Brit Bombers Adopt 'Shuttle' System

House Committee Wants Nazi, Italian Targets Hit 'Food Czar' Appointed On Same Trip

All Rationing Powers Would Be Given Him

Step Reflects Congress Dissatisfaction With Present Setup

WASHINGTON, June 24 (AP) - Reflecting congressional dissatisfaction over home front war operations, the house agriculture committee today approved a bill to create a "food czar" with Ickes Taking complete control over wartime food production, distribution, pricing and ration-

ing.
Chairman Fulmer (D-SC) said the measure, frowned upon by President Roosevelt, would "create a czar for foods similar to the czars now handling the War Production Board rubber and oil."

The sweeping legislation, if it becomes law, would take from the Office of Price Administration all food rationing and pric-ing powers and put them under the war food administrator, Chester C. Davis.

Approval of the bill, which is

sponsored by Fulmer, was by an to 8 committee vote, with all 12 republican members and six democrats supporting it. Eight

Such an all owerful food ad-ministrator had been suggested by the republican congressional food study committee. The measure provides:

"The war food administrator is authorized and directed, notwithstanding any other provision of law (including title one of the First War Powers act, 1941), eclusively and finally to exercise on behalf of United States, either directly or through such other ofor agencies as he may designate, all powers, functions and duties conferred or imposed upon any officer or agency of the United States by any law, order, regulation, or directive with respect to the nation's food program the United States and terriincluding the production, processing, distribution, rati procurement, requisitioning, allocation of, priorities, storage, exportation and importation of, provisions of labor and facilities for, and the establishment, maintenance, and adjustment of prices for, food and food facilities."

No Letup In **Bomber Raids**

WASHINGTON, June 24. UP)-Despite mounting bomber losses there is high authority for the conclusion that the stepped-up roundthe-clock Anglo-American raids on crashed directly in front of a six-the Ruhr and other nerve centers coach passenger train, bound from of Nazi war industry will be pressed home relentlessly through the weeks ahead when cross-channel flying conditions are most favor-

Gen. George C. Marshall, army chief of staff, made that clear in his Columbus speech this week. He echoed the official Allied view expressed in London that the re suits attained by mass day-and-night bombardment fully justi-fied the "surprisingly small' Al-lied casualties, as "measured by the loss in planes and installa-tions suffered by the enemy."

omptu conceptions" as to the role of air power in the struggle. His obvious desire was to erase any ships and eight small supply ships, impression that the air battering the admiralty announced today. of Germany is aimed at knocking ier out of the war by that means alone, as Pantelleria was knocked

Marshall stressed the chief im mediate objective is the diversion of Nazi planes and pilots from the ean, where new Allied over-water attacks are clearly impending.

Congress Is Cool On Using Draft Club On Strikers

WASHINGTON, June 24 (P)—President Roosevelt's proposal to meet any new coal strike with a draft club was viewed in most congressional quarters today as an inadequate substitute for the antistrike bill, which many lawmakers now expect him to veto.

Mr. Hoosevelt disclosed yesterday that steps already had been taken to set up machinery for inducting all draft-age miners into the armed forces, and he said moreover that he will ask congress to raise from 45 to 65 the maximum age for induction into non-combat military service. This would take in many of the older miners.

Some quarters interpreted this

Of Coal Mines

WASHINGTON, June 25. (AP)-Secretary Ickes moved today to undertake active charge of the mangement of coal mines and indicated he expected to continue operating them for the government "for a considerable period of time."

Hitherto Ickes has maintained only nominal control of the mines he took over at the president's direction May 1, but, calling 29 major mine owners to meet with him here tomorrow, he said:

"Developments in the controversy between the mine workers and the operators which is under the jurisdiction of the War Labor Board indicated that the government will be compelled to continue custody and operation of the mines for a considerable per-

lod of time.
"I still hope that the controversy will be speedily settled so that private operation of the mines may be resumed under conditions which will not involve danger of interruption of production.

"But in the present circumstances it is essential to protect the government's interest in the operation of the mines that I undertake active participation in the supertion of the mines."

In the telegrams that message to the 29 mine owners, including presidents of several steel companies, Ickes said also that he wished to deal with these men as principals and that he did not expect them to send "proxies, substitutes or repre-

Planes Crash, One Falls In Path Of Train, Derails It

(P)-Two Army planes collided and burst into flames at a high altitude today and one of them Worcester to Boston, derailing the engine and five of the coaches.

One pilot parachuted to safety and the other was believed to have perished in his burning ship. None of the approximately 150 train passengers was injured, railroad officials said, but the engineer suffered a slight cut.

Roundtrip From Britain To Africa

LONDON, June 24 (AP) new technique of air bombardment was demonstrated dramatically by several squadrons of RAF Lancasters which early today com-pleted a shuttle round-trip rom Britain to Africa, bombing a German target on the way down and an Italian loss of a plane.

The air ministry disclosed that the aircraft which devastated three the aircraft which devastated three acres of the old Zeppelin works at Is Injured Friedrichshafen Sunday night continued to a North African base and returned home last night by way of La Spezia, blasting the naval base to mean strikers would be put at the latter port.

This shuttle technique never was used before on a large scale at long range.

