"Turn 'em over easy, Mr. Mayor"...says former EHS assistant football coach Bennett Ragsdale (right) at Thursday night's 23rd annual Kiwanis Club Pancake Supper held in the Brownwood Coliseum. Ragsdale, who is now Registrar at Howard Payne University is President of the Brownwood Kiwanis organization. He is married to the former Sue Day of Eastland, the daughter of Mr. and Mrs. Milton Day. Brownwood Mayor Truman Harlow is in center of photo.

with Ragsdale on right. At left is Wendell Dodds, chairman of the event. The annual pancake supper is held in the huge Coliseum, built in the middle sixties at an estimated replacement cost of \$3 million and is capable of seating 6,000 persons. Pancakes were prepared on two, eight foot griddles capable of holding 40 pancakes at one time. In addition to hot pancakes, persons in attendance were also served large slices of ham, coffee, or milk, and all the other trimmings that go with hot pancakes. More than 3,000 persons were served between 5 and 8 p.m. Ragsdale said that money taken in is retained in Brownwood for club projects, including playground equipment at one of the city parks, aiding needy children obtain dental care, sponsoring boy scout troops, etc. Ragsdale coached in Eastland in the early sixties under then head coach Jimmy Hughes as backfield coach, and head track coach. He left Eastland in 1968. He is a graduate of Texas A&M and played football under Aggie head mentor "Bear" Bryant. In addition to his coaching duties at EHS, Ragsdale taught math. He is a native of Junction, Texas. (Photo by James Dabney).

Bakker FUNERAL HOME
306 W. PLUMMER • EASTLAND • PH. 629-1726

Dear friends,

It is not unusual for the bereaved to try to deny the death that has occurred. Some avoid the reality of death and the pain the loss brings by not wishing to view the body of the deceased. They say they wish to remember the deceased as he or she appeared alive. However, to view the body is to confirm death, an important first step toward accepting the death, and adjusting to it.

Respectfully,

Oale O. Bakker

GORDON SPOT

By DE GORDON

Late fall and early winter are good times to set out new trees in your home or community landscape.

Communities where many good trees have been established and more are being planted demonstrate a feeling of continuity with the past and anticipation for the future.

There are several good reasons for planting trees. Trees reduce smog and purify the air by acting as dust and pollution filters and by releasing life-giving oxygen into our air. Trees moderate the climate by protecting from extremes in wind, heat, cold and drought.

Real estate people tell us that one of the best reasons for planting good trees is to increase the value and sales appeal of our homes. Beautiful well-placed trees are a prime selling factor especially in old homes. In fact trees are probably one of the biggest bargains in our environment. Since considerable time may be required to produce a tree of useful size, it is important to plant them as soon as possible and select adapted varieties that fill one's specific needs.

Pecans are an important nut crop here in Eastland County, and the trees also make an attractive addition to the home landscape. But controlling pecan diseases is important and pecan scab is a major problem.

Selecting pecan scab resistant varieties will help combat the problem. Many new varieties are being released by the USDA Pecan Station at Brownwood, and the old varieties such as Desirable or Stuart also have resistance to this disease. Of the two, Desirable is the preferred variety.

Of the new USDA varieties, Caddo and Shawnee have the

highest level of resistance to pecan scab. Choctaw, Sious, Mohawk, Cherokee and Cheyenne can be grown in most trees with only limited spray applications.

Mahan and Success are excellent old varieties that will require limited spray applications to control pecan scab.

With cold weather and the first frost of the year just around the corner some folks may soon be asking what can be done to save the garden. The first killing frost often is followed by several days, if not weeks, of favorable growing weather. Protecting cold-susceptible plants from early frosts can increase the productivity and the value of a family vegetable garden.

A common water sprinkler can be used as a frost protectant system. If a light freeze or frost is predicted and the conditions are suitable, one with a productive garden might consider sprinkling the garden for frost protection. The water should be applied continually during the freezing period. If freezing temperatures occur throughout the night, sprinkling the garden the entire night will be necessary. If only a frost is predicted, adequate protection usually can be provided by sprinkling only in the early morning, as this is when frost damage is most likely to occur. Furrow watering also offers some protection against cold weather damage, but is not as effective as sprinkling.

Many people try to protect garden crops from frost damage by washing the frost off with warm water in the early morning. Actually this practice may increase the damage. Plant tissue required to go from freezing conditions to thawing conditions in a short period of time will show much more damage than those allowed to thaw slowly over a period of time.

