Mishaps Reported Christmas Day

A good example with no accidents, or fires reported, and is very unusual as is always filled with mishaps.

urate throughout the season in being without fires as it was Christmas day. Four fires were reported December 23rd and 24th.

The most serious was in the C. H. Tankersley home four miles north of Morton Valley Saturday. The fire is believed to have been caused by a stove explosion in the kitchen. No one was injured and no extensive damage to the house was reported.

Two other of the four fires were reported Saturday. One was a car fire at Hillcrest and Main Streets west of the city.

About the only damage to the automobile was a tire which burned.

A grass fire at 808 S. Dixie, also reported Saturday, did not do much or harm surroundings.

The fourth fire, reported Sunday, was another grass fire on West Patterson. No harm was done by this fire either.

Latest figures available for the railroads show that they paid \$26,779 in taxes in Eastland County for the benefit of schools, county and city operations and for road and bridge funds in 1959.

Rep. Scott Bailey Explains State's New Medical Plan

Rep. Scott Bailey released the following information on the State's new medical care plan today. Bailey said that he hoped that this information would be of help to persons interested in this program. He said that in a series of questions and answers might be the best way to bring out the various points of the new law.

Q. Who is covered by the new Blue Cross hospitalization insurance policy bought by the state for the aged?

A. Only persons on the state's old-age assistance rolls as of Jan. 1, 1961 and thereafter.

Q. How do you apply for this policy if you are eligible?

A. No application is necessary. Everyone on the rolls will be mailed a card certifying that they are included in the plan. These cards should be mailed with the Jan. checks.

Q. Is there a lot of red tape to get admitted to a hospital under the plan?

A. All you have to do is present your card to the hospital, which then checks with the local office of state department of public welfare to be sure that you are still on the roll.

Q. Can a beneficiary go to the hospital under the policy any time he wants to?

A. No. You may be admitted only if your doctor says that hospitalization is necessary. Also 90 days must elapse between each discharge and the next time admitted.

Q. How much of the hospital bill does the policy pay?

A. It pays \$10 a day on the room and board, plus all the additional hospital services, such as laboratory, operating room and drug fees for 15 days. It doesn't deduct the cost of blood or plasma—no Blue Cross policy does. After that it pays \$5 a day room and board and half the cost of hospital services, arrangements to pay the balance is a matter to be decided in conference between the patient and the hospital.

Q. Does it pay the doctor bill?

A. The policy allows a maximum of \$200 in surgical fees and \$3.00 per day for other hospital treatment by a doctor for 15 days. After that it pays \$1.50 for hospital visits by a doctor.

Q. How did the state pick Blue Cross to write the policy?

A. The contract with Blue Cross was awarded on the basis of bids. The state welfare board decided that Blue Cross offered the best policy for the money. The other companies that bid were Continental Casualty Co. of Chicago, and Mutual of Omaha.

Because of the length of this series, another article next week will continue with questions and answers concerning the cost of the program. If you have more detailed questions, you should contact your county office of the state welfare Department.

30 Years Ago Eastland Told To Forget Oil

As Eastland people began looking toward a new year, it may be interesting to note that 30 years ago Eastland, residents were advised to forget oil and develop farms.

quoted as saying, "Forget the oil business and turn your time, money and energy to developing the agricultural, livestock, poultry and dairying industries of the county."

In the Thursday, January 1, 1931, issue of the Eastland Telegram, J. E. Lewis, vice-president and general manager of the Texas Electric Service Company, is

He made the statement when asked by a representative of the Telegram for a statement as to what he thought of prospects for the new year.

Mr. Lewis said that too much stress cannot be placed on the importance of the sheep and goat industry in this county.

He said that his company was ready and willing to co-operate in every way possible with other agencies in developing to the fullest extent all of the resources of this section.

"We are contemplating no reduction in our forces and no reduction in salaries," he said.

Mr. Lewis thinks that the financial depression we have been going through has struck bottom and that we are now on the upgrade. He thinks however that the "come-back" will be gradual just as the decline was gradual.

Rural Safety Hero Sought

Somewhere in the state is a person the Texas Farm and Ranch Safety Council would like to honor for his or her contribution to farm and home safety.

The person sought may be your neighbor or friend who, during the past year, risked personal injury or even death in performing an act of heroism.

While the Texas Rural Heroism Award specifically honors one individual for exceptional bravery at a time of crisis or disaster, the safety program points up this highly important objective: the continuing need for improved safety conditions in our rural areas—at work, at home and at play.

