# Has Eight Lettermen | Make County Survey

Tuesday-Raise Estimate of Relief Employables

While on an inspection tour of district director, and R. W. Willis, project planning director of district 16, both of Amarillo, met with members of the county planning board and the commissioners court to discuss WPA projects in Wheeler county. Principal objects of the visit was to gain first hand information concerning the Wheeler county situation and to advise with the local

Among other things, the visitors suggested that projects here be based upon the peak load of relief employables, approximately 400, as determined from the records kept since the relief program was instituted. Heretofore the planning board had considered the present number, about 200, as the proper basis for computation of the probable amount of relief work needed. Because of the impossibility of fore-seeing exactly what the demands may be, the directors favored liberal allowance in order to provide sufficient work.

On the present schedule of \$600 per year per man, Wheeler county would be entitled to nearly a quarter Personnel of present prospective of a million dollars in projects. At this time, according to a member of that sum is represented in applications. However, it is pointed out, a sufficient number of project applications to reach the \$240,000 figure are in process of preparation and earnest efforts will be made to file them in correct form by Sept. 12, the deadline date recently set by

> President Roosevelt. The president has also directed all agencies-federal, state or municipal-to be prepared either to ask for bids or begin work operations by Oct. 22. The last chance, say press dispatches, for a project to be approved will be on Sept. 17, five days after when the work relief allotment committee holds its final meeting. The advisory group passes projects on to the president.

> Roosevelt has set Nov. 1 as the date for putting the works program nto high gear and taking all unemployed off the relief rolls.

#### Rural Trustees Meet Here Next Thursday

Thursday, Sept. 5, starting at 1 p. m. in the district court room, Wheeler, is the time and place announced by County Superintendent B. T. Rucker for a county-wide trustees meeting. All teachers, trustees, school officials and the general public is invited to attend this meeting, other relatives and a host of friends states Rucker, who has supplied The Times with the following program: 1:00-1:40-Circulating Library,

### State Votes Repeal In Saturday's Poll

Liquor Amendment Carries by Big Margin: Wheeler County Rejects Measure

With a margin of more than 50,000, voters in the state of Texas approved repeal of prohibition dewest of Mobeetie, received several cisively in Saturday's special election extortion notes demanding, it was when seven amendments were presented to the electorate. The old contact was arranged, but nothing age pension measure, another issue came of it. Federal officers searched second only in importance to the liquor question, rolled up a tally of 369,858 for and 92,982 against.

Other statewide returns sho adoption of the following amendgrown cold; expected notes have not ments: Suspended sentence, commitment of insane, and fee abolition, while amendment submission and textbooks for private schools were

Reference to the tabulated returns of Wheeler county's vote, published elsewhere in this paper, will show disapproval of the liquor issue, although it trailed with the balance

of the state on the other questions. In common with the remainder of the state, a light vote was cast here.

#### CITY TO ASK AID ON PARK PROJECT

Plans Include Swimming Pool and Other Improvement to Beautify Spot

According to Mayor R. D. Holt, the City of Wheeler is rushing preparations on a park improvement and ed under the WPA setup as a means of providing relief work as well as a much-needed adjunct to the city.

Tentative plans include a swimming pool, landscape work and additional acreage adjoining the site at the north end of Stanley grove, acquired some months ago as the nucleus for a park and recreation center. Approximate cost will not be known are completed.

Gehbauer, engineer, contracted for surveying and planning a waterworks and sewer project here last spring, certain engineering work on a park was included. Gehbauer has been promoted to a position approval commission. Mrs. Gehbauer, however, is in charge of unfinished work contracted by her husband. She and Mr. Watson, an engineer from Sweetwater, were here Monday and Tuesday to make a preliminary survey of the proposition.

As soon as the necessary data can be assembled the project will be submitted for approval.

#### ECONOMIC INSANITY

The American tax system is outmoded, wasteful, inefficient-a n d essentially vicious. That is a digest of statements recently made by a number of economists of standing.

It is especially vicious when it comes to the so-called "share-the wealth" tax measures which propose that higher taxes be levied against individuals and corporations. "big business" is to be penalized for being "big." And according to the advocates of these measures, the average citizen will benefit-wealth will pay the bill, and he will receive the services of government for little or nothing. What a misrepresentation

The average citizen who is taxed to death now, will be taxed still more as new taxes are created. Every tax on industry must be paid by him through higher prices for commodities and services. Every new tax adds to his cost of living.

The confiscatory "share-the wealth" tax bill now pending in Congress would, according to its sponsors, cause increased federal income of \$270,000,000 a year. If that is true, it would "redistribute wealth" to the tune of about \$2.25 for each man, woman and child in this country. And it would fall three billion dollars short of meeting the deficit incurred in the last fiscal year alone!

