LOOKING AT HIGH SCHOOL HILL - - Officials inspect Eastland High School Hill beautification project this week. From left they are State Conservationist Edward E. Thomas, School Board

President James Reid, National SCS Administrator Mel Davis, Assistant Secretary of Agriculture Robert Long, Eastland County SCS Manager Ronald Bailey at extreme right, SCS PC Charles Haenisch.

The group was met by James Reid, school board president, and Ronald Bailey, SCS district conservationist at Eastland.

Reid discussed the existing problems, how the project was initiated, and the number of citizens that would benefit from the project.

The high school track and practice field are at the foot of the hill. Bailey said that when water washes down the hill, sediment is deposited on the track. The steep slopes of the hill and several active gullies contribute to the problem.

Bailey said that a preliminary plan to solve the problem has been drawn up and has been approved by both the school district and the Upper Leon Soil and Water Conservation District.

The Soil Conservation Service and the West Central Texas Council of Governments must next approve the plan before funds can be obtained, Bailey said.

The work will be cost-shared between the school district and the SCS. The school district will meet approximately 25% of the total cost and the SCS 75%. Cost is expected to be approximately \$36,000.

The plan includes shaping the area, planting grass and installing a concrete waterway for water to flow down the hill. Two other shorter waterways would also be constructed on other sides of the hill. A fence will be constructed at the top of the hill with gates at various locations to help direct the students to walkways to prevent further erosion after grass is established.

vationist Edward E. Thomas, his assistant James Abbott, and State Resource Conservationist D.B. Polk, all of Temple.

Also attending was Clarence Ham, head of the State Parks and Wildlife Dept. Planning Section.

Conservationists visited Eastland to look at the erosion problems on "High School Hill" and to hear what will be done to solve the problem.

The first stop was at the Eastland High School campus.

After leaving Eastland, a short stop was made at Lake Leon to look at recreation facilities and to discuss the possible development of additional facilities.

Other stops were made in Erath County to look at completed erosion control work along various roadsides.

Thursday night the group met with the local RC&D Executive Council. Representing Eastland County were Judge Scott Bailey and Mayor H.V. O'Brien.

USDA Officials Look At High School Hill

Top USDA officials in this area this week indicated that it probably would be well to be busy in developing and implementing plans as rapidly as possible.

Officials from the Soil Conservation Service on the national and state level pointed out that maintaining enthusiasm is an important factor, as is the national economy which would prompt planners to be diligent in getting projects "on the ground" because times could come when lack of funding could curtail new and/or unfinished projects.

Headed by Assistant Secretary of Agriculture, Robert Long, the seven-man team arrived in West Texas Tuesday and Thursday came into the Eastland County area, specifically to look at the beautification and conservation project planned for High School Hill, and recreational projections at Lake Leon.

Going on to Stephenville Thursday evening where the group visited informally with members of the Steering Committee of the Leon-Bosque Resource Conservation and

Development Project, Mr. Long said. "I'm looking forward to coming back to Eastland and seeing just how successful you are in getting grass to grow that hill". He was assured you on that hill". He was assured that grass would be grown, and the invitation was open for him to revisit the site.

Hosting the visit was Leon-Bosque Chairman Jack McCarty of Glen Rose, and Charles Haenisch of Stephenville was in charge of local arrangements. The Leon-Bosque RC&D project is made up of Bosque, Comanche, Eastland, Erath and Somervell counties. The tour went on to Glen Rose Friday before departing.

During the informal discussions Thursday night, National SCS Administrator Mel Davis and other members of the team were interested in hearing complaints and suggestions from the local members in regard to the various projects under way. One problem discussed was the fact that the RC&D district lies within the boundaries of three Councils of Government and it sometimes gets confusing with these, and

then clearing the state's planning office too, but it was explained that these safeguards are generally good to cut down or prevent duplications.

Other SCS officials included Deputy Administrator Vic Barry and Head Resource Development Chief Paul Howard, both of Washington; State Conser-

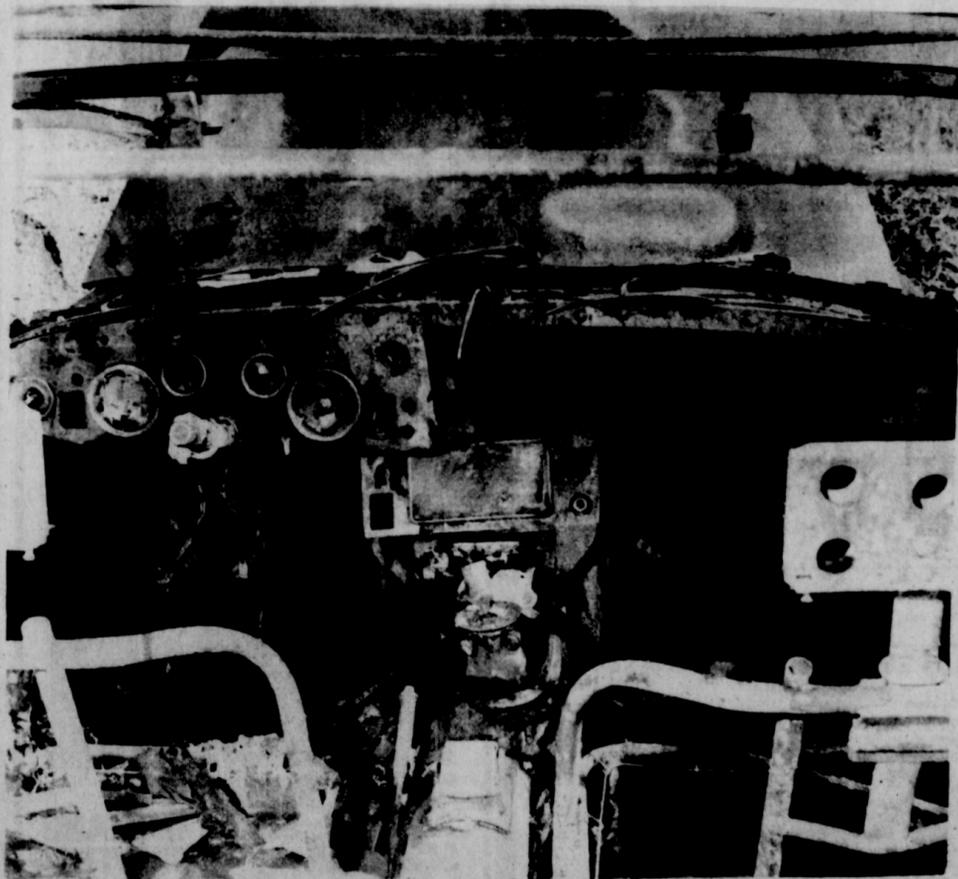

TWO IMPORTANT surveys now in progress: apartment needs (form appeared in Thursday's paper), and employment form in today's paper...You can help your community by either filling out the forms if they apply, or telling friends about them.

