'Fortresses' Hit Battered Naples In 4th Daily Raid

ALLIED HEADQUARTERS IN NORTH AFRICA, Aug. 5 (AP)—American Flying Fortresses engulfed bomb-torn Naples in another flood of high explosives yesterday in the fourth Allied raid against the southern Italian seaport in four days.

The bombers slashed at docks and submarine bases and left the target "well covered with bombs," headquarters said one merchant ship was left ablaze.

Munda Airfield Battle Fought At Close Grips

ALLIED HEADQUARTERS IN THE SOUTHWEST PACIFIC, Aug. 5 (AP)—United States infantrymen fought at close grips today with Japanese on the south fringe of the Munda airfield opposite its center after breaking through a long, covered trench.

The battle for possession of the new Georgia island air strip was a slow-moving and violent one.

The jungle-fringed airfield runs roughly east and west. The infantrymen now near its center came in from the east along the coast. Across the strip from them and about a mile north of the airfield, other Americans strove to rout the Japanese from the western slope of Bibolo hill preparatory to moving against the field.

A naval spokesman at headquarters of Admiral William F. Halsey, Jr.'s command in the south Pacific said that capture of Bibolo and Kokengolo hills, two enemy strongpoints guarding the approach to Munda from the northwest, was expected momentarily.

He added that a drive past these positions would put the American forces on the sea coast behind Japanese lines, thus pinning the defenders within a small area and cutting off all routes of escape.

Along the coast on the western end of the field, many of the Japanese were frightened from their foxholes into the nearby reef-studded waters by swarms of fighter-escorted bombers which dropped 45 tons of high explosives Wednesday.

Navy Corsairs tore into the enemy base on Shortland Island below Bougainville destroying seven float planes, three barges and a small cargo ship.

INTERNATIONAL BRIDGE PLAN IS GIVEN APPROVAL

AUSTIN, Aug. 5 (AP)—Texas state highway engineers today had orders to complete plans and specifications for a toll free international bridge across the Rio Grande linking Laredo, Texas, and Nuevo Laredo, Mexico.

The highway commission in minutes adopted yesterday said construction would begin as soon as practicable in the post war period.

State Highway Engineer Dewitt C. Greer, who recently returned from a conference with Mexican highway officials, was directed to proceed with negotiations necessary for construction of the international facility.

Approval of the public roads administration, federal works agency and United States government is required for the span which will be an important link in the Pan-American highway. A privately owned toll bridge now connects Texas and Mexico at Laredo and Nuevo Laredo.

The commission's minutes said preliminary negotiations with highway officials of the United States government and the republic of Mexico indicate that a new high water, toll free bridge is an essential improvement to the international highway.

KILLS WIFE, THEN TAKES OWN LIFE

DALLAS, Aug. 5 (AP)—John C. Graves, 42-year-old aviation plant worker, shot his wife to death with a shotgun as their five small children looked on in terror and then took his own life with the same weapon, according to Justice of the Peace Joe Brown, who returned verdicts of murder and suicide.

Mrs. Graves was 29. The children, ranging in age from eleven months to ten years, were turned over to the city welfare department after the shooting late yesterday in the Graves' Oak Cliff apartment.

Detectives E. R. Gaddy and M. W. Stevenson quoted neighbors as saying a family quarrel had been in progress for several hours before the shooting.

Russian Army Smashes Into City Of Orel

'Planned' Retreat From Strategic Positions Admitted By Nazis

MOSCOW, Aug. 5 (AP)—The Red army battled its way through the streets of Orel today, completing the occupation of the first great city to be wrested from the Germans in the summer campaign.

The Germans offered stubborn resistance, throwing tanks into bitter street fighting, but the action appeared to be only a rear-guard defense rather than a serious effort to challenge the Russians for possession of the key fortified city.

Red army infantry storming down from the hills east of Orel swept across the Oka river and were reported mopping up the enemy's rearguard block by block.

Frontline dispatches said the Germans still were offering bitter resistance northwest and southwest of Orel in an effort to cover the retreat of the main body of their troops through the bottleneck to the west.

Soviet bombers, however, were reported blasting at the enemy's support lines and main bases behind the Orel salient, concentrating on the communications center of Bryansk, Nikitovka, Yasnovaya and Ilovaiskaya behind the Kharkov front also were subjected to heavy air attacks.

(The Berlin radio announced last night that Nazi forces had evacuated Orel. Describing the retreat as an "evacuation according to plan," the announcement said German forces had taken up previously-prepared positions behind the city after destroying everything of value.)

Orel, which had a normal population of 91,000, had been fortified extensively with the hedgehog system of defense since it was occupied by the German army on Oct. 8, 1941. It is the hinge and key defense position of the long south-central German line extending to the Sea of Azov.

(The Berlin radio's announcement did not state the extent of the German withdrawal, but the next position of importance is Bryansk, 80 miles to the west. The Germans had only one remaining rail link between Orel and Bryansk, and the Russian column advancing from the north already had been reported within five miles of that line, holding it well within artillery range.)

The Russians also reported new successes at Belgorod, 165 miles south of Orel, where they said they smashed ahead for gains up to six miles and improved their positions.

Ickes Calls For Equalization Of Gas Ration

CHICAGO, Aug. 5 (AP)—Petroleum Administrator Harold L. Ickes declared today "the oil transportation problem has been about whittled" and that fair and just handling of the oil supply problem would require diversion of petroleum products from the Middle West and Southwest to the East, now that they can be moved.

Asserting his agency has seen no validity in "any theory of rationing simply to spread the misery," Ickes summarized into four points "why gasoline consumption in the middle west and southwest will have to be curtailed."

"1. War requirements for crude oil are enormous and increasing steadily.

"2. Crude oil productive capacity is falling off throughout the middle west and is susceptible of a substantial increase only in West Texas and to a relatively minor degree in parts of Louisiana and New Mexico.

"3. The combination of the first two factors means that we are now at the point in the United States where we cannot be sure that we will continue to have enough crude oil to meet the requirements of war and essential civilian use unless petroleum products are used conservatively.

"4. Gasoline production has fallen off and is continuing to fall off because more and more of each barrel of crude oil that used to go into automobile gasoline is now going into 100 octane aviation gasoline, toluene for TNT, butadiene for synthetic rubber, distillate for heating purposes and for processing in catalytic cracking plants that are making petroleum war products.

"And finally transportation facilities for more petroleum and petroleum products out of the southwest and middle west have risen to the point where more oil can now be moved out than can be made available at the present level of consumption."

Mayor G. C. Dunham will be the speaker at 6:35 p. m. today when the regular WAC program is presented over radio station KBST.

Italian Battleships On Duty With Fleet

LONDON, Aug. 5 (AP)—A Spanish radio broadcast recorded by the ministry of information said today that Italy's two most recently launched battleships, the 35,000-ton Impero and Roma, are now in active duty with the fleet.

The Roma, launched in June, 1940, previously was reported damaged by American Flying Fortresses in a raid on the Italian naval base at Spezia on June 5, along with two other ships of the same class—the Vittorio Veneto and the Littorio. There have been no reports of the Roma since then.

