### Canyon Eagles Down Mules, 17-14

#### 'Horns Make It Nine in a Row

Lazbuddie's Longhorns led the lambs to slaughter... Four more TDs were racked up by the 'Horns in the second. Matthews plunked over from the five and the PAT failed. A Steinbock to Hinkson pass for 75 yards was the next TD in the second and the PAT failed. Steinbock made an 86-yard punt return and Foster ran the extra points and a Steinbock to Foster 28-yard pass was good for another TD. Hinkson ran the points on that one.

In the third, Steinbock passed to Matthews for a 15-yard TD and PAT failed.

One TD was scored in the fourth, Matthews scampered 41 yards and Foster put the frosting on the cake with two final points.

Next Friday night, at Lazbuddie, the Longhorns will meet Matador for the final game of the regular season. The Longhorns made it nine in a row (this year) and are still riding on two final wins in the 1967 football season to make an actual count of 11 straight wins.

#### Beamon, Burge Score Both TDs In Big Plays

A 136-pound fullback by the name of Pokey Haines proved to be not so pokey on the ground as he ground out two touchdowns, which coupled with a 21 yard field goal was enough to down the Muleshoe Mules, 17-14 Friday night.

The Mules met the Canyon Eagles on a field still wet from slow rains which have fallen in the area since Wednesday night. Skies threatened just prior to gametime, with a few drops of moisture falling, however, it had stopped by gametime. A wind of about 15 miles per hour was blowing from the south and the temperature was hovering around 40 degrees.

A Canyon fumble early in the game set up the first touchdown of the game... rather the first and second TDs of the game. Charlie Beamon sprinted 46 yards downfield but it was called back as officials ruled he stepped momentarily out of bounds as he was rushed at the 46 yard sideline.

STOP THAT PASS!—Seemed to be the cry of the Canyon Eagles following a Barrett-Burge touchdown pass in the game Friday night. Sandy Fair, No. 21, tackles Bobby Burge, No. 16, who made the first TD in the game. The ball is shown in the upper left, blocking the helmet of Charlie Beamon, No. 40, who made the Mules second TD.

#### Law Enforcement Center is Discussed

Members of the Muleshoe City Council and the County Commission met in joint session Friday morning to decide on a site for the new Muleshoe Area Library which will be built in Muleshoe soon.

Through a revised plan, a \$100,000 library will be built in Muleshoe, with matching federal funds following a bond election in the city recently.

City Councilmen sought lots presently owned by Bailey County. Location of the lot are on the 300 block presently occupied by the Employment Office and highway patrol offices.

A lengthy discussion ensued with members of both government bodies working out the technical details of the trade. Councilmen told the county officials that in lieu of a money trade, they would drop the \$822.36 presently paid by the county each year toward the librarian's salary. Irvin St. Clair, acting as spokesman for the council, told county officers the city would build, and maintain, the new library and relieve the county of all financial responsibility for the land.

He said, "We must get the application in for the library very soon. We need a site and federal money is available at this time. The sooner we can get a site for the library to submit to the state, the sooner funds will be released to us to start building the library."

"Would you be willing to sell us the land?" asked St. Clair.

It was brought out that the state has received federal funds and the revised application must be submitted by Monday in order for Muleshoe to possibly get top priority.

One thing brought out by the council is that the library would provide additional voting space for the city. Under the present system, in order to have a place to count votes following an election, it must be held at the school.

Various clubs and organizations sponsored booths at the carnival. Highlight of the evening was the crowning of the 1968-69 Carnival King. The king was elected by popular vote from among the four senior nominations. The nominees were escorted by the four princesses.

#### Larry Allison Hardin-Simmons King Finalist

Larry Dale Allison, son of Mr. and Mrs. Gerald Allison, Muleshoe was one of four senior finalists for Carnival King for 1968-69 at the annual Hardin-Simmons University All School Carnival on Saturday, November 16.

He is a graduate of Muleshoe High School and at Hardin-Simmons, is a member of Who's Who Among Students in American Universities and Colleges; Tau Alpha Phi Social Club; is vice president of the Student Congress and is a past varsity cheerleader.

Sponsored annually by the Student Congress, the theme for 1968-69 was "A Roman Holiday." Festivities were slated for 7:30 p.m. in the Rose Field House.

#### Pep Festival Slated

All roads will lead to Pep on Thanksgiving Day. On that day, November 28, the twenty-third annual Pep Thanksgiving Festival will be held in that community.

If anybody happens to be driving on Highway 303 southwest of Littlefield and northwest of Levelland through the little community of Pep on that day, you will probably be amazed at all the activity and excitement going on in that community. People gather from all over the area to enjoy the festivities throughout the day.

Highlighting the day, will be the wide selection of food available as there is each year. Featured will be country sausage and turkey with all the trimmings. Two meals will be served during the day. The first meal will be from 11 a.m. to 2 p.m. and the second will be from 5 to 7:30 p.m. Tickets are \$1.75 for adults and \$1 for children.

There will be carnival attractions all day, a cotton and general auction at 6:30 p.m. and a western dance, beginning at 9 p.m.

