CANADIAN WILDCATS 'PASS' BY MUSTANGS 16-6 BY DAVID BRITT The Canadian Wildcats

went to the airways for all of their points and edged the Wheeler Mustangs 16-6 last Friday night in the Wildcats homecoming tilt that could have been won by the Mustangs.

Canadian had only four completions in twelve attempts for the game but two of them went for TD's of 37 and 74 yards and coupling this with two lost fumbles deep into Wildcat territory was too much for the Mustangs to overcome.

Wheeler lost the pigskin at the Canadian 11 and 13 to kill two promising drives and saw another opportunity flitter away on a disputed pass interception at the Canadian 13.

Danny Helton gave Wheeler a big break when he recovered a fumble by Doug Bessire at the Wildcat 42 midway of the first quarter to set the stage for the disputed call.

Moving to the 26 for a first down, the Mustangs drew five for offsides. On first down from the 31, Don Brown's pass to David Patterson was broken up at the 13 by Gary Hutcheson and the ball bounded out of bounds at that point but the official ruled that it was an interception and this killed the Mustnags chance to break the scoreless dead-

Early in the second quarter. the Wildcats took over on their 15 following a punt and had their first touchdown of the wet night eight plays later.

THE REMAINS: The hull is all that remains of this 1973 Plymouth Valiant which caught fire and burned Sunday afternoon. The fire was attributed to an electrical short. Mrs. Charlie Wagner was in the process of taking some Sunday School pupils home in the Kelton Community when she ran into some heavy sand; rather than bury the car in the sand, she walked to call her husband for help. When they arrived back at the car, it was burning; the Wheeler Fire Deapriment was called. The car, a total loss, was covered for everything but fire.

# Removed Oct. 14

October 14 is the date to remember if you have an old junker that needs to be removed. A unit will be in Wheeler on the 14th of Oct. to smash old automibiles. There will be no charge for this service.

Owners can have these vehicles picked up and hauled to the dump by con-tacting the City Office at 826-3222.

If you have a junker which you purchased for parts, plan your work to have everything you need removed and have it carried off; old car bodies setting in the street, yard or alley do not help the looks of our town.

### **Patty Martin** Given Shower

Bridal Shower honors Patty Martin bride elect of Johnny Crawford.

Patty Martin was honored Friday night September 20, with a Bridal shower in the fellowship hall of the First Baptist Church in Allison.

The brides colors of blue and white were carried out in the table decorations. Refreshments of punch, cake, nuts and mints were served to a large number. Hostesses for the occasion were: Myrtle Jones, Nadine Reynolds, Ellen Huff, Linda Hall, Sharon Hall, Kay Donaldson, Mary Carnell, Maebell Childress, Jaunita Fillingim and Nona Hall.

## Wed. Study Club Opens New Year tribution that is expected

The Wednesday Study Club opened its Fourtieth year last Wednesday morning with a brunch at the home of the president, Mrs Harry Wofford. Others in the receiving line besides Mrs. Wofford, were the mem bers of the Year Book committee, Mrs. C.J. Van-Zandt, Mrs. Cecil Denson and Mrs. Wm. Brown. After the invocation by the president guests were served at a linnen covered table arrayed with dainty food and steaming coffee.

After dining the Club was called to order. Mrs. Cecil Denson gave a beautiful tribute to the members we have lost since our last meeting. She said that Mrs. Tom Britt, a member of long standing, and Mrs. Clarence Robison, who was a member for only a short time, had both "left their mark" of faithfulness and contribution.

Mrs. Wofford reviewed Fory Years of Club service. The purpose of the Club, when organized and now, was to promote culture, and to appreciate the best, past and present. Mrs. Floyd Pennington was our first president. and Mrs. H.M. Wiley is the only charter member who is still a member.

Mrs. Wiley responded to the Review by stating how much she appreciated the Club, how much it means

## **Wind Erosion** Season Now **Approching**

The most critical wind erosion season of the year is fast approaching. Serious and permenant damage can be done to many acres of un protected cropland in the Wheeler County Soil and Water Conservation District. Damage can be done in a few hours or over an extended period of time. Regardless of how long it takes, the damage will be done. The smaller paricles of soil will be gone, leaving only the more coarse and far less fertile particles of soil. Much potential damage can be prevented by leaving residue from sorghum crops on the surface of the soil. Small grain can be seeded in to existing cotton with little or no damage to the crop. This practice will not only protect the soil all winter long, it will add sorely needed organic matter to the soil. For futher information on how you can help prevent wind erosion, contact any member of the Soil Conservation Service staff at the Wheeler Field Office.

The Mustangs came out of the hard loss to Canadian free of injuries and should be in their best shape of the young season barring workout mishaps.

"We felt like we played well enough to win the Canadian game but a lot of mistakes really hurt us and we have got to cut these out," Coach Robinson said this week. "Our defense against the run last week was O.K. but our secondary broke down in its coverage and this killed us."

