The class continues the tra- dition to encourage fellowship between the youngsters and the oldsters.

All who've attended, know that the qualifications for ad- mission are few. There are frequently those present who don't have sons of their own, but manage to borrow one for a night of good food and fel- lowship.

Tickets are now on sale at \$1 each at Smitty's Jewelry, Robertson Radio and Televi- sion, Earl Bender's office and from members of the class.

This year's speaker will be Dr. Durwood Fleming, presi- dent of Southwestern Univer- sity and a former pastor of the local Methodist church.

It'll be a turkey dinner, by the way, and every man and boy is welcome, regardless of church affiliation.

The 9:49 was organized at the home of Judge J. E. Hickman in 1930.

Joe Gray is currently presi- dent of the class and Pat Miller is teacher. Garland Hargus is vice president; Tom Haley, secretary-treasurer; Mrs. Tom Haley, pianist; and Ellis Head, song leader.

Speaker at the first banquet was Dr. J. W. Hunt, presi- dent of McMurry College and other guests speakers have in- cluded the Rev. Kenneth Pope of Breckenridge; the late Mark McGee, noted Fort Worth at- torney; Judge Hickman (who had relinquished his teaching position to the late Virgil Sea- berry Sr., to go to Austin to become a State Supreme Court Justice); Dr. Philip Walker, a former pastor; Lynn Landum, Dallas Morn- ing News writer; Rusty Rus- sell, at one time head coach of SMU; M. 4th ANNUAL PEANUT BOWL COMMITTEES ARE ASSIGNED

The assignments have been made and the sleeves are being rolled as the Eastland Jaycees begin their preliminary work for the forthcoming Fourth Annual Peanut Bowl.

Committee appointments were made Thursday evening and the volume of advance work will start unfolding.

Dick Johnson is over-all chairman for this year's event scheduled September 14, and since this date is much earlier than usual, will be encourag- ing his workers to "move on."

Glenn Scallorn, a former football coach, will head the officials committee, and be in charge of seeing that the high- light, the grid clash of Ran- ger and Cisco junior colleges, goes on as scheduled.

In charge of the half-time activities will be Jim Horn, who headed the bowl last year. Horn's job will be to pack as much excitement in the few minutes of allotted half- time as possible.

Lee Ellis, one of the few Jaycee bachelors, drew the assignment of arranging for Miss Texas' appearance here again this year. He's to be in Fort Worth the night the winner is picked to sign her for the Eastland County ap- pearance.

Mrs. Fritz Huffman Elected Eastland P-TA Prexy Tuesday

Mrs. Fritz Huffman was elected president of Eastland Parent - Teachers Association at a meeting of the organiza- tion Tuesday in the East- land High School cafeteria.

Other officers, all elected unanimously, were Mrs. M. A. Treadwell, first vice presi- dent; Mrs. Max Jackson, sec- retary; Mrs. Charles Layton, treasurer for South Ward; and Mrs. B. H. Courtney, treas- urer for West Ward.

Installation will be April 16. The slate was presented by Mrs. Ray Pool. Other mem- bers of the nominating com- mittee were Mrs. James K. Smith and Mrs. Dennis Allen.

A program, "The Respon- sibilities of Christian Parents" was presented by Mrs. R. P. Haun, Jr.

To answer the question, "Can Parents Teach Reli- gion?" Mrs. Haun discussed three areas for teaching— facts, interpretation, and eth- ics.

She elaborated upon these to include facts taught through Bible stories, Church history and other religious material; interpretations which gives the child a scale of val- ues; and ethics which invol- ves the attitude the child senses in the parent such as his attitude toward those of dif-

ferent status.

Explaining that religion must be taught as the occa- sion presents itself, she suggest- ed teaching through reading, through talking in family con- versations and especially in heart-to-heart discussion with one child alone, through pray- ing with the child for direc- tion and guidance, through working, through building where it is necessary to follow God's natural physical laws, through playing, and through celebrating religious holidays and important events such as the time the child joins the Church. Eastland National Bank Deposits Exceed Last Year By Near \$200,000

Deposits in Eastland Nation- al Bank were "way up" as of March 18, first quarter re- port period — traditionally the lowest period of the year.

