MISS LANEIOUS NOTES

Share and share alike is a good motto especially when the object is an arm rest in a picture show. Some prefer resting the elbow on the forward part of the seat and others have their hearts set on the back part and this is one time when like meets like that there's bound to be a showdown.

"ROLL YOUR OWN" TURBANS

"Roll your own" is the fashion edict for 1939 summer turbans. This one, of blue and white fishnet, twisted casually over a summer coliffure, tops a spectator sports frock of blue crepe collared and cuffed in white.

### 50 Grand 'Cap Free-For-All

BOSTON, July 12 (AP)—Although W. L. Brann's great three-year-old Challenger, the Preakness winner, has been installed as an early favorite, today's \$50,000-added Massachusetts handicap, which drew 16 other starters, all but one older than the son of Challenger II, looms as the most wide open affairs of the Suffolk Downs meeting.

Challenger gave an impressive demonstration of his speed and stamina while winning with 124 pounds up in the July 4th mile and three-sixteenths stake for those of his own age. But the 113 pounds he will carry today, in his first start against older horses, is actually the top scale weight in a field that includes the Binglin stables seven-year-old Ligaroti, J. H. Louchheim's highly regarded Pompoon, the Belair stables speedy Fighting Fox and Mrs. A. J. Abel's Honey Cloud.

The only other three-year-old eligible to start is the King Ranch's filly, Ciencia, Santa Anita derby winner and one of the best routers of her sex in training, in with 105 pounds. She will be ridden by Nick Wall, who won this event last year on H. F. Headley's Menow, which finished 12 lengths ahead of the fourth-running War Admiral.

### Your Mid-Year Sports Exam

By DILLON GRAHAM — AP Feature Service Sports Writer

Each question counts 20. A score of 60 is fair; 80, good.

1. The girl shown above changed her sports uniform this year. Who is she and what change did she make?
2. Man O' War had another birthday this spring. How old was he?
3. Which major-league clubs trained in Florida last spring?
4. Name the players who tied for first in the National Open golf championship. Who won in a second playoff?
5. What horse won the Preakness?

### Pirates Test Brook Under Ares Tonight

By The Associated Press

The Brooklyn Dodgers, who have been trying all manner of means of getting the jump on the rest of the major league teams, have a sure thing tonight.

While other clubs in the National and American leagues are completing a three-day holiday occasioned by the all-star game at New York, the Dodgers and Pittsburgh Pirates will play what ordinarily would have been their Thursday game.

In third place and challenging the right of the New York Giants to second, the Dodgers will get a day's start on their rivals and even if they

loss they'll benefit at the turnstiles. When the other clubs resume action tomorrow the Eastern teams will be in the West and vice versa in the National league. Attention will be focussed on three series.

Boston's rampaging Red Sox, having beaten the Yankees five straight and given the champions their first real threat of the season, will open at Cleveland with an eight-game winning streak to nourish.

The Yankees will start their western swing at Detroit where they lost their only western series the last time around.

Cincinnati's league-leading Reds will face the Giants in New York seeking retaliation for their loss of a series when the Terrymen were in the west recently. With Ival Goodman lost from the outfield for an expected two weeks because of a shoulder injury suffered in the all-star game yesterday, the Reds have run into their first bad break of the season.

The Chicago Cubs open at Philadelphia tomorrow night. In the American league Washington goes to St. Louis and Philadelphia to Chicago.

### DR. BOYLE TO DO POST-GRAD STUDY

Dr. Frank Boyle will leave Thursday morning for Nashville, Tenn., where he will spend four weeks doing post-graduate special study in the diseases of infants and children and infant feeding at Vanderbilt University. The course is sponsored by Rockefeller Foundation.

Dr. Boyle will return to his office here about Aug. 20.

### JACK FROST AND DEVILS WIN IN MUNY S'BALL LOOP PLAY

In a wild skirmish in which both teams scored in every inning, Jack Frost Pharmacy edged out Montgomery Ward, 22-18, in a Muny softball clash at the city park Tuesday evening.

Loving, D. Wallace and Holmes collected home runs for the Retailers but an eight run outburst by the Druggists in the initial round could not be overcome.

The Druggists combined 14 base hits with 17 bases on balls and several Ward errors to walk off with the decision. McDonald's four hits in six official trips played a major part in the upset. Loving had a double besides his home run to pace the Ward attack.