The attack on La Spezia was but

one of three or more newly reported aerial blows against Italy and her guardian islands. Wellington bombers of the north-

west African air forces made a fine-setting raid Tuesday night on the northeast Sardinian port of Olbia, a communique from Gen. Dwight D. Eisenhower's headquarers said. Heavy RAF bombers of the Middle East command generated two violent explosions and a umber of fires in an attack on the airdrome at Comiso, Sicily, it was innounced in Cairo.

In addition, the Italian high com mand communique, broadcast from Rome and recorded by the Associat-Press, said Allied planes attacked the Sicilian towns of Porto Empedocle and Catania. The Catania raid was reported to have caused work until Oct. 31 but only as 119 casualties and wrecked many long as the mines are governcivilian buildings.

The Lancasters' extraordinary raid on La Spezia, which has a population of 100,000 and a number of ship and submarine building yards and repair depots was the sixth since the war began. The Lancasters made a run of

Nazis Massing Men In France, Italy

WASHINGTON, June 24 CP Indications that Germany is mov-ing huge forces into France and taly in preparation to fight off an invasion were reported today by Secretary of War Stimson.

He asserted also that "an extraordinary lull' in ground fighting on the Russian front has occurred although the weather has been highly suitable for military operations.

There are indications, Stimson told a press conference, that "the Germans are materially strengthening their forces in France." He added that reinforcements are un-derstood to be moving in "for the fascists in Italy."

Stimson estimated that from 10 to 12 German divisions have been moved into France and several to

Germany Admits 'Incredible' Devastation

By JAMES F. KING

LONDON, June 24 CP—A deadly cargo of more than 15,000 tons of bombs has been unloaded on Germany in the past month by giant British bombers, two thirds of which have fallen on industrial centers in the Ruhr valley where the nazis themselves admit "incredible" devastation.

According to British figures, 10,000 tons of explosives rained ruin in the period from May 22 to June 22 on seven arms centers in that area—Dortmund, Essen, Wuppertal, Bochum, Oberhausen, Krefeld and Muelheim.

Joining the RAF in this German-described "Battle of the Buhr," American four-engined bombers struck the synthetic rubber plant at Huis June 22 in their first venture into the highly industrialized valley, of which Propaganda Minister Paul Joseph Goebbels once said: "The destiny of the Ruhr is the deatiny of Germany itself,"

The valley aiready has become the most bomb-battered area in the world and the British say there is more still to come in the steadily mounting Allied air offensive against all axis-dominated Europe.

The Ruhr, which has 54 per cent of the hard coal of axis Europe, 37 per cent of the pig iron, 34 per cent of steel ingots and castings, still remains, in the words of one high British official, "the world's best target."

Industrial production in the Ruhr was said on June 9 fallen about 35 per cent under 1942.

fallen about 35 per cent under 1942.

The nazis are making no attempt to conceal the devastation. In appealing to other parts of the reich to pitch in and aid the refugeea, the Berlin radio admitted the destruction was "incredible."

Lord Selborne, minister of economic warfare, estimated on June 10 that a million homes in the Ruhr had been destroyed, leaving up to 5,000,000 persons homeless.

The effect of the 19,000 tons of destruction heaped upon the seven cities of Dortmund, Essen, Wuppertal, Bochum, Oberhausen, Krefeld, and Muelhelm—with an aggregate population of under 2,000,000—can be gauged when it is recalled that the heaviest weight of bombs dropped on London in one raid was less than 500 tons and the total for 90 nights was only 7,500 tons.

Man Killed In port on the run home without Car Crash, Son

Jesse L. Hush, 49, night superin tendent at the Cosden Petroleum Corp. refinery here, was killed in-stantly and his son, Donald Lee, 9, at 8 p. m. in a truck-car collision just east of the city.

As a result, Raymond Carl Rock ey, 20, driver of a Transport Co gasoline truck, was free under \$500 ond on a misdemeanor charge of negligent homicide.

The crash occurred immedi ately opposite the Minute Inn on the east highway and the truck, loaded with more than 4,000 gallons of gasoline, literally skidded to the door of the lunch room before stopping. Impact of the collision hurled Hush from his car and beneath the dual wheels of the truck. Highway patrolmen and sheriff's officers, investigating the crash, said the Cosden superintendent was twice crushed by the wheels as

Inn and then rolled back toward Donald Lee was rushed to the Big Spring Hospital for treatment of his injuries, which included a of his injuries, which included extensive head injuries, according to

the truck slid to the door of Minute

Walter Grice, justice of peace, who entered a verdict of death due to the crash, said that apparently Hush and his son were returning to their home near Cosden after getting some groceries and ice.

In a statement to Sheriff A. J. Merrick, Rockey said he was following another truck, which first swung out as if to cut across the road to the lunchroom. Rockey said he cut his truck to the right, but at that back to the bar ditch on the right and pulled to a stop. To avoid a crash, he continued, he swung quickly to the left, saw the approaching car and knowing he could not get back, attempted to whip around on its left. Instead, the truck appaently went into a skid.

Born in Miami, Okla., in 1894, Hush came here 14 years ago to join the employ of Cosden refin-He had been associated with the company continuously since. Besides his widow and son, he eaves his father and three broth-

Army Casualties Since Time To Pay Start Of War, 63,958

WASHINGTON, June 24 (A)—Army casualties since the beginning the war to date total 63,958, Secretary of War Stimson reported to-

day.