AVAILABLE: SPACE to display piano for sale; at the Senior Citizens Bazaar to be held Friday and Saturday at the Victor Cornelius Building on East Main St. Entertainment coming for the Bazaar needs to borrow a piano and it would be a perfect place to display a piano for sale. Call Janet Thomas if you could furnish same. It'll be appreciated.

GRACIOUS HOSTS were Mr. and Mrs. Bob Chelette (he in absence) to approximately 60 Eastlanders Thursday morning at Chi-Chi of Texas Restaurant at the Ramada Inn. He's the new manager and wants the town to know that he's here to provide good food and good service at fair prices...Bob had to be absent trouble - shooting a sister restaurant in Stephenville, but Mrs. Chelette did a fine job...Chamber Manager James Wright, always a man with a gift tongue, did an excellent job of introducing each and every one to name, title, responsibility and in most cases with an appropriate funny. He knows Eastland folks.

YOU'LL WANT to thank Ross Morgan at the Majestic for planning to bring "The Hiding Place", the Billy Graham film here Sunday Oct. 13, and make plans to see the famous Corrie Ten Boom film then. It's interesting to note that most of the Billy Graham films have been shown at the Majestic over the

Mystery Of Burned Car Still Unsolved

Investigation into the mysterious burning of a small sports car belonging to a state official at Eastland's Ramada Inn early Thursday morning is continuing, Police Chief John Morren reports.

State Assistant Attorney General Bill Flanary of Dallas told investigators that he was awakened in his room at the Inn about 1 a.m. Thursday and

looked out a window to see his small MG sports car in flames. State Attorney General John Hill is quoted as having said, "It appears from what we have learned the fire was caused by third parties."

A state fire marshal was in Eastland Thursday conducting an investigation into the cause of the fire. Assisting in the inquiries were the Eastland

Police Dept., County Sheriff L.E. Sublett, Texas Rangers Sid Merchant and Norman Autrey as well as members of the attorney general's office.

Flanary was accompanied here by Ray McGregor, State Securities Commission investigator, and the two were reportedly in West Texas to check oil wells.

Upon discovering the burning vehicle, which reportedly con-

LAUNCHING UNITED FUND - - Set to head the 1975 Eastland United Fund Campaign which kicks off Thursday, Oct. 2, are from left: Vice President Ron Patton, President Norris Starr and Drive Chairman James Wortman. Goal to benefit 16 important participating agencies is \$10,470. (Photos by Steve Haines).

One Agency Added, One Dropped In UF Meeting

An important agency was added and another one was dropped as the Eastland United Fund Board of Directors established a total goal of \$10,470, in preparation for the Annual Kickoff which will begin at 10 a.m. Thursday, Oct. 2.

Added is a division for Senior Citizens in the amount of \$520 to be used for refreshments, games and other small items for developing the Senior Citizens Program here. Roy Cartee, local

director from CJC* made the presentation and is looking for a director for the project, he told directors, meeting in screening session at the Eastland National Bank Conference Room Thursday.

Not included in the new budget is funds for the Muscular Dystrophy Program which elected not to participate in the local UF drive since they cooperate in a national drive yearly.

Some agencies received increases and others remained constant, but none were reduced. However, the board elected to leave the amount of the local contingency fund open, putting into it that portion of the drive which was left after the other agencies are paid their share.

Budgeted are Teenage League, \$1,200 (up from \$1,177) last year; Boy Scouts, \$1,700 (up from \$1,500); Salvation Army, \$829 (same as last year); Red Cross, \$1,000, same; USO, \$220 (up from \$214); Little League, \$1,400, (up from \$1,391); Texas United Fund, \$50, same; Cancer, \$100; Heart, \$100; Birth Defects and Arthritis, \$100 (all same); Eastland Welfare Association \$640 - (same); West Texas Rehabilitation Center, \$1,500 (up from \$1,498); Campaign Expenses, \$50; Camp Fire Girls, \$360 (up from \$214); Girls Softball, \$700 (up from \$605); and Senior Citizens, \$520; for a total budget to be raised of \$10,470. Last year the total budget was \$10,050.

President Norris Starr and Drive Chairman James Wortman expressed their appreciation to all who assisted with the screening and the presentations, and called on all volunteers to be ready to begin the solicitation Thursday so that the drive may be ended as soon as possible.

Theme for the year is "A Day's Pay-the Fair Share Way".

Coffee and donuts will be served at the Kickoff at the Eastland National Bank Conference Room beginning at 10 a.m. Thursday, and volunteers will go out from that meeting to make their solicitations.

NORTHVIEW NURSING CENTER HONORS BIRTHDAY'S. Mrs. Lucy Kendrick and Mrs. Stella Murphy were Birthday honorees for September. Mrs. Kendrick was 90 years old September 25; Mrs. Murphy was 82 September 2. Hosts were volunteers: Mrs. Dorothy Shepard, Mrs. Arleta Mace, Mrs. Loretta Bulgerin, Mrs. E.A. Ivey, Mrs. Mary Lee Cagle. Punch and cake was furnished by the home. We wish to thank Mrs. Ives, at the piano; Mrs. Bulgerin, Mrs. Mace and Mrs. Shepard for the lovely singing; also Mr. Fambrough for his help. We had a nice group out, but hope we have more next time.

Job Market Trends Get The Right Education Now

Even more than sports and Saturday night dates, the job market has taken over as the chief topic of conversation among youth today—especially since unemployment for 16 to 19 year olds has topped 19%, more than double the national rate. One of the problems is that high schoolers simply don't plan for careers, according to officials at the U.S. Department of Labor, who cite the lack of knowledge about various career opportunities and inadequate education as major factors.

Neal Rosenthal of the Labor Department's Division of Manpower and Occupational Outlook suggests that youths get as much information as possible about careers they would enjoy, including job outlook, duties involved, and educational requirements.

When a high school diploma was once an automatic passport into the work world, today about 80% of jobs require specialized vocational education. The unskilled will have the worst time job hunting since many occupations are becoming increasingly complicated and technical. The discouraging fact is that one out of every three high school graduates leaves school without definite career plans, and as a result is threatened to be left behind in the race for over 60 million job openings expected in the next decade.

