

Crowd of 4000 Expected At Peanut Bowl Game

A crowd of 4000 is anticipated for the annual Peanut Bowl game, says Grover Hallmark, president of the sponsoring organization, the Eastland Junior Chamber of Commerce.

Cisco Junior College and Ranger College will compete in the popular football game on September 30.

The Jaycees made arrangements for an additional 1000 bleachers Saturday. The crowd estimation is based on the fact that approximately 3000 people attended last year's game.

Ben McKinnis and Mike Collins were named as Bowl chairmen at the kick-off banquet Thursday evening in the White Elephant. Ken Vakey, football coach at Ranger College, was guest speaker at the banquet. Grady Hogue, president of the Cisco Junior College, was unable to attend.

Patricia Liles, pianist, presented a musical program at the banquet.

Reservations for the Bowl game may be made by calling Grover Hallmark or KERC radio station. Tickets will go on sale in a week. KERC is in charge of the tickets sales in Ranger, Cisco and Eastland.

Plans are in progress for the Peanut Bowl Day in Eastland. Activities for the day will begin with a twirling contest at 8 a.m. The parade will be held at 2:30 p.m., and the Bowl game will begin at 8 p.m. The Peanut Bowl queen will be crowned during the halftime period of the football game.

The Eastland Chamber of Commerce has joined the Jaycees in the Peanut Day Promotion. The Chamber will give away a possible amount of \$350 in cash. Customers will register in the participating merchants stores, beginning Sept. 1st through the 30th, to make them eligible for three cash prizes to be drawn at the Peanut Bowl game.

First prize will be \$100 in cash; second prize, \$100; and third prize, \$50. If the winner of the first prize is present at the Bowl game he will receive another \$100 in cash.

GO TEAM GO!—Workouts began Monday for the Mavericks to get in shape for the first game on Sept. 1st in Comanche. On Sept. 8 the team will play Cisco in Cisco. The first home game will be Sept. 15 with Ranger.

Thirty-One Mavericks Report for Workouts

The Eastland Mavericks began two-a-day workouts Monday, and by the end of the week fifteen boys were placed on the varsity.

Lettermen reporting were J. D. Ables, Gayle Chaney, Johnny Shoemaker, Mike Graham, Dickie Byars, Tommy Beck, Gary Graham and Jimmy Moylan.

Reserve lettermen returning were Larry Howitz and Mike Jones. Newcomers to the varsity were Bob Cartwright, Bob O'Steen, Jody Cooper, Manuel Herrera and Lupe Fuentes.

"B" team workouts began Wednesday morning with the following boys in uniform: Ray Edwards, Jimmy Wright, Larry Goldston, Jerry Howle, Tommy Freeman, Don Griffin, Stanley Underwood, David Taylor, Danny Phillips, Gilbert Fuentes, Ronny Shoemaker, Frank Evans, Mike Siebert, Hayden Wilson, Woody Shaw, Wayne Walden, Felix Martinez and Santos Martinez.

Workouts have progressed nicely with much time spent on conditioning and fundamental drills, reports Jimmy Hughes, head coach. Four scrimmages have been scheduled, the first being with

Gorman at Gorman on Tuesday, Aug. 22. The Mavs will journey to Rising Star on Thursday, Aug. 24.

The coaches seemed pleased with the first week's workout. The boys have worked hard but have not rounded into shape as quickly as hoped, reports the coaching staff.

By the first game with Comanche on Sept. 1, the boys should be in top physical condition and should be strong enough fundamentally to put up a real battle. The coaches agreed that they had never spent a more pleasant week on the gridiron as the team members showed all signs of having the desire to excel in football this year.

Christian Church To Hear Retired Officer in Army

John H. Mathias, retired Army lieutenant colonel who is now a student at Brite College of the Bible at TCU, will preach Sunday at the First Christian Church.

The sermon will be his second this month for the congregation. Mathias, during his Army career, worked with such distinguished personages as former President Eisenhower, General Gruenther, General Matthew Ridgway, General Maxwell Taylor and top men of the North Atlantic Treaty Organization.