In the evenings first game Lonnie Evans twirled hitless ball in pacing the Anderson Devils to an 11-6 victory over the Daniel's Wholesale Candies team. Held scoreless until the fifth the Sugar Coats scored when Evans left the mound and his successor gave up several runs on walks.

Of the seven hits the Devils collected Roberts and Alton Bostick had two each. Both of Bostick's blows were home runs.

First game:  
Devils ..... 203 150—11 7 0

### SPORTS ROUNDUP

By EDDIE BRIETZ  
NEW YORK, July 12 (AP)—Our army and our navy are recruiting full blast. Navy has grabbed off Gene Flatham, outstanding Clemson college tackle and Army opened the count by going down there and taking Walter Catagn, a better than fair guard. Bob Pastor has averaged \$2,000 in his last 27 starts.

True story:  
Until last week, George Archie, Seattle first baseman, had never hit for the cycle—homer, triple, double and a single in one game. But on July 4th he celebrated. He hit for the cycle in the first game against Hollywood and lacked only a single of repeating in the nightcap.

Connie Mack's friends say he isn't doing as well as everyone had hoped. New York U. claims one of the best educated coaching staffs in the biz. Three coaches—Mal Stevens, football; Howard Cann, basketball and Bill McCarthy, baseball—each went to two colleges.

Mebbe, mebbe.  
Flying here from Pittsburgh to fight Mello Bettina, Billy Conn went to sleep and got off at Philadelphia instead of Newark. He is wondering if Jimmy Grippo, Bettina's manager, who also is a hypnotist, had anything to do with it.

Denny Shute went out and knocked off two members of the P. G. A. tournament committee yesterday's match play. Now if it had been two members of the executive committee, a lot of golfers would be happier about it. Denny Shute is on the mend, but his doctors have ordered him to

### West Texans Clamoring For Farm Checks

DICKENS, July 12 (SpI)—Charging that government officials have not kept faith with West Texas cotton farmers in sending 1938 soil conservation checks on time, Dickens County Judge Marshall Formby and Joe M. Rose, West Texas farmer leader, this week called upon Washington officials again for the speeding up of the sending of the 1938 soil checks, now more than three to four months over due. Telegrams and letters were sent to Secretary Wallace, Senators Connally and Sheppard and to Congressman George Mahon, Clyde Garrett, Marvin Jones and Ed Gossett.

First difficulty between the farmers and Washington officials was encountered last fall when the government claimed that cotton placed in warehouses at Jayton, Snyder, Lorenzo, Haskell, Hamlin and other West Texas warehouses in 1937 was overgraded and that farmers owed the government the difference between what they drew and the actual worth of the cotton. Several meetings were held in West Texas. Rose was named chairman of a group to iron out the troubles and working in cooperation with Judge Marshall Formby a fairly satisfactory agreement was worked out with the government whereby farmers who signed set-off slips which gave the government authority to take from future soil conservation checks the amount due the government were to be paid their checks in regular routine and there was to be no de-

keep off the American Association coaching lines for the balance of the season.

"We have been made even promise under the sun," Judge Formby said, "and August is almost here and there are no checks in sight. All the trouble has not been in the Washington office either. The checks have not left the College Station office as rapidly as they should have. West Texas farmers were expecting the checks to arrive not later than April and as a result made various obligations with this in mind. The checks are three months overdue and many of our farmers have been placed in an embarrassing position. Every promise in the world has been made to West Texas farmers, but few if any have been kept. We don't exactly know where the blame is but we do know that we have not been treated in a manner a government should treat its people.

"This delay of 1938 soil conservation checks is pretty general in West Texas and is doing much to cause farmers to lose faith in the government farm program which is something that should not have happened," Judge Formby said.

### WAKE UP YOUR LIVER BILE—

Without Calumel—And You'll Jump Out of Bed in the Morning!  
The liver should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels, gas builds up your stomach. You get constipated. Your whole system is poisoned and you feel sour, weak and the world looks pink. A mere bowel movement doesn't get at the cause. It takes three good, old Carter's Little Liver Pills to get those two pounds of bile flowing freely and make you feel up and up. Harmless, gentle, yet powerful in making bile flow freely. Ask for Carter's Little Liver Pills by name. 25 cents. Stubbornly refuse anything else.

HOLLYWOOD—Every other actor you meet will confide, sooner or later, that his real ambition is to become a director.

There's nothing new about it. A long time ago Mack Bennett was acting in his own comedies, and from his comedies came directors like Mal St. Clair, Eddie Cline, Wesley Ruggles.

It was as tough then to convince producers that an actor could direct other actors as it is today.

