Mavs 'Do No Wrong' in Lacing Potent Ranger Bulldogs, 26-14

Eastland Mavericks surprised an unsuspecting Ranger eleven Friday night by defeating them 26-14, to become the Eastland County Champions. The Mavericks, in obtaining the mythical crown, defeated the Rising Star, Gorman, and Ranger, marking the first time in Mav history for the team to defeat all county rivals in the same year.

The Ranger Bulldogs scored first after recovering an Eastland fumble on the first play of the game. Ranger took over on the Eastland 35 and marched to pay dirt in six plays. Jimmy Drennan, Ranger halfback, slipped through Eastland's right side for five yards and the score. Extra points try was stopped short, making the score 6-0 in the first two and one-half minutes of play.

Not to be out-gone, the Mavericks tied the score 6-6 when Quarterback Joe Cooper galloped for 30-yards on a left end sweep, with 3:30 left in the first quarter. Extra points try was no good.

Eastland added 12 more points before half-time to put the game on ice for the fired-up Mavericks. Gary Graham picked up 20-yards around the right side of the Bulldog line on an option play for Eastland's second score of the night. Again, the Bulldog defensive line trapped the extra points run attempt behind the line of scrimmage, leaving the scoreboard tally at 12-6 in favor of the Mavs.

TOPPING OUT

Beaming with happiness, Ben McKinnis and Grover Hallmark, co-chairmen for the 1962 United Fund campaign, fix the UF thermometer on the courthouse lawn to show that the '62 goal wasn't as impossible as had been thought. With last-minute commitments and funds already "in the bank", the goal will be reached, the chairmen said, with glee. In getting ready to close out the campaign, the two were enthusiastic in praise for all the volunteer workers and the people of Eastland and surrounding area for their support of the \$7,300 campaign which supports eight separate agencies. P. Christinson and Turner held an open house at their Eastland Parts Co. last Monday afternoon. About 40 people from over the county were present. They were automobile mechanics and about every auto part was available. Prizes were given, sets of shock absorbers, air cushions and a new tire. The party was a success. Refreshments were served.

Learned this week that Baptist Church's vicar, Rev. H. J. was at one time a journalist. He's a graduate of the University of Texas at Austin and a member of the First Church in Rising Star. His specialty was writing, he understands. He knows what kind of a journalist has to do. He's not just a reporter, he's a writer. He's a man who can write. He's a man who can write. He's a man who can write.

A woman at the Methodist Church who is a secret—she knows a "good" pie—extra-sweet canned fruit. Always contended that pie was made product because it was so sweet and for our liking. For Friday's annual church with the Society of Christian and lacking into a meringue pie, I am going to make one. We'll know that pie (it had been on page 2).

National Book Week Will Be Observed Nov. 11-17

The Eastland Public Library will be observing Children's National Book Week, November 11 to 17th, announced Mrs. T. M. Collier, president of the Thursday Afternoon Club. "I like books!" is the original but appropriate slogan for the 44th observance of National Children's Book Week. It is the hope of the Library that parents will encourage their children to make an extra trip to the Library during this week, and that parents give some thought

to the kind of books their children read. Experience at the Eastland Public Library proves that children prefer good books and will show preference to the more interesting and worthwhile type. They look for books about their natural interests, are eager to learn about the world around them, and are especially interested in the rich heritage of the past.

Eastland County employees may receive a total salary raise of approximately \$20,000 per year. The consideration of a salary hike was made by Eastland County Commissioners during a special session last week.

The proposition will be discussed and voted on by the Commissioners at their next meeting, Monday, November 12. The proposed raise will still put officials' salaries at approximately 20% less than the

maximum allowable under the law. It allows an approximate 10% increase of the present annual salary for each of the following: County Commissioners, County Attorney, County Clerk, District Clerk, Tax Assessor and Collector, County Treasurer and Sheriff.

Plea Asking Curry's Release Believed Filed With Judge

A petition asking the release of Nathan Curry from the Gatesville School for Boys is believed to have been filed with County Judge F. M. Bennett. All matters pertaining to juvenile cases are privileged and neither the County Judge, County Clerk nor County Attorney would comment as to whether the document had been filed or not.

The petition, believed to be signed by Curry's attorney, John Watts of Odessa, reportedly contains a request that the district attorney be required to file answer not later than 20 days after service of citation, that a hearing be held and an order issued setting aside the commitment order of the court.