White And Negro Leaders Found Council For Promotion Of Inter-Racial Cooperation

ATLANTA, Aug. 5 (AP)—The nucleus of a permanent organization to promote inter-racial cooperation and good will in the United States has been established following a meeting here of southern white and negro leaders.

At the outset, the organization will function as a southern regional council, but a similar nation-wide movement was envisioned in a formal statement which called on President Roosevelt to set up a national council.

The day-long meeting yesterday was attended by members of the joint continuation committees of the previous Atlanta and Durham, N. C., conferences on race relations.

Dr. Howard W. Odum, of the University of North Carolina, and Dr. Charles S. Johnson, of Fisk University at Nashville, Tenn., were co-chairman, and as such will serve as presiding officers in the new permanent council until organization is perfected.

Purpose of the council, Dr. Odum explained, is to carry out what the conference adopted as "a new declaration of American principles and a new dedication of ourselves to the task of co-operating together with all regions and all races for the continued better ordering of our society."

Pink asters, scavoins in shades of lavender and deep purple, and baskets of summer garden flowers were party decorations. Willie Mae Dittford presided at the bride's book.

The hostesses were assisted in serving refreshments by Miss Dittford Helen Marie Knocke, Sue Hardegree, Reba Hardegree, Mrs. Leslie Woods, Mrs. George Irvin Plaster, Jackie Hamilton, and Mrs. Harold Boney.

The marriage of Miss Plaster and Mr. Hardegree will take place Thursday evening, August 5th, at nine o'clock at the First Christian church.

VISITS AND VISITORS

Mrs. C. B. South, Jr., left Wednesday evening for Miami Beach, Fla. to be with her husband, Pfc. C. B. South, Jr., who is attending specialized training school there.

Mrs. C. H. Tippie is visiting friends and relatives in Meridian.

Alva Lael and Jacqueline James are visiting in Ardmore, Okla.

Mrs. Don. W. Pyle is visiting in the G. W. Webb home.

The phrase "his name is mud" originated from the misfortunes of Dr. Samuel A. Mudd, convicted of complicity in the assassination of Abraham Lincoln, and sentenced to imprisonment at Fort Jefferson in the Florida Keys.

Miss Laneous Notes

MARY WEALEY

It used to be funny, that line about "I've been ironing in high heels all day," all done with a corny accent to describe why you happened to be tired at the moment.

But he who laughed isn't laughing now, for, except for the high heels, which can be taken care of with no trouble, that is half the reason these summer days that you are drooping around.

Time was when you made a neat little bundle of your summer frocks, sent them off to your favorite wash woman, and then chided her if she was more than a day or so getting them back.

Dear, dark days of long ago. You now budget your time either before or after supper, before you go to bed, or even early in the morning to being your own laundress.

The only time in your life that you are glad you've got a small wardrobe is when you see the piled up bundles diminishing. Even then, you wonder why you ever bought so many clothes in the first place.

As for making you neat, there is no better method than "doing your own." A spot you would ignore back in the days of letting Georgia do it, practically sends you into a screaming fit. Now you'll have to wash the darn thing and you had been hoping for a second wearing.

If you ever meet up with your laundress again, when she gets back from welding school, making a hundred dollars a minute or the like, you will probably hang her picture in a prominent place where you can do homage twice a day. Little did you understand what she went through to make a living until you started doing it on the side yourself.

Parties Are Given In Colorado City

COLORADO CITY, Aug. 5. — Two parties in Colorado City homes were given as farewell courtesies to Mrs. Truett Barber who will live in Winters until Lt. (jg) Barber completes preliminary training with the navy.

Mrs. Charles Moerer entertained with a morning coffee and contract, Zinnias and other flowers decorated the dining table and the living room. High score in the bridge games went to Mrs. John Reese. Guests presented Mrs. Barber with a shower of handkerchiefs.

Those present were Mrs. E. S. McCord, Mrs. W. D. McClure, Mrs. Randolph McEntire, Mrs. Daniel Smith, Mrs. Earl Hammond, Mrs. Willis Shropshire, Mrs. Emmett Grantland, Mrs. Oren B. Trulock, Mrs. Reese, and the honor guest.

From Gilmore To Griffin Its News Of Visitors And Summer Activities

J. M. B. GILMORE—"My I'm just enjoying this cool weather and trying to stretch the red points further" laughed Mrs. J. M. B. Gilmore.

W. J. GOODSON—Talked with Tunie Goodson who told us that his mother was working at the Big Spring Bombardier School and that he "didn't know any news."

WAYNE GOUND—"Oh Goodness, I've been busy canning" Mrs. Gound reported and even though she has put up cream peas, corn, and black eyed peas, she's still anxious to can tomatoes and some other vegetables.

W. B. GRADY—After wearing winter clothing in New York, it's difficult for Mrs. Grady to become accustomed to West Texas weather again she states. She spent June and July in the North and returned to Big Spring recently.

OTIS GRAFA—Mrs. Grafa with Mrs. J. C. Velvin and friends from San Antonio returned recently from Mexico City where they visited for 10 days. In San Antonio Mrs. Grafa visited with her son, Cadet Otis Grafa, Jr., who is in training there.

ALBERT GRANTHAM—"Guess we don't get around much anymore" says Mrs. Grantham who states that they were just staying home this summer.

C. M. GRAY—Mrs. Gray really is lucky for not only is she getting fresh vegetables from East Texas but her daughter who lives in Louisiana is also canning them for her. "My, I'm just taking it easy" Mrs. Gray says.

ELMER GREEN—"I'm quite happy today for my son, Pvt. Gene C. Green who is stationed at Camp McCall, N. C. is home on a furlough" Mrs. Green said. She was also telling us about Mr. and Mrs.

Dalton Cross and children returning to their home in National City, Calif., after visiting here with friends and relatives.

J. E. GREEN—Mrs. J. E. Green is planning a trip to McCarney this weekend to visit with her mother.

J. H. GREENE — Mrs. Greene told us in greatest confidence that she had found a way to "beat the heat." "I clean house on warm days and then I don't notice it so much" she laughed.

O. P. GRIFFIN—Mr. and Mrs. J. B. Hamrick have moved to Big Spring from McAllen, and her mother, Mrs. O. P. Griffin, is helping her to do the impossible—find a vacant house. "I've been pretty busy this summer canning beans, plums, apricots, and peaches, and helping the neighbors with their canning" Mrs. Griffin says.

Births Announced
Dr. G. S. True announced Wednesday the births of two children born here this week. Mr. and Mrs. A. A. Chapman of West 7th street are the parents of a 9 pound son named David Boyd. Mr. and Mrs. Rudolph Ferris of the North Side are the parents of an 8 pound boy which has been named Rudolph, Jr. Mothers and sons are doing nicely.