While a lack of training is a major stumbling block, there certainly isn't lack of information. The Department of Labor recently published a thick "Occupational Outlook Handbook," an economic crystal ball of sorts since it predicts future

opportunities in over 800 occupations. The picture for teachers and boatswains, for example, is cloudy, while rapid growth is forecast for white collar positions and in the service producing industries such as computers, health care, the trades, repair and maintenance, banking and others.

Considerable growth is expected in the area of computers, the world's third largest industry. Computers are produced, used, outmoded and replaced with technical age speed. The need for qualified men and women to operate, maintain and repair them is staggering. There were 150,000 computer operators in 1972, and 175,000 programmers. Both occupations will undergo rapid growth through the mid-1980's requiring additional 200,000 workers.

And, as banks, insurance companies, credit card companies and state and local governments increase their use, not only will the need for people to run them increase, but also for those capable of keeping them in good repair. The need for computer maintenance men will increase from 175,000 to 250,000 by 1985, according to the U.S. Department of Labor.

In fact the handbook predicts that repairmen of just about anything from toasters to airplanes is one of the fastest growing occupations there is. Demand is expected to increase rapidly due to the many factors including a growing population and a higher standard of living which will allow more American to buy more labor-saving devices, which inevitably have to be fixed.

A well-paid field, salary ranges between \$4-\$7 per hour—a very community needs its share of repairman. While the trade may be learned on the job in about three years, vocational school courses will teach a trainee more quickly, usually in 4 to 9 months.

But the home is not the only place where gadgets are liable to break down. The Labor Department predicts office machines are also going to need increasing attention as businesses and state and local governments buy and use more equipment to handle a growing volume of paper work which has to be typed, tabulated, copied, and perhaps even shredded. At least one year of training is required in this repair field due to the complication and ever-changing technology involved.

High schoolers and others about to plan careers would do well to consider the rapidly growing medical field. Employing over 3.5 million people, the outlook is excellent for qualified job seekers due to an increasing health consciousness among Americans made possible by more widespread insurance coverage, either private or through federal programs of health care.

Besides physicians and nurses, millions of paramedics—medical assistants, operating room technicians, medical secretaries, nurses aides, dietitians, dental assistants, and man others—carry out the work of administering health care; and all are expected to be in very great demand over the next decade!

Because of the maze of

specialties, each requiring equally specialized training, many good jobs are passed over by young people. After all, how many children grow up wanting to be optometric assistant? Only about 11,000 as of 1972, yet this field offers a secure and interesting career.

An equally little known field respiratory therapy is in much demand, with good chances of advancement. Yet, only 1,800 respiratory therapists are available for the many thousands of hospitals and clinics.

While a B.A. may be obtained in respiratory therapy, shorter concentrated courses are given at vocational school, reducing the time for training from four years to 18 months.

There are literally hundreds of similar careers going unnoticed by many Americans. To sum up the advice given by U.S. Labor Department officials—Look before you leap into the job market.

Pre-Owned Merchandise Sale To Be Held

A "Pre-owned" merchandise sale will be held Friday and Saturday, Oct. 3, and 4, from 8 a.m. to 5 p.m. to benefit the Women's Club House kitchen renovation, it has been announced.

The event will be held in the carport at the home of Mrs. James Horton at 808 S. Halbryan St.

The public is cordially invited to participate.

Judge Proclaims October 5-11 As Fire Prevention Week

County Judge Scott Bailey, has proclaimed the week of October 5-11, 1975, as FIRE PREVENTION WEEK in Eastland County.

The Eastland County Farm Bureau, in conjunction with all fire departments in the county, are working together to emphasize fire prevention and protection throughout the county.

Fire Prevention Week is always the Sunday-through-Saturday period in which falls October 9, date of The Great Chicago Fire of 1871. The Chicago disaster killed 250

persons and destroyed 17,430 buildings at a cost of \$168 million.

In his proclamation, Judge Bailey quoted the National Fire Protection Association fire losses as: 12,000 people die; another 300,000 seriously hurt; 1,000,000 buildings burn and total dollar losses due to fire each year exceeds the \$3.1 billion mark.

NEPA, national sponsor of Fire Prevention Week, has a catchy new theme on their posters and brochures--"LEARN NOT TO BURN". The theme of new materials is showing people what to do. This is consistent with the new Dick Van Dyke "Learn Not to Burn" commercials now appearing in print ads and on TV and radio.

C.M. Guthery, President of the Eastland County Farm Bureau, said that Farm Bureau has several programs designed to help curtail fire losses. The County Farm Bureau, in co-

operation with the Texas Farm Bureau, sponsors the attendance of local volunteer firemen to annual Texas Firemen's Training School each summer in College Station. More than 1,300 firemen have attended under Farm Bureau sponsorship during the past eleven years.

Attending from Eastland County this summer was Pat Hart.

The state and local Farm Bureau also pays \$75 to fire departments for fighting rural fires on Farm Bureau insured property.

In addition to these programs, county Farm Bureaus sponsor a graphic 45 minute fire prevention demonstration. Some 1,600 fire safety programs have been presented in 200 different counties, before schools, civic clubs and other groups by the Texas Farm Bureau Safety Department staff during the past twelve years.

PROCLAMATION

BY THE
COUNTY JUDGE OF EASTLAND COUNTY
TO ALL TO WHOM THESE PRESENTS SHALL
COME:

I, Scott Bailey, County Judge of Eastland County, do hereby declare the week of October 5 - 11, 1975 as FIRE PREVENTION WEEK in Eastland County, for the following reasons:

WHEREAS, according to the National Fire Protection Association, 1,000,000 buildings will burn in the U.S. this year; 300,000 people will be seriously hurt and 12,000 people will die. Dollar less is estimated at ever \$3.1 billion. NFPA says "AVERAGE DAILY property loss from fire in the U.S. is . . . 1,609 homes . . . 378 apartment buildings . . . 66 school and college buildings . . . 11 churches . . . plants . . . and buildings on 70 farms.

WHEREAS, the Eastland County Farm Bureau, in conjunction with all fire departments in the county have worked together to emphasize fire prevention and protection in the rural areas as well as in our cities and town;

WHEREAS, this year's Fire Prevention Week campaign utilizes the statement "LEARN NOT TO BURN". Knowing hot not to burn can literally mean the difference between life and death, between a fire - safe home and a pile of debris and ashes where you used to live.