Other churches at which he has preached are Chapel No. 1 at Fort Sam Houston, Alamo Heights Christian Church in San Antonio and the First Christian Church at Princeton. For several months he has been preaching at Pearland.

THE GLASSON TRIO—Dale Glasson, Wanda Glasson and Corky Brown, formerly of Gorman, now of Baird, form the Glasson Trio, pictured above. The Trio is one of the groups to be featured at the Kendrick Musical Jamboree, Aug. 26 at 8 p.m. in the park on the Kendrick Dairy, located on Highway 80 between Eastland and Cisco. Other groups to be at the Jamboree will be the Kendrick Quartet; Harmonettes; Gatlin family of Odessa; Stephenville Quartet of Stephenville; McCowan family of Ballinger; Kinnaid Brothers Quartet of Fort Worth; Stroud Sisters of Dublin; Burnett Girls Trio; Bill Huggins Quartet of Brownwood and several other groups.

Eastland Students Register Friday

Eastland students will register Friday for the 1961-62 school term at South Ward, West Ward and junior high before the opening day on August 28.

Students entering the second through the eighth grades will register at their designated school from 8 a.m. to 12 noon. High school students registered at the end of the last school term.

After all students have been registered, the school boundary lines

will be announced in Sunday's Telegram.

Seventy-five first graders have been registered. Any first grader, who has not registered before Aug. 18, should contact the business office. To register, a first grader must have his birth certificate and proof of smallpox vaccination.

Eastland school will open August 28 with a full day of operation and buses will run on the same schedule as last school term, according to Supt. Wendell Siebert.

The teaching staff will remain the same except for the coaching staff. Jimmy Hughes will be the head coach and Bennett Ragdale will rejoin the coaching staff. Mrs. Pearson Grimes will be the only new elementary teacher.

Douglas school students will register on the first day of school, Aug. 28. The teaching staff will remain the same. Evelyn Wilson, Robert Haywood and Solomon Daniels, principal, are the three teachers in the Douglas School.

Phil Hewett Is Attending Band Masters Meeting

Phil Hewett, Eastland band director, is attending the Texas Band Masters Association meeting in San Antonio today, Monday, Tuesday and Wednesday.

While at the meeting Hewett will hear the newest in music, see new instruments, and band uniforms. At the convention the Lackland Air Force Base band will play the new music for eight hours a day so the band masters may have the chance to hear it.

The clinic for band masters is an annual event.

Baptist Minister And Family Move Into Parsonage

Rev. Haston Brewer, pastor of the First Baptist Church, his wife and their four daughters moved into the newly-completed parsonage at 100 West Plummer Tuesday.

Plans are being made for an open house with the date to be announced later.

Work on the brick home began May 1 with A. W. Cartledge, contractor, in charge of construction.

The house has three bedrooms, two baths, a living room with dining area, kitchen and adjoining family room, utility room, and a tile-floored entrance hall. The rooms provide 1875 square feet of living space. The house with the garage included measures 2500 square feet.

Morris Jones is chairman of the building committee which handled the project. The committee include I. C. Inzer, Gordon Goldston, Elwood Ragland, and Elton Ables.

Assisting the men in their choice of color and design were Mrs. J. O. Jolly and Mrs. Charles Layton.

The interior walls of the house are bone white, and draperies of a matching color have been ordered. Beige nylon carpeting is used throughout the bedrooms and living room.

The home is equipped with central heating and air-conditioning. The Brewer family moved to Eastland April 2 from Midland. They have been living at 1208 while the house was under construction.

Their children are Carolyn Sue, 11, Martha, 9, Jan, 8, and Sarah, 7.

Appointment of Judge Collings as vice chairman of the committee on Law Reports and Libraries was announced by Bar president William L. Kerr of Midland.

Perkins Make Trip To Kandy, Mountain City

My day in Ceylon started with a problem. Five of us had arranged through the ship's tourist service to hire a five passenger car upon arrival at Colombo, to make the 72 mile drive to Kandy, the beautiful inland mountain city which formerly was Ceylon's capital.

The ship's port officer came aboard in the early morning bringing mail for the passengers, and I found that I had two oil leases to sign and airmail back to the USA.