On deposit was \$3,994,498.86 — \$187,936.04 above the same quarter's report last year. Total was down however from the record-breaking a-

mount at the end of Decem- ber, when \$363,781.48 was re- ported.

Loans and discounts contin- ue to increase, even above the previous quarter's highs — \$1,742,235.29 on March 18, and \$1,596,372.69 on Dec. 31.

In 1961, the first quarter report came on April 12, and deposits were at \$3,907,490.17; in 1960, \$3,649,200.85 was re- ported on March 15; in 1959, deposits on March 12 were \$3,910,579.87; on March 4, 1958, deposits stood at \$3,631,701.36; on March 14, 1957, \$3,575,628.35; and at \$3,753,612.30 on April 10, 1956.

The Eastland bank began this new year holding the re- cord for the largest amount on deposit for the county. It was the first time in history that the Eastland bank had topped the other county banks.

The current report is the first time since mid-1962 that the Eastland bank has not reported in excess of \$4 million on deposit.

Bank deposits in the five county banks surpassed the 16 million mark just before the new year began. Total for the county at the end of busi- ness Dec. 31 was \$16,439,254.49.

STATISTICS SHOW 1.5 BIRTHS FOR EVERY COUNTY DEATH

Eastland County produced a big excess in the number of births over the number of deaths during the past decade, according to a special popula- tion study released by the Government.

It shows that 1.5 local resi- dents were born in the per- iod for every one who died.

The composite figures re- veal that there were 3,888 liv- ing births and 2,594 deaths in the 10 years. This refers to lo- cal residents only. Excluded are any non-residents who were born or who died in the county.

The source of the data, as- sembled by the Department of Commerce, was the vital sta- tistics that have been gather- ed each year by the U. S. Public Health Service. The results are given for each county in the United States.

Although the rate of births is still at a high level in East- land County, such is not the case in every part of the coun- ty. The figures indicate that the national rate has been dropping for the last five years, reversing the upward trend that had been in pro- gress since 1945.

Locally, over the past de- cade, the average annual birth rate amounted to 17.8 per 1,000 population.

By way of comparison, the birth rate throughout the coun- ty ran as low as 13 per 1,000 in some communities.

From the evidence at hand, it appears that the large- family era is at an end, at least for the present. The de- sire, or the intention, to have more than one or two child- ren seems to be diminishing.

Young couples are waiting longer before taking on the

role of parents. They are de- laying this step for a few years after marriage. Older married couples, by the same token, are ending their child- rearing careers sooner than was the case ten years ago.

What is the reason for this change in attitude? A num- ber of explanations are advan- ced. One is that it is becom- ing increasingly expensive to bring up children. Providing for their food, clothes and ed- ucation, while carrying the present day tax load, takes a lot of income.

Added to this is the tight- er job situation and the trend toward apartment house liv- ing, with the space limitations that it involves.

Final Rites For Mrs. Welch Are Held Thursday

Funeral services were held at 4 p. m. Thursday at Ham- mer Funeral Chapel in East- land for Mrs. Marguerite Lu- cille Welch, 87, a resident of Eastland for the last 30 years. She died at 6 p. m. Tuesday in a nursing home at East- land after an illness of more than a year.

The Rev. W. S. Fisher, pas- tor of the First Methodist Church at Eastland, officiat- ed. Burial was at the East- land cemetery.

Mrs. Welch was the grand- mother of Mrs. W. B. Wright of Cisco and Mrs. R. L. Park- er of Tulsa.

Born in Lincoln County, Tenn., on Dec. 17, 1875, Mrs. Welch moved to Eastland in (Continued on Page Two.)

DPS License Man . . .