WHEREAS, all citizens of this county should learn to avoid starting a fire, whether through accident, carelessness or just plain ignorance and learning how to keep their city or rural environment fire - safe by not giving fire a place to start. Be especially careful in the safe handling and use of matches and smoking materials, use of liquified petroleum gas, gasoline, and other petroleum products, electrical, heating, cooking equipment and other fire causes such as lightning and spontaneous ignition.

WHEREAS, "LEARN NOT TO BURN" includes a combination of some of the following safety education practices: (1) Have a smoke detector or combination smoke - heat - gas detection system; (2) develop, learn and practice a home escape plan; (3) make sure every member of the family is trained on how to turn in a fire alarm, and how to use portable fire extinguishers; and (4) rehearse how to "Drop and Roll" as a means of smothering or extinguishing the fire if your skin, hair or clothing catches on fire.

THEREFORE, I urge all citizens of Eastland County to join hands in recognizing this special period by working together fifty - two weeks a year to more fully realize the benefits of FIRE PREVENTION WEEK.

Cemetery Association Organized September 19

On Sept. 19, 1975, the Flatwood Cemetery Association was organized in the Flatwood Community of Eastland County, Texas. The purpose of this Association is the assembling of donations for a Perpetual Care Fund which will provide income to pay for the perpetual care of the Flatwood Cemetery.

Officers elected were as follows: Mr. Jack Lyerla, President; Mr. Troy Cross, Vice President; Mrs. Betty Cross, Recording Secretary. Trustees elected were as follows: Mr. Guy Lyerla, Trustee; Mr. O.B. Duncan, Trustee; Mr. Carl Murrell, Trustee. A Constitution and a set of By-Laws have been prepared and signed.

Any person in sympathy with the objectives of the Association shall be eligible for membership. If you are interested in seeing that the Flatwood Cemetery is maintained down through the years by providing for perpetual care, you are urged to enroll as a member of the Flatwood Cemetery Association by giving your name and address to the Secretary now. There is no charge for membership in the Association.

It has been estimated by the Trustees that \$400 per year will be needed to pay for the necessary work in maintaining the cemetery. Therefore it is essential that funds be raised as soon as possible so that they can be invested to provide the income needed. Interest rates that can be obtained on investments at the present time are high, so we urge you to consider a donation immediately to the Flatwood Cemetery Association. Your donation can be deducted from your income tax purposes.

The Trust Department of the First National Bank in Cisco, has agreed to act as depository for the perpetual care funds raised by the Association. It will invest all such funds in government bonds, savings accounts, or other securities eligible for investment by banks and Trust Departments to provide the maximum safe yield, and this income will be paid to the Trustees of the Association as available and as required. There will be no charge to the

Association for these services by the First National Bank, Cisco.

Our immediate goal for the Perpetual Care Fund of the Association is \$5,000. At present interest rates, this would more than provide the \$400 per year required and would allow the Fund to increase in order to take care of possibly higher costs of maintenance in future years. Money is to be raised in two ways:

1. Endowment Fund. Lump sums of money may be paid into this fund as donations. The money will never be spent, but the interest from this money will be available every year for care of the Flatwood Cemetery. For example, each \$100 donated will provide approximately \$8.50 to \$9.00 income per year perpetually. It is hoped that the bulk of funds needed will be given in this way now. Any size of donation will be most welcomed and appreciated. If you wish to make a donation, give your money to the Secretary, Mrs. Betty Cross, Route 1, Eastland, Texas, 76448. If your donation is in cash, you will be given a receipt; if your donation is by check, make it payable to the Flatwood Cemetery Association and your check will be your receipt.

2. Memorial Fund. Now or at any time in the future, upon the death of a loved one, you may make a contribution of any size to the Memorial Fund in memory of a friend. In either case, give or send your contribution to the secretary, and if you so request, the family of the loved one or friend will be notified of your gift to the Association. This money will be added to the perpetual care funds of the Association, will not be spent, but the income from these Memorial gifts will be used for perpetual care of the Flatwood Cemetery.

The Flatwood Cemetery Association believes that this is a most worthwhile project, and urges that you give it your consideration. Decide what you can do to help, and mail the coupon below today, while it is fresh in your mind.

Mrs. Betty Cross, Secretary
Flatwood Cemetery Association
Route 1
Eastland, Texas 76448

Please enroll me as a member of the Flatwood Cemetery Association. Enclosed is my donation of _____ for the Endowment Fund.

Reuben Gaeta Jr., Mary Jackson Engagement Announced

Mr. and Mrs. John Wayne Jackson of Route 3, Rangr, announce the engagement and approaching marriage of their daughter, Mary Lynn, to Reuben Roman Gaeta Jr., of Eastland.

Miss Jackson is a graduate of Breckenridge High School and attended Cisco Junior College

where she was a Wrangler Bell. Mr. Gaeta is a graduate of Eastland High School and attended Cisco Junior College, University of San Marcos and University of Austin.

The couple plan to be married October 25, at the Bethany Baptist Church in Breckenridge. All friends and relatives are invited.

Eastland Student Injured

Carole Ann Kidd, 12, lives with her grandparents Mr. and Mrs. Glen Gray. She suffered two fractures in her leg in P.E. class. She is still a patient in Eastland Memorial Hospital and is reported in satisfactory condition.

Sports

Continued From Page 1

The Mavs got together for their first scoring drive late in the first quarter with a drive that started from a Lion fumble and a recovery by Brian Haun for Eastland at the four yard line. From Eastland's four yard line, the Mavs started moving with some hard running from Fullback Tommy Williamson, and some tremendous pass plays from Quarterback Mike Lewis to Haun and Mike Stutts, which in 19 plays put the Mavs on the Lion four yard line where left end Randy Wharton went in for the score. The extra point try was blocked and the Lions were still in front 7-6.

Half-time came next, and both school bands gave an excellent performance for the spectators on hand.

Following the half-time activities, the Mavs kicked to the Lions to open the second half. The ball went to the Lion 23 yard line, and from that point on a second down, the Lion tailback Jim Waller broke loose again, this time for 74 yards and another Lion touchdown. Albany's extra point attempt proved no good: Albany 13, Eastland 6.

The one scoring play by Albany in the third was all to be seen in that period. But with 8:58 left in the fourth quarter, Eastland got it together again. This time from the Lion 33 yard line. Eastland's QB Mike Lewis dropped back on third down and nailed a pass to end Randy Wharton, straight down the middle for the score, followed by the same pass except to the left side with Wharton again. Eastland now lead by one point 14-13.