The ship's purser was helpful, and he arranged for me to go ashore in the company launch ahead of the regular passengers launch. Once ashore I was to go to the shipping office where I would be directed to a notary public, who would take my acknowledgment to each lease. The shipping office was only a short distance from the waterfront and the trip through the busy streets was made in the company car, driven by the port officer. At the office he telephoned to the com-

pany's solicitor, a few blocks away, and a clerk went with me to his office.

There I was courteously received by an elderly gentleman, the notary public. I showed him the oil leases and he immediately became greatly interested in reading one. Then he asked if I understood what I was about to sign. I assured him that signing oil leases was routine with me, and that I fully understood the terms.

He then presented the lease to another solicitor for his opinion regarding it. This second gentleman appeared to be a more daring character and indicated that in his opinion it would be safe to allow me to sign the papers in the presence of the first solicitor and that he might take my acknowledgment. He then filled in the blanks properly and attached his signature to the first lease.

Then he rang a bell that rested on his desk and a lackey appeared, seemingly out of nowhere and (Continued On Page Two.)

NOTICE TO THE PUBLIC

On July 12, 1955 the Board of Directors of the Eastland County Water Supply District inacted an ordinance effecting Lake Leon boating and fishing thereon. Notice is hereby given to the public that Section 3 of the ordinance passed by the directors will have additional rules and regulations inserted regarding the licensing of boats on all rules and regulations inserted under the Rules and Regulations Governing Boats and Devices on Lake Leon. A copy of the new ordinance is herewith printed.

TENTATIVE TEXT OF NEW BOATING ORDINANCE OF LAKE LEON

No person shall place, operate or keep any boat or other craft on the waters of Lake Leon from and after the effective date of this ordinance, having such boat or other craft having been inspected by the Officers duly authorized by the General Manager of the Eastland County Water Supply District to make such inspection.

It shall be the duty of such Officer to inspect such boat or other craft with regard to the following safety requirements for operation of a boat or other craft upon said Lake Leon:

(1) It shall be determined whether said boat or craft is seaworthy for use by person or persons upon Lake Leon without danger to life or property. If said boat or other craft is found to be so constructed or in such condition that the inspector believes that the same is not safe for use and that the use thereof would endanger life or property, then the inspector shall advise the owner or the person requesting inspection thereof of the defects required to be corrected before a certificate of inspection may be issued. The inspector may require the boat or other craft to be launched on Lake Leon for purposes of such inspection.

(2) The owner or person requesting inspection of any boat or craft shall advise the inspector of the horsepower of the motor desired to be used with said boat, and the inspector shall determine that the size of motor proposed to be used with said boat does not exceed in horsepower the manufacturer's recommendation for the size of motor to be used with the respective craft or boat. The in-

pector shall note upon the certificate of inspection issued to the owner or person requesting inspection of any motor that may be used in said boat or craft, and said boat or craft shall not be operated on Lake Leon with any motor of a horsepower exceeding that for which the certificate of inspection is issued, and any such operation shall constitute a violation of this ordinance.

(3) The inspector shall determine the maximum number of persons that may occupy said boat or craft at any one time, and shall note upon the certificate of inspection the number of persons authorized to use said boat or craft at any time. The inspector shall not authorize the use or occupancy of the boat by a greater number of persons than the manufacturer's recommendation with reference to the capacity of such boat or craft. The use of any boat or craft occupied by more persons than the certificate of inspection shows to have been authorized shall constitute a violation of this ordinance.

(4) With respect to the provisions of this ordinance with reference to boats or other crafts that are not manufactured by a company setting forth in published material relative to said boat, the recommended horsepower of a motor to be used with said boat or the number of persons which the boat may be safely occupied, then the inspector may require the owner or the person requesting inspection of said boat or craft to launch said boat or craft upon said Lake Leon for tests with regard to the horsepower of motor to be used upon the same and the number of persons to occupy.

(5) The inspector shall determine the name of the owner of any boat or craft furnished for inspection and may require satisfactory proof of the ownership of such boat or craft before issuance of an inspection certificate for that boat or craft.