'Fortress Patches' Lives Up To Its Name

AT A U. S. BOMBER STATION IN ENGLAND, Aug. 4 (AP)—The flying fortress, "Patches," really lived up to its name when it limped back from a raid on Kassel, Germany, July 30, punctured by nearly a thousand bullet and anti-aircraft holes.

She was flying hospital for most of the trip back to England as other crewmen, between shots at a swarm of German air-tormentors, administered first aid to four injured men lying on the floor of the radio and nose compartments.

The pilot took the bomber to Kassel without incident so that the bombardier could dump the explosives.

Then trouble began.

Bounced around by the anti-aircraft explosions, besieged by fighters, "Patches" fought back to the enemy coast despite jammed throttles, badly damaged controls, most of the elevator gone and a big chunk torn out of the rudder.

The top turret gunner suffered a fractured leg when he was thrown about the turret and then stopped a bullet in his left thigh. But he refused to abandon his guns and shot down a Focke-Wulf 190 in flames.

Both waist gunners, Sgts. Tom B. Wheeler, 26, Corsicana, Tex., and Willard J. Cronin, 30, Winthrop, Mass., were knocked unconscious by anti-aircraft bursts, but shock was their only injury.

Commissions Hard To Get

WASHINGTON, Aug. 4 (AP)—Fathers now facing military conscription stand a greatly reduced chance of getting a commission.

Military officials said today the road to an army officers' rating has not been closed, but they declared it has become considerably rockier in recent months.

Quotas for officer candidate schools have been reduced drastically, the basic training period is being extended by nearly one-third, and preference is being given to men with overseas service.

On the other hand, officials hinted that the recent army order to enforce the statutory retirement for age of senior officers, and to relieve over-age officers from active duty, except in extraordinary cases, was intended in part at least to create vacancies so that by a chain of promotions new openings would be created in the lower grades for officer candidates.

How many such retirements for age there will be, however, remains a question which the war department as yet is unable to answer.

With induction of fathers scheduled to start in October, indications are most of them probably will find themselves in the navy, since by that time the army will be close to its goal of 8,200,000 men, and the navy offers no such system as the army has for advancing men from ranks to commissions.

DRINKERS OF BEER AND LIQUOR MUST ADJUST HOURS TO NEW CURFEW LAW

Beginning Monday, August 9th, liquor and beer drinkers (when they can find the stuff) will find their hours of imbibing sharply curtailed as the new curfew law passed by the state lawmakers goes into effect.

According to the new law, places selling alcoholic beverages may not open until 7 a. m. on week days and must cease sales at 12 midnight. Customers in the establishment will have until 12:15 o'clock to finish their drinks.

On Saturdays, the law states that alcoholic beverages can't be sold after 1 p. m. and no drinking can be done in the place after 1:15 p. m. Places cannot open until 1 p. m. Sundays for the sale of the beverages.

The law will be enforced here by all local peace officers, as well as by all places of business, as the cafe, night club or restaurant owner may be found guilty of permitting drinking after the curfew and an injunction secured to close his business.

The individual drinking after 1:15 a. m. Sunday morning or after 12:15 p. m. week days in a public place is subject to having his liquor or beer seized, and to a fine of not more than \$50.

The local liquor control board supervisor, T. W. Franklin, also advised that after August 9, there will be no more supplemental licenses granted.

No More Sunday Funerals Here

Big Spring funeral directors, florists, and the cemetery department of the city agreed this week to refrain from holding Sunday funerals and other services requiring business houses to keep their office personnel on a seven day week.

The move came after similar groups over the nation explained that an acute labor shortage was forcing limited staffs to work on a seven day week schedule to handle the Sunday rites.

A group representing the funeral directors, florists and others presented the problem to the Pastor's Association in a recent meeting and the ministers agreed to cooperate with the plan.

Unless an emergency case arises, it was explained, in the future there will be no Sunday funeral services held here but all such rites will be held during week days.

Damaged Hospital Is Abandoned

AUSTIN, Aug. 4 (AP) — Temporary abandonment of the Galveston State Psychopathic Hospital because of hurricane damage to the property was decreed by the state board of control.

The evacuation of patients must be completed by Sept. 1 it was decided upon after inspection of the Galveston plant. The decision was made, the board said, because of uncertainty of time and materials needed for repairs and in the best interest of the patients.

The main building can be restored but the woman's dormitory is beyond reclamation, the board said.

School Board Will Meet Saturday

The Howard county school board will be in session Saturday afternoon at 2:30 o'clock at the county superintendent's office to consider applications for transfers filed during the month of August.

Superintendent Walker Bailey said that 257 applications for transfer were filed at his office by parents. This number does not include two districts, R-Bar and Vincent, which contracted to Coahoma school for next year.

California's Central Valley Project will increase the state's vital war crop production by more than 1,000,000 tons annually.

O. G. Yeater Rites

COLORADO CITY, Aug. 5. — The body of Oris Gordon Yeater, 53, was shipped by Kiker and Son from Colorado City to Salem, West Virginia, Wednesday morning, for funeral and burial there. Yeater died suddenly while at work in Westbrook Monday afternoon. He had lived in Colorado City for the past three months and was employed as a driller in the Westbrook oil field. He had been associated with the George Campbell Drilling Co. for eleven years.

Keep 'Em Oiled and Greased THEY'VE GOT TO LAST!

Electric fans have been working overtime. The chances are they again need a little oil or cup grease to protect bearings from wear. Electric fans have gone to war—take care of them.

Some Fans Need Oil

For fans which have oil holes, use a medium-weight lubricating oil, such as automobile engine oil. Be careful not to use too much, for it runs out and rots the rubber insulation.

Some Fans Need Grease

Some fans have grease cups instead of oil holes. These cups, containing a small wick and coil spring, should be filled with cup grease; not oil. If in doubt, take your fans to an electric shop for oiling and greasing.

FOOD NUTRITION and Point Rationing NEWS

The Big Spring Daily Herald

Have Fun In Your Own Back Yard

Most picnics this year have to be within walking range of the kitchen. For many of us that means the back yard, terrace or porch.

Low-point meats and other main dishes for quick and easy serving are preferred. Or you can plan a combination affair with the guests pooling their ration stamps for a good steak. Part of the meal can be started in the kitchen and the cooking finished over the barbecue fire.

Chops, franks, kabobs and other small meats, require short cooking time when broiled over a glowing fire.

BARBECUED CORN is fun to

cook over an outdoor grill or open fire. Discard the husks and silk from good fresh corn. Wrap each ear with a thin slice of bacon, pegging it in place with picks or metal skewers. Pierce with sharp stick and broil until bacon is crisp and the corn a light brown. Turn the stick slowly and steadily for best cooking. Sprinkle lightly with salt and pepper mixed together in a large shaker. No butter is needed to give flavor to corn cooked like this.

FRANKS & TOMATO CUBES make grand out-door eating. Cut franks into half-inch slices and tomatoes into inch cubes. String up the franks and tomatoes on

long forks, metal skewers, or thin sticks. Dip in barbecue sauce and broil about 8 minutes or until brown.

