PLANS TO EXPAND & MOVE TOWNHALL MEETING HAS BEEN PLANNED MONDAY EVENING

TOWNHALL MEETING HAS BEEN PLANNED MONDAY EVENING

One of the first requirements of a progressive community is an active library. The Wheeler Library has the potential to be an excellent asset to the community; but, at this time, the facilities are excellent crowded and it's budget is limited.

The Library Board is very appreciative of the County Commissioners making our present location available for all these years and the financial help they have given us. But the time has come to grow and expand. With the Commissioners full approval and support we now are beginning a revitalization program for the Wheeler Public Library.

In 1952, a group of interested citizens formed the first Library Board. They were given the present location and used the entire building until the Museum, which was taken up 2/3 of the building. Our circulation has grown but our location has not. Our budget, unfortunately, has not kept pace with our needs. One small example is the newest set of encyclopedias is dated for the year 1957. The clubs of Wheeler have been most faithful in their support through the years. However, this alone cannot support a vibrant library as they must, of necessity, divide their funds among many worthwhile projects.

Realizing the need to improve our present library, a few months ago a group of interested citizens began looking into the problem. Representatives of the Texas Library System met with these people. We learned that we could make no application for any type of help for we were not officially recognized as a library. Consequently, the first step was to be adopted by some governmental organization. That was accomplished when the City Council of Wheeler passed a resolution making the library known as the Wheeler Public Library.

At the same time, the council gave the group permission to investigate the possibility of moving the library into part of the Nicholson Hospital. We were asked to present plans involving renovating that portion of the building and possible means of financing the project.

In order to qualify for Federal grants, we must be a member of the Texas Library System. The community must show that they are backing this project. One way of doing this is your attendance at a Town Meeting to be held Monday, December 1, 1975, at 7:00 in the School Cafeteria. At that time details will be presented which includes minimum requirements for admission to the Texas Library System. The proposed plans for remodeling, a detailed budget. This is an opportunity to make your desires and wishes known. If you are interested in a progressive Wheeler, this is your chance to do something concrete. Attend this meeting and bring someone with you.

TIME DRAWS NEAR FOR ANNUAL CASH DRAWING

The annual Christmas Drawing will again be offered by the progressive merchants of Wheeler. Cash will be given away during the month of December with tickets being available the first of December.

The merchants of Wheeler feel this is one way they can show their appreciation to you, their customers, for the support you have given them during the year and are giving you a chance to share in the profits.

Tickets will be available at all stores sponsoring the drawing beginning Monday, Dec. 2. The dates and times of the drawings will be announced in next week's paper.

ALL-DISTRICT: Three Wheeler Mustangs were named to the 2-A All-District team. Two made the first team and two were named on the second team. Pictured are Bill McIlhany, Jim Verden, and Ricky Markham.

WHEELER BASKETBALL BEGINS 2-A All-District Teams Announced

The Wheeler Mustangs defeated the Lefors Pirates last Tuesday by the score of 51-33. Robert Willis was high point cager with 16 points. The action was fast paced and the Mustangs showed great promise after having only one workout.

Last Thursday, The Wheeler Mustangs beat the Canadian Wildcats 59-42. Jim Verden was high point Mustang with 18 points. The Mustang J.V. played the Wildcat J.V. a close

game Thursday, but were defeated, 39-37. Wendell Moore was high point with 21 points.

The Mustangs will play Briscoe at Briscoe on Tuesday, December 2.

Please continue to support the Mustangettes, Mustangs, the J.V.'s, and Jr. High teams.

The outstanding players this week are Girls: Anne McIlhany; Boys: Jim Verden.

MUSTANG NEWSLETTER

The Mustangettes played two games last week. They defeated the Lefors Pirates 52-27. Anne McIlhany was high point girl with 19. The girls tried very hard every minute they were out on the court.

Last Thursday, the Mustangettes played Canadian. The junior varsity girls lost to the Wildcat J.V. but the Mustangettes played their best. Holly Tennard scored 14 points to lead the girls. Melody Stiles was next with 13 points.