(6) If the owner of any boat or craft presented for inspection shall have been found guilty of three or more violations of any of the rules and regulations governing the recreational use of the waters of Lake Leon in the two years immediately preceding such presentation for inspection the inspector may, at his discretion, refuse to issue a certificate of inspection for such boat or craft, such order being appealable to the Board of Directors.

(7) The inspection certificate to be issued under the terms of this ordinance shall expire in the next ensuing August 31 at 12 o'clock midnight after issuance and thereafter any boat or other craft shall not be placed, operated or maintained on Lake Leon without having been again inspected in accordance with the terms hereof and a satisfactory certificate is issued which shall be for a period ending at 12 o'clock midnight on the next ensuing August 31 after the date of issuance.

(8) Any officer authorized to make inspection under the terms of this ordinance by the General Manager of the District shall collect from the owner of said boat, or craft or the person requesting inspection thereof, the sum of \$5.00 in advance for each inspection of each boat or craft, except for each commercial boat or craft, as defined in the 1955 Publication of the Laws, Rules and Regulations Governing Lake Leon, there shall be collected the sum of \$7.50 in advance before the first inspection thereof. Provided further that with respect to each commercial boat or craft the owner thereof shall not permit said boat or craft to be operated upon the waters of Lake Leon unless the inspection certificate for each such commercial boat or craft shall have been further validated by an additional inspection in accordance with the terms hereof, during the last 15 days of the month of April after the issuance of the original inspection certificate. The original inspection certificate shall be tendered to the inspecting officer and such additional inspection shall be noted thereon.

(9) No inspector shall inspect any boat or craft owned by himself, but the same shall be inspected by some other authorized inspector.

(10) The inspection certificate, which shall be issued subsequent to the inspection hereinabove prescribed, shall be kept on or about the boat or craft for which it was issued at all times while it is being operated on the waters of Lake Leon.

This ordinance shall act as an amendment of the ordinances presently controlling the inspection and licensing of boats operating on the waters of Lake Leon and shall be a replacement of, and substitute for, any ordinance or rule presently in effect with which this shall conflict.

In the event that any section, sub-section, sentence, clause or phrase shall be declared or adjudged invalid or unconstitutional, such adjudication shall in no manner affect any of the remainder of this ordinance, but all of the rest of the provisions hereof shall be in full force and effect.

This notice is being published for 2 consecutive weeks (Aug. 13-Aug. 20) in the Ranger Times and the Eastland Telegram and the ordinance changes will be in effect as of August 31, 1961.

he was told to bring the seal. Soon he appeared with a large lever-type notarial seal that surely weighed ten pounds. The seal was duly impressed on the lease and the lackey and the seal disappeared. This same procedure was repeated when the second lease was ready for the seal. In that office things were attended to in a very solemn and deliberate manner. I was well satisfied that the two leases are duly executed.

Arriving back at the pier I found the other four members of the party awaiting me, and a Chevrolet with a Ceylonese driver was ready to start for Kandy. Soon after leaving the city we crossed over the River Kwai, made famous by the movie, "Bridge Over the River Kwai." Soon we were driving through lush green country, passing through small villages among the hills. The paved road was excellent, probably a product of the Colombo Plan.

Soon we saw many small wagons drawn by native bullocks, gentle but slow. No horses were in evidence, but now and then we passed elephants and water buffalo were frequently seen knee deep in the rice paddies.

Rice is grown extensively in Ceylon, and its emerald green was most pleasing to the eye. All land level enough was being used for rice culture, and in several of the valleys the rice paddies formed terraces to conform to the valley slope.

There were many native people along the highway, and at noon the school children were going home for lunch. They were well dressed and happy and almost invariably the girls wore their dark hair in pigtails.

Mercedes-Benz buses cruised along, and I saw an unusual sight, a 150 gallon shell gasoline tank, wagon, mounted and pulled by a bullock. Its characteristic yellow color made it easily seen.

At one place we noticed a crowd of people looking at something at the side of the road. It proved to be a four-foot long python but our native driver, named Andrew, said it was nothing as there was a forty-two foot one in the Colombo Zoo!

At frequent intervals we noticed small saw mills and elephants dragging heavy logs to them. Brick kilns also were numerous, and the over-sized bricks resembled those of Mexico, being of a delightful orange-red color. Andrew stopped whenever there was something interesting to see.