The sauce is good with any barbecued meat. Make it like this: Simmer 10 minutes 4 tablespoons margarine, 1 cup boiling water, 1 cup sliced fresh tomatoes, 1 teaspoon salt, 1-4 teaspoon paprika, 2 teaspoons sugar, 1 teaspoon prepared mustard, 1 teaspoon finely chopped onion and 1-4 cup vinegar. Add a clove of garlic and discard it after 4 minutes of cooking. Press the cooked mixture through a coarse sieve.

HAMBURG CREOLE struts in the kitchen and finishes over the outdoor fire. Mix together 1 pound hamburger, 2-3 cup dried bread crumbs, 1 teaspoon salt, 1-4 teaspoon paprika and 1 tablespoon each of finely minced onions and parsley. Shape into inch balls. Roll in flour and brown in 5 tablespoons bacon fat, chopped suet or salt pork. Simmer 15 minutes 2 cups corn, 2 cups cooked noodles, 1-2 cups cubed tomatoes (fresh), 1-2 teaspoons salt, 1-4 teaspoon paprika and 1-4 cup each chopped onions and celery. Add 4 tablespoons margarine or bacon drippings and 1-4 cup flour. Blend thoroughly and add the meat balls. Pour into 2 shallow, greased baking dishes. Bake 25 minutes in moderate oven. Cover and finish cooking 15 minutes over the outdoor fire.

This amount will serve eight, generously.

HOT SPICED BEET RELISH gives a tang to meats cooked out of doors. Simmer 20 minutes 2 cups chopped cooked beets, 2-3 cup sweet pickle relish, 1-2 cup water, 1-2 cup vinegar, 1-3 cup sugar and 2 tablespoons pickling spices loosely tied in white muslin square. Discard the spice bag and boil the relish a minute. Serve hot with meats.

CORN VEGETABLE FRITTERS are filling and inexpensive to cook on a griddle set over the outdoor stove. To serve 6 or 7, mix together 3 cups flour, 6 teaspoons baking powder, 2 teaspoons salt, 2 teaspoons sugar, 1-3 teaspoon pepper, 1-2 cups grated fresh corn, 2-3 cup sliced, cooked carrots, 2 tablespoons each minced onions, green peppers and parsley, 3 eggs, beaten, 1-2 cups milk and 2 tablespoons shortening, melted. Pour from a pitcher onto hot greased griddle. Brown on both sides and serve hot with cheese or tomato sauce.

15 Bombardier Instructors To San Marcos

Fifteen bombardier instructors from the Big Spring Bombardier School have been assigned temporarily to the San Marcos Army Flying School for specialized training.

Repeat twice and freeze 3 hours, or until frozen.

BACKACHE, LEG PAINS MAY BE DANGER SIGN Of Tired Kidneys

If backache and leg pains are making you miserable, don't just groan and do nothing about them. Doctors may be warning you that your kidneys need attention.

The kidneys are nature's chief way of taking away acids and poisonous waste out of the blood. They help most people pass about 2 quarts a day.

If the 16 miles of kidney tubes and filters don't work well, poisonous waste matter stays in the blood. These poisons may start causing backaches, rheumatic pains, leg pains, loss of sleep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your doctor for Doan's Pills, and successfully by millions for over 60 years. They give happy relief and will help the miles of kidney tubes flush out poisonous waste from the blood. Get Doan's Pills.

Major Leagues Can Boast Of Pitchers Winning 20 Games

By The Associated Press
The major leagues may be able to boast of 10 or more 20-game winning pitchers this year compared to only four in 1942. Where only Mort Cooper, Johnny Beazley, Ernie Bonham and Tex Hughson were able to make the grade a year ago, five twirlers seem certain of reaching the coveted 20-game goal with 10 others having better than an even chance.

Topped by Rip Sewell of the Pittsburgh Pirates, the National league claims four of the five twirlers virtually certain of winning 20 games. Sewell has won 17 and lost two. Cooper, Cardinal ace, has a record of 15-6. Elmer Riddle, of Cincinnati, with 14-5, and Hi Bithorn, of the Cubs, with 13-8, round out the senior loop quartet.

Spud Chandler of the New York Yankees is the only American league pitcher within whistling distance of the charmed circle. He has won 13 and lost three.

Yankees last year, and Hughson, who was credited with 22 for the Boston Red Sox in 1942, each has a chance to repeat. Big Ernie has won 10 and lost five for the Yanks; Hughson has chalked up 11 wins against seven setbacks.

In the "maybe" class may be placed Ray Starr, of Cincinnati, 10-7; Claude Passeau, of the Cubs, 10-7; Oscar Judd, of the Red Sox, 10-6; Alex Carrasquel and Early Wynn of Washington, 10-5 and 11-7, respectively; Jim Bagby and Al Smith, of Cleveland, 11-10 and 10-3, respectively; Dizzy Trout, of Detroit, 10-9; and Orval Grove, of the White Sox, 10-5.

Pittsburgh came up with four runs in the seventh inning to beat the Phillies, 6 to 2, in the only game played in both leagues yesterday. Vince DiMaggio's 13th homer of the season, coming with one man on base, capped the up-rising.

Dry Fishing

KETCHUM, Idaho, Aug. 5 (AP)—Fishing in the Sawtooth mountain area is changing—mostly because of limited supplies of non-durable (liquid) goods.

"It used to be quite a joke to mention that some idiot always turned up for a fishing trip with a fishing pole," says the old guide. "Now a pint a week is all we get. . . the boys are paying strict attention to their fishing."

Army Definite In Varsity Sports Rule

WASHINGTON, Aug. 5 (AP)—Petitions may come and petitions may go, but the army has ruled once and for all the men it has placed in college are ineligible for varsity sports competition.

A hope that the army would relent and permit its student-soldiers to play varsity football keeps finding expression in many quarters but officials said today "the question is not an open one."

Not open, they pointed out, means closed—closed by the flat "no" that for four months has been the official reply to the question: will soldiers in the army specialized training program be permitted to engage in intercollegiate sports?

Despite the petition submitted recently by 256 members of Congress, officers say there has been no change in policy. Secretary of War Stimson and Under Secretary Patterson were not available for comment, but inquiries elsewhere made it more than evident that their subordinates would be astonished if they changed the order.

Despite the obvious feelings of athletic directors the army's policy is approved by most of the educators with whom it has dealt and a change is not only unlikely, it's hardly even a hope.

The navy, much more liberal in its attitude on the subject, has an entirely different set of problems, and furthermore the policy announced last weekend by Secretary Knox, placing new restrictions on navy participation in intercollegiate football, is taken as an indication that the navy has found complete freedom in that regard not entirely to its liking.

Basically, the army's attitude is that men assigned to colleges for intensive classroom work and supervised study have no time for varsity sports. On the average, the men have about six hours leisure a week.

The army expects the men to participate in sports but strictly of the intramural variety. Special allowances and freedom could not be granted to the minority who would be engaged in varsity sports.

