IMPROVED CABLE SERVICE AHEAD

TIMES MAY BE LATE

Today, December 28, is designated as the Day of Mourning for the death of Harry S. All government offices and offices closed.

The Wheeler Times will be placed in the mail Thursday morning, but due to the closing of the Post Office, subscribers will in most

cases receive the paper a day late. The Times did not learn of the closing of the Post Office in time to plan an early publication.

A tentative starting date of January 22 has been set for the process of rebuilding the entire Wheeler TV system at a cost of \$30,000. Upon completion customers will see a 100% improvement in their TV reception. The remodeling is necessary to comply with a Federal Communications Commission regulation passed earlier this year.

Vikoa Electronics of Garland, Texas, will furnish the equipment and cable for the project. Comco, Inc. of Austin will do the construction.

Cable customers will have to learn where to find their favorite channel when the project is completed. The channels will be located where the respective channels, 4-7-10, instead of the present 4-5-6. The reason for this change is the FCC ruling that a vacant channel has to be between every channel used on the cable system.

The present system was completed in February, 1968, at a cost of \$16,000. This brought television to Wheeler which was virtually without television. Seventy to 100 foot towers were required to pick up any television.

In 1964, the micro-wave system was installed which improved the reception and gave the customers snow-free reception. The system is owned by Laura and Corky Guthrie, residents of Wheeler for the past 42 years. Prior to building the cable system and until recently operated the Rogue Theatre in Wheeler.

TORIN HOUSE DRAWS \$100 CASH SATURDAY

Torin House received \$100 cash from the Wheeler Merchants Saturday, December 23. House's name was the last name drawn from the hopper and he was the last to receive cash in the 1,000 Christmas Drawing.

The final drawing of the \$1,000 Christmas Drawing sponsored by the Progressive Wheeler Merchants was held Saturday. \$400 was the amount of cash given away in the final drawing.

\$600 had been given away prior to Saturday. \$300 was divided among 16 Wheeler Shoppers in each of the two drawings Dec. 9 and 16.

The cash drawing is an annual event for Wheeler. The businessmen feel there is no better way to say "thank you" to their customers than by handing out crisp green money.

Receiving \$50 for standing and waiting for their names to be drawn Thursday were I. B. Griffin and T.

Ingram. Four persons were on hand to receive their \$25 portion of the \$400. Vivian Talbot, Dorothy Jamison, B. Barham and Grady Dodd each received envelopes containing \$25 cash.

Ten people gathered for the drawing Friday received \$10 bills. They were Jack Finsterwald, Bill Hampton, Elva Wood, C.H. Turner, Denise Miller, J.C. Bradstreet, C. E. Henderson, Tom Puryear, Hoy Hunter and Todd Moore.

Thanks is extended to Shelby Pettit for being on hand each week to announce the drawing. Cecil Pierce helped with the drawing this Saturday.

The following merchants sponsored the Christmas drawings:

Pete Burton Ford, Donna's Wig Boutique, Pritchard's Food Store, Daughtry's Ben Franklin, City Drug, Percy's Garage, Hibler Implement,

Hyland's Pharmacy, Southwestern Public Service, Snelgroes Texaco Service, Warren's Grocery, Trading Post, Ware Chevrolet, Wheeler Lumber Co., Lancaster Dept. Store, Lee Hardware and Furniture, Wheeler County Produce, Dot's Shop, McIlhenny Dry Goods, Wheel-Tex Feeds, Albert's Shamrock Service, Harper's Deep Rock, J and J Shamrock, Nora's Cafe, One Stop Shop, Stop and Shop No. 2 and the Wheeler Times.

These merchants and individuals helped to sponsor the drawing but did not give tickets: George & Vena Richardson, First National Bank, Rives Insurance, John C. Vise Agency, Wheeler Flower Shop, Wheeler Redi Mix, Wright Funeral Home, Wheeler Gas, Inc., Beef Cattle Co., Frank Walker Jr., Auctioneer, Prime Feeders, Inc., and Wheeler Veterinarian Clinic.

PS Co. To Invest in Improvements

Western Public Service will invest \$196,000,000 in equipment and improvements over the next five years, announced today by the company's chairman and president, the electric company.