**CHEVROLET FOR 1975.** CARS THAT MAKE SENSE FOR TODAY.

Monza 2+2

MONZA 2+2 The small car of tomorrow will probably be a little more powerful, handy and comfortable than ever. The 1975 Monza 2+2, shown above, offers this today. It has advances like rectangular headlights set in a soft front end, fold-down rear seat, and a new 4.3-litre V8 engine available.

NOVA In the background above, our new Nova N Sedan. A luxurious Nova with thick carpeting and wide-back reclining front seats. For 1975, all Novas have been emphatically refined along the lines of elegant European sedans. Nova's always been good. Now it's beautiful.

IMPALA America's favorite car continues to provide the room many families need plus plenty of quiet and comfort. Still the great American

CHEVELLE Mid-size, easy to drive, room for six, mid-priced, strong reputation for value. America's most popular intermediate.

CAMARO Our sensibly sporty compact. It ooks like a million and drives like it looks.

WAGONS Big ones, small ones, in-between ones. Practical wagons that make sense for America. And you.

MONTE CARLO Its special ability: making

you feel good. About the way it looks and drives. About your own taste and judgment.

CHEVROLET'S NEW EFFICIENCY SYSTEM

FOR 1975 It's the key part of a program aimed at helping our new cars run leaner (more economically), run cleaner—and save you money every mile.

1975 Chevrolets with V8 or 6-cylinder engines. It's a series of significant engineering improvements working together for the very first time. Components include High Energy Ignition, catalytic converter, Early Fuel Evaporation and

steel-belted radial ply tires. In sum, the System is designed to heighten the pleasure and lower the cost of driving a 1975 Chevrolet—to bring you a better running car in many ways, along with improved fuel economy, more miles between recommended maintenance and an engine that stays cleaner internally because of

to the 33. Kent Ware, the Mustangs hard working tailback, got 6 yards in two carries before Terry Tidwell was knocked out of bounds after a pickup, of five and a first down on the 22.

Ware ripped off 10 big steps the next two plays and a measurement gave the Mustangs a new lease at the 12 with 1:17 on the clock.

One run got three before Brown passed incomplete at 0:32. Ware punched four more yards to the 5 and Dan Helton got a first down for Wheeler at the 1 on fourth down on a reverse and the ball was put into play with just five seconds remaining.

For some unknown reason, Canadian called timeout and the resprite gave the Mustangs the time they need-

Ware stuck it in from the one on first down and the Mustnags were on the board at 0:02. A delay penalty hurt the Mustangs here and a pass for the two pointer was no good.

Gifted Aliens

LAWYER

Our immigration laws, which set quotas for entry into the United States, also provide loopholes for special situations. One of these loopholes allows preferential visas for aliens who have "exceptional ability in the sciences or the arts."

What does this mean? Take the case of a woman golfer, born in Australia, who applied not long ago for a preferential visa.

Was her ability "exceptional"? Yes, ruled the Immigration Service, because as a professional major tournaments. Was golf an "art"? Yes, ruled

Highlights

^ Sidelights

With the help of a roughing the kicker penalty, Wheeler took the second half kickoff and drove to the Wildcat 11 before losing the ball on the first of their two costly fumbles.

Jim Verden's fourth down boot from his 46 was nullified as a Wildcat was tagged for falling into him, and the penalty, of only ten yards, gave Wheeler a new shot from the Canadian 43.

Brown found open spaces around his left end on a keeper on first down and was finally dragged down 30 yards later on the 13 and the Mustangs had the Wildcats hanging their heads a bit but didn't cash in.

The quick advantage disappeared three plays later as Brown hobbled the snap and Carey May recovered for the Wildcats at the 11.

Wheeler's last real good chance to get on the scoreboard again came shortly after their muffed opportunity at the 11.

Marty Carr fumbled at the Wildcat 34 as Canadian was attempting to get out of the hole and Tidwell recovered for the Mustangs.

Wheeler picked up a first down via a 8 yard run by Ware and a 6 yard pickup

Result: the visa was granted. By similar reasoning, a preferential visa was granted to a brilliant Japanese puppeteer and a spellbinding Australian lecturer.

But the standards of excellence under this provision are high indeed.

Another case involved a Korean singer who was part of a duet. She was able to point to some favorable reviews by critics, but none that singled her out as an individual performer.