The Mustangettes varsity also lost to Canadian, 78-33. The Mustangettes were outmatched by Canadian. Anne McIlhany scored 17 points to lead the Mustangettes.

The Mustangettes play Briscoe, there, on December 2. We would appreciate your support. Thank You

PLAYERS OF THE WEEK: Recognized as the outstanding players on the Wheeler Basketball teams for the past week were Ann McIlhany and Jim Verden.

STANDING ROOM ONLY:

To anyone who has visited the Wheeler Library recently, it will come as no surprise when informed of the need for more space. Plans are in the mill to move the library to the Old Hospital after a portion of the building has been remodeled. The new facilities are badly needed and will require the cooperation of the entire community. A townhall meeting for the purpose of discussing the library will be held Monday, Dec. 1; plan to be there. Marie Fulks, librarian, is shown here in the library.

Bessie M. Akin Rites Are Read

Services for Mrs. Bessie M. (Betty) Akin, 69, of 3009 Chapel Hill, was held at 10:30 a.m. Saturday at Westminster Presbyterian Church. Chapel with entombment in Rose Hill Mausoleum, directed by Garrison Funeral Home.

Mrs. Akin died Wednesday at her home.

A native of Metropolis, Ill., Mrs. Akin moved to Geary in 1909. She was the wife of the late Dr. Robert M. Akin, former chief of staff at old Mercy Hospital.

Mrs. Akin went to Geary schools and was a graduate of the University of Oklahoma. She was a member of Delta Zeta Alumna Association, Order of the Eastern Star, and Westminster Presbyterian Church.

She is survived by three daughters, Mrs. Patricia Brooks, Weatherford; Mrs. Roberta Ware, and Mrs. Maxine Roak, both of Wheeler, Texas, and 1 grandchild.

Wedding Anniversary

In the honor of their 25th Wedding Anniversary Mr. and Mrs. Clifton Boydston request the honor of your presence on Saturday the 6th of December Nineteen hundred and seventy-five from 2:00 to 5:00 in their home Allison, Texas

Wheeler Co. Soil Survey Presented

The first copy of the Soil Survey Report of Wheeler County was given to Wheeler County Judge Wendell Morgan in a ceremony Tuesday, Nov. 25 in the Wheeler County Courthouse. Also present were Terry McCasland, Vice Chairman of the Wheeler County Soil and Water Conservation District and Lavon Williams, District Conservationist, SCS in Wheeler.

The presentation was made by Jack C. Williams, soil scientist for the Soil Conservation Service, Pampa. The detailed soil survey is available for general distribution at the SCS office in Wheeler according to Continued page 4

THANK YOU: A check from Farm Bureau Insurance was presented to the Wheeler Volunteer Fire Department for fighting a fire on the property of a Farm Bureau customer. It is the policy of the company to present the check to departments each time they fight a fire outside the city limits if the property is insured with Farm Bureau. The check in the amount of \$75 was presented to Wheeler Fire Department secretary Riley Atwood by George Richardson (left). Kenneth McCasland (right) congratulates Fire Chief Earl Barnes.

TIME AND TEMPERATURE: Newly completed in Wheeler is the Time and Temperature sign at the First National Bank. The sign was lighted Tuesday and will show the exact time and correct temperature; the sign is highly visible day or night. The time function will be controlled by a 60 cycle synchronous motor which constantly guarantees an accurate time reading on the display lampbank. Although a power failure will darken the bankbank, an internal battery source and specially designed circuits automatically assure correct readings on the display when electricity is restored. The picture was taken Tuesday evening. We congratulate the First National Bank on this fine addition to the square.

Here and There

Laura Guthrie
A change of fair for sports enthusiasts. I read that more people watch basketball, than do football. In that case, look for a bumper crop of spectators on the gym seats. It's good fast, in our game, so let's get with it. The scores that show upon the sports page are fantastic.

