Top Entertainers To Perform At Creighton Event Thursday

MINERAL WELLS--The Choraliers of Texas Women's University will perform at a special appreciation day ceremony honoring State Senator Tom Creighton to be held at 5:30 p.m. on November 6, at the Downing Heliport of Municipal Airport at Mineral Wells.

Members of the Choraliers are a small, highly-select group of singers who perform music from the pops, jazz and musical comedy repertoire. The group has been chosen to make seven USO-Department of Defense

tours throughout the world in its twelve-year history.

Gov. Dolph Briscoe and Lt. Gov. Bill Hobby, along with State Comptroller Bob Bullock and others, will participate in the appreciation day festivities for Sen. Creighton. Some 3,000 people from the 17 counties comprising the 22nd State Senatorial District are expected to be on hand for the event.

Tickets for the event are \$5. Sen. Creighton was born and raised in Palo Pinto County, Texas, and is presently a

practicing attorney in Mineral Wells. After serving in the United States Navy during World War II, he was graduated from the University of Texas Law School in 1950. He is married to the former Sue Sparks of Fort Worth.

He began his political career when he was elected county attorney for Palo Pinto County, a position he held until 1960 when he successfully ran for the office of State Senator. He has established an outstanding record during his 15 years of service in the Legislature. Ranked fourth in seniority, he has served on most of the major committees of the Senate. He is Chairman of the Economic Development Committee, a member of the Natural Resources Committee and Vice Chairman of the Finance Committee. He has served on the Senate-House Conference Committee on Appropriations for the past six sessions.

The North Texas State University 1 O'Clock Lab Band, a dynamic force in the concept of jazz education and jazz performance for almost 30 years, will provide "easy listening music" for the Sen. Tom Creighton Appreciation Day Barbecue Thursday, November 6, at the Mineral Wells Municipal Airport.

The 1 O'Clock Lab Band will play a cross section of Americana, from cowboy tunes to modern jazz, as background music for the barbecue, said Leon Breeden, director of the NTSU Lab Band program. Also on the Lab Band program, which begins at 7 p.m., is a medley of patriotic music and some of the big bands of Glen Miller and Benny Goodman.

Since its inception in 1947, when NTSU became the first school in the nation to offer a bachelor of music degree with a major in dance band, the Lab Band program has been proven training ground for jazz performers and teachers. There are currently nine dance bands in the program, with the 1 O'Clock Lab Band being the most advanced and the most selective.

Former students in the 1 O'Clock Lab Band now play with Sian Kenton, Doc Severinsen, the First Edition, Ray Charles and Tom Jones, among others.

Bike-Hike Set Saturday

One of the main purposes of America is to do their part to improve the community. This Saturday, November 8, the Eastland High School chapter of the FHA will be helping out the Texas Association for Retarded Citizens by sponsoring a Bike Hike. At this time, we have 106 students that will ride a horse, a bike, or walk the 20 mile course. Each person has sponsors that have agreed to give a certain amount for each mile they complete. Junior High and High School students are participating.

Mr. Chris Brooks, Project Coordinator from Brownwood, will attend and kick off the hike.

In Eastland County alone, we have estimated 444 retarded persons. Each one of these people need your help. If you would like to contribute to make someone's life happier, contact Wynell Ensor, head of the project, or any other FHA officer: Jo Allman, Sherry Wheat, Judy Krantz, Julia Minchew, Claudia Bulgerin, Jenni Bradley and Brenda Adams. Sponsors of FHA are Kathy Reece, Mrs. R.P. Haun

Mavericks To Meet Clyde Friday Nite

The Mavericks may be a little down, but don't ever think for a minute that they're out! Sure they've taken beaters the past two weeks, and they're physically bruised, but they're still ready to go again.

And go again they will Friday night when the Eastland SPIRIT moves to Clyde for an 8 p.m. District 2 - AA clash with

the potent Bulldogs.

Injury and illness plague the Mavericks, but Coach Dallas says he still sees that old Drive that makes the Mavericks winners.

THURSDAY ACTION

The Eastland Junior High will host Clyde Seventh and Eighth Grade teams here Thursday, for the last stanzas

of the year for the Dogies. Seventh kickoff will be at 5:30 and the Eighth at 6:45. (Schedule shows the Junior Varsity to be going to Clyde Thursday, but not so; they'll be playing the Mavericks in Clyde Friday night, Coach Dallas says.)

Clyde got beat by Comanche last week, but the Clyde team is

a ball mover with a fine back field with perhaps the No. Two and No. Three Backs in the district in Chipononi and Dunn, Dallas says. "They'll sweep and use power plays," he says, "and they've got a lot of people to call on."