The area has turned into an economically and socially "go" for future. We must be prepared to use the power that will be needed to keep pace with this growth and the power that will be needed to keep the environment the way all of us want it to be," Talk said in announcing the expansion program.

New generating facilities with a capability of 631,000 kilowatts would be completed during the 5-year period, Talk said, and, just before the end of the 5 years, construction will begin on a 350,000 kilowatt unit scheduled to go into service in 1979.

The new generating facilities include a 25,000 kilowatt gas turbine at Riverview Station, which will go into service in mid-1973. This unit, while small in size, is large in unique features. Its exhaust gases will be piped to a waste heat boiler, and steam from this boiler will supply 60% of the steam to drive the presently installed conventional generating unit at Riverview. By reusing the waste heat from the gas turbine, the efficiency of the two generating units is increased by 20%.

"We are working every day in every way that we can to conserve resources. We have experienced some shortages in gas fuel, but we have a commitment to our customers which demands that we find the fuels to meet their electric service needs," Talk said.

Southwestern pioneered in the use of treated sewage effluent as cooling water at its Nichols Station, near Amarillo, beginning more than a decade ago. Now they have gone one more step and are using equipment that cleans up the treated water to the point where it can be purified for use as boiler feed water. This is being done on the first unit at Jones Station and is projected for the second unit at that facility and also for the 1976 unit.

"When we have installed all of the generating facilities proposed through 1976, we will save, on the average day, 14,000,000 gallons of potable water through the use of sewage effluent. That's the equivalent of the daily water needs of a city of 100,000 people and is a most important conservation consideration," Talk added.

Returning to the matter of fuel resources, Talk said that the 350,000 kilowatt unit planned for 1976 will be built so that gas, oil, coal or even solid waste can be used as a fuel.

"This one is actually going to have a garbage door on it, he said. Speaking in a more serious vein, he added, "We are confident that our suppliers will find the gas that we need for fuel, but we will be prepared to burn other fuels if it doesn't turn out that way. We assure our customers now that, if it is necessary to use coal as a fuel, every standard of environmental protection will be met - and exceeded, if possible."

The 1976 unit will be located north of Amarillo so that the sewage effluent can be purchased from the city.

A major transmission line project for 1973 is a 230,000 volt line running from Tucco Interchange, north of Abertown, to Nichols Station, northeast of Amarillo. This will provide a second 230,000 volt path or backbone for the interconnected transmission system and make the movement of power between major generating facilities and the areas of greatest use more efficient, reliable and economical.

"It is difficult to pin down exactly how many dollars will flow into the economies of the communities we serve because of this expansion program. We will purchase all of the transportation and office equipment locally and as much of the supplies and materials as possible. Local suppliers will provide the gas or oil fuel. Construction labor accounts for about 22 to 25% of the cost of a new generating station, and it will come from local skilled labor sources and amount to several million dollars. If the formula that says putting one dollar into the economy generates seven more dollars is valid, then we are talking about a multi-million dollar injection into the economy of our area during this five-year program," Talk concluded.

Here and There

BY: Laura Guthrie

I had a Southern friend who used to say, "I feel real brought down" when she was depressed—and I've never heard a more apt expression of that state. (From the Poor Woman's Almanac). Now that is just the way this writer feels. "Tis the day after Christmas," how else are you supposed to feel?

But wasn't it a lovely Christmas? All we have to do now is look forward to another one. It is the greatest time of all for families to get together.

Henry Risner and wife, Twila and her daughter, Mary, who live in Berger, don't get to Wheeler often. But they spent Saturday night and Sunday with his mother, Mrs. Jim Risner. After they had all attended church, other members of the family joined them for Sunday lunch. These were: Adrian and Dorothy Risner, their daughter, Darla and Punk Childress, Wade and Kari of Pampa and Henry's daughter, Letha of Lubbock. Phillip, Letha's brother and wife are based in Georgia and couldn't make it to Texas.

Christmas Eve is always a highlight in our life. Adrian and Dorothy Risner always

ask us to be with them at dinner and gift exchange. Others there were their grandchildren, Wade and Kara Childress, with parents Darla and Punk from Pampa; Betty and Letha Risner of Lubbock, and Adrian's mother, Mrs. Jim Risner. Adrian and Dorothy went to Matador Saturday to visit her sister, Mr. and Mrs. Stuart Dixon, so they would be home on Christmas Eve.