#### C of C Board Elects Bass To Fill Term

At the regular monthly meeting of the Board of Directors of the Muleshoe Chamber of Commerce, Harvey Bass was elected to fill the unexpired term of Robert Alford. Alford recently moved to Breckenridge. Bass' term will expire in January, 1971.

Joe Harbin was elected to fill Robert Alford's position as secretary of the Board for the coming year, 1969.

#### Vietnam Vet Speaks To School Students

Muleshoe High School students heard a young, outstanding speaker at a special assembly Wednesday afternoon, November 13.

Chief Warrant Officer Robert Watts, who is presently an instructor in Rotary Wing School, Fort Walters came to Muleshoe and presented a talk and showed slides of his experiences in Vietnam.

Student Council representatives from Muleshoe, who traveled to Brownfield last weekend for a conference, heard Watts speak to the assembled Student Council representatives from this district. Watts was invited to come to Muleshoe to speak to Muleshoe High School. He was accompanied to Muleshoe by Bill Lefschig, public relations department of Lubbock Christian College and John Mason, also of LCC, who are sponsoring him through his South Plains tour.

Kathy Williams opened the assembly with prayer and led the pledge to the flag. Trevor Ford then introduced the special speaker. Ford said "Chief Warrant Officer Watts had served as a pilot with the 48th Assault Helicopter Company, at Ninh Hoa, Vietnam."

"During his tour in Vietnam, he earned the Distinguished Flying Cross, Bronze Star Medal for Bravery, Air Medal with 32 Oak Leaf Clusters, Purple Heart with one Oak Leaf Cluster and the National Defense Service Medal with Two Battle Stars."

Watts also earned other citations which were listed by the Student Council president.

Ford listed Watts' hobbies as tropical fish, home decorating and sports.

Watts began his talk by emphasizing sports and the part they play in preparing youths for future life. For an example, he said, "In flight school, coordination is a requirement. We have had students come straight from college with no sports background and they could not fly. Then, again, we have had those with sports background and no college come in."

It was decided to have the election for the City Sales Tax of an additional one percent as Commissioners said their budget showed a need for additional funds or the water rates would have to be raised.

Mayor C.E. Kelley, said the additional revenue is needed for repairs to streets, adequate water facilities and mosquito control and upkeep and replacement of city equipment.

HARVEST-TIME HAZARDS--Pat Childers was hauling a load of cotton to town Wednesday afternoon when a right wheel bearing went out locking the right wheel and dumping this trailer load of cotton along the highway about two miles northwest of Muleshoe on Highway 214. Employees from the Childers farm are shown pondering how to go about setting the trailer upright again. Incidentally, it was Childers' last load of cotton for the year which was dumped. It got all wet as it rained in the Muleshoe area Wednesday night, and a light rain was falling at the time the picture was made Thursday morning.

In order to organize, ten senior members must be signed. After that, daughters from a minute old may be signed.

"The women have their constitution and although often-times working independently have no purpose other than to serve side by side with the American Legion in working for the best interests of America," he continued.

#### Area Activities Are Slated For Book Week

Muleshoe Area Librarian Anne Camp reminds people that next week is National Children's Book Week. The special week which begins November 17, has a theme this year of "Go Places with Books."

Mrs. Camp said, "All parents are invited to attend the library during the week and choose books from our well-stocked bookshelves."

"We have special bookshelves to present children during this week."

A special storyhour will be held at the library next Wednesday, November 20 for preschool children. It will be at 10 a.m.

Summer Reading Club certificates will be presented at both elementary schools and junior high school on November 25 by Mrs. Camp. All children who qualified during the past summer will be presented their certificates as special assemblies.

#### United Fund Short

With two areas not completed, the United Fund drive for 1968 is 82 percent complete. Some \$12,707.55 has been collected to date, which leaves the goal shy by about \$2,993.

United Fund officials urge workers to turn in their contributions and pledge cards. The rural area has not been completed as yet, and is way down in contributions this year. Slightly less than one-half of what was given by the rural areas has been contributed this year.

Fourteen agencies are served by the Muleshoe United Fund. In the event the goal is short, it will mean that perhaps the budgets of some important functions in the county will have to be cut.

For instance, the Bailey County Junior Livestock Show, which has grown tremendously

Earth is joining other cities and communities in the State of Texas who are voting or have already voted on a one cent additional sales tax.

City Commissioners have set the election for December 17. They set the date at that special called meeting last Friday night.

It was decided to have the election for the City Sales Tax of an additional one percent as Commissioners said their budget showed a need for additional funds or the water rates would have to be raised.

Mayor C.E. Kelley, said the additional revenue is needed for repairs to streets, adequate water facilities and mosquito control and upkeep and replacement of city equipment.

at the courthouse, and when a weekday election is held at the courthouse, offices are forced to close for the day.

Office space presently rented by the county to house the county agent and the home demonstration agent would be alleviated for an additional saving to the county.

Mentioned was the fact that although the city houses and provides supervision and service for the area bookmobile it receives no proceeds or remuneration for this service. The county has contributed \$10,480 for operation of the bookmobile since 1964 when it first began.

