TIDBITS

BY KATHLEEN WHILE HVO IS GONE

I heard a Mockingbird gave a Bob White call this morning; I couldn't Berlieve my h ears, at first I thought it was a Bob White (Quail) strtayed into town (we do have them occasionally) but when Mr. Mocker called it again and then went right on with hi

Mr. Roy Bediched, noted Texas Naturalist believes that the Volume No. 105 Texas Mockingbird does not imitate other birds, regaurless of 90 per cent of the poeple who believe other wise. Mr. Bedichek suggests that the Mockingbird incorporates a few peeps, gurgles and raucuoun notes reminescent of other birds, but he never continues their song but goes right on with his own song; which can't be called mimicry. Quite different is the White Mockingbird of South America, he will sing a full 5 minutes m or more of some other bird' song. The Choctaw Indians called the Mockingbird "hushi Bablaha" or he who sings a a foreign language.

Since the Mockingbird is our Texas State Bird, we appreciate his unrivaled song and his own peculiar characteristics. He is a fearless champion and defender of his territory which endears him to all true Texans. I enjoy the articles by "An Eastland Bird Watcher" and hope we all become aware of the value of our songbirds. Their economic value alone would make it worth putting out a few seeds and a pan of water.

Did you know that we have n more kinds of birds in Texas than any of the 50 s states? According to Roger Tory Peterson, we have 540 Species (and this is no TexasBreag).. It it all because of our locatrion and size and our variety of climate. There would be over 800 if all subspecies were counted.

Also did you know o of the wanton slaughter and destruction of hundred of nests asnd little birds of the Cliff Swallow under the Lake Bridge? Was this supposed to be fun???

The instructor for the Voca-

tional Nursing Class at Cisco

Junior College is Mrs. May Dell

All friends and relatives are

Mrs. John Sims asked the

question I have been wanting to ask ever since they left Old

Rip's picture from the paper.

It was my husband Will M.

Wood who owned Old Rip and

took him on the Motor cade trip,

visited St. Louis Zoo, also visited President Coolidge and

I remember the courthouse

that burned and was at the

laying of the cornerstone where

Old Rip stayed for 31 years and

was there when he was

for several weeks. People from

all over the United States

visited him and registered and

holds a special place in my heart

for days gone by. And I hope

you will put him back on th

epaper where he belongs.

So needless to say Old Rip

Sincerely

Mrs. Will M.

Vocational Nurses To Hold Graduation

The 1974 Vocational Nursing Class of Cisco Junior College is announcing its commencement exercises July 13, 1974, at 7:30 p.m. in the Corral Room.

The members of the graduating class are: Barbara Alexander, Rising Star; Julie Alford, Moran; Helen Bates, Cross Plains; Jo Ellen Blackwell, Ranger; Hilda Bocanegra, De-Leon; Dolores Britt, Ranger; Hazel Damron, Cisco; Vicki Ewing, Ranger; Johnnie Gray, Cisco; Regina Hallmark, Ran-

Eastland Lodge No. 467 Meeting Will **Be Held Tuesday**

An open meeting for the installation of officers of Eastland Lodge No. 467, A.F. & A.M. will be held Tuesday night, July 9, 1974, at 8:00 p.m. Officers to be installed are: E.M. Hunt, Worshipful Master; Joseph Housson, Senior Warden; Lawson C. Brown, Junior Warden; Henry Van Geem, Treasurer; L.E. Huckabay, Secretary; Hugh Mahaffey, Tiler; Fred Brown, Senior Deacon; Roy Petty, Junior Deacon; Volney Day, Senior Steward: W.E. Tankersley, Junior Steward and Carl Garrett, Chaplain. Several Twenty-Five Year Emblems will be presented after the installation of officers. All Masons, their families and friends are invited to attend. Refreshments will be served

Dove Season Is Just A Heartbeat Away

after the meeting

Dove season is just a heart beat away and the Irving office of the Texas Parks and Wildlife DEpartment is already hearing from farmers and ranchers with land to lease for hunting and from hunters who need a place to hunt an have a few dollars to pay for it.

The Department office is acting as a clearing house to get the two interests together this year. It's working. Landowners will take in a few dollars once they get their shooting preserve books from Austin along with their license and huntera are finding some man- hours of fun.

If you are one, either of the above, write to W. R. Long, Texas Parks and Wildlife, 2728 Irving Blvd., Irving Texas Tell what you have or want. The price, the acerage involved, correct addfress and in cases of 1, landowners, hpow to get to the land, the telephone and area code. Letters will be matched in the irving office and hunters notifies where they can go and what price they may expect to pay for hunting.

