

ON THE MOVE FOR A MAVERICK WIN Eastlander Mike Stutts has a firm grip on the ball at right moving toward paydirt, as Guard Arthur Gaeta,

NEVER LET it be said that you don't know when the seasons change in this part of Texas. Eastland Countians sweltered in dry heat from the first day of August with high temperatures and scorching winds, up through and including Thursday. But Friday, it turned fall. The mercury dropped from about 95 to the mid - 60's, clouds came, cool north winds came and late Friday night, rain fell on welcoming crops, lawns and heads. Prospects look good for dampness to continue through Sunday. . . Wearing apparel varied at the football game Friday night. Most came prepared. Some didn't; but nobody seemed to be complaining.

SCOUTS REPORT that fifth grader Kellar Neville, son of Mr. and Mrs. John Neville, is at home recovering satisfactory, following surgery this week. . . Pretty, pretty is the new painted front of the Freyschlag Insurance Agency on the north side of the square. Charles has doubled the size of his office, incorporating the building formerly housing the barber shop, and it sure is nice.

WACO . . The president of the Texas Farm Bureau has urged President Ford to call off his moratorium on grain sales to Russia. Carrol Chaloupka of Dalhart said the ban on grain sales is a serious blow to agriculture. Extension of the moratorium until mid October was announced by the President following a meeting with George Meany, head of the AFL - CIO.

"Farmers resent being used as pawns in a political chess game" the grain and livestock farmer said. "When agricultural markets are involved, we feel you should consult farmers, not the AFL -CIO. Labor union leaders do not feed this nation - - farmers and ranchers do.'

Chaloupka said farmers had responded with bumper crops to the government's request for all - out agricultural production to help that farmers had been promised access to world markets.

"Now with government stepping in to interfere with normal ales, we feel that we have been short - changed", Chaloupka said.

**UF '75 Gearing Up For Big Job Ahead** 

Eastland United Fund, 1975, is unlimbering, and making preparations for the work

ahead. In a continuing effort to involve as many people as possible, directors discussed a number of names to be considered for the board. Meeting Thursday afternoon,

officers for the 1975 effort were elected as follows:

Norris Starr, president; -Emory Walton, vice president; Richard Watson, secretarytreasurer; James Reid, assistant secretary-treasurer; Advance Gifts Division, H.T. Wilson, and Drive Chairman, Jim Wortman.

The directors tentatively set Thursday, Sept. 25, as agency screening day, and will urge all agencies interested in participating in the Eastland United program to be present Fund that day, with a financial statement of their past years operation.

Further it was agreed that each agency will be asked for the names of a number of its members who will be willing and able to assist directors teams in soliciting for the 1975 drive

## **Marvericks Demolish Bulldogs 35-20**

Two good neighbors, pretty evenly matched, paired off Friday night when the Eastland Mavericks hosted the Ranger Bulldogs in Maverick Stadium in the second game of the season, on the first real football weather night.

The Eastland fans came away happier, having seen their Mavericks outscore the visitors, 35-20, maintaining their perfect record to this point. Ranger roved to be the first to score on Eastland even back through the scrimmage period. And again the Eastland defense proved stubborn against the guests.

Coach Doug Dallas and his staff called on Mike Lewis to handle the signal calling details. He proved to be a scorer himself and repeatedly called on a ground-gainer. John Hill for yardage, and Mike Stutts for points as well as hitting Randy Wharton for more Eastland points

Eastland scored first but failed to gain the extra point and Ranger came back soon afterwards to put six on the scoreboard. The Mavericks scored once more before the half so the first half ended with Eastland in the lead.