He showed us a rubber tree with the elastic latex gum being collected in half a coconut shell. We stopped at a tea plantation where the tea leaves were being dried, ground up and classified for packaging. A sign nearby read "Pack-time is Tea Time," not a bad slogan. The laborers in the tea factory were mostly girls and women. They work a fourteen and a half hour day.

Coconuts are extensively grown and palms furnish raw materials that is used locally in making roofing, rope and many more products.

In one of the shallow muddy streams we saw elephants half submerged as they lay on their sides while their masters stood on them and scrubbed them with coarse brushes. We were told that elephants must not be worked more than half a day at a time and that they demand a daily bath.

As we neared Kandy, we were in mountainous country, still entirely green with vegetation. The mountains had sharp peaks. At one place we saw a tree with no leaves but hundreds of large black bats hanging asleep from the branches.

Before actually entering Kandy, Andrew drove us through the 150 acre botanical garden, one of the finest anywhere. Each tree and shrub was labeled, and the gardens were arranged artistically and were well cared for. Here we found the very rare white Bauhinia vine, in full bloom. In one section were medicinal plants, and another area was given over to the many kinds of spice plants. Among the unusual flowers was the one called Napoleon's Crown, which truly resembled one. Two trees were especially note worthy, the ebony with its exceedingly hard wood, and its opposite the balsa with its very soft wood.

In Kandy we ate an excellent lunch at a good hotel where the service was unusually good. I have never been in any hotel where there were so many servants standing around and anxious to be helpful. At least one of them was a mind reader, because when I looked around for the two ladies in my party this one approached me and said, "The ladies had gone into one of the shops just off the lobby." There they were, deep in debt to a silk merchant!

After leaving delightful Kandy we called at the University of Ceylon before returning to Colombo.

We greatly enjoyed Ceylon and we would like to return to that fascinating island to explore it more thoroughly.

no flue needed!

Table-top electric water heater provides extra work space in kitchen

An electric water heater is a real space saver. Because it's flameless and requires no flue, it can be installed anywhere—in a closet or unused corner, in the attic or basement or in a line of cabinets in the kitchen or utility room. With no flue to worry about, you can place it close to the point of greatest use, eliminating long pipe runs and resultant heat waste due to water cooling in the pipes. You'll have plenty of hot water for every need, too. New quick recovery electric water heaters heat water as fast as you use it. And you'll find electric water heating is clean, odorless, noiseless and completely safe because it's flameless! See the new quick recovery electric water heaters at your dealer's soon.

Special Handling Of Mail Contrary To Popular Belief

"Contrary to popular belief, payment of a 'Special Handling' fee does not mean that parcel will be processed more carefully than other mail, nor does it provide for 'Special Delivery' at the office of address," says Postmaster Marene Johnson-Johnson.

According to the Postmaster, payment of a 'Special Handling' fee provides only that fourth-class mail (parcel post) will receive the same fast transportation as first-class mail when traveling between post offices. So those who are anxious for their parcel post to go quickly to its destination may pay a 'Special Handling' fee and receive first-class transportation at less cost than would be involved by mailing a parcel at the first-class rate of postage.

"Special Delivery" mail receive the most expeditious surface transportation possible between post offices. "Special Delivery" mail is delivered immediately upon arrival at the office to which it is addressed. "Special Handling" parcels are not delivered until the next scheduled trip of the regular carrier.

"These two special services have other distinguishing features that are not generally known," says Postmaster Mrs. Johnson. All classes of mail may be sent by "Special Delivery," but only parcel post may be sent by "Special Handling." When it is necessary to forward "Special Handling" mail to another post office, this mail continues to receive first-class transportation without payment of an additional fee; however, forwarding postage at the fourth-class rate is collected on delivery. "Special Delivery" does not continue to receive "Special Delivery" service at the office to which it is forwarded unless a forwarding order has been left by the addressee at the original office of address in advance of arrival of the mail.

Answers to questions regarding fees for "Special Delivery" and "Special Handling" and other postal matters can be obtained quickly by calling your Post Office.