It is possible that such scheme are put forward in an attempt to blind our citizens to the fact that we need tax reduction and fewer taxes-and not tax increases and new taxes. Overtax wealth-and you kill initiative, employment and industrial development. Overtax industry-and the consumer finds himself faced with rising prices and declining income. As a recovery measure, that looks like economic

#### CAR NO. 20

According to an advertisement of a large life insurance company, the driver of every 20th car will kill or cripple a man, woman or child before the year is over-if the accident experience of 1935 duplicates that of 1934. And statistics for the first six months of the year indicate that little if any progress has been made in curbing the dangerous driver.

Every driver should decide for the wheel of "car number 20." The decision is really within his power. He can drive carefully, in accordance with the law and good judgmenthe can keep his speed to reasonable levels, maintain his car in firstclass mechanical condition so far as safety devices are concerned, and work on the basis that it is better to give up his right-of-way than risk a trip in an ambulance. Or he can take chances-he can regard crowded streets and highways as playgrounds, where his reckless and adventurous instincts may be indulged to the full without regard for others or himself.

The laws of chance are immutable -and every motorist who is deliberately careless, can be certain that eventually he will come a cropper. He may get away with reckless acts a thousand times-the thousand and first time he will pay the price. Gambles with death always losethe dice are loaded before you start the game.

One car in twenty will be the cause of someone's death or maiming

#### COMPLETELY BUNGLED

It is easy to sit on the side line and criticize, but we believe that the relief situation has been as nearly completely bungled as any of he national problems. Relief ofices were closed over Texas last week with absolutely no provision or immediate future relief or work.

Several weeks ago The News carried on an extensive correspondence with the Texas Relief Commission rying to show the members that Northwest Texas was still in a bad way with a continued drouth and should not be treated like the remainder of the state where rains had fallen and work was beginning to open up for the men.

Nearly 200 heads of families in Randall county have been without go away from home to enroll in our work relief for three weeks, and none colleges and universities for the first Austin and in traveling jobs all over about as much difference in high tions have been forced to live on practically nothing. WPA is not home and awakened on Mars. So weeks to come, while the little petty officials scattered around over the state are trying to find out what it is all about.

There may have been waste in continued to send relief money directly into the counties, as the plan tions that it has now assumed. We you know, that sort of thing. are making this criticism after having been very closely connected with start, and having had a chance to

whip and spur, what else can you yourself. To fail to do this is to expect, Brother Warwick?

#### FEWER JOB HOLDERS?

than thou type of exponents, takes in the freshman year. for granted the Relief Commission is ty governments. Says The News:

#### McINTYRE'S BOUQUET

O. O. McIntyre, New York columnist, has a bouquet for the country press which he presents? in the following: "Much of the ery best stuff written in American newspapers reaches only a limited audience. This is because it is turned out for country weeklies and small town dailies. It is a pity that more of it is not syndicated.

"There are very few smart alec writers or exploiters of the personal pronoun among them. They write deeply, if impersonally, of the things they feel. They are interested and believe in the triumph of good citizenship.

"They run clean as the wind of their local streams. I commend to any newspaper reader fed up with shocking crimes, blackmail. careful perusal of their home lit by studying.

town paper. personals may offer a comic touch, but no more so than a city? te Miss Gwendolyn Smith-Park is singing hotcha songs in a decad-Lacey of the chorus walked a baby num leash."

for more districts to handle the task that the central government requires you don't believe in "wild parties" for the Works Progress administra- don't seek the fellowship of those tion. The approximate ratio is 2 to who do. This will save you plenty 1, but, even with this increased of embarrassment later on. There number, Director Adam R. Johnson are plenty of people on the campus concentrates his organization in 38 who have the same ideals in life that districts, instead of in 254 counties. you have. Seek good fellowship, at This is worth considering in com- the college church, in the classroom parison with the intricacy of county government in Texas.

"To be sure the direction both of work relief for employables and of state and federal emergency help for the unemployable is a quite different matter from the complicated business of governing citizens. But the controlling influence in setting up the relief machinery was the limitation on pay roll. It is regrettable that counties have not long since discerned the economies possible in consolidating county goverment into fewer offices and fewer job holders.'

As a matter of fact, where concentration and consolidation has been effected in the past, the result has been increased cost to the taxpayer and a governing power further away from the citizen who would be governed. It would be a good thing for the country if the publishers of The Dallas News and about a half dozen of their editorial strategy board had to return to the cotton patch to make a living for a few years to get their mental feet planted in the good earth once more. Our well-meaning big town leaders have gone coo coo. The News is a good example.

