Attention: DOG OWNERS City Ordinance to be Enforced

Dog owners are to have tags for their animals before Sat. Enforcement of City Ordinance No. 81 relating to the Limits of Wheeler, W. Va., will begin Sat., Nov. 10. Conditions and Licenses will be picked up at the City Office at 826-3222 to check the pound for your pet.

Animals may be claimed by purchasing a city license, having the animal vaccinated and paying an in-pounding fee. The cost of the city license is \$1 for males and unsexed dogs and \$2.00 for females. Licenses may be obtained at the City Office at 505 Alan L. Bean Blvd.;

it will be necessary to show proof that the animal has a current rabies vaccination. Ordinance 81 was passed by the City Council on March 19, 1973, and anyone wishing further information may read the ordinance on file at the City Office. Anyone wishing to report a stray animal which they would like to have picked up may call the city office.

Claude Uses Big Plays To Down Wheeler Second Half Rally By Wheeler Falls Short

BY DAVID BRITT
The Claude Mustangs, co-leaders in District 2-A used two long scoring passes to down the stubborn Wheeler Mustangs last Friday night in Claude. The loss knocked Wheeler out of any chance they had for the championship.

A look in pass form Greg Forbes to Tony Stephenson that ended up in a 93 yard scoring play was probably the key play in the Claude win as it gave Claude a 14-0 lead 9:48 in the third quarter. Wheeler had Claude backed up to their 7 with a punt and the momentum had seemed to turn their way when Forbes hit Stephenson with a three yard toss at the 10. Stephenson was all alone on the catch and then side-stepped the Wheeler safety at the 20 and outran the pursuit for the touchdown.

Claude had taken a 7-0 lead in the first quarter, of what was really a poorly played first half by both teams, on an 18 yard sweep to paydirt by Dan Eisenhour. Three times the visiting Mustangs got to Forbes as he was scrambling to pass but the lanky Claude quarterback came up with the big tosses when it appeared that Wheeler had things going their way.

Wheeler got in the scoring column just 44 seconds from the end of the third quarter when Lewis Britt broke over right guard from the Wheeler 32 and raced untouched for 68 yards. The scoring play was the longest of the year for the Mustangs and narrowed the lead to 14-7 after Jim Verden's successful point after kick.

Mustangs And Tigers: In Nicholson Field Bout Friday

Even though both teams are on the outside and looking in at this stage of the race, no less of a battle is expected when the Wheeler Mustangs take on the McLean Tigers Friday night on Nicholson Field. Some of the fiercest battles of past years have been waged between the Tigers and the Mustangs and Friday night promises to be no exception.

Both the Tigers and the Mustangs have relied mainly on their respective ground games and both have the credentials to get the job done. The tailbacks for both clubs are up among the leaders in the district in rushing yardage although there is some question whether Gary Griffin, McLean tailback will see action or not.

Picnic, Singing

Everyone is invited to a singing at the Church of Christ at 2:30 in Allison Nov. 11, following a picnic dinner at noon at the church house.

Orlaco Hall Evans Rites Wednesday

Funeral services for Orlaco Hall Evans, 59, of Los Angeles, a former resident of the Wheeler area who died Friday at Los Angeles, will be at 2:30 Wednesday at First Baptist Church in the Allison Community.

Death Notice

Word has been received of the death of Sue Dyer in Granbury, Texas. She died Tuesday, Nov. 6 and the funeral was held Wednesday. Burial was in Granbury.

Clyde Bonds Rites are Read

Funeral services were held Sunday, Nov. 4 at 2:00 P.M. for Clyde Richmond Bonds, who passed away Nov. 1. Rev. Roger Gray and Rev. Clyde Denney were in charge of the services held in the Assembly of God Church in Leedey, Okla.

Christmas, Decorations, Rental Housing Discussed

The Wheeler Chamber of Commerce met Monday, Nov. 6. Two new couples in the area were guests at the meeting. James Verden introduced Don and Wanda King and C.G. and Rosemary Dodd.

Mr. King is the new County Agent and C.G. Dodd has moved back to the Wheeler area to help his father with a farming and ranching operation. After the reading of the minutes from the last meeting, the chamber began work on the business hand.

The Christmas decoration purchased with the help of the city have arrived and the erecting of the decoration will begin Friday, Nov. 23. Volunteers to help with the project would be appreciated; pickups will be needed.

The non-lighted decoration will be located under street lights along Alan L. Bean Blvd. and on the square. Chamber president, Kent Sims, relayed to the chamber the results of a survey conducted by the Thursday Review. The survey results showed a need for a community building and the opening of the movie theatre.

