State Fair Gets Underway Saturday

There will be a greater variety of exhibits at the 1961 State Fair of Texas in Dallas, Oct. 7-22, than ever before. And all free for the looking. The exhibits will range from agriculture to automobiles, from art to astronautics. At least a dozen foreign coun-

tries from all over the world will have elaborate exhibits in the Texas International Trade Fair. The Space Age will be emphasized by a "Project Mercury" exhibit that includes a replica of the capsule like those in which America's first astronauts were launched into space.

The Automobile Show, one of the biggest in the country, will have many of the new 1962 model cars on display. For contrast, the Antique Auto Show will hark back to the gas buggies of a bygone era. "Agriculture Touches You" will show what agriculture means to the ultimate consumer.

A fully-furnished three-bedroom model home will be open for display as a showcase for new gas industry innovations. It is billed as a "house of surprises."

super-market of electrical conveniences, where fairgoers can see all the latest models of appliances and equipment all under one roof.

The Home and Family Show in the Women's Building will include numerous model kitchens as well as home furnishings, appliances and housewares and other exhibits of interests to home-makers.

There will be a Future Farmers Children's Barnyard, where farm animals and their young'uns will be on display to delight the kiddies. And a feature of the Play-time USA exhibition of leisure-

time equipment will be a trout pond where fairgoers can fish for their dinner.

The livestock exhibits will include some of the nation's top purebred champion cattle, sheep and hogs in the Pan-American Livestock Exposition and the finest animals raised by Texas youngsters in the Junior Livestock Show. Horse shows in the Livestock Coliseum will all be free.

The permanent museums on the fairgrounds all will have special exhibits. One of the most interesting will be models of inventions by the 15th century genius, Leonard da Vinci.

Dear Editor:
I started to school in 1893 to Prof. Crott at Howard School, three miles north of Desdemona. I was seven years of age. Next to Prof. Woars, then Prof. Hamilton, and then to Prof. Anderson, Prof. Perkins and Prof. Thompson.
Then we moved to Desdemona and the first one was Prof. Horton and he married Laura Herrington. Then the Hankins Bros. taught at Desdemona. I went to them nine months.
They taught nine months at Gorman. I went there and got a certificate to teach. Got a school

at Hog Creek, three miles south of Desdemona and taught there 15 years. Married a Miss Elna Sporer who lives five miles west of Desdemona in 1908.
Then in 1919 a wonderful thing happened. A Mr. Collum came to the school where I was teaching and asked me if we wanted to drill an oil well there. I told him I would call a meeting and see. I told all the children to tell their parents to come to the school that night. A large crowd came. Mr. Collum made us a proposition and we accepted it. They started the well on March 1, and on Sept. 2nd, the well came in. That was the beginning of the Desdemona oil boom.
I moved to Stephenville and still live here.

(Ed. Note—Mr. Palmer, who is 78 years old, wrote for another years subscription to the Telegram and to tell us how much he enjoys the paper. He

included the information about early-day school and oil news, which should appeal to most readers.)

Come in and take a good look at the car that makes the beautiful difference in the low-price field!

This year, beyond any doubt, the real luxury car of the low-price field is '62 Plymouth. Beautifully different outside, with crisp, new, action-inclined lines—richly new inside, with handsome, color-harmonized fabrics.

BEAUTIFUL—AND BUILT TO LAST
Most outstanding of all, however, is the lasting character of Plymouth's new beauty. Built in by Chrysler Corporation's quality-engineering, it is evident in Plymouth's Unibody construction, Torsion-Aire suspension, and battery-saving alternator. It is further apparent in '62 Plymouth's new, pre-lubrication system, that permits 32,000 miles between "tube jobs" on major chassis points—its new, twice-as-long oil change interval—and many more quality-engineered refinements.

VISIT US TODAY
You've seen '62 Plymouth's beauty and performance on the road. Examine its quality, close up, at our showroom, now! We'll gladly arrange a personal demonstration!

The Eastland Jaycees Wish To Extend Their Appreciation To Everyone Who Helped To Make The 2nd Annual Peanut Bowl A Success.

We Trust That We May Have Your Continued Support Of Our Various Projects And Assure You Of A Bigger And Better "Peanut Bowl" In 1962.

