# PIONEER CELEBRATION NEXT WEEK

### Legion Sponsoring **Big Wheeler Picnic**

Two Full Days of Rodeo Events-Carnival Opening on Monday Morning

Preparations for Wheeler's big American Legion Pioneer Celebration, dated for all next week, are complete. So stated Dr. H. E. Nicholson, chairman, and other committee members today. With a good carnival aggregation opening on Monday, a full week of fun, entertainment and amusement is promised Wheeler citizens and visitors.

The week's celebration is scheduled to culminate in two days of exceptionally high quality entertainment when the big rodeo swings into action. Absolute guarantee of wellmanaged programs is assured by the engagement of Beutler Bros. of Elk City, Okla., as arena directors. Wherever rodeos are known in the Southwest, Beutler brothers stand high in esteem of patrons.

In addition to their personal work in directing the numerous events, Beutler brothers are also furnishing Popular Panhandle Man Responds considerable stock and equipment. Some of their famous outlaw horses and bulldogging steers will be seen in the arena from time to time.

Other wild and wooly livestock is Clint Small. being obtained from the Bowers ranch, noted for its production of

bulldogging, calf roping, wild cow milking and other stunts usually found at a good western roundup. First, second and third prize money is to be paid in each rodeo event, based on a percentage of entrance fees. Some good money is promised.

Referring again to the carnival attraction, which will be located in the city park amid towering cottonwoods, where cool shade and clean grounds are available, mention should be made of the Dudley Shows organizasix rides will be found ready to interest and amuse young and old.

Pioneer celebration week in Wheeler has been introduced through a series of events, mostly dances held at the American Legion hall, where large crowds have found genuine enjoyment: Next Wednesday night is the date for another of the dances. Good music has been a feature of

these functions. From the careful plans that have been made for the entire week's program, visitors may come to Wheeler any day and evening next week expecting much and not be disappointed. Especially is this true of Friday and Saturday, the two big rodeo days.

# Passes Away Tuesday

J. M. Grigsby Dies at Mineral Wells -Was a Montague County Pioneer

Many friends and acquaintances throughout Wheeler county will regret to learn of the death, on Tuesday, of James Milton Grigsby, former county judge here. Grigsby died at Mineral Wells where he had gone from his home in Perryton six months ago in hopes of regaining his health.

Deceased was a Montague county pioneer, where he was admitted to the bar at the age of 21. He was judge of Ochiltree county for 10 years, besides serving Wheeler county in that capacity for six years. He was married at Mobeetie in 1889 to Miss Lilly Bowers, who survives him. She is a cousin of I. N. Bowers of Wheeler.

Surviving children are two sons, Clyde Grigsby, Chicago, and Leonard Grigsby, Yale, Okla.; three daughters, Mrs. J. C. May, Perryton; Mrs. Tom Carver, Canadian, and Lurline Grigsby.

Funeral services were held Wednesday, with burial in the Montague county cemetery.

Famous Trained Horse Coming to Wheeler Rodeo on Friday-Saturday

Directors of the rodeo celebration here next week announced late today that arrangements have been made to show Steffens' Wonder Horse, Red Comet, as a special attraction on Friday and Saturday, June 19 and 20.

Accoutred in a thousand dollar saddle, ornamented with gold and silver work and semi-precious stones, and a bridle valued at \$150.00, Red Comet will demonstrate what a horse can be taught to do. His owner and trainer is L. C. Myrick, salesman for the Steffens company.

He has appeared recently at the Clovis, N. Mex., celebration, also at Pampa.

Later in the season this wonder horse will fill a 20 days engagement at the Texas Centennial in

### Wheeler Test Well Gives Oil Showing

Small Deposit Uncovered Tuesday at 3,768 Feet After Water Is Shut Out

Finally succeeding in their efforts to shut out water which had been hampering development for some time, drillers at Porter No. 1, Wheeler oil test well 61/2 miles south of town, uncovered a small deposit of oil Tuesday. A negligible amount of gas was found with the oil, which rose about 500 feet in the hole.

Further drilling into what appeared a favorable formation failed to increase production. The layer of lime and sand, alternating, was about 12 feet in thickness. After passing through it today, a small amount of water was encountered, not enough to materially interfere with further drilling, now in progress. For two weeks, crews pounded steadily away in their efforts to underream for the 81/4-inch casing and set it on a footing that would keep the water out. Some obstruction, apparently a projecting boulder in the hole, was removed and the pipe seated Sunday evening.

# Word of Appreciation

It is with a sense of deep appreciation that we take this method to thank the many customers and friends who have seen fit to patronize us during the past 10 years while we operated the Lewis Cafe in Wheeler.