The lull in recent fighting has permitted the Army to complete a tabulation of its casualty reports, Stimson told his press conference, disclosing that the Army has lost 7,528 men who were killed in action or died of wounds, 17,128 wounded, 22,687 missing, and 16,615 officially reported prisoners of the Japanese, the Germans or the Italians.

"While our casualties have been heavy, said the secretary, "it is certain that in practically all theaters of war in which our troops have been engaged, the enemy's losses have been much greater than our own."

own."

He added, however, that future military operations are likely to involve much greater numbers of our troops and that correspondingly heavier casualties should be expected.

Thus far, Stimson said, the defensive campaign in the Philippines remains the most costly in casualties. The total, including the Philippine Scouts but not the Philippine constabulary or the commonwealth army, is 31,610. Most of these are presumed to be prisoners, he said, and many have been so reported officially.

Sicilian, Sardinian Points Hit Again

ALLIED HEADQUARTERS EN NORTH AFRICA, June 24 (4?)—
British heavy bombers from the Middle East command swept across
the Mediterranean to attack the enemy airdrome at Comise in Sicily
on Tuesday night while twin-engined Wellingtons from Northwest African bases blasted Olbia in northern Sardinia.

Communiques today said the heavy bombers caused two violent
explosions and set two large and a number of smaller fires at the

AHEAD OF SCHEDULE

Cadets Told

"With a firm hand, a steady ex and a strong faith in God you will triumph."

This message of inspiration went to graduating bombardiers of the Big Spring school Thursday morn ng, as members of class 43-9 received their wings and commis sions. It came from a father of one of the class members, H. H. Tamplin, Troy, Ohio, who, in congratulating the young men on theis "great day," said "your par-ents, your friends—every trus American—will be praying for your afe return."

Tamplin, in reciting the bene-fits of America, told the class "The time is here when each of you are called upon to pay in a measure for some of the benefits you have received. And I am sure that each of you as a gradu-ating cadet realizes the responsiating cadet realizes the responsi-bilities and duties which lie ahead. If I were to ask any of you, realizing the dangers which you have ahead, if you wanted to give it all up and go back home with the war not yet won, not one of you would make such a decision. This is the spirit, the stuff, that has made America great, and the spirit which will lead you on when the seems dark."
And there is confidence, said

Tamplin, that God rules our des-

tiny. Said he:
"It would be difficult to convince Eddie Rickenbacker, who tossed around on that rubber raft for 21 days, that there is no God. You could not convince those brave men who flew over Tokyo and dropped their deadly missiles, and reaching help and medical assist-ance in the wilds of China, that The attack on the Sardinian tar-gets represented a departure from the pattern of this week's major bombing forays, all of which have bombing forays, all of which have holes in Guadalcanal against heavy been directed at objectives on Sicodds, that there is no God. Texas Coming To The Top As Synthetic Rubber Producer

gest single factor in the nation's war-born synthetic rubber produc-tion program, James J. Newman, vice president of the B. F. Goodrich company, said here today.
In an address prepared for de-livery before a luncheon meeting of Texas business and industrial leaders, the Akron. Ohio, execu-tive said the Lone Star state,

which for years provided three basic ingredients for manufac-tured rubber — cotton, carbon black and sulphur—will soon as-

-all of them "polymerization" Chemical company at Texas City units in which butadiene and styrene, produced from Texas peNewman saw "no reason why the styrene, produced from Texas petroleum and natural gas, are combined to make butadiene-type syndustry should not always be an outstanding one."

DALLAS, June 24 (P)—Within A 120,000-ton plant—largest of the next three months Texas will any in the whole national program —at Port Neches, built by B. F. Goodrich and with 60,000 tons of its capacity to be operated by that company and the other 60,000 by Baytown built by Goodyear to be operated by General Tire & Rubber company and General Latex & Chemical company; a 45,000-ton plant at Borger built and operat-ed by B. F. Goodrich, and a 60,000ton unit at Houston, built and op-

erated by Goodyear.
The "made-in-Texas" butadiene for these rubber factories will sums leadership in "helping the country lick this toughest of all wartime supply problems."

Government-financed plants having a total capacity of 255,000 t annually—more than one-third of the total "GRS" production scheduled under the national program—will be in production in this state within 90 days according to present estimates, Newman said. ent estimates, Newman said.

This total capacity, he said, will duced in plants operated by Monbe made up of the following plants santo Chemical company and Dow

Howard Tests **Making Hole**

Steady progress was reported in drilling on the Vincent pool's sec-ond test Thursday as the Cosden No. 1 Chester Jones drilled to 2,-

The test is a diagonal southeast offset from the W. S. Guthrie No. 1 Pauline Allen, discovery well, which was completed at 4,095 feet as the county's deepest producer, for 161 barrels. Location of No. 1 Jones is 660 feet from the north and west lines of section 5-25,

Ready to spud in the same area is the W. S. Guthrie & Cosden No. 1 Allen, 1,980 feet from the south and east lines of section 57-20, La-Vaca 1875 feet northwest of the iscovery test.

In eastern Howard county Cosden No. 1 Willard Read, 380 feet from the south and west lines of section 48-30-in, T&P, was reported at 2,505 feet in lime. It is half a mile west of the recently discovered Read pool in which Ray Oil Co. now has two producers.

Bombings

were heard over Folkstone, wing-

ing toward northern France and

speculate on whether the successful trial trips across Europe could be accepted as a pattern for the future.