County Judge Don Cihak presented a resolution to the county commissioners to deed the land, consisting of three lots, to city of Muleshoe for the new library site.

Cihak said, "I propose that Bailey County deed Lots Nos. 10, 11, and 12, Block 23, Original Town of Muleshoe, to the City of Muleshoe for the purpose of building a public library, and stipulating that in the case of the public library ceasing to exist as such, that the property revert back to the property revert back to the county." County Commissioner R.P. McCall seconded the motion and all commissioners voted in favor of the trade.

At the same time, Mayor Pro-Tem Irvin St. Clair offered a resolution to the city Councilmen that "the city agree to build a new library building and assume the maintenance and operation of it and agree to release the county from its responsibility of paying \$22.36 each year, upon completion of said library building in exchange for title to the lots." Councilmen Lynda Murray seconded the resolution and all councilmen voted to pass the resolution.

The deed was executed Friday afternoon by County Clerk Hazel Gilbreath for the consideration of ten dollars paid by the city to the county, under considerations already reviewed, and with no lien.

Also discussed was the new law enforcement center which will be jointly occupied by city, county and state officers. Present officers were commended by the officials for the way they work together.

The joint meeting was a beginning for working out details to the law enforcement center which will be built in the near future. The center was authorized during a recent bond issue.

City and county government bodies will work out details concerning financial responsibility, supervision and maintenance.

A future meeting will be held to finalize plans for the new law enforcement center.

Pokey Haines retaliated with 1:08 left in the first on a 25-yard lunge and Lon Connors kicked the extra point to tie up the game, 7-7.

A Canyon pass interception nearly made the second TD of the game for the Eagles as they worked toward the Mule two-yard line. But a toughened up Mule defense held them on

Joe Adams, son of the J.K. Adams, reported a ten inch snow on the ground at Dartmouth College this week. Joe was injured in the Dartmouth-Harvard game but was to play against Cornell.

the line and they were forced to punt.

Muleshoe was unable to move the ball into Eagle territory and lost the ball to Canyon on their own 39-yard line. Holding Canyon again, they finally kicked a field goal which most fans considered questionable, 2:52 was on the clock in the second quarter when Connors kicked the FB. It hit the goal post and apparently bounced over. Officials called it good and the Eagles went out ahead 10-7, a lead they maintained at halftime.

Halftime activities ended the year for the Muleshoe Mighty 'M' marching band with crowning of the band favorites. Contestants for the favorites, who took the field to the tune of "Maria" were Cindi Crane, escorted by Derrell Evin; Debbie Burrows, escorted by Colin Platt and Kathy Williams, escorted by David Gupton. Chosen favorites were Cindi Crane and Derrell Evin.

Coming out at halftime, Charlie Beamon returned the kickoff 33 yards and on the next play romped and raced and outran his pursuers 37 yards in the first eighteen seconds of the third quarter to again take the Mules out front in scoring. Elliott kicked the EP and 14-10 was shining on the scoreboard, 11:52 in the third was on the clock.

The Eagles working downfield desperately moved 60 yards in 13 plays, but were held again right in the shadow of the goal post and were unable to score. The Mules carried the 14-10 lead going into the fourth.

In the fourth quarter, the Eagles completely dominated the quarter, giving up the ball only twice to the Mules. A sheer power drive, with rough plays right across the line, down the middle, but the eagles in scoring range after 20 plays. Haines again went over for the TD on a four-yard plunge right over the line with 4:15 on the clock. Connors' kick was good to make it a 17-14 game.

Eagles 'eagle eyes' worked in the final minutes of the game, as two interceptions were made as time ticked off on the clock. The first interception was called back and the play nullified on an Eagle penalty, but the second interception was good and the Eagles ran out the clock, ending the game and the scoring at 17-14.

Next week, the Mules will play their final game of the year, when they meet the Perryton Rangers in a Friday afternoon game at Perryton. Time has been set at 3 p.m.

and make it just fine. "Back sports of all kinds," he continued, "anything you do is to your own advantage. You will find that athletics are just as important as academics."

"Back your coaches and instructors in sports," concluded Watts in that portion of his talk.

He commented briefly on the alert enthusiasm of his audience and commended them for their attention.

Watts followed with several slides on phases of the present war in Vietnam. He had taken the slides during his tour of duty which was spent in Ninh Hoa, South Vietnam.

After he finished showing the slides with comments, as each was shown, on what he was showing, he conducted an in-

formal question and answer program which brought forth queries from numerous students in the audience.

The first question asked was "How do you feel about the bombing halt?" His answer was, "If it will bring about peace, I am all for it. However, I feel that if we try it once and it fails, then it should not be tried again."

"Do you feel like the war could have ended sooner?" asked another student. Watts answered, "We are not trying to defeat the communists, we

are trying to contain them. Perhaps the war could have ended sooner if the answer was as simple as just to defeat them."