To you good people whom we had the pleasure of serving in any capacity, we say thank you. We shall retain pleasant memories of our associations during the years and should it again be our fortune to engage in some phase of public service, we shall look forward to a renewal of these associations.

#### YOUNG FRIEND, WHAT NEXT?

When your high school days are over, you begin looking about endeavoring to decide what to do next. You have perhaps thought of studying medicine, law, theology, or some other four year college course. Can you finance yourself for four years in college? If you could, would you want to do so since you find the profession over-crowded? Even the teaching profession is crowded so that thousands of teachers cannot secure schools. With these perplexing problems before you, why not give serious thought to preparing yourself for a good position in a business office where you can earn a good salary, learn your chosen line of business, and some day become an outstanding business man or woman in your county. It only requires a few months and a small outlay of money to qualify in Byrne Commercial college. There is a demand for Byrne college graduates; over fifty thousand have been Byrne-trained. Almost a hundred graduates have accepted employment since the first of the year. Fill in and, without obligation, receive full particulars. Post graduate work and employment service for W. E. Sheegog transacted business those who have had commercial work in high school.

Her own father had carried on the tradition of his fathers. When, in 1858, he married the beautiful Julia Stratford from Scioto, he made her a wedding present of the weatherboarded wing, the weaving room overlooking the garden which Cynthia had left that afternoon, and the twostory porch with the ornamental banisters across the front of the house, all done by hand on the Wolfpen property.

When it was finished there was no better house in the Big Sandy Valley, outside of Pikeville or Prestonsburg, and it established for the remainder of the century the architecture for that district.

### But You Might as Well, for We can Produce the Proof of this Incident

Illustrating the appeal and value of advertising in The Wheeler Times, both to reader and merchant, was an incident occurring at this office Saturday morning.

A rural subscriber stepped in and asked to borrow a copy of that week's issue of the paper for a few minutes, stating he had failed to make up his grocery list from the advertisements before leaving home.

Spreading the paper out on the counter, the man went through it. checking prices in the various grocery store advertisements and making a list of what he wanted to buy and where he would get it.

This one case alone should prove to the thinking Wheeler merchant that advertising expenditure—in a live newspaper—is a real investment capable of paying handsome returns. A service is rendered the prospective buyer when acquainting him with merchandise values and affording an opportunity for comparison and intelligent selection of the items needed.

The home town newspaper, even if operated on a charity basis, justifies its existence through the service it performs. Without bias or prejudice, it can be safely said that no other agency exerts the influence for community good and progress as does your local newspaper—the only newspaper in the world that is interested in the welfare and development of Wheeler.

#### Forrester Talks at Townsend Club Meet

Local Attorney Presents Strong Argument Favoring Plan Tuesday Night

Wheeler's Townsend club No. 1 met in regular session at the district court room here Monday night, with a small number of interested members present. So reports J. D. Merriman, president of the club, who gives the following outline of the main address, delivered by R. H. Forrester, local attorney

"After repeating the six provisions in the preamble of the constitution, the speaker proceeded to expand each of these provisions, stating that the constitution was the product of the most profound thinkers of that day and they had laid the foundation well. They had formed a more perfect union; they had established courts to administer justice; they had power enough to insure domestic tranquility; they had adequately provided for the common defense with a great army and navy; they attempted to provide for promoting the general welfare but were not farsighted enough to succeed.

"Conditions today render a change in our financial system necessary. Either the Townsend plan or something similar to it must be put into operation in order to secure the blessings of liberty to ourselves and our posterity."

The address was heartily applauded and the speaker invited to appear before the club again at a later date.

The next meeting date is Monday AUSTIN ADVERTISING DANCE night, June 22, at which time the public is welcome to attend and learn of the movement.

### **BISMA-REX**

It's a fact that people who try Bisma-Rex for acid indigestion seldom shift to any other antacid. It satisfies them. They like the fast, prolonged relief it brings. They like its pleasant flavor and the way it saves money for them. Try Bisma-Rex yourself.

**FUNGI-REX** and REX-SALVINE

Apply Fungi-Rex for one night; Rex-Salvine for three nights. Fungi-rex quickly soothes itching and loosens infected skin cells so that its fungicidal action may reach underlying germs. Rex-Salvine by its protective action aids in restoring normal skin.

We especially invite the public to visit our store on a hot day and see how cool and comfortable it is. An ideal place to stop for a rest and enjoy delicious refreshments from our fountain. When hot and tired, drop in for a while, whether you want to buy anything or not-you're welcome.