Efficiency, indeed, is needed, but efficiency can be practiced the same in Podunk as in Dallas with this very great advantage, that the Podunkers can drop in and look over their experts' shoulders when they want to do so .- Floyd County Hes-

#### SO YOU'RE GOING TO COLLEGE!

REV. GASTON FOOTE

Thousands of young men and women within the next thirty days will s in prospect for several weeks to time. And what a change it will ome. A small army is employed in make in their lives. There is just the state, every one of these persons school days and college days for the drawing good salaries while the poor average boy or girl as there would devils out in these little country sec- be in the environment of a man who went to sleep in his own bedroom at ready to go, and may be held up for you're going to college! That's great!

My advice in the matter is not paternal. I'll leave that sort of thing to your fathers and mothers. I can't even say I "know the ropes" many counties had the government for the ropes are different on different campuses. About all the ropes I know are those fixed to hang you. started, but we doubt very much But I will venture a few DON'TS and whether the waste could possibly DO'S to guide the "unsuspecting and in Harvard he made a brilliant recave reached the gigantic propor- gullible across the uncharted seas-" ord and was on the editorial staff of

Don't tell your new classmates what a "wow" you were in your the relief movement right from the hometown. Practically everyone that goes to college was a wow back in study it first hand .- The Canyon high school days. If you did make the winning touchdown, or rated the popularity page, or are the son or With politics in the saddle, riding daughter of the mayor, keep it to encourage jealousy and prejudice from the start. You are not judged taxes at all. Wheeler county rein college on your past history, but on your present record. A college is The Dallas News, one of our gov- one place in America where democernmental efficiency's sort of holier racy is actually practiced, at least

Don't get "chesty" just because going to save the relief funds a lot you are a "college kid." Rememof administrative cost, and uses the ber that even though you pass the dea to advance one of their pet first semester's exams you won't theories of county government, viz, know it all-for the latest definition to consolidate and concentrate coun- of an education is the knowledge of more and more about less and less. "The state director administering If you can just learn to drop the federal emergency relief finds a need slant of your nose so as to be able to see "the common man," you will have learned the first lesson the freshman year has to offer.

Don't make up your mind about everything the first three months. I knew a fellow who, after the first semester, announced to his parents that he was an atheist. It sounded big, but he, perhaps, didn't know the difference between atheism and asininity. Another friend of mine, after having been exposed to the freshman curriculum, announced that he was a Communist. He had not the remotest conception of the implications of Communism, but he agreed with one of the three hundred teachings of Communism and Communist he was. So don't jump at conclusions-you might slip and sprain your ignorance.

Now for the DO'S. Just because there is a lot of ballyhoo about foottheir native hills or the waters of ball, a college is "not a football stadium with classrooms attached." You are sent to college by your parents to study. If you appreciate law suits and Hauptmann trials a your parent's sacrifice you can show

Lastly, pick good associates. everywhere you go. And here's wishing you a good getaway in your journey to the halls of learning .-Pampa Advocate.

#### Our Exchanges

Items of interest culled from newspapers on The Times' exchange list.

The wheat crop this year was short, but that is all right; that is the way Secretary Wallace wanted it to be. He says we still have plenty of bread. Having bread is one thing, and having money to buy bread with is still another thing, Wallace .-Community Weekly.

The infant son born to Mr. and Mrs. H. M. Breedlove last night about 9:30 will be buried here some time tomorrow. Funeral arrangements have not been completed pending the arrival of his parents. The many friends of this popular young couple will regret exceedingly their great misfortune in the loss of their first born .- Donley County Leader Aug. 22.

No mere "soak the rich" program of taxation will ever collect enough money to meet the present rate of public expenditures. Every person will have to be taxed the limit above bare subsistence if we keep on spending money. Some have predicted that within the next five years the Inited States will enjoy the distincion of being one of the most heavily taxed nations of the world .- McLean

Discussion of construction of a large lake for Hemphill county above the Country club on Clear Creek, was entered into by the com missioners' court Thursday, at a meeting which was attended by a large delegation of Canadian citizens, representing the chamber of commerce and the local post of the American Legion. The commission ers' court went on record as willing to sponsor such a project. The pro posed plan for the lake includes the purchase of 320 acres of land across old Highway 33 right-of-way from the Urschel headquarters ranch house .- Canadian Record.

A visitor to Pampa for the next three weeks is Everett Willis son of Judge and Mrs. Newton P. Willis. Young Willis is well known in the Panhandle and is visiting friends and relatives here. While a student the Harvard Law Review. He graduated from Harvard in 1932 and is now connected with the law firm of Root, Clark and Buckner, in New York City.-Pampa Advocate.

