It Pays to Advertise-

. . . and most business men do some of it. The impact of advertising on the American psychology is evident in many ways. While honest and truthful advertising is said to make people unhappy with what they have, it also creates a desire for goods and services which they need. We know that people need insurance every hour of the day and to make them conscious of that fact, and to save them world's of trouble, we advertise.

that's important

Saving part of the EXTRA money that comes your

way - gifts, bonuses, dividends, and so on-is a fine

idea. But it's those FEW dollars taken out of EVERY

paycheck and put to WORK in an insured savings account here that really mount up. Try it and see. You

won't need a "windfall" to get the things you want,