Comanche and Coleman are tied, and Comanche rests this week in preparation for the final in Eastland on the 14th with the Mavericks. Eastland with the right support could easily be a district decider, and a win over Clyde would set the stage, so the Mavericks are ready to put together an upset, the likes of which they're known for.

Constitution Vote Down

"No, No, 21,874 Times No.!" That's how many times Eastland Countians joined their fellow Texans in voting down the proposed Constitution Tuesday.

Actually only 2,964 countians voted, but the ballot offered eight yes and no choices. In all, throughout the county there were 1,578 for votes.

Each of the eight propositions failed in every precinct, by whopping margins in nearly every case.

Guesses are that there are probably 8,000 eligible voters in the county, so less than half turned out to help decide the important question.

Texas vetoed the new document in the big cities and in the small towns. Guesses were that points like Houston and Dallas might go for the change, but returns showed even they voted against by margins of 2 to 1 and 3 to 1.

Vocal i opposing the Constitution change were Gov. Dolph Briscoe, Sen. Tom Creighton and the Eastland County Bar Association.

Turkey Shoot Set Saturday

Eastland Rifle and Pistol Club invites the public to a new range located on the Eastland Airport Property north of town. The club has invested and built an up-to-date modern facility featuring an automatic skeet machine and benches for rifle shooting 100 and 200 yard targets.

The club will be holding a turkey shoot Saturday, November 8, at 10:00 a.m. throughout the day. Frozen turkeys will be given away for winners of various competitive shooting events. So unlimber your "shootin' arms" and come win a turkey for Thanksgiving and tune up for the Deer Season.

County Tax Revenue \$2,141.16

Comptroller Bob Bullock recently reported that more than \$2.7 million is being sent to 188 counties and 297 cities across Texas as their share of the mixed drinks tax for the July-September quarter of 1975.

The share to cities is 15% of their total tax collected in each city and the 15% to the counties represents tax revenues for drinks sold outside any city's limits. The remaining 70%, \$6.5 million for this quarter, goes to the state general revenue fund.

The tax is 10% on all gross receipts.

This quarter's total local share was up slightly from the second quarter's \$2.5 million paid out, Bullock said. The \$9.2 million total tax receipts for the third quarter represented the 18th consecutive quarter that the total tax receipts increased.

The collection of the tax is administered by the Texas Alcoholic Beverage Commission.

The County Tax Revenue for Eastland County is \$2,141.16 with the County's 15% Remittance being \$321.17. The total city tax revenue for Eastland is \$482.74 with \$72.41 being the city's 15% remittance. Cisco's city tax revenue is \$807.60 with \$121.14 being the city's 15% remittance.

Governor Briscoe Approves Grant

AUSTIN - Governor Dolph Briscoe announced his approval of two grants, totaling \$42,226 to the West Central Texas Council of Government for continuation of regional law enforcement improvement projects.

The money comes from the Criminal Justice Division of the Governor's Office. CJD administers the state's block grant from the Law Enforcement Assistance Administration under the Crime Control Act of 1973.

A \$25,316 grant is for continuation of the WCTCOG law enforcement teletype network, which provides 21 law enforcement agencies with rapid access to computerized criminal information at state and national levels. Increased conviction and clearance rates, and rapid identification of stolen property are anticipated results of the project's continuation.

A second grant, of \$16,910 will continue the WCTCOG law enforcement training academy. Two 240 hour basic training courses, and at least 10 special courses will be offered to law enforcement officers from 19 counties. Texas A&M Police Training Division will instruct the basic courses, while the special courses will be taught by local instructors.

Survey Of Income Tax Bracket

NEW YORK - Because most Eastland County residents are earning more than they did in other years, and because more women are working and bringing home paychecks these days, many local families have moved into higher income brackets.

To the extent that the added cash helps them to cope with the never-ending rise in the cost of living, it is a good thing. To the extent that it puts them into more costly tax brackets, it is bad.

Some local families, whose earnings had previously been below \$8,000, have graduated to the \$10,000 and over level. Their former spots have been taken over, in the progression, by those who had been receiving less than \$8,000.

Just where they stand, currently, is brought out in a copy-righted report issued by Sales Management. It details, for every section of the county, the percentage of families that fall within each income bracket.

In Eastland County, it shows, 41.4% of the local households had disposable incomes in the past year, after payment of their personal taxes, of \$8,000 or more.

Drivers License Office To Be Closed Nov. 11

The Drivers License Office will be closed Tuesday, November 11, in observance of Veterans Day.

The purpose of the survey was to gain a better understanding of each community's purchasing power than was revealed solely through its average income figure.

It shows whether there are a small number of high-income families making up for a large number with small incomes or whether earnings are more equally distributed.