The Mavs momentum which was acquired by their sudden lead, was to only last for as long as it would take for them to tee up the ball for its kick to the Lions.

On the kick, the Lions pulled the old give back play and stunned the Mavericks to the point that Albany's Rob Stack ran 71 yards for another Lion touchdown, putting Albany ahead 19-14.

With 1:20 left to play, Albany finally put the cork on the bottle when Waller went from the Eastland five yard line around left end for the touchdown. Albany's extra two conversion was good and the game ended 14-27.

Other Mavs who did an outstanding job in the night were: Kenneth Underhill who baffled the Albany coaches who tried to find someone in the stands to match him; Rex Morgan, Clay Wheat, John Hill, Aaron Arnold, Clark and Mark Thompson and Tom Winningar.

Eastland Jr. High And JV Beat Albany Teams Thursday

It was a trio of virtually clean sweeps Thursday as Eastland teams downed Albany visitors in Maverick Stadium, three-up and three-down.

The Seventh Grade, undefeated to date, won 6-0; the Eighth Grade, 12-6; and the Junior Varsity, 30-0.

Eastland County Republican Women To Meet Monday

The Eastland County Republican Women's Club will meet in the home of Mrs. H.J. Bulgerin at noon on Monday, Sept. 29. Every woman is to bring a covered dish.

Virginia Russell and Loretta Bulgerin will report on the National Republican Women's Convention which was held in Dallas. The two ladies also brought home some Bicentennial

jewelry which they will have on sale to raise money for the club's projects.

At the National Convention, Mrs. Russell and Mrs. Bulgerin ordered tapes of the speeches given by President Ford, Senators Goldwater and Tower, Gov. Reagan and John Connally. It is hoped that these tapes can be played at future meetings.

C Of C Manager Wright

Returns From Conference

Chamber of Commerce Manager James T. Wright and wife returned Tuesday from Odessa after attending the 38th annual Conference of the Chamber of Commerce Executives Association of West Texas. The Conference was held at the Inn of the Golden West.

The Conference was attended by approximately 200 Chamber Executives throughout Texas.

Many of the top Chamber and industrial leaders of the state were featured speakers. Some of the subjects covered were: "What's Happening to the Free Enterprise System", and what Chamber of Commerce Managers can do about it, "Texas Tourists", and "Case Histories on Industrial Development". Problems solving "Trade Development", "Record Keeping" and many others were discussed.

Gifts were given by House of Webster Pottery and Vassarette

of Munsingwear as door prizes at the Conference. Many other door prizes were brought by Chamber Executives.

The Conference will be held in Stephenville next year.

Tom Ward

Receives

Degree

Tom Ball Ward of 721 South Ammerman Street has been awarded the designation of Knight of the York Cross of Honor, it was reported today. This honorary degree, highest in the York Rite of Freemasonry is conferred only on those who have held the highest office in each of the four bodies of the rite. Mr. Ward became one of the comparative handful of about 400 of the over four and a quarter million Freemasons in North America, the Philippines and Australia to qualify this year.

Mr. Ward served as Master of Breckenridge Lodge Masons in 1955; High Priest of Breckenridge Chapter, Royal Arch Masons in 1951; Master of Breckenridge Council, Royal and Select Masters in 1952; Commander of Cisco Commandery, Knight Templar in 1972. He was elected to membership in Texas Priory and his election confirmed by Convent General of the Order on September 24. A certificate of membership has been mailed to him.

There are 68 Priories of the Order with a present membership of 10,000.

Eastland HD Club Organized

County Extension Agent Janet Thomas met with a group of women Monday, Sept. 22, in the Texas Electric Reddy Room. She helped organize a new Home Demonstration Club.

The club will be called the Eastland Home Demonstration Club. These officers were elected: Mrs. Wayne Ames, President; Mrs. Henry Parsons, Vice President; Mrs. Sharon Lewis, Secretary-Treasurer; and Mrs. Tray Cross, Council Delegate.

Club meetings will be held the third Tuesday of each month. The next meeting will be at 9:30, October 21, in Mrs. Parson's home, 1209 S. Seaman St.

Club members are looking forward to H.D. Programs and activities and wish to invite interested women to attend the October meeting. Janet Thomas will Present the program on carpet care.

Here about the high school principal who announced glowingly on the school's public address system that this fall there would be a driver education program with ump-teen new cars, the works, adding enthusiastically: "It will be a real crash program. . ."

Pioneer Club Holds Luncheon

The Pioneer Club met on Sept. 25, 1975, for their monthly luncheon in the home of Mrs. Ben Bassett.

Mrs. Lorine Crawford gave the thanks for the bountiful meal. Mrs. Laverne Wingate, president, presided during the business session.

Roll call was answered with "The Person I Love the Most".

The plans were formulated for the year's Bicentennial activities.

The birthday song was sung to those having September birthdays and the closing of the meeting was "Blest Be the Tie That Binds".

Those in attendance were Laverne Wingate, Fannie O'Brien, Nora Wilcoxson, Fannie Lockhart, Pauline Lee, Mary Logan, Lorine Crawford and Mr. and Mrs. Ben Bassett.

We're building power plants that use lignite coal.

It's our answer to the rising price of natural gas.

This power plant is being built in East Texas at Martin Lake near Henderson. It will make electricity by burning lignite coal.

We have to build lignite plants because we're running out of low-cost natural gas, our main fuel today. New supplies are hard to get and very costly.

Lignite plants cost more than twice as much to build as comparable gas-fired plants, and that means electricity will cost more. But expensive as they are, lignite plants will still make electricity more cheaply than plants using high-priced gas.

That's because our large lignite supplies, acquired many years ago, are much cheaper than new supplies of gas. And using cheap fuel is one way we try to keep your electric bill as low as possible.