The Reading **Program Off To** A Good Start

The Reading Program is off to good start at the Centennial Memorial Library. Many have already started but there is still lots of time to begin. We will have the whole month of July to read. What better occupation during these hot summer days? Posters and ribbons are awarded each; for grades 2 through 8. We have lots of new books as well as the old favorites. library is open Monday, Wednesday, Friday and Saturday from 2 to 5

p.m. Come to see us.

Growers Agree On Peanut Bill

tional Peanut Growers Group unanimously adopted a propoepresent peanut price support program. Following many months of negotiations with USDA and discussions with other industry segments and members of Congress the grower group . concluded that

present peanut program would in all probability be changed beginning with the 1975 crop. The National Peanut Growers Group Steering Committee meeting in Dallas on June 21 agreed that the best course of action seemed to be

the submission of a bill as acceptable as possible under present circumstances to growers. On June 24 grower representatives delivered their draft proposal to Representative Walter Jones, Chairman of the House Agriculture subcommittee for Rice and Oilseeds. According to Wilson a strong pitch was made to the subcommittee chairman in behalf of key points in the proposal deemed essential by grower

The major provisions of the draft delivered to the agriculture subcommittee included retaining the present 1,610,000 acres for allotment production; 70% of parity (net to producer) price support level for all allotment holders; authorization for excess production beyond and new growers with such production to be supported at the lower of 90% of the world market price as estimated by

CCC or 60% of the loan rate for allotment production and continuing legislation on a permanent basis. Other provsions of the proposal considered important by growers included mandatory payment of not less than loan price by buyers; mandatory use of area grower associations in administering peanut price support functions; movement of all excess production under complete supervision of grower associations; an assessment feature which can be made operative to reduce excessive program costs price support protection for produ-

According to Ross Wilson, cers marketing freeze damaged Southwestern Peanut Growers peanuts or peanuts with mold Association Manager, the Na- resulting from causes beyond the control of the producer; the removal of the present discresal on June 21 that would, if tion held by the Secretary enacted by Congress, modify th regarding lease and sale of peanut allotments so that this privilege is extended all allotment holders and a provision extending voting rights in referenda to allotment holders

The Association Manager stated that USDA has also submitted its proposed bill to subcommittee chairman Jones. Although there is agreement on many points by USDA to the grower version, there are some key differences. The USDA bill calls for a three year program, 1975-1977, USDA bill includes no assessment feature to stabilize program costs and USDA bill provides no support to peanuts other than those meeting U.S. Government faragriculture subcommittee will report a bill for consideration of the House Agriculture Committee. The bill reported by the subcommittee will in all probability represent a compromise between the grower proposal and that offered by USDA. Wilson stated that this same subcommittee favorably reported a target price plan for rice during the week of June 24. This may have been the result of a division of position among the rice producing states, he said. Peanut growers want no part of a target price plan. Therefore, he concluded, the National Peanut Growers Group Steering Committee is determined to remain united and speak with one voice in order to retain as much bargaining power as possible against odds that some commodity groups have recently found to be

New Office Deputy in the Eastland County Sheriff's Office is Louis Hollywood, 24, of Cisco. Hollywood is a former Sgt. on the Cisco Police Department. He is a graduate of the WCTCOG Law Enforcement School in Abilene and is a Certified Peace Officer. (Photo by James Dabney)

Rev. And Mrs. Donald Laing Are **Southern Baptist Missionaries**

The Rev. and Mrs. Donald K. Laing are Sothern Baptist missionaries stationed in Rio de Janeiro, Brazil. He is superintendent of production at the Baptist Publishing House and she is active in personal evangelism and homemaking. Appointed by the Foreign Mission Board in 1967, Laing and his wife spent a year in

Campinas, Sao Paulo, Brazil, studying the Portuguese language before moving to Rio.

Born in Tipton, Okla., Laing spent much of his childhood in Hobbs, N.M. There he began his publications career as a printer's devil for a local print shop. During his college years he worked for several printing companies and newspapers.

Laing attended Wayland -Baptist College in Plainview, and was graduated from Hardin -Simmons University, Abilene, with the bachelor of arts degree. He received the bachelor of divinity degree from Southwestern Baptist Theological Seminary. Fort Worth.