People still moving from one residence to another. The Richard Wallace are settling in at the Marshall place, 911 Canadian. Our friends, Mrs. W. F. McNeil has sold her house and will live in a stunning mobile home next to her daughter, Vera Rogers. As yet I don't

WHEELER COUNTY SOIL SURVEY REPORT:

A copy of the Wheeler County Soil Survey Report compiled by the Wheeler Soil Conservation Service was presented to the County Judge Tuesday morning. Pictured above are (l to r) Lavon Williams, District Conservationist of Wheeler, Judge Wendell Morgan, Jack Williams, Soil Scientist of Pampa and Terry McCasland, Vice Chairman of the local SCS Board of Directors.

Mobeetie News

By Mrs. Wilber Beck

Mr. and Mrs. Clarence Dyson visited the Rev. and Mrs. L. V. Grace Tuesday, last week in Pampa.

Mr. and Mrs. Bo Dunn and Mattie of Canadian visited the gentleman's grandparents, Mr. and Mrs. Tince Williams.

Mrs. Tassie Leonard is home following several days in the Parkview Hospital in Wheeler. Her daughter, Mrs. Lon Powell visited her a few days last week. During the weekend her son and family, Sgt. and Mrs. Joe F. Leonard of Sheppard Air Force Base near Wichita Falls visited in her home.

Mrs. Helen Sherrell and daughter, Glenda and Penny, attended to business in Pampa, Saturday morning.

Mr. and Mrs. Wayne Leatherman and Allen attended to business and shopped in Amarilla, Saturday.

Mr. and Mrs. Richard Dyson and daughter, Kim, and granddaughter, Michelle of Sayre, Oklahoma, visited his parents, Mr. and Mrs. C. C. Dyson Sunday afternoon. They attended the evening worship service at the United Methodist Church with their parents and favored the church congregation with several musical selections which were greatly appreciated by all. In Wheeler, they also visited Mrs. Dyson's parents, Mr. and Mrs. Lloyd Childers.

Elmer Wells of Guyton, Oklahoma visited his

daughter, Mr. and Mrs. Jimmy Selby Tuesday afternoon, last week.

Mrs. Melba Burch visited her brother-in-law and sister-in-law, Mr.

and Mrs. L. E. Keith in Pampa, Sunday afternoon. Mrs. Phillip Lopes visited her daughter and family in Temple, Texas last week.

Mrs. Garland Lancaster and children of Pampa visited Eugene Gudgeon and Ronald and Mr. and Mrs. Curtis Lancaster, Saturday.

Guests of Mrs. Henry Flanagan last week was a sister of the late Henry Flanagan, Miss Lura Flanagan of Santa Fe, N.M., and Mrs. Flanagan's daughter, Mrs. Larue Pearce of Amarillo. While here they visited Mrs. Beatra Farmer, Mrs. Grace Meek, Mrs. Olive Dearan, and Mrs. M. McIlhany all in Wheeler.

Mrs. Peggy Gunn of Wheeler visited her parents, Mr. and Mrs. Tince Williams, Friday night. She and Mrs. Williams attended the basketball game.

Mrs. Edna Williamson of Borger, mother of Mrs. Ernest Gordon, is visiting with relatives in California this week.

Some 30 mothers and daughters enjoyed the GA Mother Banquet in the fellowship hall of the First Baptist Church in Mobeetie, Saturday evening.

Mrs. Elsie Scribner of Plainview, formerly of Mobeetie, underwent major surgery in the Central Plains Hospital in Plainview, Tuesday last week. She was improving at last report.

Leaves For Basic Training
Randall Barber, son of Mr. and Mrs. Donald Barber of Canadian, left October 29 for basic training at the Naval Training Center, San Diego, Calif. After finishing basic training, he will go to school in Great Lakes, Illinois.

President Hosts Thursday Review

The Thursday review Club met Thursday evening,

November 13, 1975, in the home of Jane Rives, Presi-

dent. The program for the evening was a play "Let George Do It" written by and directed by Mrs. N. D. Ware Jr., Chairman of our

Ft. Elliot Club Meets With Hefley

Mrs. Bernice Hefley was hostess and Mrs. Eula Johnson co-hostess to the Fort Elliott Study Club, Thursday evening, with a covered dish buffet. The occasion was the Annual Family Night for the Club.

