Moore Resigns As Editor to Take Bowie Post

Virgil E. Moore, editor of the Eastland Telegram for the past five years, has resigned his position to move to Bowie where he will be connected with the Bowie News.

Moore, who first moved to Eastland in 1953, has been editor of the Telegram since 1956. He edited the paper from 1953 to 1955 then left for one year before returning to Eastland as editor.

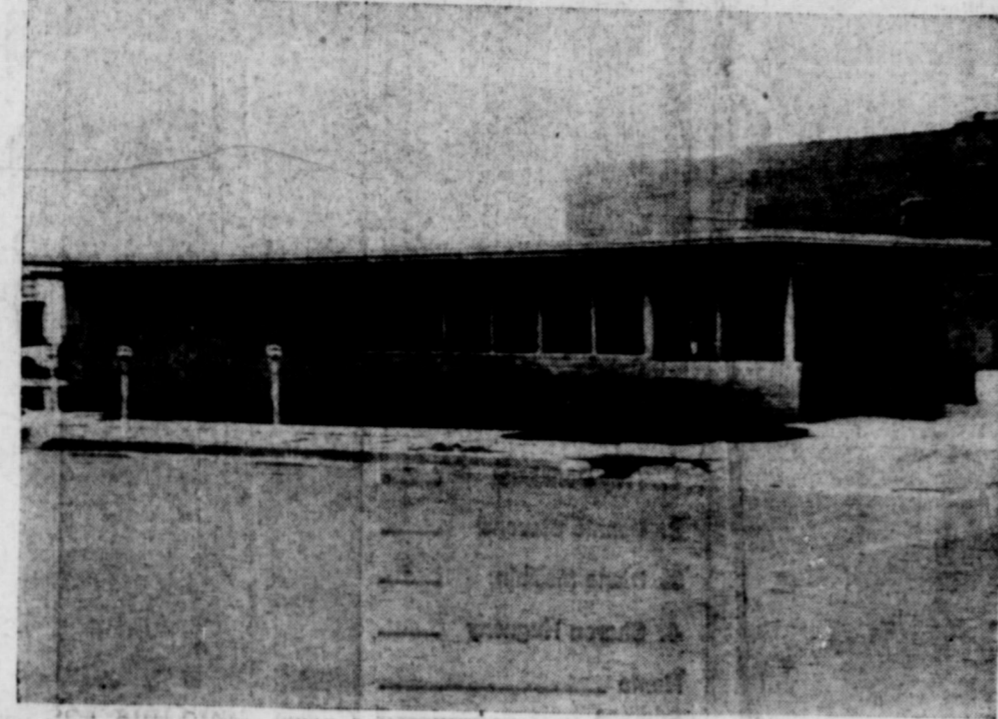

In Bowie he will be an active partner in the newspaper. His resignation is effective July 31.

While editor of the Telegram Moore won three awards from the West Texas Press Association. He has won awards for his column, "Moore About Eastland," and received one award for editorial writing.

He has been active in the Junior Chamber of Commerce, Lions Club and Quarterback Club. He is director in the United Fund, immediate past president of the West Ward P-T-A and is a director in the West Texas Press Association.

Mrs. Moore has also been active in civic affairs. She is a past president of Beta Sigma Phi sorority, is vice president of the Woman's Golf Auxiliary and has served in several P-T-A posts.

Mr. and Mrs. Moore have two sons, Trippy, 9, and Ricky, 6. In announcing Moore's resignation, O. H. Dick, publisher, said no one has yet been selected to fill the vacancy.

Rotarians Hear Plans For New Year Listed

Eastland Rotarians heard plans for the year, received their 26th Scout charter and got committee assignments Monday.

Mike George, new president, urged the club to try for two objectives this year, to "take more interest in our Boy Scout troop and to develop and improve better relations with our neighbors in order to attain higher goals."

He also said he hopes to increase the club's membership in the coming year and return the local group to the top in attendance in the district.

George also announced that District Gov. Briggs Todd would address the club July 17.

The Troop 6 Charter was presented by Joe Galbraith, district scout executive from Brownwood. George is committee chairman, Norman Watson is scoutmaster and Bernard Hanna is representative.

Committee chairmen named were: Earl Bender, responsible for club service activities; Dick Spalding, vocational service committee; Tom Wilson, community service committee; Pat Miller, international service committee.

