9.

The average price paid farmers for cottonseed was \$52.00 per ton.