The Editor, Louis Stas and his family took the weekend and Monday off to be with his mother and other relatives at Calumet and Hinton, Okla. He will sure have to cut out all foolishness for a time, so as to get the paper out by Wed. noon.

The varityper in the newspaper office, Korene Walker and her family, Frank, Jr., Jack and Tracy, spent Christmas eve in their own new home on Alan Bean Blvd., and I hear that Santa Clause found the place. On Monday the family went to Canyon to visit Korene's parents, Mr. and Mrs. Floyd Kiser and other relatives. A total of 30 were present for dinner. They brought home her niece, Miss Paula Sue Ivy of Olton to spend a few days. Jack and Tracy have been having a time with their little 4 year old red-headed cousin.

Now take the Ed Riley family. We would cast our vote for them to be the Family of the Week. All in all they added some twenty people to Sunday School on Christmas Eve. They attended church and we'd bet Ed spent a lot for groceries for Christmas Dinner. Included in the family are Joe and Mary Mitchell, Marla, Kent, Chuck and Jim Bob of White Deer; John and Nelda Brewer, Don, Brian and Jennifer, Topeka, Kans; Bob and Gayle Riley, Lisa and Leigh, Claude; James and Ann Henderson, Ty, Cheryl and Tara, Wheeler. Also with the family were Harry and Judy Ethridge, friends of the Brewers from Tulsa, Okla. John Brewer left on Tuesday for Potts, mouth, N.H. where he will make arrangements to move his family. Nelda and children will follow by TWA. And the Riley family has talent. At church Sunday morning we enjoyed solos from both Mary and Nelda.

Sylvia and Harold Loyd Lee and children are another A-1 family in Wheeler. The family with its full program of ranching, music and church work, school and civic activities is most always in its place at church on Sunday. Sylvia's parents and other members of the family were

Cheers From the Highway Crasher

Here comes the happy "Highway Crasher." He's much too polite to crash your New Year's Eve or bowl game parties. He'll just wait until later — when you're on the road — to start his real celebrating.

He's had a couple of drinks to see out the old year and a couple more to see in the new. Now he's racing and weaving his way to a final, smashing whoopie. For him "Driving Friendly" would have meant not driving at all.

A Sober, Cheerful Resolution: Drive Friendly.

Across the Fence

BY: Max Hatter, CEA
What this country needs is at least 2 weeks of dry sunny weather. We talk about the weather but we can't do anything about it. A lot of milo was cut this past week in spite of muddy fields. The cotton stripping went a lot slower. A lot of our ungathered crops are going to be written off if we don't get a break in the weather.

We may want to combine our wheat crop this year. Last week, wheat went up .06 cents one day and 5¢ the next.

We appreciate the compliment paid to County Agents in the January 1973 issue of the Progressive Farmer magazine. J. Phil Campbell said, "Today's agricultural agent is a very relevant participant in the continuing agricultural revolution". Progressive Farmer is writing a story on "Wintering Cows on Weeping Lovegrass. We sent them the information we had gathered the past few years. My good friend Tom Curl is now associate editor of the magazine and I'm sure the Panhandle will be getting a lot better coverage since he's a native of this part of the country.

Noticed the papers had banner headlines concerning the high price of fed cattle. Milo and other feed grains have risen also and will be reflected in the cost of gain to cattle feeders.

I'm glad to report that co-worker Miss Pat Palmer who was slightly injured in a car accident last week is recovering nicely and will be back on the job soon.

Ida Farmer left Saturday by plane to spend some time with her son and family, Glen and Janet Farmer and boys of Scottsdale, Nebraska.

Harry and Mary Wofford spent Christmas with a brother, the Frank O. Woffords in Little Rock, Ark. Reba Wofford spent the time with her friend, Mildred Isaacs in Amarillo.

Mr. and Mrs. Bill Errington and family, Mr. and Mrs. Kenneth Errington and Bret of Amarillo, spent the Christmas Holidays with their mother and sister, Mrs. Lorene Errington and Brenda. Buddy Dickinson ate Monday dinner.