Mrs. Donald Laing **Entry Forms Available For** Miss Teenage Abilene Contest

Entry forms for the Miss Teenage Abilene competition sponsored by the Dr. Pepper Bottling Company of Abilene will be available within a few days at all locations where Dr Pepper is sold, according to Kay Denkoff, Pageant Coordinator. Due to delay in s shipment, the entry forms have not been available as early as had been previously an-

nounced. Interest in entering. the contest has been shown from Abilene and the surrounding area during the past few weeks and the necessary forms for entrants will be available with the entry forms. Local entry dedline is August 10, 1974.

Miss Teenage Abilene is open to all girls between the ages of 13 and 17 years old who are in good scholastic standing. The Miss Teenage abilene competition includes girls from 26 counties in the Dr. PPepper distribution area. Included in the counties are King. Stonewall, Coleman, Scurry, Fisher, Jones. Shackelford. Stephens, Palo P Pinto, Mit-Nolan, Callahan, Eastland, EErath Sterling. Coke, Runnels, triox, Tom .Concho. Crockett. Schleicher, and Sutton.

WThe winner of the Miss Teenage Abilene competition goes directly to the national Miss Teenage Abilene competition in L Little Rock Arkansas in November.

At the time of his missionary appointment, he was pastor of Calvary Baptist Church, Colorado City, Texas, and had and Sonya, 1965. previously served churches in

Winters, Dunn and Alvarado, Texas, and Urbana, Ark. He is married to the former Barbara Clark; born in Crockett, Texas, she lived in several other Texas towns before her family moved to Hobbs when she was

Mrs. Laing attended Wayland College, Hardin-Simmons University, Texas Wesleyan College, Fort Worth, and Howard County Junior College,

Second S.S. Increase Due

Big Spring, Texas.

The second part of a two step increase in monthly social security benefits will be included in checks delivered in July, according to Glyn Hammons, social security district manager

in Abilene. The overall increase will amount to 11 percent for most people getting social security payments. A seven percent increase was included in checks starting in April.

The increase will enhance the financial security of about 30 million people who get social security benefits". Hammons said. "People getting social security checks don't have to do anything to get the higher payments. The increase will be added automatically."

For 1974 the amount of yearly earning subject to social security deductions has been increased from the first \$10,800 to the first \$13,200, but there is no increase in the contribution rate. Employees and employers will continue to pay 5.8 percent each on covered earnings, and the rate for self-employed people drops to 7.9 percent.

The Abilene social security office is located at 142 South Pioneer. The phone number is 698-1360.

The Laings have four children: Jan, born in 1955; Lee Paul, 1958; DeWretha, 1963;

the State of Oklahoma.

Anybody who wishes to learn

more of God's word is invited to

Minneapolis, Minn., are proud parents of a baby girl, Sarah Elizabeth, who arrived July 4, 1974, weighing 7 lbs. and 81/4

Paternal grandparents are Mr. and Mrs. Monroe Rollins of Eastland. Maternal grandparents are Mr. and Mrs. H.F. Fleischer of Fort Worth.

Garry will receive his Ph. D. from the University of Minn. in

Funeral Services For Arthur R. Preslar Held Friday

Arthur R. Preslar, 82, of Eastland, died at 8 p.m. Wednesday in Eastland Memorial Hospital. Funeral was at 2 p.m. Friday at the Lawn First Baptist Church.

Elder Fred Boen, pastor of the Tuscola Primitive Baptist Church, officiated. Burial was in the Dewey Cemetery under the direction of Fry Funeral

Mr. Preslar was born Oct. 8 1891, in Georgetown and had lived in Taylor County for 40 years. He married Dora Graham in 1944, at Eastland and she died in 1947. He was a retired carpenter, rancher, and a member of the Baptist Church.

Survivors include two daughters, Mrs. Joy Cornetison of Temple and Mrs. Danny Love of Kansas City, Kansas, and four grandchildren.

Pallbearers were Clyde Lawless, Bartis Knight, J.C. Raper, Oscar Zimmerlee, L.A. Whitfield and Glen Johnson.

NEW MEMBER OF C of C is Gregg Van Lines Gregg Sedillo, owner, who purchased George Van Lines, specializes in local and long distance moving. Gregg Van Lines is bonded and insured and offer day or night phone service. It is located at 500 W. Main, phone 629- 2801.

Eastland County Historical Servey Committee Is Gathering Information **About Bankhead Highway**

The Eastland County Historical Survey Committee is in the process of gathering information related to the old Bankhead Highway in Eastland

Anyone who has any information, stories, facts, pictures, etc., concerning the Bankhead Highway, please let the Hispreferably by mailing the information to William L. Page. 515 S. Mulberry, Eastland.