The breakdown figures for Eastland County show that 17.0 percent of the families had after-tax incomes of \$5,000 to

\$8,000 in the past year, that 9.8% were in the \$8,000 to \$10,000 bracket, 18.2% at the \$10,000 to \$15,000 level and that 13.4% had incomes above \$15,000. The remaining families had \$5,000 or less left after taxes.

Because the survey takes into account only cash income, it does not do full justice to farm communities, where income-in-kind and lower living costs are important factors, it is noted.

Although incomes have been on the rise for most Americans, so have living expenses. Nationally, there was a net loss of nearly 5% in buying power last year.

Dear friends,

A man told us of attending the funeral of his friend's father. Later the friend said to him, "It may sound strange to use the word happy, but there really was a kind of happiness in seeing you - nothing to do with being comforted, it was just that I was so glad you were there." He added, "I've been to many funerals, but I never knew until now how important it was to go."

Respectfully,

The Speaker Reports

by Bill Clayton
Texas House of Representatives

AUSTIN--When Texans go to the polls Nov. 4 I know they want to know as much about their new constitution as is possible.

Most have had the opportunity by this time to read and hear quite a lot about the proposed charter.

But, I have found many have been given only partial or false information about many areas of the document.

For the last two weeks I have made an effort to answer some of the more serious charges and present both sides of each question.

I would hope the following discussion on those questions will give voters a better perspective when it comes time to ballot.

1. Opponents say granting voting rights to ex-felons in the new constitution is a sign of permissiveness.

A. In reality, it tightens the strings attached to convicted felons being able to vote. The Legislature presently has authority under Article 6, Section 1 of the constitution to set any degree of restrictions it desires, even less stringent than those now imposed.

There is a shift in emphasis in the new constitution. No person convicted of a felony and who is in jail, on parole or on probation can vote. After the debt to society has been completely paid then voting rights are restored, but additional restrictions can be imposed.

The Legislature actually is more restricted in the new constitution in that it cannot allow a convicted felon to vote unless his debt is paid in full.

2. Opponents charge that under the new document the Legislature can abolish the Railroad Commission.

A. Anti-revisionists say this is one of the most 'ridiculous' things about the new constitution. If that's the case then the present constitution is also ridiculous because the commission could be abolished by the Legislature.

Article 16, Section 30 of the present constitution does not present a clear charge for a railroad commission. The present constitution only gives the legislature power to create a commission. It means we could wipe out the commission by passing a law, because what the Legislature has the power to create, it has the power to destroy.

3. Opponents charge local tax equalization boards would be abolished under the new constitution.

A. The only change in the tax equalization board is that the requirement that the county commission serve as a board of equalization would be deleted under the new charter.

The role would remain the same as presently under Article 7206 of the state's statutes. To do away with the

equalization board we would have to repeal the law. It could mean that instead of having an equalization board for every taxing organ in the county, that function could be combined under one local board.

4. Opponents are saying special purpose tax districts would proliferate under the new constitution.

A. The only special districts that will be created will be those the people within boundaries of a potential district want to have created.

While cities might create the districts on their own accord, no taxes could be levied unless the voters specifically approved the tax rate. Any debt that a special district creates must be approved by voters, too, along with the taxes necessary to retire that debt.

5. Opponents are saying a legislative salary commission will mean automatically higher salaries for legislators.

A. A thorough study indicates it would not mean salaries any greater than those the voters themselves want legislators to have.

The nine-member appointed commission would recommend salaries and keep a lid on allowances. Legislators could not approve any salary or allowance above the recommendation of the commission. It could approve a lower figure if it so desired.

Legislators' allowances are currently decided strictly by the legislators. Our new document removes this authority from the Legislature and puts it in the hands of the independent salary commission.

Before any salary or allowance hike could be approved, the members of the Legislature who voted for it will have to face a general election. It means if the salary is at a high level, voters will have the opportunity to

show their disapproval by voting those legislators out of office and sending to Austin replacements committed to a lower salary level.

6. Opponents of the proposed constitution charge the welfare ceiling would be eliminated and seriously affect the state if the new charter is adopted.

A. This is a furor over very little. The present \$80 million "ceiling" applies only to direct assistance grants for needy elderly, blind, disabled and families with dependent children.

Since 1974 the federal government has paid for the three adult categories. The state's only outlay is to assist families with dependent children. That does not begin to approach the ceiling. It is less than half.

In 1969, voters in a constitutional amendment election gave the Legislature authority to change that amendment at any time necessary so no federal funds would be lost. In effect, the ceiling means little.