Maj. Gen. James H. Doolittle's attack on Tokyo was a partial application of the principle in that the U. S. bombers took off from s carrier and landed in China.

The RAF feat aroused specula-tion as to whether the U. S. air forces might stage similar raids. The range of the Flying Fort-senses and Liberators would make such runs possible at least across France to North Italy.

Officially described only as "any

Officially described only as "sev eral squadrons"-which means at Lancaster force was strong enough to ravage three acres of the important radio location equipment plant in the Zeppelin works at Friedrichshafen and also to severe

tor plant on the way out. On the return trip the docks at La Spezia were bombed accurately, the communique said, and stores of oil set afire.

Woman Dies At Garden City

Funeral services of Mrs. Mary Estelle McDaniel, who succumbed at the home of her son, Ronnel day were to be held Thursday
afternoon 4 o'clock in the Ronnel
McDaniel home, with the Rev.
Roberts, paster of the Midiand
Church of God, officiating.
Mrs. McDaniel, born Sept. 23,
1880 in New Albany Miss.

America Bombs The Axis

Sea It's Hit Or Miss

hods of the bombers in the S. Army Air Forces, as ex-ned by instructors at the

Every man and boy in America has probably fancied himself flying through the clouds in a big ber, a combination of Colin Kelley the pilot and Meyer Levin the bombardier, dropping a two-ton "egg" right down the funnel of a Japanese battleship or aireraft carrier.

Although sinking Jap fleets is one of the principal pastimes of the Army Air Forces and Navy fliers, its decidedly not that simple. Destruction of each flotilla weapons in different ways, according to the problem at hand and the types of planes available. Generally speaking, here is the

way the air forces would operate against an enemy surface fleet if all kinds of bombers were avail-

Fleets Spar For Position An attack by an air force upon a surface fleet is strategically almost the exact opposite of a duel between surface forces. When two ocean fleets meet, their light units spar around while each side tries to bring its battleships into favor-

By contrast, the heaviest bomb ers are probably the first to see action against an approaching enemy surface fleet. The light airplannes follow with more destructive and decisive blows at closer

Because of their range, Flying Fortresses and Liberators make initial attacks upon the ene-They would like to hit his aircraft carriers if possible.

But the "flat tops' are far in the because of their build and com-parative lack of speed, which make them easy targets for the terrific concentration of anti-aircraft fire aboard modern warships. Thus they must try to hit fleeting targets from five to seve miles below unless bad weather gives protection for a closer ap-

Destroyers Can Maneuver It is practically impossible for a ingle bomber to hit a fast surface ship, such as a destroyer or light cruiser, under such condi-tions. With binoculars the enemy can see bombs start their descent, and in the 45 or 50 seconds before they reach sea level he can wheel

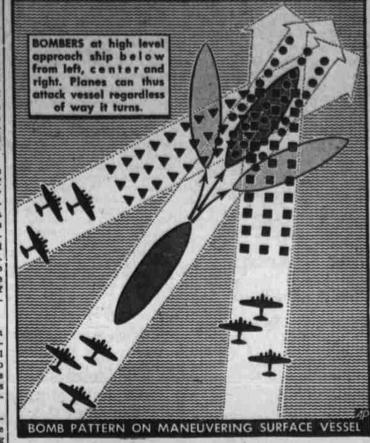

in the opposite direction. Pattern bombing, similar to that used in high-level attacks on heavily defended industrial centers and shore installations, will increase the chances of scoring

KLEENITE needs no brush

on ships but a destroyer might, factories or dockyards. The obeven dodge the salvoes from sev- ject is to cover all possible posieral planes. A battleship or heavy tions of the vessel as it maneuvers cruiser offers a target several to escape. A carrier caught while times easier to hit and its loss receiving or discharging planes would be a harder blow to the enemy fleet.

Transports, also less maneuverrear of the approaching fleet and able and usually slower than warare protected by their fighter ships, are prime targets for bombplanes. Bombers might not be ers. But as they are not as well flights converging over the tarable to reach them effectively at defended with anti-aircraft guns get. The leading might drop its first. Fortresses and Liberators as the warships, heavy bombers are forced to fly at high altitudes will leave them for the smaller planes which must attack from a the vessel to indicate the direction shorter range.

Pattern Bombing On Ships A pattern attack upon a ship be wasted in pattern bombing of usually involves a somewhat different technique from an assault upon stationary targets such as from high altitudes.

Screw Worms Are Spreading Rapidly

Screw worms are multiplying and spreading at an unprecedented rate, County Agent O. P. Griffin reported today.

He attributed this condition largely due to a shortage of labor on farms and ranches, thus reduc sedy vessel about and head ing correspondingly the amount of preventative and curative work

that can be done. Much can be done toward checking the infestation by use of imear 62 on all wounds before infestation or within three days after eggs are laid. Every precaution should be taken to prevent wounds of any kind. From all indications, he said, it would appear advisable to keep a supply of Smear 62 on

ORTEGA WINS OAKLAND, Calif. — Pedro Or-tega, 138, Mexico, defeated Tyree White, 139, San Francisco (10).

Aviation spokesmen expect that 60 ton transport planes will be flying regularly by 1945.

ruptly but most surface ships under air attack will continually change course.

A frequent tactic for assaulting bombs first while the others wait momentarily for r movement of of maneuver.

Many bombs must necessarily assure a certain number of hits invasion fleet.)