The survey on rental housing showed a very poor return and persons who need rent houses or live in rent houses are asked to fill out a survey and return it to the Chamber so the work toward obtaining additional housing may be continued. The committee working on the project are Barry Altman, Charlie Brown and Farmer Helley.

A committee was appointed to contact Santa and see when would be best for him to visit Wheeler and make the necessary arrangements for his visit. The committee consists of Jane Thomas, Twila Sims and Charlie Wagner.

Louis Stas and Jane Thomas are to contact the merchants of Wheeler and determine the type of promotion they wish to sponsor this year. The next Chamber meeting will be in December with the night changed to Monday because of the basketball season. The meeting will be Monday, Dec. 10 at 7:00 at Sparlin's Restaurant.

James Verden announced the Panhandle Economic Meeting in Canyon on Nov. 16. The speaker will be Gov. Dolph Briscoe. County Agent Don King has tickets available and stated he will be going and taking his car, if anyone would like to travel along.

He is survived by his wife, and one son of the home; and a daughter Mrs. Estelle Jones of Okla. City; his mother and step father Mr. and Mrs. C.S. (Bunk) Allen of Mobeetie; two brother Thomas Bonds of El Paso and C.H. Bonds of Antioch Tenn.; two sisters, Mrs. Mary Lou Moore of Mobeetie and Mrs. Joyce Hefner, Nashville, Tenn.; a grandmother Mrs. Mary Mixon Fritch, Texas. And a number of uncles, aunts and cousins.

He was preceded in death by his father, Herbert Bonds and two sisters. Interment was in New Herman Cemetery, Leedy, Okla.

Chili Supper Set For Thurs. Youth-Quake is having a Chili Supper this evening (Nov. 8) from 5:00 P.M. until 6:30 P.M. at the Christian Center Church. Youth Quakeers are raising money for a winter retreat at Bailey, Colorado.

Claude Mustangs

for the first time in the year campaign and the two completions had a big part in the last scoring drive.

Facing fourth and nine from their 49 with the clock against them and down by 14, the Mustangs from Wheeler took to the airways and Mark Bateman passed on the mark to Lonnie Whitener for a big first down at the Claude 36.

Two plays later, Bateman passed to Whitener again for 15 more and another first at the 26. Batman then ran for four before Ware broke on his TD run.

Fifty seconds remained in the game when Wheeler forced a fumble at the Wheeler 27 and Larry Rives recovered to give the Mustangs a last shot but Bateman was hit from

McLean

McLean runs from the Slot I and also a tandem set which puts the brunt of the ball carrying on the tailback just as the Mustangs Power I offense does.

Neither the Tigers or the Mustangs have gone to the air much so students of the foot brigade in football should be in for a treat Friday night.

"McLean lost just a couple of kids off their team from last year and they have tremendous size and strength" Coach Jim Bateman said this week. "They just ran right at people and we will have to really fight to stop them."

The Mustang coaching staff had few complaints in the Mustangs play in the second half of the Claude game but were critical of the effort shown in the first half.

Bateman said, "We acted like we didn't know what the game was about in the first half and neither did Claude." "Claude was able to make the big play in the second half and although we made a couple of mistakes on defense, overall we played pretty good."

Wheeler has been one of the few teams to sack Claude's quarterback Forbes for any kind of loss and the Mustangs ends, Lonnie Whitener, David Patterson, and J.C. Brooks got a lot of credit for the pressure they put on Forbes.

"We just couldn't kick out their left end so we had to run away from them and we got good mileage on our power sweeps with Lewis running to the left during the second half," Bateman said. "Kent and Lewis had good effort running last week and both of them ran real well on their touchdown runs," the head mentor of the Mustangs said.

The Mustangs should be in top shape for the Tiger game.

Colts

time they had the pigskin and Heckman dod most of it in nine plays. Heckman got the TD with a 29 yard sweep at right end and added the two points for a Claude lead of 8-0 with 2:07 left.

Ford brought the crowd to their feet with the following kickoff as he took the ball on the 24 and was cleared to the sideline about 40 by two good blocks and then outran his pursuers to the end zone. Ford got the tie for Wheeler when he plunged over right tackle.

Ford broke for 31 and 13 to give Wheeler a scoring opportunity at the Claude 21 late in the second quarter but Claude braced and downed Bobby Guthrie for a loss of nine on a pass attempt and took over at the 25.

Twenty yards in penalties against Wheeler aided Claude in their 64 yard march that gave them the lead that stood up for the touchdown margin victory.

Heckman broke up the middle from 13 yards out for the TD on the first play of the final period and after he added two more, Claude had their final margin.