7. Opponents say the new constitution gives the Legislature more power over our lives and businesses.

A. In the old constitution it specifically delegates law-making authority to the Legislature 330 times. In the new document that authorization is spelled out only 143 times.

The Legislature is going to have considerable power because it is the basic rule-making body in our society. However, there are at least 35 instances where the Legislature has new limitations placed on it that are not in the present constitution.

The new restrictions are imposed here previous experience has indicated that limitations are necessary; and increases authority where experience has shown that flexibility is needed.

8. Opponents are calling the Nov. 4 election an all or nothing election.

A. Voters can vote for or against each proposition on the ballot individually. Voters can pick and choose what they like and discard what they don't.

There are eight propositions on the ballot. All but proposition one

contain only one article each. Any of the eight can pass or fail without consequence to the others.

Find out how each of the propositions will affect you and your community. Then on election day vote your convictions.

WASHINGTON, D.C. - WISHPUL TTHINKING SELDOM PAYS off but there are indications that political and economic conservatism is manifesting itself across the Country to a greater degree than has been the case in recent years.
AT THE MOMENT IT IS WIDENING THE BREACHES IN both political parties. In the months ahead this division may become more evident and highly visible.
NATIONALLY, MOST LIBERALS CONTINUE to talk in favor of big government, bigger spending, with no turning back. But some liberal Governors and Mayors are seemingly beginning to respond to public sentiment against massive bureaucracy, uncontrolled deficit spending, and government intervention.
ONE EXAMPLE RECENTLY SURFACED WAS A STATEMENT of the Governor of Wisconsin, a liberal in an historically liberal area. He said, "We are beginning to recognize that there are limits

AS MENTIONED IN THIS SPACE LAST WEEK, THE PRESIDENT has thrown out a challenge which this Congress cannot ignore. The procedures for reaching the goal of reducing taxes and cutting Federal spending by an equal amount, are admittedly a problem but a lot of people want it done. Maybe the Congress is getting the message. Reduction in expenditures should come first and then a tax cut but this is not the specific point here. The point here is - have we reached the time when people are ready to choose between more government spending and high taxes or less spending and lower taxes? The issue might even more dramatized by the question as to whether we want independence - freedom - the right to choose - or a paternalistic government heading to a socialistic system.

IF THIS FORMER PROPOSITION DEVELOPS across the Country there may well be a clear issue in the elections next year - the competition could be over which candidate and which party can best be trusted to carry out such a policy.

Records Necessary

Many people are not aware of when they should file for social security benefits and what they should bring with them, according to Glyn Hammons, Social Security District Manager in Abilene.
Persons who wish to file for retirement benefits should file their claim three months before the month they want their first check to start. They should also bring with them the following things: their social security card, a record of last year's earnings, and a record of their age or date of birth.
For those who do not have a birth certificate, some records to consider are the old family Bible, a census record, school records, voter's record, marriage record or a child's birth certificate.
Hammons further stated that, "A record of last year's earnings is needed in many cases due to the length of time it takes to get earnings credited to a person's record. A self-employed person should bring a copy of last year's tax return; a wage earner should bring last year's Form W - 2. In addition, if a person filing has any unmarried children under age 18, between 18 and 22 attending school, or disabled, he should furnish the children's birth certificates.
Hammons stressed that early filing can save time and assure the individual of a better chance of getting that first check on time.
The Abilene office is located in 142 S. Pioneer; office hours are 9 a.m. to 5 p.m., Monday through Friday. If you do not live in Abilene, check at your local post office for a schedule of social security visits by a representative of the nearest social security office.

AUSTIN - Railroad Commissioner Ben Ramsey's decision to step down at the end of his present term Jan. 1, 1977, assured a wide open race for his position next year.
A large field already is forming.
Ramsey, 71, took many by surprise with the announcement he plans to return to law practice in San Augustine in a little more than a year.
His public service career dates back to 1931 when he first entered the House of Representatives. He served six terms as lieutenant-governor--longer than any Texan.
State Rep. David Finney of Fort Worth, Houston attorney Terence O'Rourke and Walter Wendlandt, an Austin attorney and former Commission division head, are announced candidates.
Secretary of State Mark White Jr. said last week he is seriously considering getting in the race. White is an appointee of Gov. Dolph Briscoe, and speculation favored him to replace Ramsey if the incumbent stepped down before end of his term.
Other possible contenders for the Commission--which regulates Texas oil and transportation industries--are Texas Legislative Council Executive Director Robert E. Johnson and State Rep. Lane Denton of Waco.

million for the last quarter, remains with the state general revenue fund.
COURTS SPEAK
The State Supreme Court upheld a Texas Alcoholic Beverage Commission ruling that a dry justice precinct remains dry even when the county around it votes wet.
In other recent opinions, the High Court declared:

- The son of a slain father must divide benefits with an "adopted son" who was never legally adopted.
- A \$43,400 judgment for the state in an air pollution case against a roofer must be erased and a new trial held.
- Killeen's moving, zoning and licensing ordinances are legal.