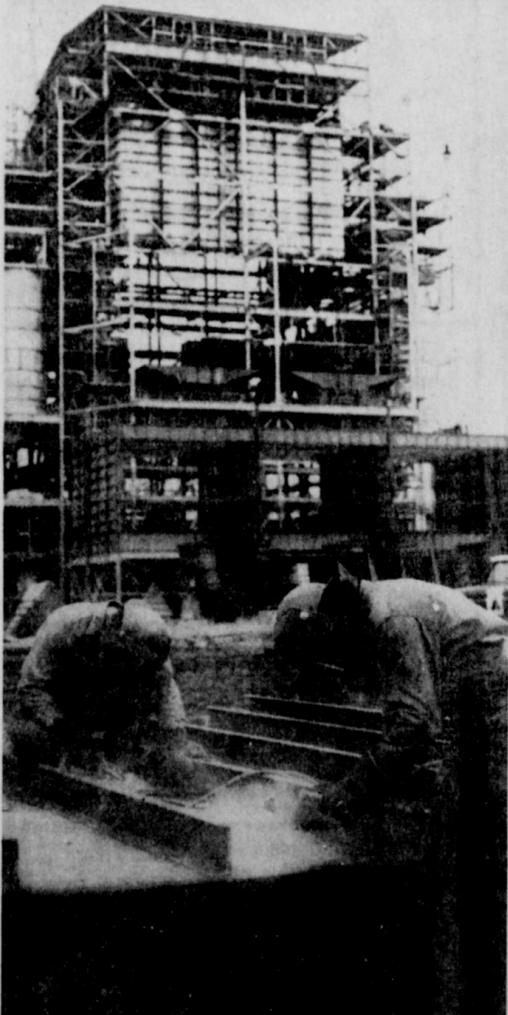

The average bill for Texas Electric customers is already 27 per cent below the national average, and we're working to keep it that way.

Do You Remember

BY HERMAN DEMPSEY

There was the young man in a nearby community who was graduating from high school back in the early Model "T" Ford days. His intentions were to return to a distant town near the oil fields where he had been working in a wholesale grocery warehouse during the summer months.

His model "T" was put in top condition for making the trip. He was to take his high school sweetheart to visit relatives who lived in a neighboring town some 30 miles from where he would be working. The boy was seriously considering asking her to marry him after he had saved enough money to support a family.

Since the trip would require about 16 hours of driving time over many miles of dirt roads, he had decided he and his girl would leave about ten p.m. so as to arrive in the daytime the next day. The boy also believed his Model "T" ran better at night. All went well until just before daylight the next morning when his car stopped suddenly with smoke coming from under the hood. With no flashlight they would have to wait until daylight to see what had happened. There was no

traffic on this road so they would have to make repairs good enough to get to the next town some 20 miles away. After daylight they discovered the front of the motor had dropped down, pulling the radiator hose from the radiator, letting the water spray over the hot exhaust manifold causing the steam that appeared to be smoke to the young folks in the light of the full moon.

The young man had lived on a farm all his life, and had learned to improvise when necessary. On the Model "T" engine, the front is supported only by a housing fastened to the front spring and through which the hand crank was used to start the motor. The housing broke into adjacent to the front spring, letting the motor drop down. The young man jacked the motor back up with his screw type jack. He found a piece of barbed wire with which he put around the frame on either side and twisted the wire to pull the motor in line so the crank would pass through the housing. The radiator hose was reconnected and the radiator filled with water from a livestock watering trough next to a windmill in the cow pasture. They went on to her relatives and he went on to his place of work. The next evening, the young man received a penny post card at his warehouse from his girlfriend advising she had married on the evening she got to her relatives.

State Fair Opens Friday Oct. 3

As this year's theme implies, Texans are in for a "Yankee Doodle Dandy" time at the State Fair which begins Friday, Oct. 3, and runs through Sunday, Oct. 19, at Fair Park in Dallas.

The tradition and size of the fair has grown since the first extravaganza was staged in 1936--the centennial year of Texas statehood. Last year more than three million people attended the best state fair in the state.

Among the myriad of exhibits and displays awaiting fairgoers this year is Southwestern Bell's multi-media presentation, "This Special World Called Texas". It will be located in the Women's Building, near "Big Tex".

According to local telephone manager Burnice Gorr, this marks the 25th anniversary of the company's participation in the fair.

"The multi-media show focuses on the pride of the people and the beauty of ourland as it traces the early days of statehood and the history of the growth of telecommunications in Texas", she said.

"In addition, a major portion of the 2600 square foot, air conditioned, red, white and blue display is devoted to special telephone equipment developed for the handicapped. Several employees will be on hand to demonstrate and answer questions about a variety of innovative service offerings," Mrs. Gorr said.

Included will be telephones that turn on a light or fan to signal the deaf or blind that their phone is ringing. There will also be working models of a new phone that the customer can program to call anywhere in the U.S. by touching one button, according to Mrs. Gorr.

The multi-media show follows the growth of the telephone as it became a way of life in Texas. In 1876 at the United States Centennial Exposition in Philadelphia, Col. A.H. Belo saw a new invention called the telephone. Alexander Graham Bell had had little luck with his "talking toy" up to that point, but Col. Belo saw its potential and ordered two phones set up between his home and his office at the Galveston News.

"Booklets will also be available at the fair giving further information about the phones for the handicapped. Customers may pick up these same booklets at the local business offices", added Mrs. Gorr.

Qualify for a \$1,500 tax deduction. Next year... every year.

If you work for yourself, work at a small firm, or work for a large corporation, there's a new law that could save you a lot of money. Here's how: if you're not currently participating in a qualified retirement plan (most Americans aren't), you can set up your own Individual Retirement Annuity. Contributions to your annuity, up to \$1,500 a year (or 15% of your earned income, whichever is less) are fully tax deductible. 100% of your I.R.A. is subtracted from your gross income when figuring taxes.

It's like giving your own money to yourself. And deducting it, instead of paying taxes on it as usual. Some call it a tax shelter.

Your Southland Agent can answer any questions you may have. Send him this coupon... it'll be to your benefit. Next year, and every year 'til retirement.

JAWS Lives Up To It's Billings

"Jaws" is on the big Majestic Theatre screen, and the Friday opening night capacity audience was swimming in a sea of shrieks, screams, chills and breath-collective catchings. The much-publicized film thriller lives up to its billing. It's exciting. It's gory--not as bad as we'd expected, but that's not to say that it doesn't have plenty. Much better than the book we'd say: emphasizing adventure and passing up such unnecessary as the highly-contrived affair which drug the prose.

The Majestic Friday night was full of all ages. Should you take your own youngsters? It'd depend on the individual youngster we'd guess. We did (not without some misgivings), and they enjoyed every screaming minute. Theatre Manager and Mrs. Ross Morgan and employees were sporting "Jaws" tee shirts (on sale in the lobby) and everybody was drinking soft drinks out of "Jaws" cups. Guess we can logically expect to see in the not-too-distant future: "Son of Jaws", "Jaws Strikes Back"....