Since he showed one slide on two captured Viet Cong who were being rushed to headquarters for questioning, a question was asked concerning this. "How do you get information from prisoners?" Watts answered, "Contrary to what you may have heard, we do not torture them. The Viet Cong prisoners are stripped of all their clothing and seated on

the bare floor of a helicopter and flown back to headquarters. "Now, you take someone who is from a backward country who has never seen the inside of an aircraft, has never in his life been in an automobile and everything is strange to him, strip him of his clothing, seat him on the cold, bare floor of a helicopter and fly him in the air. When we get them on the ground after perhaps a fifteen minute flight, they are usually more than willing to talk."

As the final school bell rang, and many of the students had to leave the auditorium to catch school buses, throngs of youngsters gathered around Watts on the stage to continue questioning him for some time. The general consensus of students and school personnel alike was that the young helicopter flying instructor was an outstanding speaker.

### Seaman Gilyard In Sea Exercise Aboard Hornet

USS HORNET at sea--Seaman Apprentice Bob E. Gilyard, USN, 18, son of Mrs. Doyle Collins of Route 2, Sudan, participated in "hunter-killer" anti-submarine warfare exercises in Hawaiian waters aboard the antisubmarine warfare aircraft carrier USS Hornet.

Hornet and other ships of the United States and Canada recently participated in the joint exercise as part of an operational readiness evaluation for the U.S. ships prior to a Western Pacific deployment.

Canadian Escort Squadron Two, consisting of destroyer escorts HMCS Mackenzie, Columbia, and Yukon, assisted the U.S. in the searching and screening operations. Also participating was the Canadian submarine HMCS Grilse, and Royal Canadian Air Force Maritime Squadron 407.

The coordinated effort, which was staged by the U.S. Anti-submarine Warfare Group Five, provided a realistic situation in which the participating U.S. and Canadian units could evaluate and perfect ASW methods.

Hornet is presently operating with the U.S. Seventh Fleet in the Western Pacific.

JUNIOR HIGH FOOTBALL  
The Junior High Football team added another win to their record when they played their last game of the '68 season.

Coach Earl Johnson gave the following comment: I was extremely proud of the entire team Thursday in their effort to win over Hart 28-20, Arther Graves

ran three touchdowns in the first quarter, to jump out to a substantial lead.

The team as a whole worked well both offensively and defensively.

This was the final game of the football season, and it brought our record to six wins against one loss.

The Junior High team is to be congratulated for the fine job which they have done the past season, and we wish them all the luck in the up-coming basketball season.

EVERYONE IN THE CHURCH  
THE CHURCH IN EVERYONE

Pages could be filled with ways that God has blessed us, and we should be continually thankful for God's goodness. At this time, however, we should pause from our daily workday habits and in unison, give special thanks to God, that we still have freedom of worship.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

## The Upper Room

Read Ezra 9:5-15

And I said, O my God, I am ashamed. . . for our iniquities are increased over our head, and our guiltiness is grown up unto the heavens. (Ezra 9:6, ASV)

Here we have one of the real prayers of confession of the Bible. Such a prayer is the doorway to the throne of God. Ezra views his nation in moral ruin, and he is aware that a nation can be no stronger than the moral character of its citizens. The burden of his prayer is for transformed lives, cleansed hearts, empowered wills, and social righteousness. He would rebuild his nation by bringing the sins of his people before the face of God and confessing them unreservedly. He knows that

only then can he count upon God as an ally.

Ezra has a word for us. The world is in desperate crisis because all have sinned grievously. We come before God in the right spirit when we come in true repentance and confession of our sins, individual and social.

### PRAYER:

Almighty God, enable us to acknowledge our dependence upon Thy purity that would cleanse our uncleanness. Lead us to confess before Thee our manifold sins and wickedness, and to desire above all that the lives of our people may be transformed by the inspiration of the Holy Spirit. In Christ's name. Amen.

## Vietnam News

as reported by Marine Corps Combat Correspondents and edited by Gysgt. Bob Montgomery

In small villages and hamlets the enemy often appears as a specter... one moment innocent and loyal to South Vietnam, and the next the enemy, capable of killing and torturing the minds of the people.

For Cpl. Robert E. Lee, 19, Atlanta, Ga., the enemy appeared as a specter when his squad was searching a small village five miles south of Da Nang.

"I had just checked a young woman's identification," Lee, a squad leader for the 3rd Platoon, "L" Co., 3rd Bn., First Marine Regiment, explained. "She looked okay, so I started to look into another hut."

It was then her appearance changed and the specter of an enemy came out. Lee glanced back into the room and found the young woman standing with a wad of bills in her hand. "When she saw me," he continued, "she stuffed the money down her trousers, picked up a hat and started to run out the back door."

Fortunately, the rear door was guarded, and Lee was able to stop her flight. "She tried to tell us she was the mother of the baby," he added. "But things weren't adding up. There was an equivalent of 300 dollars in Piasters in her possession, and I'd never seen her before in the village."

Lee made a check and found the baby's real mother, counted the money and thought about the facts one more time. "I asked myself, where could she get this much money?" Lee remarked. "These villagers are poor people, and then I understood why. The Viet Cong had been taxing them."