AG OPINIONS
A county judge is authorized by statute to reject competitive bids on county goods or supplies below \$3,000. Atty. Gen. John Hill stated.
In other recent opinions, Hill concluded:
•The Governor's desk calendar is not public information. Neither are notes on his appointments, but his flight log is.
•County law library fee may be taxed as costs in all probate proceedings except an action brought for the purpose of confining a person of unsound mind or a habitual drunkard.
•A small city can't pay a deputy sheriff to serve as town marshal.
•Harris County constables elected immediately following a redistricting of precincts in 1973 must stand for election in 1976 under the state constitution.

Lawyer Policies Due
State Insurance Board members are considering a new type of policy covering attorney's fees.
The State Bar and agents' representatives requested approval of a plan authorized by the 1975 Legislature. The Board must approve guidelines.
The Bar is prepared to distribute group policies through a non-profit corporation, a staff member stated. Insurance Company of North America and American National Insurance Company have applied to the Board for authority to sell the coverage. Fees are expected to run \$5 to \$7.50 per month for such coverage as wells, deeds, advice, defense against traffic charges and domestic cases.

Minority Gains Few
A state legislator claims state agencies have made no progress at finding jobs for blacks, Mexican-Americans and women.
Rep. Paul Ragsdale of Dallas said the number of black employees in 38 agencies increased only four-tenths of one per cent in the last year, the number of Mexican-American workers 1.1 per cent, and the number of women 3.7 per cent.

Tax Distributed
More than \$2.7 million is being remitted to 188 counties and 297 cities as their share of mixed drink taxes for July-September.
Cities get 15 per cent of the total tax collected in their boundaries, and counties 15 per cent. The remaining 70 per cent, \$6.5

Briscoe cited a 1975 law which required that such projects have approval of the Coordinating Board, Texas College and University System.
Attorneys for Jessen said court guidance is necessary to settle the issues for state officials and governing boards of all state universities.
Debate Rages On
Voter interest in the great debate over a new state constitution doesn't match that of ardent proponents and opponents.
Checks with key election officials over the state indicate a low turnout in the November 4 constitutional revision election, unless there is a dramatic pickup in citizens' concern during the last week of the blistering campaign.
Oil Allowable Set
For the 44th month, the Texas Railroad Commission set the oil allowable for November at a wide-open 100 per cent.
Production is running an average of 113,047 barrels daily less than in 1974. Imports averaged nearly 4.6 million barrels a day, during a recent four week period, which amounts to an increase of 824,000 barrels from early this year.
As a waste control measure, allowable for the East Texas field was limited to 86 per cent production.
Beach Force Named
Atty. Gen. John Hill appointed a "Beach Task Force" of five assistants to work with coastal county officials to assure open, clean and safe beaches.
Hill said his office is making a detailed survey of environmental protection needs on the Texas coast.
The five assistant attorneys general will be assigned to Jefferson and Chambers counties; Galveston county; Brazoria and Matagorda counties; Calhoun, Aransas, San Patricio and Nueces counties, and Willacy, Cameron, Kleberg and Kennedy counties. Attorneys from the Environmental Protection Division staff in Austin, Houston, San Antonio and McAllen will also be involved.
Session Feared
House Speaker Bill Clayton said banning school fees may cause a special legislative session.
Clayton referred to a recent attorney general's opinion that schools cannot require students to pay fees for driver education, workbooks, lab materials, band uniforms and other items unless the legislature authorizes the charges.
"This will put some of our school districts in a financial bind, and we may need a special session to help them out," the speaker said. "But I hope they can make it until 1977."
Clayton emphasized he is not "beating the drums for a special session."
Courts Speak
Only landowners who show 51 per cent of their income comes from farming or ranching are entitled to a constitutional agricultural tax exemption, the Supreme Court held.
Court of Criminal Appeals overruled a district court's order setting bail at \$75,000 for an Odessa man accused of killing his ex-wife.
The Supreme Court upheld a damage award to a Houston man who had money taken from his account by a bank to cover a loss from a forger's having signed his name on the back of a check.
The High Court affirmed a \$205,095 medical malpractice award to a Jasper man. In another malpractice suit, the Court upheld lower court rulings which rejected a charity patient's suit against three Houston doctors.
An Austin widow's suit claiming her husband's fatal heart attack was the result of shock from losing his city job was rejected by the Supreme Court, denying the workman's compensation benefits.
AG OPINIONS
Where a Teacher Retirement System member is murdered by his beneficiary, no benefits should be made until a constructive trust has been imposed by court order, Attorney General Hill held.