Statistically Eastland lead too with 17-8 first downs; 230-122 yards rushing; 7 0-16 yards in the air; five for ten and three for six passes. Both teams lost fumbles a trio of times and penalties cost both squads almost equally: Eastland had five for 73 and Ranger, five for

Eastland got their first TD after Ranger fumbled the ball on about the May two yard line. May quarterback Mike Lewis took the ball and raced to the left side of the Bulldog line for the score. Early in the second quarter

of play Ranger got its first touchdown on a three yard plunge as Mark Lucky plowed his way in for the score to tie the game

Late in the second stanza Campaign Expenses, 50; and Eastland's quarterback found Randy Wharton open for a 15 yard touchdown pass and another May touchdown. Lewis again tossed a two yard pass to Wharton to give the Mavericks a 14 - 6 halftime lead. Following the halftime activities Ranger received the kickoff and began their series of plays on the 50 yard line. Three plays later Bulldog quarterback Manuel Hernandez gave the ball to Mark Lucky as he tried to run around left end when a May defender hit Lucky and sent him out of the game with a dislocated elbow Ranger was then forced to cough up the ball on a fourth down situation. Eastland took over on their own 40 vard line and lost the ball on a fumble. Ranger moved the pigskin four yards when Santos Hernandez took over the fullback position. However, the gains for Ranger was short lived when again a Mav defender picked off a Ranger aerial on about the 36 yard line. On the second down of the second series of plays, Eastland's Lewis gave the ball to halfback Mike Stutts on a 52 yard scamper and another Maverick touchdown. The extra point try by Ronnie Kirkpatrick was good.

Following the point after kickoff, Ranger's Sammy Childress took the ball and outran the Mavericks for a 74 yard gallop and a Bulldog touchdown.

As time was running out in the third quarter of play, the Mavericks were on the Ranger 36 yard line when again Mav QB took the ball and on a keeper raced to the left side for 36 vards and a touchdown. The point after kick by Kirkpatrick was good and the third stanza ended with the score of 28- 12 in

favor of Eastland.

Ranger recovered an Eastland yardage and a touchdown. A conference duel two yard pass from Hernandez to Danny McNabb was good. With seconds left in the game Eastland got its final touchdown on a one yard run when Lewis kept the ball and ran in

for the score. Again the extra

point boot by Kirkpatrick was

good to make the final score Midway of the final quarter 35- 20 for Eastland.

For the first time this year, fumble on about the Mav eight the Mavericks move out of yard line. On third down, town, going to DeLeon next Bulldog halfback John Lebredo Friday night to do battle with hit the line for the necessary the Bearcats in another non-

that the documentaries can be a permanent feature of past time entertainment for the parts of the World Wednesday residents of Northview, as it helps them keep in touch with week when two Eastland high the outside world.

Appreciation was also expressed by the Administrative Staff of Northview Nursing Center to school officials for the use of their projector for this 'most worthwhile project," Mrs. Nix said.

**High School** Hill To Be Landscaped

The Eastland School Board has tentatively agreed to have the southwest and northwest area of HIgh School Hill landscaped and resodded.

The program will have to be approved by the West Central exas Council of Governments. If approved, the landscaping would begin in the spring and would take two years to complete.

The landscaping would be an erosion control program and the federal government would finance 75 percent of teh cost with the school paying the rest. The school's share would be about \$7.000 school board president James Reid said.

New grade school teacher. describing her first day in class: "It was like trying to hold 35 corks under water at the same Pottsville Defeats Carbon

The Pottsville Bobcats tore up the Carbon Wolverines 66 to 20 in six-man football in Pottsville Friday night.

Scoring for Pottsville were Tim Cooper on three runs and Ricky Weidebusch on a five vard run. David Jeffers made five touchdown passes, hitting Cooper twice, Kelly Johnson twice and Weidebusch once.

Carbon scored their 20 points on three runs and a two-point conversion. 12 14 20 20--66 Pottsville

## HD NEWS

By Janet Thomas County Home Demonstration Agent

The Home Demonstration Clubs will sponsor the concessions at the Senior Citizens' Bazaar on Oct. 3 and 4. The clubs are working to have an abundance of good food available

Homemade stew and cornbread will be sold for \$1.00. Pies, cakes and other delicious baked products will be sold during the two-day Bazaar. Proceeds from the sales will

go to help finance the purchasing of the courthouse directory and other projects.

The State Texas Home Demonstration Association meeting will be held at the Civic Center in Abilene this year on Sept. 23 through the 25th. Representing Eastland County at the state convention as voting delegates will be Mrs. Sue Taylor, Lake Cisco H.D. Club; Mrs. Ellen Reddicks, Flatwood H.D. Club: and Mrs. Ruby Bond, Morton Valley H.D. Club. Alternates are Mrs. Ernest Schaefer, Word HD. Club; and Mrs. T.L. Hale, Pleasant Hill H.D. Club.