Also an approximate 10% increase for officials, deputies and all other appointed employees of Eastland County. An approximate 25% increase is proposed for each of the Constables. All County machine operators and road employees are paid from the four Precinct funds. The proposed raise will increase each fund to the following approximate figures: Precinct I, \$1,875.00; Precinct II, \$1,500.00; Precinct III, \$1,600.00; and Precinct IV, \$1,700.00. The Road and Bridge Fund will be raised to approximately \$2,050.00. Salaries of the four commissioners and 75% of the County Judge's salary are paid from this fund.

During the other months, the camp is used as a training center for the adult blind.

An increase of approximately \$3,650.00 will be noted in the General Fund from which salaries paid include the following: 25% of the County Judge's salary, all judges' secretaries, janitor, elevator operator, court house engineer, County Health officer, manager of the Surplus Food program, County Agent and County Home Demonstration Agent and their assistants. Cooper tossed a 15-yard pass aimed at Stanley Underwood, only to have a Bulldog defender knock the ball from his arms to the waiting arms of Halfback Dickie Bayars, who had to take only one step to paydirt. The run attempt for extra points was cut down by a host of Bulldog defenders making the score 18-6 at halftime.

Eastland's next score was set up by Cooper when he broke away on a 45-yard run down to the Bulldog 20. From that point, Fullback Jimmy Moylan and Graham teamed up to drive down to the Bulldog one-yard line. Moylan plunged over the goal line from the one to make the score 24-6. Cooper's extra-point run around right end added another two points, making the score 26-6.

Ranger's final score came in the last quarter when the Bulldogs put together a drive that covered 73 yards. Four completed passes from Quarterback Johnny McGee to Jimmy Brennan for two 8-yard gains, Charlie De Los Santos for 17-yards and Ray Newham for 10-yards, accounted for most of the 73-yards to paydirt. The score came on the 10-yard pass to Newham in the endzone. Newham collected another two points when he snagged another McGee pass on the extra points attempt, making the final score 26-14 in favor of the Eastland Mavericks.

A member of the Ranger Junior College Band, Iverson is an eighteen-year-old freshman majoring in electronic engineering with a double minor in math and physics. After finishing his courses at Ranger College, he would like to attend the New York College of Engineering on Manhattan Island.

Theoretical research in radio communications is the field he wants to pursue after he finishes college.

Last summer he worked in a TV repair shop to earn money for college. He is constantly tinkering with radios and other electrical equipment.

From 1956 to 1959 Iverson lived in England, where his father was stationed at the Chelveston R A F Base in central England. He attended an Amer-

ican school on the base and later went to an American high school in London. He said that the American schools in England have American teachers and are run like schools in the United States. He stated also that the British are very friendly to Americans. In his association with them he found that they are very manner-conscious. On dates a boy usually wears a suit, and the girl wears a dressy dress—quite different from the dress of average American teenagers on dates.

Although Iverson liked England, he says that he is glad to be back in America.

Mrs. Georgia Nix of Weatherford has taken over the duties as dorm mother of Cooper Hall. She replaces Mrs. Annie Harper, who left last Friday for Phoenix, Arizona, where she has accepted a position in a new Olen Mills Studio.

Mrs. Nix is the mother of Georgia Nix, a freshman member of the Ranger Junior College Band.

Roger C. Martin, director of bands, announces that the RJC Band has drawn up a constitution, which the band will adopt this week.

The newly formed constitution was read to band members November 1, at which time it was discussed and the band voted to make a few changes in it. After the suggested changes are incorporated into the document, it will be submitted to the band for final approval. The committee elected by the

band to write the constitution is composed of David McCarty, chairman; Johnny Creager, Georgia Nix, Larry Prather, and Gracie Tankersley.

Rev. Avery Sullivan, pastor of the First Baptist Church, was elected pastor advisor by the RJC Baptist Student Union at its meeting Monday evening. The group also voted to take charge of the Wednesday evening prayer service November 14 at the Second Baptist Church.

Mary Rhoads and Ronnie Smith were in charge of the devotional program. Mary gave the Scripture reading, a n d Ronnie a devotional on "Love Thy Enemy."

Seventeen members were present.

When frozen food thaws in your home, it is always necessary to discard it?

Research studies reveal that if the temperature of the food has not risen above ordinary refrigerator temperature (40 degrees F.) then you may consider refreezing it—provided it has acceptable order, texture and color.

The process of refreezing in itself introduces no hazard; if the partially thawed food is safe to eat, it is safe to refreeze.

A rise in a food's temperature up to thawing impairs color, flavor, and texture, and the refreezing period caused further loss of quality. If

the total time involved is short enough, there may be quality left to justify refreezing.

No health hazard is involved if the temperature of the food has not risen above ordinary refrigerator temperature. Food-poisoning bacteria have never been found to grow at temperature below 38 degrees F., and they grow very slowly between 38 and 45 degrees. Other bacteria can grow slowly at these or even lower temperatures, and they cause off-flavors that spoil foods but do not cause food poisoning.