Fellowship To Meet Saturday

This month's meeting of the Full Gospel Business Men's Fellowship Meeting will be at 7:30 p.m. Saturday, November 8, at the Women's Club Building on Plummer Street.

We have two speakers this month. The first is Steve Henton, a pastor of the First Christian Church (Disciples of Christ) in Paducah, Texas. He graduated from T.C.U. with a B.A. and from Brite Divinity with an M. of Divinity.

Steve, 28 years old, relates how he wrestled with the intellectual dilemma and the Christian faith, nearly deciding to go into teaching philosophy. It was at that time that God intervened, filling him with his Holy Spirit, and confirming his calling with a flow of miracles in his ministry.

He ministers to the Paducah area with a weekly 30 minute TV program.

The second guest speaker is S. Clay Henton, from Arlington, Washington. He will briefly share his testimony. He is a born again Christian, and filled with the Holy Spirit for 45 years. He went around the world in 1968 witnessing for Jesus, with 18 others of the F.G.B.M.F.I.

Hunters Warned Of Rattlesnakes County Pigeon Club Races

SAN ANTONIO--A veteran reptile authority here suggests that hunters and others who frequent the outdoors learn to avoid rattlesnakes by knowing their habits.

Joseph Laszlo, head of the San Antonio Zoo's reptile garden, says rattlesnakes have set patterns of activity, which can be anticipated, depending on the weather, time of day and season of the year.

He points out rattlesnakes take to cover during extreme hot and cold weather, but can be expected to be on the move at any time of the day or night when the surface temperature ranges between 70 and 88 degrees.

Laszlo cautions laymen to be especially alert in the early evening when the sun goes down, the rattlesnake's favorite time to search for food.

He warns that even when not moving rattlesnakes still may be encountered, particularly in dry country, lurking under cactus, Mesquite bush or tree, in high weeds or grass, behind a fallen log, in a roadside ditch, fence line, hedgerow or on a rocky ledge.

"Hikers and others who find it necessary to walk in these places should wear stout leather boots, knee-high leggings or snake-proof pants, and should never sit or climb without first checking the area carefully", Laszlo suggests.

He recommends that hunters use a flashlight in going to and from their deer stands in the early morning before daylight and in the evening after dark.

He also notes that where rats, mice and rabbits are plentiful, it is almost certain rattlesnakes will be in abundance, too.

Despite every precaution, a number of unwary laymen become snakebite victims every year. Fortunately, a San Antonio physician and surgeon has pioneered a new technique for first aid in the field, using crushed ice over the wound in place of the more painful "cut and suck" ordeal.

The ice cools the venom, without freezing the injured member, and slows down the poison until the victim can be brought to a proper medical facility.

The new first aid measure, which has been popularized by San Antonio's Emergency Medical Services technicians, has led to the introduction of a new first aid kit, named "Snake-bite Freeze", which contains chemical ice packs for use where ice is not always readily available.

The kit, which can be stored in hunting vehicles and camps, now is available at pharmacies, sporting goods stores, farm and ranch outlets or from Amerex Laboratories, 307 Nakoma, San Antonio, Texas, 78216.

Thoughts

From The Living Bible

"(Inside the Tabernacle), make a veil from blue, purple, and scarlet cloth, the fine-twined linen, with cherubim embroidered into the cloth. Hang this upon four acacia pillars overlaid with gold, with four golden hooks. The pillars are to rest in four silver bases. Hang the curtain from the hooks. Behind this curtain place the Ark containing the stone tablets engraved with God's laws. The curtain will separate the Holy Place and the Most Holy Place. Now install the mercy place—the golden lid of the Ark—in the Most Holy Place.

BREAD OF LIFE

My soul, wait thou only upon God. Psalm 62:5

Thou art our Counsellor, Our Pattern and our Guide, And Thou our Shepherd art; Ah! keep us near Thy side.

In The Kitchen

BY DINAH WILSON

One of the most important parts of an organized kitchen is your food inventory. You know how aggravating it is to begin preparation of a meal and at the last minute discover that you don't have a particular item to complete your meal. You might as well count on a delay of at least half an hour while running to the store to pick up what you need. You also might as well count on spending at least \$5, because who can go to the store for less than \$5 these days?

In an effort to become more organized, we must first think about the best arrangement for our cupboards. In your mind, set a plan for arranging your food supply where it will be most convenient for you to find and use. You should place your most used items in the most convenient spots, and the least used items out of your way.

