## Water-Flood Project Begins Here April 1

The water-flooding oil reclamation project of the old Ringling Lake field is due to begin April 1 — and the city's revenue is sure to be boosted from the sale of water.

And if oil recover in the old field is as great as is anticipated, the city will reap financial benefits for its sixth royalty holdings in the 1,245 acre field.

Sam H. Snooky, Great Western Drilling Co. executive, said that the operation will officially begin in this pilot stage on April 1, after four years of preliminary work.

The city will receive almost \$2,000 a month more for water — representing a one-fifth increase in revenue from water.

The city presently get from between \$8,000 to \$9,000 a month for water, and pays the Eastland County Water District \$3,700 plus seven cents a 1,000 gallons per month for the water. City Manager Lewis Tiner reports.

Several months ago a contract was signed between the city and Great Western Drilling Co. of Midland for the company to buy untreated water at 25 cents, a 1,000 and 35 cents for treated water.

"We'll be putting water into the ground in from 10 to 15 days," Snooky said, "and if the field produces again the way we think it will, the city of Eastland will be getting money from some 32,000 barrels of oil per year."

The capacity flooding period,

expected in from eight months to a year, will last about a year, he said.

Vic LaPar has moved here and will be in charge of the water-flooding project.

There are over other 100 royalty holders in the field, Snooky said, who will share in the project which is expected to last about seven years.

The project will use about 6,000 barrels of water per day, at 42 gallons per barrel, meaning the city will be selling some 210,000 gallons of water per day.

## How Ever Expected Father-Son Event

at this, the 33rd annual banquet.

Dr. Durwood Fleming, president of Southwestern University, and former pastor of the Eastland First Methodist Church, will be guest speaker and his presence here is expected to attract many.

Earl Bender, helping with arrangements, reports that all

is in readiness for the event, which begins at 7 p. m.

The menu committee has announced that all arrangements have been completed for the turkey dinner with all the trimmings.

The class is hoping for every father and every son to be present. Membership in the class or church isn't required.

Price of the tickets is \$1 each and a few are still available either at Mr. Bender's office, Smitty's Jewelry, Robinson's Television and Radio Shop, or from members of the class.

Dr. Fleming has served pastorates in Caddo Mills, Dallas, Eastland and Houston, where he served the St. Luke's Methodist Church, from its organization in 1945 until he became president of Southwestern.

He is chairman of the Texas Conference Board of Education of the Methodist Church, member of World Service and Finance Commission of the South Central Jurisdiction, Jurisdictional Committee on Spanish Speaking Work, and other important Methodist Church offices.

## Local Choir To Sing For Revival At Cisco Church

Revival services are being held at the First Methodist Church in Cisco this week with resident bishop of the Dallas-Fort Worth area of the Methodist Church, conducting the services. Rev. G. W. French, Jr. is pastor of the church.

Song evangelist during the revival will be Rev. Gene Moore of Clarendon. He will be accompanied by his wife, Mrs. Bobbie Moore, at the concert grand piano.

Rev. French has reported that several area choirs will sing during the week, including the choir from the First Methodist Church, Eastland, on Tuesday night, and the Ranger First Methodist Church choir on Thursday night. A different choir will sing at each service, he added.

The revival will be held beginning Sunday (today) through Friday, April 5, with Sunday services at 10:50 a. m. and 7:30 p. m. Weekday services are at 6:55 a. m. and 7:29 p. m.

Rev. French has invited all area residents to the revival to hear Bishop Martin speak.

half of the Eastland Ministerial Association.

Since patients are the hospital's first concern, all addresses and ceremonies will be as brief as possible, officials report.

Honored guests at the dedication services will be past presidents of the board, Theo Lamb, Horace Horton, T. M. Fullen, Billy C. Frost, Frank N. Sayre and W. H. Hoffmann, and past presidents of the Ladies Auxiliary, Meses. James Horton, Samuel Butler, Ben Hamner, L. D. Houle and Jack Frost.

Other special guests will include the staff doctors, nurses and all personnel and all volunteer workers and donors who made the original hospital possible.

Small group tours will be given by nurses and personnel on that day.

Hospital staff members include Leon Musgrove, administrator; Mrs. Mary Sue Lee, director of nurses; Mrs. Helga Tiner, business manager; Mrs. Cletis Williamson, laboratory technician; Mrs. Eleonora Wright, head surgical nurse; and Mrs. Doris Lewis, acting dietician.

Present members of the board of directors are Jim Parks, Glyn Gilliam, Mrs. Samuel Butler, Guy Parker, Billy C. Frost, T. M. Fullen, B. F. Hanna, Russell Hill and Virgil T. Seaberry Jr.

