#### EQIP Sign-Up Is Coming Real Soon

Your local Natural Resources Conservation Service will be having an Environmental Quality Incentive Program sign-up in the month of June. The EQIP base allocation of \$72,000 for Wheeler County in Fiscal Year 2003. This allocation is to be used to fund contracts, which address the resource concerns the Local Work Group (LWG) identified during their locally led processes.

We urge our district cooperators to come by the office to sign-up their land into EQIP. We will be cost-sharing grass-seeding, wells, water storage facilities and crossfences. Producers will be competing against other cooperators in the county for the base allocation. (Continued Page 6)

#### Services Wednesday For Evelyn Riley, 82

Evelyn Lorene Riley, 82, died Saturday, May 24, 2003 at McLean, Texas.

Services were at 2:00 P.M., Wednesday, May 28, 2003 in the First Baptist Church in McLean with Rev. Brian Quisenberry, former pastor of Austin, Texas and Rev. John Gillispie of Knox City, Texas, officiating. Burial was in the Mobeetie Cemetery by Wright Funeral Home of Wheeler.

Mrs. Riley was born on August 16, 1920 in Mobeetie to Paul and Sarah Ray Corcoran. She attended Union and Mobeetie Schools. She married Earl W. Riley in Wheeler on Decemer 24, 1937. They moved to McLean from Mobeetie in 1952. She worked for 17 years in the school cafeteria in McLean. She was a member of the First Baptist Church in McLean and the Fidelas Sunday School Class. She was preceded in death by her parents and 12 brothers and sisters.

Survivors include her husband, Earl Riley of McLean; 2 sons, E. W. Riley Jr. and wife Darlene of Tulia, Texas and Joe Riley and wife Jacque of McLean; 3 grandchildren, David and wife Grethen Riley, Amy and husband John Hossler, and Randi Riley; 4 greatgrandchildren, Heidi Riley and Haley, Sophia, and Jaden Hossler.

Memorial requests are to Mobeetie Cemetery or B.S.A. Hospice, Amarillo, Texas.

#### there are no photographs for the 53 will be meeting at Wheeler Playa Lake Exhibit At Mobeetie

A unique, traveling exhibit that illustrates the importance of playa lakes to the Texas Panhandle and High Plains is coming to Mobeetie June 1.

Playas... Gems of the Plains, is a traveling exhibit project of the Northwest Texas Museum Association. The exhibit, which debuted at the Amarillo Botanical Gardens Jan. 12, 2003, is touring through Panhandle-area museums and exhibit areas for the next three. years. This summer, Playas will make an extended stop at the Old Mobeetie Jail Museum from June 1 through July 30.

"Playas ... Gems of the Plains features 20 separate 80-inch tall and 40-inch wide panels which illustrate a wide range of topics about playa lakes," said exhibit cocreator Paul Katz. "Visitors will walk around the panels, each of which presents information on the function of playa lakes, their history geography, ecology and art."

Playa lakes are the most numerous wetlands in the region, totaling more than 40,000 in eastern New Mexico, Colorado and Wyoming, western Kansas, Nebraska and Oklahoma, and the Texas Panhandle. More than 95 percent of the world's playa lakes are located in the Southern Great Plains - they are a unique, nearly endemic, resource.

Playa lakes are shallow, usually round, wetlands with clay floors that lie in the lowest point of a generally large, closed watershed and collect runoff from surrounding uplands. Their average size is 17 acres, and all playa lakes combined make up about 2 percent of the total shortgrass prairie landscape. They are ephemeral, or seasonal, in nature and hold water only after rainfall or runoff events. Since rainfall is scarce in the region, most of the time playa lakes are dry which is partially why many

An Invitation: You are cordially invited to attend any of the weekly services of the Wheeler Church of Christ which meets at 1001 S. Alan Bean Blvd, in Wheeler, Texas

Christ. We have honored each of them (or will in the next few Sundays) by presenting them with a Bible and having them choose the sermon subject for that day. So far we have studied the fruit of the Spirit from Galatians 5:22-23, a section from Proverbs 3:5-6 that talks about trusting God, the talents and spiritual attributes of great women the power of singing, and what to look for in religion. We will still look at the Christian's hope and one other subject (which I haven't been given yet). Those we have honored include this year's Valedictorian and Salutatorian, a Homecoming Queen, state qualifiers in both sports and academics, a head cheerleader, all-district athletes and band members, future college students, and future great citizens. Thanks to Rachel Bass, Cassi Brown, Lyndi Finsterwald, Hadley Mitchell Dagen Moore, Jeret Moore, and Amy Osborne for having been a great part of our lives. Shawn D. Johnson

Isaiah 25 - 8 & 9 He will swallow up death in victory; and the Lord God will wipe away tears from off all faces; and the rebuke of his people shall he take away from off all the earth; for the Lord hath spoken it. And it shall be said in that day, Lo, this is our God; we have waited for him, and he will save us; this is the Lord; we have waited for him, we will be glad and rejoice in his salvation.