Provide a special place to store every item in your cabinets. Have your canned goods arranged in order of variety, i.e. peas, beans, fruits, soups, sauces, etc. When you do this, you can tell at a glance if there is something needed.

You not only store food in your cabinets, you also store food in your freezer and refrigerator.

Letters TO THE EDITOR

Dear Editor:

Who says nobody cares any more? Our local editor H.V. O'Brien cared enough to state publicly that he was against the proposed new constitution.

Jay Staggs at radio station KERC cared enough to urge people to vote and gave voting locations over and over.

District Attorney Emory Walton and Attorney Mike Siebert cared enough to seek out crowds and travel at their own expense to speak on the evils of the new Constitution.

To each of you, a big "thank you" from a grateful voter.

Mmes. Iris Reed, Lucille Furr and Ada Wright visited Mrs. Vina Marsh of Cisco last Thursday.

You need to keep these storage areas clean and organized too. Again, just a glance will tell you when your cold food supply is diminishing.

Keep a pad and pen handy at all times. When you notice an item needs to be replenished, jot it down. When you keep an accurate account of your food inventory, you will soon find that your short trips to the store will soon become a thing of the past.

Your kitchen is just like a business. You must maintain an inventory, replenish your supplies, and manage it carefully, if you want to show a profit. Your profit will not only be in the dollars you save by careful planning, but also the ease with which your business operates.

UNTIL NEXT TIME

Wynelle Catlin To Autograph "Old Wattles"

Wynelle Catlin will autograph copies of "OLD WATTLES" in Sanders Book Store, Westgate Mall, Abilene, Saturday, Nov. 15, 2:30 to 4:30 p.m.

Wynelle Catlin of Jacksboro, author of Old Wattles, released by Doubleday September 5, was born July 29, 1930, in Jermyn, Jack County, daughter of

George and Dovie Powell Smith. She was one of seven children.

She lived on Jack County farms except for short periods of time. Mrs. Catlin graduated from Jacksboro High School in 1947. She married L.E. Catlin Jr., who has worked in various oil field activities over much of the southwest. They have four children and one grandchild.

For 10 years she worked for Jack County Herald. She was director of the day care center for seven years.

Mrs. Catlin began free lancing five years ago, using colorful area history. Sales include: The Cattleman, This Is West Texas, Today's Family, Great West, Texas Farmer-Stockman, Texas Co-Op Power, The West, Frontier West, Old West, Golden West, Horseman.

Juvenile short stories were sold to: Junior News, Friend, Story Friends, Roadrunner, Kindergarten, Explore, Grit, Discovery, Listen, Misc. to Today's Christian Mother, and Family Digest.

OLD WATTLES is a children's book portraying Texas

farm life at the turn of the century. Characters and plot are fictional but setting is grandmother's log cabin home still standing in Jack County. Story is based on way of life during mother's childhood.

The plot revolves around Eleanore, a little girl who has to follow a contrary old turkey hen, Old Wattles, to find the nest and get the eggs.

Second printing was neces-

sary third week after release.

Agent is marketing other books with area historical settings. The author is now writing a book using the oil boom days of Ranger as background.

The Catlins lived in Cisco in the late 50's, where her husband was employed by Johnson Testers. He has also worked as driller on rigs in much of the area.

She had a Brownie Scout troop while in Cisco.

Dr. Robert Morton Speaks On Cancer Patients To Service Clubs

Pleading for understanding for cancer patients this week was Dr. Robert Morton, vice president of the Texas Cancer Center and vice president of the Health Science Center, both in Houston.

Guest speaker for members of the Eastland Rotary Club Monday, and the Lions Club Tuesday, at the Ramada Inn, Dr. Morton, well-known to Eastlanders, especially urged that patients be given the opportunity to live normal productive lives.

"So often," he explained, "patients who are undergoing treatment, and those who have their disease 'arrested' are given undue amounts of sympathy when what they really want and need is ready acceptance to be treated like any other ordinary person, which they are."

Ben Hamner arranged for the Rotary program and introduced Dr. Morton. President Ken Reese presided and guests included Mrs. Tip Arther, H.V. O'Brien, Mike Siebert, Milton Krause and Jim Reynolds.

Bruce Pipkin was Lion program chairman and introduced the speaker. Guests were Ken Mahall and David Bryan, both of Abilene and Bill Richardson of Commerce.

Dr. Morton explained the Center, stating that the best-known facility is the M.D. Anderson hospital (which has a 300-bed capacity and operates at 98 per cent capacity), but that the Center also includes an important research center at Smithville where important and very promising work is being done.

There've been 112,000 patients treated at Anderson, he said, with 99,250 being analyzed as one of some 95 different types of cancer. Twenty five percent of these have been operated and found to be benign (non-malignant) tumor, he explained.