Rapid freezing of steaks makes them lighter and brighter and more tender. An impartial taste panel rated frozen steaks better than not-frozen steaks—in flavor, tenderness, and overall satisfaction. The only thing the tasters did not like about the frozen beef was the amount of juiciness.

One undetected case of active TB can infect dozens of people. No one is safe from tuberculosis. It attacks people of all ages in all walks of life. Christmas Seals fight TB and respiratory diseases.

About 100,000 of the 250,000 Americans with active tuberculosis may not know they have the disease. They may not be getting treatment and may be infecting others. Christmas Seals fight TB and other respiratory diseases.

National Beta Club Organized At Olden High

An organizational meeting of the National Beta Club of Olden High School was held Wednesday and officers for the ensuing year were elected.

Those elected to serve include the following: Cherry Criswell, president; Ronald Patton, vice president; Milton Hood, secretary; and Billy Horn, Student Council Representative.

Members of the first National Beta Club of Olden are: Milton Hood, Linda Meazell, Cherry Criswell, Norman Alford, Jeffy Alford, Month Hood, Billy Horn, Ronald Patton and Herman Waiters.

Each year, more than 10,000 people still die of tuberculosis. Although fewer people die of TB than in the past, many thousands fall ill with the disease—about 55,000 a year. Christmas Seals fight TB and other respiratory diseases.

The women, as usual, served a wonderful meal, and had plenty of takers for the noon meal.

Dr. Bob Alexander was telling us as we ate, that his wife had asked him the night before what kind of pie he'd like for her to save for him.

"Pumpkin," he guessed. This reminded Mrs. A, he said, that she still had two pumpkin pies to make, and the lights at their house were on "bright and early" Friday morning with the making of pies, he said.

Have you noticed the newly-topped highway between here and Ranger? Last week, the finishing touches were being applied with the mowing of the right-of-way. Signs were all in place, and the surface is as smooth as you could want.

Can you imagine any possible reasons for junking that stretch of highway in favor of another, as is planned? I can't.

Do you suppose it would do any good if we were to make available to tourists and travelers, through service stations and restaurant people, form letters, praising the highways through Eastland and telling how much they enjoy them as they are.

If these were carefully prepared, and addressed to the right people, they "might" have some influence, don't you think.

Sure enjoyed the Texas Electric Service Co.'s annual Quarter Century Club banquet this past week. Don't know what company serves such good food and provides such wonderful speakers so consistently.

Eastland's Mr. Frank Sayre was master of ceremonies, and carried out his duties in flawless fashion for the hundreds in the audience.

We rode over with Mr. and Mrs. Don Farnsworth and Mrs. Ben Lancaster, whom we learned is also a former journalism student, and thoroughly enjoyed the evening.

Heard a rumor squashed which interested us Thursday night and think you might also be interested.

Mr. Herman Schaeffer, who was presiding at the County Program Building Committee meeting, suggested that he had been hearing that cattle were being made sick from eating coastal bermuda grass.

Mr. E. E. McAllister, who's the local authority on the grass, and Soil Conservation Service supervisor, said that he hadn't heard anything about it, but Mr. Oscar Schaeffer of the Nimrod community, said "yes," he'd heard it but was sure that it wasn't the coastal bermuda at all that is to blame, but rather the garden-variety bermuda (plain old bermuda in other words) that was causing the sickness among livestock.

He explained that he understands it is caused by the black

Miss Wilma Elliott of Olden, bride-elect of Hayman Thomas of Dallas, was honored with a miscellaneous bridal shower in the home of Mrs. Travis Hilliard, Olden Saturday night, Nov. 3. Calling hours were from 7 to 9 p.m.

Hostesses with Mrs. Hilliard were Meses. Jim Everett, C. B. O'Brien, Travis Reese, Tom Sharp, Buster Elliott, Z. W. Cook, I. B. Walker, W. P. Edwards, Stella Jarrett, Miss Eunice Hamilton and Miss Tommie June Sharp, Olden

and Mrs. Joe Anderson, Eastland. Receiving guests were Mrs. Hilliard, Miss Elliott, Mrs. Dora Elliott, the bride-elect's mother, and Mrs. L. L. Thomas, mother of the prospective bridegroom.

Guests were registered by Mrs. I. B. Walker at a table on which was placed the bridal book and a log stem white carnation.

The refreshment table was laid with a white lace cloth and centered with a tall arrangement of white baby mums and blue carnations in a crystal bowl. Tall white candles in silver holders flanked either side of the arrangement. Appointments were of crystal and silver and napkins ensigned with Wilma and Hayman in silver completed the table.