Sub-committee chairmen are: Frank Deaton, attendance; Frank Sayre, classifications; Jim Horton, bulletin; Charles Marshall, fellowship; Dr. J. O. The Cisco murder case was still grabbing off headlines around the state this week and both Eastland and Cisco have been swamped by reporters.

The case has developed into a three ring circus affair in Eastland, where photographers—both still and television—have stalked out in front of the jail, the courthouse and the defense attorney's office. The pictures they've taken have not been unusual. They have been of County Attorney Earl Conner sitting behind his desk, of defense attorney Allee Dabney Sr. walking on the street and other similar shots. These may interest readers around the state, but to Eastland County people they are simply common day sights.

The general opinion of the case in Eastland is that the area, and particularly Cisco, has received a lot of bad publicity. While most cases grab the headlines for a day or so and then disappear, this case has kept on and on. It has had

gasoline sprinkled on the fire liberally from day to day. The family of Nathan Curry, charged with the murder of Mrs. Florence Hussey, kept the story alive for a few days after it normally would have been off the front pages, then the Cisco mayor began making headlines with his statements. And now it is the defense attorney's office which has regrabbbed the front page.

Meanwhile reporters, who will probably not leave the scene until they have had a chance to talk to young Curry, haven't even been allowed to ask him questions in any form. The unusual protection given the suspect makes the reporters smell something unusual. The case was still making headlines this week. "Defense Says Boy Denies Statement," one headline read. A little more gasoline—

County Bank Deposits Show Good Increase

With Gorman and Eastland leading the way Eastland County bank deposits have shown an increase in the past 12 months.

County deposits totaled \$14,548,952 when the bank call was issued this month. Only two of the five county banks actually showed increases, however. The Eastland National Bank reported an increase of \$214,810 and the Gorman First National Bank has an increase of \$100,551.

Here is a breakdown of deposits by towns:

Town	June 30, '61	June 15, '60
Cisco	\$4,049,179	\$4,173,134
Eastland	3,835,203	3,620,328
Rising S.	2,476,718	2,494,628
Ranger	2,385,026	2,406,335
Gorman	1,802,826	1,702,275
Totals	\$14,548,952	\$14,396,765

City Garage Is Now Dealer for Scout Pick-Up

J. J. Finley, owner of City Garage, has announced he is new dealer for the Scout, International's new "work and play pick-up."

Finley said the Scout has gained wide recognition and urged his friends and customers to come by and see the new pick-up.

Meanwhile reporters, who will probably not leave the scene until they have had a chance to talk to young Curry, haven't even been allowed to ask him questions in any form. Grass In Area Is Given New Life by Good Rains

(Editor's Note: This article was written prior to the more than 3 1/2 inches of rain received over the weekend.)

By SCS PERSONNEL
Every one knows it takes water to grow grass. Both the man of the house mowing the front lawn or the rancher following his herds are ever conscious of the need of grass for water. Our June rainfall was truly a blessing to both.

Moisture studies after our recent rains by local Soil Conservation Service workers show that in general we have enough moisture stored deep in the soil for good grass growth in the immediate future. Prior to our June rains grass growth was much below normal. Grass was suffering for moisture in many places, even though we started our spring growing season with saturated soil.

At present sandy land and mixed land pastures are generally wet over six feet deep which represents about 8 to 10 inches of stored rainfall. Grass cover on this land is from around two thousand to in some cases over five thousand pounds of green grass per acre. Total green cover depends both upon previous stocking rates and the kind of grass present on the land.

On heavier shaley prairie range-land (mesquite flats) the soil is generally wet to around four feet with some moisture even deeper. This represents about 8 inches of stored moisture. Depending upon stocking rates this past winter and spring this land now has from fifteen hundred to twenty five hundred pounds of green grass per acre, a major portion of which is Texas Winter grass. One unusually good site which had not been grazed this past spring and winter clipped six thousand five hundred pounds which probably represents close to the maximum production to be had from Texas Winter grass.

It takes skill to grow grass either on the front lawn or on the range. Most people know that only light sprinkling of the lawn is wasteful of water as only deep watering is effective in growing grass. The stockman can store rainwater deep in the soil only with a good grass cover. In this country this maintenance of sufficient

Vacation Church School at the First Christian Church begins Monday. The school will run from July 17-21.