Babysitters were hard to find, so Mary Jane decided to take her year old son Billy with her to the supermarket. She placed him in one of the many shopping carts provided by the supermarket which have a seat for young children, and began shopping for groceries. A few minutes later, while Mary Jane was still shopping with Billy in the cart, the seat in which he was sitting came apart, letting him fall to the floor.

Mary Jane brought a legal action against the supermarket for the medical expenses she and her husband had incurred as a result of Billy's fall and resulting injuries. The store manager claimed that the mothers, not the supermarket, were liable for the safety of children brought into the store, and that any injury to Billy was not the store's fault.

Can the supermarket be held liable?

Yes, said the court. The proprietor of a place of business furnishing his customers or invitees with shopping carts or baby strollers must exercise reasonable care in the selection and maintenance of such devices. The storekeeper who invites mothers and children to his establishment for the purpose of selling them his goods is duty bound not to injure them through the lack of due care. The very nature of a device such as a baby stroller or shopping cart calls for particular care in examining them at such intervals as would assure their users of their safety and reliability.

Shoppers in supermarkets must themselves use ordinary care not to injure others with shopping carts. The "rules of the road" do not apply to carts in grocery stores, and ordinarily the storekeeper will not be held liable for injury to one customer by another. The store is liable for the care and maintenance of the carts and the safety of the premises, and the customers are liable for their operation of them.

In this case, Billy's fall was due to the improper care and maintenance of the shopping cart in which he was riding, and not the carelessness of his mother or another shopper. Therefore, the supermarket was held liable.

Auto Insurance Up Only \$6 Since 1938 -For Few In County

Approximately 55% of the private passenger automobiles in Eastland County can now be covered for basic limits public liability insurance for only \$6.00 more than the same insurance cost in 1938 due to the use of insurance classification plans, the State Board of Insurance announced this week.

To give a specific illustration: basic limits public liability insurance (bodily injury and property damage combined) on a private passenger car, used only for family purposes, and not owned or operated by a male under 25

years of age, and principally garaged in a town or city in this county now costs \$36.00. If the owner and his co-resident operators are accident and conviction free under the Texas Safe Driving Plan a 20% differential is allowed which would reduce the rate to \$29.00.

In 1938 the same insurance on a private passenger car in a city or town in Eastland County would have cost \$23.00.

Approximately 55% of the non-farm private passenger cars in such county are entitled to this reduced rate.

Farm automobiles carry a lower rate because they are not exposed to hazard in the same ratio of benefit from the Safe Driving Plan in relation to former costs as the non-farm cars will receive.

The purpose of insurance classification plans is to allocate more of the cost of insurance to the class of risks which result in the most losses.

Classification begins with type of motor vehicle. If a private passenger car, then classification for liability insurance is by territory where principally garaged, use of the vehicle and driver characteristics.

On physical damage, including collision, fire, theft and comprehensive insurance, the first price of the insured automobile and its age are also considered.

Rates are made separately on commercial types of motor vehicles from private passenger cars,

1962 MERCURYS
best-looking buys...now in each size

FIRST SHOWING! THE NEW 1962 MERCURYS (COMPACT AND BIG)

MERCURY COMET
smartly ahead of the compact crowd

MERCURY MONTEREY
the best-looking buy for the big car man

HIGHLIGHTS: COMPACT MERCURY COMET. Talk value and you're talking Mercury COMET. It's the compact with the extras that make the difference. Take beauty. This is the only compact with fine-car styling. You get extra room plus a smoother ride (up to 7.5-inch longer wheelbase than other compacts). Extra trunk space for as many as six extra suitcases. Extra savings on oil and upkeep. This year you can drive 6,000 miles between oil changes. A new type anti-freeze, anti-rust coolant lasts two years or 30,000 miles. Extra resale value, too (best record of any compact). The price? With or below most compacts.

HIGHLIGHTS: BIG, LUXURIOUS MERCURY MONTEREY. This is Mercury's finest car. The very top of the line. It is specially built for the big-car man—with those big extra values a man likes. More room than other cars near its price—for long legs and big families. An extra-long wheelbase (120") for that solid, luxury-car "feel." A smoother, quieter ride—the result of exclusive Cushion-Link Suspension. A wide engine choice—"6" or three V-8's. Plus the kind of savings that really cut upkeep. Routine service is needed only twice a year (at 6,000- to 30,000-mile intervals)! The price? Well within the popular-price range.