Later interrogation revealed the woman as a tax collector's wife. Lee helped lighten the burden of life for a small village and chased out a specter... the specter of deceitful enemy.

The 33 year-old Viet Cong (VC) figured four months of extra police duty was too much, so he turned himself over to a patrol from "C" Co., 1st Bn., First Marine Regiment.

"He was the VC liaison man in his village," 1st Lieutenant Francis B. Ahearn, the battalion intelligence officer, said. "He collected the taxes and kept the villagers in line. He carried no rifle."

According to Ahearn, St. Louis, Mo., the VC refused to collect taxes one day and he was carried off into the mountain to help his leaders carry ammunition. "He said he carried ordnance from the mountains into Dodge

City area (13 miles south of Da Nang)," Ahearn said. "There it was buried in a dried up rice paddy in preparation for a coming battle."

He added that the villagers were fed up with the VC because of their cruelty, heavy taxes, and constant pressure tactics.

Contrary to popular belief, PSYOPS is not a one-eyed monster, but the military abbreviation for Psychological Operations.

The conflict in South Vietnam has another phase. One is its savagely fought ground action with its supporting air and artillery. The other is PSYOPS, a battle of non-violence.

It plays a major role in Vietnam. It uses the written word, loudspeakers and movie projectors to win the hearts and minds of the civilian populace and often the enemy.

In the 3rd Marine Division, the non-violent battle is conducted by a special PSYOP team headed by Army Lieutenant Jeffrey Rhodes, Maulton, Ohio.

The team uses its special forces to portray the Vietnamese people and the truth about the conflict. Films and tape recorded messages are used to explain just how the Vietnamese government is fighting to establish a democratic existence for its people.

According to Rhodes, the program is working very well. Last year, over 27,000 North Vietnamese Army (NVA) and Viet Cong (VC) soldiers rallied under the Chieu Hoi program and the figure is expected to be even larger in 1968.

Over 17,000 of the Chieu Hoi's were carrying their weapons when they gave themselves up. "These figures show the value of our Chieu Hoi program by the fact that the enemy lost over 27,000 troops with no casualties on our side.

"Don't make any mistake we didn't capture them; they gave themselves up," said the Lieutenant.

The number of Chieu Hoi's represent two enemy divisions and official estimates show that to eliminate them on the battlefield it would cost friendly forces about 5,000 lives.

Each man that rallies as a result of PSYOPS carries valuable information of the whereabouts of enemy formations and enemy arms caches. This leads to the capture and destruction of vast quantities of arms and ammunition that would be otherwise used by the enemy.

"We carry out message to the NVA and the VC in various ways. We have the usual leaflet drops from airplanes and we are experimenting with 105 and 155 millimeter artillery rounds. We make extensive use of loudspeakers on aircraft, trucks and back-packs to play pre-recorded tapes," explained the Lieutenant.

Afterwards the team shows a feature film and cartoons purely for the entertainment value. The lieutenant summed it up by declaring: "We are not a propaganda agency! We deal in the truth and the hard facts, and let the recipients of our messages form their own opinions and make their own decisions."

A Chieu Hoi is provided a lot of benefits when he defects to the allied cause, but if he's a barber and is captured by the Fifth Marine Regiment he may reap unexpected benefits. When a mother approached the command post of Lima Company, 3d Bn., Fifth Marine Regiment,

## NEW CONCEPT IN SPRINKLER IRRIGATION ..THE FARMHAND WALKING WATER SYSTEM.

- New \*Kink-proof tower to tower safety system.
- New \*Gaskets eliminated by continuous one-piece sprinkler line.
- New \*Skids give you better traction, better stability, more floatation.
- New \*One oil hydraulic cylinder controls movement - All your irrigation water goes for your crops.
- New \*Patented, positive in-line control. System won't buckle, tangle or go down.
- New \*You control both rate of travel AND water flow according to your needs.
- New \*Tall towers put the sprinkler line above crops
- New \*Annual lubrication cuts maintenance time to a minimum.

I started ditch irrigation in 1948. I went from ditch to canvas pipe to hand move sprinkler line, then to wheel move. The Dowd Farmhand is, by far, superior to any system I have used. I like the single oil hydraulic cylinder located at the pivot point and the self alignment feature. The Dowd Farmhand has been the most trouble free system that I have ever operated. The Farmhand sprinkler saves roughly 30 hours of labor per week over the other type systems I have now in operation.

Editorial

Congratulations, Challenge:  
**ON COOPERATION**

The timely instance of city councilmen and county commissioners working and acting together for the common purpose of benefitting the people of Muleshoe, Bailey County and our trade area occurred here Friday.

We feel that "letting the people know" and asking them to join us in congratulations to all for a mutually beneficial interaction in behalf of the public - and in the public's interest - is our pleasure. (It is a future challenge for us all also.)

Three C's --- cooperation, coordination and communication --- were noticeable in Friday's actions taken in regard to improvement of the present Muleshoe Area Public Library services and strengthening services in not only all of Bailey County, but generally to our three neighboring counties.