A nice Monday morning here in Allison, the sun is shining and very little wind. We did get some rain Saturday night, for which everyone was thankful for.

Harold and Elena Walker had guests over the weekend, Jesse and Rachel Gonzalez with their daughters Ashley and Ananna of Waukommis, Oklahoma. They were visiting with Trevdr and Michelle and Colin Richardson of Enid, Oklahoma.

My daughter, Johnnie Harrison, of Amarilo came last Tuesday afternoon and picked me up and I went back to Amarillo with her for medical reasons. On Friday morning Darrel went to the farm, and Friday evening Johnnie came to the corner where we met Darrel. We drove along together on to Wheeler and ate supper at Mel's diner. And then on to Allison. They spent Friday night with me and went to Cheyenne Saturday morning to attend Darrel's class reunion. They came here Saturday evening Darrel went to his moms and did some work for her. Johnnie and I went to Zybach cemetery to put flowers on the graves. They left going home shortly after we got back to Allison.

Opal and Juanita Boydston shopped in Wheeler last Saturday. Robbie Green, Carissa and Kelton from Binger, Oklahoma visited a while with Opal and Juanita and went to the Zybach cemetery to put flowers on Janice Boydston's

Peggy Chandler and Jennie Walker went out to the Zybach cemetery last Monday and decorated the graves there and from there they went to Hill Top Cafe for

Bob and Lou Cornell visitors Memorial Day and dinner guests was their son and his wife, William and Vicki Cornell from Cordell, Oklahoma.

Sue Chandler's granddaughter, Audra Weatherly, from Wheeler spent Tuesday and Wednesday night with Sue and attended the track-at the school and did other things there with the other small children and had fun and watched a movie. Sue then took her home after lunch and Sue went on to Amarillo and visited daughter, Jana Chandler, and also did some shopping before coming home. Sue

#### A Night Out At The Lohberger Home

On Monday the 12th, all the High School students went out to Alton Lohberger's house for the annual High School party.

As everyone started to show up a basketball game started to form. After about 30 minutes, supper was served. We ate delicious hamburgers cooked by Alton Lohberger himself and a donated bucket of ice cream from the Schwans man. After everybody was done with supper, everyone headed outside to play games. There were many things going on: horse shoes, air hockey, Ping-Pong, basketball and volleyball. We had very exciting games of volleyball, lasting till dark. Around nine o'clock, everyone was exhausted, and turned in for the By: Jason Boydston

BSA Hospice To Hold 13th Annual Scramble

school faculty!)

The BSA Hospice 13th Annual Pampa Area Golf Scramble offers a morning of fun, food, and lively competition... all to benefit area hospice patients and their fami-

Pampa, TX -- The BSA Hospice 13th Annual Pampa Golf Scramble will be held Saturday, June 14, 2003 at the Pampa Country Club in Pampa, Texas. Proceeds from the Scramble help benefit Olivia's Angels, support auxiliary for BSA

BSA Hospice invites area golfers to enjoy a morning of golf while benefiting their neighbors.

A registration fee of \$45.00 per player (or \$180 per team) includes green fee, cart, prizes, food, and refreshments. Four-player teams will sign-in at 7:30 a.m. and tee-off at 8 a.m. Teams will be flighted according to handicap by the Pampa Country Club. Prizes will be awarded for first, second, and third place scores in each flight. Special prizes are also planned for Longest Drive, Closest to the Hole and a special "Angels Earns His Wings" Ringer Hole . Golfers should contact Mark Hughes at the Pampa Country Club, 806-665-8431, for more information or to register.

Through sponsorships, the BSA Hospice Pampa Golf Scramble provides an excellent opportunity for local business and industry to help neighbors at a time when they may need it the most. By being an event sponsor for \$100, sponsoring a hole for \$50 or a cart for \$25, participants will help provide funding for special wishes of the terminally ill in this area and at the same time showcase their company or service. Local businesses can also donate giveaways for the player ditty bags.