STEAKS LUNCHES DONALD'S Drive In

BUTTER TOASTED SANDWICHES Corner San Angelo Highway and Park Road

Signs of Peace and you'll want to be there!

What if Peace brings new cars promptly or not? You'll be yearning to get away from headlines-rations-hours of volunteer war work...to get around again with your weary, happy soldier boy-home at last. And with driving restricted now, your car should have plenty of miles left, just so you're not tossing them away these days, by half-ruining your engine with acid.

That's no "new scare." You never yet stopped any auto engine without acid products of combustion trapped inside. But formerly, the frequent fast driving that fully heated the engine kept expelling acid. So the hazard was mild compared to what it is today, when acid works while your rationed engine rests.

One great recognized precaution against this is to OIL-PLATE your engine by changing to Conoco Nth motor oil. Its special added synthetic acts "magnet-like"-to attach OIL-PLATING direct to precious inner parts. Much like body parts plated against atmospheric corrosion, the cylinders, rings, bearings and other parts now hard to replace are OIL-PLATED against internal acid corrosion. The close-surfaced OIL-PLATING that combats acid while the car stands; will help your essential transportation today. And may a happier tomorrow see you right off quick on your well-earned Victory tour! Change to Conoco Nth oil now. Continental Oil Company

Be Sure And Save Your Vegetable Seed

(Clip the following and pla your garden scrap book:)

Beed may be saved from vegetables harvested during June or
planting this fall or next spring. J. F. Rosborolgh, horticulturist for the A. and M. College Extension Service, says that plants from which seed are saved should be unusually healthy and vigorous. . . And the seed selected only from choice, well-matured fruits.

such plants may be specially marked by staking off or tying with string or piece of cloth and allowed to remain until fully matured All vegetables do not yield seed,

mix varieties. For example, Agent's office. only the type of squash seed which has the same blooming period hould be planted.

In saving beans, both bush and 700 percent since 1927.

pole varieties, allow the seed to then pull up the entire plant in the shade to dry. This will prevent the pods splitting. English peas may be left on plants until thoroughly matured, then picked when the pods turn brown and placed in storage. For tomato shade to dry. This will prevent the pods splitting. English peas may be left on plants until thoroughly matured, then picked when the pods turn brown and placed in storage. For tomato seed, place the jelly-like material containing the seed in a wire screener and wash it until only in the sun to dry. Seed from tomatoes that set fruit in July are best for this climate. best for this climate.

Vegetable seed may be placed in paper containers, but it is important that all seed must be thoroughly dry. Generally, high tempera-ture and humidity shorten the time

there is a special type of squash, on seed saving, storing and test-cucumber, cantaloupe or tomato ing, and maybe obtained free by which you think is outstanding, try writing to the Extension Service, and save the seed. Be careful not College Station or at the County

Club Women Find Work, Income As Paper Hangers

per of the Brown club, Martin county, have found a way to help mature thoroughly on the plant, the labor shortage and at the same early morning and place in the have become expert paper hangers.

> The Brown club first started paper hanging when members of the club needed help in papering rooms in their own homes. In 1942, the R. C. Stocks, president, suggested that the club bid on the job of papering the school teacherage

The group got the job and has been busy ever since.

Early this year the women learned of an apartment in Big Spring that needed papering. When the job was completed, word of the club's work spread and the women received other jobs, including the papering of a six-room house. The treasury boasts \$60 as a re-

The women, who guarantee their work, go about the task systematically, dividing the group into trimmers and cutters, "pasters," and hangers. One member puts on all the final touches. They are so expert now that the six-room house was papered in nine hours and the celling paper was hung in the last two rooms in 35 minutes per room. Right now, with food preserva-tion work in full swing, Brown tion work in full swing, Brown club members have discontinued their papering except in their own homes, but as soon as canning sea-son is over they probably will be ready to gather their paste buckets, ladders and scissors for more pa-per hanging jobs.

Baked apples stuffed with rice and salted peanuts, lightly sweet-ened with honey or corn syrup are grand for dessert. Serve warm cold, plain or with cream

Use the water, drained from cooking vegetables, in sauces, soups or stews. Cool and store the stock in covered jar in refrigera-

Eat Salads---And Like 'Em!

By Mrs. Alexander George

GP Food Editor

One good way to make your family want to eat the nutritious foods they ought to eat is to have a tempting main-dish salad.

Fresh vegetables coming into the markets or coming up in Victory gardens now provide plenty of tasts-enticing and vitamin-rich ingredients for a variety of salads. A main dish salad saves ration stamps besides eliminating a lot of cooking fuss and fuel for the busy homemaker.

busy homemaker.

First pickings from the garden are just right for JUMBLE BAL-AD BOWL. To serve 4 or 5, mix together 1 cup thinly sliced fresh radishes, 1-2 cup sliced spring onions, 2 cups diced cooked as-paragus, 1 1-2 cups shredded let-tuce, 1-2 cup salted peanuts and 1-4 cup French dressing. Chill for an hour or longer. Press 2 cups cottage cheese (rather thick) into

Picnic Petato Salad
4 to 5 cups diced cooked potatoes
1-3 cup sliced scallions
3-4 cup diced celery
2 sliced cooked frankfurters.

Many Victory gardeners are in-

hedding blossoms and developing

blossom-end rot . . . And house wives are asking why pinto beans

do not always cook soft.