CALIFORNIA YOUTH NEARS CHAMPIONSHIP

KALAMAZOO, Mich., Aug. 5 (AP)—Unless a real challenger appears in a hurry, 14-year-old little Herbie Flam of Beverly Hills, Calif., is going to breeze right into the national boys tennis championship.

Little Herbie, who won the western title here last week without the loss of a set, has dropped only four games in the six sets it has taken him to eliminate three opponents in the nationals. Yesterday he ousted Charles Schaaf of Highland Park, Ill., 6-0, 6-1. He was slated to oppose Buddy Behrens of Fort Lauderdale, Fla., today.

In the first round of boys doubles yesterday, Rodrigo De Llano, Laredo, Texas, and Erwin Busiek, Springfield, Mo., defeated J. Scott Donaldson and Bradney Pitney, Minneapolis, Minn., 6-1, 6-2.

SPORTS ROUNDUP

By HUGH FULLERTON, JR.
NEW YORK, Aug. 5 (AP)—Betcha never knew this—a collection of odd and unimportant items culled from sports history:

Connie Mack's famous "\$100,000" infield was composed of five men—Stuffy Melania, Eddie Collins, Jack Barry and Home Run Baker (the four you've heard about) and Danny Murphy, who cost Connie about \$500. . . . Murphy arrived late for his first game with the Q's on July 8, 1902, so Jud Castro played the first inning and got a hit. . . . Then Murphy turned up and smacked six consecutive blows, so his late arrival cost him a chance to get his name into the record books with the all-time leaders.

Wayne Johnson
The fact that Wayne Johnson, who played 60 minutes of good football for Harvard against Yale last fall now is a marine trainee and candidate for the Yale team reminds old-timers of the 1913 game between the Elis and the Johnnies. . . . F. J. O'Brien, Harvard end, scored a deliberate safety that day, thinking he was merely making a touchback. . . . Harvard won, so it was only a gag when O'Brien's teammates voted to award him his "Y."

Loss Of Title
George Chip, who bossed the middleweight division in 1913-14, probably was the only champion who lost his title while serving as a substitute. . . . George's Kid brother Joe had given an unknown named Al McCoy a lesson but when a return bout was arranged in Brooklyn, Joe got hurt in training. . . . The promoter thought it would be smart to get George to sub for his brother in a no-decision affair. . . . At the bell, Chip swarmed all over McCoy; his first assault failed to put Al down and George stepped back to get his breath. . . . As he relaxed a moment, a punch came from nowhere. The first was all over in just 45 seconds and McCoy was the new champion.

Alex Robb of the Thoroughbred Racing association dug up the yarn about Gypsy Lee, who picked a derby winner for an English nobleman some 75 years ago. . . . Gypsy wrote "Blew Gown" on the race program and sure enough Sir Joseph Hawley's Blue Gown won the Epsom Derby. . . . Peeved because the nobleman criticized her spelling, Gypsy Lee then prophesied that no horse whose name began with "W" would win the derby as long as she lived—and none did. . . . Gypsy Lee died in 1933 and next spring the gypsies who gather on derby day unloaded their pockets to bet on W-l-sor Law, won by the Maharajah of Rajppla. . . . Of course, the "W" horse won at odds better than 7 to 1.

WACs From Nine States In Team

DALLAS, Aug. 5 (AP)—Players from nine states will be in the starting lineup for a WAC softball team from Blackland Army air field at Waco when it plays the Texas champion girls softball team, the Metzger Dairy Maids, here Sunday.

Texas is the only state with as many as two players. Other states represented are Wisconsin, Indiana, Connecticut, Pennsylvania, New York, New Jersey, Ohio and Oklahoma.

Local Bombardiers To Meet Roswell Airmen's Team

Boasting five victories in seven starts, the Big Spring Bombardier School baseball team will put its record on the block Saturday and Sunday afternoons against the Roswell (N.M.) Bomber School.

Both games will be played at the Big Spring Bombardier School.

Big Spring's entry has moved down an artillery team from Camp Berkeley and has biffed Lubbock Army Flying School in four out of five games. In an only test with the Carlabad (N.M.) Flying School, Big Spring dropped a decision by one run in the ninth.

In the Big Spring Bombardier School enlisted men's softball league Wednesday afternoon, matters were at a standstill due to—of all things—wet grounds. A shower with liberal peppering of hail left the playing fields a little too damp for games.

SERVICES FOR CRANS
DALLAS, Aug. 5 (AP)—Funeral services will be held today for M. M. Crane, former state attorney general, who died Tuesday night at the age of 88.

Rolling Greens Baffle Golfers

COLORADO SPRINGS, Colo., Aug. 5—Rolling, fast greens near the foot of Pike's Peak continue to baffle the 23rd annual Broadmoor invitation tournament's competitors.

Only one shot below par 70 in the first round of match play yesterday, Lt. Robert Busler, Camp Carson, Colo., stood three under par through 11 holes in downing Lt. W. R. Auld of Peterson Field, Colo., 7 and 6. Busler meets Capt. John Kraft, of Denver, defending champion, in the second round today.

An early favorite Larry McArthur of Greeley bowed to Paul Smith of Amarillo, 2 and 1.

W. F. Bartels of Kansas City beat J. B. Atkins of Shreveport, La., 1 up.

Norris Russell of Denton, Tex., defeated R. S. Young 3 and 2 and will tangle with Al Edwards of Colorado Springs today.

Texas Airmen Are Decorated

WASHINGTON, Aug. 5 (AP)—Airmen take most of the battle honors which have gone to Texans in the European-North Atlantic fronts. Outside of a few commando raids, most of the fighting in this sector has been from the air.

The exploits of Texas airmen will have been decorated since May 1 are too numerous for a full chronicle of their deeds. Here follows a roll of all those so honored:

The Distinguished Flying Cross for outstanding achievements was awarded to:

First Lieut. Robert C. Herbert, Nacogdoches. While on a mission as pilot over enemy shipping, plane was damaged by enemy fighters and anti-aircraft fire. With his plane badly damaged and some of the crew injured, he managed to fly directly over targets where the bombardier made direct hits. He calmly assured his companions when the plane seemed certain to crash, and eventually brought it safely back to friendly territory.

Second Lieut. Vincent T. Ximenes, Forest. A bombardier, he was on a mission over a French harbor when the plane in which he rode was disabled in three of the four engines. He directed the pilot over target with evasive action and succeeded in scoring a number of direct hits. He also aided in driving off enemy fighters while serving at the nose guns in the plane, which finally managed to get safely back to its home base.

The Distinguished Flying Cross also went to those Texans who are members of the 8th air force for operations over Germany and German-occupied territory in Europe during the past several months:

Tech. Sgt. Richard L. Hare, Monahan; Sgt. Gerald D. Lawson, Abilene; Capt. Clarence R. Webb, Jr., San Angelo.

Recipients of Leaf Clusters for participation in European operations include:

First Lieut. Edward E. Weir, San Angelo; 1st Lieut. Clarence R. Webb, Jr., San Angelo; Staff Sgt. Delbert W. Parks, Abilene; Sgt. G. D. Lawson, Abilene.

