TODAY'S THOUGHT: "A babe in the house is a well-spring of pleasure, a messenger of peace and love, a resting place for innocence on earth, a link between angels and men."—(Tupper)

"Trippie" Moore has a little brother... George Richard is his name, and it was a great occasion for all of us here at the Telegram—more especially, of course, for Dad Virgil and Mother Frances, to say nothing of the thrill experienced by little "Trippie" as he anticipates playing with that cute little born Friday afternoon at Eastland Memorial Hospital.

For some while, Virgil waited patiently, to see whether that signal light at the hospital would blink blue or pink—and it finally gave the blue tone, that, of course, being for a boy... They tell us Dr. Jim Whittington put those interesting lights in, and they've notified many a dad whether his offspring was a boy or girl.

While there to visit Frances and the baby, and to look in on another good friend, Mrs. John D. McRae who had sprained an ankle in a fall, this writer and his lady took the occasion to roam about the hospital. It's a fine institution and this community—whose citizens erected it—most certainly have a right to be deeply proud of Eastland Memorial Hospital. Welfare of community health is tremendously important!... And such an attractive place it is, too.

Back to Blessed events: Our friend Frank N. Sayre and his wife have three youngsters and he correctly predicted in each instance whether the baby would be a boy or girl. However, Frank smiles and says: "I want to hasten to say that I certainly do not pose as any forecast."

A little civic chore we all should have taken care of by now: Joining the school-recreation-sponsoring Eastland "Quarterback Club."

Considerable cloudiness and a windy Saturday and Sunday; cooler Sunday with possible showers; high Saturday 73 and low Saturday night 50.

Front Loses Punch; Rain Forecast Here

A warm-up process began in Eastland County Friday as a cold front that was forecast to drop the temperatures to around 20 here Thursday night fizzled, and lost punch near the Oklahoma-Texas border.

However, the weather man said that continued cloudiness would follow over the weekend with some winds and possible rain Sunday with cooler temperatures.

Low Saturday night will be around 50.

In other parts of the nation the front had not lost its strength. The frigid air from the Arctic blanketed the nation's mid-section from the Canadian border down to Texas, bringing with it sub-zero weather.

PROCLAMATION

GREETINGS:

The greatest source of assurance for the future of the American way of life is our Public School System, which enables our youngsters to become familiar with the magnificent history of men and events which has made our Republic the most powerful, respected and favored country the world has ever known.

The public schools provide the tools of knowledge which will equip our young men and women to become constructive and responsible citizens in this land of freedom.

We have a great responsibility to maintain and advance the ideals and standards which our people have come to expect of their public schools. We must keep pace with the growing needs of our schools by providing new classrooms, improved methods, and by encouraging loyal, able, qualified men and women to adopt teaching as a lifetime career.

THEREFORE, I, as Governor of Texas, do hereby designate the week of March 7-12, 1955, as Public Schools Week in Texas and urge every citizen to visit at least one public school during this period and to become personally acquainted with the programs and accomplishments of our educational system.

Allan Shivers, Governor of Texas

Voting For The Best

Quite often we grow to thinking about the need for a more conscientious electorate.

Now it is a fact that, at times, it is a temptation to vote for someone because of some particular personality attribute.

And it's all right for such qualities to figure somewhat incidentally in the picture—but in the final analysis we should be interested enough in the welfare of our governmental agencies to cast a vote for the BEST person for the office.

All too frequently insufficient regard is held for QUALIFICATIONS.

Now while the ballot is secret, it seems to us that—quite definitely—each of us is placed on his honor to vote honorably and conscientiously.

The sooner all of us feel that way about it, the better the official family will become.

IT'S THE LAW
in Texas

TRUTH AND RELEVANCY

The tests of truth and relevancy which courts apply are stricter than those which we use in daily life. As a rule we don't put a man under oath. We don't cross-examine him if his story fails to hang together. We don't jail or fine him if he lies to us. But we do these things in court.

Why is that? Because we think each thing that takes place in a courtroom is important. Your property, your personal or civil rights—even your family's welfare or your life or liberty—may rest upon the truth of testimony in court.

Eager as courts are for facts, their tests fall short of those of science. When a scientist doubts the outcome of an experiment, he need not rely upon somebody else's word. He just repeats the experiment in question.

But not so in court. The acts told of in courts cannot be lived over again, for the court to see first hand. For example, you cannot bring back and ask a dead man whether he signed a will or whether the accused killed a man. We cannot re-do a murder; we can only get the witnesses to tell what they know first hand.

To protect each party, there are at least two safeguards: (1) we put the witness under oath on pain of penalties for lying; and (2) we cross-examine the witness.