Wheeler came back and drove to the Claude 20 for a first down but once again the drive stalled and Claude stopped the final Wheeler Colt threat at the 15.

The Colts close out their season Thursday at McLean when they take on the Cubs,

the blind side as he was going back to pass and he coughed up the ball to Claude at the 18 and Claude was content to run the clock out.

Finding the going a little tough on the ground in the first half, the Mustangs regrouped their forces at half time and the running game became a potent force the final two quarters.

Wheeler had trouble running the Claude left side all night except for the quick opens that broke for touchdowns but they did find success at the other side.

After Claude's third score, Wheeler ate up the 80 yards they had to go after the kickoff sailed out of the end zone in just three plays.

Britt churned for 7 at left tackle and Ware picked up another five at right guard before Britt broke loose.

The two big pass plays were about all Claude had to show on offense in the last 24 minutes but they were the big plays and proved to be the difference.

The loss put Wheeler's mark at 2-2-1 in district play and left Claude at the top with Memphis and Clarendon.

Roughing up the Claude defense for 221 yards on the ground, the Mustangs called on Britt 32 times and the Mustang tailback responded with 164 yards. Ware picked up 41 yards in 10 trips as the two Mustang running backs paced the Mustang ground attack.

SOIL CONSERVATION NEWS

Short Duration Grazing Systems

The most economical way to increase stocking rate and improve range condition at the same time is by working into some type of rotation grazing system. Many ranchers are working into High Intensity Low Frequency (HILF) grazing systems at this time. The systems are proving out with excellent results. Each system should be tailored to a particular ranching operation. It must also be correlated to the livestock

program in order for a grassland user to be satisfied. For maximum range improvement at least six pastures are needed, eight are better. This allows for longer rest periods and thus greater improvement. Pasture sizes are irrelevant but should be fenced so that proper use grazing height can be reached in optimum grazing period of no longer than 6 to 8 weeks. These systems are not a cure-all for overstocking or poor

livestock management. The following are advantages and points to consider in developing a (HILF) grazing system. Your local Soil Conservation Service office has personnel that would be glad to provide you with further information and planning assistance.

Advantages

1. Increased forage production.
2. Less labor costs, livestock are in one pasture and not scattered over the ranch.
3. Easier handling of livestock.
4. Faster improvement in grassland conditions.
5. Less pick-up expense.
6. In some cases fewer bulls are needed in a cow-calf operation due to cattle being grouped.
7. Usually the existing fencing arrangements can be used in a system as is.
8. Helps to break a parasite cycle that may exist on a ranch.
9. Flexibility of the system is such that it can fit most any livestock operation.
10. Less supplemental feeding is needed during the winter months.
11. Rested pastures can be used as insurance against drought years.
12. Healthy, vigorous plants are better able to withstand dry periods and continue productive and palatable longer than shallow rooted or stunted plants.
13. A more favorable micro-climate is created which in many cases encourage an increase in beneficial insects. An example is the cochineal bug with attacks prickly pear.
14. With an increase in both forage production and forage quality, ranchers can increase his herd size.
15. If stocking rate is moderate to start with no reduction in numbers is required.
16. Not only is there better distribution of grazing between the plants themselves, but there is excellent distribution of grazing between the various kinds of range sites within the pasture. This brings about a more efficient use of total forage production.
17. Sufficient rest is built in so as to give adequate time for even tall grasses to make their complete

growth cycle.

18. Ranchers are finding calving percentages are up to some extent since bulls have to travel less to get the same job done.

Disadvantages & Other Thoughts to Consider

1. Should you be a registered breeder, spread the cattle in all but two of the pastures during the 90 days breeding season. This permits the selected bulls to be placed with selected cows. At the end of the breeding period the cattle are once again grouped and put in one of the two pastures having received rest.
- At the end of this grazing period they are moved to the second fully rested pasture. Then the normal rest-graze cycle can be resumed. A clean-up bull is left in each pasture to cover any cows

missed. This is a modified system encouraging registered breeders into these synchronize systems.

2. Watch out for somewhat during times livestock are worked. As many as 3 to 6 times the number of cattle normally worked will be handled. Prior arrangements should be made to pen cattle overnight in a small trap or in some way prepare for working larger numbers.
3. In the design of these systems keep an eye on adequacy of water. There is considerable difference in watering 100 AU (1,500 gpd) and 7-800 AU (12,000 gpd). Remember the period of recharge for surface ponds is reduced considerably.
4. There is some validity to statements of increased

danger of communicable diseases when all cattle bunched into one herd. Ranchers I have talked say if the disease is infectious it is only a matter of time until it spreads throughout the entire herd rather have their cattle in fresh pastures each 3-6 weeks which tend to reduce transfer of disease thru close grazing of vegetation. Took danger parasite infestation is reduced considerable when much as a 30 day rest is imposed.