Tax payers of this community might find some comfort in comparing their taxes with those of other counties, providing there is any comfort to be found in the thought of cently set their rate at \$1 with a valuation of 11 million dollars. The rate in Collingsworth county is 88c with a valuation of less than 7 million. In other words it costs approximately half as much money to operate the county government in Collingsworth county as it does in Wheeler county.-Deck in Welling-

A small twister, coming between 8:30 and 9 o'clock p. m. Friday did considerable damage on the P. F. Weidman farm, nine miles southwest of town, and left in its wake minor damages on the Chas. Bairfield place. The twister completely demolished a barn belonging to Mr. Weidman and the loss was estimated to be \$500. The barn was scattered over the Bairfield farm, Weidman stated .- Clarendon News.

Sooner or later, Oklahoma will find it necessary to license each car driver. With highway and street accidents becoming altogether too frequent, the next state legislature would do well to bring into active practice a uniform system of licensing that would give enforcement officers the backing they need to eliminate the worst violators from the roads. Oklahoma is one of 14 states out of the entire 48 that does not require some sort of driver's license.-Elk City (Okla.), Journal.

The Times very reluctantly admits that Texas is also one of the 14 states lagging in traffic regulation legislation.

"THE DEPRESSION" has taught us that modern civilization with all its worth-while achievements, is diseased. We know also that there are a great number of opinions as to the cause or causes of the disease, and a still wider variety as to the procedures which will effect a cure.

The present adult world, abandoned to its vulgar ways, seem to think its greed, dishonesty, and selfishness are justified because of the "progress" they have made or are making. But may we ask progress toward what?

If our progress in control over natural forces, is to lead to a civilization in which the highest aspect is to be found in material comfort for a class which can afford it, and its lowest aspect in the crude vulgarity of its recreations, we may well question whether progress has been made or is being made.

"In a time in which official corruption was never more arrogant nor human misery more appalling," to use the words of Dr. Lovett, it is high time we return to the teaching of the fundamental things which will assure lasting progress. One of these fundamentals

The disease of dishonesty can be cured by the serum honesty. It should be injected into the mind of the child at an early age, and frequent doses should be given every few weeks thereafter as long as the patient lives. These doses may well be given first in the home, because it is there the first principles of honesty are learned. When the child becomes enrolled in school the teachers, along with the parents, give the injections. Other organizations which help the home and school with the injections are: the church, the Boy and Girl Scout movement, and the 4-H club movement under the direction of the County Farm and Home Demonstration Agents.

Thus, it becomes the duty of each of us who are interested in the building of a lasting civilization to lend our support, both time and money, to the above mentioned organizations in order that we may grow a citizenship that will be free from the disease dishonesty.

#### RESOLUTIONS

We, the students and teachers, have resolved to make this year the 10 1/2 units accredited and by the end of the school term we intend to make it a fully accredited high school. Since we realize that it's going to take more than a little effort on the part of a few, we've all entered into our school activities with purpose and determination.

Did someone ask if we could do it by ourselves?

Why, certainly we're not going to, for we have five new high school teachers who are the most enthusiastic people we know of anywhere. If we don't fail, they won't lose their enthusiasm; so come on, fellow students, let's give three cheers for the

#### THE SCHOOL FACULTY

All members of the faculty of the Briscoe school this year are new, with the exception of two.

"peppiest" faculty in the county.

Mr. Dyer, our superintendent, will teach typing and salesmanship. Miss Owens will have charge of all the high school English. Miss Coney will direct the home economics department. Mr. Scott and Mr. Hale are also high school teachers. Mr. Hale will be the basketball coach, and Mr. Scott will teach math and science. Miss Scott, who has been with us the last two years, will teach high school civics and some subjects in the grades. Mr. Evans, who has been with us the last three years, is principal of the grades. Miss Day and Miss Hubbard are the primary

With this fine staff of teachers, we feel that our school will be the best in the county this year.

#### Good Enrollment in New Course

Home economics is being offered for the first time in the Briscoe public school, with a total enrollment of 49 girls. Much interest is being shown in this work, and it is believed that we have a program planned that will meet the needs of all girls enrolled in these classes.

It is supposed that the department will be completed and fully equipped for use at the opening of school after the cotton picking vacation. The home economics classes are now being conducted in the science laboratory.

#### LEWIS CAIN IS GIVEN A SURPRISE BIRTHDAY PARTY By Valoise Evans

Friday evening at 8:30 p. m. Lewis Cain was very much surprised by a group of approximately 35 young people rushing in with many lovely gifts for him. Ocie Pace and Georgie Cain entertained the guests with a number of interesting games

Refreshments of cake and punch were served and at a late hour all went home, wishing Lewis a happy birthday.