There will be classes for youth from ages four through the sixth grade. Classes will be from 8 a.m. to 11 a.m.

All young people are invited to attend.

GOOD RECOVERY—Mixed land pasture on which brush has been pushed and coated, showing excellent grass recovery following summer defoliation from grazing. Land now covered with 4000 to 5000 lbs. of green grass per acre, which is sufficient cover to hold over 90 percent of practically all rainfall. Photo on J. G. Harlow pasture in Grapevine community.

Joycees to Gather Books Friday

To help Eastland Joycees will be standing in the front of the county courthouse from 6:30 p.m. to 9 p.m. to accept calls from people who wish to contribute old books for a book given in their name.

Persons wanting to contribute to the drive are asked to phone MA 9-1707 or MA 9-1708 Friday night between those hours.

The book drive is lagging far behind the expectations of Joycees, and they hope this book pick-up night will push the number of volumes to at least 200.

All persons have to do is phone one of the two numbers and give their address. Joycees will immediately pick up the books or the contributions.

This Thursday Afternoon Club, sponsors of the library, have openly endorsed the Joycee program. All types of books are acceptable, and they do not have to be in perfect condition.

Those numbers again, MA 9-1707 or MA 9-1708.

Grass—
(Continued from Page One)
ficient range cover with fluctuating rainfall requires skillful range management. If cover is not maintained rainfall is lost in run off and grass production declines to an unprofitable point.
At present our range grasses are growing vigorously. Side-oats grama and buffalo are seeding and a few bluestem plants are beginning to root. Goats are eating more grass and less brush each day as oak leaves become more mature. The stockman's management as we go into the summer season will do much to determine his future grass production.
In this area are many good fields of sudan and Johnson grass which have been planted to relieve the summer grazing pressure on native grassland. By switching livestock to these fields the skillful rancher will assure himself of a better grass crop next year. In addition he will have cured dry grass on the land for wintering his stock next winter.

West Texas Porcelain Art Club Holds Festival at Lone Cedar

By MRS. MARVIN HOOD
The painters of the West Texas Porcelain Art Club assembled on the long veranda of the Lone Cedar Country Club out at Lake Leon recently for a three day painting festival. A shower from the east soon sent everyone scurrying inside with paints, palette and china where the work was carried on mainly for the remainder of the three-day session.
After lunch on the first day a few of the women went out for a try casting for bass. Having no luck they returned to pick up the

paint brush again for serious work. Many of these women are very talented and gave generously of their time and talents.

Others in the group worked hard to profit by observing their skill and technique on a piece of slick white china. This field of art is a very fascinating personal adventure. In it all of the group are seeking improvement to near perfection.

Towns represented by this group of women interested in the art were Lubbock, Sweetwater, Knox City, Putnam, Baird, Breckenridge, Eastland, Ranger, Cisco and Carlsbad, N. M.

Mrs. Foster Pressley of Lubbock, the president, presided over the business meeting held near the close of the session. The group rendered a vote of thanks to the Country Club for their hospitality.

Members and guests attending were: Gladys Pressley, Vina Jackson, Nell Hunt, Merle Allen, Esta Smith, E. Cannon, Opal Taylor, Hazel Long Opal Eganbacker, Fanny Watson, Pearl Donoway, Eula Taylor, Mrs. George Ferguson, Mrs. Frank Windham, Elizabeth and Ruth Elliott, Aura Waddell, Bernice Williams.

Eva Clinton, Opal Jo Gilbert, Mrs. S. M. Eubank, Betty Nantz, Pauline Chambers, Lela Vada Jones, Dorothy Burdick, Velma Showalter, Beulah Dyer, Mrs. Roy Wilbank, Dora Lanier.

Myrtle George, Zula Collie, Artie Collings, Bettie Cooper, Winnie Haet, Ruth Layton, Ruby Parker, Audrey Kimbrell, Mary Hood, Mildred Sayre, Mrs. C. B. Pruitt and Mrs. Jack Urban.

Mrs. Laverne Wigate, an Eastland member, was unable to attend due to major surgery.

Desdemona News

Attendance at the different churches Sunday was a bit under average partly due to the weather condition.