"Our present average is 42 percent cured," he said, and the center has researched some 10,000 drugs, finding about 40 which are being used beneficially.

One drug under consideration was found to be helpful in many treatments in use during the recent S. Vietnamese War, he explained.

Another drug is proving to help cure some 97 percent of cancers occurring in young mothers following child birth. A new Swedish medical expert is now at the hospital

leading in a program of marrow transplants which offers bright hopes, Dr. Morton said.

It's primarily a Texas institution and out-of-country patients are required to make a \$500 deposit with out-of-country patients asked for \$1,000 deposits. Of the patients, 13.6 percent pay full hospital costs and 32.3 are treated free by the hospital.

Using slides and a brand-new film, Dr. Morton showed many cases of treatment and recovery in his appeal to help dispell the inherent fear that accompnys the disease. The film shows, in simple diagram, how cancer is a cell mutation (one that goes haywire and doesn't function normally), and that the most important tool is early detection.

Time and again patients showed that by responding quickly for examination and treatment, that full recovery was possible.

The new film will be made available throughout the state to show the importance of understanding the disease and the hope that exists for patients - if they respond quickly.

Survey Complete

Shirley B. Cawyer of Stephenville has completed a survey of cemetery inscriptions in Eastland County.

Mrs. Cawyer copied all names, complete dates and nay relationship listed on 22,500 tombstones. Her survey included 77 cemeteries in Ranger, Gorman, Eastland, Cisco, Rising Star and Pioneer.

The inscriptions will be printed in three volumes, each containing about 230 pages plus an index. The books will then be placed in genealogical libraries throughout the United States.

Mrs. Cawyer and Weldon Hudson of Fort Worth, past president of the Fort Worth Genealogical Society, catalogued and published 92 cemeteries in Erath County in 1973.

The Stephenville woman requests information on the location, names of people buried and completed dates for the following cemeteries: Downtain, Jordan, Sutton, McBroom, Basham, Booger Mountain, Baseline, Morgan, Big Sandy, Indian Mountain, Bacon Rancho and other lone graves. Her address is P.O. Box 164, Stephenville, Texas 76401.

Mr. and Mrs. Roger Van Weber of Greenwood announce the birth of their daughter Monica Jane, November 3, 1975, in the Decatur Community Hospital.

The baby weighed eight pounds and five ounces and was 20 1/2 inches long.

Grandparents are Mr. and Mrs. C.R. Weber of Decatur and Mr. and Mrs. Gene Boney of Eastland.

The paternal great-grandfather is Rudolph Weber of Bayonne, New Jersey.

Maternal great-grandmothers are Mrs. Jewell Boney and Mrs. Annie Harper, both of Ranger. Mrs. Dessie Harper of Tyler is the maternal great-grandmother.

Immunizations To Prevent Diseases

Each year many U.S. children die or become disabled from diseases they needn't have contracted, Carla Shearer, a health education specialist, says.

"Immunizations are readily accessible to prevent these tragedies. Diphtheria, pertussis (whooping cough), tetanus, polio, measles and rubella are diseases which can cause disabilities and even death, but they can be prevented through immunizations," Miss Shearer, with the Texas Agricultural Extension Service, The Texas A&M University System, said.

"When vaccines were first available, the incidence of childhood diseases dropped sharply. But as the effects of the diseases faded from people's minds, parents made

less effort to be sure their children were fully protected - so immunization levels declined."

The Texas Immunization Law requires that all children be immunized before entering school - but it's important to protect preschoolers also. This is the parents' responsibility since these youngsters aren't in school yet, Miss Shearer said.

She noted that reports show immunity levels among 1- to 4-year-olds are low enough to sustain substantial spread of disease, including outbreaks.

The Texas Department of Health Resources suggests that a child start his immunization series at 2 months of age by receiving DTP (diphtheria - tetanus - pertussis) and polio immunizations.

Suggested immunization schedule:

Basic Series
2 months - DTP and Polio
4 months - DTP and Polio
6 months - DTP and Polio
12 months - Measles and Rubella
15 - 18 months - DTP and Polio

Booster Doses
4 - 6 years - DTP and Polio
14 - 16 years - Td (Tetanus - diphtheria)
Thereafter - Td every 10 years

The specialist urged parents to check their children's immunization records. If unsure about the need for immunization, call the private physician or the county health department office.

Bobby Emfinger displays his snake hunting catch which he and another Eastlander, Kenneth Stroud, killed Saturday night near Pumpkin Center, south of Eastland. Emfinger said they waited on a small lane for the snakes to pass by, then shot them with 22 rifles. The total number killed was 38.