Mrs. Margaret Trout, club president, welcomed the guests and Jess Patterson, guest, offered the invocation and thanks before the meal.

Following the delectable meal, Mrs. Gazelle Patterson gave a short devotional, reading from the book of Psalms and reciting the poem, Friends.

Mrs. Lottie Eva Denson was program leader, giving excerpts from two books, Grab A Hold and Love of Country, which was greatly enjoyed by guests and club members alike.

Guests enjoying the evening were Paul Crouch, Jess Patterson, Bob Galmor, Mrs. Barbara Rogers, Jack Hefley, James Lester, Carol Lester, Melissa Hefley, and Mark Hefley.

Nine members were present, they were Mrs. Denson, Mrs. Trout, Mrs. Patterson, Mrs. Elita Atkins, Mrs. Bessie Galmor, Mrs. Ada Lou Lester, Mrs. Dorothy Crouch, Mrs. Johnson, and Mrs. Hefley.

Mr. Patterson thanked the club on behalf of the guests for a very enjoyable evening.

Mrs. Denson will be club hostess on Tuesday afternoon, Dec. 2 when Mrs. Hefley will be program leader for the subject of A Way To Settle Estates Quickly.

Mobeetie Senior Citizens Organize

Sunday evening at 6:00 some 30 Senior Citizens enjoyed the Annual Thanksgiving Dinner in the fellowship hall of the First Baptist Church.

Plans are being carried forward to organize a Senior Citizens Organization for all who are 55 years and over who are interested.

Tentative plans were set for Friday evening, Dec. 5 at 5:00 for the first meeting in the First Baptist Church fellowship hall to discuss organizing.

The Rev. Aaron Laverly will be preparing a meal to be served to those who attend.

Completes Basic

S. R. Johnnie Barber, son of Mr. and Mrs. Donald L. Barber of Canadian, has completed basic training at the Naval Training Center, San Diego, Calif. He will be stationed aboard the U. S. S. Coral Sea, home port Alameda, Calif.

HOW'S The Electric Company DOING?

Let's ask J. T. Burk, stores superintendent...

"Crossarms are such a common sight that you probably don't even notice them. But we have thousands of crossarms in our system... and they're necessary to bring electricity to you. Ten years ago, one of these crossarms cost \$3.43, but today an identical crossarm is \$11.46."

That's a whopping 234% increase... a reason electricity may be costing you more these days. Even so, electricity is still a big bargain... because it's always there when you need it.

THE FUTURE IS Electric!

Christmas time at... Anthony's C.R. ANTHONY CO.

Soil Survey Continued from page 1 to Lawton Williams, SCS District Conservationist. The survey is written for both laymen and technologists, such as engineers and scientists who are interested in the formation, classification and character of Wheeler County soil. It would give a stranger completely unfamiliar with the county, an idea of its soils. Mr. Williams pointed out in making the presentation. The report explains use and management of soils for farming, ranching and for preserving wildlife. In the report, soils are grouped according to their suitability for rangeland and plants that grow on each range site. "Engineers and builders might be interested in engineering tables which give descriptions of soils and name soil features that affect engineering practices and structures," Mr. Williams said. The survey also includes a brief description of the geology, climate and physiology of the county, as well as the soil maps. Mr. Williams explained that he began the survey in 1950. Most of the mapping was done from 1964 to 1968 by Jerald O. Crump and Williams. The field mapping was completed in 1968, then Crump wrote the report. The Soil Scientists of the SCS made this survey to learn what kinds of soils are in Wheeler County, where they are located, and how they can be used. The scientists traveled over the county observing steepness, length and shape of slopes, sizes and speed of streams, kinds of native plants or crops, kinds of rocks and facts about the soils. They dug holes to

expose soil profiles. A profile is the sequence of natural layers, or horizons, in a soil, that extends from the surface down into the parent material that has not been changed by leaching or by the roots of plants. This information was then recorded on aerial photographs of the entire county. A general soils map is included for a general view of