The award may go to a person credited with pulling another from a burning building, saving a drowning person or a performance during a time of widespread disaster, such as work done in connection with a tornado, hurricane or flood.

County extension agents, teachers of vocational agriculture, firemen, peace officers, foresters, farm organizations, church and community groups, judges and all others interested and active in rural events have a special invitation to submit a nomination for this most worthy award.

The nomination should include a narrative covering the act in detail. The names of persons involved should also be included along with news clippings and pictures if available.

The state winner will be named by a panel of judges, based upon the material submitted on the nominee. The award, a beautifully engraved plaque, will be presented as a highlight of the annual Texas Safety Association meeting in Dallas next March. (Continued on page four)

'Traffic Laughs'

Somewhat on the lighter side than the other safety story, we are reminded of some "traffic tracks" which we will share with you, and we hope that they will "stick with you" while traveling in your automobile during the Christmas and holidays.

"You can no more tell a man he is a poor driver than you can tell him he has no taste, no sense of humor, or appeal for women.

Sign on Idaho roadside: "Don't just sit in the car quietly. Nag your husband."

In Detroit, a patrol car was rammed from the rear by a driver who apologized for not noticing it. His explanation: "I was looking in my rear-view mirror to see if a patrol car was chasing me!"

Good drivers are made, not born.

Sign near a New Jersey intersection: "200 yards to cross road. Better humor it."

Sign near school: "Use your eyes but save the pupils."

A 72-year-old citizen of St. Petersburg, Fla., after driving 48 years without an accident, voluntarily surrendered his driver's license. Surprised police said it was the first time this ever happened to them, but the man explained: "I'm quitting while I'm still ahead!"

Though traffic signs they disobeey, Kids always have the right-of-way!

From Keep America Beautiful, Inc.: "Litterbugs" annually toss enough trash on U. S. highways to project a standard two-lane highway, paved with debris a foot thick, some 30,000 miles into outer space."

Both Texas and national automobile statisticians now estimate that if highway crashes are continued at the present rate, every other person now alive either will be killed or injured in one.

A teen-ager can prove he is beginning to grow up by deciding it is more important to pass examinations than the car ahead.

From Carolina Highway Magazine: "Few things are more enjoyable than parking on what's left of the other fellow's nickel."

A ROUGH RIDE IN 'WORLD SERIES'

The top cowboys of 1961 who will compete in the National Finals Rodeo Dec. 27-31 at Dallas are due for the roughest riding in the sport of rodeo. Pictured is Harry Tompkins of Dublin, Texas, world championship cowboy of 1960 who again has qualified for rodeo's "world series" in Dallas.

The Readers Write

Eastland county is receiving a lot of publicity in connection with the school consolidation idea but I hope the people of the county become alert to what is in the air before it settles with a "thud."

I have studied the principles and standards for the accrediting of schools, the approved courses listed, and find that there are certain requirements made by the state, others are made by the school district, and other subjects are electives for the student to choose from.

The advocates of consolidation have an uncanny way of taking portions of research reports and trying to make it fit the situation here. Dr. Conant says in THE AMERICAN HIGH SCHOOL TODAY that a comprehensive high school is a high school whose programs correspond to the educational needs of ALL the youth of the community.

The opportunities are to be up to the student to take advantage of these opportunities. Parents and friends need to encourage all young people to realize what a great chance they have to learn about so many things.

Many boys who quit school and go into the service soon realize what an education means. Many of them take a new look at themselves and get to work to get a better education, finish high school or go on to college.

These are important things. T. S. Elliot tells us, "No one can become really educated without having pursued some study in which he took no interest — for it is a part of education to learn to interest ourselves in subjects for which we have no aptitude."

Enclosed is an article that appeared in our Oklahoma City paper which I thought might be of interest to the people of Eastland.

I certainly was a pleasant surprise to me to open our paper and see a familiar face. I'm sure you are wondering who I am and imagine you will best remember me as a red headed, freckled face girl that lived near you in dear old Carbon.

I would imagine it has been nearly 15 years since we have seen each other. I have been away from there over 7 years except for occasional visits, however the happy times are always nice to remember.

I haven't forgotten you falling through the ice on the Martin tank. I sincerely hope this article will be of some interest to your paper.