Remember, the first freezing weather does not have to mean the end of a successful summer garden. A little water applied to the garden at the right time may go a long way toward saving those highly nutritious and tasty home-grown vegetables.

Thoughts

From The Living Bible
"In solemn truth I tell you, anyone believing in me shall do the same miracles I have done, and even greater ones, because I am going to be with the Father. You can ask him for anything, using my name, and I will do it, for this will bring praise to the Father because of what I, the Son, will do for you. Yes, ask anything, using my name, and I will do it! If you love me, obey me; and I will ask the Father and he will give you another Comforter, and he will never leave you. He is the Holy Spirit, the Spirit who leads into all truth."

Chamber Delegates To Confer With K.R.B.C. On Chanel 5

An Eastland Chamber of Commerce delegation will soon visit Television Station KRBC-TV Abilene, to ask the management there to drop their request that Southern TV Cable give NBC non-duplication protection.

KRBC-TV has filed notice with the Federal Communications Commission charging that Southern is carrying KXAS-TV of Fort Worth, (Channel 5) duplicating KRBC NBC programs in violation of FCC rules for 55-mile protection.

Several citizens in Eastland have indicated that they object in effect to being told what they can and cannot watch on the cable. Southern TV apparently has the option of either cutting Channel 5 entirely off the Eastland system or developing elaborate and expensive clocking equipment to "turn off" Channel 5 at all times that there are like NBC programs being carried on Channel 9.

A local citizen asked that the chamber take appropriate action to prevent KRBC-TV from restricting Channel 5 in East-

land. President Emmet Lasater presided at a called meeting of the Chamber of Commerce Board Thursday morning and on a motion and second, it was decided that the chamber would take action.

Action agreed upon was that a delegation go to the KRBC-TV management to discuss the problem and let it be known that the Eastland Chamber is in favor of retaining all of the Channel 5 programming.

Attending the meeting were Lasater, Chamber Manager James Wright, Frank Sayre, Larry Kirk, Mrs. B.W. Robertson, Wilbur Simmell, Dale Bakker, Southern Manager John Neville, Don Baird, James Fullen, Ray Winegar, M.L. Terrell, Otis Coleman, H.V. O'Brien, and Jim Hogan.

Mrs. Brockman Honored

Mrs. C.T. Brockman was surprised on her birthday November 5, with a surprise birthday dinner at the Spot Restaurant in Cisco.

Those throwing the party for her were her children and grandchildren: Mr. and Mrs. C.T. Brockman Jr., of Fort Worth; Mr. and Mrs. V.H. Henderson and their daughter Chris of Hurst; and granddaughters Mr. and Mrs. Tom Carlisle of Fort Worth.

After their lunch had been served and the table cleared, a cake was brought in with "Happy Birthday Mom" on it. They also sang "Happy Birthday", and Mrs. Brockman blew out the candles.

To Entertain

Members of the veterans of foreign wars and the ladies auxiliary Post 4136, Eastland, will entertain veterans and all ex-service men of all wars with free food and refreshments at the VFW post home, Nov. 11, Tuesday, at 6:30 p.m.

Mr. and Mrs. Bob Johnson of Eastland were one of the many couples who spent a pleasant evening at an AARP "social" Thursday evening in Cisco. Mr. Johnson is the president of the Eastland AARP Chapter.

Joint AARP Meeting Fun

BY LOU PRANGE
Lively laughter and merry music accompanied able appetites at the Corral Room Thursday evening, Nov. 6. Sharing the fund and food were at least one hundred and seventy AARP members and guests.

They came from Stephenville to entertain. They came from Eastland and Ranger to make a neighborly chapter call. They came from McCamey, Andrews and Cleburne in West Texas. And they came from Cisco—about half of them. They came right out of their favorite chair

in front of the television set to help create warm, live sociability with food and song. In the rooms adjoining the dining area, friends greeted friends and hostesses introduced newcomers. There were no strangers, not for long, as all shared a smorgasbord made up of covered dish contributions from everyone. Even the Stephenville entertainers, who turned out in greater number than expected, brought their own fare: a huge basin of chili! After choosing from a vast variety of salads, meats and vegetables, the diners carried

heavily laden plates into the Corral Room. Here they sat at tables decorated with home grown greenery arranged with a professional flair to celebrate the Thanksgiving season. An ice cream dessert was served courtesy of the Eastland Chapter who recently lost a membership contest to Cisco. Costumes added a festive flavor reminiscent of earlier days. Mrs. Bob Johnson of Lake Leon wore a poke bonnet with her long old-fashioned dress. Although Mr. White, President of the Cisco AARP Chapter, wore no other identification

than full western garb and a name tag reading the "Cisco Kid", no one failed to recognize him. The barber-pole, candy-striped jackets of the Stephenville Band and Square Dancers also helped to create atmosphere that blended well with the evening's entertainment. The first part of the entertainment was furnished by the audience who joined in singing patriotic, religious and "popular-in-past-days" songs. Dixie land music followed. Among the Stephenville Band's instruments, a harmonious wash tub helped to keep time for the

Square Dancers, who after putting on a demonstration, invited everyone to participate in forming professional squares.