The interchange of three lots donated by Bailey County to the City of Muleshoe for the purpose of building a public library and the city to construct a new library building and assume its operation and maintenance, is the instance of cooperation.

The challenge is continued and future cooperation on such matters of public interest, such as those already begun by the two governing bodies in regard to jointly-operational law enforcement center. The same fundamental principles applied to the library will be beneficial to all city and county development and growth.

When the "management" evaluates public attitudes, identifies policies and procedures with the public interest, and executes a program of action (and communication) to earn understanding and acceptance, we all have an excellent example to follow.

The elements of research, action, communication and evaluation added with the nature of the council and courts its people, its policies, its history and its social enlightenment is not just a bucket of whatswash splashed over one action, but one which will should apply to the community, individually and collectively, in which we live.

The saying attributed to Emerson "If a man builds a better mousetrap, the world will beat a path to his door," may testify truly, but nowadays "the world" buys its mousetraps from the manufacturers who are most known and talked about. We hope that mutual interest and agreements among our elected representatives are an indication for the future.

Another C is added: Congratulations on the demonstration Friday of working together in Cooperation, Communication and Coordination, to our two C's; City Council and County Commissioners' Court.

**Police Activity In Slump After Sharp Increase**

Following a sharp increase less than two weeks ago in local law enforcement activity, a slump has been reached with routine matters heading the law enforcement agencies' arrest book.

Bailey County Sheriff's office has had routine matters during the past week.

City Police officers have arrested two for drunk; four on liquor law violations; one on driver's license; three for contributing to the delinquency of a minor and one for driving while intoxicated.

Texas Highway Patrolmen have arrested one for driving while intoxicated; one for permitting a drunk driver to drive, and one for minor consumption.

By Beulah Newton

Three times in five days our community has been saddened by the passing of neighbors and friends. Saturday morning at nine Mrs. W.H. Braden died following a long illness. Saturday afternoon Roy Neal died following a stroke a week earlier. Wednesday morning Henry Lewis died following a car accident seven weeks ago. He had never regained consciousness.

Odus Wood underwent surgery in Littlefield hospital Wednesday morning. He is doing satisfactory at this time. Guests in the Leon Foster home from Saturday till Monday were their daughter and granddaughter Mrs. Walter Elam and Cheryl of Lubbock.

Recent guests of Lena Hite were her sisters, Mrs. Charles Thompson and Mrs. Von Kinsey of Oklahoma City.

Mr. and Mrs. Cliff Winders of Plainview were guests of Mrs. L.D. Winders last weekend.

Mr. and Mrs. O.B. Ginn of Amarillo were Sunday guests of their mothers Mrs. Adline Newton and Mrs. Nannie Ginn.

Ladies of the First Baptist Church entertained the senior citizens with a salad supper in Fellowship Hall of the church Tuesday evening. Approximately 75 women enjoyed the evening of singing and skits and eating. A skit of Thanksgiving dinner was rendered by several of the Baptist women which was a scene of the dinner consisting of grandmother, aunts and cousins.

Mrs. B. Campbell (Aunt Lou) gave the Thanksgiving worship on Happiness. This is an annual affair and is looked forward to from year to year. Mr. and Mrs. Dick Kimble were visiting friends and neighbors last Monday. They also attended the funeral services for Roy Neal.

Mr. and Mrs. Jim Williams have moved to Amarillo where Jim is employed. He formerly worked at Brown and Jordan as parts man.

load of cotton was burning. The report was about a bale lost and the trailer had some damage.

Mrs. Edd Blair remains in fair condition in the Medical Arts Hospital in Littlefield. Troy Blackburn was dispirited Tuesday where he was a patient several days undergoing tests and x-rays.

Last Thursday night shopping bonanza was slightly short. We hope people will take advantage of these Thursday night bargains and come in to see all that is offered them.

Mr. R.D. Hatchett is now residing in a private nursing home in Littlefield.

**Local Minister Retires; Buys Post Grocery**

The C.R. Baldwin grocery store in the Graham community, which has been under the same ownership for more than 28 years, is being sold by Mr. and Mrs. Baldwin to the Rev. Clinton Edwards of Muleshoe, a former pastor of the First Presbyterian Church of Post.

The sale is scheduled to be consummated after an inventory of the store's stock is taken Sunday, Mrs. Baldwin told The Dispatch yesterday.

"We are taking the inventory Sunday because it is difficult at this time of the year to close on any other day," Mrs. Baldwin said.

The Baldwins purchased the store from E.R. Clifton in April of 1934. Clifton had bought it from B. Dodd. The store is in the same location as the original one, but the present building was built by the Baldwins.

Mr. and Mrs. Baldwin, whose home is near the store, will devote their time to their farming and ranching interests. The Rev. Mr. Edwards, who is retiring from the ministry, and his family will dwell in the store's living quarters.

The Edwards' daughter, Mrs. Delwin Fluit, is a resident of the Graham community.

Some men think their families owe them a little if they take them out to dinner once a year.

From The Chief's Desk

The frost is on the pumpkin... and often on windshields and side windows, too, at this time of the year.