Don't Feel Sorry For Yourself, He Has to Take Examinations Too

Remember how nervous you were when you took your driv- ing exam?

But you never thought that the man who gave you that test might have due cause o be nervous himself.

After all he was, at that time, submitting himself to ride with an unlicensed driv- er, you know.

Take Patrolman Demus L. Buckner for example. He's the man who gives tests in

this county — he goes through the experience maybe 130 times a week. You only had to do it once.

Course, you say, he was giv- ing the test — and you were taking it.

Sure, and there's little cause to be nervous really, because Buckner isn't there to scold or criticize you if you make a bobble. He just must de- termine if you're qualified to have a license to drive.

Buckner, one of 160 exam- iners in the state, doesn't want to scare you at all. He'll tell you things to do while driv- ing, and then grade you to see how well you can do them.

It takes a busy schedule to keep all who would drive in Texas, properly licensed to do so.

If you're licensed now, you are among six million in the state who are. If you're not licensed, perhaps you'll be among the 800,000 who will be given examinations this year.

Friendly, 34-year-old Buck- ner has been with the Depart- ment of Public Safety for sev- en years and with the drivers license service, one of the four uniformed sections, all that time.

Wouldn't be surprised if Buckner, who lives in Abilene, doesn't have to carry a chart to see where he's to be every day.

Here's his schedule (and if you or someone in your fam- ily plans to take the test soon, might be a good item to cut this out for reference):

Eastland — first, third and fifth Mondays, every month.

Ranger — Second and fourth Mondays.

Cisco — Third Friday.

Gorman — Third Thursday.

Cross Plains — First Fri- day.

Albany — Second Friday.

Baird — Fourth Friday.

Breckenridge — First, sec- ond, fourth and fifth Thurs- days.

Abilene — Tuesday, Wed- nesday, Saturday and fifth Friday mornings.

For the past five years, Buckner has been assigned to the Abilene office. Prior to that he was at El Paso. He and his wife, Retha, (Continued on Page Two.)

LIONS ZONE MEETING DRAWS CROWD OF 200 FRIDAY NIGHT

America is closer to real peace now than ever before despite the current world-wide wrangling because man, science and country are in close touch with God.

That was the message of Louie E. Throgmorton, Dallas insurance executive, in an address Friday night at the annual zone meeting of area Lions Clubs at Lone Cedar Country Club at Lake Leon. Some 200 persons attended the meeting, representing Lions clubs at Baird, Cisco, Ranger and Strawn.

"There will be a lasting peace when man, science and country are in close touch with God," Mr. Throgmorton said. "This is God's world, and He won't permit man to destroy it. He has a great investment in America."

The speaker accounted for field of science by noting that

"God nudges man into things when his intelligence has reached the point where he is ready to assume new responsibilities."

O. L. Stamey, former district governor from Cisco, served as the master of ceremonies. The Rev. Bobby Weathers of Strawn gave the invocation, and Bill Auvenshine of Ranger led the singing with Pat Golemon, Cisco club sweetheart, at the piano.

The Eastland High School stage band, directed by John Bailey, rendered a 15-minute program that was applauded by the big audience. Jack McCullough of Stephenville, the deputy district governor, introduced visitors. Guests included P. E. Shotwell of Abilene, the district governor.

The speaker, who was presented in more than 400 talks throughout the nation last year, was introduced by Zone Chairman Glyn Gilliam of Eastland. The speaker's talk was highlighted by numerous jokes that brought him considerable applause.

The benediction was given by the Rev. B. L. McCord of Ranger.

EASTLAND CO. HISTORICAL SOCIETY FORMED AT MEET

By ROBERT BELL

A historic event took place in the Eastland County Courthouse on Friday afternoon, March 22, as the formation of an Eastland County Historical Society was announced during a meeting of the Eastland County Historical Survey Committee, and the first applications for membership were received.