The first joint social of the Cisco and Eastland AARP Chapters proved a success in fun, food and fraternity. And it would be difficult to find more enthusiasm among those younger-in-years.

If any girls are interested in joining, the age limit is 2nd to 4th graders from 2:30 to 3:30 and 5th to 6th graders from 3:30 to 5:30 p.m.

This week we planned and are deciding on what we are going to make for our parents for Christmas.

Our class is doing a lot of math and we try hard on it. We are checking out books from our library and we have been calling out rows. Our teacher is very nice because she lets us do art when we get caught up with all of our work.

Letters TO THE EDITOR

Editor: I would like to suggest that the city commission take official notice of Abilene's KRBC TV having Fort Worth's station KXAS TV removed from our local cable TV, so as to force and compel Eastlanders to watch their Abilene TV channel. If carried to the extreme, Abilene will next ask that Dallas-Fort Worth papers be banned from Eastland, and the D/FW radio stations blanked out. Of course that could never happen, but it does illustrate the ridiculous situation that KRBC TV is trying to cram down Eastland's throats.

Editor: Just wanted to drop you a note to thank you for the publicity, editorial, etc., which you readily gave in regard to the

campaign in opposition to the proposed Constitution. Emory and I and the local Bar Association sincerely appreciate your help.

With kindest regards, I am, Yours very truly, Mike Siebert

STATEMENT OF OWNERSHIP, MANAGEMENT AND CIRCULATION EASTLAND TELEGRAM

In The Kitchen
BY DINAH WILSON

In this column, we try to give hints and ideas for making your life a little more enjoyable and the task of every day living a little easier. The ideas we entertain are usually of interest to women only, however, in some homes the man has as much interest in the routine chores as does the woman. Realizing this, we are dedicating this article to the man around the house. We don't want to appear biased, but since this is written from a woman's point of view, it may be offensive to some of the male species. This is not the object of

this article, we merely want to point out how a man need not be as helpless as he sometimes appears.
If your wife were to disappear today, for a long period of time, could you survive? Could you fill her shoes, carry on her duties, without outside help? A man takes pride in being an independent, self-sufficient person, but think about how efficient you would be without the woman in your home.
Here are a few things you need to learn in order to survive when an emergency arises:
1. Learn how to prepare the

three basic meals: breakfast, dinner and a sandwich.
2. Pay attention to the brands of products your wife buys at the store. You can never go wrong if you duplicate her purchases.
3. Learn how to operate those two boxes your wife refers to as the washer and dryer.
4. Learn how to press with that gizmo called an iron.
5. Memorize the places your wife stores various clothing articles: your clothes, the children's clothes, and the household linens.
6. Learn the routine of the children: when school starts, times for dancing lessons, etc.
7. Learn to make beds, straighten house, and load the dishwasher.
We are not suggesting you put on an apron and wear curlers in your hair. You can never know when you will need to take on the responsibilities of a household. If your wife were to become seriously ill, or have some other reason for being gone from home, she would feel much more at ease knowing you were capable of existing without her.
If you are worried about your household knowledge becoming a permanent duty, don't. There are very few women who will let their husbands take over the chores and management of a household completely. Their ego is too great to admit that a man can compete with them in the culinary arts. However, we have yet to find a woman who will not accept a little help from her spouse when it comes her way.
The final thought in our column to the man of the house is: A sincere compliment or expression of appreciation to a woman is like water to a withering plant. How long has it been since you've watered?
UNTIL NEXT TIME

Your cost for electricity is below the national average.

And the gap is widening.

Today your electric bill is much lower than it would be in most other parts of the country. And while electricity costs are rising everywhere, your cost isn't rising as fast.
That's because Texas Electric is doing everything possible to keep the price of electricity down. For one thing, we're using the supplies of low-cost natural gas we acquired many years ago for fuel. And as our cost for gas goes up, we're building power plants to use cheaper lignite and nuclear fuels.
At Texas Electric, we're working to supply the electricity you need — at the lowest possible cost.