Washington Daybook

WASHINGTON—Stripped down to the running gears, the contest between President Roosevelt and Congress over continuing the emergency powers is the old battle that presidents always lose in their second terms.

Probably each phase of the contest is more dramatic now than ever before. There is a reason for that. The President's public appeal and his personal influence in Washington have been tremendous.

When the President was inaugurated he told the country that if he felt it necessary he would ask Congress for "the broad executive power to wage a war against the emergency."

Some of the powers have been taken away. Some he still has. Anybody can find takers for a bet that some of them never will be lost to the President.

THE GREATEST ATTACK Undoubtedly the most formidable attack against the President's emergency powers was in the closing days of June when one or another of the two branches of Congress voted to:

- 1. Withdraw his power further to devalue the dollar. 2. Dissolve the \$2,000,000,000 currency stabilization fund. 3. Keep the restraints upon him imposed in the Neutrality act.

Further, the Relief bill, itself, although largely continuing the President's "lump sum" control of the spending, imposed special restraints on the method of spending which the Chief Executive had sought to avoid.

The President surrendered on the Relief Bill because he had to have the money or dump a heap of workers off relief. But on the monetary and neutrality powers he warned of a continuing battle.

Even in his first term the Supreme Court and Congress began trimming the President's powers. The Court took the lead in that by knocking out the far-reaching NRA authorities which gave the administration a grip on industry and labor factors alike.

MORE AGRICULTURAL POWER Remaining with the President is the tremendous power to manage the tariff, a task which Congress had held to itself from the earliest days of the nation.

On Capitol Hill, where the rebellious forces seem just now to have the upper hand, predictions are heard that the trade-treaty powers and some of the agricultural powers may be taken away in another year.

George Tucker Man About Manhattan

NEW YORK—I see Herbert Hoover every now and then in New York, yet every time I pick up a paper I read of him speaking in Kansas City, or fishing on one of the Maine lakes. He gets around.

It isn't generally known, but Mr. Hoover now is quietly working to offset the rising tide of intolerance in America. For months he has been raising funds and working through his old Quaker organizations in behalf of the German refugees.

If you see Frank Luther poking his head into some alley in China town, or coasting down a hill in Harlem, do not be alarmed. He is merely on the hunt for American folk songs.

Now a recording company is going to preserve these songs, and issue them in a series of special platters. Luther feels pretty good about this. He spent ten years combing the country for them.

Our cops have the reputation of hard boiled flatfoots. But they are pretty soft at times. They don't look comfortable in their pure white gloves.

When the man appeared satisfied he said thank you, and the two little girls ducked him a courtesy. They said, "Thank you, Sir," and the cop almost fell over. He grinned all over, and saluted.

Administration spokesmen say the country faces a financial crisis early in July unless three revenue measures are enacted. The taxpayer faces one every time his payments become due—Cleveland Plain Dealer.

Another queen, Elizabeth, is on her throne but not before the color camera which is shooting past her to close-ups of courtiers petitioning her to do something about Essex and the mobs.

Few Southern Vets Left In West Texas

(Herald Austin Bureau) AUSTIN, July 12—West Texas has 38 or only about 14 per cent of the 275 Confederate veterans living in the state.

With many of the veterans approaching the century mark, it will be but a few years before all have gone to their last reward.

The state pays the veteran soldiers and approximately 4,000 surviving widows a monthly pension. Fifty dollars each month goes to the veteran living with his wife.

Cisco leads West Texas towns as the home of surviving veterans. Four still live there. They are C. N. Marchman, Jim W. Johnson, U. S. Perdue and W. W. Foster.

Other veterans in West Texas are William Murphy of Tenynson, W. J. Evans of Snyder, G. M. D. Gardner of Morton, E. S. Johnson of San Saba, John W. Prewitt of Pecos, W. N. **KBST NOTES—**  
"Listen, Ladies" Program On At 9 A. M. Thursday

Second episode of "Listen, Ladies" goes on the air from KBST Thursday morning at 9 o'clock until 9:30. Mary Whaley, society editor of The Daily Herald, returns with social news. Ralph Karns brings further highlights from Hollywood and Behind the Mike. This program for feminine listeners is scheduled Tuesdays and Thursdays from the KBST studios.

Figures from the worlds of music, drama and laboratory research will be saluted on "Personalities in the Headlines," a TSN production to be heard over Station KBST at 10 a. m. Thursday.