The 61-bed capacity hospital will feature 11 private rooms. A new feature of the hospital is a central oxygen system, with outlets in each room.

The East wing has 4,600 square feet and 1,200 square feet in the administrative department.

## Nutria Threat Announced By Rodent Control Officials

Joe Webb, 26, has been interested in animal trapping since he was "old enough to spring a trap". A native of Carrizo Springs, near Laredo, Webb is District Field Assistant with the Rodent and Predatory Animal Control Service, Texas A&M. The purpose of this service is to educate the public on the methods of controlling rodents and predators injurious to crops, livestock and wildlife.

He has been with the service for five years and moved to Eastland about a year ago from McKinney.

Webb travels an average of 1,000 miles per week and serves the following 20 counties: Eastland, Callahan, Taylor, Jones, Haskell, Knox, Foard, Hardeman, Wilbarger, Wichita, Clay, Jack, Parker, Palo Pinto, Young, Archer, Baylor, Throckmorton, Shackelford and Stephens.

Rodents and such animals as coyotes, wolves, foxes and bobcats are controlled in Eastland County by poisoning and trapping.

Johnny Benson of Morton Valley serves as trapper for this county.

The service works with 4-H Clubs, Boy Scouts, City and County Health Departments, FFA Chapters or any non-profit organizations.

One of the greater nuisances is the coypu or Nutria, a rat-like mammal nearly as big as a beaver with a tail similar to a rat or opossum. It is usually brownish in color but sometimes ranges into a darker brown, nearly black.

Several have been reported at Lake Bernie at Cisco. Anyone seeing Nutria should report it to the County Agent.

Many attempts to control the increase of Nutria have been undertaken and as far as is known, no usable method of control by poisons has been determined. Poisons which kill Nutria also kills cattle, people and waterfowl.

The 57th Legislature, 1961, recognized the possibility of Nutria spreading over more of the state and passed a law which provides a penalty from \$10 to \$200 for any person to have in his possession, or to transport or sell any live Nutria unless he has obtained a written permit for such possession, transport or sale from the Game and Fish Commission.

According to Webb, there

were 28 coyotes, 33 bobcats and 34 wolves caught in Eastland County during 1962.

State catches totaled 29,319 coyotes, 4,479 bobcats, 1,547 wolves and 14 mountain lions. Webb, his wife, Barbara, and their sons, Mark, five, and Mike, two, reside at 1403 S. Seaman.

He will appear on the A. B. Jolly Farm Program at 12:30 p. m. Monday over KRLD television.

### CHRISTIAN SCIENCE

Freedom from Materiality, bondage of any sort, will be emphasized at Christian Science church services Sunday.

Highlighting the Scriptural selections from the Lesson-Sermon on the subject "Reality" will be this passage: "The night is far spent, the day is at hand; let us therefore cast off the works of darkness, and let us put on the armour of light." (Rom. 13:12).

From "Science and Health with Key to the Scriptures" by Mary Baker Eddy this citation will be read: "Perfection Underlies reality. Without perfection, nothing is wholly real. All things will continue to disappear, until perfection appears and reality is reached." (p. 353).

## Special Commission Set Prices on 4 Pieces Lane

Hearings were held and prices set on four tracts of land located west of Cisco for the new Interstate 20 Highway it was announced this week by County Judge Scott Bailey. W. M. Eisenhower was awarded \$346; Gordon Donoway and others, a total of \$95; Lela Latch Lloyd, \$4,500; and Oscar Penn, \$5,000.

Judge Bailey appointed three special Commissioners, D. L. Kinnaird Jr. of Eastland, H. M. Gilbert of Carbon and Robert H. Donovan of Cisco.

They met five times and visited the property and heard testimony from the Highway Department and the property owners.

Property owners have 20 days in which to file an appeal. If appealed, the case will go before a jury in County Court.

The Highway Department also has the right to appeal if, in their opinion, prices awarded are too high.

The State hopes to let the contract in April for Inter-

## Salk Vaccine Discovered 10 Years Ago

Persons in Eastland County who have been spared from crippling polio owe much to an American scientist who announced a great discovery just 10 years ago.

Mrs. J. A. Bates, chairman of the Eastland County Chapter of the National Foundation-March of Dimes, made this observation in recalling that on March 26, 1953, Dr. Jonas Salk revealed in a nationwide radio broadcast that his vaccine against polio was just around the corner.

The Salk vaccine has prevented an estimated 154,000 cases of paralytic polio in the United States with a savings to the nation's economy of more than \$6.7 billion, Mrs. Bates said.

She added that approximately 12,000 of those saved from polio would have died had the Salk vaccine not been available.