5. Keep in mind that will be a need to change bulls more frequently in operations where heifers are kept. Approximately each 2-3 years different bulls will be needed.
6. Most ranchers work out their own methods to keep cows and young calves together during move. When pastures there isn't much problem as the gate can be left open for 2 or 3 days pending the cow to return and pick up her calf. If the pastures do not join, eventually it will be necessary to ride the fence late in evening to locate cows full bags.
7. If there is an open the best time to initiate these systems is in February or March and preferably in a pasture having received some rest in the previous 12 months. In this way the entire system has rest during the growing season providing reserve feed the first year of operation.
8. You must be a part of the design. If you don't understand the basis on which the system was designed you will be less able to understand how to make work.

CHATS WITH GLORIA

By Gloria Chambers Asst. CEA - H.E.

You've heard about having a hayride in the old time, but last Saturday, November 27, it was a cold day out in the country for the Allison 4-H Club. They had a hayride and party at the club house. Fourteen 4-H'ers rode the hay wagon out to the club house. My husband and I froze along with the kids as chaperones. Mr. Black was tractor driver, and Kay Donaldson prepared the food and drinks for the 4-H'ers. They had a cold, but good time on their hayride.

Club had their first real meeting. Those present were Ella Daberry, Tressie Blocker, Ronnie Harris, Berty Olivarez, Ann Killingsworth, and Rachael Moore. The program was presented by Donna Moore, and Valetta Frankenberg who displayed and discussed ceramics. I took a window shade I had made and discussed several techniques used in making shades. They decided to meet once a month on the second Thursday of each month. Therefore their next meeting will be December 13, and I will present a demonstration on candy making.

Picture shows conservation contractor working on the construction of a diversion terrace on a Wheeler County farm. This diversion intercepts rainfall runoff water from the adjacent farm and takes it to a farm pond where it is stored and used for stockwater and recreation purposes. It also keeps the runoff water from doing severe damage to valuable farmland. There is a need for many such conservation practices in Wheeler County. Contact your Soil Conservation Service office in Wheeler for assistance in design and layout of these practices.

ly re-finishing an antique dining set. It's hard to believe all the projects she carries through - good preservation, sewing, quilting, embroidery and of course working with her antiques.

We have another question for our question and answer column.

Q. Is there a cure for weeping meringue?

A. If beads form on the meringue, it is because the sugar and egg whites have not been thoroughly combined. Beat the egg whites until frothy then start adding sugar, beating in gradually until the meringue is stiff not dry. Cover meringue to the edge of the pie so it will not shrink away. Do not set in a draft after removing from the oven.

Mrs. Sandra Morgan of Shamrock has shared another recipe with us.

PEAR PRESERVE CAKE

1 yellow cake mix
1/2 cup flour
3/4 teaspoon soda
4 eggs
1 cup chopped pecans
1/2 cup buttermilk
1/2 cup pear juice
1 cup pear preserves

Mix soda in flour and add to dry cake mix. Mix well, add eggs, buttermilk, pear juice, and preserves. Mix well, add nuts, pour into three or four greased and floured cake pans.

Frost and fill with German chocolate icing.

3 eggs yolks
1/2 cup chopped pecans
1 cup coconut
2 cups sugar

1974 Spelling Bee Director Named

Mrs. Leon Fillingim, Assistant County Superintendent of Schools will direct the 1974 Spelling Bee for Wheeler County.

The Amarillo Globe-News and West Texas State University have joined forces for the word contest in preparation for the 46th National Bee to be held in Washington, D.C. in June.

Students in public and parochial schools are invited to compete.

All rules are established by the Scripps-Howard Newspapers, national sponsor. Any student who will not have reached his 16th birthday or gone beyond the eighth grade by June 1, 1974, is eligible to enter.

Directors in the 46-county area, including 26 Texas counties, 10 in Oklahoma, four in New Mexico and three in Kansas, have complete control over their respective contests and may conduct them either orally or as written tests. The Amarillo regional event will be oral competition.

Orders for the 1974 copy of "Words of the Champions" a study book used in most schools and county contests, may be placed by writing: Spelling Bee Editor, Amarillo Globe-News, Box 2091, Amarillo, Texas 79166. The price of the

study book is 25¢.

The 1973 champion from Wheeler County was Leslie Smith. She was a student in the Shamrock Junior High School, Shamrock, Texas.