First-day applications included those of County Judge Scott Bailey, Mrs. Bernice Chesley McCrea of Cisco, Mrs. George Blackwell of Gorman, Joe Dennis of Ranger, Ed Townsend and Robert Bell, all of Nimrod, and J. W. Sifton of Cisco.

In announcing formation of the Historical Society, Mrs. McCrea, chairman of the Survey Committee said, "The Eastland County Historical Society will be open to anyone who is interested in Eastland County history, and it will work to preserve and promote the historical heritage of the county." She said that the Society would stress the spiritual value of history, but that the economic value of history wouldn't be overlooked, pointing out that history is the number one tourist attraction of Texas.

actions for safe passage areas.

The contractors have completed grading operations from Eastland to the Carbon bypass, and have put down over two-thirds of the first layer of base materials.

Work on the Leon River bridge is now past the foundation stage, Haun said, and the contractors will probably begin immediately to put down the second six-inch layer of base material.

As was expected, a great deal of sand has been encountered near Carbon.

Mr. and Mrs. I. E. Talley of Olden visited Sunday afternoon and night with her sister, Mr. and Mrs. Max Duckworth, in Knox City. On Monday they visited in Goree with Rev. and Mrs. Benny Hagan and family and with Mrs. Bud May, Mrs. Hagan's mother, who was also visiting there.

have three children, Nina, 11; Linsey, 6; and Susan, 5. A native born of Arkansas, Buckner calls himself a "naturalized Texan" now.

He is extremely complimentary of the driver education programs in Eastland, Ranger, Cisco and Rising Star, and calls these real safety assets.

Every person who has never been licensed in Texas, including out-of-state drivers, and every person who has not had Texas licenses issued or renewed in the past five years, are required to take and pass the complete standard examination (which consists of a vision test, a check of knowledge and understanding of road signs and rules, and then a practical driving test in an auto.) Oral tests may be given to applicants unable to read or write.

Don't feel sorry for yourself, because even examiners, such as Buckner, have to attend re-training and testing sessions themselves at periodic intervals.

WASHINGTON, D. C. — My fellow Texan and Colleague in the Congress, Walter Rogers, representing the Panhandle District, recently came up with some interesting statistics. He says that the United States could liquidate its more than \$300 billion debt by selling the real and personal property which it owns. He points out that some real bargains could be had if sold at the value now carried on the books. For instance, the 18 acres of land surrounding the White House is valued at \$1,000. The actual value, of course, is multiplied millions. No one is advocating a sale. The Government's Total real estate holdings of 772 million acres of land is an area four and one-half times the size of the State of Texas. The whole kit and caboodle is valued at \$86 billion, an amount many times below its actual value.

The value of all the Government buildings in Washington alone would come to an astronomical figure. Of course, no one can imagine any other use for them than that to which they are now dedicated. The Capitol itself would hold a lot of hay, but would have a poor market for its product. (Some think it has a rather poor market for some of its present production.) It is often said that if private enterprise ran its business as does the Government, it would not be in business long and, of course, it is true. Another side of this question was presented a few days ago by the Director of the Bureau. He pointed out that if the Federal Government kept its books like business and like business and like most other nations, the new Budget proposed by the President would be in balance, even allowing for the large tax cuts the Administration has proposed. Unlike business firms, he pointed out, the Federal Government counts all funds expended as "operating expenses." This includes loans and investments in such things as land and buildings. Business firms count such outlays as "capital investment" and not as operating expenses. There is still another side to the question and, in fact,

there may be several more sides. For the present, however, consider the fact that the Federal Government has obligations not included in the Public Debt and not carried as an asset, but rather as a liability. This comes about by reason of the so-called practice during the way years and not yet discontinued, known as "backdoor spending." Back door spending simply means that Congress has permitted obligations to be incurred by the Federal Government without a direct appropriation to pay for them. In other words, certain loaning institutions particularly, simply draw on the Treasury for their operations. If all these obligations for future years were added, even though repayment is expected, the present \$300 billion Public Debt would be considerably more. So, it depends somewhat on who is using the pencil and who is applying the theory as to what our over-all fiscal situation actually is. Regardless of how we may view the situation, it would seem well for all of us to keep in mind what Thomas Jefferson had to say about Government expenses. Jefferson preached a pretty good fiscal sermon in this one sentence: "I am for a government that is rigorously frugal and simple, and

not for one that multiplies offices to make partisans, that is, to get votes and by every device increases the public debt under the guise of being a public benefit."