Lawyers may seem always to be objecting to testimony. They have duty to their clients and the

court, to see that the judge and jury hear only what is true and relevant under the law.

If a lawyer protests, the judge may rule out some kinds of facts and tell the jury to ignore them. Sometimes too, some facts seriously break the rules of evidence. Then the judge declares a "mistrial" and orders a new trial.

He does this when the testimony is so unfair as to put the rights of the accused in danger. He does this also to protect the public.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the application of the law.)

Budget Hints

A frozen fruit or juice of your choice, along with liquid or powdered fruit pectin, will help you fill your jelly shelf in a jiffy—so why not treat your youngsters and their pals often to a batch of these "jelly drops" as a party idea. Just spread crackers with the delicious combination of shredded coconut and a favorite home-made jelly.

You can keep window curtains clean for a longer time by scrubbing dirt from the outside window sills. Use very hot water and a stiff brush well lathered with thick soapuds.

Chicken pineapple provides a welcome change, yet is simple to prepare. Allow 3/4 pound broiling chicken per person. Split chickens down the back, and cover with pineapple juice for one hour. Drain, then brush with melted butter. Sprinkle with salt. Arrange skin-side-down on greased, pre-heated broiler rack and place four inches from flame. Continue broiling for 15 minutes more, beating with butter until tender. Serve with sliced pineapple browned in butter.

Rarebit With a New Look

Sea fresh shrimp, cheese and the faint suggestion of tomato flavor blend tastily in this new way to make a rarebit. Using canned tomato soup saves precious minutes and it doesn't take long to add the other ingredients. This rarebit is quick to prepare and unusual too! It's a perfect dish for your next buffet supper.

SHRIMP-CHEESE-TOMATO RAREBIT ON FLUFFY RICE
Tossed Vegetable Salad
French Dressing
Hot Pecan Rolls
Lemon Meringue Pie

INGREDIENTS:

- 1 cup uncooked white rice
- 1 teaspoon salt
- 2 cups water
- 1, 10 1/2-oz. can condensed tomato soup
- 1/2 cup milk
- 1 lb. American cheese, grated
- 1 teaspoon salt
- 1 teaspoon prepared mustard

- 1 teaspoon Worcestershire sauce
- 1/4 teaspoon paprika
- 2 cups diced, cleaned, cooked shrimp

METHOD: Put the rice, 1 teaspoon of salt and water in a 2-quart saucepan and bring to a vigorous boil. Turn the heat as low as possible. Cover and leave over this low heat for 14 minutes. Remove from heat, but leave lid on 10 minutes.

While the rice is cooking, heat the soup and milk in a saucepan over a low heat. Add the cheese, salt, mustard, Worcestershire sauce, paprika and shrimp. Stir until the cheese melts. Serve the shrimp-cheese mixture from a chafing dish or candle warmer. Serve the rice in a separate dish. Spoon servings of the shrimp-cheese mixture over servings of rice. Or spread the hot rice over a hot platter and pour the hot shrimp-cheese mixture over the rice. Garnish with whole shrimp.

This recipe makes 8 servings.

(Editor's Note: This is another in a series of articles prepared for farm families by R. R. Tuley, Jr., District Manager of the Social Security Administration Office in Abilene.)

Most farm operators will be affected by social security in two ways, beginning January 1, 1955. We have discussed how he will determine and report his own income for social security in previous articles. Today, we will endeavor to explain his responsibility concerning his hired farm laborers under the social security laws.

The law provides that any farm worker, whether he be outside the farm home or inside, who is paid as much as \$100 in cash wages in a calendar year is covered by social security and such wages must be reported by the farm operator. There is no other test except the receipt of \$100 or more in cash wages. These wages are taxable, 2 percent to be collected by the farmer from the worker when he is paid and another 2 percent to be paid by the farm operator when the wages are reported to the Bureau of Internal Revenue.

This means that Farmer A must deduct two cents from each dollar of cash wages earned by his hired help; must obtain each worker's social security number and full name from the worker's social security card; and, must report these numbers, names and amounts of wages paid each worker to the Government through the Bureau of Internal Revenue, periodically.

Farm Bureau Opposes Return To Rigid Government Price Supports

WASHINGTON — President Charles B. Shuman of the American Farm Bureau Federation said today that Farm Bureau opposes any return to rigid government price supports on basic commodities.

In a statement prepared for a House Agriculture Committee hearing today, Shuman said it is Farm Bureau's conviction that farmers' incomes will be kept at the "highest possible" level if "we allow opportunity" for the price system to work.