Rev. John Dowd of Gorman is pastor of the Methodist Church on Sunday mornings at 9:30.

One addition to the First Baptist Church Sunday was by letter and two additions at the Church of Christ by baptism.

Mrs. Roy Gurthery underwent surgery in the Gorman Hospital the past Thursday. Also Frank Genoway had surgery there Friday.

Mr. and Mrs. W. E. Downing have recently returned from a trip to Davidson, Okla., to visit her son, Rev. Ellis Hillard, and family.

The three girls from here who entered the 4-H Dress Revue at Eastland were all awarded ribbons. Catherine Stacy won a red ribbon and Brenda Robberts and Ruby Lewis won third place honors.

Mr. and Mrs. Charles Morgan and Marty of Fort Worth, Mr. and Mrs. Carl Dean Stacey, Scott and Julia of Gorman and Mr. and Mrs. Edward Stacy and Terry of Carbon Sunday with the Buddy Stacys.

Pete Bibby and sons of California spent a while Wednesday with Denny Moss.

Little Miss Julia Hanna of Eastland spent a few days last week with her grandparents, Mr. and Mrs. Horace Lane. Her parents, Mr. and Mrs. Minton Hanna came for her Saturday night.

Mr. and Mrs. Arthur Ash were here last week visiting relatives.

WEEKEND GUESTS
Mr. and Mrs. Truly Carter of Levelland spent the weekend with Mr. and Mrs. T. E. Richardson.

The 20th Century Minute Men who help defend America

Since 1941, thousands of folks in advertising, communications, and entertainment have pooled their talents to make U.S. Savings Bonds a household word

The first Minute Men put down their guns in 1783 after winning independence for themselves and their Nation.

In 1941 a new breed of Minute Men came to the aid of their country to help sell U.S. Savings Bonds. These were the actors, singers and musicians who entertained in behalf of Bonds all over the world, backed up by thousands of people in America's advertising agencies, newspapers, magazines, radio, television, outdoor and transit media.

A \$50 million budget—free

Put all the Savings Bond advertising on a dollar basis and it would approach \$50 million a year—a bigger advertising budget than most of the country's large manufacturers. The total for 20 years

of the Bond Program is estimated at \$4.5 billion in two spans, time and again.

This amount is covered every day on an enormous amount by the folks in "show business." Yet not one penny of this cost is paid by the government or the tax payer.

The built-in features

U.S. Savings Bonds are guaranteed and by Uncle Sam—and guaranteed to grow in value. They pay 3% interest when held to maturity. You can't lose your equity—your Bonds are replaced if destroyed or stolen. You can get your money back anytime you want it—plus interest.

Every Bond you buy is a share in a stronger America. Come to your country's aid—and yours—now.

"The Advertising Council is proud of its role,"

says Theodore Rappier, President, The Advertising Council

"Everyone in the advertising and entertainment fields and allied industries who has been involved with the U.S. Savings Bond Program will tell you what a rewarding experience it has been. We're proud of our part in the Bond Program which has helped Americans become owners of \$43 billion in Bonds today."

T. Rappier

You save more than money with

U.S. Savings Bonds

Buy them where you work or bank

For 30 years America's newspapers have published Savings Bonds ads at no cost to the Government. The Treasury Dept. is grateful to The Advertising Council and the newspapers for their patriotic support.

Miss Bob Emfinger last week with... Mrs. Dale... sister and her husband... Mrs. Fiedling Winchester... and Scott of Oklahoma City... Mr. and Mrs. Doyle Beavers... of Wichita Falls... visited last week in the home of their parents... Mr. and Mrs. W. F. Deaton.

Facilities of New PCA Office Big Improvement

The new Eastland office of the Stephenville Production Credit Association, which will be dedicated here Sunday afternoon, is part of a continuing improvement and expansion program of the agricultural credit organization.

"We wish to provide our customers every convenience possible," General Manager W. M. Irwin of Stephenville explained, "and the new Eastland office is part of our continuing program to improve and expand our credit facilities. We are extremely pleased to have the new building in Eastland for our stockholders, and invite all our friends and neighbors in the area to visit us at any time, and especially at the dedication and open house Sunday."

The building, constructed of concrete and masonry, is located in the 100 block of North Lamar. Faced with attractive tan brick, the building contains more than 1,400 square feet of floor space. A large glass window runs the length of the entrance and reception lobby across the front of the lobby. Facilities inside the building include the central office area and a large enclosed storage cabinet.