Underwriting for the event has been provided by Britkare Home Medical, Celanese Chemicals, Coco-Cola Bottling Company, Culligan Water Conditioning, Degussa Engineered Carbons, Paul Pearson, DPM, ProMed Pharmacies, Moore's Pharmacy and Mr. & Mrs. Elmer Wilson.

Those interested in becoming a sponsor should contact Janet McCracken, BSA Hospice in Pampa, at 806-665-6677, Borger 806-274-9111 or Joan Douthit, BSA Hospice in Amarillo, at 806-212-8787.

BSA Hospice originally began as a home care program in 1980 under the leadership of Sister Olivia Prendergast. As Sister Olivia worked with the terminally ill, she recognized that needs often went unmet with patients and families primarily due to lack of money. Sister Olivia would share those needs with members of the community who would in turn give money to her for those patients. A group of compassionate community leaders met in 1989 to develop an organization dedicated to raising money to pay for the "extras" of Hospice patients and educating the community about hospice care. That organization has become known as Olivia's Angels. Olivia's Angels is an all volun-

teer organization created to increase community awareness of the hospice philosophy and to facilitate quality hospice care for everyone in the geographic area who wishes it. Additionally, it has been founded as a vehicle to continue and expand the financial support for hospice care. Through the generous support

of individuals and businesses, Olivia's Angels has stepped in to fulfill the needs, the dreams and wishes of so many area patients.

also put flowers on dear friend Fannie Calloway's grave. They went to Wheeler Nazarene Church together for 20 or more years. Irene and Ardie and Charles ate lunch at Maxeys Tuesday.

Ned Burrell enjoyed having daughter Elisha Bonner from Amarillo come visit her Mother's Day

So nice to have Bob and Evelyn Cooper from Faulkton, South Dakota meet us for lunch at Maxeys Thursday They were on their way to Abilene to an Army Reunion of the 12th Armored Division. (Hope I got that right.) Many years ago Willis and I went with William and Elton Filligim to South Dakota to a 25th Anniversary celebration of the Faulkton Methodist church. William had been the pastor well beloved and helped to build the church. William got sick the first night there and had to stay 4 days in the hospital. All the people were so friendly and helpful and treated us royal. So when Coopers come to Texas for Army Reunions, they frequently meet and visit with us. Sweet people. Enjoy their visits.

Saturday night Glenda Hudson hosted an "Over the Hill" birthday party for her husband, Ray, and Susan Redding and Karen Krehbiel at the Hudson home in Briscoe. An abundance of delicious food was served. Some there

important wetland habitat type for birds in the region. More than 200 bird species are known to use playas during the breeding, wintering or migrating seasons.

"From Canada geese and the great blue heron during wet times, to prairie dogs, badgers and antelopes during dry times, playa lakes are very attractive to all types of wildlife and plant growth," Katz

Not only are playas important to wildlife, they are vitally important to replenishing and protecting underground water supply. Playas are the primary source of recharge for the Ogallala Aquifer, a 174,000 square mile formation that underlies eight states: Colorado, Kansas, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, and Wyoming. These states have depended on the Ogallala for the majority of agricultural, municipal and industrial water supply since the turn of the century. But continued pumping has depleted the aquifer's water supply faster than natural recharge can replenish it.

Research, design and fabrication of the 360-degree, view-inthe-round exhibit have been under the direction of Drs. Paul and Susana Katz of Panhandle. They are principal investigators for Prehistoric Resources Identification, Assessment and Management (PRIAM), and archeological and museum-consulting company they formed in 1985. Collaborating with them for the playa exhibit was designer/architect James I. Williams II of Amarillo.

Initial funding for the project came from the PLJV, a conservation partnership working to maintain playa lakes and other prairie habitat for the benefit of birds, other wildlife and people. Additional funding for the exhibit came from the Amarillo Area Foundation, Don and Sybil Harrington Foundation and the Meadows Foundation.

Joint Venture partners include: Ducks Unlimited, The Nature Conservancy, Pheasants Forever, ConocoPhillips, U.S. Fish and Wildlife Service, U.S. Forest Service, USDA's Natural Resources Conservation Service and state wildlife agencies from Colorado, Kansas, Nebraska, New Mexico, Oklahoma and Texas.

