Peanut Harvest In Full Swing

Peanut harvest is progressing at a rapid rate in Eastland County. County Agent De Gordon reports that harvest is about 50 percent complete compared to about 30 percent this same time last year. The weather has been excellent for harvest during the last four weeks.

This peanut crop got off to a bad start as a cold wet spring delayed planting. Gordon explained. Wind blew out some stands and many farmers were forced to replant.

After the crop got started the temperatures moved upward and the 1975 peanut crop began to look better daily. Timely rainfall kept the crop looking better and better. The prospects for a bumper crop increased daily. Suddenly the timely rainfall ceased in Eastland County and the dry land fields began showing drought stress. At this point dryland producers saw their excellent yields prospects decline daily.

Time is running short for a very important rental housing survey now being conducted in Eastland.

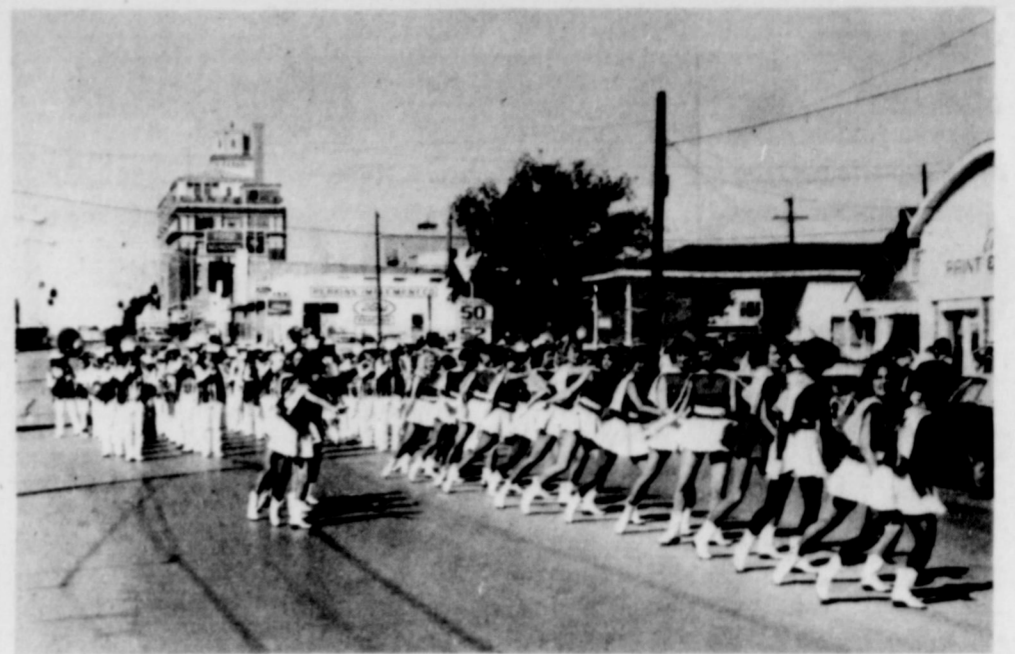

With most available rental property constantly remaining filled, with waiting lists, and daily requests throughout the town for apartments for rent, indications are that there does exist a need for additional apartment units here, but it must be accurately measured.

A major firm is considering constructing up to 36 apartments here and has made arrangements with the Eastland Bicentennial Committee to conduct the survey of rental needs.

Persons who think they might be interested are urged to complete the form (a sample appears in this issue) and return it immediately to the Eastland Chamber of Commerce or deliver it directly to Bicentennial Chairman Emmett Lasater. Additional forms may be secured at the Chamber office, KERC and at the Eastland Telegram.

Results of the survey will determine whether the project is built here, and the number will dictate the number of apartments. Persons who complete the form are not obligated in any way; the purpose is to determine the need for more apartments and is not an actual application for an apartment.

The firm is proposing 36 units, single level, modern apartments, and arrangements for location has already been made at a choice location in Eastland. Further details may be secured by contacting Chamber Manager James Wright at 629-2332.

Eastland & Coleman Duel To Be Exciting For Fans

District 9-AA competition gets underway Friday for the Eastland Mavericks as they travel to Coleman to take on the Bluecats in the first "counting" game of the season.

Kickoff time for AA teams in Coleman will be 8 p.m.

"A Day's Pay - United Way"

Eastland United Fund Volunteers are busy at collecting contributions toward the 1975-'76 Budget.

Theme is "A Day's Pay-the United Way", and President Norris Starr is urging volunteers to make their calls and emphasizing that the United Way proposes that all citizens participate. In most cases, employers are ready with their contributions, but it is important, Starr says, for all persons, the salaried, the self-employed, one and all, feel that they are a part of the United Way, by each participating with gifts and donations to the fund.