Should Farmer "A" hire a hand and be uncertain whether or not the hand will receive as much as \$100 cash wages, he is permitted to deduct the tax from the hand's wages, anyhow, and, if less than \$100 is paid, give the tax back to the worker when he leaves Farmer A's employment.

This coverage of farm labor is compulsory on both the farmer and the farm worker. Forms on which the reports are to be made will be furnished by the Bureau of Internal Revenue, along with instructions on how to complete the forms. Your social security office will also assist you, if requested.

Completing and mailing the coupon below will bring you even more details on just what this new social security coverage will mean to you and your family.

Mr. and Mrs. T. H. Schroeder and daughter, Kathy, of Oleta, Kansas, visited Mrs. Nora Stiles Wednesday. Mr. Schroeder formerly was connected with the late W. A. Stiles in the oil business in Eastland.

FAIR WEATHER FOR JAPAN—Members of the air arm of Japan's Self Defense Force prepare to launch a weather balloon during training at Yokota Air Base, Japan, under tutelage of the USAF 20th Weather Squadron. Some members of the first graduating class have been selected for advance meteorological training in the United States.

ly affects their prices. Shuman also noted that rigid price supports are of little or no benefit to millions of small farmers.

Speaking as the president of the organization which has more small farmers among its members than any other organization in the U.S., he said that "no level of price support can do anything for the fellow who has nothing to sell."

"We are anxious to approach the problem of low income in rural areas on a reasonable basis and not on the basis of a program that injures commercial family farmers without really benefiting the operators of low-production units," the Farm Bureau president said.

Rather than restore rigid supports, Shuman told the Committee that Congress should "go forward by improving the 1954 Act." Shuman concluded his state-

ment by saying that "rigid mandatory 90 percent price support with inadequate regard to supply and demand, with mounting surpluses, political allocation of the right to produce, and contracting markets has failed to keep net farm income from suffering a severe drop."

"The sound way to stop the drop in net farm income and increase the opportunity for farmers to get higher incomes is to allow price an increased opportunity to guide production, increase efficiency, lower costs, and expand markets at home and abroad," he said.

Rangers Fade In Final Minutes 84-81

Only four minutes kept the Ranger Junior College Rangers from bowing out of the 1955 basketball season with their third victory in conference play Friday night in Ranger.

In a rough and tumble contest that saw the lead change hands nine times, the second place Schreiner Institute Mountaineers sunk the Rangers 84-81 after the Rangers had led the fracas for more than three-fourths of the way, and at one time by 13 points. Ranger led at half time 42-36.

Schreiner, pressing man-to-man most of the game, picked off Ran-

ger ball handlers seven times in the final stanza for scores. Bad passes on the Ranger offense also accounted for the defeat.

For the last seven minutes of the contest, the scoreboard reacted like a see-saw with one team with a slightly heavier score throwing the balance to their side then swapping as the other unit scored.

Ranger was in the lead for the last timewith only 2:40 left by 74-72 on a field goal by Lonnie Wood and trailed by two-points thereafter until 2:10 when Schreiner pulled three points in front.

High scorer for the Rangers and high pointer of the night was Lloyd Cogburn who hit for 27 tallies. Wood followed with 23 and Bill McCurry, outstanding on defense, bucketed 11.

Maverick News

Well, the Senior Play turned out grand. It was one of the finest plays that has been produced here. Lucy, played by Silvia Sullivan, was really hopping when Rickey, portrayed by Jimmy Laney, put her on a schedule to impress his boss. Ethel Mertz, Jane Clark was the landlady. She gave Lucy some scatterbrain ideas. Fred Mertz, played by Bill Brown, was Ethel's husband. Peggy Dawson, played by Helen Flowers, was a silly teenager that had a crush on Lucy's husband. All the others played an excellent part. So if you didn't see it you really missed a good play.

The track team is taking shape now. Some of the boys raced yesterday to clock themselves. We have some fairly fast boys. They will enter a Cisco track meet Wednesday.

Columbus was lucky -how about you?

COLUMBUS was brave, skillful and patient. He was also a very lucky man. He put to sea on borrowed money, trying for a western route to India, and stumbled upon the New World.

Most people never look for that kind of luck—and they're right. To really reach your goal in life—financial independence, let's say, or a home of your own, or college for your children—it takes careful planning and systematic saving.

And today, 8 million Americans have found a much surer, easier route to their goals than Columbus ever dreamed of—saving for the future through the Payroll Savings Plan.

Decide now to make your dreams come true —through the Payroll Savings Plan

To join the Payroll Savings Plan, just ask your pay office to save out a part of your check before you get it, each payday—a few dollars or as much as you want. After that, your money's saved for you—automatically—and invested in U. S. Series E Savings Bonds that are turned over to you.