In areas where hot, dry weather prevailed at blossoming time, incomplete pollination resulted in shedding of tomato blooms. Later blooms no doubt will result in set-

ting fruit on healthy plants. Blos

som-end rot usually is detected when the fruit is about the szie of

a marble or a 50-cent piece. The fruit should be removed from the vine. As spraying does little, if any

good, the most practical remedy is

to keep the soil well supplied with

noisture for the remainder of the

fruiting season. This disease us-

ually develops under hot-and-dry-

today-rainy-tomorrow weather conditions. Gardeners shouldn't give

way to discouragement under these troubles, but should help the plants

by providing uniform moisture for the remainder of the growing sea-

sible for the way they cook.

four days to dry. The beans then can be picked off or run through a thresher. After shelling they

may be placed in 50-pound cans or tight bags to prevent weevil dam-

Similarly, all persons who can and will do farm or ranch work, are urged to register at the agent's office.

No effort will be made to recruit

high school youths until farmers say they will use them, and farm-ars were asked to indicate whether

they can use inexperienced help when they register their labor re-quirements.

Howard county, which got grade one applications. The quota slong on 55 ped cent of its tire has been cut in half for June, yet needs during May, will have to manage on about 32 per cent in June and possibly even less in creased. Granting it holds steady, the per centage of certificates This was the conclusion to be will be only about 32 per cent,

district rationing officer.

The condition is general, Wilson told board members, and prosClarence A. Bestwick, chief clerk of the rationing boards, said the county faced a transportation crisis in 60 days. A large per centage of tires were worn thin from 18 months of service and July and August weather will have its effect on them, also Best-

Five Die In

WHITESBORO, June 21, OF Five children were killed in a grade-crossing accident near here early today. Two persons were in-

Grade Crash

Dead were: Ralph Dillon, 18; Billy Ray Dillon, 9; Gerald David Blanton, 8; Beverly Ann Blanton, 4;

Mac Young, 15.
Critically injured was Mrs.
Edith Dillon, mother of the
Dillon children, who was taken to a Sherman hospital. Dub Dil-lon, 20, her eldest son, also was taken to the hospital, but he is ex-

pected to recover.

The Blanton children, grandchildren of Mrs. Dillon, were visiting here, their former home, from Ba kersfield, Calif.

Mrs. O. N. White, sister-in-law of Mrs. Dillon. According to meager details available here of the accident, the Dillon automobile was enroute to Whitesboro when the crash occurred at a Katy railroad crossing, about three miles south of The victims planned to do some

farm work today north of Whites-boro. The father of the Dillon children died nine years ago. Ireland is called the Emerald

Isle because of its luxurious green vegetation.

Mann Declares Governmental Progress Lags

DALLAS, June 23 GP—Attorney General Gerald C. Mann told the Southern Methodist University Pastos school here Tuesday that the scientist has moved off and left the politician and that Texas' antiquated governmental machin-ery must be brought up to date.

Comparing government with progress of transportation and inter-community living, he said:

"In our Texas governmental machinery, we have not yet reached the railroad age—much less the age of trucks, automobiles and air." Mann said there must be some consolidation of the 254 Texas

ountles, with a county manager system for some of the larger ones. An up to date budget and audit system is needed, he said, and the judicial system needs overhaul-ing. A merit rather than a spoils system of selecting state employes should be adopted, and there should be a centralization of responsibility in the state's chief executive. That way, he said, people can better place responsi-bility for governmental failures.

Crop Goals Will Be Met In Area If Weather Permits

Farmers over the 20 counties in district No. 6-north are going to over produce on their war crops if they get an even break on the weather, A. H. Jeffries, AAA field representatives, said here Friday.
Cotton production may be a little below normal due to the unsea-

planting of this standard crop.

There will be the heaviest grain yield that the area has ever known Jeffries predicted. Moreover, where the cotton acreage is dropping, peanut acreage is increasing in a large number of the counties.

sonal weather in much of the dis-

trict, but there is still considerable

This is not true in Howard county, said M. Weaver, administrative istant, for farmers are electing to go the grain sorghum route. Cane is practically disappearing from the picture here this year as farmers swing to hegira which many favor as fodder over cane and which also is a heavy grain

In addition, continued Weaver, acreage to maize is spurting. The big swing is to a Wheat and type and long after frost and which may be harvested with a combine.

Since there is a \$1.52 Cwt. hottom on grain this year, the swing to make and hegira not only promises to furnish feed for vital live-stock but to prove highly profit-able as well. In past years some have set early season gra'n go as low as 40 cents Cwt.

Engineers Offer Ratings For Skilled Men

Civilians who are subject to induction but who have not been called may volunteer and receive ratings if they qualify as experienced skilled workers

Capt Earl R. Hury, post engi-

neer at the Big Spring Bombardier School, is granting interviews to men who believe they may qualify for a place with the corps of engineers. Those given classificaboards and are sent to induction centers and referred to the division engineer who places them in camps best suited for their type

For Instance, bridge builders, earpenters, heavy pontoon build-ers, bull dozer operators, etc., might go to Camp Claiborne, La.; mine detection applicants, tank trap and gun emplacement build-ers might go to Fort Belvoir, Va., and those who wish air borne engineering experience to Jefferson Barracks, Mo.