WIN A 1962 MERCURY AT OUR ANNOUNCEMENT SHOWING. 18 CARS GIVEN AWAY. 12,680 PRIZES IN ALL!

**Men, Children Crowding Ladies
In Trading Stamp Enthusiasm**

Women, make room! Men and children like trading stamps too. According to the Trading Stamp Institute of America, this year has been an even greater growth in interest in trading stamp merchandise on the part of men and children the country over.

Recognizing this trend, an international trading stamp company has introduced in its new catalog special sections of appeal to men and children, and in addition, has expanded its lines of gift items in these categories by a substantial percent.

Gold Bond Stamp Company has announced that it is releasing its new gift book in parts of Texas beginning Sept. 18. The catalog will be available to all Safeway Stores here, said Gordon Pearson, Dallas Division Manager of the trading stamp firm.

The new Gold Bond book is the first trading stamp catalog to have a special insert section of toys and sections of special appeal to men and to the women who shop for them.

Home furnishing items in the book have been increased by 40 per cent. This increase was due to the fact that more than one and a fourth million new homes are being built each year and 24 per cent of the country's population moves each year.

Catalog merchandisers have increased sporting and outdoor living items by 30 per cent. "Supplying sports enthusiasts with equipment has become one

of the country's biggest industries, more than two and a half billion dollars a year," Pearson said. "And of course shorter hours, plus a shorter work week, gives the average person more free time than a generation ago — about 1,500 hours more in fact."

For the first time Gold Bond is offering Pan American airline tours to Europe and South America.

**I Give You
Texas**

Pat Neff was, perhaps, the last of the Texas orators in the grand tradition.

He was tall and handsome, with features like those of a Roman senator—a toga would have been perfectly appropriate for him. He had an impressive manner, a deliberate form of utterance, his sentences were long, his diction elevated.

The first time I heard him speak he was governor and the occasion was the laying of the cornerstone of Texas Tech. His rhetoric was worthy of Cicero. The next time, he spoke in the open air at the summer commencement at T.C.U., sometime after his second term as governor. Still another speech I recall was at the State Democratic convention in Austin in the 1940's. He was then close to 70. His form was as straight, his voice as clear and his command of language as great as ever. He spoke for half an hour, making what was easily the best address of the convention.

Afterward, reporters asked for a copy of his speech. He replied that there was none and pointed to a small card on which there were a few notes.

Death some time ago claimed a long-time friend of mine—Clyde Garrett, who served as Eastland

city manager, as county judge and as Congressman.

When he was making his first race for Congress, he called at my office in Fort Worth where I was publicity director of the original Casa Manana. Vice President Garner was to attend the show that night and Judge Garrett hoped that I could arrange for him to meet the vice president but Garrett's opponent was then a Congressman and the official in charge of the tour bawled me out for making such a suggestion. (It so happened too that the incumbent had named a relative of his as a postmaster.)

His violent reaction so antagonized me—plus the desire to try to help my friend—that I arranged for a photo of Judge Garrett being pushed in one of the picturesque little sight-seeing carts by another county judge; also the suggestion was made that, when the vice president entered the gate, Judge Garrett be in the crowd and join in the applause. Then next day the papers carried the picture and said that Judge Garrett was on hand to "join in welcoming" Garner.

Clyde Garrett was in Eastland County when oil was discovered and he made a fortune which was swept away when the boom collapsed. But he did not let the experience banish his smile or vanquish his spirit but went on to a career of distinguished public service. He was capable and conscientious—a genial gentleman.

Savings Bonds Get Ten-Year Extension

Some half-million Americans who own Series H Savings Bonds bought between June 1952 and January 1957 are in for a nice surprise—one that will bring extra money into their pockets.

Guy Parker of Eastland County Savings Bonds Chairman, calls attention to a recent change in Treasury regulations permitting owners of these maturing H Bonds to continue holding them for an

additional 10 years at a higher rate of interest—a straight 3 1/2 per cent annually.