The junior champion was Rich Brown and he was a student in the Wheeler Elementary School, Wheeler Texas.

Only the Amarillo - WTSU area conducts a secondary bee for students in the sixth grade and lower. The county junior winners will be special guests of the sponsors in Amarillo on April 27 but will not compete unless he has won both divisions in his respective county.

A list of all prizes will be made available at a later date.

Jack Edmondson, head of the special services department at WTSU, is bee coordinator. Mrs. Jean Bartlett is Spelling Bee Editor.

All county champions must be named no later than March 30, 1974 in order to compete in the regional contest in Amarillo on April 27, 1974.

Interested students, teachers and school officials may contact the newspaper for additional information.

The youngster who takes first place in the regional bee will receive an all-expense trip to Washington for himself and a chaperone courtesy of the Amarillo Globe-News. He will take part in the 47 national event where the top award will be \$1,000 cash.

BY MRS. LESTER LEVITT
 Mr. and Mrs. Bruce Harrison spent the weekend at Raton, New Mexico with their daughter Mrs. Vivan Wallace and family.
 Word was received Saturday of the death of Oriace (Rusty) Evans in California. Evans had been ill for several months with Cancer and passed away Saturday evening about five o'clock in a California hospital. His body is to be flown here Tuesday with funeral services Wednesday at the Baptist Church with the pastor, Rev. J.W. Ralston officiating. Burial will be in Zybach Cemetery with Wright Funeral Home of Wheeler in charge of the burial.
 Mrs. Edyth Donaldson returned home Monday of last week from a few days stay at the home of her daughter Mae Morse at Dumas and with her son Colie Donaldson of Amarillo.
 Mr. and Mrs. Virgil Stinnet and children from Dumas spent the weekend with Mrs. Joe Walsh. Edwon Begert from Amarillo was an over night guest in the home of his mother, Mrs. Edna Begert Saturday.
 Mrs. Sharon Hall returned home Saturday from eight days stay in the Parkview Hospital in Wheeler. She is recovering nicely.
 Mrs. Bessie Megee had open heart surgery at St. Anthony Hospital in Amarillo Monday. She is recovering rapidly.
 Bob Young and family from Canyon were house guests in the Kenneth Chandler home over the weekend.

A Letter from Ern

Yesterday Recalled
 In 1909 and a few years later at the winter months when crops were gathered two rather a usual thing for the communities both Gageby and the Brown settlement to organize a literary and debate on different such as what is more useful to man a cow or a horse.
 Three debaters to the side one affirmative, the other negative, usually 3 judges to decide which was most essential.
 On one occasion I myself was on the dog side. The subject is which is more useful to man a dog or a gun.
 E.L. 'Bud' Puryear was one of the judges on that particular subject I do not remember the other two judges anyway it was spring.
 The cold winter 1911 and 1912. When my time came to uphold the dog I said many a dirty trick is sometimes played on a dog.
 On one occasion a man got lost in the forest, had nothing to eat for four days. What do you suppose that fellow done, he cut the dogs tail off, ate the meat off of it, then gave the dog the bone. Now that what I call a shabby trick, but perhaps it saved the mans life. He might of perished in that great howler of a wilderness had it not been for his dog. Anyway the dog side won and Bud Puryear reminded me of that 40 years later with a good natured laugh. Good old Bud.
 Another dog story after Armistice was signed. Us remount fellows had thousands of hores and mules to take care of and the way some guys would cuss when as at Feb. 1919 still another ship load from the U.S.A.
 Uncle Sam sold them cheaper than buying price here in the U.S. as I have seen 1000 sell at Auction for human consumption.
 Seems us No. 319 remounts adapted a big fat lazy pup nearly grown. We had that big lazy pup about 3 months. That dog was so outlandish lazy, if you put him in someone bunk and covered his head and all that lazy pup would sleep 2 or more hours and never move. On several occasions when time and opportunity permitted when someone had their back turned or after taps when lights were out he might want to get in bunk and that dog would be there sound asleep. Many a vulgar or profane voice I heard, on that account, the it might happen again. It happened time, I just giggled and it only happened to me once.
 Now the funny part about that dog Capt. Thomas brought that dog to the U.S.A. the last few days of June 1919.
 Roll call of my squadron, I was the very last one to get on ship at Bordeaux, France and was leading that dog for Capt. Thomas. Capt. Thomas was just at my side. A Lieutenant hollered at me what you doing with that dog, I just handed Capt. Thomas the rope and he was spokesman 22 years in the Army. Anyway the dog came to the U.S.A.
 On going up the Delaware River I said to myself, "Tis to good to be true, Home again the the good old U.S.A."
 A train load of us fellows 319 remount squadron included, took a short tain ride over to Camp Dix, New Jersey about 2 P.M., Capt. Thomas walked up to a kitchen said He wanted mess for 120 men, the mess sergeant said He had no orders to that effect. You ought to have heard what Capt. Thomas said, he