Many needless accidents are caused each year by vehicle operators who do not take time to properly clean the frost or ice from their windshields.

As many vehicles are not sheltered during the night and ice forms on all windows, take time to scrape and clean them properly before driving on streets and highways.

In an accident, ice could and often has been a contributing factor as the cause. Not only does the windshield need to be cleaned, but side windows and back windows should be scraped and cleaned to provide proper vision on all sides while you are driving.

Take a little time and live longer!

Unfortunately, there is not always a right and wrong solution to a situation. Sometimes there are only two courses of action, bad and worse.

# High School Hosts Parents

## School Opens Doors For Education Week

The Muleshoe High School opened its doors and arms to interested people an opportunity to visit classrooms, teachers and administrators.

The program began at 7 p.m. with a film, "Debt to the Past". This depicted Americanism in our schools, homes, and everyday life. It brought to mind how our constitution was constructed and how it guides us today.

After the film, parents were free to visit any classroom they wished. They visited teachers, saw displays, and visited with other parents.

We are sorry more parents did not take the opportunity to visit with us. Many times problems between the home and the school can easily be solved by just talking and gaining understanding one with another.

However, we will have open house again in the spring and hope the same parents and many more will come.

THE NIGHT OF RECKONING--Mr. and Mrs. Chapman visited MHS open house Monday night in order to find out how Martha Jane's grades were turning out. Mrs. Kerr, English I teacher, is giving the GOOD news to her parents.

MATHEMATICIANS IN JUNIOR HIGH SCHOOL--Mrs. James (Betty) Jennings math classes at junior high school utilize the Dewey Decimal System bulletin board seen in the background. This was one of the bulletin boards seen by parents during National Education Week. come!--This cheer

## Robert Watts Tells Students About Vietnam

Warrant Officer Robert W. Watts, recently returned from Vietnam, spoke on the U.S. Army's activities in Vietnam at 10:40 A.M. on Wednesday, November 12, at Muleshoe High School Auditorium, and at the Lion's Club, Tuesday, November 12.

Warrant Officer Watts, a rotary-wing instructor at the U.S. Army Primary Helicopter School, Fort Wolters, Texas, is a member of the Pilot National Speaking Program, an extension of the Army Speakers Program which has provided Army speakers on request for public platforms for several years.

The purpose of the program was to provide audiences an opportunity to hear firsthand experiences and observations of recent Vietnam returns.

Watts' previous assignment was as a pilot with the 48th Assault Helicopter Co., Ninh Hoa, Vietnam. His decorations

include the Distinguished Flying Cross, Bronze Star Medal, 33 awards of the Air Medal, two awards of the Purple Heart, the National Defense Service Medal, Vietnam Campaign Medal and three awards of the Vietnam Service Medal.

A native of Riedsville, N.C., Watts entered the Army in June 1966 after attending North Carolina State University at Raleigh, where he majored in English.

On completion of the basic warrant officer's course at Fort Polk, he was assigned for five months as a rotary-wing student pilot at Fort Wolters, followed by four months training at Fort Rucker, Alabama.

His hobbies and interests include participation in sports, raising tropical fish and home decoration.

Warrant Officer Watts' wife is the former Dorothy Ellen Jones of Ruffin, N.C., where his parents, Mr. and Mrs. C.J. Watts reside.

Approximately 220 high school students heard the program.

## MHS Mulettes Down Bovina Second Time

Mulettes "E" team led by Gayetta Gable's 41 points defeated the Bovina "B" team 77-15. Vicki Julian and Charlette Wagner each scored 16 points. Donna Heathington scored 4 points. "B" team guards, Sherry Moore, Susan Wood, and Sharon Davis, played a superb ball game. The three girls had 31 rebounds between them.

The first half was played under slow and poor play, but the second half displayed excellent ball control and play on the court.

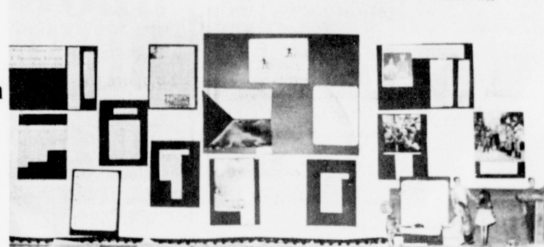

Again for the second time in three games the Mulettes varsity played a very discouraging ball game. Passing, ball control, rebounding, and setting up the offense were very weak. Ann Douglass and Janice Head both scored 17 points each. Debra Hayes, 8 points, and Karen St. Clair two as the Mulettes varsity defeated Bovina's "A" team 44-19.

The Mulettes starting guards, Sue Pylant, Arlene Brown, and Diane Washington played a good game except for passing. The bright spot was the excellent job done by Brenda Scott,

## Student Council New District Parliamentarian

The Muleshoe High School Student Council attended the district convention at Brownfield last Saturday. Those who went were: Mr. Black, Sponsor; Trevor Ford, President; Sam Feagley, Vice President; Kathy Williams, Reporter; Jerry Scoggins, Parliamentarian; Vina Bass, Vickie Street, Betty Harbin, Steve Black, Jerry Putman, and Mike Riley (class representatives).