Approximately half of the 20 who have sought interviews to date are qualified, reported Capt. Hury, who added that there is a crying need for men who are skilled if their civilian trade fits them for service with the engi-

Some of the types of men (and there is a place for 7,000 a month) most needed include foremen, construction carpenters, well drillers. utility repairmen, electricians, bridge builders, pow-der men, riggers, etc.

Auto Tax Stamp Sales Picking Up

Sale of automobile use tax at the end of the week, Postmaser Nat Shick reported Saturday. Before closing time, he counted 368 of the stamps sold since they were offered first the fore part of the week. More than half of this

number was sold Saturday.

These stamps, costing \$5, must be on every motor vehicle used after June 30. Because there are approximately 5,000 of these due he anticipated an attendance of Shick urged that as many as who can arrange to secure them in the be the council's biggest camp to next few days and avoid a last date. Scout Camp Slated For July 9 to 19

With the district camp out of the way, Boy Scouts of the Big Spring area were concerned Monday with mont Camp near Cimarron, N. M.

The camp will be held July 9-19 on the 200-section preserve given to Boy Scouts of America by Waite Phillips, wealthy Oklahoma oil man, but registrations must be in the council office not later than July 1. Cost of the entire triptransportation, food, etc.-is \$13. S. P. Gaskin, area executive, said

be sold in Howard county, 200 scouts and that there were in dications that this would probably ed to accompany the boys.

B'Spring Man Dies In Crash

DEL RIO, June 22 UP-Two officers and three enlisted men were killed in the crash of a Laughlin army air field medium bomber on routine flight near Albany, Tex., Sunday night, the field's public relations office announced today.

The dead, reached by West Tex-ans hacking a roadway through wild brushlands, were: 1st Lieut. Robert T. Lee, Jr., 2nd Lieut. Marion R. Messing-

ham, Waterloo, Iowa. 8/8gt. Herbert C. Arnold, son of Mary Arnold, route 1, Big Spring, Tex.

8/8gt. Bernard K. Pollock,

Plymouth, Ill.
Pfc. Robert T. Groome, son of
Mr. and Mrs. Arthur T. Groome, Mr. and Mr. Newport, Del.

S/Sgt. Herbert C. Arnold is one of five sons Mr. and Mrs. D. A. Arnold have sent into the U. S. Army. He originally was stationed with the 388th school squadron at Goodfellow Fleid, San Angelo, before transferring to Del Rio.

Negro Dies Of Stabbing

Louis "Bearcat" Bolden, negro, was stabbed fatally Saturday night as a climax to a disorganised outbreaks of June 'teenth celebrating. The sheriff and police depart-

ed as Marjorie Robinson.

Bolden was stabbed literally through the neck in an altereation back of the Dreamland hotel, negro town hot spot. Sheriff A. J. Merrick sald he then ran a collapsed and died before he could be taken to a hospital. Police said the call came in at 12:26 a. m. Sunday.

Earlier, Deputies Bob Wolf and Denver Dunn had picked up Reuben Young, negro, and booked him on assault charges. Reuben, they said, was bouncing brick-bats off heads of fellow celebrants. One such toss bounced off the head of

wife on the head also.

Police made other calls to the Deamland for drunk and affary and again to a cabin back of the Dreamland to pick up another negro woman for investigation.

The armor, consisting of a 16pound sleeveless vest of manganese steel, already has been worn by some airmen on raids over Europe and is said to have proved very successful under stern tests.

The vest is made of heavy canvas to which are attached small overlapping squares of 20-gauge steel, giving complete coverage on chest and back. An apron, sus-pended by hooks from the vest, provides protection for the stomach and parts of the legs.

Pilots and co-piolts will wear only the half vest for chest protection since their backs are protected by the plane's armorplate. Bombardiers, navigators, gunners and radio operators will wear full vests The aprons come in two types, full width for standing men, tapered for seated men.

The half-vest weighs seven pounds, the full apron six-and-a-half pounds and the tapered apron four-and-a-half pounds. The vest slips over the head and laces up the sides, with the pull of a string the whole gear can be shed

Pleads Guilty To Driving Charge

E. J. "Boe" Clark entered a plea of guilty in county court Monday to a charge of driving while intox-icated and was fined \$50 and costs by County Judge James T.

Domestic Branch Of OWI In Hands Of Palmer Hoyt

WASHINGTON, June 22. (49)— Palmer Hoyt, new director of the Office of War Information's (OWI) domestic branch, outlined today a policy of giving the American peo-ple "straight information about the war" without "propagandizing."

"This means there will be no pamphieteering from this office," Hoyt, publisher of the Portland Oregonian said in a statement which augmented a brief press conference late yesterday.

"It also means that this office will yield to no political pressure, and will serve no political inter-

Hoyt, who described himself as a life-long republican, smilingly re-marked he appeared before the reporters as abolished." "one who has been

This was an allusion to the house's action last week in voting to withhold all funds from OWI's domestic branch for the fiscal year beginning July 1. The senate has

not yet acted.

The Portland publisher said he had accepted the appointment for six months "because I am convinced that its operations are absolute-ly vital to the conduct of the war and to the interest of the entire country." He added that he had a clear understanding with Director Elmer Davis that he would have full authority, assuming funds are restored, to operate the domestic branch "according to the free standards of the American press."

ments were investigating the case Monday, but had not progressed sufficiently to file charges. Held for questioning was the "Cat's" woman," said police. She was list-woman, and police.