Oak Leaf Cluster to the Air Medal went to First Lieut. Jack M. Mathis, San Angelo (posthumous); Second Lieut. W. H. Springstun, Big Lake.

Second Lieut. Robert H. Smith of Lamesa won the Air Medal, as did First Lieut. C. R. Phillips of San Angelo.

Cash farm income in California exceeded one billion dollars for the first time in history in 1942.

Venezuelan Approval Of Programs Can Be Won With Baseball

By ALLAN STEWART
AP Features

CARACAS, Venezuela — If the state department ever thinks it needs more aid from Venezuela, it need only call Billy Southworth and his St. Louis Cardinals, or Joe McCarthy and his Yankees, send them down here, and the situation will be well in hand.

Venezuela is baseball-mad. Its Caracas City Leagues flourish, every town in the interior and along the coast has its ball park, and the pitching deeds of its pride and joy, Alejandro Carrasquel of the Washington Senators, is worth play-by-play mention in all the newspapers.

The baseball played in Caracas is not bad by American standards. The Carveceria Caracas (Caracas Brewery) team, which won the City League title here in March could play in any Class B league in the United States and do all right. Some of the other teams would be Class D caliber in organized baseball. One of the best Venezuelan pitchers, Vidal Torres, is playing professional ball this year with Monterrey in the Mexican League, where the competition is tough due to the fact that many top-notch U. S. negro players and Cubans are among the opposition.

On the whole, Venezuelan players are the "good field no hit" type. The first basemen, especially, are very fancy indeed in their fielding. Some of the outfielders are spectacular. Some of the players have a whip from the outfield that compares with that of Joe DiMaggio for velocity and accuracy.

Perhaps the hitting deficiencies could be corrected with proper instruction, for the players are built powerfully with strong wrists and forearms.

Ickes To Confer With Midwest Congressmen

CHICAGO, Aug. 5 (AP)—Petroleum Administrator Harold I. Ickes and top members of his staff came to Chicago today for a session with a group of congressmen on whether the midwest and southwest shall have less gasoline.

Ickes declined any comment on the meeting in advance of it.

One member of an unofficial midwest congressional rationing committee from each of 32 mid-continent states was summoned for the meeting by the chairman, Rep. Clarence J. Brown (R-Ohio).

An average of 4,200 cars of export freight, except grain, were unloaded daily at American ports in June, 1942, the highest average on record.

Softball Meets Are Announced

HOUSTON, Aug. 5 (AP)—The Texas, and the Southwest regional tournaments of the Amateur Softball Association will be held here the last week of August or first week of September. E. C. Bacon of La Feria, regional governor, announced yesterday.

Winners of the regional tournament, both men's and girls divisions, will be sent to the national championship tournament in Detroit Sept. 17, 18 and 19.

Net proceeds of the state meet will go to the Army and Navy relief societies and service teams will not be required to pay the \$10 entrance fee.

FOOT ITCH
ATHLETE'S FOOT
Beware of It Spreading
Often the disease travels all over the bottom of the feet. The soles of your feet become red and swollen. The skin cracks and peels, and the itching becomes worse and worse.
Get relief from this disease as quickly as possible because it is both contagious and infectious and it may go to your hands or even to the under arm or crease of the legs.

Why Take Chances?
The germ that causes the disease is known as Tinea Trichophyton. It buries itself deep in the tissues of the skin and is very hard to kill. A test made shows it takes 18 minutes of boiling to destroy the germ, whereas, upon contact, laboratory tests show that H. F. will kill the germ. Tinea Trichophyton with 15 seconds.

H. F. was developed solely for the purpose of relieving Athlete's Foot. It is a liquid that penetrates and dries quickly. You just paint it on the affected parts. H. F. quickly kills the skin, which enables it to get to paraffin ointment in the outer coating.

Itching Often Relieved Quickly
As soon as you apply H. F. you find that the itching is relieved. You should paint the infected parts with H. F. night and morning until your feet are better. Usually this takes from three to ten days.

H. F. should leave the skin soft and smooth. You may marvel at the quick way it brings you relief. Don't wait for Athlete's Foot to become serious. Get H. F. today.

RELIEF GUARANTEED OR MONEY BACK
At least 95% of the adult population of the United States are being attacked by the disease known as Athlete's Foot.

Usually the disease starts between the toes. Little watery blisters form, and the skin cracks and peels. After a while, the itching becomes intense, and you feel as though you would like to scratch off all the skin.

Do you know a fellow like Joe?

JOE'S MY KID BROTHER. We've always stuck together and I've sort of watched out for him these last few years.

Well, Joe's in Africa now. His wife gets her allotment from him, and I guess when that's taken out of his check he doesn't have much left. Privates don't get paid much you know.

I figure this way. Here I am, making more money than I ever did before. You bet I work for it! But Joe's working hard too . . . and not just from 7 to 5, either.

We've been taking 10 percent out of my

check every week for War Bonds . . . they're going to come in mighty handy when the War's over, we figure. But I got to thinking about Joe. What's he going to have after the War?

So we talked it over, my wife and I. We think Joe should get a cut of the bigger money, too. So now I'm buying an extra bond every month—in Joe's name.

Maybe you've got somebody in the War, too. If you have, couldn't you squeeze out an extra bond now and then, for your "Joe"?

Editorial - - Program For Service Men Should Not Be Political

The presidential suggestions about caring for the service men coming back from the war is one that will get votes, but there is no monopoly on a program that looks to the good of our soldiers. Undoubtedly political capital will be made of anything that can attract votes just as was done relative to the bonus issue; and that was done without much reference to party.

A reasonable and generous treatment of its defenders is not too much to ask. The country ought to be on guard perhaps against the demagogues who will utilize security for the service men as a vehicle on which they may secure or retain political office, but certainly we ought to plan a program that will not develop an army of forgotten men once the task at hand is concluded.

The fact that some persons in war industries are getting stratospheric wages will be utilized to the nth degree in the coming campaign for the service men, but it should be realized also that there are on the home front industries which have suffered heavily at the hands of Mars, and wage earners whose standards of living have been reduced by inflationary prices.

Washington Daybook—

Hull Was Actual Victor In Jones-Wallace Feud

(During Jack Stinnett's vacation, his column is being conducted by various members of the Washington staff of The Associated Press. Today's column is by Irving Perlmeter.)

WASHINGTON — The man who won the Henry Wallace-Jesse Jones feud didn't even muss his silver hair. His name—and this is news — is Cordell Hull, the venerable secretary of state.

of government service, has always been the middle-roader who has been a peace-maker and never an open contestant in the many personal feuds that have reformed the lofty thoughts of a reform administration.

His abhorrence of controversy, of dogmatic verdicts about people or issues, kept him from being, in the last election, chairman of the Democratic National Committee. Leo tells how a political chieftain necessarily must act as though no one but the members of his own political party are entitled to his consideration.