Volunteers are distributing lapel pins showing the United Way, and Eastlanders generally are eager to wrap the campaign up. Goal for the year is \$10,460. Port Arthur has become the first in Texas to complete its goal, \$730,237, and Eastland is traditionally among the tops in per capita giving and over-subscribing its goal.

Jim Wortman is drive chairman and Ken Reese is Assistant Drive Chairman. Ronny Patton is Vice President of the organizations.

Persons who have not been contacted directly may make their contributions directly to the Eastland United Fund by Postal Service.

A Day's Pay--the United Way!!

It'll be Cisco night for the Seventh, Eighth and Junior Varsity squads on Thursday evening as the three go to Cisco with the first game at 5 p.m. and succeeding games at 6 and 7:30 p.m.

Other District 9-AA teams began action last Friday as the Mavericks enjoyed their only open date of the season. In the first week's play, Cisco beat Breckenridge; Clyde downed Hamilton; and Comanche defeated Coleman.

The Mavericks are carrying an even-up win-loss record from the pre-season, having won over Dublin and Ranger, but losing to DeLeon and Albany.

The Mavericks and Bluecats are considered well-matched for the Friday night outing and a good number of Maverick boosters are expected to make the trip to Coleman to follow the action.

Friday night's duel should be the kind of game that proves exciting for fans and nerve-racking for coaches. Head Coach Doug Dallas reports. He sees the Coleman squad as a formidable competition, long on depth, attitude and spirit but about the same size as the Mavericks, weight-wise.

The Eastlanders will be facing probably its deepest two-platoon system to date, with the Bluecats made up of Juniors and Seniors.

"We've scouted every Coleman game", Dallas says, "and we're all agreed they're a constantly improving club. You could even call 'em an 'upset club'."

The Mavericks are in good shape with the exception of Ronnie Pinkerton who is still nursing an injured knee back in

shape, and won't see action for perhaps a couple of more weeks, Dallas said.

The Mavericks lost a trio of men a couple of weeks ago. Don't forget the 8 p.m. kickoff time in Coleman.

Halloween Carnival Sat. Oct. 25

The Halloween Carnival will be Saturday, Oct. 25, 6:30 p.m. to 9:30 p.m. and the Eastland Parents and Teachers Organization need your help to make the carnival another big success. Just clean out your closets and any misc. household items, canned goods or just anything you would like to donate will be greatly appreciated (except no clothing please). If any person or club has just had a garage or thrift sale, we will be more than glad to have your left overs.

For the hat booth we need any old hats and caps as we are depending on your donations for the success of this booth.

For the Halloween Hospital we need old sheets to be torn up for bandages.

All of these items may be delivered to the following places: Emory Walton garage, 708 West Sadosa; Kenneth Amburn garage, 505 Crestwood Drive or to Mr. Baze at the Elementary School. The deadline is Friday, Oct. 24, 12:00 noon. Please deliver these as early as possible so they may be distributed to avoid any last minute rush.

Thank you very much and we will see you at the carnival!!

Do You Remember

BY HERMAN DEMPSEY

There was a time when a county fair was held in the county seat. These fairs were so planned and arranged so that people from all over the county could display their prized products. It also provided an opportunity for people around the county to get acquainted with each other and exchange experiences. They shared their success during the year in unusual products or business deals that brought about satisfaction in their efforts as well as improvement in their financial conditions.

In addition to the carnival activities at the fair in Eastland, Texas, for the year 1927, to furnish entertainment for those attending the fair, probably the first night football game was played on the fair grounds. In those days it seems there was no age limit for high school football players. Consequently, the first team of the high schools was made up of large, mature players, then there was the second team that provided substitutes for the first team. The third team was used to fill in for scrimmage practice for the first team. After all that they had a squad that didn't fit any other place but wanted to

All members, former members and others associated with the Game Preserve are urged to attend and will be eligible to vote, Mr. Tyrone said. The Association was formed several years ago for the purpose of protecting game in an area that includes the Sabanno River, which extends from the east edge of Callahan County, all the way through Eastland County and into Comanche County.

better than usual, according to managers of the four drying plants located in the Rising Star, Pioneer, May and Cross Plains area.

Bob Medford reports a grade of 80, with a yield of 98.62 bushels per acre on 30 acres of irrigated land, which he leases from Mrs. Ruth Jones of Brownwood. Medford stated that he planted his Flor-Runners on May 5, using 105 pounds of seed per acre, four rows on a 72" bed. The crop was irrigated six times and dug on Sept. 26.