Which means your money really goes to work for you! Because each Savings Bond earns 3% per year, compounded semiannually, when held to maturity. If you sign up to save only as much as \$3.75 a week, in 5 years you'll have \$1,025.95 cash. In 9 years, 8 months, you'll have \$2,137.30 cash!

Easy to see why 8 million Americans are using the Payroll Savings Plan to help them get what they want out of life! Why not join them—today?

If you're self-employed, start the Bond-A-Month Plan where you bank. Like Payroll Savings, it's simple, systematic and sure. Pick your plan—and start now!

IMPORTANT NOTICE TO HOLDERS OF SERIES A, B, C AND D BONDS

Unlike Series E Bonds, which go on earning interest after maturity, Series A, B, C, and D Bonds do not. No interest has accrued on these securities since the last of them matured, in April 1951. If you own A to D Bonds (some 77 million dollars' worth are still outstanding) you should redeem them. You can profitably reinvest the proceeds in Series E and H Savings Bonds at your bank.

If you want your interest as current income, ask your bank about 3% Series H Bonds which pay interest semiannually by Treasury check.

Choose your own savings goal

	If you want approximately	\$5,000	\$10,000	\$25,000
Each week for 9 years and 8 months, save.....	\$8.80	\$18.75	\$45.00	
Each week for 19 years and 8 months, save.....	\$3.75	\$7.50	\$18.75	

This chart shows only a few typical examples of savings goals and how to reach them through Payroll Savings. Remember, you can save any sum you wish, from a couple of dollars a payday up to as much as you want. The important thing is, start your plan today!

Saving is simpler than you think— with U. S. Savings Bonds on the Payroll Savings Plan!

Aged-Under-4 Brood of 4 Going With Mother Join Dad, Germany

Mrs. Raymond Lewis Jones and her four little girls, all under 4-years-old, plan to leave Eastland to join their husband and father, Staff Sergeant Jones at Weisbaden, Germany, as soon as the baby, Dolores Claudette, born February 9, is 6-weeks-old. Mrs. Jones has received their passports and she and the four little girls will fly to New York and also will fly from there to Germany. Incidentally, Dolores Claudette was born the very day the mother and children were to report to New York for port call for overseas to join Sergeant Jones, but Dolores delayed the voyage only six weeks.

Mrs. Jones is the former Miss Helen Mary Jacques of the Bronx, New York. She met her husband when he was stationed at Governor's Island, New York, First Army Headquarters. They were married in New York July 16, 1949, and then he was transferred to Scott Air Force Base, Ill., and they moved there and thence to Eastland September 9.

Sergeant Jones left Eastland, after his leave here, for Germany October 5, and his wife and children have lived at their home, 216 S. Madeira here since that time. His mother, Mrs. Ora Mae Forgy, nurse at Eastland Memorial Hospital, lives with her and the children.

Sergeant Jones, who was reared at Strawn, was in the Navy and served in the South Pacific during World War II. After the war, he was out of the service for a year and then went into the Army about 1948. Then in 1949 he switched to the Air Force,

Mrs. Womack Speaker; 50 Attend P-TA Founders Day Program Tea

Observing Founders Day, the South Ward Parent-Teachers Association was host to the West Ward P-TA Tuesday afternoon at South Ward Auditorium.

Mrs. Guy Patterson's second grade won the room count for the most mothers present.

LOOK WHO'S NEW

Mr. and Mrs. Virgil E. Moore Jr. have announced the arrival of a son, born at 1:47 p.m. Friday at Eastland Memorial Hospital. The baby weighed 7 pounds 14 ounces, and has been named George Richard. He has a brother, Virgil E. (Trippy) Moore III, who is 3-years-old. Their maternal grandparents are Mr. and Mrs. A. A. Wills, Denton; and their paternal grandmother is Mrs. E. L. Ward, Corsicana.

The third grade mothers were hostesses, and refreshments were served in the cafeteria, following the program. The serving table was centered with a flower arrangement in lavender hues and lighted by green tapers in silver holders. Spiced tea, cookies and mints were served.

Places were designated at the smaller tables for the 50 members and guests present and each place was marked with an oak leaf centered with a candle, representing Founders Day. Each of the tables bore a centerpiece of oak leaves, acorns and miniature hatchets in the George Washington theme.

Mrs. George Ford, Mrs. Clyde Manning and Mrs. Ed Sargent were in charge of the nursery. South Ward will have the Mother-Daughter Banquet Friday, Mar. 18. The next meeting of the P-TA is scheduled for March 22 at South Ward Auditorium.