The technical details are astounding and the trio of main characters are well drawn in the film. Handling of the oceanographer is superb, and his involvement in the climax far surpasses the written version. The police chief and the Fisherman Quint are truly believable, doing pretty much what such folks would be expected to do under the same circumstances. It's high adventure. As has been said, there's no sharks at Lake Leon, but "Jaws" is at the Majestic for the rest of the week.--HVO.

AARP Chartered

An Eastland Chapter of American Association of Retired People (AARP) was chartered with some 40 members in Eastland Friday evening. Present for the development of the new senior citizen organization was Carlos Val Smith, assistant to the State Director, North Central Texas, of Waco.

Thoughts

From The Living Bible
So Jacob left Beer-sheba and journeyed toward Haran. That night, when he stopped to camp at sundown, he found a rock for a headrest and lay down to sleep, and dreamed that a staircase reached from earth to heaven, and he saw the angels of God going up and down upon it. At the top of the stairs stood the Lord. "I am Jehovah," he said, "the God of Abraham, and of your father Isaac. The ground you are lying on is yours! I will give it to you and to your descendants. For you will have descendants as many as dust!"

SCHOOL NEWS BY AMY O'BRIEN

MRS. SIEBERT FIRST GRADE
We have had some special visitors to our room. They are the letter people: Miss A, Miss I, Miss E, Miss O and Miss U. These girls have come to help us learn our short vowel sounds. We have had so much fun listening to their stories and songs. Everyone is looking forward to meeting the other letter people during the next six weeks.

Our leaders this week were John Lane, Becky Bullock, Clyde Wilson, Charlotte Chellette, Jimmy Schulte, Bianca Duncan, Amy Gann, Byron Proctor, Mark Barry, and Lorie Hazard.

MRS. COOPER FIRST GRADE
We have had five very special guests in our room during the past two weeks. They have come all the way from "Letter People Land" in order to help us learn our short vowel sounds. Their names are "Miss O, who is obstinate, Miss I who says achoo, Miss U who loves to itch, Miss E who does her exercises and Miss U who goes up daisy with her umbrella. We have heard stories about them, sung songs and played games with them. Everyone has been very excited about having them in our room. We are expecting more visitors from "Letter People Land" as we learn more letters.

Besides learning about our letters we have been working on our numbers from 0 to 10. We have had several birthdays during the month of September. Those having birthdays have been Tracey Salyer, Stefanie Tankersley and Clinton Easter.

MRS. TURNER THIRD GRADE
We have been busy this week. In P.E. we have been playing slaughter ball and we have had fun. We have a new pupil. And we have been learning about nouns and verbs.

MRS. LITTLE SIXTH GRADE
Hi! Today is the 25th and we are all looking forward to 2:30. We have a pep rally.

We made some posters in English and finally got them up. They are about certain days of a month or year. They are also about months. We had to write a commercial about it and cut out some pictures. They are all very pretty. In Math we are studying

multiplication. It is a lot of fun. Well, gotta go, spelling class is next!
By!!
Melinda Walton

6A and 6B COMMERCIALS

A COMMERCIAL FOR SPRING
If you're tired of those chilly winter days
Why not try some sunshine rays?
They're plentiful and cheap in spring
See the colorful flowers they bring.
Spring comes with a three month lease.
March, April and May.
When the storms of snow will cease.
So come and lease Spring today.

Cista Lowrance 6B

A COMMERCIAL FOR HUNTING SEASON
Fall is the Hunters' favorite time of the year.
With Hunting season growing near.
The smell of powder in the air
And doves flying everywhere
Later on in the year
They hope they can get a deer.

So come and dawn and get your "magazine" full of Hunters favorite.
You're sure to like it.
Kevin Coplen 6B

A COMMERCIAL FOR A NEW YEAR
Are you tired of the same ole' year?
Well, then you will like this new treat here.
It comes in a twelve months pack.
Guaranteed to please or your money back.
Scientists say it's the best year yet.
It's in the future--just waiting for you
Be the first in your town to have one.
A New Year!!
Kathy Maynard 6B

WINTER
Are you tired of hot, aching days?
Well, here is the thing to relieve your aching pains.
It's a new product called Winter.
It comes in a three months pack.
And never wanting Spring to come back.
So hurry to your nearest store before it's all gone.

GORDON SPOT

A recent statewide hearing on brucellosis in Austin offered an opportunity for many livestock producers and market operators to voice their views on the present program and the changes proposed by the Texas Animal Health Commission (TAHC). Many of the beef cattle producers and market operators felt that the proposed changes would pose undue economic hardship to the cattle industry, while several dairymen felt that the Texas animal health authorities should carry out a program to eradicate the disease as soon as possible. The nine-member commission--representing all segments of the industry--voted not to adopt the proposed changes after evaluating the testimony presented. The present program will continue until industry leaders determine future changes that may become necessary. In conjunction with brucellosis eradication and the current depressed livestock market, producers should attempt to cull low producing animals or those affected with diseases. The present indemnification is \$40 for grade and \$80 for registered animals found to have brucellosis when tested on the farm or ranch. In addition, producers with livestock in areas where brucellosis is more prevalent should consider using the calfhood brucella vaccine in all replacement heifer calves. However, accurate vaccination records should be maintained. Every gardener with the title has a few packets of flower or vegetable seeds left from spring and summer planting. Or they may have collected seed from their own or from their neighbor's plants. Although old seed often has a lower germination rate as well as reduced vigor, especially if left in a hot shed or storage area, the temptation is to try to save it for next year. Proper storage can greatly increase the shelf life of many seeds. The seed should be air-dried before placing in tightly sealed containers. It should then be kept in a refrigerator or cool basement at a temperature range of 35 to 50 degrees F. When collecting seeds from garden plants, remember that many of the new improved varieties are hybrids and will seldom come true. This means that the offspring will have little or no resemblance to the parent plant.

Eastland County Hay Show Tuesday

Tuesday, Sept. 30, is the date for the third annual Eastland County Hay Show. It will be held at the county livestock show barn north of Eastland and will begin at 10:00 a.m. Hay producers have entered 38 bales of hay, reports County Extension Agent De Gordon. Each bale entered has been analyzed for protein content. Dr. Neal Pratt, Extension Forage Specialist from Texas A&M will judge the hay and present a program on quality hay production. Entries will be classified on the basis of maturity, texture, leafiness, freedom from foreign material, color and protein analysis. Each entry will be awarded a blue, a red, or a gold ribbon, if it is scored 50 points or better by the judge. The hay show is being sponsored by the Eastland County USDA Rural Development Committee and the Upper Leon Soil and Water Conservation District. The Texas Plant Food Institute will provide the ribbons. The Rural Development Committee is composed of De Gordon, County Agent; David Martin, ASCS Director; Charlie Henderson, FHA Supervisor; and Ronald Bailey, Soil Conservationist. Everyone interested in hay production is invited to attend the hay show and meeting at 10:00 a.m., Sept. 30. The hay entered in the show includes oat, legume, triticale, Kleingrass, Millet, Alfalfa, Coastal Bermudagrass and Sudan hybrids.

