Room 1, Settles Hotel "Substance" is the subject of the lesson-sermon which will be read in all Churches of Christ, Scien-

tist on Sunday, March 14. The Golden Text is: "If we hope for that we see not, then do we with patience wait for it" (Romans 8:25).

Among the citations which com prise the lesson-sermon is the following from the Bible: "Eye hath not seen, nor ear beard, peither have entered into the heart man ,the things which God hath prepared for them that love him, But God hath revealed them unto us by his Spirit; for the Spirit searcheth all thirgs, yea, the deep things of God" (I Corinthians 2:

9, 10), The lesson-sermon includes als the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "Paul and John had a clear apprehension that, as mortal man achieves no worldly honors except by sacrifice, so he must gain heavenly riches by forsaking all worldliness" (page 459).

Try ALL-BRAN yourself. It corrects the common type of constipa-tion. Within the body, it absorbs twice its weight in water, forms a soft mass, gently cleanses the sys-tem. Just eat two tablespoonfuls daily. Three times daily in severe cases. As a cereal with milk or cream, or in recipres or in recipes.

Isn't it better to eat this wholesome food than to take pills and drugs that may be harmful and often lose their effect? ALL-BRAN is sold by all grocers. Made and guaranteed by Kellogg in Battle Creek.

Loretta Young, Tyrone Power Co-Starred In 'Love Is News'

A gay comedy that has been de-clared by reviewers to be one of the most amusing of the current

popularity, Tyrone Power.

As the name indicates, "Love Is News" has a newspaper background, but it deviates from the standard plot to bring in fresh situations. Power is a young reporter assigned to write about the daily life of Miss Young, who is one of the world's richest girls. He obtains an interview by a ruse and she proceeds to turn the tables on him, making him a figure.

For a satisfactory conclusion to the picture.

Corrigan, Livingston and Terhuna work together in excellent tashon to bring a new touch to western pictures—the "one-for-all" ducer against the hazards of nature and to stabilize both price and supports and she proceeds to turn the tables on him, making him a figure mantic element in the new film. bles on him, making him a figure in the headlines, much to his own discomfiture.