the county. It shows and describes soil patterns in detail for each area of the county. Detailed soils maps are included for a general view for the farmers and ranchers who want to know what kinds of soils are found on their land and what the capabilities of these soils are as they occur on his land. "This Soil Survey Report of Wheeler County is an inventory of the soils. It is

another resource that the SCS and Soil Conservation Districts have available for carrying out objectives of conservation of soil and water resources of Wheeler County. Williams told McCaskey that the Soil Survey will go to the library in major agricultural counties of the U.S. as well as other groups and individuals who might use it. The various soils in the survey--Lutite, field, Abilene, Tipton, Sweetwater, Carey, Grand and others--denote where that particular soil was.

The survey also includes a brief description of the geology, climate and physiology of the county, as well as the soil maps. Mr. Williams explained that he began the survey in 1950. Most of the mapping was done from 1964 to 1968 by Jerald O. Crump and Williams. The field mapping was completed in 1968, then Crump wrote the report. The Soil Scientists of the SCS made this survey to learn what kinds of soils are in Wheeler County, where they are located, and how they can be used. The scientists traveled over the county observing steepness, length and shape of slopes, sizes and speed of streams, kinds of native plants or crops, kinds of rocks and facts about the soils. They dug holes to

expose soil profiles. A profile is the sequence of natural layers, or horizons, in a soil, that extends from the surface down into the parent material that has not been changed by leaching or by the roots of plants. This information was then recorded on aerial photographs of the entire county. A general soils map is included for a general view of

We Apologize . . .

NEWS FROM LINDA

Linda Horton - Asst. CEA

roll out the viscera. Avoid slashing the intestines or stomach. Wipe the body cavity with clean cloths or paper towels - but don't use water.

Hanging the carcass will hasten cooling. Protect meat from flies and dust with muslin or cheesecloth bags which let air circulate. Heavy tarpaulins and airtight

game bags keep body heat in and slow down cooling.

Proper loading and transporting the animal is essential to handling, most hunters caution. Carrying the animal - still wrapped in the protective cloth - on top of the car is recommended. Also, on cool days, the car trunk is a safe place.

But avoid carrying animals on car or truck hoods and fenders, since heat from the sun and car motor can ruin all previous good care.

Once the animal has been handled properly in

the field, the cook should remember some basic rules for preparation.

Dry heat, such as oven roasting, broiling, pan-broiling, and frying, is suitable for young, tender game. Basting with additional fat may be necessary if the meat is lean.

It's best to cook older, less tender game by moist heat, such as braising, stewing, or simmering. Swiss steaks and pot roasts are cooked by braising - add a small amount of liquid to meat cooked in a covered container.

Long, slow cooking tenderizes meat without drying it.

More information on wild game preparation is available from the Wheeler County Extension Office, Linda Horton, Box 505, 823-5243. Ask for "Wild Game - Care, Cooking" (B-987) and "Field Dressing Big Game" (L-634).

HERE'S TO YOUR HEALTH from
HYLAND WEAVER

Oily nose drops should be avoided. If the oil is inhaled into the lungs while sniffing, it can form a "pocket" in the lung tissue. There is no way for the lung to rid itself of the oily coating and so degeneration of the area sets in - surgery may finally be the only remedy. Aqueous (water soluble) nose drops avoid this risk and are preferred.

Allison News

Mrs. Lester Levitt

Mrs. Pearl Bowman and grandson Mr. and Mrs. Sam Bowman from El Paso visited Pat Huff from Sunday until Wednesday last week. Mrs. Pearl Bowman is Pat's sister. They also visited Mrs. Don Morrison and family of Pampa.

Harold Peterman from Santa Rosa visited friends last week and attended the funeral of a nephew, who was accidentally shot, at Hinton, Okla. He was the grandson of the Lawrence Peterman's.

Mr. and Mrs. Bruce Harrison and Mr. and Mrs. Clifton Boydston, LaQuinta and Benny were in Amarillo Friday on business and visited relatives also.