Observers Offer Plans For Early Allied Victory

AP Features has asked some of the country's leading military commentators for statements on what one program or action will win the war most quickly and easily. They say:

HANSON BALDWIN, New York Times: "It is time to pull out the stops. Germany and Italy are beginning to be ripe for a psychological blitzkrieg. A vigorous and carefully planned offensive in the war of words is more needed this summer than ever before."

Hollywood Sights And Sounds— Entire Action Of Movie Takes Place In Lifeboat

By ROBBIN COONS HOLLYWOOD — There'll be eight people all in the same boat. It's this "Lifeboat" thing. Alfred Hitchcock, once the champion waistline of our town, went on a diet and whether he got dizzy spells from it is not recorded, but one of the ideas he had while losing his bulge was this: a movie whose entire action takes place in a 26-foot lifeboat.

customary music behind the main title. They're getting by with this radical omission by jumping smack into the story while you're reading the title.

MURDER IN TIN By CARL A. PETERSON

set in angry lines. I said. "Is that why you went to them?" He nodded. "He come to me, Señor Ramos."

How To Torture Your Husband

But what is practically revolutionary about the film as planned is the music. There isn't going to be any. It's hard to believe, but for once a bunch of actors will have to drift around on the briny without the soothing accompaniment of a full symphony orchestra.

STIRLING, U. S. N. (Retired): "The war will be won by the correct coordination of the land, sea and air forces and not by any one arm, as has been proved in North Africa, in Sicily and in the southwest Pacific. It is a blow at the morale of our armed forces to make our public believe any one arm can win the war alone."

MAJOR AL WILLIAMS, Scripps-Howard newspapers: "All out continuous air bombardment without restriction from old men who failed to see or prepare for any phase of this war."

MAJOR ALEXANDER P. de SEVERSKY, aviation authority: "Immediate unification of all our aviation efforts under a single and autonomous air department. Such a step would at last free our American aeronautical genius for full and unhampered development of air power."

KIRKE L. SIMPSON, The Associated Press: "The solar plexus of the Nazi war effort ashore, afloat and in the air in my judgment is Rumanian oil. An Allied knock-out blow at the Ploesti field in Rumania and its outlets would go farther to shorten the war, minimize losses and push the Axis in Europe to an internal collapse and surrender than any other possible or probable Allied stroke."

Continued from Back Page. "Hernando gestured with forefinger and middle finger, making them move like a pair of legs. 'I go into other room. Unlock door. You walk out!'"

"No, señor. No!" "Anybody know? How about the bartender?" "Gomez? No."

"My father trusted you," she said to Hernando. "My father was good to you. Is he? It can't be—"

"No, señorita!" Hernando exclaimed. "Señor Taggard had left Lila Taggard unmoved. I was a little repelled. I recalled her touching reminiscences about Lathrop's ranch. The body I had seen was the corpse of the man made rich by Taggard. Lathrop had remembered his debt after many years."

"What happened to the body?" I said. "Hernando explained he had left the house and hidden himself almost a mile away. If the police were to come he would have run. He had waited until Johnson had returned. He had told Johnson of what had happened. Johnson had slapped his face and then they had all gone into the house. They had put Señor Lathrop into a truck and driven off."

AD STORY—THURSDAY... I questioned Hernando when he finished, but he stuck to his story. It was a three dimensional story, I thought. (A) Hernando had a grudge against Sam Taggard. (B) He had been bought up by the Gestapo after he had arrived in Mexico City. (C) He had attempted to deliver Sam Taggard to his new employers,

Public Health Notes
J. A. Olean, M.D., Director
Big Spring - Howard
Midland-Ector-Howard County Health Unit

I can think of no finer introduction for this column than the inspiring words of Dr. Carl V. Reynolds of North Carolina: Health is our greatest heritage. It transcends material riches, for it is the essence of life. In possession of it, man moves on with majestic tread, conquering those forces which harass humanity; without it, he is minus that dynamic power which gives impetus to the achievement of his noblest physical, intellectual, and spiritual aspirations.

"Perfection is a goal humanity may never be privileged to reach, but we do know that health is our natural heritage, while disease and maladjustments constitute the abnormal. To attain health, therefore, we must conform to those principles of living which promote it. To retain it, we must hold the gains already made as we plan future conquests.

Much has been accomplished in recent years through preventive and curative medicine. Science has made contributions which cannot be evaluated to the alleviation of human suffering.

When we consider the fact that since the middle of the nineteenth century the period of human expectation at birth has been extended from 38 to approximately 62 years, our appreciation of the past is deepened, our hope for the future stimulated. When we realize that many diseases which formerly brought countless thousands to an untimely death are now both preventable and curable, we experience a sense of appreciation and gratitude to an omnipotent Providence that has opened the eyes of men and women that they might see and learn the truth as a means of attaining freedom for themselves and for future generations.

To the responsibility of holding fast to the gains of the past and pressing forward to greater accomplishments in behalf of humanity, public health is passionately dedicated. It asks the cooperation of every individual in the tasks that lie ahead.

Weekly Livestock Sale Holds Own

Intense heat of the past week didn't help any in overcoming recent breaks in the market, but the weekly sale of the Big Spring Livestock Commission Co. did hold its own nicely Wednesday with a \$27,000 on 650 head. Stocker steers, which once

reached an all time high for the sale on May 30 at 18.00, were down to 12.25 and stocker heifers to 11.75. Deteriorating range conditions have contributed to the decline in these vital classes along with the market break. Bulls were comparatively firm at 11.25 and fat cows were only about a cent off in selling to 11.00. Ordinary butcher yearlings went at 11.00 also and good fat butcher yearlings were bid up to 13.00.

but something had gone wrong; Taggard had escaped. (When I questioned Hernandez on this

point, he shrugged gloomily.) (D) Lathrop had come to Mexico City from his ranch to help his old benefactor Sam Taggard. (There were quite a few missing facts in connection with the lawyer. Why, exactly, had Lathrop come to Mexico City? Come merely out of gratitude? Or had he hoped to profit for the second time by helping Sam Taggard?) Hernandez had allowed me to escape. There was no doubt about that point. His reason being that his grudge was against Sam Taggard, and not against Lathrop or myself.

Again, I considered certain probabilities. Hernandez had admitted fear of Johnson. Which, realistically would be stronger? His fear of Johnson or his self-confessed impulse to save my life? According to his own account he had framed my escape, risking injury to himself. By coming to the Hotel Famoso he had again acted independently of Johnson. Why? I could discount his assumed patriotism. Or could I? To be continued.

INCIDENCE OF DIVORCE CASES DOUBLES

District Judge Is Puzzled By Rise In Marital Troubles

Divorces have nearly doubled in the past two months as compared with the same period of 1942 and nobody seems to be able to explain satisfactorily why there were 40 cases filed during June and July of this year as compared with only 24 during the same time last year.

Judge Cecil Collins, district judge, who has been hearing divorce cases here for the past

five years, is as stumped as anybody for the real reasons for the increase. He does point, however, to some causes for separation and divorce which occur with monotonous regularity in his court. Number one cause of complaint apparently is liquor. Either the wife claims her husband drank too much, spent money on liquor, or beat and abused her when under the influence of intoxicants. Sometimes the husband claims the wife neglected her home for the night spots.