The elected officers for next year are President, Floydada, Vice President, Sudan, Secretary, Denver City, Parliamentarian, Muleshoe. Members attended various discussion groups about ways to better the council and its realm of influence.

GOVERNMENT CLASS--GEOGRAPHY CLASS--Mrs. Jack Bettingfield assisted her students in compiling this bulletin board at junior high school. The classroom is jointly used as a government class and a geography class. On the bulletin board are newspaper displays of world events.

## Area Minister MHS Speaker At Assembly

Bob Ware, pastor of the Crescent Park Church of Christ of Littlefield, spoke to an assembly of Muleshoe High School students Monday, November 10, during activity period. Using as his subject "The Bridge Across the Chasm of Human Suffering and Bombage", Ware held the students attention for the duration of the speech. Ware

## Beauty Pageant Held Saturday

Muleshoe High School's active Thespian Troupe 714 has completed another successful project for the betterment of fine arts. The curtain closed on the sixth annual Beauty Pageant Saturday night after watching the crowning of most beautiful and most handsome. Thirty-two contestants competed for the honors. Four girls and four boys from each class composed the group of anxious contenders.

Representing the Senior Class were Vickie Henenson, Vicki Street, Debbie Burrows, Peggy Williams, Bob Bomer, John Pitts, John Elliott, and Joe Pat Riley. Juniors were Ann Douglass, Trenea Bryant, Patti Camp, Gayetta Gable, John Woodard, Sandy Noble, David Bickel, and Leland Fer-

President Johnson has signed a bill extending a Federal program to train workers in new or improved job skills for three more years. The program, established in 1962, is said to have trained on the job or in educational institutions 1.2 million persons.

WANT TO BUY A HAT?--So say Cynthia Wrinkle and Delinda Henry. They are selling hats at the Halloween Carnival for the sophomore class. The money made from the sale was put in the sophomore class treasury.

Again our ball club gave a supreme effort against Hereford. If you were present you are aware that it was among the ball game until very late in the game. Hereford's ball club was so strong that they simply wore us down. Many people were outstanding for us, but the names that come to mind very quickly are Roger Saint, Bobby Burge, Dennis Beene, Terry Reasoner, Larry Kit-

chens and Trevor Ford. Swift had a personal high for the year in making 27 tackles, 8 of them unassisted. Burge made some fine pass receptions besides playing his usual good game on defense. Beene made 18 tackles and simply gave 10 per cent if that's possible. Reasoner played an inspired game against a very tough opponent. Kit-chens made some fine catches and Ford hit some very good kicks.

After all was said and done there was one question still unanswered in my mind following the game. Where were all the Muleshoe fans? It could not have been the weather because it was a perfect football night. It couldn't be the way our team has been playing, because they have given everything they have during the last five games. What more can you ask than to give it all. Without hesitation, I will claim this group of young men. I am proud to be associated with them. They are not quitters, they are winners!

SMILING PRIZE WINNER--Vina Bass is smiling as she receives a prize at the recent Halloween Carnival held at the bus turn. Many prizes exchanged hands and numerous people went away from the carnival with satisfied smiles on this annual occasion.

TREATING A SORE THROAT--Trevor Ford, President of the Student Council, is about to be the first head transplant patient of MHS. It looks like his sore throat will be ended soon. Seriously, this was the final trick of the magic assembly held for the student body. By the way, Trevor recovered, and is in one piece.

LANDSCAPING BY A.L. Woodburn GARDEN CENTER NURSERY Clovis, N.M.

"How many shade trees can you put into an empty yard?"  
"Only one, after the first one, the yard is not empty." With the weather as cool as it is and having had our first snow of the season, some are asking if now is the time for shade trees. We think that now is a very good time to do more than just plan where the shade pattern should be by planting some of the better adapted trees to give that pattern for next years summer.

The amount of trees that a person should put in depends on a number of things, such as growth habit, desired effect, amount of plant food and water and numbers of other things. Should a person look at a tree on a still day, he will notice there is enough movement of the air to stir the leaves. This is brought about by a thermal reaction of the hot air being lighter. The air will rise and the shade of the tree cooling a spot will draw the cooler air to the person under the tree. That in effect creates not only a spot protected from the sun but also a cooler spot due to thermal action of the air movement.

The kind of trees are more or less personal. That is, a person can express his own desire that he likes this type or does not like another. Probably the fastest growth is not always the desirable tree to plant. The characteristics of each tree should be studied and allowances made for normal growth. Then a person can create the effect that he wants.

Some of the more popular trees for this area include the fruitless mulberry, the three or four varieties of ash, sycamore, poplars, mimosa, gladiolus or honey locust, a number of variations of the black locust, tulip tree, Hawthorn, hackberry, Russian olive, walnut, maple, redbud, golden rain tree, Kentucky coffee tree, most varieties of fruit trees, and of course the elm. Next week we will try to point out some of the good and bad points of some of these. We do have a large variety of trees that are readily adapted to this area where nature provided us with none.