A history of the road will be written as relates to Fastland County and an official historical marker is planned to be erected on the site of the original highway which is still 1/4 intact in its original state just east of

Eastland Memo:

Paradoxes are evident with Hummingbirds; one naturalist says they are without mentality, and others attribute much intelligence to them. The Hummingbird cannot walk or hop due to enept feet and legs. But they can fly 2,000 miles across the Gulf of Mexico. A cracking leag can scare them, yet, he may attract a hawk, or a crow. They resemble a bee in flight, but are constructed like a swift.

The Hummingbirds relationship with flowere, and the "humm" he makes, inspires manyy names that are colorful; from the Portuguese "Kiss The Flower" , to the Cuban phonetic "Zum, Zum" and Audubon described them as a "Giltterring Fragment of the Rainbow. 300 hundred colorful species are found wherever flowers abound in the Western Hemisphere.

From the largest Andes Hummer at over eight inches to the Cuban "Bee" Hummer at just over two inches, they require every 10 - 15 minute. His energy output per unit of weight is ten times that of a man running nine miles per hour. And the daily intake of sugar is equal to one - half the Bird's weight. Hummingbirds can pass into a suspended animation, ot torpor. At night using only one- twentieth their normal energy requirment. All Hummingbirds have an astounding memory, and will return to a feeder year after year. If the feeder is moved, he will hover there for a time looking for it, i and if he finds it, your can stand within a foot of it without causing nim concern. Colors, particulary red, attracts him, and red liquid in the feeder is most popular. Although other colors can be used with success.

The foregoing covers many facts that we think are interesting. A second part of this report will deal with data such as nesting, feeding, habits, routine characteristics, family aspects, raising the young, and other details. We will a s also report on the blachinned Hummingbird that is common in the Eastland area.

Save on home heating

bills . . . conserve fuel

with insulation that keeps warmth inside.

We're in the throes of a national crisis. There's a shortage of available energy. Unless each of us does his part in conservation there won't be enough fuel and electricity for all of us. Probably you're already doing your share . . . by maintaining lower speed limits, guarding against the waste of heating fuel and electricity. For the role you are playing in seeing us all through this crisis we wish to commend you. And encourage your fine efforts and cooperation.

Come If You Need Salvation, Healing, Deliverance, Baptism Of The Holy Spirit.

Change filters regularly. It takes very little energy on your part.

Replacing disposable filters or cleaning permanent type filters as required, is one of the easiest ways to help your cooling system do its job more efficiently and economically.

Clogged filters restrict the air flow your air conditioning unit needs. making the unit work harder and longer — which uses more electricity.

Here are some additional ways to help your air conditioning keep its cool:

Don't put lamps or other heat-producing appliances in the immediate vicinity of the thermostat.

Keep the outdoor unit free of shrubbery or other obstructions that might prevent proper air circulation.

Insulation can pay for itself by lowering your cooling (and heating) costs. You can save as much as 20% or more on energy consumption if your home is insulated to meet FHA standards.

For efficiency and economy, set the thermostat at 78-80 degrees. For each degree above 75 degrees, the energy used for cooling is reduced by 5%.

For more ideas on using energy wisely around your home.

come by Texas Electric or request our free efficiency tips booklet on the comment portion of your electric service bill.

examining what it s going to do

for you and second, what it will do to the other fellow. Maybe he will not find out and then no one will be hurt because of it. From those to observations we judge whether or not we are honest or dishonest. Should you decide that the action is dishonest, vet guilt, you are only being true to yoru dishonest self. Man is a valuing being. In your central self where you live, the gut level of life, you value. Values come from the deep mind into the conscious mind where thoughts and attitudes are formed and expressed through actions and

habits. The ninth commandment says that thou shalt not bear false witness. It means that you will not lie if you wish to be a healthy human-emotionally, mentally, spiritually and physically. If you believe ill health is better than health, then I cannot talk to you. If you agree that health is better than ill health. we can dialogue. We have the commandments, so that to be obedient to the negative principles we can move to the positive. Thou shalt not lie is a negative principle. It says if thu Car shalt be real, do not lie. This destroys inner trust and relatedness. You will come to the place where you do not know who you are. Your character deteriorates and right seems

wrong and wrong seems right. As a Christian, I am not bothered with legalism but I do struggle with submerged legalism. The head and heart do not operate in unity. Sin did this. I do no thave honesty in myself.

