There are fifty years in between.

A half century of researching, designing, building, testing, revising, producing equipment for mechanic cal peanut harvesting.

In this span, Lilliston products put profit in the crop. More and more of it as the years went by. Now, the 1962 Lilliston Peanut Combine is destined to be the biggest money-maker of all time. The reason, pure and simple: it will get more peanuts, cleaner peanuts - rain or shine, good conditions or bad — faster and better than was ever possible before, by man or machine. There is no comparison in the field.

Come by as soon as you get the chance. We'll be glad to show you the many advantages built into the finest combine money can buy. (And that goes for the new 1100 Series Digger-Shaker-Windrower it'll get your harvest off to the right start.)

Do you have difficulty in knowing what to look for when selecting wash-wear cotto s? I think, many people do, so here are some tips which may help you with wall-wear selections. If you are looking specifical-

ly for easy care, select a washwear dress that has a gathered skirt and few frills. This will make it easier to touch up the dress-and all wash-wear cottons require some ironing.

Also pick out a garment that has set-in steeves rather that those of kimono design. recin that makes the fabric wash-an-wearable also makes it less resistant to tearing. Beick for a style that fits easily and has only a few strait

The higher priced garments in the wash-wear lines take less care, wrinkles less during wearing and look better after repeated launderings. But-because of the high resis finish which make these features rossible- the fabric in these rments have low strength. bout the regulatio: in your These dresses could not be expected to wear as well as those of the less treate; fab-