siad, He Was giving with profanity.
 The mess sergeant Capt. Thomas went gone a short time and had a real nice lunch we had for over a year our initials and organs printed on them, no la our possessions.
 There our organization was dissolved and sated for ever. I supp a good number are six below by this time.
 Time and tide wait no man.
 He tried to be some by trying to be like somebody which makes him nobody.
 Uncle Ern

Common Sense Approach To Making Out A Will

Life insurance company profit sharing, home ownership, pension plans and the now increased social security benefits, many people on the lower end of the economic ladder can point to estate potential far exceeding what one might normally estimate, without taking an extra personal inventory.

According to John D. Goethal, associate legal counsel of the John Hancock Mutual Life Ins. Co., here are the three steps you should consider now to prevent grief and potential hardship later.

Retain the services of a trusted family lawyer or contact a local professional lawyers organization for the names of lawyers in your area who will be pleased to assist you in the drawing up

of the will. Of course fees can vary but a basic will for someone of modest means should be relatively inexpensive. Don't hesitate to ask the attorney in advance to estimate what his fee will be. You will need to plan ahead of your appointments, a complete inventory of assets. Include: savings; shares of mutual funds; stocks and bonds; life insurance, whether purchased individually or through a group plan at work; all property (home, car, furnishings, etc.); a coin or stamp collection, in fact, anything of value to you or your heirs. Tengoo over the list with your spouse, a relative or close friend. They often can remind you of other assets that have been overlooked.

After review of your list of assets, the lawyer will need to know your plan for distribution. He should be shown deeds, bank books, stock certificates, appraisals and other similar documents to best advise you whether a change in title might be prudent in order to save taxes or to carry out your desires. Also in the event of death of your will's chief beneficiary - for instance your wife is killed in a car crash that also takes your life - who would receive the benefits in her place? If one is not designated, the state in its impersonal way will take over and may distribute in a way contrary to your current wishes. Think this over carefully since it can be the most crucial aspect of determining the will, and any probate lawyer will be quick to recall examples of the least conceivable events as - the ones that did result. The will is a very flexible document and as many alternative plans as you desire can be incorporated in it. Allow logic to prevail a family squabble is no time to make a fateful decision that you may not live to regret.

Another extremely important consideration if you have minor children is to agree in advance who will be the guardian if you should die prematurely. The surviving spouse will almost automatically be appointed but in the event of a common disaster, it is comforting to know that a relative or friend with child rearing beliefs similar to yours will assume the heavy burdens of parenthood.

The lawyer will also ask you to appoint an executor whose chief responsibility is overseeing distribution according to terms of the will. A simple, modest estate (one in which assets consist primarily of cash or property easily convertible to cash) could be served in the interest of economy, by you spouse or trusted relative as executor. A more complex estate should probably have the services of a co-executor - frequently a bank. There is a fee for this service but it is invariably worth the nominal charge since settling your estate might involve a highly technical real estate transaction, liquidation of common stock holdings at a favorable time, or a host of other problems that can arise. In the case of substantial assets it might be wise to consider the services of a qualified estate planner. All lawyers can draw a simple will but a lawyer who specializes in estate planning may be more versed in ways in which you can better accomplish your aims and often save substantial amounts of estate and inheritance taxes.

According to John Hancock law department, if you already have a will, review it periodically and if any of the conditions listed below has occurred - steps should be taken immediately to update it. Failure to do so could result in certain portions of the will being invalid or terms of distribution right now be contrary to your previous wishes.

- Sale of property specific to you left to an heir.
- Your executor dies, becomes incapacitated or has moved out of the area.
- You've moved to another state or have taken up residence outside the country.
- Acquisition of new assets.
- Inheritance tax laws of your state have changed.

Briscoe News

Federal Estate Tax changes are enacted.

Your marital status has changed. Marriage or divorce may evoke a previously valid will.

A child, now grown no longer needs as much help as when the will was written or another child may require substantially more help than his brothers or sisters.

Goethal also warned against the temptation to use one of the mail order will forms seen advertised in magazines for a few dollars: These forms may serve a purpose in a routine and uncomplicated situation but one slight error may invalidate the entire will. The small amount of money saved may be the most expensive investment you ever make.