#### BRISCOE HIGH SCHOOL SENIOR CLASS MEETING

Tuesday afternoon at 2:30 p. m. the seniors of Briscoe met in room 1 to organize their class. W. V. Hale, the athletic coach, was chosen

The following officers were elected: Grady Dodd, president; Fay Wilson, vice president; Clyde Wadsworth, secretary; Joy Bill Riley, Fay Wilson and Lorene Treadwell were appointed on the recreational com-

# SCHOOL NOTES

The Briscoe school is progressing in fine shape. Everything is getting under way with a good beginning and we believe that we will have the best school possible for Briscoe to

The local school board is doing everything in its power to get the new building under way, and from present prospects it will not be long before we will have a building going up which will greatly relieve the congestion that now exists.

We are proud of the two new teachers who come to us this week. Elmo Scott, who will have charge of our science and math departments, is certainly working hard in these departments.

William Varnell Hale comes from Lubbock. Hale will be our basketball coach, and from all accounts we believe he will get the job done as it should be. Hale is a four-year varsity man from Texas Tech. Last season he was not permitted to take active part on the Texas Tech. team; therefore it was possible for him to officiate at most of the tournaments in and around Lubbock. He comes Miss Purdue of Childress, Mr. and highly recommended as an official Mrs. Red Troxell and Mr. and Mrs. parents, Mr. and Mrs. W. B. Wilein the major sport.

The Briscoe school was delightfully entertained Wednesday morning by Virgil O. Stamps and his helpers, who have been conducting a music school in Shamrock. Many parents from Abilene, where he attended and patrons of the school were present at this program.

#### New Electric Clock Installed

The Briscoe school has been greatly benefited by the installation of a most enthusiastic and best school large electric clock. This clock rings year ever known here. We now have every 45 minutes, thus giving an equal amount of time for each per-

# My Trip

We left Borger on Saturday about 8:00 a. m. for a fishing and sight villages, mostly inhabited by Mexicans who glared over how the huge dragon-like Chrysler was supplied with water and oil. Many of the places held a western air which I hungrily took in. The rail fences, adobe houses, lovely flower gardens and clear cold water were all strangely beautiful.

We arrived at Cimmaron, N. Mex., about 3:00 p. m. when we saw white fleecy clouds engulfing the high mountains. I could see it raining in the blue-purple canopy which made everything look so unbelievable that I some how wondered that if some one pinched me I would find myself back at Briscoe among the hot winds and sun scorched lands. For it seemed that in answer to our wishes it began to rain while we lunched in the gorgeous Cimmaron canyon. A short jacket proved to help matters in the cool atmosphere of the Mexico mountains.

Then Eagle Nest Lake was simply beautiful. There a 4-lb. rainbow trout was unlucky when he grabbed an artifical fly and supplied a swell meal. It is utterally impossible to try to put into words the lovely lake stretching ribbon-like below the towering gold and silver mountains. We were ready however, after smaller 31/2 lb. trout was caught on Sunday, to leave for Colorado.

We saw many old gold mining camps, some deserted, while others were still inhabited. We were glad to descend the narrow winding road of Red River Pass which was nine notches to the bottom and at the foot could be seen a lazy little settlement of a purely mountaineer

We arrived at Alamosa, Colo., Monday, where we lunched and left the town which appeared to be principally settled by Spaniards and Mexicans. Then to a more westernly place where the cowboys and "outlaws" have their annual "Stampede," Monte Vista. We saw only one sawmill, and it was at Clear Fork, it seemed that it was useless because most of the buildings were made of

On the lovely clear Rio Grande were growing some thriving truck patches consisting of potatoes, cabbages, peas, beans and lettuce. Then the Colorado mountains. They were simply scenes which cannot leave one's mind. The Wagon Wheel Gap was in among pines and blue spruce trees; it was more than beautiful just a nest enclosed by mountains.

Creede is another little town with his nephew, W. E. Pennington want to mention, because it was so ters while Mr. Pond and Mr. Waldo and family, for seven months, left queer yet so attractive; it is a coal Wednesday for a visit with relatives mining town situated at the bottom in this town; to it was as far as the

railroad went. So many tourist were coming in that it appeared, for awhile, impossible to find a cabin; however, we drove about 30 miles

west where we found one's paradise. Up in one of the mountains, which served as the wall on the north for seeing trip to New Mexico and Colo- our camp, was an old crater which rado. We passed many picturesque proved to furnish many nice trout if one is of a mind to ascend it. At any rate we had several nice dinners of large steelhead, rainbow and speckled trout. We were reluctant to leave a week later, but started home with enough fish to last a week. I will refer anyone, who wishes a cool pleasant vacation, to Shirley Wills, the proprietor of the S S Dude Ranch. He is a reliable "cowboy" who will enjoy your visit and is in for a jolly good time.