The private office of Manager Wesson opens on the central office area and an extra private office is available for use on the opposite side of the building.

A large meeting room runs the width of the north side of the building. The room can accommodate large or small meetings in either banquet or auditorium seating arrangements. A sink and serving bar are provided for the serving of light refreshments.

A large parking area provides ample parking space for office personnel and visitors at the rear of the building, accessible by two drives.

The general public has been invited to attend dedication ceremonies and an open house at the new building, to begin at 2:30 p.m. Sunday, January 16.

Experience Is Plentiful at Credit Assoc.

A total of more than 40 years of administrative and field experience in agricultural credit is offered by administrative and executive personnel in the Eastland office of the Stephenville Production Credit Association.

Eastland County stockholders in the agricultural credit organization have been served by a field office since 1942 and Sunday will dedicate a new office building in the 100 block of North Lamar.

Manager and field representative of the Eastland office is Dick Wesson, who has been manager here since February, 1950. He came here from Las Cruces, New Mexico, where he had several years' experience in the cotton financing business.

C. M. McCain, who has diversified farm and ranch operations, has been a resident of Eastland County for 22 years and is presently serving his ninth year as director of the Stephenville PCA.

Originally from Fisher County, McCain adds administrative experience to his agricultural knowledge. He served as field representative in the Eastland office for seven years.

Mrs. Johnnie Mathews has served in the Eastland office for 12 years as secretary-clerk.

"We have only one reason for our existence," Wesson explained, "and that is to provide a dependable and reliable source of short and intermediate-term agricultural credit to farmers, ranchers and dairymen in Eastland County."

"We are owned and operated by our stockholders-borrowers, and we invite all agricultural operators to visit our new home and to discuss their credit problems with us," he said.

Mrs. G. Sallee Gives Program For CWF Monday

Mrs. George Sallee presented the program for the members of the Christian Woman's Fellowship of the First Christian Church Monday afternoon.

Mrs. Sallee gave the program entitled "We Lift Our Hearts". Mrs. Sallee also read the scriptures. She gave a paper on "Meditation and Decade of Decision of 'This Is The Age'". The program closed with a prayer.

Mrs. Roy Pool, the newly elected president, presided over the business.

The hostesses were members of the executive committee. Attending were Meses. Joe Tow, R. I. Malone, J. H. Evatt, H. F. Ferrell Jack Chamberlain, George Sallee, L. E. Huckabay, A. D. Webb, Neil Day, Bill Collings, L. C. McNatt, Ray Heckel, Raymond Pool, R. L. Carpenter and Miss Sallee Day.

SPACIOUS OFFICE QUARTERS—Mrs. Johnnie Mathews, secretary-clerk in the Production Credit Association office in Eastland, is shown in the main office area of the new building. Other facilities include a lobby, two private offices, a large meeting room, and a parking lot.

History of Production Credit Assoc. Traced

In 1933 Texas was faced with a doubled-barrelled threat of drought and depression. Many farmers, ranchers and dairymen were faced with extinction as credit had become practically nonexistent from sorely-pressed banks and other lending institutions.

In order to provide a new source of credit, the Production Credit Association was founded by the federal government under the Farm Credit Act of 1933. This was a new approach for federal aid. Although original capital was to be furnished by the federal government, plus a token amount of local capital in the hands of local boards of directors, the associations were to be operated and administered locally, and loan funds were to be furnished through the sale of debentures on the commercial money market.

It was under this plan that the Stephenville Production Credit Association was born in January 1933. From that uncertain beginning, the Stephenville PCA today is a lusty and thriving 27-year old, one of the strong financial institutions in its 10-county area.

By 1949 the association had grown and prospered to such an extent that the entire amount of federal capital had been retired and the association became home owned, operated and administered in its entirety.

The new Eastland field office of the association is the latest step in a continuous story of growth and progress. Since the meager beginning, when locally-owned stock amounted to less than \$50, the association now has more than 1,000 stockholder-borrowers in its 10-county area, and in its fiscal year of 1960, the loan volume totaled more than \$8,000,000.

All voting stock in the association is held by active borrowers with the association. These voting stockholders elect a five-man board of directors to administer the affairs of the association, including the appointment of executive personnel to operate the central office and field offices of the association.