Home Demonstration Club leader training program for club program leaders will be presented on Tuesday, Sept. 16, at 2 p.m. in the Extension Office. basement of courthouse. The program will be "What's Afoot n Carpet Care" with emphasis on carpet care and cleaning. All club program leaders are urged to attend the program and receive teaching materials.

Program leaders from other dark place. clubs are always welcomed to attend training programs.

Some bright decorator colors so popular now are faster faders than others--and consumers can minimize sun fading by careful selection.

Whether in drapes, carpets or furniture, primary colors--pure red, yellow and blue--don't fade as fast. They only get lighter in

But mixed colors--variations of orange, purple, and green-may change color completely, because one of the component colors fades faster than another. And fuschia and turquoise are two of the fastest faders.

according to research studies. Considering fabric types in relation to fading, the solutiondyed synthetic fabrics don't fade too much because the color is "locked in" while the fiber is still in a liquid state. Also, woven fabrics are Ranger

tinuing education programs for - - District department personnel for Engineer Lawrence E. Schulz many years. TTI also works on and District Designing joint research activities in Engineer John M. Arthur have transportation with the department

The workshop attended by Texas' public transportation Schulz and Arthur included classroom work, a tour of Waco transportation facilities and discussions with the operators of the Waco system. The conferences provided them with up - to - minute information on technology available, an overview of federal programs, and date and methods needed in transit planning and evaluation criteria.

TTI has conducteother workshops for department executives in the major Texas urban areas and in smaller The transit conference was urban areas. Another is

If you work for yourself, work at a small firm, or work for a large corporation, there's a new law that could save you a lot of money. Here's how: if you're not currently participating in a qualified retirement plan (most Americans aren't), you can set up your own Individual Retirement Annuity. Contributions to your annuity, up to \$1,500 a year (or 15% of your earned income, whichever is less) are fully tax deductible. 100% of your I.R.A. is subtracted from your gross income when figuring taxes.

It's like giving your own money to yourself. And deducting it, instead of paying taxes on it as usual. Some call it a tax shelter.

Your Southland Agent can answer any questions you may have. Send him this coupon . . it'll be to your benefit. Next year, and every year 'til retirement.

### **Big Country REACT Announce Changes**

Big Country area CB Radio operators have good news in the form of new, more relaxed operating rules from the Federal Communications Commission. According to Big Country REACT Team, the changes, effective Sept. 15, 1975, are intended to simplify operating procedures and make it easier for every CBer to operate in full compliance of FCC rules.

The Big Country REACT team is an organization of dedicated volunteers providing emergency communications using Citizens Two-Way Radio. It is affiliated with REACT International, Inc., an independent non-profit public service organization, headquartered in Chicago, Ill.

**REACT** Team President Albert Honea pointed out, "The major objective of the changes is to encourage operators to identify themselves by using the FCC assigned call sign. The following summarizes the most significant changes, and interpreted by REACT International Headquarters:

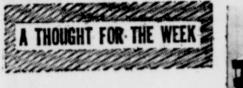

1. Restrictions on the contents of transmissions are greatly reduced. Prohibitions of hobby communications are removed. What this means is that the Commission will not be enforcing rules regarding what a person says on CB except profanity, playing music, sel-

ling merchandise, etc. This is a highly significant change designed to eliminate the fear of identification. No longer will discussion of equipment; radio checks or "chit-chat" result in violation notices. Transmissions in excess of 150 miles ("skip") continue to be illegal. 2. Now any licensee can call

any other licensee on any channel. 3. Channel 11 becomes an

official call channel. This is for calling and contact only.

now required only for your own call letters and you do not have to state the call letters of the party to whom you are speaking. This is to encourage

### MONTY HOWARD

How often do you express a doubt? How often do you have doubts about your abilities or doubts about other people? It is healthy and wise to have doubts at times about certain things, but when doubts become chronic and cloud simple reasoning, then doubting has deteriorated to a sickness of skepticism.