With best regards, Janice Richardson Novak Ed. NOTE: Mrs. Novak is the daughter of Mr. and Mrs. Herbert Richardson, lake keeper at Lake Leon. They were good neighbors in Carbon — and yes, I do remember falling through the ice on Martins' tank, the favorite ice-skating spot.)

Dr. Conant tells about how the students of European countries are educated. They are selected for pre-university school on the basis of academic ability but family tradition plays a big roll in this selection and many boys and girls from the farm and working class never even think of trying to enter a pre-university school.

There is much concern over costs of the new school, operation costs, maintenance, etc., the more we ask of government the more the citizens of that government have to dig down in their pockets to pay the cost.

Publisher's Report

(Continued from page One) the street attached to light poles. It looked real impressive, especially from a distance.

BACK IN World War II, Mr. Tom Smallwood of Cisco was an electrician down at the Army camp in Brownwood. When a good many prisoners of war were sent there from Germany, he was assigned one of them as a helper.

The two men got to be good friends before it came time for the German to be sent back home. Every Christmas since that time, Mr. Smallwood has received a greeting card with a note from his POW friend. And a few days before Christmas, an air mail card always goes out from the Smallwood home to Germany to carry a similar message.

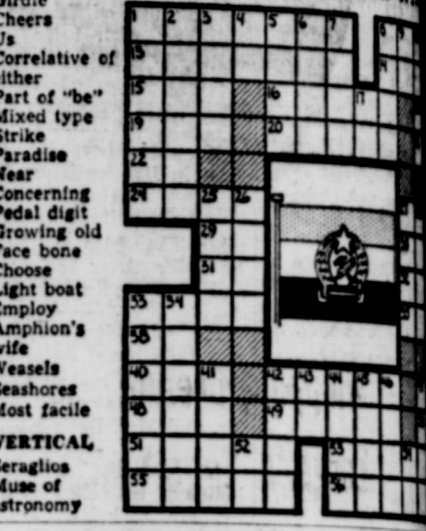

Tom has added to the Christmas decorations at their home in case you'd like to drive by one night this week. They live on West 18th Street.

COMES THE monthly news letter from Holland to report that all is well with Danny Boyd and family. It has been a couple of years or so since the former Church of Christ minister left Cisco to do missionary work in Holland. We send him The Cisco Press (a bundle of them for each month) at the end of the month) and they keep up with their old friends.

Shrine

(Continued from page one) Methodist are the West team members. The West holds a 17 to 15 edge in the annual series of games. Four games have been ties. Last year's game was a close 7-0 victory for the East.

A capacity crowd of 60,000 is assured for this year's game. Last year's game netted \$250,000 for the Shriner hospitals for crippled children. More than \$3,000,000 has been realized for this outstanding charity by the games. The first game in 1925 yielded \$25,000 and the earnings have generally increased each year.

Once again an accompanying highlight of the game will be a dramatic and colorful tabloid of some 4,000 marching Shriners, bands, drum majorettes, plus military and other units on the field before the kickoff and during halftime.

Some of football's immortals have participated in this annual game of games, played for what has been termed the "world's greatest philanthropy". These include Bronko Nagurski of Minnesota, George McAfee of Tennessee, Dick Kazmaier of Princeton, Tom Harmon of Michigan and "Wild Bill" Kelly of Montana, as well as such current pro stars as Paul Hornung, Kyle Rote, Ollie Matson and Eddie LeBaron.

The game is renowned for the effect it has on the participating players. The two squads of players make a pre-game visit to the Shriners hospital for crippled children in San Francisco so that they may see for themselves the inspiration for the game's slogan, "Strong legs run that weak legs may walk."

Donald Saverance of Andrews, brother-in-law of the bride, served as usher. Given in marriage by her father, the bride was attired in a formal gown of chantilly lace and silk organza fashioned with a fitted bodice, long sleeves and a bouffant lace paneled skirt. Seed pearls and iridescents enhanced the Sabrina neckline and were embroidered in floral designs on the front panel of the skirt. Her fingertip veil of silk illusion fell from a lace and tulle headdress highlighted with seed pearls. She wore a bracelet belonging to her grandmother and carried a white Bible topped with a white orchid. The reception followed in the home of the bride's parents. Members of the houseparty included Misses Janet Meyers and Linda Hallmark and Mrs. Charles Morgan. Mrs. May is a 1961 graduate of Carbon High School and is presently attending Tarleton State College in Stephenville where she