Jerry Winfrey, owner of Winfrey Feed and Peanut Company in Rising Star, stated that "Medford's 80, was the highest grade given to a peanut crop since I have been in the business."

Franklin Cox, Manager of the Pioneer Co-op, reports the following grades: a 79 for Larry and Clinton Wilson, L.L. Harris grade 79 and Terry Gey averaged 78, all of these grades were on Flor-Runner peanuts.

With approximately one-third of the 1975 harvest completed, it looks like a good year for the peanut farmers.

TOWER TALKS

OPEC Subsidy

WASHINGTON—Congress has been making you pay a subsidy to the OPEC cartel. It is time for the subsidy to stop.

There is at present a "two-tiered" price system for domestic crude oil. "Old" crude oil—oil produced from wells drilled before price controls were established—is sold at a controlled price of \$5.25 per barrel. Oil from wells drilled since then and from wells producing 10 barrels a day or less is sold at a freemarket price of approximately \$12 a barrel.

The chief effect of the two-tiered price system has been to depress domestic production of oil and natural gas, forcing Americans to become ever more reliant on artificially high priced OPEC oil.

Some members of Congress claim that removing the price controls for "old" crude oil would cost consumers billions of dollars by sending the price of "old" oil skyrocketing to the OPEC level of \$13 a barrel. The kindest description that I can make of these claims is that they are "wildly exaggerated."

The long term result of decontrol would be a stabilization—perhaps even a reduction—of petroleum prices. And the principal short term effect would be to end a \$3 subsidy Congress is providing OPEC for each barrel of oil it sells in this country.

OPEC receives its subsidy via the crude oil allocation formula of the Federal Energy Administration (FEA), the agency authorized by Congress to administer the price control program.

The overall price refiners in America pay for crude oil today is about \$10 a barrel. Refiners achieve this cost by mixing \$13 Arab crude with \$5.25 controlled domestic crude and some \$12 uncontrolled domestic crude.

In order to "protect" refiners who do not have access to supplies of low-cost domestic crude, the FEA forces refiners who have ample supplies to share with those who do not. A refiner who buys 100 barrels of OPEC oil is granted "entitlements" to buy 40 barrels of controlled domestic oil, which can be sold for about \$13 a barrel. A refiner can refine only as much low cost domestic oil as he has "entitlements" to do so.

The entitlements program is a good deal for those refiners—principally in the Northeast—who have shortages of domestic crude, but it is a very bad deal for consumers.

The entitlements program raises the demand for foreign oil by lowering its net price to refiners to \$10 a barrel. This helps stabilize the OPEC cartel by giving it a larger market than it otherwise would have.

Without price controls and the entitlements program, OPEC oil would have to compete with increased domestic supplies which would sell at a lower price. Either the OPEC price would drop, or there would be less OPEC oil in the "mix" bought by American refiners. The result, in either case, would be lower prices to consumers.

Cisco Writer's Guild Adopts Constitution

The Cisco Writers Guild met Tuesday evening to discuss a constitution which would formally organize the group. After amendments, Articles II and III were adopted in full. Article I was adopted with the exception of a name which was left open for discussion at the next meeting. Article IV was left for adoption at the next meeting since it is an enacting clause, and it is hoped more members will be present at November's meeting to help elect officers.

The Cisco Community Chest drive requested the help of the Cisco Writer's Guild at Tuesday's meeting. Anyone wishing to write a story for publication on one or more of the organizations receiving monies from the Community Chest is asked to contact the Cisco Press, at 442-2244.

Everyone is urged to remember that the Cisco Writer's Guild meets the first Tuesday of every month at 7:30 p.m. in the Cisco Chamber of Commerce. The date of the next meeting is November 3. Please plan now to attend the meeting as officers for the year will be elected.

ground to await a new life in the spring. Now, we wait for the autumn oranges and golds on the trees, which will disappear as fast as they came.

Life seems to move at a slower pace in the early fall and sometimes we find ourselves in our lowest ebb.

Just think how many times you have started to prepare a meal with the attitude of "getting it on the table and getting the mess cleaned up".

It is a never-ending circle, but you can control the whole situation with your attitude. Before you begin a meal, get yourself in the proper frame of mind.

It may take several days for your family to notice any improvement, but give it time, they will notice.

Letters to the Editor

Editor:

Do you have any stories in your files about poltergeist activities in March, 1881, at the B.G. Woodson log cabin near the Leon River, outside of Cisco?

My source is the Journal of American Folklore, Vol. 54, pp. 371-382, 1951. Their story also says this:

In January, 1926, a Woodson in-law suggested that the "Spook" activity meant there was treasure on the property. He urged Humble Oil to drill there. Humble held leases that ran from 1925 to 1932. But no drilling was done.