Mr. and Mrs. Charles Elliott

From Pampa, Mrs. Evelyn Elliott and children, Mr. and Mrs. Normal Dyer and Betty, Mr. and Mrs. J. Miller, Peggy and Shelley and Jim Gilmer from Wheeler, David Gilmer from Miami and Mr. and Mrs. Leon Lane children were house guests in the home of Mr. and Mrs. Frank George over the weekend.

Tammy Hall, daughter of Mr. and Mrs. Lee Hall, is in Parkview Hospital for treatment.

Mr. and Mrs. John Crawford from Wheeler visited Mr. and Mrs. Shorty Crawford.

Mr. and Mrs. Allen Reynolds were in Pampa Saturday shopping and on business.

Lyn Brown and Virgil Stinnett from Dumas did some hunting Saturday and visited Nettie Walsh. Mrs. Bob Markham entered the Parkview Hospital at Wheeler Monday for treatment.

Rex Miller will enter St. Anthony Hospital in Amarillo Tuesday, for bone surgery.

Three bedrooms and a bath are being added to the Pentecostal parsonage. The local members are doing the building.

Gertie and Anthony Cornell and Mr. and Mrs. Joe Smith were dinner guests in the Bob Cornells home Sunday. They celebrated Tammy's birthday.

Mr. and Mrs. Bob Young and daughter from Canyon spent the weekend in the parental Kenneth Chandler home.

Rev. Mike Sullivan accompanied a youth group to Memphis Saturday night to the First Baptist Church for a youth meeting. Those attending were Debbie Reynolds, Doyle Sullivan, and Allison and Michael Brown.

Dinner guests in the Allen Reynolds home Sunday were Mr. and Mrs. Gary Boydston and Greg, Jr. and Mrs. Gary Hall and children, and Rev. Mike Sullivan and family.

Dr. Willis Harrison and Ward and Pinky Taylor from Canyon spent the weekend with the Bruce Harrisons and did some hunting. Mrs. Jerry Harrison from Reydon was a dinner guest on Sunday also.

Mrs. Sybil Fish and Ray Hendrix and family from Perryton visited the Clifton and W.H. Boydston families over the weekend.

Mrs. Hammond and children spent Sunday with her parents Mr. and Mrs. Leon Keahey at Crawford.

Rev. Virgil Cornwell and family were dinner guests in the Nettie Walsh home Sunday.

Mrs. Lester Hall and children were supper guests in the Vona Hall home Sunday. Lester from Duncan, Oklahoma had spent the weekend here with his family.

Mrs. Joe Dukes received word Sunday that her brother-in-law, Foy O Spain at Monahans, Texas passed away. They attended the funeral on Tuesday.

Flexible Grazing Plan Needed

A grazing plan should be flexible to permit the operator to adjust his operation to the fluctuating weather conditions which are normal to our rangeland.

In the Panhandle area grass growth may vary 250 per cent between wet and dry years. A grazing plan should be developed to cushion the effects of drought and allow for protecting the grass resources and help to stabilize the ranch income.

With a reserve of forage on properly used rangeland, operators are better able to adjust livestock numbers without being forced to sell on a depressed market. One method is to maintain a 20 per cent of grazing animals such as steers or dry cows which can be disposed of quickly. This allows the producer to easily reduce livestock numbers to save feed for the base herd. Developing more dependable water facilities and providing extra hay are other conservation practices that help during dry years.

Flexible conservation grazing plans will contribute to progress in improving rangelands and promoting range conservation. If the Soil Conservation Service can be

of assistance through its trained technicians on grazing plans, call or come by the in Wheeler.

Announcement

Mr. and Mrs. Lynn of Allison, Texas announce the engagement of their daughter, Kathleen Lane to Jerry Mercer from Miami. The couple will be married December 27, 1975 in Miami.

Kathy is a student at Allison High School plans to finish school in Miami. Jerry is employed with Miami Water Works Service. They plan to make their home in

meeting with the local community and local leaders designed to their attitudes problems and the first step was "75", a national campaign.

Hands