I will not hesitate to mention those responsible for my georgous and educational trip, my uncle and aunt, Mr. and Mrs. E. L. Keith, of Borger,

HERE'S REAL **PROTECTION** 

NEW METHOD

If you wear glasses, or expect to wear them, your choice is probably the inconspicuous rimless type. Insist on Loxit Screwless construction for your rimless glasses. This new structural principle safeguards rimless against frequent lens breakage, caused by tight screws-and prevents loose, wobbly lenses.

#### SUBMISSION OF PWA PROJECTS URGED TO PROVIDE EMPLOYMENT FOR NEEDY

Need for Prompt Action Stressed by State Administrator H. P. Drought

Texans face the challenge of President Roosevelt and of 147,387 of our own destitute citizens asserts H. P. Drought, state administrator Works Progress administration.

"The federal government must and will quit this business of direct relief," President Roosevelt has de-

"We are tired of living on the dole. All that we ask is a chance to earn a livelihood." Certainly, that would be the sentiment of the vast number of Texans now being given relief allotments in lieu of work were their numbers polled to-

Works Progress administration has been organized and has started operation in Texas for the essential purpose of giving jobs to every employable man and woman now registered on the relief rolls of the state. We have been allocated more than \$50,000,000 to expend toward the dole in every county and city in

That vital task has been placed squarely before WPA by the national administration. Our responsibility is yours in the counties and towns of Texas. We have the money to spend, you have the needed work projects and yours are the men and women who must have work.

Your task, and it is one which must be performed at once, is to decide how money may be spent to provide jobs for the largest possible number of unemployed in your district. The double incentive of providing work for the jobless and of securing needed public improvements of permanent benefit to your community is offered by WPA.

Necessity for speed in suggesting projects is justified by advice from Washington authorities that not nearly enough proposals have been presented at national headquarters. Thus admonished, every state will be striving to gain precedence for its program. Texas had presented a mere three and one half millions in works proposals for federal improvements at the end of the week of Aug. 17. We are anxious to have 20 million dollars in projects in the hands

f federal examiners by the end of his month.

Our state is peculiarly adapted, due to physical advantages, to such ambitious projects as lateral farm- lifted" might well be applied to that to-market roads. Too, elasticity of of Mr. and Mrs. J. C. Tinsley, who project requirements makes it easy live six miles east of Shamrock. They to find many types of needed improvements to which WPA energies five rooms and refinishing two with may be devoted. With proper co- paint. The woodwork was all paint operation from our political subdivi- ed. To be in keeping with the rest sions, any of which may participate of the home, the furniture needed a in the program, this state can forge new coat; so two beds, three dressfar ahead on the federal allotment

This opportunity for states, counies, and cities to get permanent, fraction of the cost may not arrive future. again. No county in Texas is so 'broke" that its paper would not be accepted by practically any materials lealer in the state. Construction over a period of years, so that the burden would not be too heavy.

munity is limited, in most instance, only by the number of unemployed your project will put to work. We are restricted only by the necessity of receiving the equivalent of one year's work for one person for each \$600 spent.

Twenty district WPA offices have been set up in strategic locations. Wednesday, August 14. over the state of Texas. Counties have been urged to set up planning boards for the study of project potentialities. It is the duty of every civic-minded person and organization in the state to present ideas to these groups. They are anxious to serve their sections, they are interested in surveying any proposals submitted, and they are dependent upon the people of their districts for help in choosing the types of projects best fitted to the needs of the locality.

In line with federal policy, we must pursue a first come-first served course in approving projects. We must earnestly urge, therefore, that sponsors exercise all possible haste in submitting their projects. It cannot be emphasized too strongly that those sponsors who delay submitting proposals in the hope of getting a higher per man-year grant will be doomed to disappointment and will be jeopardizing the chances of their own unemployed to get jobs.

Drastic curtailment of FERA allotments scheduled for Nov. 1 will place the burden of caring for our own needy upon the counties and cities. Utilize the facilities of WPA and you will have jobs awaiting those persons when their relief grants are discontinued. Procrastinate and you will hazard your own chances for reaping the benefits of worthwhile public improvements and you will be ignoring the plea of your destitute neighbors who await an opportunity to remove themselves rom the morale-shattering influence

#### CLUB NOTES

Happenings of Interest by and for Home Demonstration Club Women of the County.

"No one will ever know just how much I enjoyed my trip to Short Course," said Mrs. Perry Riley, President of the Briscoe Home Demonstration club in giving her report o the women of that club at Briscoe, August 20.

"I had never visited in that part of the state but always hoped to," said Mrs. Riley. "The tall pines and the beautiful, gray, hanging moss children of Mineral Wells, and their were pictures of God's handiwork to aunt, Mrs. D. A. Battern of Milsap, be long remembered. I just hope that everyone here will some time ter and niece, Mrs. Floyd Penningtrip I so much enjoyed." Mrs. Riley concluded her remarks with a discussion of different demonstrations and lectures it was the privilege of the delegates to attend.