County Is Short Of Bond Quota

December Savings bonds sales in Eastland County were \$48,638, according to Guy Peyton Parker, chairman of the Eastland County Savings Bonds Committee. During 1962 the citizens of this county purchased \$459,183, which represents 88.3 per cent of the 1962 sales goal of \$520,000. Sales in Texas during 1962 totaled \$143,146,965, which is 86 per cent of the state goal of \$165,100,000. U. S. Treasury records disclose that the number of individual bonds issued during 1962 set a five year record with over 73 million individual bonds issued during the year. The number of 50 bonds purchased was the highest amount since the war years, and the sale of 25 bonds was at a five-year record. The cash value of E and H bonds outstanding reached a new high of 45.49 billion. This represented a gain of

YOUNG MEN MUST REGISTER WITH DRAFT BOARD AT 18

State draft board No. 36 in Eastland which has jurisdiction over Eastland and Stephens counties, has announced a tougher policy regarding men who register late for the draft. The policy was established after a board survey which determined that 20 youths had registered late in the past six months. Federal law requires that young men register with the nearest draft board on their 18th birthday, or within five days thereafter. Under the new policy all young men who register a week late or more may be asked in writing to appear before the board in person to explain their tardiness. The board will give formal official consideration to declaring these men delinquent under the law and processing them for armed forces induction ahead of other men in their age group.

The following registrars are maintained for the convenience of young men: Mrs. Jewell Reaves, board clerk, second floor of the Petroleum Building, Eastland; Mrs. Thelma Albright, Chamber of Commerce, Cisco; Mrs. Mae Belle Oyler, Retail Merchants, Ranger; Graydon W. Baze, Post Office, Gorman; Mrs. Agnes White and Miss Ollie Winfrey, City Hall, Rising Star; Mrs. Lila Ridings, Court House, Breckenridge. Members of the board are K. B. Tanner, chairman, Eastland; H. Sterling Drumwright, Jr., Cisco; and W. P. Pitzer, Jr., Breckenridge.

Final date for releasing peanut acreage for 1963 is April 4, according to a news letter released by the Agricultural Stabilization and Conservation Service of Eastland County. Emmett E. Powell, office manager.

If area farmers are not going to plant peanuts for 1963 they should be sure to release the allotments in order to benefit some other producer and at the same time preserve the history on their farm, Mr. Powell stated. Peanuts may not be released on farms under the conservation reserve program.

Farmers were also told that if they are working a peanut farm, they should be sure to know the acreage for 1963, as it may have changed from last year.

March 22 was the final date for signing an intention to participate in the 1963 Feed Grain Program, it was announced.

Concerning wool, mohair and unshorn lambs, Mr. Powell stated that to be eligible for incentive payment on those animals, all sales must be completed by March 31, 1963. All sales receipts dated between April, 1962 and March 31, 1963 must be in the office and applications signed by April 30, 1963.

Mr. Powell announced that a wheat marketing quota referendum will be held in the latter part of May or first part of June. All details of the referendum will be announced later. Measuring 19-63 wheat is almost completed, Mr. Powell added.

Thoughts for a Sunday

By LARRY GOLDSTON

Easter Sunrise services will be held Sunday, April 14, at the Bethel Baptist Church at 6 a. m.

This service is sponsored annually by the Eastland Ministerial Association.