The three personalities chosen by Commentator Roger Campbell: Irving Caesar, chum of the late George Gershwin and a song writer who is celebrating his forty-second birthday. Composer of "Tea for Two" and "Is It True What They Say About Dixie?"

Dr. C. H. Danforth and Dr. Mildred Trotter, who have exploded a number of myths on raising and keeping hair and who now are working on means of combatting baldness.

Guthrie McClintic, successful theatrical producer and husband of Katherine Cornell. Was boosted up the ladder to success by a letter he never intended to mail.

Grandma Beale really is going to find trouble awaiting her family in Thursday's broadcast of "Grandma Travels" from TSN studios. Joe, her hot-headed grandson has spoken heartily and been misunderstood by his boss who fired him for the loss of three truckloads of cherries. But the loss of his job is a minor catastrophe compared to the next development in Joe's troubles. What this development is will be disclosed in the Thursday episode, which will be heard at 8:30 a. m. on Station KBST. "Grandma Travels" is a five-times-weekly radio show following the day-by-day activities of Grandma Beale and her family.

Lawson and his popular TSN western trio will open their Thursday "Men of the Range" broadcast with "Down Along the Street Rio Grande." The program, which will be heard at 11:45 a. m. on Station KBST, will include also "Bandana in a Little Green Holbrook," "One More Ride" and "When the Sheriff Meeting Time in the Middle."

## City Dog Ordinance Is Tightened; Vaccination, Licensing Required

The city has declared a new war on stray dogs Wednesday, with enactment of an amendment to the ordinance at the commission meeting Tuesday night. The statute, commissioners said, will be rigidly enforced, to rid the city of dogs carrying the threat of rabies.

Officials announced Wednesday that applications are being received for a dog catcher, and the man employed will be put on a full time basis.

The new ordinance provides that all canines must be vaccinated by the city veterinarian, Dr. Otto Wolfe, who will issue certificates of vaccination, and also the city license. Heretofore, the licenses have been issued at the city hall. All dogs without a license caught at large, the statute provides, will be impounded for 72 hours, and if they are not called for, by the termination of that period, will be put to death by humane methods.

The commission took action to tighten the dog ordinance at the request of many people who have complained of being annoyed by stray dogs, and who have expressed fear that the animals might spread rabies.

## Conflicting Signs Break Up Mass Campaign To Uncover Buried Gold

WEATHERFORD, Okla., July 12 (AP)—The directors couldn't decide where to dig and the diggers succumbed to the lure of wild plums so a national doodlebuggers convention search for a \$250,000 treasure-trove was chalked up as a flop today.

Legend has it a group of 49ers, with about \$250,000 in gold among them, were beset by a band of Indians while camped near Ghost Mound here. They buried the treasure before being massacred.

No one had done much about it before the convention opened yesterday. Then the Brotherhood of Gold Restorers of America—a national organization which claims ability to find hidden treasure through divers personally developed means—descended the spot.

Some bore wierd mechanical devices, other ethereal expressions and an alleged ability to communicate with the spirit of the mound's ghost.

Confusion reigned from the start. President Menno Duerkson failed to show up. The spirit led mediums to several sites and mechanical devices known as doodlebugs indicated still others—all widely separated.

## TO NEW YORK

A. F. Hill, owner and operator of the local manufacturing concern which turns out his hand sanding plane, left Wednesday for New York on a combined business and pleasure trip.

He was accompanied by Mrs. Hill and their son, Darmond.

While in New York he will look into several pending deals involving his hand plane invention. The family also will visit the fair. They plan to return here around Aug. 1.

## 22 KILLED

BUCHARST, July 12 (AP)—Twenty-two persons were reported killed today in Transylvania when a freight train plowed into a string of wooden cars carrying Rumanian troops.

## CLEARED OF THEFT, FACES NEW CHARGE

WACO, July 12 (AP)—An auto theft charge against Walter Skaines was dismissed today but Skaines was returned to jail when word came from two Arkansas sheriffs that he was wanted in that state.

Sheriff John Duncan said communications from Sheriffs Jack Pace of Fort Smith and Marion Anderson of Hot Springs revealed Skaines was charged with bigamy in the first city and wanted on a felony warrant in the other.

Hot Springs officers earlier said Skaines was sought in the robbery-kidnaping of Mr. and Mrs. H. J. Thompson, a Mississippi couple, in March, 1938.

The federal case dismissed today was based on the finding of Thompson's abandoned car near Mount Calm, Tex. It was dismissed for lack of evidence.