Students from Eastland High School were among approximately 175 vearbook s staff members and advisors participating in the fifth annual Angelo State University Yearbook Workshop held on the San Angeo camous June 24-28. The five day program included sessions on all aspects of yearbook production in addition to numerous social and recreational activitries.

Those attending from left to right are: Carol Terrell, daughter of Mr. and Mrs. M. T. Terrell of 308 Ammerman; Debra Woods, daughter of Mr. and Mrs. Danny Woods; Victori Wilson, daughter of Mr. and Mrs. H. T. Wilson of 512 S. Ammerman; Shirley Thompson, daughter of Mr. a and Mrs. H. L. Thomppson of 607 S. Madera; and Sharon McCloud, daughter of Mr. and Mrs. Austin O. McCloud of 515 Lamar.

Preacher Says By George Sims

A FLOWER CALLED HONESTY

Is honesty the best policy? How about a white lie? Sometimes we have to tell a partial truth! To be honest is being true to oneself?

Webster's dictionary says 'honesty' is a state of being: to be honorable; to be held in respect; to be creditable; to be commendable. The definition continues and tells what honesty refrains from: lying, cheating and stealing. Honesty has taken a back seat

to deception in our day. People who find Christianity a religion to attend on Sunday, fail to live the Life which it is. We vote Congressmen and government leaders into office. They say they will vote against gambling and drinking and abortion. In their private lives they do a little gambling; drink of alcoholic beverages is the common norm: and their morality is often questionable. He will never be able to betray what he is. If he is deceiving the public and we know it and vote for him anyway, we should not expect him to vote the way we think but the way that he is. Where are our Christian politicians? Even here in Eastland, if you have enough money, you can move some people around. What a person is, will finally determine his actions, and not what we hope or think he should be.

Honesty is a state of being. It is a judgement that you pass upon yourself. Consider an action that you intend to do or have performed. You begin by

Honesty says that the head and heart must go together. This is the worse thing sin has done, not immorality. How do we get out of this inner division? Spiritual bankruptcy must be acknowledged. To refuse to acknowledge and you are like a you do it anyway and bear the - cloud without water. It crosses over the land and leaves it dry. Out of spiritual bankruptcy God will bring head and heart together. We will no longer serve the law in our heart and God in our head. As we do this

> found to be true. Then we progress into veracity: habitual truthfulness. There is a co plant with large purple flowers: so called because it has semi-transparent pods. To be honest is to be transparent. I let you see me just as I am, not complicated but real! First Baptist Church

we move from honesty to

probity: it has been tried and

More than half the llegal entrants cross the Rio Grande into Texas.

Neighbor Good Commission said the number such entries is greater than the total number of immigrants who entered the U.S. legally from all the countries of the world.

Last year, the GNC noted, 575,000 deportable Mexican aliens were found in the U.S., and immigration officials figure one escapes for every one apprehended.

Sophisticated smuggling techniques aid the

Immigrations have a ~!~!~!~!~!~!~!~!~!~!~!~!~!~!~!~!~

DECLINE - Fewer Texans got welfare benefits last year, the Department of Public Welfare reported. The department's

annual report showed Old Age Assistance was down from an average of 210,000 monthly in 1972 to 182,000 in 1973.

WELFARE ROLLS

Aid to Families with Dependent Children declined from a peak of 121,588 in February 1973 to 118,681 families in July.

COURTS SPEAK - The State Supreme Court held unconstitutional a new state law regulating juke boxes and other coin-operated amusement machines.

Attorney General Hill called on the U.S. Supreme Court to accelerate a Texas case challenging impoundment of water pollution funds by President Nixon.

Austin, San Antonio and Lower Colorado River Authority called on the Third Court of Civil Appeals to require the Texas Railroad Commission to force Lo Vaca Gathering Company to live up to its gas supply contracts.

The Court of Criminal Appeals upheld a life sentence given a Dallas man for assault to murder a police

A hearing was set in the Supreme Court for July 17 on whether two elderly sisters can get back \$100,000 and 7,500 acres of land they gave to the Stephens County Museum, Inc.

The high court ordered the Dallas Court of Civil Appeals to take another look at adequacy of a \$4,146 damage award given a Van Zandt County man who was bitten on the hand by a neighbor's hog.

OIL ALLOWABLE SET -The statewide oil allowable for July was fixed by the Railroad Commission, for the 28th straight month, a 100 per cent level.