Lastly, remember that your will is a living document. It reflects your situation today and ability to provide for loved ones tomorrow. Keep your executed will in a safe place and remember that the peace of mind provided by this valuable document far outweighs the minor cost expended in dollars and time.

Retired Senior Volunteer Prog.

Collingsworth and Wheeler Counties Retired Senior Volunteer Program was one of the local programs taking part in a national training conference recently held in New Orleans. The conference, the first of a series sponsored by the Federal Volunteer Agency, was held last week at the Delta Towers Hotel. Mecca Manuel, director

of the program in Collingsworth and Wheeler County was among the 36 attending lectures and workshops in program concepts and administrative techniques. The conference was conducted by ACTION, assisted by the Community Service of New York, a private, non-profit social service agency which has pioneered in establishing programs for older volunteers. Grants to assist in the operations of a local RSVP are awarded by ACTION, the Federal agency which is also responsible for Vista, the Peace Corps, the Foster Grandparent Program, SCORE, and other volunteer programs. ACTION also has awarded grants to the State Offices on Aging to enable them to help communities develop senior volunteer programs and to provide technical assistance to these programs.

RSVP provides significant volunteer service opportunities for retired persons, enabling them to participate more fully in the life of their communities, and establishing a respected and rewarding role for older adults. Nearly 600 communities throughout the United States have started local Retired Senior Volunteer Programs. There are over 42,000 senior volunteers now serving.

"As RSVP Director for Collingsworth and Wheeler County," said Mecca Manuel "it is my hope to work closely with organizations in these communities and make it possible for our retired citizens to use their time and talents productively in volunteer service."

Any retired person who is 60 or older is eligible to become an RSVP volunteer. There are no restrictions based on education, income or experience. Senior volunteers serve in a variety of organizations, agencies and institutions, including schools, libraries, parks, day-care centers, hospitals, courts, nursing homes, museums and economic development agencies. They serve without compensation, but may be assisted with transportation and meals associated with their service.

THE FAMILY LAWYER

"No Soliciting, Please"

A legal right to come calling at your home? Generally speaking, the answer is no, according to the United States Supreme Court.

"The knocker on the front door," the Court has ruled, "is an invitation."

But invitations can be revoked. And one way you can revoke this particular invitation is by posting a notice saying "NO SOLICITING, PLEASE" - or words to that effect.

Any solicitor who disregards such a notice would probably be considered a trespasser. This, in turn, would reduce your chances of liability in case he happens to stumble over a stray toy or trip on a broken step.

For the duty of a householder toward a trespasser is slight. You are not required to clear away hazards on your premises, but merely to refrain from injuring him recklessly or on purpose.

What about "NO SOLICITING" signs on apartment houses? Often posted by landlords, these signs have been attacked in court as an infringement of free speech - that is, the freedom to speak directly to individual tenants.

But courts have held that this is a reasonable and lawful way for a landlord to protect his tenants from being pestered.

This does not mean, however, that the landlord has unlimited control over access to the apartments in his building. In one case, an apartment house owner forbade any and all tradesmen to enter his building. When a grocer arrived to deliver fresh vegetables to a tenant, the landlord threw him out bodily.

In short order the grocer filed suit for damages, and the landlord was held liable on grounds of assault and battery. The court said the tenant had the right of access to his own apartment, and, by ordering merchandise to be delivered, he had extended that right to the grocer.

Here & There

BY LAURA GUTHRIE

We think that our town is very cosmopolitan. Why, only last Wednesday night a procession of all sorts of people came to our door. There were cowboys, "Silver Slipper" lassies, pirates, Indians, Mexicanos, twitery blonds, portly gentlemen, scarecrows, gnomes, goblins, and ghosts. My it was fun having all those callers and rewarding them with a "treat." Don't you think so?

Mr. and Mrs. Virgil Helton have had a very happy experience. Last week end friends of long standing paid them a visit. Mr. and Mrs. Jerry Smith and son Phillip, who have been a year in Lubbock came this year. They spent twenty years in Brazil, serving under the Baptist Foreign Mission Board. They have been in Lubbock for a year's furlough. Now they are making their way back to Brazil. Mrs. Helton was house mother to Mrs. Smith when she attended school in Lubbock.

On Sat. morning Brother David Campbell, wife Karen and children Jessica and Clay, and Rick Helton (Virgil's grandson) who is attending school in Arlington, dropped by and had coffee with the Heltons and their guests.

Our staunch friend, Mrs. Lizzie Rosser has had another birthday. This time her 92nd. And there she is, as busy with her stitching as ever. Friends dropping in on her in the afternoon were Mesdames, Elva Meek, Helena Martin, Sue Ivy, Clara Childress, J.E. Hubbard, Lou Farris and Tessie Newberry. They had ice cream and cake and a merry good time.