A score card to be used in the selection of a Short Course delegate for 1936 was submitted and discussed. It will be voted upon next neeting in September.

That her budget card will be filled completely is shown by the fact that Mrs. Holt Green, pantry demonstrator for the Twitty Home Demonstration club, is making a good start by having canned already 276 quarts of food. She has left over from last year's supply 2121/2 quarts, which pantry 488 1/2 quarts canned foods. She has also added 84 feet of shelv-

These shelves are placed in seven rows, 12 feet long, around the pantry walls. They are painted white and the food is arranged on them in classes for convenience. To build these shelves, \$7.00 was spent for

lumber and \$3.00 for paint. The 276 quarts canned this year are made up of 36 quarts peaches, 40 quarts apples, 29 quarts wild plums, 131/2 quarts tame plums, 5 quarts grape juice, 13 quarts pears, 1 pint pear juice, 1 pint pineapple, 2½ quarts cherries, 10 quarts pickled peaches, 6 quarts cucumbers, meat, 2 quarts apple preserves, 2 with his family as he had planned. pints watermelon preserves, 6 pints Mr. and Mrs. Otis Ford, Mrs. C. F. pear preserves, 9 quarts plum but- Ford and Mrs. Bill Perrin accomplum jelly, 6 quarts apple jelly, 3 that night.

pints peach jelly, 4 quarts grape jelly, 32 quarts peas, 24 pints beans, 18 pints corn, 13 quarts and 19 pints of four varieties of greens, 1 pint mountain trout fish and 2 Many, many years ago quarts cucumber relish.

"The home that has had its face began the renovation by papering ers, one desk, one book case, one chest of drawers, one cabinet, two tables and the bath tub were all re finished. Mrs. Tinsley plans to re lasting improvements at a minor finish the light fixtures in the near

Mrs. Tinsley is farm food supply demonstrator for the Three Leaf club. She has also entered the Centennial contest sponsored by the exmaterial costs may easily be spread tension service and the Dallas News.

"Never in all the history of my WPA'S expenditure in your com- life, have I enjoyed a trip so much nor learned so much and found that there was so much to learn as I die on my Short Course trip this year,' was one of the enthusiastic remarks home of Mrs. Charlie Homesley, bined credit 10,259 cans of food.

No business was conducted, as several members were unable to attend on account of sickness.

Those present were: Mesdames Mary Usrey, Clyde Merrick, Floy Mixon, Josie Sanderson and the hostess, Mrs. Charlie Homesley.

Mrs. R. D. Underwood gave a report on the trip to Short Course to members of the Busy Bee club at its neeting in the home of Mrs. J. T. Crowder, Thursday, Aug. 15.

Mrs. Roy Esslinger, Mrs. J. H. Richards and Mrs. J. E. Willard were appointed on a committee to go to Shamrock and arrange products for the fair, Sept. 6-7.

After business meeting dainty rereshments of ice cream and cake were served to Mesdames C. C. Robison, C. M. Hampton, J. B. Crowder, C. C. Gaines, H. H. Herd, J. M. Burgess, R. D. Underwood, Roy Esslinger, G. B. Roper and J. E. Willard.

The next meeting will be on Sept , with Mrs. J. B. Crowder.

#### Tri-State Fair Will Be Largest In State

Entertainment and Educational Features-\$15,000 In Cash Premiums

When the Tri-State fair opens, Saturday, Sept. 14, in Amarillo it will be the largest exposition in

For several years the fair has ranked second only to the Dallas fair, which this year was postponed on account of the Texas Centennial.

Long ago the Tri-State fair became more than its name implies. Primarily it serves the Panhandle-Plains of Texas, parts of New Mexico, and Oklahoma. But the exposition is recognized by major circuits and exhibitors are attracted from many other states.

Foremost breeders of livestock enter herds each year for Tri-State fair prizes. Some of these herds come from Oregon, Wisconsin, Illinois and other distant states. The Hereford show of last year was the third largest in the United States.

The fair association, headed by Wilbur C. Hawk for the second consecutive year since 1931, offers and guarantees payment in full of more than \$15,000 in cash premiums for exhibits. In addition to livestock, agriculture, art and industry will have complete entries. Each year cities in the Tri-State fair territory send large delegations and bands to the exposition.

General admission is free and all exhibits are open to the public. Entertainment features this year will be varied enough to suit every amusement taste.

Fairs are educational, but men, women and children go to have a good time, too, and so the fair management has made arrangements for two daily circus performances, for the largest midway attraction in the United States, for daily horse racing with legalized wagering and for many other entertainment enterprises.