Mrs. Jack Elliott, of Eastland, sister-in-law of the bride-elect served cake and Mrs. Anderson ladled punch. Nuts and blue and white mints were also served.

Gifts were displayed by Mrs. Sharp, Mrs. Elliott and Miss Hamilton.

Gwenda Moseley Honored With Bridal Shower

Miss Gwenda Rae Moseley, bride-elect of Jimmie McCartney of Abilene, was honored with a bridal shower Tuesday evening in the Fellowship Hall of the Bethel Baptist Church.

Members of the receiving line were the honoree, her mother, Mrs. C. W. Moseley, her grandmother, Mrs. Green, and her twin sister, Miss Glenda Moseley. Guests were registered in the Bride's Book.

The refreshment table was laid with a white lace cloth over red. Centering the table was an arrangement of miniature red rosebuds surrounding a white Styrofoam arch holding two white bells. On each side of the arch words "Jimmie and Gwenda" were inscribed in red.

Refreshments of punch and cookies were served. A number of out-of-town guests called during the evening.

Wesleyan Guild Meeting Held In Church

The Wesleyan Service Guild of the First Methodist Church met Wednesday evening in the Fellowship Hall of the church. The vice president, Miss Loreto Morris, presided in the absence of Mrs. Carl Elliott.

Mrs. Harold Durham presented Mrs. Floyd Robertson and Mrs. Rudolph Little, who discussed the following chapters of the Mission Study, "The Church as a Family of God" and "The Christian Family at Home". Both were received with individual responses.

Scriptures were read by Mrs. Taylor Smith and Mrs. William Fisher. Both were pertinent to the study.

The meeting was opened and closed with prayer. Next regular meeting of the Guild will be held Wednesday, Nov. 21.

Some 94 buyers bought 1,447 cattle, 116 hogs and 111 sheep and goats from 272 sellers at the Eastland Auction Company last Tuesday.

Prices were reported as follows: butcher bulls 16.00 to 18.00, butcher cows 16.00 to 18.20, heifer-like cows up to 19.00, canners and cutters 9.00 to 14.00, butcher calves 23.00 to 25.50, stocker calves (light) 30.00 to 33.00, stocker calves (heavy) 25.00 to 27.00, pairs 160.00 to 225.00, butcher hogs 16.00 to 17.25, and sows 15.00 to 16.25.

Respiratory diseases—including tuberculosis—are common everywhere. They flourish under all sorts of conditions. All seem to be aggravated by smog and by air pollution. Christmas Seals fight TB and other respiratory diseases.

Governor Signs Christmas Seal Proclamation

Three recovered tuberculosis patients watch Governor Price Daniel sign a proclamation designating November 13 to December 24 as Christmas Seal Days in Texas. The three, all of Austin, are representative of the fact that TB respects no age — or race. Joseph Miller, 4, was dismissed from the State Hospital at Kerrville more than a year ago, but his father is still hospitalized, and Joseph continues to take anti-TB drugs regularly. Mary Ann Hernandez, 12, has been away from a TB hospital for three years, but her sister still remains hospitalized. J. C. Burkhardt, a retired city employee, was hospitalized for eight months with tuberculosis, is still on drugs. Said Governor Daniel's proclamation . . . "In Texas last year, 3,480 new cases of tuberculosis were reported. Each of these is a potential source of infection to others. Yet tuberculosis is a preventable disease which can be eradicated . . . The traditional Christmas Seal campaign is one annual appeal of the tuberculosis associations for funds to make possible their year-round efforts to curb this needless waste of human life and resources . . ."

Burns To Be Fatal To 465 In 12 Months

Burns will take the lives of 465 Texas men, women and children during the next 12 months. The injury toll will total 70,215, with 1,860 of the injuries being of a permanent nature.

This forecast is based on figures for recent typical years compiled by the Texas Safety Association. "Fifty-six per cent of the victims," Lone Star Gas Company Manager Gordon Goldston said today, "will be children under five years of age or senior members of our families in the 65-and-over age group."

Lone Star is sponsoring a home safety program in Eastland for the second straight year. Co-sponsors are the Texas Safety Association and Eastland Telegram.

"Almost 100 per cent of the common fire hazards responsible for this terrible toll can be eliminated if the homeowner will give 10 minutes a day of the family's time to the problem," Goldston said. "A quiz prepared by the National Board of Fire Underwriters offers a room by room, attic to basement checklist by which the safety of the home can be measured. By using this quiz as a safety blueprint and as a training guide, the homeowner will go a long way toward the elimination of home fire hazards."