Here's how the site of the log cabin was described in the Journal of American Folklore: "The old Woodson place is five miles south and half a mile west of Cisco. . . and about two hundred and fifty feet from the Leon River. . . surrounded by low-lying hills."

Here's how Exxon in Houston describes it from the old Humble leases: "NE 1/4 section 82 block 3 H and T CRR County Survey."

If you can answer any of these questions, or put me in touch with someone who can, I'll be very grateful:

- 1. Has anyone held oil leases on that property since 1955? Did they drill? If so, what did they find?
2. Who owns the property

now? Is it still farmland?

3. Are any remnants of the cabin still standing? (In 1951 the site was "heavily grown up in trees, with only the stone chimney standing.")

I'm writing the "Log Cabin Poltergeist" story as one in an AP Newsfeatures series and would like to update it as much as possible.

Many thanks and best regards.

Thursday Afternoon Club Holds First Meeting

The Thursday Afternoon Club held its first meeting of the new club year at 10:30 a.m. in the Woman's Club on Oct. 2. Mrs. H.L. Hassell, President, welcomed the members and told of our receiving the first Chamber of Commerce Award for Community Improvement in September. The award said in part, "For outstanding achievement in an effort to improve and enhance our community" and Mrs. James Horton accepted the award on behalf of the Eastland Centennial Memorial Library and the Thursday Afternoon Club.

Mrs. Fred Davenport, who has been a member of the club for 33 years, gave a resume of the club history from its start in 1901 as the Hawthorne Club, its change in 1916 to its present status as the Thursday Afternoon Club, to the present day. She said that since the Library is the Club's project, she would close with a quotation by Addison: "Books are the legacies that genius leaves to mankind to be delivered down from generation to generation."

The Yearbook Committee, Mrs. L.E. Corbell, Iral Inzer, and H.L. Hassell, served a delicious brunch to the following members: Mrs. Arthur Murrell, Larry Kirk, Cyrus Frost, Ben Hamner, J.O. Governor Proclaims October "Texas Immunization Month"

AUSTIN--Gov. Dolph Briscoe has proclaimed the month of October as "Texas Immunization Action Month" in State Capitol ceremonies. In signing the proclamation, the Governor said "Surveys indicate that approximately 25% of the nearly 1.5 million pre-school age children in Texas are not

protected properly from polio, measles, mumps, rubella, diphtheria, pertussis (whooping cough) and tetanus."

Texas Immunization Action Month, co-sponsored by the First Lady's Volunter Program of the Governor's Office and the Texas Department of Health Resources, will concentrate on

making the public aware of the importance of vaccination of youngsters against childhood diseases. Under the slogan "Our Children--Protect Them From Harm" both public and private health providers have joined with volunteers to increase immunity levels for all Texans, with emphasis on pre-school age children who are most susceptible.

Mrs. Dolph Briscoe, honorary chairperson of the health project, commented, "I remember the days before many of today's vaccines were available. The Governor and I, like many other parents, feared for our children's health safety, because there was nothing to protect them from polio and many of the other so-called childhood diseases.

"We want all parents in Texas to enjoy their children's growing years without fear of these crippling, sometimes fatal diseases," Mrs. Briscoe added.

Honorary Chairperson of Texas Immunization Action Month, I hope every parent will join with me in making sure our children are properly and currently protected from diseases. Call your doctor or local health official and be sure. Protect your children from harm--you couldn't give them a

Immunizations Tot Kindergarten To Enroll

The Green Tot Kindergarten will enroll Monday, October 13, 1975, from 4 to 6 p.m. at 903 West Plummer Street. Please do not come without first calling Mrs. Ferne Green at 629-2460. Please bring the tot who is to be enrolled so they will see their room and meet the teachers.

Then on Tuesday the parents will not come in. The tot is dropped off out in front. (Big folks don't need mama to go to school with them. It is very hard on the tot, the other children, the parents and teachers if parents come in. It upsets the entire program. This is to get the tot ready for public school where teachers have a larger

group and are trained to cope with the timid child, which is done much smoother without parents. We meet Monday, Tuesday, Wednesday morning any time after 9 a.m. and pick up the children before 12 noon.

Mrs. Ferne Green returned home after spending ten days with Otis and Norma Green and Holly in San Angelo. They attended "The Hiding Place" and four winning football games and a huge homecoming bond fire, which was Holly's first bond fire. Then on the weekend Yvonne and Neil Barton and Howard joined them all back in Eastland and celebrated Yvonne's birthday.