We see men of poise and serenity; we see them with all the trappings of faith and dignity and we doubt whether these men ever have a doubt about anything. They seem so sure of themselves. But they too have doubts at times.

To doubt is only human. This was true from the days of the Psalmists to and through the days of Thomas and is true today. When we find ourselves gripped with uncertainty, we are bound to have doubts. But promiscuous doubting should not be

Doubts torment us only because we have too little faith. This is true whether it applies to people, science, religion or anything else. Obviously then, the best way to reduce doubts is to increase faith. Sounds simple? It is.

### **ARRINGTON FUNERAL HOME**

all operators to identify property using call letters. "Handles" may be used in addition to call letters. 5. Length of transmission

time is retained at five minutes, but the interval between transmission is reduced from five minutes to one minute. 6. Relaying communications

for others is now permitted. The length of the relay is limited to no more than the 150 mile distance from the origin of communications.\$ 7. Antenna height restrictions

now apply equally to receiving antennas as well as transmitting antennas

Channel 9 continues to be reserved for motorist assistance and emergency communications. With Channels 9 and 11 reserved for emergency and calling purposes, respectively, the wide spread use of Channel 10 by truckers and other moving vehicles is inadvertently interfering with operations on Channel 9 and will interfere with the calling procedures on Channel 11. The FCC specifi-

cally "recommends that Citizens Radio users or members of 4. Station identification is the traveling public volunteer a good faith effort to prevent

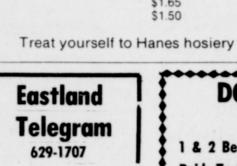

unintentional 'bleed over' interference by reducing operation on channels adjacent to Channel 9 on the Citizens Radio Service. We recommend that all

highway travelers communicate on a permissable channel other than Channel 10, preferably on several channels removed from Channels 9 and 11." This suggests the possibility

of extending the present use of Channel 19 by Western truckers for use by all moving vehicles in the U.S. and Canada Albert Honea, REACT Team

President, pointed out that additional proposed changes are still pending which would increase the number of channels in the Citizens Radio Service from 23 to 70. He also reminded local residents, that the Big Country REACT Team maintains a monitoring system on Channel 9 to provide them with motorists assistance and to handle all CB emergency calls. For additional information,

contact the Big Country REACT Team at Box 685, Eastland, Texas, 76448. JOLUTION

## The Monticello choo-choo. A little train that's helping fight the rising cost of electricity.

You're looking at what may be the shortest railroad in Texas.

The Monticello choo-choo runs only 12 miles from start to finish, but it's doing a big job hauling lignite coal to Texas Electric's Monticello power plant near Mount Pleasant.

The diesel-electric locomotive pulls seven to 15 cars. And each car is loaded with 100 tons of lignite per trip.

After unloading at the plant, the train is "backed" the 12 miles to the mining area. This saves the expense of a turn-around facility. On the trip back the engineer drives the train using controls in a special caboose.

Monticello is our second lignite-fired generating plant. We're building these plants because new supplies of natural gas and oil --the primary fuels we use to generate electricity -- are harder to get and more costly.

Lignite plants cost much more to build, which means electricity is going to have to cost you more. But the increase won't be as much. because lignite fuel is available and more economical than new supplies of natural gas and oil.

At Texas Electric we're continuing the orderly development of our power system so that you'll continue having the electricity you need. About 20% of your electricity this year

will be produced using lignite coal.

And the Monticello choo-choo is a mighty fine line that's helping do the job.

F. N. SAYRE, Manager, Phone 629-2651

#### MRS. SIEBERT FIRST GRADE

This week we have learned all five of the long vowel sounds and we also learned a rule about long vowels.

On Wednesday and Thursday, we had a special visitor: Mrs. Word who was the kindergarten teacher last year. She was so surprised to see how much some of the boys and girls had grown. We were so glad to see her again. Our leaders were Mark

Barry, Amy Gann, Bianca Duncan, Guy Duncan, Marty Hensley, Lorie Hazard, Johnny Kleiner, Timmy Sharp and Carol Kinnaird

#### MRS. ALLMAND FIRST GRADE

We have had an interesting week. We have taken achievement tests. With this behind us getting back on we are long vowel sounds and injoying P.E. We have done lots