The Bailey Bros. and Harley Sadler three-ring circus, purchased just recently by the well known West Texan, will stage a mile long street parade every other day during the fair. The Beckmann & Gerety Shows will come to Amarillo direct from Detroit for the midway engagement.

Mason King, racing director, reports more and better entries for the fall race meet, which starts Friday Sept. 13-one day before the fair. O. L. Taylor again this year is secretary-manager of the fair. The 1935 exposition will continue to and including Saturday, Sept. 21.

#### BRING FARM PRODUCTS TO TARTER BY SEPT. 10

nounces that all farmers who wish parade was staged early in the eveo enter agricultural exhibits at the Tri-State fair, Amarillo, should bring or send same to his office by Sept. 10. This is the latest possible date

Richards, Ernest 18, and who lives within two miles Dyer, Roy Esslinger, G. O. McCrohan, Lee Guthrie, Denver May, E. Dinner was spread picnic style on W. Carter, Raymond Waters, J. N. W. O. Puett, Amos May, Jim Risner, M. L. Gunter, C. R. Weatherly and Miss Helen Flynt.

#### CLUB PRODUCTS JUDGED

Preliminary judging of club products for the county fair was held at a meeting of the Wheeler Home Demonstration club Wednesday. Mrs J. M. Porter was supervisor of the judging.

A club exhibit committee, composed of Mrs. J. M. Porter, Mrs. T. C Newkirk and Mrs. Lula Mae Farley was named by the president, Mrs Jim Risner.

An attractive refreshment plate was served by the hostesses, Mrs. W. I. Joss and Mrs. M. C. Jaco to Mesdames J. M. Porter, Jim Trout Jim Risner, T. C. Newkirk, A. L. REBEKAHS TO WELLINGTON Bean, Lula Mae Farley, O. Sandifer and a guest Miss Evlynne Irons of

#### JOHN TARLETON COLLEGE PLANS OPENING SEPT. 16

Registration at John Tarleton college, Stephenville, will be Monday and Tuesday, Sept. 16 and 17, according to information from J. Thomas Davis, dean. Classes will ter, Mrs. R. L. Newbern, and Mrs. start Wednesday, and on Saturday, Harry Wood and family. They are ept. 21, a formal opening program will be given in the College auditorium at 9 o'clock.

Receptions for all Tarleton students will be given by college offi cials and by various Stephenville churches shortly after school opens.

According to information from Dean Davis' office, Wheeler has sent valuable students to Tarleton within recent years. Grainger Mc entral and north Texas to give their Ilhany and Thomas O. Wood were students at Tarleton last year. Other Tarleton "ex's" from Wheeler are Joe K. Clark, Hayden R. Duke. George W. Porter, Glen Porter, Gordon Stiles and T. P. Tidwell.

#### FURTHER CUTS PROPOSED IN STATE RELIEF SETUP

Sounding another reminder that the days of "relief business" in Texas are numbered, a special communication from Austin announces that the Texas Relief commission has informed district administration offices that the school lunch program which last year aided in providing lunches for 51,000 children weekly, will not

Following up repeated suggestions that citizens look to their own resources, officials have urged that Parent-Teacher associations, men's and women's service clubs, church societies, and other organizations continue the school lunch program in communities where it is still need-

"With our funds definitely limited, we would not be justified in making plans for a year's program for needy school children when we probably could not carry it out,' Mrs. Val M. Keating, director of Social Service, said in recommending that private, local organizations continue the lunch program.

Last year the Relief commission sponsored projects in 94 schools.

Mr. and Mrs. Bill Christian and daughter, Barbara Jean of Durham, Those attending were Mesdames Okla., came Tuesday to visit relathat night.

### Items of Personal and Local Interest

Mrs. George Porter and Mrs. Bill John Porter of Shamrock, was in Perrin motored Friday to Pampa.

Mr. and Mrs. J. E. Clay of Twitty, ere in Wheeler Monday on business.

# Old "General" Arrives

"General Who?" Why, General Rain, the principal subject of conversation in these parts for several weeks. Even after a detachment of his private troops (good, but scattered showers) arrived Sunday afternoon, followed by reinforcements during the next day or so, still folks would cast a weather eye aloft and murmur: "Wish we could get a good general rain."

Well, that "general" rain has arrived and a better outlook is apparent already.

But do you know, this cooler weather is going to call for an increased grocery supply of more substantial nature than the "finicky" eats of extreme hot weather?

And that's where we come in. Now along with other arrivals, we want to call attention to the choice fresh groceries arriving at this store every few days. The quality is right . . . the price is OK . . . and a call will bring us in a hurry with just the things you want.

No prices quoted here this time . . . but an urgent appeal is made for you to come in and see the many attractive items ready for your choosing.
