Lives Endangered By Careless Riders

With school out, the youngsters are spending a lot more time on their bicycles on the streets of Wheeler. According to Sheriff Bus Dorman, there have been several near accidents due to the carelessness of the bicycle riders.

The major problem is dodging in and out from parked cars. The rider should check approaching traffic before pulling out to go around a parked car.

Another danger is the crossing of lanes of traffic. The rider is to travel in the right lane (with the flow of traffic) and not cross the center line.

Parents are urged to check their child's riding habits and caution them of the rules of the road.

An accident prevented could be a life saved.

NEW ARRIVAL

The doctors, W. A. (Tack) and Martha Tacker of Lafayette, Indiana, are the proud parents of a girl born on Father's Day, June 15. The young lady was named Betsy Jane. Betsy's sister, Sarah Mae was born on her father's birthday four years ago.

The proud grandparents are Mr. and Mrs. Virgil Helton of Wheeler.

CARD OF THANKS

The family of Marl Jaco wish to express their deepest appreciation to the many friends, doctors, nurses and neighbors for their help and concern during our recent time of sorrow.

Dear Mr. Editor

Wheeler is blessed with a variety of professional and business people. They must be competent or they wouldn't be able to make a living. But the amazing thing is their lack of participation in Wheeler affairs. Attend some of the meetings. It is rare to see a professional person at any of them. These really should be the backbone of the community. Even attendance by business people is lackadaisical. The citizens of Wheeler make them their living so why not PARTICIPATE? Alethea Wheeler

Dear Mr. Editor:

I want to tell you and Alethea just how much I've enjoyed her little articles. Don't know about others but I find I agree quite often with her. As for signing her name, I understand most writers use a pen name. Keep on writing Alethea! Pat Hudson Briscoe, Texas

Dear Mr. Editor:

Am writing in regards to the article Roberta Ware wrote in last weeks Wheeler Times. I am in complete agreement with her, except I do read the articles that Alethea Wheeler writes due to the fact that it saves me having to shut Black Draught therefore I can save enough to pay for my subscription to the paper.

Icyl Littrell

Dear Mr. Editor:

I have but one thing to say to Alethea Wheeler and that's keep slugging. She hasn't yet to write a thing that wasn't true. The people that complain the loudest must have a guilty conscience because no names have been mentioned. What's the saying. The guilty holler the loudest. Its about time people in this town have their eyes opened to what's really going on even if someone has to point it out. Wheeler can't keep hiding under a rock - the problems

in this paper lists the participating businesses where tickets may be picked up.

Take an evening to attend the movies and help support a much needed source of entertainment in our community.

The "Free Show" begins at 8:00 p.m. Saturday.

won't go away, just increase until that rock is overturned and the whole of it is out in the open - having grown out of size and control.

Instead of complaining about Alethea Wheeler, why not listen and try to change things for the good of our town. We can do it if we all work together. Or, of course, we can sit back and say my child wouldn't do such, when down deep we know different or our town's not that way when we know different. The decision is really up to the individual.

So again - Keep it coming, Alethea - I for one am proud of you.

Jean Bradstreet

I SUPPORT ALETHEA

My objective is not to degrade anyone who opposes - Alethea Wheeler's opinions, but to express admiration for Alethea's bold actions. Certainly Wheeler is a nice place to live a raise a family I'm extremely proud of Wheeler and the people living here. We have very much to brag about; however, let's not try to fool ourselves, we certainly can't improve our town with bragging alone. Real improvement comes first of all by realizing your weakness. I realize also that it's much easier to overlook your faults as a community or especially as individuals. For example, it's much more comforting to assume someone else's child is out experimenting with drugs, sex, and other such criminal activities. Let me step on some toes for just a moment. I'm going to say that 75% of our youth ranging from the 9th grade up have encountered or are indulging in drugs of some form. Where did I obtain such ridiculous statistics? I gathered my information directly from the young people of this town! Most of you wouldn't believe that because "It's much more comforting to assume someone else's..."

Where are the men of this town? For the past few years we've let our morals

Christian Athletes Softball Team

The first issue of The Christian Athlete appeared in March, 1959. It contained a few chewy quotations which prompted readers to suggest that these verbal illustrations be inserted as a regular feature.

The FCA is an organization to bring athletes closer to Jesus Christ and at the same time enjoy other athletes and what they have learned. The purpose of the FCA is to bring Christian Living to athletes to make their lives more successful.

FCA was designed for Athletes and the people who work with FCA. The FCA has gone on a weiner roast the last week of May. The FCA is now trying to get together a men's softball team. Wheeler now has an FCA organization in affect, but we still need your help, please, we need your support

gradually decay and justified it because the rest of the world was doing so. There was a time when the men of this town wouldn't have allowed the drug distributing trash, that we have here, pass through town, much less make a residence here. It's time for men to be men. We need to bond our efforts together to make Wheeler even more exceptional than it already is. Thank you Alethea for awakening me to the way things are.

Here & There

Laura Guthrie

Didn't we have a good time at the ex-student reunion? I am neither an ex-student nor an ex-teacher. But I sure enjoyed seeing so many people that I hadn't seen for a long time—some probably thirty years ago. I was so closely connected with the school that some people thought I was a teacher. My son was a student and my husband was a teacher. Really I did substitute some times. It is great to renew friendships.

So many people had guests for the occasion, but I wouldn't dare try to name them. I would leave a lot out and their feelings would be hurt.

You have always heard it said "Don't underestimate the power of a woman." That power was demonstrated last week. You see, the Over Sixty Club had to find a place to meet. The Christian Center had been very generous in letting us use their downtown building, but as they wanted to remodel, we had to move. Some time ago we had been granted, by the City of Wheeler, the use of a portion of the old Nicholson Memorial Hospital. But we were delaying the refinishing and refurbishing until we acquired a Federal grant we have asked for. But being in need, spurred a group of women into cleaning out portion of the promised quarters and using as is for the time being. Well, a half dozen women and a few men got busy with brooms, mops, cleaning rags, paint brushes, and you'd be surprised. Actually the walls were in good shape, so there was little painting to do. An enthusiast gave an air conditioner and one of our handy men installed it. So we are ready to use it this week. Of course there is yet a lot needed—both in work and equipment. But just wait a few weeks. Every thing will turn out well. That is, with your help. What we would like right now is for some generous, kind, helpful souls to give a folding chair, and/or give a book of Green or Gunn Brothers stamps so as to acquire more chairs and tables. There is no lack of enthusiasm among our Senior Citizens.
