... and our low rate for electric home heating

You'll enjoy a wonderful new experience in wintertime comfort when you install clean flameless electric home heating. Easily installed electric heating units provide even, automatically controlled warmth. With builtin electric heat, each room can have its own thermostat-the temperature can be raised or lowered as you like without overheating or underheating the rest of the house. And flameless electric heat is clean-as clean as electric light-which means less housecleaning and redecorating. What's more, electric home heating is available now on a low rate that makes it an outstanding value in better living. Call us soon for full information about electric heating and our low residential electric heating rate.