The nervous tension that Owen and Pearl Jones have been suffering since the disturbance in the East started has been somewhat alleviated. Their son Larry (Buck) and wife Mary arrived at the airport in Amarillo on Oct. 27. They had flown from somewhere in Saudi Arabia via London England where they were detained about 12 hours on account of fog. The USA surely looked good to them after the unrest they had felt the last few weeks in the Middle East. The Joneses are delighted that they will be able to spend Thanksgiving, Christmas and New Years Day in the states. This will be the first time in five years that they had the opportunity.

Buck's and Mary's daughter, Debbie, who has been in Amarillo with her grandmother is now living in Wheeler. Their younger daughter, Brenda who is in school at San Marcus will arrive in Wheeler in mid November.

Mrs. Wiona Moore from Sayre, Okla. is visiting Kyla Littlell this week.

Mr. and Mrs. Jim Wright and Denise from Lamar, Colo. visited in the Owen Jones home over the weekend. Mr. and Mrs. Harley Wright from Canadian visited Sat. night.

Wayland Pollard of Purcell, Okla. was in Wheeler this week visiting his mother and looking after her business interests.

Mrs. Juanita Levin has returned from spending 5 weeks in Port Arthur. She visited her son, Don and wife and daughter, Shirley Chaney.

Mr. and Mrs. Joe Baker and Ora of Carlsbad, N.M. and Nora Hanly of Erick, Okla. were guests of Noah Geyer, Tuesday. They also visited Mrs. John Geyer in the rest home at Shamrock.

To Be Married

Mr. and Mrs. Larry (Buck) Jones announce the engagement and approaching marriage of their daughter, Debbie Jones to Kenneth Dewayne Ford. Dewayne is the son of Mr. and Mrs. K.D. Ford of Wheeler.

Debbie is a graduate of "The American School of Las Palmas", Las Palmas Gran Canaria Island, Spain. She has been attending college at Amarillo Jr. College this year. Dewayne is a graduate of Wheeler High School and is presently employed by Natural Gas Company of America.

The couple will make their home in Wheeler after a private wedding on Nov. 24th.

Engaged

Mrs. Polly Tucker announces the engagement and approaching marriage of her daughter Mary Dell to Gary Don Donelson of Lubbock, Texas.

Mr. and Mrs. Elton Donelson of Snyder, Texas are the parents of the prospective bridegroom.

The bride-elect is a graduate of West Texas State University with a Masters Degree and is a Special Education teacher at Boy's Ranch.

Her fiancé is employed with the U.S. Department of Agriculture in Lubbock, Texas.

were weekend guests of his mother, Mrs. Elmer Brown.

Mr. and Mrs. Truman Alexander of Sweetwater, Okla. and Mr. Frophe Alexander of Amarillo were guests of Elsie Alexander Sunday.

Wheeler Items

Mr. and Mrs. H.D. (Ted) Pond of Stineett visited a few days last week with their daughter, Mr. and Mrs. Keith Abernathy and Karla. Karla is a patient in Parkview Hospital while her grandparents were here.

Mr. and Mrs. J.R. Clark recently attended a family gathering at the home of Mr. and Mrs. Roy Gossett in Lefom. Those attending the affair, other than the Clarks were Mr. and Mrs. Roscoe Trostle of Lela, Mr. and Mrs. J.L. Shirley and children of Stineett, Mr. and Mrs. Martin Gossett and son of Dumas, Mrs. Joel Lynch and children of Phillips and Mr. and Mrs. Roscoe Trostle the hosts. This is the family of Mrs. Clark.

Mr. and Mrs. Ford and children of Irving spent the weekend here with her mother, Mrs. Ruth Ledbetter and visited in Amarillo with her uncle Irvin Hink, who underwent surgery in High Plains Baptist Hospital. The latest report is that Irvin is improving.

Mr. and Mrs. Bill Smith of Shamrock and former Wheeler residents announce the marriage of their daughter, Miss Cynthia Call Smith and Gary Massey, son of Mr. and Mrs. George Massey of Beeville. The ceremony was performed Wednesday evening, Oct. 17 in the home of the bride's aunt, Mrs. R.L. Mike, Rev. Bill Lewos, pastor of the Eleventh Street Baptist Church performed the ceremony.

Mrs. David Kirby of Amarillo served her sister as matron of honor. She was attired in a blue street-length dress fashioned with an empire waistline and featured a scooped neckline and long tapered sleeves. She chose peacock blue ac-