By BEVERLY NICHOLSON  
Co. Home Demonstration Agent  
Area rugs have become an important part of today's room decoration.  
They vary in size from those that cover an area designated for a conversation group to the small scatter-type rugs. Skiddy rugs on polished floors invite disaster. If you have any doubt about underfoot security of small rugs, don't take chances. Treat your rugs with one of the easy to use non-skid backings.  
If you are buying new rugs, look for non-skid types. Or try some non-skid aids on the market.  
While not endorsing any of the producers, here are some suggestions.  
A non-skid, rubberized product, Sta-Put, is easy to use. Protect the floor when applying, and turn the rug upside down. Spray around the border two or three times in quick continuous motions. Then

spray the inner area of the rug several times in zigzag fashion. After a thorough drying period, the rug can be washed but must be re-treated afterward.  
A white powder, Rug-Hug, needs only to be sprinkled under a light film conforming to the size and shape of the rug. Powder keeps anchoring the rug until after it is washed out or vacuumed off. Then it must be replaced.  
Although it must be painted on, Griptex Rug Guard lasts and lasts. Rugs can be washed and washed time after time without any effect on the anchoring adhesive. The back of the rug can be completely coated or a large "X" painted on the center with a wide border coating near the edges may be sufficient.  
A sheet of light plastic foam cut to the size of the rug is another solution. It may be purchased in carpet stores or in variety stores.  
**WCS DELEGATE**

**MRS. YOUNG PROGRAM LEADER FOR THURSDAY CLUB MEETING**

Mrs. R. L. Young was leader for a program on "Stepping Stones to the Refugee Problem" Thursday afternoon when the regular meeting of the Thursday Afternoon Club was held in the Woman's Club.  
She announced the subject and gave the quotation: "Eating the bitter bread of banishment."  
Mrs. W. F. Davenport talked on "The Ring of Hate Around Israel". She gave the Biblical background of the Hebrew and the Arabian people telling of the hatred that the Arabians have held for the Jews down through the centuries to the present time. Today they hate the little nation of Israel located in the heart of the Arabian states and they are using their increased resources to build up their military strength in preparation for war against Israel. She reported that there are 433,000 refugees in the Arabian states who now depend on the charity of the U. N.  
A paper on the Cuban refu-

gee problem in America was given by Mrs. Harold Bulgerin. She stated that the Cuban refugees were a proud people and did not want to live off the government but they wanted to work. There are 75,000 refugees in Miami, Fla. and 45,000 have no means of support.  
Prior to the program, Mrs. Turner Collie, president, conducted a business session and she announced the Program Committee for the ensuing year composed of Meses. I. C. Inzer, C. W. Hoffmann and Fred Davenport.  
The next club meeting will be held in the parlor of the Methodist Church.  
The following members answered roll call: Meses. Harold Bulgerin, Turner Collie, Cecil Collings, Pat Crawford, W. F. Davenport, W. S. Fisher, Cyrus B. Frost, Ben Hamner, James Horton, Donald Kinnaird, W. P. Leslie, Milburn Long, Frank Lovett, Arthur Murrell, W. D. R. Owen, Joseph M. Perkins, T. E. Richardson, E. R. Townsend, Esco Walter and R. L. Young.

Behind many "For Sale" signs there is a sad story: A family borrowed more than they could afford to pay for a home, or payments and interest rates were too high; the home had to be sold, often at a loss. This tragedy could often be avoided if the families would seek help from a home loan specialist, such as our Association.  
We work with you to arrange for a loan that's as easy to handle as monthly rent.

**YOUR FAIR SHARE...**

Most Texans, we believe, are fair-minded folks. They believe in fair play, square dealing, and mutual respect for personal and property rights. Those who want to take advantage of their neighbors are the exception. Sometimes it may be hard to define a "fair share." This can occur in dividing oil or gas production, when two or more landowners are involved.

As we all know, oil and gas don't pay any attention to fence lines.

Here in Texas many wells have been allowed to produce more oil or gas than they should have because they were drilled on very small tracts. That extra oil or gas came from under the neighbors' land.

Some oilmen made a regular practice of this type of operation. Obviously, one owner got more than his fair share — others, less.

People in 26 out of 29 oil-producing states have found a way to divide their oil and gas so that each owner gets what is rightfully his. They simply put their small acreage together and share the costs and income. This system is known as POOLING.

Such a system is needed in Texas. It is proposed in a bill now before the Legislature, HOUSE BILL 510. When the neighbors cannot agree, the Railroad Commission would set up a drilling block and see to it that the rights of all owners are protected. . . all costs and proceeds equitably divided.