Major crude oil buyers

asked for 3,843,362 barrels of oil daily in July, a decrease of 36,087 from June.

Commission Chairman Jim Langdon pointed out that the U.S. still imports 1.5 billion barrels of crude annually — a "very long way" from self-sufficiency. Exceptions to the 100

per cent order were East Texas and Kelly-Snyder fields which were restricted to 86 per cent production. BEAUTIFICATION AWARDS MADE - Seven

cities received Governor's

Achievement Community Awards for outstanding beautification community projects during the last year.

Winning cities were Stanton (under 2,500); Eastland (2,501 - 5,000); Athens and Jacksonville 5,001 - 10,000); Lufkin 10.001 20,000); New Braunfels (20,001 - 60,000) and San Antonio (over

Eighty-six communities

submitted entries in the competition. Awards were made at the seventh annual meeting of the Beautify Texas Council here.

BUDGET HEARINGS START - Hearings of the 1976-77 state budget - the first to use the new zero-base system - are under way

Some of the early requests by state agencies reviewed by the Legislative governor's office are running almost twice current spending.

Requests, under the new plan, are divided into three - bare minimum middle bracket and highest

Accent on Health

poisioning and none generally thinks of a host of potentially lethal household substances which a child could have imbiled not knowing the dangers involved.

But officials at the State Health Department are quick to emphaise that the dangers of poisioning are not restricted to items within the home. Potential sourses of poision thrive in backyards and gardens all across Texas. The little know sources of thes common, gardenvariety plants.

Most plants are harmless. Many are poisonous under centain conditions. A few are poisonous under all contidions. More than 700 speciesl of plants

Hearing Aid. Sales and service and repair on all brands. John W. Clinton, Box 1206, Cisco, Texas. ■

to have caused death or illness. Each year about 12,000 children in this county chew or swallow potentially poisonus plants.

The poisonus nature of a plant is caused by the presence of one or more kinds of sub-There are some substances which are themselves toxic to animals: and alkaloid, for example, is the toxic principle in poison Other substances are peptially harmless but may decompose to form toxic products soon after eaten- - an example is glucodside, a suger produced in wild cherry which changes to form the highly toxic prussic asid. substances are formed by the action of micro- oragnisms on plants: a fungi on moldy hay forms decomposition products. some of which may be toxic. Still other substances are asorbed directly from the soil

and stored in harmeful

quantities in the tissues of

certain plants; selenium, tor example, may be found in some species of locoweeds, or potassium nitrate may be present in oats.

To the average person, the term "poisonus plant" suggests on that poisons upon contact, causing a mild or severe dermatitus or skin irritation. Texas certainly has its share of the plants known to be capable of causing such variations, says the State Health Department officials. Possibly the most familiar are the leaves, bark, and fruit of poison ivey and poison oak.

But did you know that hairy leaves and stems of parsnip and lady slippers, the milky juice of spurgesm, and the leaves of cultivated primrose are also caous of dermatitus'0 Lily bulbs and stalks, stinging nettles and vanilla beans likewise have toxic qualities. and are c capable of producing severe skin irritations.

Most poisonus plants are harmeful only when they are eaten. n the case of nitratecontaining plants, the nitrate content is reduced to the toxic substance. This substance then enters the blood stream and changes the red pigment of the blood in such a way that it is incapable of transporting oxygen to body tissues. The result is suffocation.

Poisonus mushrooms, mostly toadstools, cause more than 100 fatalities in this country each year. Daffodile bulbs, larkspur seeds, lily of the valley flowers, and jasemine berries are all narmful it if eaten. So, too, are trhe leaves of the poinsetta and oleander bush, and all parts of buttercups, rhodonendrons, and laurals. In some plants, onl particilar parts are toxic. A classic example is the rhubar which has a perfectly edibile stalk, but contains a deadlyb poison in the leaf.

Contact poisoning can be prevented best by learning to recognise the plants and avoiding them. Of course, it is always prudent to w wear protective clothing such as le leggins and gloves when venturing into areas where poison plants are know to grow. If you are exposed to a

poisonus plant, immediately wash the contacted area with laundry soap and a water to remove toxic resins.

Measurescan alsobe taken to prevent the accidental eating of Keep children away from the plants and teach them not to chew plants sterms or to put plant parts, such as berries, or bulds, in their moutns.

If your child does eat a plant, and you are uncertain whether it s is poisonus, immediately call a doctor. He, in return will contact on e of th 21 Poison Control Centers near you for the expense of others.
