## Across the Fence

**BY MAX HATTER,CEA MAY 11, 1973**  
 Nobody pulled a rabbit out of a hat last week at the Kelton 4-H rabbit show but if they had, no one would've been too surprised. Dr. Robert Berry, Area Plant Pathologist for the Texas Agricultural Extension Service at Lubbock who judged the show, did hypnotize a few of the entries though. No kidding. Janice Lister won a blue ribbon with her buck rabbit. Brenda Harvey got two 2nd places in the buck division. Other placings were as follows:  
 S son Harris, 3rd; Angela Abemathy, 4th, Mark Shelton 5th (of Allison); and Jim DeBauche of Allison 6th. Tracy Killingsworth placed first in the doe class. Brenda Harvey was second and Larry Harvey, third. Karen Harris plac d 4th.

Berry told the group that it took about 1,000 rabbits to keep a man fully employed to make an income of \$10,000 a year.  
 A recent article in a Dallas Texas Newspaper gave us an insight into the way wheat, milo, corn and other feed grain crop acreage is estimated. According to them an Oklahoma State University professor has supplied us with the procedure.  
 The figure is obtained by multiplying base feed grain acreage by the figure obtained by multiplying elasticity of feed grain in acreage by calculated feed grain price, 1972, minus base feed grain price, 1972, divided by the base feed grain price, plus 1. Add to this elasticity of feed grain acreage wheat price multiplied by the 1972 calculated wheat price minus the 1972 base wheat price. Now add the soy bean elasticity and multiply by 1972 calculated soy bean price minus the base soy bean price. Divide by the base soy bean price. Multiply by the same factors for cotton and add the feed grain price paid by farmers. Multiply by the per cent in prices paid by the farmers times .01. Add the adjustment co-efficient and multiply by the calculated feed grain acreage in 1972 minus the base feed grain acreage, 1972. Now you know.

Numerous cases of oak bud poisoning are being confirmed in many parts of Texas, and livestock owners in Wheeler County should be on the alert for this problem.

The Texas Veterinary Medical Diagnostic Laboratory at College Station has confirmed epidemics of the disease in cattle, and we look for cases to continue for the next month.

The problem also is known in some areas as sand shin oak poisoning. Oak buds or leaves contain tannins which damage the kidneys and other organs, producing frequent passage of urine that is red in some cases.

Additionally, the affected animals may be constipated at first, followed by diarrhea. They develop a rough coat of hair, lose weight and may die in from one to 10 days. Swelling may appear in lower parts of the body and a brownish nasal exudate is often seen.

When new growth appears in the spring, the oak buds are both palatable and toxic. Oak bud poisoning can be diagnosed if the cattle have the symptoms outlined and if owners submit a blood sample from sick animals to the Veterinary Medical Diagnostic Laboratory. Local veterinarians should be called, however to differentiate between oak bud poisoning and other similar diseases.

A good supplementary feed will help reduce losses, and another preventive measure is to move cattle out of pastures where shin oak is growing.

The Texas Agricultural Experiment Station, in work done by Dr. J.W. Dallahite, professor of toxicology, has developed a ration that helps control losses. It should be creep fed to calves, and cows need to consume about four pounds daily. Ingredients of the ration include 600 pounds of ground alfalfa, 1,080 pounds of 41% protein cottonseed meal, 120 pounds of vegetable oil and 200 pounds of calcium

hydroxide.  
 Congratulations to a fine Wheeler County Community! Mobeetie placed 3rd in the District 1 Texas Community Improvement Contest. Winning 1st was Booker in Lipscomb Co. and 2nd was Kerrick in Hartley Co. Hartley, another Wheeler Co. Community placed 4th and Draper in Dallam Co. placed 5th. This program is co-sponsored by the Texas Agri. Extension Service of Texas A&M Univ. and the Electric Utility Companies operating in Texas. Southwestern Public Service Co. of Amarillo is the local sponsor. Watson Burgess is manager of the Wheeler office.

# CHATS WITH GLORIA

By: Gloria Chambers, Ass't CEA

The shades are rolling up this month as the current program being presented to all Wheeler County Home Demonstration clubs is on laminating window shades. This is a subject in which many homemakers are interested.

The Wheeler Dealer club met Tuesday, May 8 in the home of Mrs. Darrell Moore and Tuesday, May 15, the Briscoe club will meet in their clubhouse.

Window shades are currently very popular. They afford privacy at night and roll up (or down) to a sunny view during the day. Shades can be a definite asset to the attractiveness of a room.

Many shades are used with the curtains or drapes already on a window. They might also be used alone or with a valance made from the same fabric with which the shade is laminated.

Since shades are inexpensive, a homemaker is limited only by her own creativity in designing her shades.