Oilmen who have made fortunes at the expense of others could not be expected to support House Bill 510. They are bitterly opposing it. But the responsible oilmen of Texas are overwhelmingly for it. So are the informed citizens who want to see justice done.

Ask your Senator and Representative at Austin to support House Bill 510 — so Texas, too, will have a reasonable and legal way to assure to each landowner his FAIR SHARE.

Women who cook electrically know...

**Electric cooking is FAST because it's flameless**

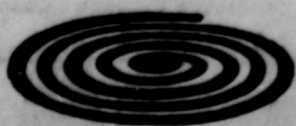

Today's electric ranges start heating instantly, reach cooking heat in seconds. Flameless electric surface units put heat directly into the pans, not into the room, so practically all the heat goes into the food being cooked. That is why electric cooking is fast.

The flameless electric oven reaches baking or roasting temperature quickly. Since it is insulated all around, including the bottom, heat stays inside where it belongs. And because electric heat is instant, the broiler requires no preheating. This means your meals can be cooked in a minimum of time.

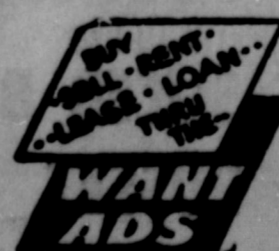

Electric cooking also is clean, cool, accurate and economical. Select your flameless electric range at your dealer's now and enjoy all these benefits. Electric cooking is one of the nicest things about living better...electrically!

## American Republic Tailored\* Protection

LEARN THE FACTS ABOUT

### The Secret of Buying Hospital Insurance that **PAYS**

On its record of paying claims—the most important way to judge any insurance company—American Republic ranks Number One among the "Top 40" firms in its field. The few minutes it takes you to learn about American Republic "Tailored" Protection may be worth hundreds of dollars to you—at a time when you may need every cent you can lay your hands on!

Today, eight out of ten families have some kind of hospital, surgical or medical insurance. But the need for this type of protection is greater than ever. Hospital and medical care costs have been going up nearly 1% each month since 1950. If your present policy is two years old or older, and was adequate when you bought it, the chances are good that you need more coverage right now.

With over 900 companies writing individual accident and health insurance, how can you choose the company that's best for you? Experts say the best way is to ask: *What is the company's record for paying claims?*

According to the latest available issue of the Statistical Edition and Argus Chart of the National Underwriter Company, publishers of official insurance statistics since 1897:

Of the top 40 companies writing individual accident and health insurance, American Republic Insurance Company of Des Moines, Iowa, ranks **FIRST** in percent of premium dollars paid to policyholders in claim benefits.

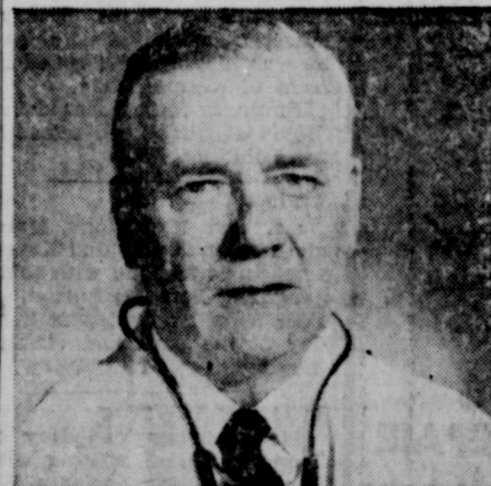

American Republic policyholders also enjoy the important benefits of TAILORED Protection. This feature makes it possible for qualified people OF ALL AGES to have up-to-date health insurance protection—and, at the same time, avoid buying coverage they may not want or need.

Even if you already have hospitalization insurance, American Republic TAILORED Protection can start where your present coverage leaves off. And it pays fully stated benefits in addition to any amounts you may collect from any other health insurance policy you may now have.

American Republic Representatives are now contacting residents of this community to explain American Republic TAILORED Protection. One of these representatives will call on you soon. Watch for him.

### FREE FILM SHOWING IN YOUR OWN HOME

Fully-qualified, specially-trained American Republic Representatives are pledged to show an educational and informative color film to all residents of this county. The American Republic TAILORED Protection Plans will be fully explained and will be available to all who qualify.

DOCTOR BILLS often are a big part of the expense connected with a sickness or accident. An American Republic Plan can help pay these bills for you in time of need.

SURGEONS' BILLS, TOO, can wreck a family budget. An American Republic Plan can help pay the costs of operations. Look for the man who can explain these plans to you.

HOSPITAL EXPENSES have been going up at the rate of nearly 1% a month since 1950. An American Republic Plan can help pay these bills when you need money most.