Parker pointed out that these H Bonds were originally issued to pay an average of 3 per cent annually for the nine-year, eight-month life of the bond. "In 1959 this rate was increased so as to bring the final yields to maturity up to a range of 3.12 per cent to 3.36 per cent. Under new regulations, these particular bonds, the first of which matures in February 1962, will return in semi-annual interest checks a straight 3 1/2 per cent interest during the extension period.

"Holders of these Series H

Savings Bonds will be notified by the Treasury of the extension privilege granted them when they receive their next to last interest check. Owners will not have to do anything about extending their H Bonds. This is automatic. As long as the H Bond is not redeemed, the owner will continue to draw semi-annual interest checks at the new, higher rate of 3 1/2 per cent interest for a full ten years."

The Series H Bond when introduced in June 1952, was custom-made to satisfy the needs of Americans who wanted a current-income bond which would be free from market fluctuations and would possess the same safety features and guaranteed interest rate as the popular Series H Bond. There are now close to one and one-half million H Bond accounts with an investment of some six billion dollars. Nearly 160,000 new accounts are opened yearly. Yearly H Bond sales now approach a billion dollars.

Secretary of the Treasury Douglas Dillon recently stated that "this new extension option for Series H Bonds is a well-deserved reward for the citizens who have held the securities for their full term. It is a reminder, too, that the opportunity of U. S. Savings Bonds by every family is important to the economic strength of our nation, and is thus a contribution to the cause of peace and freedom around the world."

Time Extended One Year for Gasoline Refunds

The Eastland County Farm Bureau announces that the time for claiming non-highway gasoline refunds has been extended to one year, instead of six months. Refund claims can be filed at any time (once, twice, or more times per year), provided that the exemption certificate is not more than one year old.

The Claim for Refund is now filed on a simplified form, which has a total of eight questions to be answered when refund claim is submitted. The exemption certificate that must accompany the refund claim may be obtained at the Eastland County

Scores of Events Planned for State Fair

There will be something exciting and different going on every one of the sixteen days of the 1961 State Fair of Texas, Oct. 7-22. Literally scores of special events have been planned to carry out the 1961 Fair theme of "Exposition of Music."

To help Texans plan their visit to the State Fair, a sampling of some of the major special events is listed as follows:

An old fiddlers contest in the bandshell and a gospel song festival in the Cotton Bowl will be presented Monday, Oct. 9. The annual Texas Music Festival on Tuesday, Oct. 10, will bring some 4,000 of the most outstanding high school musicians to the Fair for concerts during the day and a massed spectacle of bands that night in the stadium.

On Thursday, Oct. 12, it'll be Circus Night in the Cotton Bowl, when Gil Gray's famous three-ring circus will be presented as a free attraction. The Dallas Symphony Orchestra will be featured in a free Cotton Bowl spectacular Friday evening, Oct. 13, the program including a sensational rendition of Tchaikovsky's "1812 Overture," punctuated by thunderous blasts from a battery of cannon and climaxed with a stupendous fireworks display.

"East Texas on Parade" will hold the spotlight as a free Cotton Bowl Show Tuesday, Oct. 17. The pageantry will revolve around a bevy of East Texas beauty queens, top bands from the area and the famous Apache Belles, precision marching group. "Teen Night USA," featuring 100 beautiful "teen queens" from over the nation will be presented in the bowl Wednesday, Oct. 18, as a prelude to the Miss Teen-Age America Contest finals.

Most of the Cotton Bowl shows will also include fireworks displays.

In the Livestock Coliseum Thursday, Oct. 19, there will be a free Western Music Jamboree.

There will be a fabulous "Torchlight Parade of Music" each and every night, with marching bands, illuminated floats and beautiful girls—all the ingredients that makes everybody love a parade.

"The Sound of Music," the great new Rogers and Hammerstein Broadway musical, and "Ice Capades of 1961" in an all-new edition of the popular ice extravaganza, will have performances every day of the Fair.

Farm Bureau office. fund claim has not been changed and will still be delivered to purchaser by the dealer at time of purchase of gasoline. The refund claim does not have to be notarized. Abolition of the notarized oath does not, however, remove or reduce the penalty for violations.

Those who file for refund on Federal Gas Tax have until Sept.