And now something else joined smorgasboard guests. Saturday morning found 4 out of 6 half-grown ducks gone, vanished, no carcasses. They were in a wire pen. Willa thought nothing could get in. If it was a coon, there would

be half-eaten ducks; a coyote or bobcat couldn't get in. So what did this? She laid for the chicken snake; he took the egg and hook. Broke the fishing line. How could he? Willa felt she needed 1/2 dozen mutt dogs that wouldn't eat more fowls then the varmits. Pray for Willa. She may commit murder. "God be with you till we meet

#### Last Allison I.S.D. Graduation

Friday night, May 23, 2003, Allison held its last graduation. It was an emotional experience for all who were there. Though the Seniors were excited to be graduating and receiving our diplomas, we, along with everyone else there, were sad that it would be the last gradu-

Randy Snow was kind enough to take time to come and speak. His speech was inspirational and entertaining. He told a story of his parasailing experience, the interesting aspect of his story is that Mr. Snow is in a wheel chair. The picture of him being drug along the beach, facedowning the sand, was enough to break the tension in the gym and cause everyone to laugh. As Valedictorian and Salutatorian, Chelsea Archer and I, Bronwyn Dukes, both gave a speech. Naturally in our speeches, we tried to thank everyone who had helped

us throughout the years. We also told a couple of stories that ranged from the time that Sammy went to the gym, yelled for everyone to be quiet, and then asked "Chelsea Archer, will you go out with me?" to this Chelsea calmly replied that she would make the rest of Sammy's life miserable. To the time that Chelsea and I decided to crawl around underneath the tarp that was covering the gym floor then panicing because we were afraid that we couldn't find our way out and it was REALLY dark.

Graduation was definitely a memorable moment, not only for the Seniors and their families, but also for the entire community. Even though it was the last graduation, the school and the community has forever changed peoples lives and that can never be taken away! by Bronwyn Dukes

#### U.S. Beef Is Safe & Nutritious Food

Continuous surveillance efforts throughout the beef industry has provided assurance that U.S. beef is safe and a nutritious food source, Texas Cooperative Extension officials said Wednesday.

No cases of bovine spongiform encephalopathy (BSE), widely known as mad cow disease, have been confirmed in the United States in the past 12 years with active surveillance at both slaughter firms and on the farm.

"Survéillance and testing of cows is a good protective measure of keeping our beef safe," said Dr. Buddy Faries, Extension program leader for veterinary medicine. "Any cows that show neurological signs, are weak or thin in body condition are tested at slaughter. These animals do not enter the food chain."

BSE was reported in Canada Tuesday - the first such reported case in that country in more than a decade. A cow in Alberta tested positive for the disease after tests were taken from the cow after slaughter. The meat did not enter

-Surveillance testing, the ban on feeding ruminant protein to ruminants (feeding rendered cattle, sheep, goat or deer meat or bone meal back to beef cattle) and the prohibition on importing animals and meat products from BSE-affected countries has provided assurance that the U.S. and Texas will have healthy animals and wholesome meat products.

-The U.S. Department of Agriculture (USDA) has closed the border to the importation of Canadian cattle and meat products.

The eight-year-old Canadian cow that tested positive for the

150-head herd. The affected herd would be tested and depopulated, Canadian officials said.

In January, the cow was condemned due to unwholesomeness on slaughter and brain tissue was submitted for laboratory testing under the BSE surveillance program. Tests conducted at a laboratory in the United Kingdom confirmed infection of BSE in the cows brain after initial tests were run at a Canadian laboratory

"These cows are regularly tested and taken out of the food chain," Faries explained. "No brains or spinal cords are ground for hamburger here in the U.S. Continuous surveillance is the means to detect possible cases of disease like we've seen happen in Canada. Mad cow disease is not in the U.S. and not likely to occur due to the compliance of the regulatory biosecurity measures currently enforced by USDA and the Texas Animal Health Commission."

Wellington has had a boost in visitation from residents of towns nearby and far off as well over the past year. With this sort of influx, the town is able to give back to its citizens and reward the visitors. Help make this event a positive and reoccurring activity in Wellington.

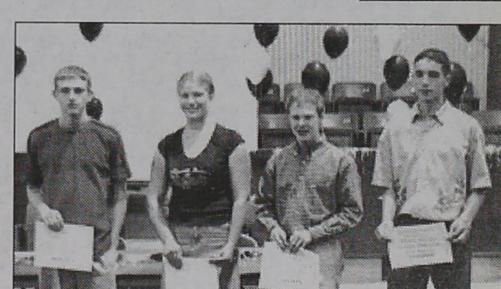

If you're interested in being a part of this landmark city-wide event or if you would like to advertise your business and get it in on the map, contact the Chamber of Commerce at (806) 447-5848 and keep an eye open for the announcement of where the maps will be located.