WASHINGTON, June 22 (P)-J. Edgar Hoover announced today that seven persons had been arrested at Rochester, N Y, on charges of sabotage in connection with allegedly faulty manufacture of incendiary bombs and hand grenades for the United States armed forces and their allies at the Antonelli Fire Works Company, Inc., Spencerport, N. Y.

Hoover, director of the federal bureau of investigation, said that those arrested were charged with "wilfully failing to properly load. a negro man and then caught his the powder charge in the bombs and grenades," and it was charged that there were attempts made also to pass material previously reected by the Army inspectors. He named these as having been arrested:

Amerigo Antonelli, 52, a pative of Italy, who became a naturalized citizen of this country, president and treasurer of the company; Bennie Piteo, 31, a native of Rochester, a foreman; John Deritis, 28, a native of Rochester, plant superintendent; Joseph Deritis, 30, born at Lattimer Mines, Pa., a plant superintendent; Dominick Barbollo, 29, a native of Saratoga, periments, the eighth air force an- N. For Invasion Progressing

WASHINGTON, June 22. (A)-Navy Secretary Knox said today that preparations are moving "right along" for an Allied invasion of

Knox was asked at a press conference for comment on a new Russian insistence that an Allied army be thrown onto the German domi-nated continent. The Russians said that while the German army has been defeated several times during the past year and while the military situation is now generally favor, ble to the Allies there can be no victory without a second A gasoline ration cards.

Knox said he would make "no for an attack on Europe "are going forward right along."
"Obviously, we can't talk in speci-

fic terms," the navy secretary added, "but there has been no cessa tion of these activities." In response to other questions, Knox said he knew of no Japanese interference with the movement of

to Russia across the Pacific.
The line to Russia still is funcloning, he declared, although whether the Japanese are holding up any of the ships and examining them, I don't know."

Employers Cannot Qualify For Old Age Benefit Funds

Owners and part owners of un incorporated businesses-toe selfemployed workers-cannot up credits for old-age and sur-vivors benefits, under the present Social Security Act by reporting their "wages" and paying social se-curity taxes on them, stated Elhe was sent for special duty, and liott W. Adams, manager of the Social Security Board's Big Spring

field office. The benefits under the Social Security Act are paid only to in-dividuals, or their survivors, who are working in employment for others. As employment is defined under the act, the self-employed worker is excluded.

Any taxes that have been paid by such individuals can, under certain conditions, be refunded by formation regarding these refunds should be requested of the collector of internal revenue to whom the tax reports are made.

Farm Measure **Back To House**

WASHINGTON, June 22, (49)— The storm-laden \$875,000,000 farm appropriations bill went back to the house today with five major items, including senate allowances of \$160,000,000 for the farm secur-ity administration (FSA) still in sharp dispute.

Despite failure to agree on the as well as on a senate as as well as on a senate amendment increasing sell conservation payments from \$300,000,000 to \$400,000,000 senate and house conferest talked optimistically of prospects for an early accord on the bill.

Also still in dispute were senate allowances of \$7,000,000 to continue administration.

administration of Insurance on wheat and cotton crops; increas-ing rural electrification administrawheat and cotton crops; interpretation administra-tion (REA) loans from \$20,000,000 to \$30,000,000 and authorizing the agriculture department to con parity payments on 1934 and 1944

Agreement was reached on a pr vision authorizing the regional Agricultural Credit corporation to continue to make new loans where private agencies fall to offer com-parable terms, and on an agriculture department expenditures of \$50,000,000 for aiding school milk and lunch programs.

Housewives Urged To 'Spread Out' Red Stamps

WASHINGTON, June 23 UP) -OPA today asked housewives to "spread out" the use of their K. L, M and N red stamps, which expire next Wednesday, in order to avoid a last-minute rush at retail

Pointing out there is nothing to be gained in waiting until the last few days to use these red stamps OPA said that housewives sho ping well ahead of the expirati deadline will find stores less crowded and a greater variety of meats, fats, oils and cheeses

Validity dates of red stamps to be used during July will be an-

City Due To Close On Fifth Of July

Observance of Independence Day by local business will center on July 5, if preliminary reports received by Mrs. L. A. Eubanks, Retail Merchants bureau manager, are a fair cross section. . Mrs. Eubanks said that most of those who had called her office re-garding closing favored July 5

ince Independence Day this year falls on Sunday. It has long been customary, she pointed out, to observe the Monday following when a legal holiday falls on Sunday.

PROFESSIONAL PAGE

Joe Stevenson, owner and operator of the local feed store at 511 North East Second, explained this fact in relating the poor luck poultry raisers have experienced, particularly this year. The treat-ment serves as a wood preserver as well as an insect repellent.

Stevenson, who also operates Poe's Food store, took over the Western Grain and Feed store two years ago featuring Burrus Texo Feeds and other products exclusively, and handling chicken and dairy feed, growing and laying mash, insecticides and other poultry and cattle needs.

That the Western Grain and Seed company ranks as one of Big Spring's largest egg dealers was proved last week when the store bought the largest amount of eggs for that day in town. Another high quality product

which is sold at the store is mineral stock salt and mineral block which has proved most beneficial for sheep and cattle. Salt with mineral content keeps down rickets and builds bones.

At present the Western Grain is well supplied with a good line of feed and seed and is qualified and able to serve farmers and