Program for the services will be as follows:
Prelude, Homer Terry
Call to Worship, Rev. Ray McKamy

Hymn, "All Hail the Power of Jesus' Name"

'How Are We' Merchants Ask

"Sound off!"
What do you think about the shops and stores in Eastland? What don't you like about them?

You are going to get an opportunity to "sound off" and let the men in charge know exactly how you feel.

In fact, these men-in-charge are asking for your opinions. Reasoning that they can better serve the public of Eastland and surrounding area by first finding out exactly what the public likes, and doesn't like, the merchants are launching a "Customer Survey" that should result in a more pleasing shopping center for the area.

Originated by the Retail Merchants' committee of the chamber of commerce, the questionnaire will be ready soon, and everyone will be welcome to express themselves.

It isn't a contest — it's a survey and your reward for participating will be your contributions to a better Eastland.

Participating merchants will offer each customer one when in their store. You're asked to fill them in and return them to the store from which you got yours.

You won't be asked to sign your name, so you can be as candid as you like.

Were you treated courteously by the sales person? Was the floor clean? Was the price in line with competition? Do you like our window display? Were you invited to "come back"?

These are sample questions and there are dozens more.

All can be answered quickly, and you will be doing yourself and the town a favor by taking the time to answer.

Benediction, Rev. Clarence Manners

Postlude, Homer Terry

A Bible lesson of the subject "Matter" will be read this Sunday at the Christian Scientist Reading Room.

Among the many Scriptural selections will be the citation from 2 Corinthians (5:8). Other passages will bring out the Christian Science teaching that all matter is a "given image", a temporary, limited, delusive sense of things that must finally give way before the consciousness of ultimate, spiritual reality created by God.

The First Christian Church will sponsor a ranch supper for members of the 1963 graduating class of Eastland High School.

The supper will be held Friday night and dress will be in the western motif.

The Church of God will have a revival beginning Monday, March 25, and continue through the following Sunday. Speaker will be Dr. N. G. Randolph of San Angelo.

Services will be held at 7:30 p. m. and a nursery will be provided.

Women who cook electrically know...

Electric cooking is COOLER because it's flameless

Flameless electric cooking units fit snugly against pan bottoms. They put their heat into the pans where it is needed, not into the kitchen air. With an electric range your kitchen stays degrees cooler when you cook. And there is less kitchen heat for your air conditioner to remove.

An electric range oven is insulated all around, including the bottom, to keep heat inside where it belongs. This is possible because the electric oven, being flameless, does not require a flow of air into and out of it to support combustion. Result: your kitchen stays cooler when you are baking or roasting.

Electric cooking also is clean, fast, accurate and economical. See your dealer soon for a flameless electric range and enjoy all these benefits. Electric cooking is one of the nicest things about living better... electrically.

Larry's EHS Limericks

By Larry Goldston

The ninth week of the second semester has just passed and there is less than 10 weeks of school left this year.

Tuesday the school was very fortunate to hear a talk given by Rev. Webster Carrol. The talk he gave was very inspiring as well as informative. He challenged the students to be very careful in choosing their vocation.

Wednesday the Southern Schools Assemblies sponsored "The Crowells". They have traveled around the United States and part of the Latin American countries. Their program was based on the physical fitness and acrobatics.

Thursday the history class

and others heard a talk given by Mr. and Mrs. Joseph Perkins. Their talk included facts about European countries and some countries in the Mediterranean Sea.

If you hear several high school students complain about being sore and in pain, you will know they have participated in a physical fitness test. The test included sit-ups, soft ball throw, 50 yard dash, 600 yard dash, broad jump, and many others.

Here is a list of the senior activities that are coming in the future:

April 3 — Junior and Senior Slave Breakfast

April 7 — Autobiography Tea

April 19 — Senior Play

April 25 — Methodist Breakfast

May 3 — Junior and Senior Banquet

May 10 — Hobo Party

May 24 — Ice cream party

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.

We work with you to arrange for a loan that's as easy to handle as monthly rent.