The Immigration Service decided that while she was doubtless capable as a vocalist, she was not "exceptional" enough to qualify for a preferential visa. Furthermore, the skill itself

must be one that is difficult to master. At one time or another, an Italian broommaker, a Philippine auto mechanic, and an Italian hair stylist have all been turned down on the ground that their particular skill was too easily attainable. As a commissioner explained in

the broommaker case, he was not convinced that the services of the applicant "would be substantially peneficial to the national economy, cultural interest, or welfare of the

PANHANDLE REGIONAL

## Speech And **Hearing Clinic**

A team composed of speech and hearing specialists from the Panhandle Regional Speech and Hearing Association will visit Wheeler on Sat-urday, October 12, 1974, to provide free speech and hearing examinations for those children in the community who are 4, 5, and 6 years old. They will be at Wheeler School from 10:00 to 12:00, and again from 1:00 to 3:00

in the afternoon. It is now commonly understood that all types of speech, language, and hearing problems can be dealt with far more effectively when diagnosed at an early age. Some of these problems are subtle and not easy for parents and teachers to identify, therefore, these experienced professional volunteers are coming to eval-uate every child in the

four to six year age range. This visit of the evaluation team to Wheeler is being sponsored by the Thursday Review Club and Wheeler Chamber of Commerce. They urge every parent to bring their children in this age range to the team for assessment There is no charge for this evaluation and consultation. Those child-ren tound to have signi-ficant problems will be referred to appropriate professionals for complete diagnosis and recommendations.

Children from Allison, Mobeetie, Briscoe and Kelton are invited to Participate.

Goat . . . Pecan Crop Looks Good . . . Roundup

Cotton Outlook Better... The Controversial

THE AVERAGE YIELD of cotton in the United

States this year is expected to be 485 pounds per acre,

compared to 519 pounds last year; and, in Texas, 318

pounds per acre compared to 431 pounds last year. There

may be several reasons for that decline, but it is reasonable

to believe that the weather and fertilizer -or the lack of it-

exerted the most influence on the 1974 cotton crop.

Considering the high price of fertilizer, it is pretty certain

that farmers put out less fertilizer on this cotton crop than

on the 1973 crop. Cotton production in the Nation now is

expected to be 13,125,300 bales of upland cotton from

12,995,300 acres, compared to 12,879,900 bales from

11,912,100 acres in 1973. The September estimate for

Texas cotton production is 3,180,000 bales, an increase of

130,000 bales over the August estimate and a decrease from

the 4,673,000 bales produced in 1973. It is estimated that

800,000 acres planted in Texas have already been

abandoned, four times more than the number of acres

abandoned in 1973 and the highest level of abandonment in

20 years, says the Texas Crop and Livestock Reporting

Service. Rains on the Low and High Plains have given a

more optimistic outlook for the 1974 cotton crop in those

question: "Earth's Worst Friend a Goat?" The writer

blamed some unnamed ecologists for claiming the goat is

the most dangerous animal in the world, because it chews

up trees and gnaws all plants down even to the roots,

"thereby causing soil erosion in already arid areas." The

controversial goat has a history that extends back as far as

mankind's; but he has his defenders, and rightfully so. In

times of famine, the goat probably will be the last animal to

starve; and he is the source of cabrito, you know, as well as

of mohair--if he has the right family background. The Texas

Department of Agriculture uses "Judas goats" at its export

facilities along the border with Mexico, and they are very

helpful in the export program. Fifty years ago, the

Department also was using goats in the pink bollworm

eradication program. As an eradication measure, infested

cotton fields were cleaned of all vegetation and the debris

burned. Entomologist R. E. McDonald wrote, in 1925, that

goats were used to clean infested cotton fields in Brewster

and Presidio Counties and that they cleaned fields "like no

human hands could." Like most animals, goats have their

pounds, and if that prediction proves correct that would be

a 75 per cent increase over the 1973 pecan crop. The best

set apparently is in the San Saba and Cross-Timbers areas,

ranging from moderate to heavy. The East Texas pecan

crop is expected to be light, and the South Central Texas

crop is expected to be from poor to good. Last year's

onslaught of walnut caterpillars, which denuded many

pecan trees, had a very adverse affect on this year's pecan production . . . Sugar cane production in Texas is expected

to be 980,000 tons compared to 734,000 tons in 1973.

That production will be from an estimated 28,000 acres,

compared to 18,600 harvested last year . . . During the

week of August 18-24, there were an estimated 263,000

persons working on Texas farms and ranches, a drop of

seven per cent from the previous month. Of that total,

83,000 were hired laborers and the remainder family

laborers . . . Peanut production in Texas is estimated to be

454,500,000 pounds, compared to 471,225,000 pounds

TEXAS' PECAN crop is expected to be 35 million

faults, but they can't be all bad.

A NEWSPAPER story the other day asked the

areas, however.

The 3rd Annual Tri-State High School Rodeo Association Rodeo was held Saturday and Sunday at the Wheeler Roping Club Arena. The crowd was small, but the contestants from the Tri-State area had a fine rodeo.

The Gruver High School Boys team won the first place team honors in the boys division and the Perry ton High School Rodeo Club won the girls division. The all-around cowgirl was Lori Primrose of Tucumcari, New Mex., and the all-around cowboy, was Monte Cluck of Gruver. Each of the allarounds received a trophie saddle for their weekend efforts.

Rodeo results were as follows: Bareback riding, 1st, Hoyt Turner, Tascosa,