The Stephenville Production Credit Association story is repeated in 35 other associations across the state and in more than 500 associations throughout the United States.

During an era of expanding federal controls, the Production Credit story is one of farmers and ranchers providing themselves a constant and dependable source of agricultural credit.

"Our single reason for being in business is to provide sound and readily-available credit for the qualified agricultural operator," W. M. Irwin of Stephenville, general manager of the association, explained. "We feel that through our board of directors and other stockholder-borrowers, all have an intimate knowledge of the agricultural problems of our area, we offer a complete and through agricultural credit service."

The Stephenville Production Credit Association has as its board of directors R. Cal McCurdy of Deatur; James Crouch of Durleson, vice president; C. M. McCain of Eastland, Tom Mazu-

rek of Comanche and T. M. Winters of Evant.

The 36 home-owned and operated associations, serving all 254 Texas counties, have provided more than \$3 billion in agricultural credit since their organization in 1933 and 1934.

Nancy Benton Has Original Poem Published

Nancy Benton has had an original poem, "To Gary", published in the Annual Anthology of High School Poetry.

To Gary

So gently do you cradle me, so tender is your touch, That young as I may be, I know you love me much. You give your love so generously, Asking not mine in return; But the love I have in my heart for you Is greater than you'll ever learn. Yes, the kind of love that I feel for you Is like a radiant, vibrant glow; For a candle is lit and will not go out, Although it may burn low. And we'll walk in the light of our candle of love On down through the rest of our years, And our love will live as the victor Over heartaches and sorrows and tears.

Telephone Co. Announces New Farm System

A new farm communications system that combines regular telephone service with an inter-com system for the farm, chicken ranch or dairy farm is being introduced here. Ranger Southwestern Bell Telephone Company manager, announced today.

Known as the Farm Interphone, the system includes a master phone in the house, an extension phone in the barn, milk shed or other farm building, and a two-way long-range loudspeaker outdoors.

Additional extension phones and outdoor speakers can be added to fit the farm's individual needs.

"The Farm Interphone was specially designed to meet the needs of farms, cattle ranches, chicken ranches, and dairy farms," Archer Marx, manager said. "By making it possible to talk between various farm locations, it will save valuable time and steps for users."

Each phone on the system has a control button to change from regular telephone service to inter-com calling between farm locations. Phones are equipped with loudspeaker - microphone units so the user can talk on the inter-com without removing the receiver from the hook.

This feature enables the farmer, for example, to continue working in the barn while carrying on an inter-com conversation with his wife in the house.

Regular phone calls can be held on the line while the inter-com is used to talk with anyone at another location on the farm.

The outdoor loudspeaker-microphone feature makes it possible to talk with persons working outdoors in the farm yard. For ex-

ample, the farmer's wife can talk to him while he is working outdoors, and he can reply, even though he may be a considerable distance from the sensitive microphone.

"Many adaptations of the Farm Interphone can be made to meet the individual needs of the farmer," the manager said.

NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy I.F.S. trucks work harder, too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power, you can tailor your truck exactly to your job. So how can you miss—especially now during the summer saving season?

NEWEST FARM TOOL, the Farm Interphone, makes it possible to communicate easily with distant locations. One feature is outdoor loudspeaker-microphone which permits conversations between house and farmyard.

NEW FARM INTERPHONE CAN SAVE YOU TIME, STEPS AND MONEY

The new Farm Interphone combines conventional telephone service with an inter-communications system for the farm, chicken ranch, or dairy farm.

By making it possible for you to talk to and from distant farm locations, Interphone can save you steps and valuable time.

The basic Interphone package consists of a master telephone in the house, an extension phone in the barn, milk shed or other farm building, and a two-way long-range loudspeaker outdoors. You can add additional extension phones and outdoor speakers to fit your individual needs.

Phones are equipped with special loudspeaker-microphone units that enable you to talk on the inter-communications system without removing the receiver from the hook.

The Farm Interphone can save you many times its cost by helping you make the most of your time.

It's easy to use. The cost is low. And equipment is maintained in perfect working order at no additional cost.

If you'd like to know more about the Farm Interphone, call your telephone business office. We'll help you plan the system that best fits YOUR needs.