Give ordinary plastic window shades handsome, custom borders in just a few minutes by glueing trims or fringes along the hem of the shade. Decals and decorative motifs can also dress up a shade.

Fabric may be attached to a shade by sewing it on the shade, pasting or spray glueing, ironing with stitch-

# Mobeetie Teacher Retires

Mrs. Ann Hull is retiring after teaching 27 years of which 24 was in the Mobeetie School System.

Mrs. Hull has started many children on their road of learning as she taught 1st and 2nd grade. Mrs. Hull is loved by parents and students alike. She will really be missed at school next year.

She was presented a beautiful plaque at the Awards Banquet for her devoted service.

Mr. and Mrs. Russel Hull were presented a beautiful bouquet by the teachers and school personnel. The seniors dedicated the Annual to her this year.

She has one daughter, Mrs. Patricia Eads of Pampa. This resignation was written on the first night of school, Aug. 21, 1972.

August 21, 1972 (Effective in May of 1973)

To leave the teaching field is indeed a hard decision for me to make.

The love I feel for all children, but especially for the very small is so much a part of my life that I almost feel that I am indispensable, but I am not.

The love and concern I feel toward the parents of my children makes it precious to me to be a part in their lives, and you know full well that many of you parents were once my school pupils. I treasure all of my parents throughout my teaching. You have been concerned and cooperative; this makes it hard to leave the schoolroom.

To have the backing of the present board and of all the many fine men who have been my "bosses" for many years gives me a feeling that I must have been as fair to you as you have been to me. Never have I worked with your child as any different from any other child, for I really never thought of any of your children from the "trustee's kids", this makes it hard, but pleasant, to leave the teaching field.

To the present superintendent and past superintendents I feel toward you as I hope my children feel toward me. You are my leader. The many years have seen several come and go, and I feel that I worked agreeably with you realizing that you were over me as I worked but realizing I must know my area better than you as you understood your administrator's task better than any other teacher should. So I never hesitated to suggest what I really knew was best for my "kids."

To all the teachers who have helped me with many many ways, suggestions, kindnesses and just being coworkers, I owe you much and hope I have contributed my part in your lives. Teacher cooperation makes for pleasant leaving or leaving pleasantly.

To the proper authorities I submit my resignation. I have no plans to ever teach again unless some need I do not foresee should arise.

Thank all of you.  
 Ann Hull

# Sheriff Presented Memorial Plaque

A memorial plaque was presented to Wheeler County Sheriff Bus Dorman Saturday at a banquet in Pampa in memory of County Deputy Carroll Copeland.

Copeland lost his life in the line of duty New Year's Eve near Shamrock.

"A Part of America Died" A poem, was printed on the plaque; it reads,

"Somebody killed a policeman today and

A part of America died

A piece of our country he swore to protect

Will be buried with him at his side

The suspect who shot him will stand up in court

With counsel demanding his rights

While a young widowed mother must work for her kids, and spend many, long, lonely nights

The beat that he walked was a battlefield too,

Just as if he'd gone off to war

Though the flag of our nation won't fly at half mast

To his name they will add a gold star

Yep, somebody killed a Policeman today,

In your town or mind

While we slept in comfort behind our locked doors,

A cop put his life on the line

Now his ghost walks a beat on a dark city street,

And he stands at each new rookie's side

He answered the call, of himself gave his all

And a part of America died

## Wheeler Band Rated Superior

The Wheeler Grade School Band received a first division rating in a concert contest Friday, May 11 at Clarendon. The band played two prepared numbers and "sight read" for a third number.

Twenty-eight members of the band made the trip. The band is comprised of members of the 5th & 6th grades.

The Clarendon Band Festival was for Grade & Junior High bands that do not participate in U.I.L. contest in April. There were 15 grade and junior high bands entering from the southwest part of the Panhandle of Texas.

The sixth grade members of this band will become a part of the high school band next year.

An outstanding grade school band this year will be a step in the right direction toward a "top notch" high school band in years to come.

Mr. Tracy is very proud of his beginning students for their performance Friday.

The Wheeler Garden Club journeyed to Pampa Thurs. May 10, to enjoy a visit with Mrs. H. H. Boynton and view her lovely flower garden. ## WHO'S WHO

**the GRADS, that's who!**

The Seniors . . . young people on their way to ever-higher goals; young people dreaming bigger dreams and working hard to make dreams come true. This is what gives promise to making America's future ever greater.

The diploma, like the flag is simply a symbol. The real test of greatness for people or for nations is in honorable and continuing achievement.

The new Seniors have, by their past achievements, given every indication that they are willing and able to meet that test . . . to help make tomorrow's America greater than ever.

Our prayers and best wishes go with this outstanding Senior Class.