TOWER TALKS

by U.S. Senator for Texas
JOHN TOWER

Farmers Market

WASHINGTON—Small farmers and consumers can help each other beat the high cost of living.

I have proposed a bill which could boost the income of small farmers, and at the same time reduce the prices consumers have to pay for fresh fruits, vegetables, and other produce.

The goal of the Farmers Market Act is to reduce indirect costs. Marketing costs now total 60 per cent of every food dollar. That means that 60 cents of every dollar spent by the consumer does not go to the farmer.

The men and women in the wholesale and retail food industry are not to blame for that. They have strived mightily to keep down the costs of transporting, processing, and packaging food. Profit margins in the food industry are among the lowest for all industry. The indirect costs are justified. But they continue to mount. The Farmers Market Act would provide a means of reducing some of them.

The prime beneficiaries of the Farmers Market Act would be the 72 per cent of all farm families who earn less than \$15,000 a year.

But urban consumers who are willing to forego the conveniences of supermarket shopping in order to save on their food budget would also benefit. The price of produce sold at farmers' markets averages one-third below supermarket price, and sometimes as much as 40 to 50 per cent less.

The Farmers Market Act would authorize marketing experts from the U.S. Department of Agriculture (USDA) to study means of operating markets ranging from roadside stands to large marketplaces in urban centers. The information would be provided to farmers on request.

The USDA experts also would be empowered to develop innovative farmer to consumer marketing arrangements in which groups of consumers could buy unprocessed food in bulk directly from farmers.

The Secretary of Agriculture would be given three years from the date of enactment of the Farmers Market Act to test at least five distinctly different innovative marketing schemes in various regions of the country. The cost of the innovative projects would be about \$5 million over the three-year period.

The sum is insignificant in comparison with the number of Americans who could benefit from passage of this bill. The Farmers Market Act helps people to help themselves to a higher standard of living. It is a step in the right direction.

In the 18th century, a tourist in Cornwall was rebuked for shooting a raven, which might have been the reincarnation of King Arthur!

Happy Go-Getters Meet Sept. 8

The Eastland Happy-Go-Getters 4-H Club met Monday, Sept. 8, for their regular meeting.

It was announced that several club members had entries in the West Texas Fair. Steve Williams placed first in crafts. Sherry Kidd had a first place in the baked goods division with an apple pie. Brenda Kidd placed second with her cookies and Shirley Kidd placed fifth in candy.

The club voted to host the County Awards Banquet in Eastland this year.

Another event being planned is a County Fair, to be held hopefully in November if available facilities are found. The club feels this would be a great community service and lots of fun for young and old. Any interested individuals - please check with a Happy-Go-Getter.

On Sept. 10, the club honored Milton Kellner with a surprise party at the R.D. Hart home. All enjoyed a watermelon feast. Mr. Kellner was presented as an appreciation gift, a leather belt made by club member Steve Williams.

Happy Go-Getters meet the second Monday night of each month. If you are between the ages of 9 and 19 they would welcome you and your parents to attend the October meeting.

Honored With Birthday Celebration

A birthday celebration was held in the home of Mr. and Mrs. B.W. Hobbs of Carbon Friday, Sept. 26, honoring Mrs. Hobbs and a daughter, Velma Bowles.

Those attending were Mr. and Mrs. B.W. Hobbs; Mr. and Mrs. Tommy McCoy; Tommy and Shelley; Mrs. L.G. Purdom; Mrs. Robert Bowles and Teresa, all of Carbon; Mrs. Charles Bowles of Wayland, Mr. and Mrs. Robert Hobbs, Cindy and Shannon of Morton Valley; Mr. and Mrs. Jim Hallmark, Tammy, Steve and Scotty; Marvella Hobbs, and Mrs. Mike Purdom and Tiffany of Eastland.

Not Everybody Qualifies For Tax Credit When Buying A House

COLLEGE STATION - Consumers expecting a tax credit for buying a new house should check with the Internal Revenue Service first - to be sure they meet the qualifications, Denise Beigbender, a housing and home furnishings specialist, says.

"The Tax Reduction Act of 1975 does include a section designed as an incentive to buyers of new unoccupied homes currently on the market and to people custom - building their homes.

"And it provides a direct five per cent tax credit, figure on the purchase price of the house. The purchase price can't exceed an adjusted base of \$40,000 for a maximum credit of \$2,000. "This isn't a deduction or adjustment to gross income - it's simply a credit against federal tax liability," she explained.

But not every new home - or

new home buyer - qualifies, she cautioned.

Miss Beigbender is the Texas Agricultural Extension Service, The Texas A&M University System.

Specific criteria for buyers of new homes include: - The new dwelling must be a principal residence, not a second or vacation home. It may be a single family house, a unit in a condominium or co-op, or a mobile home.

- Construction must have begun before March 26, 1975.

- The taxpayer must acquire and occupy the home between March 12, 1975 and January 1, 1977.

- Certification from the seller must be attached to the buyer's IRS tax return stating that the purchase price was the lowest at which the residence was ever offered for sale since February 28, 1975. It also must certify that construction of the

dwelling began prior to March 26, 1975.

For persons building their homes, qualifications are: - Only the cost of construction after March 12, 1975, can be considered in determining the amount of credit allowable.

- The taxpayer - purchaser must be the original owner. Purchasing the home from a relative may result in ineligibility for tax credit.

"Maximum credit allowed under this bill is \$2,000. Married people filing separate returns can receive up to \$1,000 each.

"Also, if buyer has unrecognized capital gains, - money he made over the original cost of a previously owned house, not including any improvements he made - this reduces his tax credit," she explained.

She reminded consumers to keep up to date on possible modifications of the bill by checking with the Internal Revenue Service.

VISIONS OF GRASS ON THE HILL - SCS Man Ronald Bailey, Assistant Secretary of Agriculture Robert Long and Eastland School Board President James Reid dream the vision of green grass landscaping what is now badly - eroded Eastland High School Hill. A project now in the making could make it happen. (Photo by Steve Haines)