Number two in importance as far as reasons for divorcing couples is that third woman or man, the eternal triangle. Sometimes, according to the judge, reason two is followed after reason one has become a habit. Then again the third party enters into the case without any liquor complaints.

As the judge pointed out, the majority of divorce cases are uncontested affairs in which either the woman or the man in some cases files a complaint that reads "due to cruel, harsh and unkind treatment, our living together as husband and wife being unworkable."

With nothing more than this and little more evidence being introduced in the court, the judge can only go on the evidence produced and which he says is many times not the real reason behind the parting at all. Another cause for many couples to part is money, which is usually the husband's complaint about his wife. He says she doesn't know the value of money and continually keeps him in debt. Oddly enough, the wife seldom names financial problems as her reason for wanting to be free.

Most men prefer to let the women get the divorces, says Judge Collins, even if they themselves want them because of some sort of chivalrous attitude. But the records show that 13 of the 40 cases filed in June and July of this year were filed by men.

Many hasty marriages end in divorce within a short time, according to the judge, and age has nothing to do with the situation in these cases. "If a couple have a normal courtship and were acquainted and in love before they married, they usually stick it out for at least three or four years, even when they think they will want a divorce later," the judge said.

As far as changing the minds of the couples who come seeking divorces is concerned, Judge Collins said at first he used to try to talk couples into going back together again. But he has found, through long experience, that once a man or a woman has secured a lawyer, filed suit, and waited the cooling off period of two months, required by law, they are ready and anxious to be parted from their mate.

Judge Collins pointed out that right after the war broke out divorces dropped sharply. Before long, however, the rate went up and evidently is out to beat the 1942 record.

Both these cities were vital anchor points for the nazis. The heavily fortified and strongly held railway center of Orel has for almost two years been the hinge for Hitler's great battle line between this point, not far below Moscow, and the Sea of Azov.

Catania, crouching under the great yugonne of Etna, has been the powerful position to which the nazis and Italians hooked the left wing of the front which they threw across the last remaining tip of northeast Sicily in defense of Messina and access to the Italian mainland, only two miles across the strait from that port.

COTTON BOLL WORMS DO SEVERE DAMAGE TO SOME NEARBY FIELDS

Severe damage to a few fields of cotton has been caused by cotton boll worms. Most of the heavily-infested fields are in the Moore-Fairview area, but damage is not confined entirely to this area. The infestation is heaviest in fields that still carry lots of lice and where the cotton leaves are coated with honey dew.

The worms have progressed too far for control measures to be effective so far as this generation of worms is concerned. There is danger that boll worms will spread to the other fields in the next generation, which will begin about August 15. The number of worms to be expected in the next generation is increased to enormous proportions practically all over Howard county. Cotton will be in full bloom when the moths emerge around August 15. There is danger that these moths will be attracted to the cotton blooms and will lay their eggs on the cotton. If some of the cotton still has a lot of honey dew on it, that may be an added attraction.

Fields of late hegar, and late corn that will have fresh silks at the time are the best protection. For the moths prefer these crops to cotton.

Improvement In Posture Aided By Using Mirror

By RHEBA MERLE BOYLES Co. Home Dem. Agent

Did you ever watch folks pass by... A few slump or slouch or limp along. Others step along with airy strides but billowing out in the wrong spots. Some waddle, loose and careless as though they were about to fall apart, and still others lean forward in a trot or "clump-clump" as if their feet weighed a ton.

Fortunately there are a few who move smoothly and easily because they have body balance. Take a look in your mirror. If you don't like that bay window, double chin, etc., then get your body in balance.

Your feet are your foundation, so put them parallel and place weight equally on each. Keep your knees flexible, not stiff, to give your body natural lines. Next, just tuck your hips right under you, making them small as possible and check your hip line in the mirror.

Leave your chest alone, dropping your shoulders wide and easy. Let your arms swing free and natural. Keep your head up and not bent forward. Finally, if you are properly aligned, the three sections of your body—head, chest and hips, will be in line. They look like three bells strung on a cord—and you'll look and feel better.

Tomato Is Highly Important Food

By RHEBA MERLE BOYLES County Home Demonstration Agr.

The tomato is a peculiarly important food, for there is no other fruit which can match the tomato in flavor, color and its variety of possibilities on the table as well as its multiple food values.

They match the orange, grapefruit and other citrus fruits in food value, contain vitamin A, B-1, and C in addition to containing niacin, a factor in preventing pellagra. One good ripe tomato contains half a day's requirement for vitamin C.

Most goodness from tomatoes comes from eating them raw—in the lunch-box supply, stuffed, with a good center filling of cottage cheese with chopped onion or peanuts or in a variety of salads, especially those made of fresh vegetables.

Tomatoes are more nutritious with skins on, but an easy way to remove the covering is to dip the fruit into hot water very briefly and then into cold water. After slipping the skins away, keep cool and covered until serving.

It is wise indeed to can tomatoes, both for juice and for other uses. Full directions may be had from my office.

Records Set At Idaho Ram Sale

FILER, Idaho, Aug. 5 (AP) — Buyers paid a total of approximately \$54,000 for 900 rams at the 22nd annual ram sale of the Idaho Wool Growers association here yesterday, said M. C. Clear, secretary.

The highest price was \$650 for a Suffolk yearling stud ram purchased by H. P. Lowe, Aberdeen, Idaho. The ram was owned by Willard McMaster, Hansen, Idaho.

Mrs. A. Salovey, Nampa, Idaho, paid B. B. Burroughs of Home-Idaho, Idaho, \$1,000 for a pen of five Suffolk yearling rams—setting a new record for the sale.

Six Bodies Found Near Crash Scene

BIEBER, Calif., Aug. 5 (AP) — Bodies of six men were found scattered over an acre a mile west of Nubler after an Army plane crashed and burned shortly before midnight last night.

Searchers said they could not be certain there were not more bodies in the charred wreckage.

Coffin Of Hitlerism Is More Securely Nailed

By DEWITT MACKENZIE A couple more stout spikes have been driven into the coffin of Hitlerism in the capture of two highly strategic cities—Orel on the flaming Russian front, and ancient Catania in the northeast corner of Sicily.

Both these cities were vital anchor points for the nazis. The heavily fortified and strongly held railway center of Orel has for almost two years been the hinge for Hitler's great battle line between this point, not far below Moscow, and the Sea of Azov.

Catania, crouching under the great yugonne of Etna, has been the powerful position to which the nazis and Italians hooked the left wing of the front which they threw across the last remaining tip of northeast Sicily in defense of Messina and access to the Italian mainland, only two miles across the strait from that port.

steadily towards that day when he will have to pull back his entire vast line of more than a thousand miles in Russia in order to reach new positions which will afford greater security.

While this is a historic movement for the Allies, we should remember that these two captures are parts of continuing operations. Fierce fighting lies ahead in both theaters.
